TANKERS: The petroleum port is located at the far East area of the port of Naples and consists of the Vigliena Pier, Progresso Pier and the East side of Bausan Pier. The Petroleum pier is exclusively used for handling petroleum products at its 7 berths, and several pipelines connect these berths with the Naples Refinery of Mobil Oil Italiana and the bulk plants belonging to A.G.I.P., Esso Standard Italiana, Shell Italiana and State Railway Organisation which are all located in industrial area of Naples adjoining the petroleum port at a distance not exceeding 3 miles. The Bausan pier with berth No. 55 is used exclusively by Mobil Oil Italiana for crude oil unloading and fuel oil loading. The imported crude oil is then pumped to the Naples Refinery. A new plant, owned by Mobilchimica Italiana is now operating in the Industrial area and loads its petrochemical products into Vigliena Pier. New petroleum basin located at the Eastern side of port can berth two supertankers simultaneously up to 40 ft. draft.
FRESH WATER: Water pipelines are connected to all wharves and piers in Port. Water barges available.
FUEL: All grades available. Delivered by barge subject to advance notice given.
REPAIRS: All types of ship repairs can be carried out by the shipyards of Soc. Anonima Navalmeccanica, and Soc. Cantieri Pellegrino, at Pontile Vigliena.
DRY DOCKS: Three graving docks, measuring 202×28.90 metres, 113×20.50 metres, 349×45 metres.

Two floating dry docks, 100×17 metres (Italian Navy), 233×37 metres.
CUSTOMS ALLOWANCES: 40 cigarettes and 1 opened bottle wine/spirits per man.
IDENTIFICATION CARDS: Shore passes given by local police.
AIRPORT: Capodichino Airport, situated 8 km. from city. Full international services.
POLICE/FIRE/AMBULANCE: Police tel. 315032; Fire 330210; Ambulance 351450.
TELEPHONES: Telephone system permits the connecting up of the ships in all berths with the city network.
TIME: GMT plus 1 hour. Summer-time: May to September GMT plus 2 hours.
HOLIDAYS: Local and national holidays: New Year's Day (1st January); Epiphany (6th January); St. Joseph (19th March); Liberation Day (25th April); Labour Day (1st May); Easter and day after Easter; Ascension Day; Corpus Domini; Proclamation Day (2nd June); St. Peter and St. Paul (29th June); Assumption B.V. Maria (15th August); Local Saints' Day (19th September); All Saints' Day (1st November); Victory Day (4th November); Immaculate Conception (8th December); Christmas Day (25th December); and 26th December.

REPATRIATION: It is possible to arrange repatriation.
HOLIDAYS: Cargo work can be arranged on all official holidays.
SHORE LEAVE: Allowed.
AUTHORITY: Il Comandante, Capitano di Porto.

AGENT: Gastaldi & C. S.p.A., 27, Piazzale Premuda. Cables: "Dick". Tel:. 33080.

PORTO TORRES (Sassari): 40.51 N. 08.24 E.

DOCUMENTS:
1 Crew List.
1 Passenger List.
1 Maritime Health Declaration.
1 Arrival Report.

PILOTAGE: International Code Signals are used to call Pilot. Pilot station telegraphic address, Corpo Piloti Porto Torres, tel. P. Torres 54936. No VHF connection at present. The pilot boats carry international pilot signals. The Pilot normally boards about 1 mile from port entrance. On request, vessel can be boarded 3 miles off port entrance.
RESTRICTIONS: The oil terminal is exposed to winds and swell from N.W. to N.E. Heavy N.E. swell may delay berthing of larger vessels. Vessels should be ready to leave the berth if necessary due to adverse weather conditions.
ANCHORAGE: About 1 mile from the green light on head of West Mole in depths of 25 m.
MAX. SIZE: Inner port: length 120 m., draft 7 m.; Outer port: length 150 m., draft 8 m.; West Mole: length 150 m., draft 8–10 m.
S.I.R. Terminal: Pier A, length no limit, draft 9 m.; Pier B, length no limit, draft 12 m.; Pier C, length no limit, draft 15 m.; Pier E, length no limit, draft 8 m.
S.B.M. mooring: up to 300,000 tons.
HEALTH: Pratique is given by the Port Medical Officer who boards all vessels coming from foreign ports. No Radio pratique at present.
RADIO: Coastal radio station, Porto Torres Radio P.T., call sign IZN, operating on 2182 kHz. between 06.00–12.00 hours and 16.00–22.00 hours. A continuous service is imminent (beginning 1971).
TUGS: Join vessel about ½ mile from port or from S.I.R. Piers. Ship's lines normally used. Four tugs available.
TANKERS: Largest tankers afloat can moor at single Buoy mooring located 1·7 miles N.N.W. of S.I.R. terminal.
BERTHING: While dry cargo vessels may enter port at any time, tankers are only allowed to berth between sunrise and sunset; sailing is permitted at any time.
STEVEDORES: There are two ordering times each day. The first at 08.00 and the second at 13.30. It is possible to order gangs outside normal working hours through ship's Agents.
MEDICAL: All facilities available. Nearest hospital located at Sassari, 18 km. away.
DENSITY: Salt water.
FRESH WATER: Can be supplied in limited quantities to vessels in port and in the roads.
FUEL: All grades available by pipeline at S.I.R. piers. Elsewhere, can be supplied by barge, subject advance notice of 12 hours.
GANGWAY/DECK WATCHMEN: No authorised shore service available.
OPENING/CLOSING HATCHES: Normally done by crew, can be done by stevedores on request.
CUSTOMS ALLOWANCES: 40 grammes tobacco per man. Normal daily consumption wine/spirits allowed.
IDENTIFICATION CARDS: Not required.
CONSULS: No local consular representation.
REPAIRS: Only minor repairs can be effected locally.
REPATRIATION: can be arranged through Agents.
AIRPORT: Nearest at Alghero-Fertilia, 34 km. away. Daily flights to main Italian cities.
TIME: GMT plus one hour. Summer-time, clocks advanced 1 hour between 24th May and 21st October.
HOLIDAYS: New Year's Day (1st January); Epiphany (6th January); St. Joseph (19th March); Liberation Day (25th April); Labour Day (1st May); Easter Day, Ascension Day, Corpus Domini (variable date); Proclamation Day (2nd June); St. Peter and St. Paul (29th June); Assumption B. Norway tel. 24.5.47
Sweden ,, 23.5.05
Spain ,, 24.0.14
REPAIRS: Minor engine repairs can be done.
REPATRIATION: Can be arranged.
AIRPORT: Rimini, 55 km. away. Miramare Airport, international services in summer. Venice, 147 km. away. Marco Polo international airport.
TIME: GMT plus one hour. From May to September, GMT plus 2 hours.
POLICE/FIRE/AMBULANCE: Police, tel. 22.4.66; Ambulance, 22.3.11; Fire, 22.2.22.
TELEPHONES: Cannot be installed on board.
SHORE LEAVES: Allowed. Launch service available for vessels in the roads.
AUTHORITY: Capitaneria di Porto Ravenna, Via Antico Squero 9, tel. 22 100, 24 1 24.

AGENT: Gastaldi & C. S.p.A., 23, Via Carducci, PO Box 25. Cables: "Dick". Telex: 55103. Tel.: 23505.

SAVONA (including Vado Ligure): 44.18 N. 08.29 E.

DOCUMENTS:
Arrival Report for Port Authority.
Cargo Manifest.
Provisions and Crew Personal Effects Manifest.
8 Crew Lists.
Safety Certificates.
PILOTAGE: Ordered through Agent. Telegraphic address Piloti Porto di Savona. Pilot launch is black with white band. To call Pilot, use flag or light signals according to International Code. For vessels bound for Savona or Vado Ligure, Pilot boards about ½ to 1 mile N.W. of the red light at Savona port entrance.
ANCHORAGE: Depths of 25 metres. Important limit: it is forbidden to anchor North of bearing 270° from red light between 1st October and 14th May. It is forbidden to anchor East of bearing 360° from the white light between 15th May and 30th September.
RESTRICTIONS: Night entrance is considered for each case depending on type of mooring and vessel's draft. At Savona berths, vessels on maximum draft berth in daylight at high tide. No restrictions on un-berthing.
MAX. SIZE: Savona inner port, max. draft 9 m.; Savona Silos, max. draft 10·50 m.; Vado Ligure Roads, depending on berth depth.
HEALTH: Request free pratique by radio from Sanimare Savona prior arrival.
RADIO: Genova Radio or Roma Radio. VHF at Harbour Master's Office (tel. 22464).
TUGS: Available, join vessel in vicinity of Savona port entrance or at Vado Ligure just off the berth. Ship's line usually used. If tug line used, tariff plus 20% is charged.
BERTHING:
Savona: Funivie (S. Giuseppe), 32 ft. depth; Savona Silos S.p.A., 30 ft. depth.
Vado Ligure: Fornicoke Pier, 38 ft. depth; Esso berth, 32 ft. depth; Vadoil berth, 39 ft. depth; Shell berth, 31 ft. depth; SARPOM buoy berth, in 60 ft. water serving Quiliano/Trecate pipe-line; SARPOM buoy berth, in 55 ft. water serving Savona/Trecate pipe-line; Chevron berth, 31 ft. depth.
STEVEDORES: Ordered by ship's Agent, no separate ETA required.
MEDICAL: All facilities available.
TANKERS: No slop reception facilities.
DENSITY: 1025.
FRESH WATER: Obtainable at berths by pipe-line. Barge available for quantities in excess of 60 tons.
FUEL: All grades available by barge.
FIRE PRECAUTIONS: Watchmen on board tankers or vessels handling dangerous cargo.
OPENING/CLOSING HATCHES: Can be handled by ship's crew or stevedores.
CUSTOMS ALLOWANCES: Bond Sealed. Small quantity cigarettes and spirits permitted for consumption while in port.
IDENTIFICATION CARDS: Shore passes given by local police.
CONSULS:

Finland	tel. 28813	Norway	tel. 27333
France	,, 38451	Spain	,, 27498
Netherlands	,, 30633	Sweden	,, 28813

REPAIRS: All types of repairs possible.
HOLIDAYS: 1st January; 6th January; 19th March; 25th April; Easter Monday; 1st May; 7th May; 28th May; 2nd June; 29th June; 15th August; 1st November; 4th November; 8th December; 25th and 26th December.
POLICE/FIRE/AMBULANCE: Police, tel. 28868; Ambulance, 20125; Fire, 21000.
TELEPHONES: Can be connected on board.
SHORE LEAVE: Allowed.
AUTHORITY: Capitaneria di Porto, tel. Savona 20940.

TARANTO: 40.29 N. 17.15 E.

DOCUMENTS:
6 Crew Lists.
6 Passenger Lists.
Provisions Manifest.
Manifest of Crew Personal Effects.
Cargo Manifest.
Arrival Report, completed on arrival.
Maritime Declaration of Health Certificate, completed on arrival.
Ship's Certificates including Italian Authority Dues.
Vaccination Certificates for sighting.
PILOTAGE: Piloting in Port of Taranto is compulsory to all vessels over 500 GRT. Vessels are taken 1 mile off S. Vito Cape Lighthouse. Also for shifting from berth to berth Pilot assistance is compulsory.
RESTRICTIONS: Entry during the day only.
MAX. SIZE: Tankers up to 49 ft. draft at buoy mooring. Bulk carriers to 39 ft. draft at Italsider pier.
HEALTH: Free pratique is automatic for vessels coming from Italy, France, Great Britain, Ireland, Germany, Belgium, Holland and Greece. From other countries it may be obtained via radio, by applying to "Sanimare Taranto" between 12 and 6 hours before arrival.
Smallpox vaccinations available. Yellow fever vaccinations could be arranged by calling Bari port doctor to Taranto with two days notice.
TUGS: Towage service is not compulsory and is supplied by one 1,350 h.p., one 1,000 h.p., one 800 h.p. and one 427 h.p. tugs, belonging to Messrs. Rimorchiatori Napoletani. It is expected that the service will be improved in the near future with more powerful tugs.
BERTHING: *Outer Harbour:* Quays No. 1/2, combined length, 1,050 ft. (32 m.); maximum draft, 26 ft. 3 in. (8 m.); Quay No. 3, length, 820 ft. (250 m.); maximum draft, 27 ft. 10 in. (8·50 m.).
Italsider Pier: Eastern Side: (for discharge of ore, coal, steel scraps): Length, 1,456 ft. (444 m.); depth alongside, 39 ft. 6 in.; maximum draft allowed, 39 ft.
Western side (for discharge and loading of finished goods): Length, 1,566 ft. (477 m.); depth alongside, 32 ft. 8 in. (10 m.).
Safety. During winter time, berths are subjected to heavy swell which may force vessels to leave same, as the breakwater effectively protects only the Eastern side. However, work is now in progress to lay new breakwater, which should also render safe the Western side.
Head of the Pier: Width, 448 ft. (136·55 m.); maximum length of vessel, 459 ft. (140 m.) or up to 525 ft. (160 m.), subject to vessels laying at Western and Eastern sides being berthed at not less than 164 ft. (50 m.) from head of pier; depth alongside, 32 ft. 8 in. (10 m.).
Cement Pier: Maximum depth is 8·50 m.; suggested maximum draft 8·20 m. (26 ft. 10 in.); maximum vessel length acceptable, 120 m.; rate of loading (in bulk): up to 280 m./ton per hour; (in bag): up to 35 m./ton per hour.
TANKERS: *Aviation Gasoline Oil Jetty.* Tankers moor with two anchors and with stern made fast to four buoys. Connection by stern. Vessel lifting up hoses (9 in.) from the jetty (breadth 9 ft., length 1,476 ft.). Length of pipe-line from ½ to 1½ miles.
Access to vessel by boat. No water or bunkers available. Maximum draft 25 ft. Night crossing of Mar Piccolo up to and from jetty is not allowed.
Navy Oil Jetty: Pier, terminating in two quays, which may accommodate two vessels each. Max. draft 33 ft., hoses 300 mm. Night movements allowed.
Petroleum Pier: Exclusively used for handling petroleum products at its four berths and is connected by several pipe-lines with Shell Italiana Refinery, as well as with the bulk plants belonging to Agip, and Industrie Chimiche De Gaeta, which are all located in the industrial area of Taranto adjoining to the petroleum port. Access to the pier is through a dock 350 m. long and 33 m. wide. The pier itself is 560 m. long.
Berth No. 1 and 2 (aft berths), maximum length of vessel, 175 m. (557 ft. 3 in.); maximum draft, 9·50 m. (31 ft. 2 in.). Maximum depth, 10 m. (32 ft. 9 in.). Bunkers from line, (8 in. hose, 10 in. pipe-line). Water, by barge. Loading arms, 2 of 10 in., 3 of 8 in.
Berth No. 3 and 4 (fore berths), maximum length of vessel, 208 m. (682 ft. 5 in.); maximum draft, 10·50 m. (34 ft. 5 in.); maximum depth, 11·00 m. (36 ft. 1 in.). Bunkers and water, as per berths 1 and 2. Loading arms, 6 of 10 in.
Pier is fitted with one line for each product to be loaded (14 lines) and a 20 ft. line for ballast discharge. Any quantity of ballast may be received by the pier. Access to the pier for provisions only via boats.
Shell CBM. Shell terminal for discharge of crude oil is situated in Mar Grande N.E. of Saint Paul's Island (1·4 miles from light placed on head of Saint Paul breakwater). Vessels moor at 5 buoys and with both anchors down. Buoys are equipped with intermittent red lights and quick release hooks.
The hoses (two of 12 in.) are signalled by marker floats and have to be lifted from bottom by vessel (derricks capacity must be at least 8 tons). The terminal is connected with the Refinery by a 34 ft. pipe-line, 3 kilometres long. Maximum length acceptable, 300 m. (984 ft. 4 in.); maximum draft, 49 ft.; maximum deadweight, 90,000 tons.
Two tugs suggested for berthing with good weather and without N.W. winds. Night mooring/unmooring allowed.
Agip/Anic Terminal: Vessels moor with two anchors and with stern made fast to four mooring buoys.
Maximum draft 26 ft. 3 in. (8 m.). Under rough weather conditions vessels may have to leave the terminal, position being exposed. No mooring at night allowed, while unmooring is permitted. Supplies, bunkers, water, and connections with vessel by barge.
For methanol, tank inspection is usually carried out in the road, before berthing.
Pozzi Ferrandina SPA Terminal: Three sea lines, the hoses of which must be lifted from the sea bottom by ship's gears. One sea line (6 in.) is used to load methanol and one (6 in.) to load soda. Third

(3 in.) sealine is for water. Port side hose connection. Pipe-line length ¼ mile.

Vessels moor with starboard anchor and made fast to three buoys astern and one port. Night movements are not allowed. Maximum draft 22 ft. Maximum length 85 m.

Industrie Chimiche Di Gaeta, G.I.D. Terminal: Situated further West of Pozzi Terminal, it has three sea lines with hoses of 6 in. and 10 in., which have to be lifted from sea bottom.

Vessels moor with port anchor and make fast to three buoys astern and one buoy forward starboard. Maximum draft 22 ft. Night movements not allowed.

BRIDGES: One bridge in inner harbour. Opening times: 00.20–04.20, 08.30, 15.10, 21.10. Opening on Agent's request to Harbour Master (24 hours notice requested for day opening time). Maximum speed in the canal, 6 knots.

STEVEDORES: Available. Normal working hours are from 07.00 to 15.00. For work performed in overtime/and/or holiday, the "Tariffs to the Workers" are increased as follows:

Day	*Shift*	*Increase*
Weekday	15.00–23.00 hrs.	40%
	23.00–07.00 hrs.	80%
Saturday	11.00–15.00 hrs.	40%
	15.00–23.00 hrs.	40%
	23.00–07.00 hrs.	80%
Sunday	07.00–15.00 hrs.	50%
	15.00–23.00 hrs.	80%
	23.00–07.00 hrs.	100%

DENSITY: 1029 and 1031. Tides negligible. Maximum variation 1 ft.

FRESH WATER: Available at all quays from 0.700–17.00; also available from barges, one of 200 and one of 250 tons.

FUEL: Available by barges from Agip; Shell and Sincat. 48 hours notice requested, aside from usual stemming.

Lubricating Oil. Available from Shell, Mobil and Esso.

FIRE PRECAUTIONS: Performed by fire brigade and compulsory to all tankers undergoing repairs/dry docking. It is requested and paid for by the shipyard, which afterwards charge same directly to the Owners.

WATCHMEN SERVICE: Available. Hourly cost, lire 450 per watchman used (lire 500 on Sunday and holiday).

OPENING/CLOSING HATCHES: Usually carried out by crew, but stevedores also carry out this operation at 1,202 lire per hatch.

CUSTOMS ALLOWANCES: 40 cigarettes and one opened bottle wine/spirits per man.

IDENTIFICATION CARDS: Required. Shore passes issued by local police.

CONSULS: Spain, France, Panama and Norway.

REPAIRS: All major repairs undertaken.

DRY DOCKS: Dimensions are:

	(1) *Benedetto Brin*	(2) *Ferrati*
Length at support level	622 ft. 4 in.	789 ft. ¼ in.
Length overall	688 ft. 5 in.	807 ft. 1 in.
Breadth at support level	105 ft. 0 in.	131 ft. 8 in.
Depth	31 ft. 1 in.	38 ft. 2 in.

REPATRIATION: Good facilities exist.

AIRPORT: Located at Grottaglio, 20 minutes by car from city. It is served by two daily connections with Rome and one with Venice.

TIME: GMT plus 1 hr. winter. GMT plus 2 hrs. summer.

HOLIDAYS: New Year's Day (1st January); Epiphany Day (6th January); Saint Joseph's Day (19th March); Liberation Anniversary (25th April); Easter Monday; Ascension Day (19th May); Corpus Domini Day (9th June); Labour Day (1st May); Republic Foundation's Day (2nd June); Saint Peter and Paulus Day (29th June); Assumption Day (15th August); All Saints' Day (1st November); National Unity Day (4th November); Immaculate Conception Day (8th December); Christmas Day (25th December); Saint Stephen's Day (26th December); Town Saint Patron's Day (10th May, at Taranto).

SERVICES: Compass adjusting, etc. available.

SHORE LEAVE: Allowed.

PORT AUTHORITY: Il Comandante Colonello di Porto. Ministero della Marina Mercantile.

AGENT: Gastaldi & C. S.p.A., 17, Corso Vittorio Emanuele. Cables: "Dick". Telex: 81148 Bari. Tel.: 23473.

TRIESTE: 45.39 N. 13.45 E.

DOCUMENTS:

For Customs:
- 2 Cargo Manifests.
- 1 Stores List.
- 1 Provisions List.

For Port Authorities:
- Arrival Report.
- 2 Crew Lists.
- 3 Passenger Lists.

For police:
- 1 Crew List.
- 1 Passenger List.
- Shore Passes, provided by Agents.

For Port Health:
- Maritime Declaration of Health.

PILOTAGE: Is compulsory for vessels over 499 GRT. Pilots meet incoming vessels about 1 mile off Lanterna Vecchia.

ANCHORAGE: No pilot required to anchor in roads.

MAX. SIZE: Tankers up to 55 ft. draft.

HEALTH: Free pratique is granted by the local Health Officers who board the vessels on arrival together with Port Authorities. The pratique can also be requested by cable, addressed to "Sanimare – Trieste" and stating the port of origin, the number of crew and general health condition on board.

RADIO: Trieste Radio – call sign IQX.

TUGS: Normally join vessel at pilot boarding station. Ship's lines usually used. If tug lines used, the tariff is increased by 10%. Tug assistance is compulsory for tankers.

BERTHING: Maximum draft allowed at berths as follows:

Punto Franco, Vecchio, ore pier, 28 ft.; Other berths, 21 ft. Punto Franco, Nuovo, ore pier, 30 ft. silos, 31 ft. 5 in.; general cargo, 31 ft. Punto Franco, Scalo Legnami, 24 ft. Molo Martello, 30 ft., max. length of ship, 171 m. Italsider, berths, 45 ft. Siot, terminal, 55 ft. Pontile Aquila, oil pier, 38 ft. Italcementi, berths, 30 ft. Vetrobel, berth, 30 ft. A.F.A., berth, 21 ft.

STEVEDORES: Working hours 0800–1200 and 1300–1700; Monday to Friday. Gangs to be ordered by 1500 to commence at 0720 following morning; by 1100 to commence at 1300.

MEDICAL: All facilities available. Preferable order in advance if required on holidays.

TANKERS: No slop discharge facilities; no repairs allowed to tankers at loading/discharge berths; no trucks or lorries allowed at Aquila Oil Pier which can only be approached by motor boats.

Transalpine Pipeline Terminal. The TAL tanker terminal provides the following facilities: Main pier, 1,870 ft. long; Mooring pier No. 1, 1,558 ft. long; Mooring pier No. 2, 1,607 ft. long; draft allowed, 55 ft.

Piping layout – one crude oil line 42 in. diam, for each mooring pier; one main manifold of 42 in. diam.; one 42 in. line from main manifold to tank farm; two lines for bunkering purposes, 42 in. diam. for fuel oil service, 10 in diam. for diesel oil service; one 8 in. line for fresh water service.

DENSITY: 1025.

FRESH WATER: Available by pipe-line at all berths.

FUEL: All grades available, loading rate about 250 tons per hour. 48 hours notice required.

DEVELOPMENT: New mole No. VII in Punto Franco Nuovo, most up-to-date equipment. New dry dock 350 m. long under construction.

GANGWAY/DECK WATCHMEN: Available but not compulsory.

OPENING/CLOSING HATCHES: Optional, but stevedores usually perform this operation for convenience.

CUSTOMS ALLOWANCES: 50 cigarettes for each man and one bottle wine/spirits between 5 men. Only one allowance given while vessel in port.

IDENTIFICATION CARDS: Shore passes are issued by local police.

CONSULS:

REPAIRS: All kinds of hull, deck and engine repairs can be carried out by Arsenale San Marco, San Rocco, Cantieri Navale Giuliano, San Augusta, and other yards.

DRY DOCKS: Four dry docks available, the largest of which is 206·96 m. long; 30·0 m. wide, 27·60 m. depth and 8·25 m. sill depth.

REPATRIATION: No facilities.

AIRPORTS: 30 miles distant. Two flights daily to Venice/Milan and Rome for international connections.

TIME: GMT plus one hour. Summertime: GMT plus 2 hours.

HOLIDAYS: New Year's Day (1st January); Epiphany (6th January); St. Joseph (19th March); Liberation Day; (25th April); Labour Day (1st May); Good Friday, Easter Monday, Ascension Day, Corpus Domini (variable dates); Proclamation Day (2nd June); St. Peter and St. Paul (29th June); Assumption B.V. Maria (15th August); All Saints' Day (1st November); St. Giusto (3rd November); Victory Day (4th November); Immaculate Conception (8th December); Christmas Day (25th December); Boxing Day (26th December); Cargo work can be arranged on the above days.

POLICE/FIRE/AMBULANCE: Police, tel. 223; Fire, 2222; Ambulance, 24024.

TELEPHONES: Can be installed on board.

SHORE LEAVE: Allowed.

AUTHORITY: Ente Autonome del Porto di Trieste. C.P. 569 Trieste.

AGENT: Gastaldi & C. S.p.A., 7, Via Diaz, PO Box 1321. Cables: "Gastaldico". Telex: 46105. Tel.: 31275.

VENICE: 45.26 N. 12.20 E.

DOCUMENTS: Minimum number of ship's papers required upon arrival:

By Port Health
- 2 copies Passenger List.
- 2 copies Crew List.

By Police
- 2 copies Passenger List.
- 2 copies Crew List.

By Ship's Agents
2 copies Passenger List.
2 copies Crew List.
2 copies Cargo Manifest.
By Customs
2 copies Cargo Manifest.
2 copies Provisions and Stores List.

PILOTAGE: Pilot boards 2 miles from breakwater. Master can contact Pilot by radiotelephone, VHF Channel 114.

ANCHORAGE: In position 45° 26′ N., 12° 20′ E. No restrictions, ample depths of water.

RESTRICTIONS: Advisable to enter during day-time and with favourable tide. Vessel up to 29 to 30 ft. draft can enter at high water. Vessel of this size can berth alongside with use of a pontoon. Tankers; normally restricted to 31 ft. draft.

HEALTH: Health Officer Boards as soon as vessel is berthed. Pratique can be obtained by radio prior arrival. Radio request to Sanimare Venice through Trieste Radio.

TUGS: Tugs are available in plenty and will join vessel at breakwater and/or off Lido when proceeding to S. Nicolo. Ship's lines have to be used.

BERTHING: Banchina Piave have a total quayage of 2,760 ft. long with a depth of water varying from 26 to 28 ft. at low water.

Banchina Tagliamento have a total quayage of 2,500 ft. long with a depth of water varying from 26 to 29 ft. at low water.

Testata Marmi have a total quayage of 720 ft. long and 28 ft. depth of water.

Banchina Palazzo have a total quayage of 525 ft. long and a depth of water of 26 ft.

Banchina Isonzo have a total quayage of 2,360 ft. long with depth varying from 24 to 29 ft. at low water.

Testata Silos have a total quayage of 330 ft. long with a depth of water 21 ft. at low water.

Banchina S. Marte e Magazzini Generali Punto Franco (Free Port) have a total quayage of 2,950 ft. long with a depth of water varying from 21 to 23 ft. at low water.

Porto Marghera:

Leghe Leggere with a depth of water 27 ft. at low water.

Radice Molo "A" with a depth of water 27 ft. at low water.

Banchina Veneto with a depth of water varying from 22–25 ft. at low water.

Banchina Lombardia with a depth of water 28 ft. at low water.

STEVEDORES: The Provveditorato al Porto Venice are exclusively entitled to manage all the commercial traffic and to provide by their own means the commercial work in the harbour including stevedores. Vessel should en route ETA cable to Agent at least 48 hours prior vessels arrival to arrange gangs.

MEDICAL: Hospital facilities always available. No notice required in advance.

TANKERS: Tank washing cannot be disposed of inside port. Diameter of load/discharge lines 8–12 in. Discharging berths for tankers at Porto Marghera: Darsena IROM, length 570 ft. depth 35 ft. Tankers over 31 ft. draft require special approval. There are also moorings available at Esso, Shell and Agip piers for similar sized vessels.

SALINITY: Average salinity of water inside port 1010.

FRESH WATER: Plenty available. Approx. cost: from quay per ton – Lire 240, from barge per ton – Lire 600.

BUNKERS: All grades available and delivered by barge.

DEVELOPMENTS: Work now in progress on the re-opening at Port entrance of Malamocco, at point of the island of the Lido, where a canal 12 metres deep will be dredged to Port of Marghera. This canal will allow large tankers to coastal storage tanks without passing through urban centre of Venice.

CUSTOMS ALLOWANCES: The Customs require from the ship a complete list in duplicate of Provisions and Stores. It is particularly important that the quantities of items such as tobacco, cigarettes, spirits, coffee, matches, pepper, salt, spices, cars, chocolate, should be given accurately. Customs Officers will supervise the issue while ship is in port. Amount of tobacco allowed out of Bond: 50 cigarettes per man for all foreign vessels except British and U.S.A. flags. 20 cigarettes per day per man on British and American flag vessels.

CONSULS: Following are Consulates maintaining their offices at Venice:

Argentine	Germany	Panama
Austria	Greece	Peru
Belgium	Guatemala	Portugal
Denmark	Lebanon	Spain
Finland	Liberia	Sweden
France	Norway	Switzerland
Great Britain	Holland	Uruguay

REPAIRS/DRY DOCKS: There are ample facilities for repairs. Following are particulars of Venice dry docks:

Minore	*Maggiore*	*Principe*
298·8 ft.	526·3 ft.	820·3 ft. extreme length
58·4 ft.	79·8 ft.	117·8 ft. breadth of entrance
1·0 ft.	1·0 ft.	3·1 ft. height of sill above bottom dock
19·7 ft.	29·6 ft.	36·0 ft. depth on sill at high water.

OPENING/CLOSING HATCHES: Normally carried out by stevedores.

AIRPORT: International Airport Marco Polo about 10 km. from Porto Marghera. Served by regular airlines.

TIME: GMT plus 1 hour. Summer Time from June to September.

HOLIDAYS: The public and port holidays are the following: 1st January; 6th January; 19th March; 25th April; Monday after Easter Day; 1st May; Ascension Day; Corpus Christi Day; 2nd June; 29th June; 15th August; 1st November; 4th November; 21st November; 8th December; 25th December; 26th December.

TELEPHONES: Telephones will be placed aboard the ship.

AGENT: Bassani S.p.A., Venice – Via 22 Marzo, 2414, PO Box 484. Tel. 20340 – 22771. Telex 41066.(Subagents of Gastaldi & Co.)

Ivory Coast

ABIDJAN: 05.18 N. 04.00 E.

DOCUMENTS:
7 Crew Lists.
6 Lists of Previous Ports of Call.
2 Lists of Ship's Stores.
2 Lists of Crew Personal Effects.
Maritime Declaration of Health.

PILOTAGE: About one hour before arrival ships equipped with VHF shall confirm to the pilot station their **correct** hour of arrival off the roads; then the boarding time for Pilot shall be communicated. It is essential that these times are clearly understood both by ship and pilot station.

Ships shall stay in a position so they keep across the swell and the wind which both generally come from the South and they shall put the pilot ladder at the lee, i.e. Port if steering Eastward, Starboard if steering Westward.

Pilotage is compulsory, except for shifting alongside quays. For ships leaving harbour or shifting within harbour limits, request for a Pilot should be made at the Harbour Master's Office 3 hours at least before sailing or shifting. For a night sailing or shifting, request must be made before 5 p.m.

Warning: when embarking Pilot, keep well clear of sandbank extending from entrance to Vridi Canal.

RESTRICTIONS: Ships may leave or enter Abidjan only between certain time limits. These limits are transmitted by Abidjan-Radio: on 500 kc/s on request; on short wave, at the beginning of each watch period.

MAX. SIZE: Maximum draft 32 ft., maximum length 200 metres.

HEALTH: Request for free pratique is given by the Agent to port Health Authority, who will board vessel on arrival.

RADIO: Captains should radio their ETA and draft to "Comport-Abidjan". When at anchorage off Vridi canal, they should watch for signals from Vridi signal station, which keeps continuous watch, and advise them regarding the time the pilot will board their ship. Port Captain's office and Vridi signal station keep a permanent watch on 156·6 Mc/s and 156·8 Mc/s. Agents may be obtained through Abidjan-Radio on 2182 Khz. Abidjan-Radio answers on 1813 Khz.

VHF: 16 and 12 Channels are used: 16 for security and 12 for general traffic. It is strongly advised to use Channel 12. This channel is strictly reserved for the harbour traffic and ships wishing to talk to each other should do so on a ship to ship channel (6 or 8).

TUGS: Tugs join vessel at the port entrance. Towing lines are provided by the tug.

BERTHING: At the Tanker berth in the Vridi channel, berthing is effected at slack water and unberthing is effected at the end of flood tide. Mooring at the sea line buoys at Port Bouet is only made at certain stages of the tide determined by the Pilot.

STEVEDORES: Gangs must be ordered before 17.00 on the previous day.

PORT RADAR: Is installed in the Harbour Master's Office. Vessels can contact port radar by VHF calling Comport Abidjan on Channels 16, 12 and 11, or through Abidjan Radio, which keeps watch on Channel 16.

MEDICAL: All medical services and hospitalisation can be arranged without difficulty. Crew members are obliged to have valid certificates against smallpox and yellow fever.

DENSITY: Varies from 1025 in January to 1000 in November.

FRESH WATER: Supplied from the quay at the rate of 40 tons per hour per hydrant. Cost: 100 F. per ton. Can be supplied by barge. Cost: 200 F. per ton.

FUEL: 1500 secs. fuel available from Abidjan Refinery. Advance notice required.

WATCHMEN: Services of shore watchmen are recommended.

HATCHES: Normally opened and closed by stevedores.

CUSTOMS ALLOWANCES: Each man allowed to retain 200 cigarettes and 1 bottle of alcohol.

IDENTIFICATION CARDS: Should be carried by crew going ashore.

CONSULS: The following countries are represented locally:

Algeria	Japan
Belgium	Korea
Brazil	Lebanon
Colombia	Liberia
Congo	Mauretania

REPAIRS: All types of repairs can be effected. There is a floating dock for vessels up to 800 tons.
REPATRIATION: Can be arranged.
AIRPORT: Local international airport with connections to all parts of the world.
TIME: GMT. No alterations during the year.
HOLIDAYS: 1st May and 8th August no work can be carried out. Other holidays which may be worked at overtime rates are: 1st January, Easter Monday, Whit Monday, Ascension Day, 1st November, Christmas.
POLICE/FIRE/AMBULANCE: Police, tel. 557/57; Fire, tel. 238/82; Ambulance, tel. 238/82.
TELEPHONES: Can be connected on board if requested for vessels moored at quays No. 1, 2, 4 and 5.
SHORE LEAVE: Allowed without restriction.
AUTHORITY: Direction du Port D'Abidjan, BP 1360 Abidjan, Commandant du Port, BP 1382 A. Telephone 238–82 or 272–53. Telex 674. Cables Comport Abidjan.

AGENTS: Socopao Cote D'Ivoire, B.P. 1297. Tel.: 03–21–16. Cables: "Freight". Telex: 745.

Jamaica

KINGSTON: 76.52 W. 18.00 N.

DOCUMENTS:
For Customs Port Royal
2 Health Certificates (obtainable from Customs Port Royal).
2 Crew Lists.
2 copies Passenger Lists.
2 Dangerous Cargo Lists.
1 Ship's Register.
2 Crew Declaration (obtainable from Customs Port Royal).
2 Stores List.
International Certificates of Vaccination for each crew member.
For Immigration
2 Crew Lists.
2 Passenger Lists.
For Agent
Bills of Lading covering all cargo on board.
2 Crew lists.
2 Stores Lists.
5 Manifests.
Ship's Register, Safety Certificate and Load Line Certificate.
For Quarantine
1 Derat. Certificate.
International Certificates of Vaccination for crew members.
PILOTAGE: Forty-eight hours advance notice to Agents required. Pilot boards vessel about 2 miles S.E. of Plumb Point Lighthouse. Vessels required to anchor at Port Royal whilst Customs board to grant pratique and seal stores. Contact pilot station VHF Channel 11. Several small pilot boats in use at present which come out from Kingston as required.
ANCHORAGES: Depth of ship channel 35 ft. recommended. Four specified anchorages, namely A, B, C, D – these having to be reserved in advance. Also unlimited anchorage space towards Eastern end of harbour. Positions of these four specified anchorages as follows:
Anchorage A 221° distant from R.C. Cathedral Dome 14·4 cables.
Anchorage B 180° distant from R.C. Cathedral Dome 11·0 cables.
Anchorage C 168° distant from R.C. Cathedral Dome 10·7 cables.
Anchorage D 155° distant from R.C. Cathedral Dome 11·0 cables.
RESTRICTIONS: Entry – day or night. Rise and fall of tide, average range 10 in., occasionally 16 in. Strength of current in harbour 1½ knots in some places. Main direction and average speed of prevailing winds E.S.E. 20 m.p.h. Months of maximum rainfall (i) April/May, (ii) Sept., Oct. and Nov. Hurricane period June 15–November 15.
MAX. SIZE: Recommended maximum draft into Port Royal 48 ft. for vessels of unlimited size. Main ship channel has recommended draft of 35 ft. and is 800 ft. wide. Newport West has recommended draft of 32 ft. 6 in. with a turning basin of 1,500 ft. Esso Terminals has recommended maximum draft of 34 ft. 6 in. Maximum recommended draft of 32 ft. 6 in. to proceed Eastwards, from Esso Terminals, in harbour to anchorage or berths. Newport East has maximum recommended draft of 27 ft. 6 in.
HEALTH: See "Documents".
Pratique Procedure: The Customs Officer who boards vessel will indicate to Master when pratique granted, after he has checked all documents and placed under bond all excess tobacco and liquor on board. In respect of vessels arriving from restricted areas (e.g. Texas, U.S.A.) vessel will not be granted pratique at Port Royal but at berth after being sprayed (at berth) by Quarantine Officer. A vessel with suspected fever or disease on board should inform agent before arrival. The agent will advise Customs at Port Royal and Quarantine. The Quarantine Officer will tell Master whether to proceed to Quarantine Anchorage or to berth direct.
If a vessel obtains pratique at Kingston, automatic pratique granted to proceed to any other port in Jamaica.
RADIO: Cable agents giving ETA, Draft, Passengers (if any), cash required. Call sign "KNRDO 6YI".
TUGS: Tugs optional. Tug joins incoming vessel near berth. In case of emergency tug joins vessel wherever requested by Master. Usually ship's lines used, but if tug's lines used there is no extra cost.
BERTHING: No specific requirements for berthing. If explosives on board a special permit is required from Harbourmaster and Customs. Extract from Gunpowder and Firearms Law:
"Twelve hours' notice shall be given by agent of ship to Harbour Master or Principal Officer of Customs, as case may require, of intended arrival of a ship with Gunpowder and/or Dangerous Explosives on board, and such ship shall not be permitted to come alongside a wharf or any ship in Harbour or to break bulk until Harbour Master or Chief Officer of Customs, as case may be, is satisfied that Gunpowder and/or Dangerous Explosives are of such character and are so stowed, or are in opinion of Harbour Master or Collector of Customs, in such trifling quantity as not to be an element of danger, when proper Officer shall certify –
(*a*) that in consideration of character, method of stowage, or quantity of such Gunpowder and/or Explosives it is safe for such ship to berth and proceed to discharge cargo without special precaution, or
(*b*) that having regard to considerations aforesaid such ship should discharge such Gunpowder and/or Explosives into lighters or at place appointed under rules for special landing before being allowed to berth or break bulk in connection with landing or shipping of other cargo."
STEVEDORES: To enable agent order gangs important to obtain accurate ETA from vessels. Time: 12 noon the working day before vessel arrives. Shifts: 0700–1400, 1400–2100 Mondays to Fridays; 0700–1200 Saturdays. Sundays – full overtime.
Stevedores normally rig and open, but crew open McGregor hatches. All necessary gear supplied by stevedores except rain tents and special lifts requiring special gears, which vessel must supply. Average unloading rate 10/15 tons per gang hour for general cargo.
RADAR/VHF: No existing radar service. VHF Channel 16 – Kingston Radio. VHF Channel 11 – Pilotage.
MEDICAL: Agents to be advised before arrival of vessel if emergency medical attention required. Hospital facilities available. If inoculation required Master to advise Agents prior arrival of vessel.
TANKERS: No specific requirements applicable to oil carriers. Reducers available to fit 12 in.–4 in. load/discharge lines. Slop (residue) discharge facilities available taking maximum 500 gallons. Five tanker berths. Drafts at these berths vary from 28 ft. to 34 ft. (approximately). Gas free certificate required for tankers laying alongside Public Wharves in Kingston.
DENSITY: Average density 1026. No tide.
FRESH WATER: Fresh water available at berth. Average rate of delivery 20 tons per hour.
FUEL: All grades (viscosities) available. At least two days advance notice required.
FIRE PRECAUTIONS: Fire boat available equipped for fighting harbour fires 24 hours per day. Also equipped fire engines situated within easy reach of docks available 24 hours a day.
DEVELOPMENTS: Kingston has a new port development in harbour West of the city. There are seven berths (numbers 1–7) operated by two private wharf companies. Two further new berths completed in 1970. Maximum depth of water in channel approaching and alongside berths is 35 ft. Recommended draft is 32 ft. 6 in. Bunkering facilities available at all new berths.
GANGWAY/DECK WATCHMEN: Services of watchmen are recommended. Rate is 31/9d per day and 63/6d night.
OPENING/CLOSING HATCHES: Hatches covered by Pantoon and Hatch Boards opened and closed by stevedores. McGregor hatches handled by crew.
CERTIFICATES:
Safety Certificate.
Ship's Register.
Load Line Certificate.
Test Certificates for derricks and cargo handling gear.
CUSTOMS ALLOWANCES: Tobacco, 2 oz. tobacco in any form (2 oz. pipe tobacco or 40 cigarettes) per day. Wine and/or Spirits, 6 oz. or ½ reputed pint of spirit per day. 1 pint wine allowed Master and Officers only or as stated in the Articles under flag they fly.
CARGO GEAR: The usual certificates covering testing and inspection of all gear and equipment as required under Docks Regulation 1934 of Great Britain or by International Labour Organisation, will be acceptable.
IDENTIFICATION CARDS: No Identification Cards required.
CONSULS: Consuls not available on Saturdays and Sundays, except by special request.

REPAIRS: Minor deck and engine repairs possible by two firms. Pre-advice of three days recommended.
DRY DOCKS: No dry dock facilities available.
REPATRIATION: Facilities available for effecting crew changes.
AIRPORT: 10 miles from port and is served by regular airlines.
TIME: Local time is GMT minus 5 hours.
HOLIDAYS: Days when work is performed only on overtime rate: New Year's Day; Ash Wednesday; Easter Monday; National Heroes Day (third Monday in October); Boxing Day. Days when ports closed, no work performed: Good Friday; National Labour Day (fourth Friday in May); Independence (first Monday in August); Christmas Day.
POLICE/AMBULANCE/FIRE: Emergency tel. numbers: Police 116; Ambulance 110; Fire 110. Commission of Police 79858–0. Radio Control Room 81261–2. Fire Brigade 22121. Fire Boat Station 27018.
TELEPHONES: Arrangements exist for placing telephones on board. The Jamaica Telephone Company to be advised by Agents 2/3 days before vessel arrives. Rates £3 10/- connection fee, £2 per day rental. Overseas call, extra cost.
GENERAL: Bunkering Facilities: Bunkers are supplied by three firms: The Shell Oil Co. (West Indies) Ltd. Texaco Caribbean Inc. Esso Standard Oil S.A.

Ship's Chandlers: Three ship's chandlers available.

Communications: Regular air services daily to London, New York and other European and American cities, and is therefore in excellent position to offer emergency facilities to vessels requiring urgent spares, crew replacements, etc. Vessels can anchor at Port Royal close by airport.

Customs: Vessels are searched thoroughly by Customs for *fire-arms* and contraband. Masters are held responsible by Customs for security of bonded stores, etc. Masters are therefore alerted to check security arrangements and to keep watch on bond whilst in port.
SERVICES: Compass adjusting services available. Although routine repairs to radar, radios and other electrical equipment are possible, technical services generally limited.
SHORE LEAVE: Crew members allowed on shore after vessel cleared by Immigration. Vessels arriving from some countries require special Government approval before shore leave permitted, but no restrictions are normally placed on vessels arriving from Western European, American or African countries.
PORT REGULATIONS: Dogs are not permitted to land unless they have undergone quarantine or are imported from United Kingdom.
DELAYS: Normally there are no delays to vessels calling at the port.

AGENT: Sprostons (Jamaica) Limited, Shipping Department, 7th Floor, North American Life Building, 72–76 Harbour Street, Kingston, Jamaica. Mail: PO Box 139, Kingston, Jamaica. Cable "Shipspros". Telex 35 Alprojam. Tel. 25767–9 and 25254.

OCHO RIOS: 18.25 N. 77.072 W.

GENERAL: Reynolds Jamaica Mines must act as Agents for all vessels using the pier at Ocho Rios. (*a*) Tel. Ocho Rios 603. (*b*) Cable address is "Mines" Ocho Rios, Jamaica. (*c*) 72 hour and 24 hour ETA requested. (*d*) Radio telephone 2738 Kc open when calls expected at 0700, 1100, and 1500 local zone time.
PILOTAGE: Compulsory. Pilot meets vessel 1 mile North-east of sea-buoy. On rare occasions when a local pilot is not available expenses and detention must be paid for an outside Pilot.
FRESH WATER: 50 c. per ton supplied from pipe-lines on the pier.
FUEL: Bunker "C" Fuel Oil – daily prevailing rate Kingston Harbour. Diesel Fuel Oil – per oil company suppliers Kingston.
TUGS: 45 ft. diesel-powered tug.
REGULATIONS: (1) If any captain of any vessel or any other person shall throw or deposit, or permit to be thrown or deposited (*a*) any rubbish, earth, mud, stone, sand, ballast or other similar matter; or (*b*) any oil or mixture containing oil or oil residues, in any channel leading into or out of any harbour, or in any place within the limits of any harbour other than such place therein as shall be set apart for such purpose he shall be liable to a penalty not exceeding one thousand pounds. (2) No siren or steam whistle shall be sounded on any vessel in any harbour except for the purpose of making signals as laid down in the regulations for preventing collisions at sea, provided that any vessel may sound one warning blast of not more than five seconds duration before sailing. Any person committing a breach of the rules is liable for a penalty not exceeding Twenty Pounds.
CARGOES: The Reynolds Jamaica Mines Pier is occupied about twice each week by ore carriers for 8 to 12 hours and about twice a month by sugar ships for indefinite periods.
TOURIST VESSELS: Tourist ships are accepted at Ocho Rios without Ministry of Finance approval in accordance with verbal instructions of the Collector at St. Ann's Bay, 19th September 1966, subject to the availability of berth at Reynold's option and: (*a*) Any guarantee to be only for Monday through Friday and for the hours 0700 to 1800. (*b*) Ocho Rios must be the first port of call in Jamaica of the ship on any particular voyage. (*c*) Signature of release form.
PASSENGERS: (*a*) Passengers disembark via shore gangways (2 if requested) direct to wharf situated in fence enclosed compound with guarded gate. Where lighterage is required a landing is available at the back of the wharf sufficiently large to be used by a 45 ft. tug. (*b*) Entry and clearance by Customs and Immigration are made at the pier. (*c*) Taxis are kept outside the gate. (*d*) Normally the Ocho Rios Chamber of Commerce set up a table on the wharf for the purpose of providing information and distributing literature on local musical groups to spend some time playing on the wharf for the benefit of the passengers.
AGENCY: (*a*) Normally Reynolds Jamaica Mines acts as sub-agent in Jamaica for vessels calling at Ocho Rios and bills for disbursements are directed to the Island agent for payment. (*b*) In cases where Reynolds Jamaica Mines acts as sole agent for a vessel, a sum of money adequate to cover vessel's disbursements is requested from the owner or charterer to be deposited to Reynolds Jamaica Mines' account in advance.

PORT ESQUIVEL: 17.53 N. 77.08 W.

DOCUMENTS:
6 Crew Lists.
6 Passenger Lists.
Customs Documents:
4 Stores Lists.
Crew's Manifest or Declaration outside of Personal Effects.
4 Load Line Certificates.
4 Small Parcels Lists.
4 Customs Clearance from last port of call.
Health Documents:
International Certificate of Vaccination of all crew members.
Maritime Declaration of Health.
Crew's Declaration of Health.
6 Manifests.
4 Bills of Lading
Ship's Documents:
3 Stowage Plan of Cargo.
2 Deadweight Survey (Bulk carriers only).
Charter Party and any other specific documents of instructions relating to the loading or discharging of cargo.
PILOTAGE: Pilotage compulsory. Compulsory pilotage limit two miles to seaward of line drawn from Polink Point to Bare Bush Cay to Portland Cay to Portland Point. Cable advice 48 and 24 hours ahead of vessels ETA at pilot station must be sent to vessel's agent at Kingston, Jamaica.

One pilot boat "Silver Spray", launch equipped with ship-to-shore radio communication: (*a*) One Marconi VHF – FM 30-watt output multi-channel set. (*b*) One Marlin HF – AM 75 output multi-channel set.

VHF shore set manned 24 hours per day. Contact with Port or launch can be made on three international channels – 16, 2 and 6.

Vessels requiring pilot display the following signals separately or together: By day: International code signals G or PT; Pilot Flag viz. the vessel's National Flag with white border *from the foremast.* By night: Morse signal G by flash lamp; Morse signals PT by flash lamp; blue light at intervals of 15 minutes. A bright white light shown just above bulwarks for one minute at short intervals.

During fog, mist, heavy rainstorms: At least 3 seconds after normal fog signal international code signal G (I require a Pilot). The pilot vessel – in event of rendering a Pilot and considering all circumstances – will answer with normal fog signal, followed after at least 3 seconds by international code signal H (I have a Pilot on board).
ANCHORAGES: A. Seaward to East of pilot station, depth in excess of 36 ft. B. Leeward of Pigeon Island – depth 36 ft. min. C. Eastward of entrance of main channel – depth 36 ft. min.
RESTRICTIONS: Restriction of permissible draft to maximum of 35 ft.
MAX. SIZE: Maximum permissible length 650 ft. and draft 35 ft.
HEALTH: Pratique procedure requires presentation of undermentioned health documents: (*a*) International Certificate of Vaccination of all crew members. (*b*) Maritime Declaration of Health. (*c*) Crew's Declaration of Health. In event any suspected communicable disease or fever on board, Master required to advise Agents in advance.
RADIO: "KNRDO 6YI".

TUGS: Pilot boat will be on standby during berthing operations of all vessels to assist in placing ship's lines on to pier.
BERTHING: Facilities for two berths – Eastern side and Western side of pier. Alumina bulk loading facilities on Western berth. Bulk alumina vessels given priority on Western berth and it is used otherwise for vessels handling general cargo, loading or discharging fuel oil, caustic liquor, etc. Length of pier, East Side, 54 ft. West Side, 600 ft.
STEVEDORES: Cable advice to Agents in Kingston, Jamaica, 48 and 24 hours ahead of vessel's ETA at pilot station for arrangements to provide stevedore and dock labour.
RADAR/VHF: There is no port radar service. VHF Channels 16, 2, and 6.
MEDICAL: Agents to be advised 48 hours ahead of vessel's ETA pilot station of medical attention required, details of inoculations, vaccination/fever certificates, etc. Free ambulance service provided. Nearest hospital approximately 15 miles.
TANKERS: Both sides of pier equipped to handle receival and delivery of Bunker C oil, caustic liquor, sulphuric acid and molasses. Diameters of the load/discharge lines are:

Bunker C Oil	10 in.
Caustic liquor	10 ,,
Sulphuric acid	4 ,,
Molasses	12 ,,
Water	4 ,,

Maximum permissible draft 35 ft.
DENSITY: 1025 subject to slight variation during heavy rainfall.
FRESH WATER: Maximum of 300 L. tons available. Delivery made from storage tank at a rate of 40 to 50 L/T per hour.
FUEL: Bunker C fuel oil is available from dock. Application to be made to Esso (W.I.) Ltd. through ship's Agent for supply of bunkers. Pumping rate approx. 130 L/T per hour. Specification – Group 0 or group 1 – Viscosity SSF at 122° F; 160–180 Flash P – M °F 200 plus. Arrangements to supply other grades of fuel oil can be made on request of local Agents to Esso.
FIRE PRECAUTIONS: Strategically located fire hydrants throughout port and on pier. No special precautions apart from "No smoking" rule.
GANGWAY/DECK WATCHMEN: Service of watchman optional but not necessary. During time vessel is in port there is Customs guard on pier and strict security measures are carried out by port Security Force on personnel entering or leaving port compound which is surrounded by a chain-link security fence.
OPENING/CLOSING HATCHES: For bulk alumina vessels, opening and closing of hatches is done by crew members. For general cargo vessels, opening and closing of hatches may be done by crew members or on request to Agents, by stevedores.
SHIP CERTIFICATES:
Load Line Certificate,
Registration Certificate.
CUSTOMS ALLOWANCES: Tobacco: Each crew member including ship's officers, normally allowed by local customs authority 2 oz. of tobacco or 2 pk. of 20 or 25 cigarettes per day released from bond. Wine and/or Spirit: No limitations to use of wine on board. For spirits each crew member is allowed a part bottle per man.
CARGO GEAR: Local Agents provide necessary cargo gear. These are tested every six months in accordance with Factory Law and certificates issued for respective maximum lifting capacities.
IDENTIFICATION CARDS: Not necessary as the Passport will serve this purpose.
CONSULS: No consuls are available. Consular offices are located in Kingston approximately 30 miles away.
REPAIRS: Limited repairs may be undertaken.
DRY DOCKS: None.
REPATRIATION: Upon request, local Agents arrange crew changes and any necessary repatriation.
AIRPORT: Palisadoes International Airport approximately 40 miles.
TIME: GMT minus 5.
HOLIDAYS: New Year's Day (1 January); Ash Wednesday (in accordance with calendar); Good Friday (in accordance with calendar); Easter Monday (in accordance with calendar); Labour Day (23 May); Independence Day (first Monday in August); National Heroes Day (third Monday in October); Christmas Day (25 December); Boxing Day (26 December). These holidays are sometimes subjected to change in accordance with Government Proclamations but work on vessels loading bulk alumina is usually carried out on these holidays. For general cargo vessels, work is optional on Public Holidays and only carried out on Master's request or in accordance with terms of Charter Party.
POLICE/AMBULANCE/FIRE: Old Harbour Constabulary tel. 255; Old Harbour Fire Brigade tel. 235. An ambulance service is available for any crew member requiring medical attention. Several qualified doctors within a 12-mile radius of port. There is also a fire station.
TELEPHONES: Facilities do not exist for placing of telephones on board ship other than Magneto telephones. International telephone services available and scale of rates is as per schedule listed in Jamaica Telephone Company's Directory.
GENERAL: Port normal working days Mondays–Fridays 7.30 a.m. to 4.30 p.m. Overtime in excess of 8 hours per day or 40 hours per week, Monday–Friday at time and a half normal rate; Saturday between midnight and midnight time and a half normal rate, double time for hours worked on Sundays and two and one half times for hours worked on public holidays, between midnight and midnight. Rail facilities exist on Western side of the pier. Ship chandlering or any other requirements may be acquired through local Agents.
SERVICES: Special services are limited. Arrangements can be made through vessel's agents for the port or local contractors to undertake these jobs.
SHORE LEAVE: Crew members usually granted shore leave by Immigration Authority for period vessel remains in port. Immigration Authority can, however, withdraw permission of shore leave to any individual crew member who, in their opinion, may be a security risk.
PORT REGULATIONS: No unusual regulations.
DELAYS: The normal delays in berthing, loading or discharging or bunkering can be expected where the two berths are occupied.
AUTHORITY: (*a*) Alcan Jamaica Limited, Port Esquivel, PO Box 2, Old Harbour, Jamaica, West Indies. Tel. OH 289.
(*b*) The Port Authority, 51 Duke Street, Kingston, Jamaica, West Indies. Tel. 24212.

AGENT: See Kingston.

PORT KAISER: 17.52 N. 77.37 W.

DOCUMENTS:
6 Crew Lists.
4 Stores Lists.
Declaration of Crew Personal Effects.
Customs Clearance from Last Port.
Maritime Declaration of Health.
Vaccination Certificates for all crew members.
Cargo Documents.
PILOTAGE: Compulsory. Pilot boards about 1 mile seaward of the jetty. International code Pilot signals used.
MAX. SIZE: Tankers up to 30 ft. draft.
HEALTH: Pratique granted by customs officers who board on arrival, after Master has completed Maritime Declaration of Health, and Crew's Declaration of Health. All crew members require valid vaccination Certificates. In event of suspected disease or fever on board, Agent should be advised full particulars by radio before arrival.
RADIO: KNRDO 6Y1.
TUGS: None available.
BERTHING: Tanker berth at the end of a finger pier. Pier head is adequately fendered and a holding off buoy is utilised if necessary because of swell. Vessels berth portside to the jetty. Both anchors used.
TANKERS: Fuel and gas oil discharged, 8 in. hoses. No slop facilities.
DENSITY: 1025.
FRESH WATER: Not available.
FUEL: Not available.
CUSTOMS ALLOWANCES: 25 cigarettes and part bottle spirits per day per man.
CONSULS: Nearest at Kingston.
TIME: GMT minus 5 hours. No changes.
SHORE LEAVE: Allowed.
AUTHORITY: Port Authority, Kingston.

Japan

AIOI, Drydocking Port: 34.46 N. 134.28 E.

DOCUMENTS:
Ship's Register.
Last Port Clearance.
3 Crew Lists, including Passport Nos.
3 Passenger Lists.
1 Store List.
1 Declaration of Crew's Baggage, i.e. tobacco, wine/spirits, camera, wrist watch, radio, firearms/swords, etc., (only at first port of call in Japan).

Ship's Agents will prepare: Inward/Outward Declaration. 1 Cargo Manifest and Cargo Manifest in transit using specific forms. Therefore ship's Agents should be provided with necessary information about details of cargoes in advance.
PILOTAGE: Inland Sea Pilotage should preferably be arranged through Agent by cable via Nagasaki Radio giving 72 hours notice. Urgent correction of ETA outside business hours should be cabled direct to pilot station. Inland Sea Pilot Association covers all inland sea ports. Pilotage not compulsory but recommended in view of great number of islands causing navigational hazards. Pilots obtained from one of three pilot stations dependent upon vessels last port of departure and at Master's discretion. Pilotage available throughout 24 hours and 72 hours advance notice preferred, thereafter advising any alterations. Most Inland Sea Pilots also act as Harbour Pilots up to berth or anchorage at destination. *Note:* No VHF communication available with Inland Sea pilot stations.

1. Wadamisaki, at entrance to Kobe (vessels transitting Kii Straits). Position 34.38N.; 135.11E. Telegraphic address: "Anjin Kobe".
2. Sekisaki, 3 miles South of Sekisaki lighthouse. (Vessels transitting Bungo Channel.) Position 33.13N.; 131.54E. Telegraphic address "Anjin Saganoseki". In event bad weather, recommended vessels proceed for shelter as near as possible having due regard to safety, to Sekisaki pilot station.
3. Hesaki, at East side of Kanmon (Shimoneseki) Straits. Position 33.56.24N.; 131.03.12E.

Aioi Dock Master not licensed to pilot vessels from outer harbour and boards at anchorage.
ANCHORAGES: Inside Aioi Bay. Maximum 18 ft. draft.
A. True bearing 250° from Kabeshima post, distance 350 m.
B. True bearing 217° from Kabeshima post, distance 730 m.
C. True bearing 313° from Kasamatsu Iwa bench mark, distance 620 m.

RESTRICTIONS: Vessels may anchor any time day or night. Draft to be adjusted to enter dry dock per dockyard recommendation as follows:

Name of Dock	*Trim Recommendation*
No. 1 & 2 Dry dock	$\frac{\text{Vessel's L.O.A. (mm.)}}{200}$ plus 500 mm.
No. 3 Dry dock	$\frac{\text{Vessel's L.O.A. (mm.)}}{300}$ plus 500 mm.

MAX. SIZE: Max. size of ships to be accommodated as follows:

DOCK	*LOA*	*LBP*	*Breadth*	*Draft*	*DWT (L/T)*
No. 1 dock	238 m.	230 m.	33 m.	5·5 m.	73,000
	780′9″	754′7″	108′3″	18′	
No. 2 dock	156·1 m.	145 m.	19·5 m.	5·5 m.	14,000
	512′1″	475′8″	63′11″	18′	
No. 3 dock	341 m.	328 m.	54 m.	6·0 m.	300,000
	1118′9″	1076′1″	177′1″	19′8″	

HEALTH: Pratique to be obtained at another Port prior arrival Aioi.

At first port of call in Japan, vessel must obtain free pratique. Quarantine officers will attend vessel only from daylight to sunset and Captain to show all Vaccination Cards. Derating Exemption Certificate. In case vessel arrives from cholera-infected area within 10 days, Captain must advise crew and passengers health condition to respective Quarantine Office through ship's Agents prior to arrival and close all soil pipes before entering port.
RADIO: Recommended Captain communicates with Agents through Choshi Radio or Nagasaki Radio which cover all ports in Japan. If specifically West-bound vessel to Choshi and North-bound to Nagasaki Radio respectively.
TUGS: Normally join vessel at anchorage inside Aioi Bay. Tug's lines always used without charge.
TANKERS: Must be fully gas-freed before arrival. No facilities for tank cleaning or gas freeing.
DENSITY: Average 1025/1026 winter, and 1018/1020 summer.
FRESH WATER: Available from jetty/dock. Cost Y120 per ton (approx.).
FUEL: All grades of bonded bunkers are stocked in Tokyo Bay, Ise Bay, Osaka Bay and Kanmon Port. At all other ports bunkers will be lightered from the nearest bunker stock ports at maximum 7 days prior notice.
CUSTOMS ALLOWANCES: Only allowed 50 cigarettes to take ashore, but no spirits.
CONSULS: None.
REPAIRS: Dockyard port. All repairs available. Specialist technicians obtainable from Kobe/Osaka area.
AIRPORT: Osaka (Itanii).
TIME: GMT plus 9 hours. Permanent.
POLICE/AMBULANCE/FIRE: Police 07912 or Aioi 2–0740; Ambulance/Fire 119 or Aioi 2–7128.
TELEPHONES: Placed aboard at IHI shipyard.
SERVICES: No special services at Aioi, but available from Kobe/Osaka.
SHORE LEAVE: Local Immigration Offices issue shore pass valid for only 3 days, but 3 days extension possible if ship stays longer.
AUTHORITY: Hyogo-Ken-Cho, 5 cho-me Shimoyamate-don, Ikuta-Ku, Kobe City, Kobe, Japan.

AGENTS: Shikama Kaiun K.K., Minatomachi, Shikama-Ku, Himeji. Tel. Himeji (0792) 35–0912. Telegraphic, Shikamakaiun Himeji.

AKITA: 39.45 N. 140.03 E.

DOCUMENTS:
Ship's Register.
Last Port Clearance.
5 Crew Lists including Passport Nos.
5 Passenger Lists.
1 Store List.
1 Declaration of Crew's Baggage, i.e. tobacco, wine/spirits, camera, wrist watch, radio, firearms/swords (only at first port of call in Japan).

Ship's Agents will prepare Inward/Outward Declaration 1 Cargo Manifest and Cargo Manifest in transit using specific forms. Ships agents should be provided with necessary information about details of cargoes in advance.

PILOTAGE: Not compulsory but recommended, available daylight only. Boards off Akita one mile 280° from Akita lighthouse or off Funakawa one mile 140° from breakwater end light if required. 2 Pilots board if ship's gross tonnage exceeds 18,000. Cost 180% of pilotage.

ANCHORAGE: Off Akita, 2 miles 280° from Akita Lighthouse. Depth exceeds 20 metres. Bottom – soft clay with mud. No buoys.

RESTRICTIONS: Pilot available daylight only.

MAX. SIZE: Max. draft available 9·6 metres in fairway. Size at berths, see "Berthing". Minimum depth at extreme low water – In fairway – 10·0 m. At Anchorage – 20·0 m.

HEALTH: Officer stationed at Funakawa. Quarantine anchorage 39° 51′ N. 139° 53′ E. When impossible to inspect at Funakawa, i.e. during bad weather, attends off Akita.

RADIO: Niigata Radio when ship coming from South. Sapporo Radio when ship coming from East/North. Choshi Radio if long distance.

TUGS: One tug available 800 h.p. owned by local government, 4 small tugs 150–180 h.p. privately owned.

BERTHING:

Wharf	*Length*	*Depth*	*Berthing capacity*	*Discharging*
Nakajima No. 1	160 m.	9·0 m.	10000 G/T.	Phosphate, Grain, logs
Nakajima No. 2	185 m.	10·0 m.	15000 G/T.	Logs, zinc concentrate
North Pier	227 m.	7·5 m.	5000 G/T.	Coal, logs.
South Pier	227 m.	5·5 m.	3000 G/T.	Ore, logs.

STEVEDORES: Working time 08.30–16.30 every day.

Phosphate rock in bulk: 200–270 tons per hour by shore crane, 50–70 tons per hour by ship's gear.

Grain in bulk: 150–170 tons per hour by shore crane, 40–60 tons per hour by ship's gear.

Logs/lumbers: 200,000 BM per gang per day (Nanyozai), 80,000–100,000 per gang per day (Beizai).

Potash in bulk: 150–180 tons per hour by shore crane, 50–60 tons per hour by ship's gear.

Fertiliser in bag: 250–300 tons per day per gang.

Zinc concentrate in bulk: 140–160 tons per hour by shore crane. 40–60 tons per hour by Ship's gear.

RADAR/VHF: Not port radar service. VHF Channel 16–156·8 megacycles. VHF Channel 12–121·5 megacycles. Operated by Regional Maritime Safety Headquarters – Harbour Master.

MEDICAL: Hospital and treatment available.

DENSITY: 1.020–1.021. Tidal range 20/30 cm.

FRESH WATER: Available at every wharf. Rate 30 tons per hour.

FUEL: Domestic bunkers available. If bonded bunkers required, brought from Niigata, Hakodate.

DEVELOPMENTS: (*a*) New berth. 1,400 m. long, 10 m. deep, to be completed by 1972, for one 30,000 d.w or two 15,000 dw near port entrance.

(*b*) One private, one public berth, each for 30,000 dw to be completed by 1971 at other side of present berth.

(*c*) New rafting pool, 166,000 m². Stocking yards for lumber/logs off 190,000 m² to be completed by 1972.

(*d*) New breakwater and anchorage inside breakwater to be completed by 1972.

(*e*) New tug 2,000 h.p., 1971.

GANGWAY/DECK WATCHMEN: Not compulsory, but available if required.

OPENING/CLOSING HATCHES: Stevedores open and close hatches. Cost Y4,400–Y7,200 per hour depending on cargo. If any time lost by ship's crew doing this work, stevedores charge ship for waiting. Recommend request stevedores for this work unless crew can complete before berthing.

CERTIFICATES: Ship's register to show Customs Inspector, ship's registered Gross and Nett tonnages. Valid Cargo Gear Certificates sometimes required by stevedores when cargo gear maintenance seems poor.

CUSTOMS ALLOWANCES: Only 50 cigarettes to take ashore. No spirits.

CONSULS: No Consuls, but two notary public offices.

REPAIRS: Minor repairs only.

REPATRIATION: Possible.

AIRPORT: Flights to Tokyo 2 or 3 times per day. 12 kilometres from port.

TIME: GMT plus 9 hours. No alterations during year.

HOLIDAYS: Local holidays January 2nd, 3rd; July 13th (p,m.) 14th, 21st; Dec. 31st. Other Sundays/holidays/non-working days see "Tokyo".

POLICE/AMBULANCE/FIRE: Contact through Agents.

GENERAL: *Harbour Protection* – Breakwaters, South and North.

Weather Conditions past two years

	Spring	*Summer*	*Autumn*	*Winter*
Temp. on average	8·5°C	21·7°C	13·0°C	—0·5°C
Rainfall on average	122 mm.	171·3 mm.	120·5 mm.	133·5 mm.
Wind force and direction	4·0 E.S.E.	3·3 E.S.E.	4·1 E.S.E.	5·2 N.W.

Warehouse/Silo – 31 Warehouses/silos, area 28,450m² including fumigating warehouse/silos.

Stock Yards – 7 yards 82,520 m² for coal, ore, etc. 100,000 m² for lumber/timber.

Services-Provisions – Available. Hold Cleaning – Available. Surveyor – from Funakawa/Niigata.

SHORE LEAVE: Local Immigration Offices issue shore pass valid for only 3 days, but 3 days extension if ship stays longer.

AUTHORITY: Akita-Kencho, 1–1, Sammo 4, Akita City.

AGENT: Sub-Agents of Dodwell & Co. Tokyo. Akita Kairiku Unso K.K., 44, 10–ban, Nishi 1–chome, Tsuchizaki–ko, Akita. Tel. Akita (0188) 45–0185/9. Telegraphic – "Akita Kairiku Akita".

AMAGASAKI: 34.42 N. 135.24 E.

DOCUMENTS:

Ship's Register.
Last Port Clearance.
3 Crew Lists including Passport Nos.
3 Passenger Lists.
1 Store List.
1 Declaration of Crew's Baggage i.e. tobacco, wine/spirits, camera, wrist watch, radio, firearms/swords, etc. (only at first port of call in Japan).

Ship's agents will prepare Inward/Outward Declaration, 1 Cargo Manifest and Cargo Manifest in transit using specific forms. Therefore ship's agents should be provided with necessary information about details of cargoes in advance.

PILOTAGE: Usual for Pilot to embark at Kobe (Wada Point); however, if Master does not require a Pilot between Wada Point and Amagasaki, Pilot embarks off Amagasaki.

Cables: "Hanshinpilot Osaka" and "Hanshinpilot Kobe". One day's notice ETA required. Telephone through VHF. 3 Pilot boats at Osaka and 6 boats at Kobe with wireless communication with Pilot Station. Pilot boards Kobe, Wada Point (Kobe quarantine anchorage). Amagasaki, 2·5–3 miles off Amagasaki. In case bad weather unable to take Pilot. Safe pilot ladder required. Vessel waiting for Pilot at anchorage as above.

ANCHORAGE: No quarantine anchorage; quarantine inspection only available at Kobe (Wada Point). Safe anchorage (approx.) position 34° 39′ 30″ N., 135° 20′ 18″ E. Draft 12·80 metres.

MAX. SIZE:

	Kobe Steel Works (Ohgimachi Wharf)	*Kobe Steel Works (Ohama Wharf)*
Maximum LOA	200·0 m.	176·81 m.
Maximum breadth	No limitation	No limitation
Maximum draft	11·70 m.	10·40 m.
	Public Wharf	
Maximum LOA	180·21 m.	
Maximum breadth	No limitation	
Maximum draft	9·60 m.	

HEALTH: At first port of call in Japan, vessel must obtain free pratique. Quarantine Officers will attend vessel only from daylight to sunset and Captain to show all Vaccination Cards, Derating Exemption Certificate. In case vessel arrives from cholera-infected area within 10 days, Captain must advise crew and passengers health condition to respective quarantine Office through ship's Agent prior to arrival and close all soil pipes before entering port.

RADIO: Recommended Captain communicates with Agent through Chosi Radio or Nagasaki Radio which cover all ports in Japan. If specifically West bound vessel to Choshi and North bound to Nagasaki Radio respectively.

TUGS: Tug usually joins vessel at anchorage off Amagasaki. Tug's line used for operation free of charge.

BERTHING: No specific requirements. Pilot boarding time will be notified by ship's Agent mainly by radio.

STEVEDORES: At least 24 hours prior notice excluding Sundays and holidays required in order for Agent to arrange stevedores. Vessel must constantly keep her Agent advised of ETA. If stevedores cannot commence loading/unloading at time notified by the Agent, the orderers must pay for waiting time (Y4,400–Y7,200 per hour per gang). If cargo gears not rigged on berthing, stevedores will do same for ship's crew (Y2,200–Y3,600 per hatch). Overtime surcharges 1700–1900 hours 50% additional of basic stevedorage; 2100–0500 hours next morning 130% additional; Sundays/holidays 60% additional.

MEDICAL: No advance notice required unless urgent.

DENSITY:

FUKUYAMA: 34.29 N. 133.21 E.

Located on central northern coast of Setonaikai (Inland Sea) and on border of Hiroshima Prefecture and Okayama Prefecture.
DOCUMENTS:
Ship's Register.
Last Port Clearance.
3 Crew Lists including Passport Nos.
3 Passenger Lists.
1 Store List.
1 Declaration of Crew's Baggage, i.e. tobacco, wine/spirits, camera, wrist-watch, radio, firearms/swords, etc. (only at first port of call in Japan).
Ship's agents will prepare Inward/Outward Declaration, 1 Cargo Manifest and Cargo Manifest in transit using specific forms. Therefore ship's Agents should be provided with necessary information about details of cargoes in advance.
PILOTAGE: Inland Sea Pilotage should preferably be arranged through Agent by cable via Nagasaki Radio giving 72 hours notice. Urgent correction of ETA outside business hours should be cabled direct to pilot station. Inland Sea Pilot Association covers all Inland Sea ports. Pilotage not compulsory but recommended in view of great number of islands causing navigational hazards. Pilots obtained from one of three pilot-stations dependent upon vessels last port of departure and at Master's discretion. Pilotage available throughout 24 hours and 72 hours advance notice preferred, thereafter advising any alterations. Most Inland Sea pilots also act as harbour Pilots up to berth or anchorage at destination. *Note:* No VHF communication available with Inland Sea pilot-stations.

1. Wadamisaki, at entrance to Kobe (vessels transitting Kii Straits) Position 34° 38′ N. 135° 11′ E. Telegraphic address "Anjin Kobe".

2. Sekisaki, 3 miles South of Sekisaki lighthouse. (Vessels transitting Bungo Channel). Position 33° 13′ N. 131° 54′ E. Telegraphic address "Anjin Saganoseki". In event bad weather, recommended vessels proceed shelter as near as possible having due regard to safety, to Sekisaki pilot-station.

3. Hesaki, at East side of Kanmon (Shimonoseki) Straits. Position 33° 56′ 14″ N. 131° 03′ 12″ E.

APPROACHES: Approach channel: length: (from quarantine anchorage to "A" berth) 7,000 metres; depth: 14 metres below low water; width: 300 metres.
Branch channel: (leading to NKK loading berths) depth: 11 metres below low water; width: 200–300 metres.
Note: Dredging of the approach channel to 16 metres with a width of 350 metres is now under way, and is expected to be completed by April 1971. Until then the arrival draft of vessels is to be controlled at 15·00 metres.
ANCHORAGES: Quarantine anchorage position: 34° 22·5′ N. and 133° 26·3′ E., an area of 750 metres radius.
MAX. SIZE: (Also see "Approaches").

NKK's Private Berths.

Berth	Length and depth (in meters)	Max. vessels acceptable (in dwt)	Unloaders	Cargoes handled
Raw Materials Berth				
"A"	300 17	150,000	4 gantry cranes each with 1,500 tons per hour discharging capacity	Iron ore and coal
"B"	280 16	100,000		
"F"	180 11	20,000	2 level-luffing cranes each with 300 tons per hour discharging capacity	Coal and other raw materials except iron ore
Mooring buoy	— 11	25,000	Ship's gear	Pig iron and scrap
Scrap berth	180 13	35,000	2 level-luffing cranes each with 20 tons lifting capacity	Pig iron and scrap
Export Berths				
Berth 1	234 11	30,000	2 level-luffing cranes each with 30 tons lifting capacity	Steel coil and plate
Berth 2	230 13	35,000	1 level-luffing crane with 30 tons lifting capacity and 1 gantry crane with 20 tons lifting capacity	Steel coil and plate
Pipe berth	200 13	35,000	1 level-luffing crane with 20 tons lifting capacity	Steel pipe

HEALTH: At first port of call in Japan, vessel must obtain free pratique. Quarantine Officers will attend vessel only from daylight to sunset and Captain to show all Vaccination Cards. Derating Exemption Certificate. In case vessel arrives from cholera-infected area within 10 days, Captain must advise crew and passengers' health condition to respective Quarantine Office through ship's Agent prior to arrival and close all soil pipes before entering port.
RADIO: Recommended Captain communicates with Agent through Chosi Radio or Nagasaki Radio which cover all ports in Japan. If specifically West bound vessel to Chosi and North bound to Nagasaki Radio respectively.
TUGS: "Nikko Maru" and "Kofuku Maru" (both 3,000 h.p.) are available in the Fukuyama Harbour. Additional tugs are available from other Inland Sea terminals.
BERTHING: No specific requirements. Pilot boarding time will be notified by ship's Agent mainly by radio.
STEVEDORES: At least 24 hours prior notice excluding Sundays and holidays required in order for Agent to arrange stevedores. Vessel must constantly keep her Agent advised of ETA. If stevedores cannot commence loading/unloading at time notified by the agents, the orderers must pay for waiting time. If cargo gears not rigged on berthing, stevedores will do same for ship's crew at additional cost. Overtime surcharges 1700–1900 hours 50% additional of basic stevedorage; 2100–0500 hours next morning 130% additional; Sundays/holidays 60% additional.
MEDICAL: No advance notice required unless urgent.
DENSITY: Summer 1·016–1·022. Winter 1·025. The density not much affected by tide, which is maximum 3·84 metres.
FRESH WATER: Available at any berth. Supply capacity 50 tons per hour. However, for a vessel moored to a buoy or at anchorage, water barge comes from Onomichi.
FUEL: All grades of bonded bunkers are stocked in Tokyo Bay, Ise Bay, Osaka Bay and Kanmon Port. At all other ports bunkers will be lightered from the nearest bunker stock ports at maximum 7 days prior notice. Bunkering barge comes usually from Mizushima (31 miles East of Fukuyama) or from Kobe (97 miles East of Fukuyama). Therefore, an advance order is required.
DEVELOPMENTS: Berth "E" for discharge of raw materials which accommodates up to a 80,000 d/w will be built. Expected commence construction 1971.

Approach channel: The dredging of approach channel to 16 metres expected to be completed by April, 1971.

The construction of the fourth blast furnace was commenced on December 9, 1969 and is expected to be completed in May 1971. When this fourth blast furnace commences production, the annual crude steel output of the Fukuyama Works will increase to 12 million tons. NKK has as its target the construction of a fifth blast furnace thereafter with an annual crude steel output of 15 million tons.

The building of a big-diameter pipe plant is now under way on reclaimed land off Kasaoka, Okayama Prefecture, adjacent to Fukuyama. The pipe mills commenced operation 1970 and a berth accommodating a 35,000 tonner will be built, facing the raw material berths.

GANGWAY/DECK WATCHMEN: Not specially required unless passengers or valuable cargo on board. Cost daytime (0800–1700 hours) Y2,700, night-time Y5,940.
OPENING/CLOSING HATCHES: Stevedores carry out opening and closing hatches. Cost Y4,400–Y7,200 per hour per gang depend-

ing on type of cargoes. If any time lost by ship's crew doing this work, stevedores charge ship for waiting, Recommend request stevedores for this work unless crew can complete it before berthing.
CERTIFICATES: Ship's register to show Customs Inspector ship's registered gross and nett tonnages. Valid Cargo Gear Certificates sometimes required by stevedores when cargo gear's maintenance appears to be poor.
CUSTOMS ALLOWANCE: Only allowed 50 cigarettes to take ashore but no spirits.
CONSULS: None.
REPAIRS: Only minor repairs.
DRY DOCK: None. Available at Innoshima or Mukaijima.
REPATRIATION: Possible.
AIRPORT: Okayama airport 70 kilometres from Fukuyama which takes about 2 hours by car. 2 flights daily.
TIME: GMT plus 9. No alterations made to clocks during year.
POLICE/AMBULANCE/FIRE: Report to Guardmen's office located at West Gate of Nippon Kokan.
TELEPHONES: No arrangements for placing telephone on board. Private telephones connecting with offices in the compound of the Fukuyama Works are placed at each of the raw material berths.
For vessels alongside export berths, private telephone available at foremen's office located on berth.
GENERAL: Fukuyama is a local and new port, developed along with the expansion of Nippon Kokan, Fukuyama Steel Works.
Ship repairs (except small ones) for machinery, radio, radar, etc., are all arranged by firms located in Tokyo, Osaka and Kobe.
SERVICES: Hold cleaning. Labour comes from Mizushima.
SHORE LEAVE: Local Immigration Offices issue shore pass valid for only 3 days, but 3 days extension possible if ship stays longer.

AGENTS: Subagents of Dodwell & Co. Ltd., Tokyo. Nissan Shipping Co. Ltd., NKK Kayi Bldg., 1, Kokan-machi, Fukuyama. Tel. Fukuyama (0849) 41–0535, 3210. Telegraphic Address "Sunsenpaku Fukuyama".

FUSHIKI: 36.49 N. 137.03 E.

DOCUMENTS:
Ship's Register.
Last Port Clearance.
6 Crew Lists including Passport Nos.
3 Passenger Lists.
1 Store List.
1 Declaration of Crew's Baggage, i.e. tobacco, wine/spirits, camera, wrist-watch, radio, firearms/swords, etc. (only at first port of call in Japan).
Ship's agents will prepare Inward/Outward Declaration, 2 Cargo Manifest and Cargo Manifest in transit using specific forms. Therefore ship's Agent should be provided with necessary information about details of cargoes in advance.
PILOTAGE: Pilot available any time during daylight. Not compulsory. No telegraphic address of pilot station, therefore, direct advice to local Agent always required. Pilot meets vessels 209 degrees 2 miles off leading light, thence takes vessel to Quarantine Anchorage ground. Due to many fish-nets on both sides of fairway if requiring to come into Quarantine Anchorage without taking Pilot, necessary to advise Agent in advance. In case of bad weather and need to await outside port, recommend cruising in Toyama Bay until sea abates. Bay area too deep to anchor and also danger of fish-nets. When approaching position for Pilot, give exact ETA to Agent by using Niigataradio and/or VHF to Fushiki Harbour Master. Small wooden pilot boat painted yellow. No particular light or sound signals required.
ANCHORAGE: Safe at all seasons with depth from 8 to 11 metres. Sand and clay bottom. Room at anchorage for at least six vessels over 5,000 gross tons.
RESTRICTIONS: Pilot not available during darkness. No restrictions on tide, because small tide in all seasons. If draft over port limitation, vessel enters port after making adjustment by lightening in Outer Harbour.
MAX. SIZE: Length 180 metres, draft 31 ft. in summer and 30 ft. in winter. However, depth of port not always definite, being a river port, and dredging operations always carried out to keep depth all year round. Tidal range is maximum 0·45 metres.
HEALTH: At first port of call in Japan vessel must obtain free pratique. Quarantine Officers will attend vessel only from daylight to sunset and Captain to show all Vaccination Cards, Derating Exemption Certificate. In case vessel arrives from cholera-infected area within 10 days, Captain must advise crew and passengers' health condition to respective Quarantine Office through ship's Agent prior to arrival and close all soil pipes before entering port.
RADIO: (also see "Pilotage".) Recommended Captain communicates with Agent through Choshi Radio or Nagasaki Radio which cover all ports in Japan. If specifically West bound vessel to Chosi and North bound to Nagasaki Radio respectively.
TUGS: Tugs normally join vessel at port entrance, but sometimes in Outer Harbour for large vessels. Narita-Maru (2,060 h.p.) and Nihonkai-Maru (1,800 h.p.) provide lines, free of charge and Raicho-Maru (760 h.p.) uses ship's line. Used only when pilot on board.
BERTHING: No specific requirements. Pilot boarding time will be notified by ship's Agents mainly by radio.
STEVEDORES: At least 24 hours prior notice excluding Sundays and holidays required in order for Agent to arrange stevedores. Vessel must constantly keep her Agent advised of ETA. If stevedores cannot commence loading/unloading at time notified by the Agents, the orderers must pay for waiting time. If cargo gears not rigged on berthing, stevedores will do same for ship's crew at additional cost. Overtime surcharges 1700–1900 hours 50% additional of basic stevedorage; 2100–0500 hours next morning 130% additional; Sundays/holidays 60% additional.
MEDICAL: No advance notice required unless urgent.
DENSITY: Average density between 1015 and 1019 in all seasons.
FRESH WATER: Available, from left wharf No. 1 and 2, average 45 tons per hour, 120 yen per ton in daytime. In other berths, to be supplied by barge, average 50 tons per hour, 170 yen per ton in daytime.
FUEL: All grades of bonded bunkers are stocked in Tokyo Bay, Ise Bay, Osaka Bay and Kanmon Port. At all other ports bunkers will be lightered from the nearest bunker ports at maximum 7 days prior notice.
DEVELOPMENTS: Right No. 4 wharf reconstructed, now 175 metres long, 10 meters deep, also Right No. 5 wharf, 130 metres long, 7 metres deep. Left No. 1 pier under reconstruction, when completed will be 185 metres length, 10 metres depth. Left No. 2 pier to be reconstructed and completed to same size as Left No. 1.
GANGWAY/DECK WATCHMEN: Not specially required unless passengers or valuable cargo on board. Cost day-time (0800–1700 hours) Y2,700, night-time Y5,940 (approx.).
OPENING/CLOSING HATCHES: Stevedores carry out opening and closing hatches. Cost per hour per gang depending on type of cargoes. If any time lost by ship's crew doing this work, stevedores charge ship for waiting. Recommend request stevedores for this work unless crew can complete it before berthing.
CERTIFICATES: Ship's register to show Customs Inspector ship's registered gross and nett tonnages. Valid Cargo Gear Certificates sometimes required by stevedores when cargo gear's maintenance appears to be poor.
CUSTOMS ALLOWANCE: Only allowed 50 cigarettes to take ashore but no spirits.
CONSULS: None.
REPAIRS: Minor repairs only.
DRY DOCKS: No dry docks. Nearest available in Toyama.
REPATRIATION: Possible.
AIRPORT: Toyama Airport about 35 kilometres distance. Two regular services a day. ANA only.
TIME: GMT plus 9. No alterations made to clocks during year.
HOLIDAYS: 1st May and New Years Day.
POLICE/AMBULANCE/FIRE: Police, Fushiki Police Station, Takaoka (0766) 44–1500; Ambulance, Fushiki Fire Station, Takaoka (0766) 44–1122; or 119; Fire, Fushiki Fire Station, Takaoka (0766) 44–1122.
TELEPHONES: No facilities for placing telephones on board.
SERVICES: Hold cleaning available.
SHORE LEAVE: Local Immigration Offices issue shore pass valid for only 3 days, but 3 days extension possible if ship stays longer.
AUTHORITY: Toyama-Kencho, 1–7, Shinsomagatiwa, Toyama City.

AGENTS: Subagents of Dodwell & Co. Ltd., Toyko. Fushiki Kairiku Unso K.K, 6–6, Fushiki-Minatomachi, Takaoka-shi. Tel. Takaoka (0766) 44–1300. Telegraphic address "Fushikikairiku Fushiki".

HACHINOHE (Hachinoe): 40.32 N. 141.33 E.

DOCUMENTS:
Ship's Register.
Last Port Clearance.
3 Crew Lists including Passport Nos.
3 Passenger Lists.
1 Store List.
1 Declaration of Crew's Baggage, i.e. tobacco, wine/spirits, camera, wrist-watch, radio, firearms/swords, etc. (only at first port of call in Japan).
Ship's Agent will prepare Inward/Outward Declaration, 1 Cargo Manifest and Cargo Manifest in transit using specific forms. Therefore ship's agents should be provided with necessary information about details of cargoes in advance.
PILOTAGE: Pilot not compulsory, but arrangeable at Master's request. Pilot always arranged by Agent if Master requires, and vessel required radio Agent ETA 24 hours before arrival. Pilot boat has no facility to communicate with ship, but flies pilot flag ("H"). Pilot boards at Quarantine Anchorage (lat. 40° 32′ N. long. 141° 32′ E.).
ANCHORAGE: Open sea anchorage. Depth of water: 9–12 metres.
RESTRICTIONS: Pilot arrangeable only in daytime for entry.
MAX. SIZE: Draft: 9·00 m. (29 ft 8 in.). LOA: 160 metres (524 ft. 10 in.) Breadth: no restriction.
HEALTH: At first port of call in Japan, vessel must obtain free pratique. Quarantine Officers will attend vessel only from daylight to sunset and Captain to show all Vaccination Cards. Derating Exemption Certificate. In case vessel arrives from cholera-infected area within 10 days, Captain must advise crew and passengers' health condition to respective Quarantine Office through ship's Agents prior to arrival and close all soil pipes before entering port.
RADIO: Recommended Captain communicates with Agent through Choshi Radio or Nagasaki Radio which cover all ports in Japan. If specifically West bound vessel to Choshi and North bound to Nagasaki Radio respectively.
TUG: Tug joins vessel inside breakwater.

BERTHING: No specific requirements. Pilot boarding time will be notified by ship's Agent mainly by radio.
STEVEDORES: At least 24 hours prior notice excluding Sundays and holidays required in order for Agent to arrange stevedores. Vessel must constantly keep her Agent advised of ETA. If stevedores connot commence loading/unloading at time notified by the Agent, the orderers must pay for waiting time. If cargo gears not rigged on berthing, stevedores will do same for ship's crew at additional cost. Overtime surcharges 1700–1900 hours 50% additional of basic stevedorage; 2100–0500 hours next morning 130% additional; Sundays/holidays 60% additional.
MEDICAL: No advance notice required unless urgent.
DENSITY: 1.025.
FRESH WATER: Available from wharf and barge. 20 tons/hour from barge (capacity: 60 tons). 30 tons/hour from wharf. Cost of water: Y60.– per M/T from wharf. Y130.– per M/T from wharf. Overtime service: plus 30% for 1700–2200 and Sunday/holiday. Plus 50% for 2200–0500.
FUEL: No bonded fuel oil, but domestic diesel oil.
DEVELOPMENT: New wharf expected to be constructed by 1972 LOA: 460 metres, and depth 10 metres.
GANGWAY/DECK WATCHMEN: Not specially required unless passengers or valuable cargo on board. Cost day-time (1800–1700 hours) Y2,700, night-time Y5,940.
OPENING/CLOSING HATCHES: Stevedores carry out opening and closing hatches. Cost Y4,400–Y7,200 per hour per gang depending on type of cargoes. If any time lost by ship's crew doing this work, stevedores charge ship for waiting. Recommend request stevedores for this work unless crew can complete it before berthing.
CERTIFICATES: Ship's register to show Customs Inspector ship's registered gross and nett tonnages. Valid Cargo Gear Certificates sometimes required by stevedores when cargo gear's maintenance appears to be poor.
CUSTOMS ALLOWANCE: Only allowed 50 cigarettes to take ashore but no spirits.
CONSULS: None.
REPAIR: Minor repairs such as welding, piping and lathing.
REPATRIATION: Possible.
AIRPORT: One flight per day by All Nippon Airlines (ANA). Distance: about half an hour by car from wharf to airport at Hachinohe City. Service area: Hachinoho/Tokyo. (2·5 hours required).
TIME: GMT plus 9. No alterations made to clocks during year.
HOLIDAYS: 1st May, 21st August.
POLICE/AMBULANCE/FIRE: Police 2–4141 (Headquarters); 3–0237 (Water Police Station); Ambulance 119; Fire 119.
TELEPHONE: No facilities for placing telephones on board.
GENERAL: 1. Discharging ex-gearless vessel not available at anchorage because of no facilities. 2. In case vessel is moored to buoy, vessel required to prepare anchor chain (port or starboard anchor chain) prior to ship's arrival.
SERVICE: Surveyor: Tally. Hold cleaning. Radar service by Nippon Radar Service Co. Notary public. Bunker: No bonded oil, but domestic diesel oil.
SHORE LEAVE: Local Immigration Offices issue shore pass valid for only 3 days, but 3 days extension possible if ship stays longer.
AUTHORITY: Aomori-Kencho, 1, Nagashima 1, Aomori City.

AGENTS: Subagents of Dodwell & Co. Ltd., Tokyo. Abeki Shokai, c/o Marufuku Ryokan, Same-machi, Hachinoho. Tel. Hachinohe (01782) 3–0218. Telegraphic address "Abe Hachinohe".

1 Store List.
1 Declaration of Crew's Baggage, i.e. tobacco, wine/spirits, camera, wrist-watch, radio, firearms/swords, etc. (only at first port of call in Japan).

Ship's agents will prepare Inward/Outward Declaration, 1 Cargo Manifest and Cargo Manifest in transit using specific forms. Therefore ship's Agent should be provided with necessary information about details of cargoes in advance.
PILOTAGE: Not compulsory, but necessary unless Master well acquainted with locality. Pilot embarks at quarantine anchorage; position 33° 38′ N. 130° 19′ 30″ E. Request for Pilot made through ship's Agent, Master reporting ship's ETA by radio giving accurate time of arrival at least 24 hours prior arrival, also any subsequent change. No VHF. In the event of rough sea, harbour tug-boat will be used.
ANCHORAGE: No anchorage in port.
RESTRICTIONS: No restrictions if vessel in free pratique and draft less than 10 metres. No tide.
MAX. SIZE: No restrictions of length, breadth. Draft to be less than 10 metres (largest vessel berthed at Hakata: g/t 22,488).
HEALTH: At first port of call in Japan, vessel must obtain free pratique. Quarantine Officers will attend vessel only from daylight to sunset and Captain to show all Vaccination Cards, Derating Exemption Certificate. In case vessel arrives from cholera-infected area within 10 days, Captain must advise crew and passengers' health condition to respective Quarantine Office through ship's Agent prior to arrival and close all soil pipes before entering port.
RADIO: Recommended Captain communicates with Agent through Choshi Radio or Nagasaki Radio which cover all ports in Japan. If specifically West bound vessel to Choshi and North bound to Nagasaki Radio respectively.
TUGS: normally join vessel when approaching wharf. Ship's lines used.
BERTHING: No specific requirements. Pilot boarding time will be notified by ship's Agent mainly by radio.
STEVEDORES: At least 24 hours prior notice excluding Sundays and holidays required in order for Agent to arrange stevedores. Vessel must constantly keep her Agent advised of ETA. If stevedores cannot commence loading/unloading at time notified by the Agent, the orderers must pay for waiting time. If cargo gears not rigged on berthing, stevedores will do same for ship's crew. Overtime surcharges 1700–2100 hours 50% additional of basic stevedorage; 2100–0500 hours next morning 130% additional; Sundays/holidays 60% additional.
MEDICAL: No advance notice required unless urgent.
DENSITY: About 1,024.
FRESH WATER: No water barge available. Hydrants: at Central and Suzaki Pier. Rate of delivery: 26/30 tons per hr.
Cost – Y95.– per ton.
FUEL: All grades of bonded bunkers are stocked in Tokyo Bay, Ise Bay, Osaka Bay and Kanmon Port. At all other ports bunkers will be lightered from the nearest bunker stock ports at maximum 7 days prior notice.
FIRE PRECAUTIONS: Modern chemical fire service boat "Hiryu Maru" (30 tons).
DEVELOPMENTS: New berths at Hakozaki Wharves (completing 1972). 1 berth for 45,000 d/t (minus 12·0 m.) 1 berth for 15,000 d/t (minus 10·0 m.) and also lumber port (stock point 347,000 m.)
OPENING/CLOSING HATCHES: Stevedores carry out opening and closing hatches. Cost per hour per gang depending on type of cargoes. If any time lost by ship's crew doing this work, stevedores charge ship for waiting. Recommend request stevedores for this work unless crew can complete it before berthing.
GANGWAY/DECK WATCHMEN: Not specially required unless passengers or valuable cargo on board. Cost day-time (0800–1700 hours) Y2,700, night-time T5,940.
CERTIFICATES: Ship's register to show Customs Inspector ship's registered gross and nett tonnages. Valid Cargo Gear Certificates sometimes required by stevedores when cargo gears maintenance appears to be poor.
CUSTOMS ALLOWANCES: Only allowed 50 cigarettes to take ashore but no spirits.
CONSULS: American Consul, Fukuoka, tel. 092–75–9331.
REPAIRS: Local workshop (fishing-boat repairs) available only for small repairs, so Agent for ocean-going vessel in Hakata arrange repairs from Moji or Tobata.
REPATRIATION: Possible.
AIRPORT: Fukuoka airport: Distance: about 20 minutes from Hakata port by car. JAL Domestic regular airline for Tokyo and Osaka. ANA Domestic regular airline for Tokyo, Osaka. Also, CATHEY and JAL airlines for Taipei, Hong Jong twice a week.
TIME: GMT plus 9. No alterations made to clocks during year.
POLICE/AMBULANCE/FIRE: Police/Ambuoance tel. 110; Fire 119.
TELEPHONES: No arrangements exist for placing telephone on board.
SHORE LEAVE: Local Immigration Offices issue shore pass valid for only 3 days, but 3 days extension possible is ship stays longer.
AUTHORITY: Fukuoka-Shiyakusho, 8–1 Tenjin 1, Fukuoka City.

AGENT: Sub-agents for Dodwell & Co. Ltd., Tokyo. Holme Ringer & Co. Ltd., Fukuoka Branch, c/o Mitsubishi Warehouse Co. Ltd. 9, Okihama-che, Fukuoka. Domestic Telex 722–684 Mitsubishisoko Fuk with "For Ringer Hakata" at head of text. Telegraphic address "Ringer Fukuoka".

HAKODATE: 41.47 N. 140.46 E.

DOCUMENTS:
Ship's Register.
Last Port Clearance.
3 Crew Lists including Passport Nos.

1 Stores List.
1 Declaration of Crew's Baggage, i.e. tobacco, wine/spirits, camera, wrist-watch, radio, firearms/swords, etc. (only at first port of call in Japan).

Ship's agents will prepare Inward/Outward Declaration, 1 Cargo Manifest and Cargo Manifest in transit using specific forms. Therefore ship's Agent should be provided with necessary information about details of cargoes in advance.
PILOTAGE: Not compulsory, but in practice is necessary. Pilots available 24 hours a day and vessels able enter and leave port day and night. Pilots board about 1½ miles S.W. of Breakwater Lt. Ho. Pilot-boat is small boat carrying flag 'pH".

The limit of Hakodate piloting district is the sea area surrounded by a line drawn from Obana Misaki to Kattoshi Misaki and the coastline.
ANCHORAGES: Quarantine anchorage outside Breakwater and care should be taken not to foul fishing nets. Good anchorage inside breakwater at East side of section 3 – depth 11 to 13 metres.
RESTRICTIONS: Quarantine and Customs business between 0800 and 1700 hours only.

MAX. SIZE: Tankers up to 72,000 dwt. at S.B.M.

(*a*) *Buoy* No. 1 Buoy 6,000 tons g.t.
No. 2 ,, 8,000 ,,
No. 3 & No. 4 ,, 10,000 ,,

(*b*) *Pier & Wharf*	*Depth*	*Length*	*Capacity*
Central Pier (South side)	8m	133 m.	6,000 g.t (1)
,, (North side)	9m	171 m.	8,000 ,, (1)

HEALTH: At first port of call in Japan, vessel must obtain free pratique. Quarantine Officers will attend vessel only from daylight to sunset and Captain to show all Vaccination cards, derating Exemption Certificate. In case vessel arrives from cholera infected area within 10 days, Captain must advise crew and passengers health condition to respective Quarantine office through ship's Agent prior to arrival and close all soil pipes before entering port.
RADIO: Recommended Captain communicates with Agent through Choshi Radio or Nagasaki Radio which covers all ports in Japan. If specifically West bound vessel to Choshi and North bound to Nagasaki Radio respectively.
TUGS: Two tug-boats available for big ships: m.s. "Hakodate Maru" 107 g.t. 800 h.p. (Hakodate Municipal); m.s. "Soryu Maru" 150 g.t. 1,100 h.p. (Kyodo-Office) Ferry Boat Co. Tug-boat waits and joins vessel near the appointeed berth. Tug line generally used.
BERTHING: No specific requirements. Pilot boarding time will be notified by ship's agents mainly by radio.
STEVEDORES: At least 24 hours prior notice excluding Sundays and holidays required in order for Agent to arrange stevedores. Vessel must constantly keep her Agent advised of ETA. If stevedores cannot commence loading/unloading at time notified by the Agent, the orderers must pay for waiting time. If cargo gears not rigged on berthing, stevedores will do same for ship's crew at additional cost. Overtime surcharges 1700–1900 hours 50% additional of basic stevedorage; 2100–0500 hours next morning 130% additional. Sundays/holidays 60% additional.
MEDICAL: No advance notice required unless urgent.
TANKERS: Asia Oil Co. sea berth suitable for up to 72,000 dwt at Imodco buoy.
DENSITY: Average 1025.
FRESH WATER: Available at piers ex-hydrants and by barge at anchorage. Supplier, Hakodate Municipal Office.
FUEL: All grades of bonded bunkers are stocked in Tokyo Bay, Ise Bay, and Kanmon Port. At all other ports bunkers will be lightered from the nearest bunker stock ports at maximum 7 days prior notice.
Fuel supplies for Hakodate are generally lightered from Tokyo Bay area and delays can be caused by weather conditions.
DEVELOPMENTS: Extension to North Side Central Pier providing additional berth suitable 10,000 g.t., depth 9 metres. Expected ready April 1971.
GANGWAY/DECK WATCHMEN: Not specially required unless passengers or valuable cargo on board. Cost day-time (0800–1700 hours) Y2,700, night-time Y5,940.
OPENING/CLOSING HATCHES: Stevedores carry out opening and closing hatches. Cost Y4,400–Y6,200 per hour per gang depending on type of cargoes. If any time lost by ship's crew doing this work, stevedores charge ship for waiting. Recommended request stevedoes for this work unless crew can complete it before berthing.
CERTIFICATES: Ship's register to show Customs inspector ship's registered Gross and Nett Tonnages. Valid Cargo Gear Certificates sometimes required by stevedores when cargo gears maintenance appears to be poor.
CUSTOMS ALLOWANCE: Only allowed 50 cigarettes to take ashore but no spirits.
CONSULS: None.
REPAIRS: Hakodate Dockyard Co., undertakes hull and engine repairs.
DRY DOCKS: No. 1. Capacity 15,000 g.t., length 180 m., breadth 22·45 m. depth 6 m. No. 2. Capacity 8,000 g.t., length 140 m., breadth 8 m., depth 6 m.
AIRPORT: Distant 20 min. by car.
TIME: GMT plus 9. No alterations made to clocks during year.
POLICE/AMBULANCE/FIRE: Police 110; Ambulance 119; Fire 119.
TELEPHONES: Arrangeable on board. Cost: Wiring charge Y700; Rental Y500 per day; Calls Y10 to city.
SHORE LEAVE: Local Immigration officers issue shore pass valid for only 3 days, but 3 days extension possible if ship stays longer.
AUTHORITY: Hakodate-Shiyakusho, 4–13, Shinonome-cho, Hakodate City.

HIMEJI (including Hirohata, Shikama, Mega and Aboshi): 34.47 N. 134.41 E.

DOCUMENTS:
Ship's Register.
Last Port Clearance.
3 Crew Lists including Passport Nos.
3 Passenger Lists.
1 Store List.
1 Declaration of Crew's Baggage, i.e. tobacco, wine/spirits, camera, wrist-watch, radio, firearms/swords, etc. (only at first port of call in Japan).

Ship's agents will prepare Inward/Outward Declaration, 1 Cargo Manifest and Cargo Manifest in transit using specific forms. Therefore ship's Agent should be provided with necessary information about details of cargoes in advance.
PILOTAGE: See "Kobe". Vessels take Inland sea Pilot off Wada, Hesaki or Sekisaki; or from ports of Inland sea. No exact pilot station and no checking point at port of Himeji (Nega, Shikama, Hirohata and Aboshi) but Agents arrange pilot when vessel approaches upon receiving cable giving 24 hours advance notice. Pilot boarding positions as follows: Mega 34° 44′ N. 134° 42′ 15″ E. Shikama 34° 45′ N. 134° 39′ E. Hirohata 34° 44′ N. 134° 37′ E. Aboshi 34° 44′ N. 134° 34′ 10″ E.
No strict location of anchorage for vessel awaiting a Pilot in Himeji area, but should be as close as possible to port by draft allowance and communication.
ANCHORAGE: No strict boundary areas for anchorages. Anchor as close as possible to the port according to draft.
RESTRICTIONS: At ports of Mega, Shikama and Aboshi, no pilot boarding between sunset to sunrise. Hirohata pilot will board from sunrise to 2200 hours for Vs. less than 10,000 dwt for entry, and Vs. less than 15,000 for departure, for piers No. 4, 5, 6, 7, 9 and 10 but other berths only from sunrise to sunset. Draft restrictions as follows:
Mega 11·80 m. Shikama 8·80 m. Hirohata 12·50 m. for central pier, 7·50 m. for Kamota pier (Pier No. 1–7), 9·45 m. for Tsuruta pier (Pier No. 10–14). Aboshi 9·0 m.
MAX. SIZE:

Berth	*Wharf length*	*Max LOA*	*Max. Draft*
Shikama			
Public pier No. 2	130 m.		7·5 m.
Public pier No. 3	170 m.		10·0 m.
Public pier No. 4	170 m.		10·0 m.
Public pier No. 5	170 m.		10·0 m.
Satetsu pier	200 m.	160 m.	9·0 m.
Buoy No. 1	160 m.	130 m.	9·0 m.
Buoy No. 2	220 m.	160 m.	9·0 m.
Mega			
Idemitsu Oil Jetty			12·0 m.
Aboshi			
Buoy No. 1	240 m.	160 m.	9·0 m.
Buoy No. 2	260 m.	180 m.	9·0 m.
Hirohata			
Yumesaki Wharf (Pier No. 1–2)	240 m.		7·5 m.
Kamoda Wharf (Pier No. 3–7)	722 m.		7·5 m.
Central Wharf (Pier No. 9)	275 m.	250 m.	12·50 m.
Tsuruta Wharf (Pier No. 10–12)	503 m.		9·45 m.
Shioiri Wharf (Pier No. 13–14)	320 m.		9·45 m.
Oil Berth	140 m.		7·5 m.
Buoy			7·4 m.

HEALTH: At first port of call in Japan, vessel must obtain free pratique. Quarantine Officers will attend vessel only from daylight to sunset and Captain to show all Vaccination Cards. Derating Exemption Certificate. In case vessel arrives from cholera-infected area within 10 days, Captain must advise crew and passengers health condition to respective Quarantine Office through ship's Agent prior to arrival and close all soil pipes before entering port.
RADIO: Recommended Captain communicates with Agent through Choshi Radio or Nagasaki Radio which cover all ports in Japan. If specifically West bound vessel to Choshi and North bound to Nagasaki Radio respectively.
TUGS: Tug(s) normally join vessel when approaching, or at anchorage. Always use tug's lines without charges.
BERTHING: No specific requirements. Pilot boarding time will be notified by ship's Agent mainly by radio.
STEVEDORES: At least 24 hours prior notice excluding Sundays and holidays required in order for Agent to arrange stevedores. Vessel must constantly keep her Agent advised of ETA. If stevedores cannot commence loading/unloading at time notified by the Agent, the orderers must pay for waiting time. If cargo gears not rigged on berthing, stevedores will do same for ship's crew at additional cost. Overtime surcharges 1700–1900 hours 50% additional of basic stevedorage; 2100–0500 hours next morning 130% additional; Sundays/holidays 60% additional.
MEDICAL: No advance notice required unless urgent.
TANKERS: Idemitsu Kosan Kaisha Ltd., Himeji oil jetty where one berth only and max. 11·8 metres draft allowed. Shore discharging facilities two 12 in. diameter hose connections which connect to 18 in. diameter line for tank hoses. Acceptable max. 5 kg/cm² on hose gauge, discharge rate abt. 2,000 l/t per hour.
Note: Idemitsu Kosan Kaisha Ltd., Himeji, require following information prior arrival for smooth berthing and connecting hoses: Height from sea to deck; Length from vessel's side to underneath of hose connections; Height from deck to connection of line; Diameter of connection.
DENSITY: Average density between 1·025 and 1·026 in winter season and 1·018 and 1·020 in summer season.
FRESH WATER: Idemitsu Oil Jetty, Shikama public pier and Hirohata pier able to supply fresh water from shore, but *No Water Barge available at Port of Himeji* therefore not able to supply fresh water at Satetsu pier (Shikama), Shikama buoy, Aboshi buoy or outside anchorage.

Port	Average rate of delivery	Tariff
Mega	20–30 m/t per hour	Y100.–
Shikama	15–20 m/t per hour	Y80.– day-time Add. 50% 1700–2200 Add. 100% 2200–0800 Add. 50% Rain work
Hirohata	15–20 m/t per hour	Y80.– day-time (week-day) Add. 50% 1700–0700 Add. 25% Sunday & holiday Add. 75% Sunday & holiday 1700–0700

FUEL: All grades of bonded bunkers are stocked in Tokyo Bay, Ise Bay, Osaka Bay and Kanmon Port. At all other ports bunkers will be lightered from the nearest bunker stock ports at maximum 7 days prior notice.
DEVELOPMENTS: At Shikama, Public Pier No. 6 extending 170 metres. 9 metres draft. Completion by mid 1971.
GANGWAY/DECK WATCHMEN: Not specially required unless passenger or valuable cargo on board. Cost day-time (1800–1700 hours) Y2,700, night-time Y5,940.
OPENING/CLOSING HATCHES: Stevedores carry out opening and closing hatches. Cost Y4,400–Y7,200 per hour per gang depending on type of cargoes. If any time lost by ship's crew doing this work, stevedores charge ship for waiting. Recommend request stevedores for this work unless crew can complete it before berthing.
CERTIFICATES: Ship's register to show Customs Inspector ship's registered gross and nett tonnages. Valid Cargo Gear Certificates sometimes required by stevedores when cargo gear's maintenance appears to be poor.
CUSTOMS ALLOWANCE: Only allowed 50 cigarettes to take ashore but no spirits.
CARGO GEAR: See "Certificates" but no special requirements.
CONSULS: No consuls at Himeji, Shikama or Hirohata.
REPAIRS: Most minor deck and engine repairs available at port of Himeji; in case special technician required, should be called from Kobe.
DRY DOCKS: No dry dock available at port of Himeji, Nearest dry dock Ishikawajima-Harima Heavy Industries Co. Ltd., Aioi, who have following dry docks. Also see Aioi.

	LOA	LBP	Breadth	Depth	Capacity
Dock No. 1	238 m. (780′9″)	230 m. (754′7″)	33 m. (108′3″)	5·5 m. (18′)	73,000 dwt (LT)
Dock No. 2	156·1 m. (512′1″)	145 m. (475′8″)	19·5 m. (63′11″)	4·5 m. (14′9″)	14,000 dwt (LT)
Dock No. 3	341 m. (1,118′9″)	328 m. (1,076′1″)	54 m. (177′1″)	6 m. (19′8″)	300,000 dwt (LT)

REPATRIATION: Possible.
AIRPORT: About 60 km. to Irami airport. Regular services.
TIME: GMT plus 9. No alterations made to clocks during year.
HOLIDAYS: At Aboshi, No work on 1st and 3rd Sunday. At Shikama, Shore crane, no work on 1st and 3rd Sunday but gangs available for discharging and loading.
POLICE/AMBULANCE/FIRE: Police (Shikama) tel. 35–1441; Ambulance (Shikama) 119 or 35–0119; Fire (Shikama) 119 or 35–0119.
TELEPHONE: No facilities for placing telephones on board.
GENERAL: No quarantine available at port of Himeji, therefore pratique to be obtained at other ports.
SERVICES: Tally, laundry, daily provisions by ship chandler available locally. All other service from Kobe or Osaka.
SHORE LEAVE: Local Immigration Offices issue shore pass valid for only 3 days, but 3 days extension possible if ship stays longer.
AUTHORITY: See "Amagasaki".

AGENTS: Sub-agents of Dodwell & Co., Tokyo. Shikama Kaiun K.K., Minatomachi, Shikania-Ku, Himeji. Tel. Himeji (0792) 35–0912. Telegraphic address "Shikamakaiun Himeji".

HIROSHIMA: 34.20 N. 132.25 E.

DOCUMENTS: See "Yokohama".
PILOTAGE: Inland Sea pilotage should preferably be arranged through Agent by cable via Nagasaki Radio giving 72 hours notice. Urgent correction of ETA outside business hours should be cabled direct to pilot-station. Inland Sea Pilot Association covers all Inland Sea ports. Pilotage not compulsory but recommended in view of great number of islands causing navigational hazards. Pilots obtained from one of three pilot stations dependent upon vessel's last port of departure and at Master's discretion. Pilotage available throughout 24 hours and 72 hours advance notice preferred, thereafter advising any alterations. Most Inland Sea Pilots also act as harbour Pilots up to berth or anchorage at destination. *Note:* No VHF communication available with Inland Sea pilot-stations.

1. Wadamisaki, at entrance to Kobe (vessels transmitting Kii Straits). Position 34° 38′ N. 135° 11′ E. Telegraphic address "Anjin Kobe"

2. Sekisaki, 3 miles South of Sekisaki lighthouse (vessels transmitting Bungo channel). Position 33° 13′ N. 131° 54′ E. Telegraphic address "Anjin Saganoseki". In event bad weather, recommended vessels proceed for shelter as near as possible having due regard to safety, to Sekisaki pilot station.

3. Hesaki, at East side of Kanmon (Shimoneseki) Straits. Position 33° 56′ 24″ N. 131° 03′ 12″ E.

Ujina Lighthouse is at South of Ujina-islet N. 34° 20′ 14″ : E. 132° 27′ 55″.
RESTRICTIONS: Depth of approach to berth about 10 m.
MAX. SIZE: (also see "Developments"). Wharf (Hiroshima Prefecture Public Berth) No. 1, length 166 m., draft 9·7 m, (10,000 g/t vessel). No. 2, length 166 m.

Gaibo-Ganpeki (wharf for ocean-going vessel) length 337 m., depth alongside about 10 m., maximum draft acceptable 9·70 m.
TUGS: Join vessel at quarantine anchorages. Tug's lines used.
TIDES: Maximum (Spring Tide) 3·9 m. Minimum (Neaps) 0·57 m.

Rate of current at flood tide generally ¼ knot to North-east; ½ knot at ebb tide to South-west. South area of Togeshima and Kannonsaki ¼ knot at flood to South-south-east, and ½ knot at ebb tide to North-north-west.
FRESH WATER: By water barge (capacity: 330 m/t available), Additional charges made for overtime i.e. after 5 p.m., and Sunday, holidays, and Saturday afternoon.
DEVELOPMENTS: 340 m. extension of berth completed 1970. Capacity increased for two 10,000 g/t vessels.,
CONSULS: No consul in Hiroshima. Nearest Osaka or Kobe. Marine note of protest can be attested by local notary public.
REPAIRS: All types of deck, electrical and engine repairs.
DRY DOCKS: Largest dry dock Taibi dry dock, Mitsubishi-Hiroshima Works, L 154 m. B 22·00 m. 10,300 g/t. Kanawa dry dock and Ujina dry dock available for 3,500 g/t and 1,500 g/t respectively.
AIRPORT: Hiroshima airport. Only domestic airlines every hour to Osaka and Tokyo.
POLICE/AMBULANCE/FIRE: Police (for emergency) 110; Ambulance 119; Fire 119.
TELEPHONE: No arrangements for placing telephones on board.
SERVICES: Any navigational apparatus can be serviced on request, Cargo holds cleaning services can also be carried out, but tank-cleaning and services are to be arranged from Kobe.
REGULATIONS: Many seaweed and oyster beds near anchorages, therefore oil pollution precautions strictly observed.
AUTHORITY: Hiroshima-Kencho, 10–52 Motomachi, Hiroshima City.

AGENTS: Sub Agents of Dodwell & Co. Ltd., Tokyo. Naigai Unyu Co. Ltd., 36–23, 2-chome, Ujina Kaigan, Hiroshima. Tel. Hiroshima (0822) 51–2421. Telegraphic address "Naigai Hiroshima".

HOSOSHIMA: 32.25 N. 131.41 E.

DOCUMENTS:
Ship's Register.
Last Port Clearance.
3 Crew Lists including Passport Nos.
3 Passenger Lists.
1 Store List.
1 Declaration of Crew's Baggage, i.e. tobacco, wine/spirits, camera, wrist-watch, radio, firearms/swords, etc. (only at first port of call in Japan).

Ship's Agent will prepare Inward/Outward Declaration, 1 Cargo Manifest and Cargo Manifest in transit using specific forms. Therefore ship's Agent should be provided with necessary information about details of cargoes in advance.
PILOTAGE: Telegraphic address of pilot station "Pilot Hososhima". 48 and 24 hours advance notice of ETA required, and any change in ETA. Pilot boards at Hososhima Quarantine anchorage

location, Hososhima I/h N.E. one mile off, position 32° 25′ 50″ N. 131° 41′ 53″ E.
ANCHORAGE: Refer Japanese chart No. 1223 (Ozue-wan and Hososhima-Ko).
RESTRICTIONS: Strictly no entry after sunset.
MAX. SIZE: Max. permissible LOA 170 m. and draft 31 ft. 6 in.
HEALTH: At first port of call in Japan, vessel must obtain free pratique. Quarantine Officers will attend vessel only from daylight to sunset and Captain to show all Vaccination Cards, Derating Exemption Certificate. In case vessel arrives from cholera-infected area within 10 days, Captain must advise crew and passengers' health condition to respective Quarantine Office through ship's Agent prior to arrival and close all soil pipes before entering port.
RADIO: Recommended Captain communicates with Agent through Choshi Radio or Nagasaki Radio which cover all ports in Japan. If specifically West bound vessel to Choshi and North bound to Nagasaki Radio respectively.
TUGS: Join vessel in position 32° 26·5′ N. 131° 39·5′ E. Tug's lines to be used.
BERTHING: No specific requirements. Pilot boarding time will be notified by ship's Agent mainly by radio.
STEVEDORES: At least 24 hours prior notice excluding Sundays and holidays required in order for Agent to arrange stevedores. Vessel must constantly keep her Agent advised of ETA. If stevedores cannot commence loading/unloading at time notified by the Agent, the orderers must pay for waiting time. If cargo gears not rigged on berthing, stevedores will do same for ship's crew at additional cost. Overtime surcharges 1700–1900 hours 50% additional of basic stevedorage; 2100–0500 hours next morning 130% additional; Sundays/holidays 60% additional.
MEDICAL: No advance notice required unless urgent.
DENSITY: Average 1·025 in winter, 1·020 in summer, subject to weather and tide current.
FRESH WATER: Available from dock, 20/30 tons per hour and costs Y100.– per ton in day-time.
FUEL: All grades of bonded bunkers are stocked in Tokyo Bay, Ise Bay, Osaka Bay and Kanmon Port. At all other ports bunkers will be lightered from the nearest stock ports at maximum 7 days prior notice.
DEVELOPMENT: Two wharves under construction; Wharf No. 3 max. acceptable draft 7·5 m., LOA 130 m. Wharf no. 4 max. acceptable draft 10 m., LOA 150 m.
GANGWAY/DECK WATCHMEN: Not specially required unless passengers or valuable cargo on board. Cost day-time (0800–1700 hours) Y2,700, night-time Y5,940 (approx.).
OPENING/CLOSING HATCHES: Stevedores carry out opening and closing hatches. Cost Y4,400–Y7,200 per hour per gang depending on type of cargoes. If any time lost by ship's crew doing this work, stevedores charge ship for waiting. Recommend request stevedores for this work unless crew can complete it before berthing.
CERTIFICATES: Ship's register to show Customs Inspector ship's registered gross and net tonnages. Valid Cargo Gear Certificates sometimes required by stevedores when cargo gear's maintenance appears to be poor.
CUSTOMS ALLOWANCE: Only allowed 50 cigarettes to take ashore but no spirits.
CONSULS: Nil.
REPAIRS: None.
REPATRIATION: Possible.
AIRPORT: Nearest, Miyazaki airport about 2 hours drive from Hososhima. JAL and ANA lines.
TIME: GMT plus 9. No alterations made to clocks during year.
POLICE/AMBULANCE/FIRE: Police 110; Ambulance 119; Fire 119. Public telephone booth available near by the berth.
TELEPHONES: No facilities for placing telephones on board.
SHORE LEAVE: Local Immigration Officers issue shore pass valid for only 3 days, but 3 days extension possible if ship stays longer.

AGENTS: Sub Agents of Dodwell & Co. Ltd., Tokyo. Sankai Unyu KK., 757, Oaja Hosojima, Hyuga-ski, Miyazaki Pref. Tel. Hyuga (09825) 3101. Telegraphic address "Ringer Hyuga".

IHO: 34.45 N. 134.46 E.

DOCUMENTS:
Ship's Register.
Last Port Clearance.
3 Crew Lists including Passport Nos.
3 Passenger Lists.
1 Stores List.
1 Declaration of Crew's Baggage, i.e. tobacco, wine/spirits, camera, wrist-watch, radio, firearms/swords, etc. (only at first port of call in Japan).

Ship's Agents will prepare Inward/Outward Declaration, 1 Cargo Manifest and Cargo Manifest in transit using specific forms. Therefore ship's Agents should be provided with necessary information about details of cargoes in advance.
PILOTAGE: Inland Sea pilotage should preferably be arranged through Agent by cable via Nagasaki Radio giving 72 hours notice. Urgent correction of ETA outside business hours should be cabled direct to Pilot station. Inland Sea Pilot Association covers all Inland Sea ports. Pilotage not compulsory but recommended in view of great number of islands causing navigational hazards. Pilots obtained from one of three pilot stations dependent upon vessel's last port of departure and at Master's discretion. Pilotage available throughout 24 hours and 72 hours advance notice preferred, thereafter advising any alterations. Most Inland Sea Pilots also act as harbour Pilots up to berth or anchorage at destination. *Note:* No VHF communication available with Inland Sea pilot stations.

1. Wadamisaki, at entrance to Kobe (vessels transitting Kii Straits) Position 34° 38′ N. 135° 11′ E. Telegraphic address "Anjin Kobee".
2. Sekisaki, 3 miles South of Sekisaki lighthouse. (Vessels transmitting Bungo Channel). Position 33° 13′ N. 131° 54′ E. Telegraphic address "Anjin Saganoseki". In event bad weather, recommended vessels proceed for shelter as near as possible having due regard to safety, to Sekisaki pilot station.
3. Hesaki, at East side of Kanmon (Shimoneseki) Straits. Position 33° 56′ 14″ N. 131° 03′ 12″ E.

ANCHORAGE: Closed Port. Agent will arrange Anchorage Position for discharging, with Authorities, but usual Position Iho signal station, bearing 215° distant 3,000 m. (signal stn. 34° 44′ 58″ N. 134° 46′ 12″ E.).
HEALTH: Pratique must be obtained at another Port before calling Iho.

At first port of call in Japan, vessel must obtain free pratique. Quarantine Officers will attend vessel only from daylight to sunset and Captain to show all Vaccination Cards, Derating Exemption Certificate. In case vessel arrives from cholera-infected area within 10 days, Captain must advise crew and passengers' health condition to respective quarantine Office through ship's agent prior to arrival and close all soil pipes before entering port.
RADIO: Recommended Captain communicates with Agent through Choshi Radio or Nagasaki Radio which cover all ports in Japan. If specifically West bound vessel to Choshi and North bound to Nagasaki Radio respectively.
TUGS: Not required. Discharging at Outer Anchorage.
TANKERS: Port is operated for oil discharging only. Discharge is into barges through 6 in. hoses at either side of vessel.
DENSITY: Average density is between 1.025 and 1.026 in winter season and between 1.018 and 1.020 in summer season.
FRESH WATER: Not available.
FUEL: All grades of bonded bunkers are stocked in Tokyo Bay, Ise Bay, Osaka Bay and Kanmon Port. At all other ports bunkers will be lightered from the nearest stock ports at maximum 7 days prior notice.
REPAIRS: Not available.
DRY DOCK: Nearest dockyard at Aioi.
AIRPORT: Nearest airport at Osaka.
TIME: GMT plus 9 hours, no alterations.
POLICE/AMBULANCE/FIRE: Police tel. 07944/2–3377; Ambulance, 119 or 2–2101; Fire 119 or 2–2101.
SERVICES: None. Nearest services available at Kobe/Osaka area.

AGENTS: Sub-Agents of Dodwell & Co. Tokyo. Shikama Kaiuw K.K., Minatomachi, Shikama-Ku, Himeji. Tel. Himiji (0792) 35–0912. Telegraphic "Shikamakaiun Himeji."

3. Hesaki, at East side of Kanmon (Shimonoseki) Straits. Position 33° 56′ 24″ N. 131° 03′ 12″E.

ANCHORAGE: Anchorage outside breakwater, sufficient water, but on account fast current deemed not safe anchorage. Anchorage inside breakwater generally shallow, and sea area narrow for large

vessels. To discharge/load only Temposan wharf available for vessels alongside berth where holding ground is good and depth of water is 7·50 metres.

Vessels drawing over 7 metres: vessel can enter Mategata (open road) deemed to be most fitted place for vessels entry to discharge/load. Port of Mategata faces Aki-Nada and located near West entrance of Kurushima channel; 132 degrees 55 minutes East, 36 degrees 06 minutes North, where holding ground good and depth of water 12–20 metres is kept.

RESTRICTIONS: No entry after dark.

MAX. SIZE: Temposan Wharf length 110 metres, breadth no limit draft 7 metres. Mategata (open road) length no limit, breadth no limit, draft 10 metres.

HEALTH: At first port of call in Japan, vessel must obtain free pratique. Quarantine Officers will attend vessel only from daylight to sunset and Captain to show all Vaccination Cards, Derating Exemption Certificate. In case vessel arrives from cholera-infected area within 10 days, Captain must advise crew and passengers' health condition to respective Quarantine Office through ship's Agent prior to arrival and close all soil pipes before entering port.

RADIO: Recommended Captain communicates with Agent through Choshi Radio or Nagasaki Radio which cover all ports in Japan. If specifically West bound vessel to Choshi and North bound to Nagasaki Radio respectively.

TUGS: Temposan wharf: join vessel at sea anchorage, using tug's line without charge. Mategata (Open road): no tug required in normal conditions.

BERTHING: No specific requirements. Pilot boarding time will be notified by ship's Agent mainly by radio. Also see "Max. Size".

STEVEDORES: At least 24 hours prior notice excluding Sundays and holidays required in order for Agent to arrange stevedores. Vessel must constantly keep her Agent advised of ETA. If stevedores cannot commence loading/unloading at time notified by the Agent, the orderers must pay for waiting time. If cargo gears not rigged on berthing, stevedores will do same for ship's crew at additional cost. Overtime surcharges 1700–1900 hours 50% additional of basic stevedorage; 2100–0500 hours next morning 130% additional; Sundays/holidays 60% additional.

MEDICAL: No advance notice required unless urgent.

DENSITY: Temposan wharf 1.015. Mategata 1.015.

FRESH WATER: Fresh water not available but usually brought by barge from Onomichi (about 4 hrs. run to Imabari/Mategata) at Y.350.– per ton. Rate of delivery 80 tons to 200 tons per hour dependent on barge.

FUEL: All grades of bonded bunkers are stocked in Tokyo Bay, Ise Bay, Osaka Bay and Kanmon Port. At all other ports bunkers will be lightered from the nearest bunker stock ports at maximum 7 days prior notice.

GANGWAY/DECK WATCHMEN: Not specially required unless passengers or valuable cargo on board. Cost day-time (1800–1700 hours) Y2,700. Night-time Y5,940.

OPENING/CLOSING HATCHES: Stevedores carry out opening and closing hatches. If any time lost by ship's crew doing this work, stevedores charge ship for waiting. Recommend request stevedores for this work unless crew can complete it before berthing.

CERTIFICATES: Ship's register to show Customs Inspector ship's registered gross and net tonnages. Valid Cargo Gear Certificates sometimes required by stevedores when cargo gear's maintenance appears to be poor.

CUSTOMS ALLOWANCE: Only allowed 50 cigarettes to take ashore but no spirits.

CONSULS: See "Kobe".

REPAIRS: Only minor repairs.

DRY DOCKS: Not available at this port, the nearest ones are Kawasaki Heavy Industries Ltd., Sakaide; Hitachi Shipbuilding & Engineering Co. Ltd., Innoshima; and Mukaishima; dimensions of these docks as follows:

Kawasaki Heavy Industries Ltd., Sakaide. Dock No. 2 for 500,000 dwt vessel. 450 m.×72 m.×12·3 m. It is not in action yet for ships to repair. Only used presently for ship building and after services.

Hitachi Shipbuilding & Engineering Co. Ltd., Innoshima Dock, Dock No. 1 for 20,000 dwt vessel. 175 m.×25·62 m.×9·10 m. Dock No. 3 for 130,000 dwt vessel. 282·50 m.×47 m.×11·33 m

Hitachi Shipbuilding & Engineering Co. Ltd., Mukaishima Dockyard, Dock No. 1 for 3,000 dwt vessel. 86·18 m.×13·60 m.·×6·80 m. Dock No. 2 for 8,500 dwt vessel. 125 m.×18 m.×7·40 m. Dock No. 3 for 25,000 dwt vessel. 175 m.×29 m.×9 m.

REPATRIATION: Possible.

AIRPORT: No airport. Nearest airports are Matsuyama and Takamatsu where the All Nippon Airways.

TIME: GMT plus 9. No alterations made to clocks during year.

POLICE/AMBULANCE/FIRE: Police tel. 110; Ambulance 119; Fire 119.

TELEPHONES: No facilities for placing telephones on board.

GENERAL: Mategata is a closed port. To conform with regulations, vessel obtains permission from Shikoku Maritime Bureau to enter.

Customs request vessels calling Mategata to obtain permission to enter at preceding port of call by paying charge at same rate of tonnage dues prior to arrival of vessel. Application undertaken by Agent.

No quarantine available. Nearest station Matsuyama. No immigration. Officer comes from Niihama.

SERVICES: None.

SHORE LEAVE: Local Immigration Offices issue shore pass valid for only 3 days, but 3 days extension possible if ship stays longer.

AGENT: See "Matsuyama".

INNOSHIMA: 33.17 N. 133.11 E.

DOCUMENTS:

Ship's Register.
Last Port Clearance.
3 Crew Lists including Passport Nos.
3 Passenger Lists.
1 Stores List.
1 Declaration of Crew's Baggage i.e. tobacco, wine/spirits, camera, wrist watch, radio, firearms/swords etc. (only at first port of call in Japan).

Ship's agents will prepare Inward/Outward Declaration, 1 Cargo Manifest and Cargo Manifest in Transit using specific forms. Therefore ship's Agent should be provided with necessary information about details of cargoes in advance.

PILOTAGE: Inland Sea pilotage should preferably be arranged through Agent by cable via Nagasaki Radio giving 72 hours notice. Urgent correction of ETA outside business hours should be cabled direct to pilot station. Inland Sea Pilot Association covers all Inland Sea ports. Pilotage not compulsory but recommended in view of great number of islands causing navigational hazards. Pilots obtained from one of three pilot stations dependent upon vessel's last port of departure and at Master's discretion. Pilotage available throughout 24 hours and 72 hours advance notice preferred, thereafter advising any alterations. Most Inland Sea Pilots also act as harbour Pilots up to berth or anchorage at destination. *Note:* No VHF communication with Inland Sea pilot stations.

Wadamisaki, at entrance to Kobe (vessels transmitting Kii Straits) Position 34° 38′ N., 135° 11′ E. Telegraphic address "Anjin Kobe".

Sekisaki, 3 miles South of Sekisaki lighthouse (vessels transtitting Bungo channel). Position 33° 13′ N., 131° 54′ E. Telegraphic address "Anjin Saganoseki". In event bad weather, recommended vessels proceed for shelter as near as possible having due regard to safety, to Sekisaki pilot station.

Kanmon Pilot boards at Mutsure (33° 58′ 15″ N., 130° 53′ 43″ E.) for passing Shimonoseki Strait to Hesaki where Pilot will be changed to Inland Sea Pilot.

Hesaki, at East side of Kanmon (Shimonoseki) Straits. Position 33° 56′ 24″ N., 131° 03′ 12″ E.

ANCHORAGE: 1. 14 metres deep, 1.4 miles off Hyakkan Island 180°. 2. 9 metres deep, 1.5 miles off Hyakkan Island 290°.

RESTRICTIONS: In general, mooring/unmooring and/or dry-docking in-and-out be carried out in daytime only.

MAX. SIZE:

		Length	*Breadth*	*Draft*
(1)	*a.* For mooring only	320 m.	× 50 m.	× 7 m.
	b. For dry-docking	275 m.	× 44.2 m.	× 4.5 m.

(2) Max. draft for entering port: 9 m.
(3) Max. draft for mooring: 5–7 m. according to quay.

Current is North-East at high tide, and South-west at low tide at max. 2·5 knots.

HEALTH: In event vessel proceeding Innoshima direct from foreign port, vessel to receive pratique at Quarantine anchorage Kobe or Saganoseki (33.15′N; 131.52E.) or Mutsure (33° 59′ N. 130° 53′ E.).

At first port of call in Japan, vessel must obtain free pratique. Quarantine Officers will attend vessel only from daylight to sunset and Captain to show all Vaccination cards, derating Exemption Certificate. In case vessel arrives from cholera-infected area within 10 days, Captain must advise crew and passengers' health condition to respective Quarantine office through ship's Agent prior to arrival and close all soil pipes before entering port.

RADIO: Recommended Captain communicates with Agent through Choshi Radio or Nagasaki Radio which covers all ports in Japan. If specifically West bound vessel to Choshi, and North bound to Nagasaki Radio respectively.

TUGS: Ship taken into port by dock master who joins ship at anchorage with tug-boat. Usually, tug's lines used.

BERTHING: No specific requirements. Pilot boarding time will be notified by ship's Agent mainly by radio.

MEDICAL: No advance notice required unless urgent. Hospital facilities available.

FUEL: All grades of bonded bunkers are stocked in Tokyo Bay, Ise Bay, Osaka Bay and Kanmon Port. At all other ports bunkers will be lightered from the nearest bunker stock ports at maximum 7 days prior notice.

GANGWAY/DECK WATCHMEN: Not specially required unless passengers or valuable cargo on board. Cost day-time (0800–1700 hours) Y2,700, night-time Y5,940 (approx.).

CUSTOMS ALLOWANCE: Only allowed 50 cigarettes to take ashore but no spirits.

CONSULS: None.

REPAIRS: All facilities for major repairs.

DRY DOCKS: See "Max. Size".

AIRPORT: Hiroshima Airport or Okayama Airport (domestic only) About 2 hours by car from both airports.

TIME: GMT plus 9 hours. Permanent.

TELEPHONES: Telephone is available: Shipyard installs one telephone in accommodation and another one in engine room. Cost: (*a*) Y5,000.– for installation of one telephone; (*b*) Y10,000,– per day, each telephone.

SHORE LEAVE: Local immigration offices issue shore pass valid for only 3 days, but 3 days extension possible if ship stays longer.

SERVICES: The following services are available: Tank cleaning, Discharge of tank washings, Compass adjustment, Ship's chandler.

AUTHORITY: Hiroshima-kencho, 10–52, Motomachi, Hiroshima City.

AGENT: Sub-Agent of Dodwell & Co., Tokyo. Hamaoka Shoten, 2207, Habu-cho, Innoshima. Cables: "Hamaoka Innoshima". Tel. Innoshima (08452) 2–1340.

IWAKUNI, Hiroshima Bay: 34.10 N. 132.11 E.

DOCUMENTS:
Ship's Register.
Last Port Clearance.

3 Passenger Lists.
1 Store List.
1 Declaration of Crew's Baggage, i.e. tobacco, wine/spirits, camera, wrist-watch, radio, firearms/swords, etc. (only at first port of call in Japan).

Ship's Agents will prepare Inward/Outward Declaration, 1 Cargo Manifest and Cargo Manifest in transit using specific forms. Therefore ship's Agent should be provided with necessary information about details of cargoes in advance.

PILOTAGE: Inland Sea Pilotage should preferably be arranged through Agent by cable via Nagasaki Radio giving 72 hours notice. Urgent correction of ETA outside business hours should be cabled direct to pilot station. Cable address Ansin Moji. Inland Sea Pilot Association covers all Inland Sea ports. Pilotage not compulsory but recommended in view of great number of islands causing navigational hazards. Pilots obtained from one of three pilot stations dependent upon vessels last port of departure and at Master's discretion. Pilotage available throughout 24 hours and 72 hours advance notice preferred, thereafter advising any alterations. Most Inland Sea Pilots also act as harbour Pilots up to berth or anchorage at destination. *Note:* No VHF communication available with Inland Sea pilot stations.

1. Wadamisaki, at entrance to Kobe (vessels transitting Kii Straits) Position 34° 38′ N. 135° 11′ E. Telegraphic address "Anjin Kobe".

2. Sekisaki, 3 miles South of Sekisaki lighthouse. (Vessels transitting Bungo Channel). Position 33° 13′ N. 131° 54′ E. Telegraphic address "Anjin Saganoseki)). In event bad weather, recommended vessels proceed for shelter as near as possible having due regard to safety, to Sekisaki pilot station.

3. Hesaki, at East side of Kanmon (Shimonoseki) Straits. Position 33° 56′ 24″ N. 131° 03′ 12″ E.

ANCHORAGES: Two anchorages, one for "Quarantine" and repairing, etc., other for discharging logs.
(*a*) Quarantine 34° 10′ 28″ N., 132° 16′ 43″ E. minimum depth 27 m.
(*b*) Discharging area 34° 11′ 12″ N., 132° 14′ 21″ E. minimum depth 10 m.
Nature of bottom mud.
Minimum bottom width no limit.

HEALTH: At first port of call in Japan vessel must obtain free pratique. Quarantine Officers will attend vessel only from daylight to sunset and Captain to show all Vaccination Cards, Derating Exemption Certificate. In case vessel arrives from cholera-infected area within 10 days, Captain must advise crew and passengers health condition to respective Quarantine Office through ship's Agent prior to arrival and close all soil pipes before entering port.

RADIO: Recommended Captain communicates with Agent through Choshi Radio or Nagasaki Radio which cover all ports in Japan. If specifically West bound vessel to Choshi and North bound to Nagasaki Radio respectively.

TUGS: Tugs normally join vessel at Quarantine area. Tug's lines to be used free of charge. Two tugs available of 3800 h.p.

BERTHING: No berthing from sunrise to sunset. At least 2·0 hours notice arrival necessary to reach berth, in event of direct arrival from foreign country.

MEDICAL: No advance notice required unless urgent.

TANKERS: Maximum about 150,000 dwt; slop discharge pipelines. Koa Oil Co. Ltd., Marifu refinery.

	Max. G/T	*Max. safe draft*	*Type and diameter hoses*
Koa Oil Crude Pier	90,000	17·00 m.	12″×3
There used pieces 12″–12″ with pressure gauge.			
North No. 3 Pier	9,000	10·00 m.	8″×1
Kenei No. 3 Pier	28,000	9·00 m.	10″×2
Kenei No. 3 pier used by Messrs. Union Sekiyu Kogyo K.K. jointly.			

DENSITY: 1,020.

FRESH WATER: Alongside Koa Oil Pier, possible to take fresh water ex. shore.

Berth	*Price*	*Capacity*
Koa Oil Crude Pier	Y70	5 tons/Hour
Kenei No. 3 pier	Y70	3 tons/Hour
Sanyo Pupl Pier	Y70	5 tons/Hour

FUEL: Available ex-wharf, but not ex-barge. All grades of bonded bunkers are stocked in Tokyo Bay, Ise Bay, Osaka Bay and Kanmon Port. At all other ports bunkers will be lightered from the nearest bunker stock ports at maximum 7 days prior notice.

DEVELOPMENTS: New berth named "Muronoki Pier" under construction.

GANGWAY/DECK WATCHMEN: Not specially required unless passengers or valuable cargo on board. Cost day-time (0800–1700 hours) Y2,700, night-time Y5,940.

CERTIFICATES: Ship's register to show Customs Inspector ship's registered gross and nett tonnages. Valid Cargo Gear Certificates sometimes required by stevedores when cargo gears maintenance appears to be poor.

CUSTOMS ALLOWANCE: Only allowed 50 cigarettes to take ashore but no spirits.

CARGO GEAR: See "Certificates" but no special requirements.

CONSULS: No consul but marine note of protest can be attended by local notary public.

REPAIRS: None. For heavy repairs from Hiroshima.

REPATRIATION: Possible.

AIRPORT: Hiroshima airport 45 kilometres (Abt. 2 hours).
For Osaka (TOA Airline) 0900, 1415, 1725, 2000
For Tokyo 0750, 1100, 1355, 1510, 1755, 1905

TIME: GMT plus 9. No alterations made to clocks during year.

POLICE/AMBULANCE/FIRE: Police 110 (just dial); Ambulance 119 (just dial); Fire 119 (just dial).

TELEPHONES: No arrangements available except Koa Oil.

SHORE LEAVE: Local Immigration Offices issue shore pass valid for only 3 days, but 3 days extension possible if ship stays longer.

AGENTS: Sub-agents of Dodwell & Co. Tokyo. Naigai Unyu Co. Ltd., 35–7, 4-chome, Shinko-cho Iwakuni. Tel. Iwakuni (0827) 21–7115/6. Telegraphic address "Naigai Iwakuni".

KAGOSHIMA: 31.35 N. 130.33 E.

DESCRIPTION: Port situated in Kagoshima Bay, the southern part of Kyushu and consists of 3 sections as follows:

Main Harbour: divided into Inner Harbour sheltered by breakwaters which can accommodate up to 3,000 tonners, and Outer Harbour, (open roads) where large size vessels lie at anchor.

New Harbour: adjacent to Main Harbour on the South. This section also sheltered by breakwaters and a 10,000 tonner can be accommodated.

South Harbour: located about 6 kilometres away from main harbour on South and used for small coasters.

DOCUMENTS:
Customs: When vessel arrives direct from foreign port, customs officials board for search. Following documents to be submitted:
Crew List.
Passenger List.
Manifest of crew personal effects (must be signed by individual crew member).
Store List.
Arms and Ammunition List.
Narcotics List.
List of ports of Call on current voyage.
Discharging Cargo Manifest.
Through cargo Manifest.
Declaration inward/outward.

Following will be checked on board: Ship's Registry; Last Port Clearance.

When vessel comes from Japanese port, Customs officials will not attend on board, except special case. Master or Agents to attend Custom House for entry formalities with following documents:
Discharging Cargo Manifest.
Through Cargo Manifest.
Declaration inward/outward.
Ship's Registry.
Last Port Clearance.
Documents entrusted with the Master by Customs at previous port.

On vessel's departure, a clearance is issued by Customs, after confirming payment of tonnage dues.

PILOTAGE: Not compulsory, but necessary unless Master well acquainted with locality. Pilot embarks at quarantine anchorage, (see "Health"). Request for pilot made through Agent. Master report by radio accurate ETA at least 24 hours prior to arrival.

ANCHORAGE: Ample good holding anchorage available in Outer Harbour. Depth: Over 9 m.

RESTRICTIONS: Berthing/unberthing during day only.

MAX. SIZE:

Wharf	*Location*	*Length*	*Depth*	*Capacity (G/T)*
7·9 m. wharf	Main harbour	110 m.	7·9 m.	3,000×1
7·5 m. wharf	,,	220 m.	7·5 m.	2,000×2
North	New harbour	125 m.	7·5 m.	3,000×1
North	,,	160 m.	5·5 m.	1,000×2
South	,,	165 m.	9·0 m.	10,000×1
South	,,	260 m.	7·5 m.	5,000×2

HEALTH: Quarantine:
(*a*) Quarantine station: Sea area within radius of 1,000 metres from centre, position 31° 33′ 25″ N. 130° 35′ 33″ E.
(*b*) Quarantine service rendered from sunrise to one hour before sunset.
(*c*) "Q" flag should be hoisted until free pratique granted.
(*d*) When vessel arrives from plague-infected or suspected area within 10 days after she left such place, 24-hour special quarantine required.
All sanitary scuppers must be closed and garbage not thrown overboard after reaching 60 miles off Japanese coast.

RADIO: Recommended Captain contacts Agent through Choshi radio or Nagasaki Radio which covers all ports in Japan. If West bound vessel to Choshi, and North bound to Nagasaki radio respectively.

TUGS: "Wakashio Maru" twin diesel vessel, 1000 h.p.

BERTHING: No specific requirements. Pilot boarding time will be notified by Agent mainly by radio.

New Port (*Kagoshima-Shinko*). Sheltered harbour with main en-

trance 150 m. wide between S. breakwater (350 m.) and N. breakwater (150 m.). Sheltered anchorage in depth of 5·5– 9·0 m. No mooring buoy. Berthage outside breakwater in depth of 9·0 m. and inside breakwater in depth of 5·5–9·0 m.

Piers: South pier (in foreign trade zone, for outbound vessels only):

165 m. long with 9·0 m. alongside, will take one vessel of about 10,000 grt.

260 m. long with 7·5 m. alongside, two vessels less than 5,000 grt.

120 m. long with 4·5 m. alongside, two vessels less than 500 grt.

North pier (for inbound vessels):

125 m. long with 7·5 m. alongside will take one vessel of about 3,000 grt.

160 m. long with 5·5 m. alongside two vessels less than 1,000 grt.

60 m. long with 4·0 m. alongside one vessel less than 500 grt.

160 m. long with 5·5 m. alongside two vessels less than 1,000 grt.

STEVEDORES: Maximum 10 gangs available. Working hours: One labour shift. Normal working hour: 0800 to 1700 hrs. Overtime work possible until about 2000 hrs. by applying to Customs at following fees: 1700–2200, 0500–0830 also Sundays and holidays Y300 (per hour) 2200–0500 Y350 (per hour). All night work is impractible. No work can be arranged for on 31st December and during New Year holidays (1st to 3rd January).

MEDICAL: Hattanmaru Hospital; Fukusaki Hospital; Nagata Dental Plant. No advance notice required unless urgent.

TANKERS: No tanker berths at Kagoshima, but Central Terminal Station (C.T.S.) in Kagoshima Bay. See "Kiire".

FRESH WATER: One 150-ton water barge available. Hydrants at wharves in main harbour. Rate of delivery: 50 tons/hour from barge; 15–20 tons/hour from hydrants.

FUEL: None available. Lightered from another port. Ample notice so that necessary lighterage can be arranged.

DEVELOPMENTS: Industrial harbour planned on reclaimed land at Taniyama in Southern part of Kagoshima.

GANGWAY/DECK WATCHMEN: Not specifically required unless passengers or valuable cargo on board.

OPENING/CLOSING HATCHES: Stevedores open/close hatches. Cost per hour depending on type of cargo. If any time lost by ship's crew doing this work, stevedores charge ship for waiting. Recommend request stevedores for this work unless crew can complete before berthing.

CERTIFICATES: Ship's register to show Customs Inspector registered gross and nett tonnages. Valid Cargo gear Certificates sometimes required by stevedores when cargo gear's maintenance appears poor.

CUSTOMS ALLOWANCES: Only 50 cigarettes to take ashore but no spirits.

REPAIRS: Only minor repairs – Kikukawa Iron Works and Kagoshima Dockyard Co.

REPATRIATION: Possible. Also see "Port Regulations".

AIRPORT: Kagoshima Airport. Short distance from town.

TIME: GMT plus 9 hours. No alterations to clocks during year.

HOLIDAYS: See "Tokyo" (Also see "Stevedores").

SERVICES: Cargo Survey. Provisions and Stores. Fumigation – Toyo Fumigation attend from Moji on request.

WIND/TIDE: North-westerly wind prevails in winter season and Easterly wind in summer. Wet seasons in April and July. Average tidal range 2·74 metres. In the outer harbour, flood tide sets to North and ebb to South. Maximum speed of current 2 knots. Current in inner harbour is less than 0·25 knots.

SHORE LEAVE: Local Immigration Offices issue shore pass valid for only 3 days, but 3 day extension possible if vessel stays longer. Also see "Regulations".

REGULATIONS: Immigration officials board vessel on arrival to examine passports, discharge-books and/or other equivalent travel documents and provide 72-hour landing passes for crew members and passengers. One copy each of crew list and passenger list required by them. Providing ship's Agent with a crew list beforehand will be a great help in expediting immigration business on vessel's arrival. When vessel stays in port more then 72 hours, the landing passes may be extended 72 hours on application. In the event that crew members, without entry visas, are to be landed for repatriation or transfer, Immigration will not permit their landing unless passage, by either sea or air, ensuring the prompt departure from Japan (within 72 hours) of these men has been booked, or unless vessels to which they are to be transferred, arrive in Japan within 5 days.

AUTHORITY: Kagoshima Kencho, 14–50, Shitamachi, Kagoshima City.

AGENTS: Sub-agents of Dodwell & Co. Tokyo. Kyoshingumi Co. Ltd., 11, Yamashita-cho, Kagoshima. Tel. Kagoshima (0992) 26–7115. Telegraphic – "Kyoshingumico Kagoshima".

KAKOGAWA: 34.42 N. 134.50 E.

Port is for sole use of the Kobe Steel Co. Ltd. Declared open port as of 1st May 1970, but vessels should first call off Kobe to obtain free pratique, Customs clearance and Pilot.

DOCUMENTS:

Ship's Register.
Last Port Clearance.
3 Crew Lists including Passport Nos.
3 Passenger Lists.
1 Stores List.
1 Declaration of Crew's Baggage, i.e. tobacco, wine/spirits, camera, wrist-watch, radio, firearms/swords, etc. (only at first port of call in Japan).

Ship's Agent will prepare Inward/Outward Declaration, 1 Cargo Manifest and Cargo Manifest in transit using specific forms. Therefore ship's Agent should be provided with necessary information about details of cargoes in advance.

PILOTAGE: Pilot will board off Kobe when calling for free pratique and Customs clearance. Pilot will be arranged by Agent subject advance request and usual ETA advices.

HEALTH: Vessel must call off Kobe for free pratique. At first port call in Japan, vessel must obtain free pratique. Quarantine Officers will attend vessel only from daylight to sunset and Captain to show all Vaccination cards, derating Exemption Certificate. In case vessel arrives from cholera-infected area within 10 days, Captain must advise crew and passengers' health condition to respective Quarantine office through ship's Agent prior to arrival and close all soil pipes before entering port.

RADIO: Recommended Captain communicates with Agent through Choshi Radio or Nagasaki Radio which covers all ports in Japan. If specifically West bound vessel to Choshi and North bound to Nagasaki Radio respectively.

RESTRICTIONS: Mooring/unmooring conducted daylight hours only.

BERTHING:

	Length	*Depth*
Pier E–1	200 m.	15 m.
Pier E–2	200 m.	14 m.
Pier E–3	300 m.	14·5 m.
Pier E–4	400 m.	17 m.

3 unloaders are presently available. 2 have capacity of discharging 1500 tons per hour and the third 700 tons.

Depth at low water is 16 metres in the fairway which is 350 metres wide. (Also see "Developments".)

MEDICAL: Treatment has to be arranged from Kobe.

FRESH WATER: Available from quay. Rate 50–80 tons per hour.

FUEL: All grades of bonded bunkers are stocked in Tokyo Bay, Ise Bay, Osaka Bay, and Kanmon Port. At all other ports bunkers will be lightered from the nearest bunker stock ports at maximum 7 days prior notice.

DEVELOPMENTS: Dredging work of the fairway is expected to complete as follows: February 1971 17 metres 350 metres wide; September 1971 17 metres 400 metres wide.

GANGWAY/DECK WATCHMEN: Not specially required unless passengers or valuable cargo on board. Cost day-time (0800–1700 hours) Y2,700. Night-time Y5,940.

OPENING/CLOSING HATCHES: Stevedores carry out opening and closing hatches. Cost per hour per gang depending on type of cargoes. If any time lost by ship's crew doing this work, stevedores charge ship for waiting. Recommend request stevedores for this work unless crew can complete it before berthing.

CERTIFICATES: Ship's Register to show Customs inspector ship's registered Gross and Nett Tonnages. Valid Cargo Gear Certificates sometimes required by stevedores when cargo gear's maintenance appears to be poor.

CUSTOMS ALLOWANCE: Only allowed 50 cigarettes to take ashore but no spirits.

REPAIRS: Arranged from Kobe.

REPATRIATION: Possible, through Kobe.

TIME: GMT plus 9. No alterations made to clocks during year.

SHORE LEAVE: Local Immigration offices issue shore pass valid for only 3 days, but 3 days extension possible if ship stays longer.

AGENT: See "Kobe".

KAMAISHI: 39.16 N. 141.55 E.

DOCUMENTS:

Ship's Register.
Last Port Clearance.
3 Crew Lists including Passport Nos.
3 Passenger Lists.
1 Store List.
1 Declaration of Crew's Baggage, i.e. tobacco, wine/spirits, camera, wrist-watch, radio, firearms/swords, etc. (only at first port of call in Japan).

Ship's Agent will prepare Inward/Outward Declaration, 1 Cargo Manifest and Cargo Manifest in transit using specific forms. Therefore ship's Agent should be provided with necessary information about details of cargoes in advance.

PILOTAGE: Pilot not compulsory, but arrangeable at Master's request. Pilot arranged by Agent and vessel required to radio Agent ETA 24 hours before ship's arrival. Pilot boat has no facility to communicate, nor particular light or sound signals, but flies pilot flag ("H"). Pilot boards at 39° 16′ N. 141° 59′ E. 1 mile off Osaki Point. No alternative area in event bad weather.

ANCHORAGE: Up to four 30,000 d/w tonners can safely anchor. Depth of water: 31–43 metres at Quarantine anchorage. 20–27 metres at discharging anchorage.

RESTRICTIONS: Vessel free in and out anytime, but no Pilot available after dark for entry.

MAX. SIZE: Draft 10 metres (33 ft.) and LOA, 200 metres (656 ft.) Breadth no restriction. Vessels with draft exceeding 9 metres required to berth on high water. (Also see "Developments").

HEALTH: At first port of call in Japan, vessel must obtain free pratique. Quarantine Officers will attend vessel only from daylight to sunset and Captain to show all Vaccination Cards, Derating Exemption Certificate. In case vessel arrives from cholera-infected area within 10 days, Captain must advise crew and passengers

health condition to respective Quarantine Office through ship's Agent prior to arrival and close all soil pipes before entering port.
RADIO: Recommended Captain communicates with Agent through Choshi Radio or Nagasaki Radio which cover all ports in Japan. If specifically West bound vessel to Choshi and North bound to Nagasaki Radio respectively.
TUGS: Tugs (2) join vessel at anchorage and tugs' lines used free of charge.
BERTHING: No specific requirements. Pilot boarding time will be notified by ship's Agent mainly by radio.
STEVEDORES: At least 24 hours prior notice excluding Sundays and holidays required in order for agents to arrange stevedores. Vessel must constantly keep Agent advised of ETA. If stevedores cannot commence loading/unloading at time notified by the Agent, the orderers must pay for waiting time (Y4,400–Y7,200 per hour per gang). If cargo gears not rigged on berthing, stevedores will so same for ship's crew (Y2,200–Y3,600 per hatch). Overtime surcharges 1700–1900 hours 50% additional of basic stevedorage; 2100–0500 hours next morning 130% additional; Sundays/holidays 60% additional.
MEDICAL: No advance notice required unless urgent.
DENSITY: Winter 1.026–1.027. Summer 1.023–1.024.
FRESH WATER: Available from wharf by hose. Rate of delivery: about 10–15 tons per hour. Cost of water: Y70.– per M/T. No water barge, but in case vessel requires water at anchorage, tugboat arrangeable for that purpose. Hire of tugboat for water supply: per hour Y12,000.
FUEL: Domestic diesel oil. No bonded fuel oil. All grades of bonded bunkers are stocked in Tokyo Bay, Ise Bay, Osaka Bay and Kanmon Port. At all other ports bunkers will be lightered from the nearest bunker stock ports at maximum 7 days prior notice.
DEVELOPMENTS: The depth of water alongside new wharf will be 13 metres by 1972,
GANGWAY/DECK WATCHMEN: Not specially required unless passengers or valuable cargo on board. Cost day-time (0800–1700 hours) Y2,700, night-time Y5,940.
OPENING/CLOSING HATCHES: Stevedores carry out opening and closing hatches. Cost depending on type of cargoes. If any time lost by ship's crew doing this work, stevedores charge ship for waiting. Recommend request stevedores for this work unless crew can complete it before berthing.
CERTIFICATES: Ship's register to show Customs Inspector ship's registered gross and nett tonnages. Valid Cargo Gear Certificates sometimes required by stevedores when cargo gears maintenance appears to be poor.
CUSTOMS ALLOWANCE: Only allowed 50 cigarettes to take ashore but no spirits.
CONSULS: None.
REPAIRS: Minor repairs such as welding, piping, lathing works etc. only.
DRY DOCKS: None.
REPATRIATION: Possible.
AIRPORT: Hanamaki, distant 100 km. (2 hours by car). One flight between Hanamaki/Tokyo on Tuesday/Thursday/Saturday and two flights on Sunday/Monday/Friday by all Nippon Airline (ANA).
TIME: GMT plus 9. No alterations made to clocks during year.
POLICE/AMBULANCE/FIRE: Police 2–4536 (Headquarter) and 2–3828 (Water Police Station); Ambulance 119; Fire 119.
TELEPHONES: No facilities for placing telephones on board.
SERVICES: Surveyor, Tally, Hold cleaning, Tank cleaning.
GENERAL: Discharging ex-gearless vessel not possible at anchorage.
SHORE LEAVE: Local Immigration Offices issue shore pass valid for only 3 days, but 3 days extension possible if ship stays longer.
AUTHORITY: Iwato-Kencho, 10–1, Uchimaru, Morioloa City.

AGENTS: Sub-agents of Dodwell & Co. Ltd. Tokyo. Abeki Shokai, 210-go, 1-ban, 1-chome, Hama-cho Kamaishi. Tel. Kamaishi (01932) 2–4583/4. Telegraphic address – "Abe Kamaishi."

KANMON-KO (Kanmon Harbour).

According to Japanese Harbour Area Regulations, Moji, Shimonoseki, Kokura, Tobata, Wakamatsu and Yawata are respective sections included in one port namely Kanmon Harbour. The expression of the port as "Kanmon" has been used in charter parties, where these six ports are considered to be one port. Vessel's movements within these ports is treated as shifting berth in the same port. Therefore, if vessel calls at more than two ports within this area, such calls are covered by one payment of tonnage dues. However, at Tobata, Wakamatsu and Yawata, port dues are levied in addition to tonnage dues.

Entry/departure procedures to Customs, Immigration and/or Harbour Master should be effected at each port, as those officials stationed individually at each port.

KANOKAWA: 34.11.15 N. 132.26.10 E. (closed Port)

DOCUMENTS:
Ship's Register.
Last Port Clearance.
3 Crew Lists including Passport Nos.
3 Passenger Lists.
1 Store List.
1 Declaration of Crew's Baggage, i.e. tobacco, wine/spirits, camera, wrist-watch, radio, firearms/swords, etc. (only at first port of call in Japan).

Ship's Agent will prepare Inward/Outward Declaration, 1 Cargo Manifest and Cargo Manifest in transit using specific forms. Therefore ship's Agent should be provided with necessary information about details of cargoes in advance.
PILOTAGE: Inland Sea pilotage should preferably be arranged through Agent by cable via Nagasaki Radio giving 72 hours notice. Urgent correction of ETA outside business hours should be cabled direct to pilot station. Inland Sea Pilot Association covers all Inland Sea ports. Pilotage not compulsory but recommended in view of great number of islands causing navigational hazards. Pilots obtained from one of three pilot stations dependent upon vessels last port of departure and at Master's discretion. Pilotage available throughout 24 hours and 72 hours advance notice preferred, thereafter advising any alterations. Most Inland Sea Pilots also act as harbour Pilots up to berth or anchorage at destination. *Note:* No VHF Communication available with Inland Sea pilot stations.

1. Wadamisaki, at entrance to Kobe (vessels transitting Kii Straits). Position 34° 38′ N. 135° 11′ E. Telegraphic address "Anjin Kobe".

2. Sekisaki, 3 miles South of Sekisaki lighthouse. (Vessels transitting Bungo Channel.) Position 33° 13′ N. 131° 54′ E. Telegraphic address "Anjin Saganoseki". In event bad weather, recommended vessels proceed for shelter as near as possible having due regard to safety, to Sekisaki pilot station.

3. Hesaki, at East side of Kanmon (Shimoneseki) Straits. Position 33° 56′ 24″ N. 131° 03′ 12″ E.

Inland Sea Pilots also attend Harbour Pilotage but if specifically required Harbour Pilot boards at Port entrance South side of Ohkurokamishima, Position 34° 10′ N. 132° 26′ E.
ANCHORAGES: Good holding ground. Entrance channel and Harbour Channels. Depths 18 m. minimum. Bottom mud and sand. Difference between quoted datum and chart datum about two metres (to be added). Harbour anchorage about 2 miles South of "T" head berth where vessel remains if waiting berth.
MAX. SIZE: Length 240 m., beam 30 m., draft 12 m., deadweight 50,000.
HEALTH: Closed port. Vessel must call at another port for Customs and Health clearance before entering Kanogawa. At first port of call in Japan, vessel must obtain free pratique. Quarantine Officers will attend vessel only from daylight to sunset and Captain to show all vaccination Cards, Derating Exemption Certificate. In case vessel arrives from cholera-infected area within 10 days, Captain must advise crew and passengers' health condition to respective Quarantine Office through ship's Agent prior to arrival and close all soil pipes before entering port.
RADIO: Recommended Captain communicates with Agent through Choshi Radio or Nagasaki Radio which cover all ports in Japan. If specifically West bound vessel to Choshi and North bound to Nagasaki Radio respectively.
TUGS: Arranged from Kure. Normally join at Kanokawa Port entrance. Usually tug's lines used without extra charge.
BERTHING: Tanker berth only. See "Tankers" and "Max. Size".
TANKERS: "T" head jetty with 4 buoys. Depth alongside 12 metres. Two hoses with 12 in. connections, max. 8 kgs/sq. cm. Grades handled: molasses, crude and fuel oil.
DENSITY: 1023–1025 alongside berth. Rise of tide: Springs 3·4 m. Neaps 2·6 m.
FRESH WATER: Available at berth, ex-pipeline. Average delivery rate – 20 ton/hour. Cost approximately Y50/ton (50% for overtime/Sundays/holidays and Saturday afternoon).
CONSULS: None.
REPAIRS: See "Kure".
AIRPORT: Kure.
TIME: GMT plus 9 hours. Permanent.
POLICE/AMBULANCE/FIRE: Police 2005; Ambulance 2711; Fire 2711.
TELEPHONES: No arrangements available for placing telephones on board.

AGENTS: See Kure.

KASHIMA: 35.04 N. 140.42 E.

DOCUMENTS:
Ship's Register.
Last Port Clearance.
3 Crew Lists including Passport Nos.
3 Passenger Lists.
1 Store List.
1 Declaration of Crew's Baggage, i.e. tobacco, wine/spirits, camera, wrist-watch, radio, firearms/swords, etc. (only at first port of call in Japan).

Ship's Agent will prepare Inward/Outward Declaration, 1 Cargo Manifest and Cargo Manifest in transit using specific forms. Therefore ship's Agent should be provided with necessary information about details of cargoes in advance.
PILOTAGE: As port under construction, facilities very poor, Pilot called through Agent. Pilot boards about 2 miles to Northeast from the end of breakwater, in position 35° 57′ 5″ N. 140° 43′ 5″ E.
ANCHORAGE: No suitable anchorage at present Quarantine Anchorage located at section between 183° and 279° from the undermentioned centre within a circle of radius of 1,300 metres centre-

ing the position of 35° 57′ 19″ and 140° 42′ 30″ E., where depth of water, 18 metres.
RESTRICTION: No regulations yet, but Pilot does not board vessel after dark. Depth of water in fairway said to be 16 metres, but not officially confirmed, therefore Oil Companies presently restricting ship's draft to 10·80 metres. (35 ft. 7 in.).
MAX. SIZE: No special restriction regarding size except draft of 10·80 metres.
HEALTH: At first port of call in Japan, vessel must obtain free pratique. Quarantine Officers will attend vessel only from daylight to sunset and Captain to show all Vaccination Cards, Derating Exemption Certificate. In case vessel arrives from cholera-infected area within 10 days, Captain must advise crew and passengers' health condition to respective Quarantine Office through ship's Agent prior to arrival and close all soil pipes before entering port.
RADIO: Recommended Captain communicates with Agent through Choshi Radio or Nagasaki Radio which cover all ports in Japan. If specifically West bound vessel to Choshi and North bound to Nagasaki Radio respectively.
TUGS: Usually joins vessel at anchorage where Pilot boards; ship's lines used.
BERTHING: No specific requirements. Pilot boarding time will be notified by ship's Agent mainly by radio.
MEDICAL: No advance notice required unless urgent.
TANKERS: Requirements prior to arrival: Manifold: position, number and external and internal diameters. Reducer: type (ASA or JIS etc.) and external and internal diameters. Bolt: diameter and number, also diameter of pitch circle. Pumping capacity. Ship's draft and ETA, to be received by 0900 hrs. every morning continued three days prior to day of arrival. Water requirement (because of necessity of pumping-up tank for preparation).
There are two dolphins for vessels of 100,000-ton class and 70,000-ton class. Draft restricted to 10·80 metres (35 ft. 7 in.).
DENSITY: 1.025.
FRESH WATER: 50 metric tons per hour from shore pipe, cost basically Y80.– per metric ton: Y80.– for service between 0800–1700 hrs. 50% additional for service between 0600–0800 hrs, 1700–2200 hrs, and during rainy and rough weather, also on Sunday and holiday. 100% additional for service between 2200–0600 hrs.
FUEL: All grades of bonded bunkers are stocked in Tokyo Bay, Ise Bay, Osaka Bay and Kanmon Port. At all other ports bunkers will be lightered from the nearest bunker stock ports at maximum 7 days prior notice.
FIRE PRECAUTIONS: No special precautions, but water curtain made alongside dolphin in case, and there is an extinguisher-boat (15 gross tons, and airfoam system).
DEVELOPMENT: 8 yrs. before completion of construction. When completed, total length of wharf will be about 17 kilometres for about thirty big industries such as iron and steel works, oil refinery and chemical works, foodstuff and feedstuff industries, etc.
GANGWAY/DECK WATCHMEN: Not specially required unless passengers or valuable cargo on board. Cost day-time (0800–1700 hours) Y2,700, night-time Y5,940 (approx.).
CERTIFICATES: Ship's register to show Customs Inspector ship's registered gross and nett tonnages. Valid Cargo Gear Certificates sometimes required by stevedores when cargo gear's maintenance appears to be poor.
CUSTOMS ALLOWANCE: Only allowed 50 cigarettes to take ashore but no spirits.
IDENTIFICATION CARDS: Not required.
CONSULS: None.
REPAIRS: Arranged from Tokyo/Yokohama.
AIRPORT: Presently under construction, about 60 kilometres away,
TIME: GMT plus 9. No alterations made to clocks during year.
POLICE/AMBULANCE/FIRE: Police tel. 110; Ambulance/Fire tel. 119.
TELEPHONES: Not available for placing on board.
SERVICES: No equipment nor facilities, but compass adjusting and others arrangeable from Yokohama.
SHORE LEAVE: Local Immigration Offices issue shore pass valid for only 3 days, but 3 days extension possible if ship stays longer.

AGENTS: Sub-agents of Dodwell & Co. Ltd. Tokyo. Keiyo Shipping Agency Ltd., Kashima Office, c/o Kashima Minato Sangyo K.K., 23–2406, Aza Shinwake, Kizaki, Kamisu-Machi, Kashima-gun, Ibaraki Pref. Tel. Kashima (02999) 2–1331. Telegraphic – "Keiyo-shipkasima Itakoibaraki".

KAWASAKI: 35.32 N. 139.42 E.

PORT LIMITS: Consists of sea and rivers below the most down stream bridges bordered by the coastline, the line drawn between the administrative areas of Tokyo and Yokohama and the point 143° 30′, 2950 metres from the Hane-da light buoy, the line drawn 233° from the above-mentioned point, the line drawn 151° 30′ from the end point of Sakai Channel which divides Yokohama City administrative section from Kawasaki City. (The river of Tama is not included.)

KIIRE—Nippon Oil Co.-c.t.s.: 31.23 N. 130.32 E.

DOCUMENTS:
Ship's Register.
Last Port Clearance.
5 Crew Lists including Passport Nos.
5 Passenger Lists.
1 Store List.
1 Declaration of Crew's Baggage, i.e. tobacco, wine/spirits, camera, wrist-watch, radio, firearms/swords, etc. (only at first port of call in Japan).

Ship's Agent will prepare Inward/Outward Declaration, 1 Cargo Manifest and Cargo Manifest in transit using specific forms. Therefore ship's Agent should be provided with necessary information about details of cargoes in advance.

PILOTAGE: No particular regulations for navigating in Kagoshima Bay. Suggest enter Bay on course close to Osumi Peninsula. Three Light Beacons South of oil piers for Ship's approaching and manouvering. Bay pilots not provided but mooring master provided for assistance to Master for berthing without charge. No VHF available for ship–shore communication.

ANCHORAGES: Anchorage area ranges in depth from 30 to 60 metres. Holding ground in these areas only fair; recommended vessels lie to long scope of chain. Locally tide rise approximately 3 metres in springs and 1·5 metres neaps. Maximum tide currents Northerly 0·32 knot, Southerly 0·47 knot. Ample anchorage and manoeuvring area North-east of terminal.

RESTRICTIONS: Night entry and departure permitted subject to weather conditions.

MAX. SIZE: Max. draft at No. 2 berth – 18 m acceptable 30,000 – 180,000 d/w vessels. Max. draft at No. 3 berth – 28 m acceptable 30,000 – 450,000 d/w vessels.

HEALTH: At first port of call in Japan, vessel must obtain free pratique. Quarantine Officers will attend vessel only from daylight to sunset and Captain to show all Vaccination Cards, Derating Exemption Certificate. In case vessel arrives from cholera-infected area within 10 days, Captain must advise crew and passengers' health condition to respective Quarantine Office through ship's Agent prior to arrival and close all soil pipes before entering port.

RADIO: Recommended Captain communicates with Agent through Choshi Radio or Nagasaki Radio which cover all ports in Japan. If specifically West bound vessel to Choshi and North bound to Nagasaki Radio respectively.

TUGS: Mooring and unmooring assistance provided by two 4,200 h.p. CPP tugs and two 3,000 h.p. VSP tugs regularly stationed.

BERTHING: No specific requirements. Pilot boarding time will be notified by ship's Agent mainly by radio.

RADAR: None.

MEDICAL: Advance notice required if arriving at weekend.

TANKERS: Central Terminal Station (C.T.S.) No. 2 berth used for loading only. Loading capacity 10,000 Kl/H. Depth at berth 18 m. Loading arms ASA, 12 in. 5 series. Combination use with unloading dirty ballast. Maximum pressure 15 kg/cm².

No. 3 berth used for loading and unloading. Unloading capacity 20,000 Kl/H. Loading capacity 10,000 Kl/H. Depth at berth 28 m. Loading arms ASA, 16 in. 6 series. Combination use with unloading dirty ballast. Maximum pressure 15 Kg/cm².

DENSITY: 1.025.

FRESH WATER: Water obtainable at berth on oil piers at rate of 40 tons per hour and at cost of Y100.– per ton.

FUEL: All grades of bonded bunkers are stocked in Tokyo Bay, Ise Bay, Osaka Bay and Kanmon Port. At all other ports bunkers will be lightered from the nearest bunker stock ports at maximum 7 days prior notice.

FIRE PRECAUTIONS: Very strict Safety Regulations.

Disregard of regulations will result in stopping all loading or unloading operations and the vessel being ordered off berth for appropriate action to be taken.

DEVELOPMENTS: By March 1976, 18 new tanks to be completed making total of 30 tanks.

CERTIFICATES: Ship's Register to show Customs Inspector ship's registered gross and nett tonnages. Valid Cargo Gear Certificates sometimes required by stevedores when cargo gear's maintenance appears to be poor.

CUSTOMS ALLOWANCE: Only allowed 50 cigarettes to take ashore but no spitirs.

CONSULS: None.

REPAIRS: Available Moji, Sasebo & Nagasaki.

DRY DOCKS: None.

REPATRIATION: Possible.

AIRPORT: Distance from airport about half an hour by car. Ana and Towa airline serve daily.

TIME: GMT plus 9. No alterations made to clocks during year.

POLICE/AMBULANCE/FIRE: Police station tel. 110; Fire brigade station is located at terminal and Ambulance available at that station.

TELEPHONE: Telephone placed on board at Terminal free of charge for inter-office communication.

SERVICES: All services available.

SHORE LEAVE: Local Immigration Offices issue shore pass valid for only 3 days, but 3 days extensions possible if ship stays longer.

AGENTS: Sub-agents of Dodwell & Co. Ltd. Tokyo. Tokyo Tanker Marine Service Co. Ltd., 2856–5, Uenohamer Aza Nakamiyo, Kiire-cho, Ibusuki, Kagoshima Pref. Tel. Kiire (099345) 161. Telegraphic "Tokmarine Ibusuki".

PILOTAGE: Inland Sea Pilotage should preferably be arranged through Agent by cable via Nagasaki Radio giving 72 hours notice. Urgent correction of ETA outside business hours should be cabled direct to pilot station. Inland Sea Pilot Association covers all Inland Sea ports. Pilotage not compulsory but recommended in view of great number of islands causing navigational hazards. Pilots obtained from one of three pilot-stations dependent upon vessels last port of departure and at Master's discretion. Pilotage available throughout 24 hours and 72 hours advance notice preferred. thereafter advising any alterations. Most Inland Sea Pilots also act as harbour Pilots up to berth or anchorage at destination. *Note:* No VHF communication available with Inland Sea pilot-stations.

1. Wadamisaki, at entrance to Kobe (vessels transitting Kii Straits) Position 34° 38′ N. 135° 11′ E. Telegraphic address "Anjin Kobe".

2. Sekisaki, 3 miles South of Sekisaki lighthouse. (Vessels transitting Bungo Channel). Position 33° 13′ E. 131° 54′ E. Telegraphic address "Anjin Saganoseki". In event bad weather, recommended vessels proceed for shelter as near as possible having due regard to safety, to Sekisaki pilot-station.

3. Mesaki, at East side of Kanmon (Shimonoseki) Straits. Position 33° 56′ 24″ N., 131° 03′ 12″ E.

ANCHORAGE: Lat. 34° 03′ N. Long. 132° 51′ E. Depth of water: 15–30 metres. Anchorage located about 350 metres off beach. Holding ground good and Port faces Iyo-Nada and located Bungo channel. Current at berth and off shore very strong. During winter months strong North-westerly wind prevails.

RESTRICTIONS: Mooring and unmooring daytime only and to be carried out on flood tide.

MAX. SIZE: See "Tankers".

HEALTH: At first port of call in Japan, vessel must obtain free pratique. Quarantine Officers will attend vessel only from daylight to sunset and Captain to show all Vaccination Cards, Derating Exemption Certificate. In case vessel arrives from cholera-infected area within 10 days, Captain must advise crew and passengers health condition to respective Quarantine Office through ship's Agent prior to arrival and close all soil pipes before entering port.

RADIO: Recommended Captain communicates with Agent through Choshi Radio or Nagasaki Radio which cover all ports in Japan. If specifically West bound vessel to Choshi and North bound to Nagasaki Radio respectively.

TUGS: Join vessel at sea anchorage, always using tugs line without charge. Two to four tugs are required for berthing, depending on size of vessel. Three tugs are normally used for unberthing.

BERTHING: No specific requirements. Pilot boarding time will be notified by ship's Agent mainly by radio.

MEDICAL: No advance notice required unless urgent.

TANKERS: *Taiyo Oil Co. Terminal.* Two tanker berths available in approximate position 34° 03′ N. 132° 51′ E.

1. 50,000 dwt berth. Tankers moor to four buoys, two forward, two aft, also using starboard anchor. Depth of water 49 ft. Maximum draft allowed 43 ft. salt water.

2. 100,000 dwt berth. Tankers moor to five buoys, two forward, three aft, also using starboard anchor. Depth of water 59 ft. Maximum draft allowed 51 ft. salt water.

DENSITY: Anchorage 1.015. Berth 1.015.

FRESH WATER: Fresh water not available but usually brought by barge from Onomichi (about 4 hrs. run to Kikuma) at Y.350 per ton. Rate of delivery 80 tons to 200 tons per hour dependant on barge.

FUEL: Can only be supplied by barge from Hanshin and Kanmon area, provided five days notice is given. All grades of bonded bunkers are stocked in Tokyo Bay, Ise Bay, Osaka Bay and Kanmon Port. At all other ports bunkers will be lightered from nearest bunker stock ports at maximum 7 days prior notice.

GANGWAY/DECK WATCHMEN: Not specially required unless passengers or valuable cargo on board. Cost day-time (0800–1700 hours) Y2,700, night-time Y5,940.

CUSTOMS ALLOWANCE: Only allowed 50 cigarettes to take ashore but no spirits.

CONSULS: No consuls. The nearest Consulates in Kobe.

REPAIRS: Only minor repairs.

REPATRIATION: Possible. Nearest immigration office situated at Matsuyama.

AIRPORT: Nearest Matsuyama and Takamatsu.

TIME: GMT plus 9. No alterations made to clocks during year.

POLICE/AMBULANCE/FIRE: Police 110; Ambulance 119; Fire 119.

TELEPHONES: No facilities for placing telephones on board.

GENERAL: As this port is a closed port, the undermentioned procedures required: In conformity with regulations vessel required to obtain special permission to enter from Shikoku Maritime Bureau.

Customs request vessel call at Kikuma to obtain special permission for entering at preceding port, by paying the charge at the same rate of tonnage dues prior to arrival; the above procedures will be taken by Agent.

No quarantine available, the nearest quarantine station is located at Matsuyama.

No Immigration office at this port (coming from Matsuyama).

SERVICES: See "Kobe".

SHORE LEAVE: Local Immigration Offices issue shore pass valid for only 3 days, but 3 days extension possible if ship stays longer.

AGENT: See "Matsuyama".

KIMITSU (Kisarazu): 35.23 N. 139.55 E.

DOCUMENTS:
Ship's Register.
Last Port Clearance.
4 Crew Lists including Passport Nos.
4 Passenger Lists.
1 Store List.
1 Declaration of Crew's Baggage, i.e. tobacco, wine/spirits, camera, wrist-watch, radio, firearms/swords, etc. (only at first port of call in Japan).

Ship's Agent will prepare Inward/Outward Declaration, 1 Cargo Manifest and Cargo Manifest in transit using specific forms. Therefore ship's Agent should be provided with necessary information about details of cargoes in advance.

PILOTAGE: Not compulsory but necessary. Application to be made to Yokohama Pilot Office through Agent. Pilot boards at Kisarazu Port Quarantine Anchorage; available only daytime. If vessel requires Pilot at Kannon Saki through to Kimitsu (Kisarazu Port) 24 hours previous notice required. In this case. Pilot boards at Kannon Saki position only during day and weather permitting. Conditionally, pratique to be obtained at Kisarazu Port in day-time.

Yokosuka Pilot. For vessel taking Pilot at entrance of Tokyo Bay through Kimitsu (Kisarazu Port), apply to Yokosuka Pilot Office (Yokosuka Licensed Pilot Association, tel. Yokosuka (068)–61–6181) whose Pilot boards at position Uraga Channel No. 1 light buoy (Kannon Saki Lighthouse 150 degrees 3·5 miles).

Yokosuka Pilot service available 24 hours day and night. Application required 24 hours prior to arrival, and notify any change one and half hours before arrival (Pilot leaves Yokosuka one and half hours before vessel's arrival).

ANCHORAGE: Refer to Japanese Chart No. 1062 (middle part of Tokyo Bay). Kisarazu Quarantine Anchorage boundary:
Point A 35° 24′ 6″ N. 139° 49′ 30″ E.
Point B, A Point 85° direction, 3500 metres.
Point C, B Point 355° direction, 1500 metres.
Point D, C Point 265° direction, 3500 metres.
Position usually used: 35° 24·5′ N. 139° 50·5′ E.

MAX. SIZE: Discharging Wharf, iron ore, coal:
No. 22 Maximum draft 16 metres. Length of wharf 304 metres.
No. 21 Maximum draft 16 metres. Length of wharf 350 metres. Unloaders at No. 22 and No. 21 3 units each capacity 1,500 tons per hour. 1 unit will be completed April 1971, capacity 1800 tons per hour.
Loading Wharf, Steel Products:
No. 7 Maximum safe draft 11 metres. Length of Wharf 240 metres. Loaders: 1 unit 30 tons 1 unit 20 tons.
No. 8 Length of Wharf 260 metres. Loaders: 2 units each capacity 30 tons. Also see "DEVELOPMENT".

HEALTH: At first port of call in Japan, vessel must obtain free pratique. Quarantine Officers will attend vessel only from daylight to sunset and Captain to show all Vaccination Cards, Derating Exemption Certificate. In case vessel arrives from cholera-infected area within 10 days, Captain must advise crew and passengers. health condition to respective Quarantine Office through ship's Agent prior to arrival and close all soil pipes before entering port.

RADIO: Recommended Captain communicates with Agent through Choshi Radio or Nagasaki Radio which cover all ports in Japan. If specifically West bound vessel to Choshi and North bound to Nagasaki Radio respectively.

TUGS: 2 Tug-boats belonging to Kimitsu Tug Boat Station: "Kimitsu Maru" 2,400 h.p. "Kiyomi Maru" 2,300 h.p. 11 Tug Boats listed belonging to Yokohama Tug Boat Station: "Asama Maru" 3,450 h.p. "Fuji Maru" 2,350 h.p. "Akagi Maru" 2,300 h.p. "Katsura Maru" 2,300 h.p. "Haruna Maru" 2,200 h.p. "Hakone Maru" 2,070 h.p. "Hitachi Maru" 2,300 h.p. "Kongo Maru" 1,800 h.p. "Sugita Maru" 1,440 h.p. "Honmoko Maru" 1,440 h.p. "Sanyo Maru" 900 h.p. Tug boats lines used free of charge.

BERTHING: No specific requirements. Pilot boarding time will be notified by ship's Agent mainly by radio.

STEVEDORES: At least 24 hours prior notice excluding Sundays and holidays required in order for Agent to arrange stevedores. Vessel must constantly keep her Agent advised of ETA. If stevedores cannot commence loading/unloading at time notified by the Agent, the orderers must pay for waiting time. If cargo gears not rigged on berthing, stevedores will do same for ship's crew at additional cost. Overtime surcharges 1700–1900 hours 50% additional of basic stevedorage; 2100–0500 hours next morning 130% additional; Sundays/holidays 60% additional.

MEDICAL: No advance notice required unless urgent.

TANKERS: Only coastal tankers.

DENSITY: 1.02.

FRESH WATER: Available from shore line. Rate of delivery 40–50 per hour. Water fee Y75 per M/T.
FUEL: All grades of bonded bunkers are stocked in Tokyo Bay, Ise Bay, Osaka Bay and Kanmon Port. At all other ports bunkers will be lightered from the nearest bunker stock ports at maximum 7 days prior notice.
DEVELOPMENT: (Nipon Steel Corporation Kimitsu Works). One berth for discharging iron ore and coal to be constructed 1972, capable for larger type vessels. One Berth for discharging lime stone planned, suitable for 10,000 d/w. Three Berths (No. 9, No. 10 and No. 11) for 30,000 d/w. No. 9 completed beginning 1971: Length of wharf 280 metres; maximum safe draft 11 metres. Two Berths loading spiral pipe, one completed August 1970, and other 1971. Length of wharf each 240 metres. Maximum safe draft 11 metres. Capable for 30,000 d/w.
GANGWAY/DECK WATCHMEN: Not specially required unless passengers or valuable cargo on board. Cost day-time (1800–1700 hours) Y2,700, night-time Y5,940.
OPENING/CLOSING HATCHES: Stevedores carry out opening and closing hatches. Cost Y4,400–Y7,200 per hour per gang depending on type of cargoes. If any time lost by ship's crew doing this work, stevedores charge ship for waiting. Recommend request stevedores for this work unless crew can complete it before berthing.
CERTIFICATES: Ship's register to show Customs Inspector ship's registered gross and nett tonnages. Valid Cargo Gear Certificates sometimes required by stevedores when cargo gear's maintenance appears to be poor.
CUSTOMS ALLOWANCE: Only allowed 50 cigarettes to take ashore but no spirits.
CONSULS: None.
REPAIRS: Minor repairs only.
REPATRIATION: Possible.
AIRPORT: Haneda, Tokyo.
TIME: GMT plus 9. No alterations made to clocks during year.
POLICE/AMBULANCE/FIRE: Kisarazu Police Station tel. 0478–22–2151; Kisarazu Fire Brigade and Fire Station tel. 0478–22–2281.
TELEPHONES: No telephone installation direct to vessels alongside wharf.
SERVICES: None. Special services are called from Yokohama and Toyko.
SHORE LEAVE: Local Immigration Offices issue shore pass valid for only 3 days, but 3 days extension possible if ship stays longer.

AGENT: Sub-agents of Dodwell & Co. Ltd. Tokyo. Chiba Kaiun Sangyo Co. Ltd., Kimitsu Office, c/o Kimitsu Works of Nippon Steel Corporation, 2–1054, Hitomi, Kinitzu-machi, Kimitsu-gun, Chiba Pref. Tel. Kimitsu (04785) 2–0800. Telegraphic "Chibamarine Kisarazu".

KINUURA: 34.50 N. 136.56 E.

DOCUMENTS:
Ship's Register.
Last Port Clearance.
3 Crew Lists including Passport Nos.
3 Passenger Lists.
1 Store List.
1 Declaration of Crew's Baggage, i.e. tobacco, wine/spirits, camera, wrist-watch, radio, firearms/swords, etc. (only at first port of call in Japan).
Ship's Agent will prepare Inward/Outward Declaration, 1 Cargo Manifest and Cargo Manifest in transit using specific forms. Therefore ship's Agent should be provided with necessary information about details of cargoes in advance.
PILOTAGE: When Pilot required, cable Agent at least one day before arrival with ETA. Pilot station located 34° 40′ N. 136° 58′ E. If ETA changes cable "Handakoun Handa Aichi" who pass messages to Pilot. Vessels anchor to await Pilot at above position. No VHF communication available. Pilot boats have no communication system.
ANCHORAGE: Kinuura anchorage located 34° 49′ N. 136° 57′ E. Depth of anchorage: Outside high tide bank about 38–39 ft., inside high tide bank about 32–33 ft.
RESTRICTIONS: Entry restricted only by draft; no other restrictions.
MAX. SIZE: Depth at berths 10 metres.
HEALTH: At first port of call in Japan, vessel must obtain free pratique. Quarantine Officers will attend vessel only from daylight to sunset and Captain to show all Vaccination Cards, Derating Exemption Certificate. In case vessel arrives from cholera-infected area within 10 days, Captain must advise crew and passengers health condition to respective Quarantine Office through ship's Agent prior to arrival and close all soil pipes before entering port.
RADIO: Recommended Captain communicates with Agent through Choshi Radio or Nagasaki Radio which cover all ports in Japan. If specifically West bound vessel to Choshi and North bound to Nagasaki Radio respectively.
TUGS: No tug required when vessels enter anchorage, only alongside wharves.
Pilot Boats – "Yahagi Maru" 1,600 h.p., "Shiomi Maru" 1,300 h.p. Tugs standby near wharves.
BERTHING: No specific requirements. Pilot boarding time will be notified by ship's Agent mainly by radio.
STEVEDORES: At least 24 hours prior notice excluding Sundays and holidays required in order for agent to arrange stevedores. Vessel must constantly keep her Agent advised of ETA. If stevedores cannot commence loading/unloading at time notified by the Agent, the orderers must pay for waiting time. If cargo gears not rigged on berthing, stevedores will do same for ship's crew at additional cost. Overtime surcharges 1700–1900 hours 50% additional of basic stevedorage; 2100–0500 hours next morning 130% additional; Sundays/holidays 60% additional.
MEDICAL: No advance notice required unless urgent.
DENSITY: About 1.023–1.027.
FRESH WATER: Available, but only one water barge – capacity 50 tons. When vessels alongside Public Wharves, water can be taken from shore. Cost: Y165 per k/t by barge, Y75 per k/t from shore. Delivery rate: 50 tons per hour but if more than 50 tons reqd. barge returns to shore to load, therefore 1 trip takes about 3 hours.
FUEL: All grades of bonded bunkers are stocked in Tokyo Bay, Ise Bay, Osaka Bay and Kanmon Port. At all other ports bunkers will be lightered from the nearest bunker stock ports at maximum 7 days prior notice.
DEVELOPMENTS: Centre Pier will be available after middle of 1971. Draft will be 32 ft. 10 in./38 ft.
GANGWAY/DECK WATCHMEN: Not specially required unless passengers or valuable cargo on board. Cost day-time (0800–1700 hours) Y2,700, night-time Y5,940.
OPENING/CLOSING HATCHES: Stevedores carry out opening and closing hatches. Cost Y4,400–Y7,200 per hour per gang depending on type of cargoes. If any time lost by ship's crew doing this work, stevedores charge ship for waiting. Recommend request stevedores for this work unles crew can complete it before berthing.
CERTIFICATES: Ship's Register to show Customs Inspector ship's registered gross and nett tonnages. Valid Cargo Gear Certificates sometimes required by stevedores when cargo gear's maintenance appears to be poor.
CUSTOMS ALLOWANCE: Only allowed 50 cigarettes to take ashore but no spirits.
CONSULS: None.
REPAIRS: None.
AIRPORT: None.
TIME: GMT plus 9. No alterations made to clocks during year.
HOLIDAYS: 20th July.
POLICE/AMBULANCE/FIRE: Police 110; Ambulance/Fire 109.
TELEPHONES: No telephones available to place on board.
SERVICES: None.
SHORE LEAVE: Local Immigration Offices issue shore pass valid for only 3 days, but 3 days extension possible if ship stays longer.

AGENTS: Sub-agents of Dodwell & Co. Ltd. Tokyo. Nishioka Maritime Co. Ltd., Chikko Office, Heiwa Bldg., 3–1, Takasago-machi, Minato-Ku, Nagoya. Tel. Nagoya (052) 651–8221. Domestic Telex 446–3148. Telegraphic "Trampnishioka Nagoya."

PILOTAGE: The Hanshin Pilot Association, Umetate-chisaki, Kaigan-dori, Ikuta-ku, Kobe. Tel. 39–5032. Telegraphic address: "Pilot".
When ship arrives daylight, application should be made not later than 1800 of previous day. When application made on same day as ship arrives, ETA should be advised at least two hours earlier.

R/T used between pilot office and pilot boat. Frequency: 153·49 Mc. Output: Key station 50 W.; Mobile Station 5–10 W. As neither pilot office not pilot boat equipped with International VHF apparatus, no arriving ship can exchange direct communication with them.

6 pilot boats available. Gross tonnage 15 tons, speed 15 knots. (maximum 20 knots). Ship requiring Pilot makes request to signal station by flying International flat "G" in day-time, or sending by lamp at night. Pilot taken at quarantine anchorage at Wada-misaki Point. Pilot boats usually located at pier in front of pilot's office. Special point fixed for Pilot to board in bad weather. The ship awaits a pilot either at or near quarantine anchorage at Wada-misaki Point or outside breakwater.

When moored to a mooring buoy, chain cable should be used. Chain shackles must be ready. Pilot boards vessel for mooring if ship arrives before 2230 hours and for unmooring any time except following berths:

	Mooring	Unmooring
Kobe Seiko Pier (Steel Mill)	before sunset	Up to 2000 hours
Toyo Menka Pier (Silo Berth)	,, ,,	No restriction
Showa Sangyo Pier (Silo Berth)	,, ,,	,, ,,
Mitsubishi Shoji Pier (Tanker Berth)	,, ,,	,, ,,
Shell Buoy (Tanker Berth)	,, ,, but subject to tide being available.	Before sunset as a rule but possibly up to 2200 hrs. depending on weather, congestion etc.
MKS Buoy (Tanker berth)	,, ,,	,,
Nissho Buoy (Tanker berth)	,, ,,	,,

ANCHORAGES: Quarantine anchorage: Latitude 34° 38′ N; 34° 38′.6 N. Longitude 135° 10′ E; 135° 11′ E.

Section of Port	Number of Anchorages	Depth of Water
3rd	8 berths	12 m.–15 m.
4th	4 berths	11 m.–15 m.
5th	28 berths	11 m.–15 m.
6th	6 berths	13 m.–15 m.

All vessels requiring anchorage for awaiting berth, repairs, bunkering etc., must obtain anchoring position from Harbour Master except following cases: 1. Vessels coming from foreign ports and anchoring at Quarantine Anchorage for inspection. 2. Vessels staying in Quarantine Anchorage not longer than 24 hours after obtaining pratique.

RESTRICTIONS: Quarantine. When ship arrives outside break water after sunset, it is inspected for quarantine purposes next day.

Entry at night. When ship arrives outside breakwater after 2130 it is not permitted to enter.

Hazardous cargo. Depending on kind and quantity of hazardous cargo carried, ship is ordered to berth alongside a pier, at a buoy or outside breakwaters.

Tide. 3 sea berths in the 3rd section can be used only when tide running towards the West.

Draft. Each berth limited for draft.

MAX. SIZE: (Dry Cargoes)

Berth	Permissible LOA	Safe Draft	Cargo Handled	Remarks
Buoy 12 (Public)	210 m.	10.3 m.	Any cargo	
Pier 7-B (Public)	192 m.	9.9 m.	Grain	Vessel with Government cargo has priority to use this berth.
M'bishi D Buoy (Private)	190 m.	10.3 m.	Grain/ Scrap/ general	This buoy can be used only when there is no repair vessel.
Tomen Silo Berth (Private)	208 m.	11.3 m.	Grain	
Showa Sangyo Silo Berth (Private)	200 m.	11.3 m.	Grain	
Kobe Seiko Pier-3 (Private)	300 m.	11.0 m.	Coal/ iron ore	

(Tankers)

Name of Berth	d.w.t. (approx.)	Overall length	Depth of water	Mooring – Pipeline – discharging rate
Shell. Bunkers ex-barge only. No slop discharge facilities.	70,000	250 m.	15 m. (48′03″)	To 4 buoys. Two 16-in. submarine pipes – deck hose 10 in. and 12 in. Capacity 2,000 KL/H. (mooring possible when tide runs towards West.)
MKS. Bunkers ex-barge only.	55,000	235 m. (breadth 33 m).	13.5 m.	To 3 buoys. One 12-in. submarine pipe. 7 joints (10 in.) Capacity 1,000 KL/H (mooring possible when tide runs towards West)
Nissho. Bunkers ex-barge only.	45,000	230 m.	11.5 m.	To 2 buoys. One 12-in. pipe. Capaccity 600 KL/H. (mooring possible when tide runs towards West)
Mitsubishi Shoji (for L.P.G. tankers). Bunkers available ex-wharf; ex-barge at anchorage. NO slop discharge facilities.	50,000	240 m.	12 m.	Alongside Pier. 1,000 ton/H. (regardless of tide) 14 in. pipe. Deck hose 2×6 in.

HEALTH: At first port of call in Japan, vessel must obtain free pratique. Quarantine Officers will attend vessel only from daylight to sunset and Captain to show all Vaccination Cards, Deratting Exemption Certificate. In case vessel arrives from cholera-infected area within 10 days, Captain must advise crew and passengers' health condition to respective Quarantine Office through ship's Agent prior arrival and close all soil pipes before entering port.

RADIO: Recommend Captain communicates with Agent through Choshi Radio or Nagasaki Radio which cover all ports in Japan. If specifically West-bound vessel to Choshi, and North-bound to Nagasaki Radios respectively.
Kobe-Radio details:

	Security and Port message	Port message	Public message

STEVEDORES: At least 24 hours prior notice excluding Sundays and holidays required in order for Agent to arrange stevedores. Vessel must constantly keep Agent advised ETA. If stevedores cannot commence loading/unloading at time notified by Agent, the orderers must pay for waiting time (Y4,400–Y7,200 per hour per gang). If cargo gears not rigged on berthing, stevedores will do same for ship's crew (Y2,200–Y3,600 per hatch). Overtime surcharges 1700–1900 hours 50% additional of basic stevedorage; 2100–0500 hours next morning 130% additional; Sundays/holidays 60% additional.

VHF: Available for port communication, see "Radio".

MEDICAL: Agent required give information when patient to be hospitalised or needs medical attention. All medical facilities in port (Kobe City) can be used. When report made by means of VHF or wireless, necessary arrangements are made at once for urgent treatment of patient.

TANKERS: See "Max. Size".

TIDE: Mean height of tide 1·030 metres. Some of tanker berths in West part of port affected by tide. Currents less than one knot inside harbour.

DENSITY: Winter: 1·023–1·026. Summer: 1·018–1·022.

FRESH WATER:

	Pumping Capacity	*Cost: inside bw.*	*outside bw.*
Supply by barge	300 tons	Y155/cbm	25% additional
Supply from quay	40/80 tons	Y95 per cmb	per every km.

FUEL: All grades of bonded bunkers are stocked in Tokyo Bay, Ise Bay, Osaka Bay and Kanmon Port. At all other ports bunkers will be lightered from the nearest bunker stock ports at maximum 7 days prior notice. See also "Max. Size – Tankers".

FIRE PRECAUTIONS: LPG tankers instructed by Maritime Safety Headquarters to strictly observe safety rules. Example: checking on what is carried by those who go aboard; banning ship's stores to be loaded on to ship which is working.

DEVELOPMENTS: (*a*) **Port Island:** Expected complete in 1975, when 9 container berths (depth 12 m. length 2,600 m.) and 21 liner berths (depth 12 m., length 4,200 m.) will be available.

(*b*) **Kobe Silo Berth:** Now available. Location: East reclamaton area, No. 2 Section. Length of berth: 752 ft. Depth: 41 ft. at berth, 37 ft. 9 in. in channel. Unloading facilities: Mobile shifting SKT 2 units. Unloading capacity: 500 tons per hour per unit. This berth can be used by vessels other than those who carry a cargo for this silo when it is vacant. Wharfage is Y6.– per gross ton per day. Water supply from quay not available yet.

(*c*) **Kohnan Silo Berth** Completed end 1970. Location: East reclamation area. No. 4 section. Length of berth: 214 m. Capable for 60,000 dwt vessel. Depth 12·5 m. Unloading facilities: 1. Rope trolley system unloader 2 units (can be used for grain, sugar, general cargo, etc.); 2. Pneumatic unloader 1 unit. Unloading capacity: 1,500 tons per hour per unit basis grain cargo. 2,300 tons per hour.

WATCHMEN: Not specially required unless passengers or valuable cargo aboard. Charges Watch at gangway or patrol aboard ship: day shift Y2,700,00, night shift Y5,940.00. Watch at cargo hold day shift Y2,500.00, night shift Y5,500.00 (approx.).

OPENING/CLOSING HATCHES: By Stevedores. Charges: Charges for assistance in opening and closing a hatch cover and beam (per berth, per hold): Sea-going vessel Ordinary cargo day-time Y6,500.00, night-time Y9,000.00. Bulk cargo day-time Y8,100.00, night-time Y11,200.00. Charges for opening and closing an automatic 'tween deck cover day time Y1,650.00, night-time Y2,250.00.

CERTIFICATES: Ship's Register to show Customs Inspector ship's registered gross and nett tonnage. Valid Cargo Gear Certificates sometimes required by stevedores when cargo gear maintenance appears to be poor.

CUSTOMS ALLOWANCES: Tobacco (per passenger or crew member). Temporary shore-leave up to 50 cigarettes (duty free); Disembarkation up to 200 cigatettes (duty free). Maximum allowable (only in case of disembarkation) up to 800 cigarettes duty free (however, 600 gigarettes – taxable).

Wines and/or Spirits: Crew member: When the ship at sea for more than one month, up to 6 bottles (one bottle – duty free); less than one month up to 6 bottles (no duty free). Passengers: When a passenger travels for less than a fortnight up to 12 bottles (one bottle – duty free); more than a fortnight up to 12 bottles (up to 3 bottles – duty free).

KOKURA: 33.54 N. 130.53 E. (See "Kanmon-Ko")

Kokura situated between Moji and Tobata. On the East is contiguous to Moji port, on the West to Tobata port and on the North it opens to the Kanmon Straits.

DOCUMENTS:

Ship's Register.
Last Port Clearance.
3 Crew Lists including Passport Nos.
3 Passenger Lists.
1 Store List.
1 Declaration of Crew's Baggage, i.e. tobacco, wine/spirits, camera, wrist-watch, radio, firearms/swords, etc. (only at first port of call in Japan).

Ship's Agent will prepare Inward/Outward Declaration, 1 Cargo Manifest and Cargo Manifest in transit using specific forms. Therefore ship's Agent should be provided with necessary information about details of cargoes in advance.

PILOTAGE: Inland Sea Pilotage should preferably be arranged through Agent by cable via Nagasaki Radio giving 72 hours notice. Urgent correction of ETA outside business hours should be cabled direct to pilot station. Inland Sea Pilot Association covers all Inland Sea ports. Pilotage not compulsory but recommended in view of great number of islands causing navigational hazards. Pilots obtained from one of three pilot-stations dependent upon vessels last port of departure and at Master's discretion. Pilotage available throughout 24 hours and 72 hours advance notice preferred, thereafter advising any alterations. Most Inland Sea Pilots also act as harbour Pilots up to berth or anchorage at destination. *Note:* No VHF communication available with Inland Sea pilot-stations.

1. Wadamisaki, at entrance to Kobe (vessels transitting Kii Straits) Position 34° 38′ N. 135° 11′ E. Telegraphic address "Anjin Kobe".

2. Sekisaki, 3 miles South of Sekisaki lighthouse (vessels transitting Bungo Channel). Position 33° 13′ N. 131° 54′ E. Telegraphic address "Anjin Saganoseki". In event bad weather, recommended vessels proceed for shelter as near as possible having due regard to safety, to Sekisaki pilot-station.

3. Hesaki, at East side of Kanmon (Shimoneseki) Straits. Position 33° 56′ 24″ N. 131° 03′ 12″ E.

ANCHORAGE: Anchorage seldom used. Depth 10 m. Capacity 13,000 tons×2.

Anchorage located outside leading channel to port, near fairway of Kanmon Straits. Ship can stay at this anchorage only upon payment of compensation to fishery guild. When winds prevail, not safe for ship to stay there.

RESTRICTIONS: Vessel enters port only within one hour before and after slack tide in day-time. No night departure. Maximum size 18,000 tons gross, 10 metres draft.

MAX. SIZE: See "Restrictions".

HEALTH: At first port of call in Japan, vessel must obtain free pratique. Quarantine Officers will attend vessel only from daylight to sunset and Captain to show all Vaccination Cards, Derating Exemption Certificate. In case vessel arrives from cholera-infected area within 10 days, Captain must advise crew and passengers health condition to respective Quarantine Office through ship's Agent prior to arrival and close all soil pipes before entering port.

RADIO: Recommended Captain communicates with Agent through Choshi Radio or Nagasaki Radio which cover all ports in Japan. If specifically West bound vessel to Choshi and North bound to Nagasaki Radio respectively.

TUGS: See "Moji".

BERTHING: No specific requirements. Pilot boarding time will be notified by ship's Agent mainly by radio.

Wharf	*Length*	*Depth*	*Capacity (g/t)*
Sunatsu	300 m.	8·4 m.	10,000 tons×1 (length limited to 170 m. OA)
Sumitomo Metal East	210 m.	10·0 m.	18,000 tons×1 (length limited to 190 m. OA)
Hiagari, 3, 4, 5.		7·0 m.	15,000 tons×3 (length limited to 145 m. OA)
Kanematsu Oil Pier	210 m.	6·5 m.	11,000 tons×1 (length limited to 170 m. OA)

STEVEDORES: At least 24 hours prior notice excluding Sundays and holidays required in order for Agent to arrange stevedores. Vessel must constantly keep her Agent advised of ETA. If stevedores cannot commence loading/unloading at time notified by the Agent, the orderers must pay for waiting time (Y4,400–Y7,200 per hour per gang). If cargo gears not rigged on berthing, stevedores will do same for ship's crew (Y2,200–Y3,600 per hatch). Overtime surcharges 1700–1900 hours 50% additional of basic stevedorage; 2100–0500 hours next morning 130% additional; Sundays/holidays 60% additional.

(*a*) Maximum 6 gangs are available.
Stevedores, regular employees 116, temporary labourers 109. Longshoremen 459.

(*b*) Lighters: Kokura Marine Transportation Co., lighters 25, tonnage 8,900 tons.

(*c*) Shore crane:

No.	*Capacity*		*Location*	*Owners*
2	10 tons		Sunatsu wharf	Sumitomo Metal
1	6 tons		,,	Kokura Marine
3	12 tons	outreach 18 m.	Sumitomo Metal Wharf	Sumitomo Metal

(*d*) Floating crane: arrangeable from Moji.

(*e*) Average performance of loading/discharging:
Discharging: Iron ore 40/50 tons per hr./gang/hatch (by ship's gears). 200 tons per hr./gang/hatch (by shore crane). Coal 40/50 tons per hr./gang/hatch (by ship's gears). 100/150 tons per hr./gang/hatch (by shore cranes). Scrap steel, pressed 20 tons per hr./gang/hatch (by ship's gears). ordinary 10 tons per hr./gang/hatch (by ship's gears). bulky 5 tons per hr./gang/hatch (by ship's gears). Loading: Steel under 20′ long 25–30 tons per hr./gang/hatch. over 20′ long 15–20 tons per hr./gang/hatch.

(*f*) 2 shifts: 0800 to 1700 hrs. and 1700 to 0700 hrs. Normal working hours: 0800 to 1700 hrs. Refer to Moji for further information.

TANKERS: Also see "Berthing". At Kanematsu-Goshi Oil Refinery 8 in. diameter shore pipe line. No slop facilities available.

DENSITY: 1025.

FRESH WATER: From hydrants at Sunatsu and Sumitomo Metal wharves, the rate of delivery per hour: 30 tons per hydrant, cost per ton ex. wharf Y115.– ex. barge Y200.– at Hiagari wharf Y230.– (ex. barges only).

FUEL: All grades of bonded bunkers are stocked in Tokyo Bay, Ise Bay, Osaka Bay and Kanmon Port. At all other ports bunkers will be lightered from the nearest bunker stock ports at maximum 7 days prior notice.

GANGWAY/DECK WATCHMEN: Not specially required unless passengers or valuable cargo on board. Cost day-time (0800–1700 hours) Y2,700, night-time Y5,940.

OPENING/CLOSING HATCHES: Stevedores carry out opening and closing hatches. Cost per hour per gang depending on type of cargoes. If any time lost by ship's crew doing this work, stevedores charge ship for waiting. Recommend request stevedores for this work unless crew can complete it before berthing.

CERTIFICATES: Ship's register to Show Customs Inspector ship's registered gross and nett tonnages. Valid Cargo Gear Certificates sometimes required by stevedores when cargo gears maintenance appears to be poor.

CUSTOMS ALLOWANCE: Only allowed 50 cigarettes to take ashore but no spirits.

CONSULS: None.

REPAIRS: See "Moji".

AIRPORT: All Nippon Airwsys, Kitakyushu, about 30 minutes by taxi from Kokura station to airport. Japan Air Lines, Fukuoka, and Cathay Pacific Air Lines, Fukuoka, about 1 and half hours by train and taxi from Kokura station to airport.

TIME: GMT plus 9. No alterations made to clocks during year.

POLICE/AMBULANCE/FIRE: Police 56–7171; Ambulance 119; Fire 92–4831.

SHORE LEAVE: Local Immigration Offices issue shore pass valid for only 3 days, but 3 days extension possible if ship stays longer.

AGENT: Sub-agents of Dodwell & Co. Ltd., Holme Ringer & Co. Ltd., PO Box 72, 9–9, Mirato-medii, Moji-Ku, Kitakyushu. Tel. Moji (093) 33–1311/8. Telegraphic "Ringer Moji".

KOMATSUSHIMA: 31.35 N. 130.33 E.

DOCUMENTS:
Ship's Register.
Last Port Clearance.
3 Crew Lists including Passport Nos.
3 Passenger Lists.
1 Store List.
1 Declaration of Crew's Baggage, i.e. tobacco, wine/spirits, camera, wrist-watch, radio, firearms/swords, etc. (only at first port of call in Japan).

Ship's Agent will prepare Inward/Outward Declaration, 1 Cargo Manifest and Cargo Manifest in transit using specific forms. Therefore ship's Agent should be provided with necessary information about details of cargoes in advance.

PILOTAGE: Not compulsory. No authorised licensed Pilot available but non-licensed Pilot available when required.

ANCHORAGES: Situated at Western corner of Komatsushima bay and port protected by three breakwaters, North, East and South covering 396,700 sq. metres. Depths of water at anchorages as follows:

(*a*) Inside breakwater 8/10 metres, (*b*) Outside breakwater 9/10 metres, (c) Wharf 9·50 metres.

RESTRICTIONS: Vessel must get permission and instructions where to anchor from Port Captain before arrival. Wharf and Inner harbour: entering and sailing usually only during day-time regardless tide and current. Outer harbour: Entry and sailing anytime.

MAX. SIZE: Anchorage inside breakwater: length no limit, breadth no limit, draft 8·60 metres.

Anchorage outside breakwater: length no limit, breadth no limit, draft 8·60 metres.

Wharf. (Suitable 10,000 dwt). length 170 metres, breadth no limit, draft 9 metres.

HEALTH: Pratique to be obtained at Shimotsu prior arrival Komatsushima. At first port of call in Japan, vessel must obtain free pratique. Quarantine Officers will attend vessel only from daylight to sunset and Captain to show all Vaccination Cards, Derating Exemption Certificate. In case vessel arrives from cholera-infected area within 10 days, Captain must advise crew and passengers health condition to respective Quarantine Office through ship's Agent prior to arrival and close all soil pipes before entering port.

RADIO: Recommended Captain communicates with Agent through Choshi Radio or Nagasaki Radio which cover all ports in Japan. If specifically West bound vessel to Choshi and North bound to Nagasaki Radio respectively.

TUGS: Wharf and inner harbour: join vessel at sea anchorage, always using tug's line without charge. Outer harbour: no tug required in normal conditions.

BERTHING: No specific requirements. Pilot boarding time will be notified by ship's Agent mainly by radio.

STEVEDORES: At least 24 hours prior notice excluding Sundays and holidays required in order for Agent to arrange stevedores. Vessel must constantly keep her Agent advised of ETA. If stevedores cannot commence loading/unloading at time notified by the Agent, the orderers must pay for waiting time. If cargo gears not rigged on berthing, stevedores will do same for ship's crew at additional cost. Overtime surcharges 1700–1900 hours 50% additional of basic stevedorage; 2100–0500 hours next morning 130% additional; Sundays/holidays 60% additional.

MEDICAL: No advance notice required unless urgent.

DENSITY: 1015.

FRESH WATER: Alongside berth: Can be supplied by shore line with capacity of 25 tons per hour at Y65.– (0800–1700), at Y100.– (1700–0800) (appox.).

Anchorage: Can be supplied by 50-ton barge with capacity of 50 tons per hour (but as strong winds prevail during winter months no water supplied at anchorage outside breakwater) and rate of charges as follows: For inner harbour, per ton Y200.– For outer harbour, per ton Y250.– Additional charges: 1700–0800 50% extra. Rough sea and rain 50% extra.

FUEL: All grades of bonded bunkers are stocked in Tokyo Bay, Ise Bay, Osaka Bay and Kanmon Port. At all other ports bunkers will be lightered from the nearest bunker stock at maximum 7 days prior notice.

GANGWAY/DECK WATCHMEN: Not specially required unless passengers or valuable cargo on board. Cost day-time (0800–1700 hours) Y2,700, night-time Y5,940.

OPENING/CLOSING HATCHES: Stevedores carry out opening and closing hatches. Cost per hour per gang depending on type of cargoes. If any time lost by ship's crew doing this work, stevedores charge ship for waiting. Recommend request stevedores for this work unless crew can complete it before berthing.

CERTIFICATES: Ship's Register to show Customs Inspector ship's registered gross and nett tonnages. Valid Cargo Gear Certificates sometimes required by stevedores when cargo gear's maintenance appears to be poor.

CUSTOMS ALLOWANCE: Only allowed 50 cigarettes to take ashore but no spirits.

CONSULS: None. Nearest consulates in Osaka.

REPAIRS: Only minor repairs.

DRY DOCKS: No dry dock. Nearest at Hitachi Shipbuilding & Engineering Co. Ltd., Chikko works, Osaka; Kawasaki Heavy Industries Ltd., Kobe and Mitsubishi Heavy-Industries Reorganised Ltd., Kobe Shipyard & Engine Works.

AIRPORT: No airport. Nearest airport Tokushima where All Nippon Airways, 9 flights to Osaka, 2 to Tokyo, and 1 each to Kagoshima and Sochi.

TIME: GMT plus 9. No alterations made to clocks during year.

POLICE/AMBULANCE/FIRE: Police tel. 110; Ambulance 119; Fire 119.

TELEPHONES: No facilities for placing telephones on board.

SERVICES: None.

SHORE LEAVE: Local Immigration Offices issue shore pass valid for only 3 days, but 3 days extension possible if ship stays longer.

AUTHORITY: Tokushima-Kencho, 1, Mandai-cho, Tokushima City.

AUTHORITY: Yamaguchi-Kencho, 1–1 Takimachi, Yamaguchi City.

AGENT: Sub-agents of Dodwell & Co. Ltd., Sankyu Unyo Kiko K.K., 766–25, Miyanosu, Kudamatsu-shi. Tel. Kudamatsu (0833) 4–0660. Telegraphic Address "Sankyuunyu Kudamatsu".

KURE: 35.15 N. 132.32 E.

DOCUMENTS:
Ship's Register.
Last Port Clearance.
3 Crew Lists including Passport Nos.
3 Passenger Lists.
1 Store List.
1 Declaration of Crew's Baggage, i.e. tobacco, wine/spirits, camera, wrist-watch, radio, firearms/swords, etc. (only at first port of call in Japan).

Ship's Agent will prepare Inward/Outward Declaration, 1 Cargo Manifest and Cargo Manifest in transit using specific forms. Therefore ship's Agent should be provided with necessary information about details of cargoes in advance.
PILOTAGE: Inland Sea pilotage should preferably be arranged through Agent by cable via Nagasaki Radio giving 72 hours notice. Urgent correction of ETA outside business hours should be cabled direct to Pilot Station. Inland Sea Pilot Association covers all Inland Sea ports. Pilotage not compulsory but recommended in view of great number of islands causing navigational hazards. Pilots obtained from one of three pilot-stations dependent upon vessels last port of departure and at Master's discretion. Pilotage available throughout 24 hours and 72 hours advance notice preferred, thereafter advising any alterations. Most Inland Sea pilots also act as harbour Pilots up to berth or anchorage at destination. *Note:* No VHF communication available with Inland Sea pilot-stations.

1. Wadamisaki, at entrance to Kobe (vessels transitting Kii Straits) Position 34° 38′ N. 135° 11′ E. Telegraphic address "Anjin Kobe".

2. Sekisaki, 3 miles South of Sekisaki lighthouse (vessels transitting Bungo Channel). Position 33° 13′ N. 131° 54′ E. Telegraphic address "Anjin Saganoseki". In veent bad weather, recommended vessels proceed for shelter as near as possible having due regard to safety, to Sekisaki pilot-station.

3. Hesaki, at East side of Kanmon (Shimonoseki) Straits. Position 33° 56′ 24″ N., 131° 03′ 12″ E.

ANCHORAGES:

	Minimum Depth	*Minimum bottom width*	*Density of water*	*Nature of bottom*
Entrance Channel	20 m.	No limit	Summer Av. 1·020	
Harbour Channel(s)	20 m.	No limit	Winter Av. 1·025	Mud and sand

Depths refer to M.W.L. Difference between datum quoted and chart datum: abt. 2 m. (to be added) Rise of tide: Springs 3·4 m. Neaps 2·6 m.
Also Mooring buoys and Harbour Anchorage. (See "Berthing").

HEALTH: At first port of call in Japan, vessel must obtain free pratique. Quarantine Officers will attend vessel only from daylight to sunset and Captain to show all Vaccination Cards, Derating Exemption Certificate. In case vessel arrives from Cholera infected area within 10 days, Captain must advise crew and passengers health condition to respective Quarantine Office through ship's Agent prior to arrival and close all soil pipes before entering port.
RADIO: Recommended Captain communicates with Agent through Choshi Radio or Nagasaki Radio which cover all ports in Japan. If specifically West bound vessel to Choshi and North bound to Nagasaki Radio respectively.
TUGS: Tugs normally join vessel at quarantine anchorage area. Tug's lines free of charge.
BERTHING: Pilots do not agree to berth or unberth outside period from sunrise to sunset. For berthing, at least 1·5 hours advance arrival necessary to reach berth before sunset. Mooring buoys: three buoys available in harbour for vessels less than 15,000 dwt. Harbour anchorage: Three anchorages with good ground (mud) and suitable vessels up to 80,000 d/w. L.O.A. 300 m.

Missin Steel Works Ore berth

No. 2 Berth
Depth of approaches 17 – 18 m.
Length of Berth 190 m.
Depth of alongside berth 13 m.
Maximum draft acceptable 11·747 m.
Maximum length acceptable 224 m.
Maximum width acceptable 31·8 m.

No. 3 Berth
Suitable 150,000 dwt.
Depth of approaches 19 – 20 m.
Length of Berth 275 m.
Depth of alongside berth 18 m.
Maximum draft acceptable 18 m.
Maximum length acceptable 295 m.
Maximum width acceptable 45 m. (abt.)

STEVEDORES: At least 24 hours prior notice excluding Sundays and holidays required in order for Agent to arrange stevedores. Vessel must constantly keep her Agent advised of ETA. If stevedores cannot commence loading/unloading at time notified by the Agent, the orderers must pay for waiting time. If cargo gears not rigged on berthing, stevedores will do same for ship's crew at additional cost. Overtime surcharges 1700–1900 hours 50% additional of basic stevedorage; 2100–0500 hours next morning 130% additional; Sundays/holidays 60% additional.
MEDICAL: No advance notice required unless urgent.
TANKERS: No facilities.
FRESH WATER: For domestic and boiler, 330 k/tons per barge (one barge available from Kure City office), delivering rate about 100 k/tons per hour and approximate cost per K/ton Y120·00 (50% additional for overtime, Sundays/holidays and Saturday afternoon also Y20·00 additional to basic rate for outside harbour limit).
FUEL: All grades of bonded bunkers are stocked in Tokyo Bay, Ise Bay, Osaka Bay and Kanmon Port. At all other ports bunkers will be lightered from the nearest bunker stock ports at maximum 7 days prior notice.
GANGWAY/DECK WATCHMEN: Not specially required unless passengers or valuable cargo on board. Cost day-time (0800–1700 hours) Y2,700, night-time Y5,940 (approx.).
OPENING/CLOSING HATCHES: Stevedores carry out opening and closing hatches. Cost Y4,400–Y7,200 per hour per gang depending on type of cargoes. If any time lost by ship's crew doing this work, stevedores charge ship for waiting. Recommend request stevedores for this work unless crew can complete it before berthing.
CERTIFICATES: Ship's Register to show Customs Inspector ship's registered gross and nett tonnages. Valid Cargo Gear Certificates sometimes required by stevedores when cargo gear's maintenance appears to be poor.
CUSTOMS ALLOWANCE: Only allowed 50 cigarettes to take ashore but no spirits.
CONSULS: No consul available, but marine note of protest can be attested by the local notary public.
REPAIRS: All types of deck and engine repairs are possible.
DRY DOCKS: (Ihi-Kure). Dimensions of largest dry dock No. 4 Dry Dock (length 338·3 m., width 43 m., depth 17 m.) – 160,000 dwt. 2 small docks.
REPATRIATION: Possible.
AIRPORT: Hiroshima airport, distance approximately 35 km. – 40 km. and about 60–90 minutes by car. Only domestic regular airlines available. 4 flights to Osaka and 6 to Tokyo, daily.
TIME: GMT plus 9. No alterations made to clocks during year.
POLICE/AMBULANCE/FIRE: Police (for emergency) 110; Ambulance 119; Fire 119.
TELEPHONES: No arrangements available for placing telephones aboard.
GENERAL: Kure is a local port which makes it difficult to arrange all requirements. At least three days notice helpful.
SERVICES: All navigational apparatus can be served as required. Cargo holds cleaning service can also be carried out, but tank-cleaning equipment and services to be arranged from Kobe area, otherwise through IHI Kure Shipyards.
SHORE LEAVE: Local Immigration Offices issue shore pass valid for only 3 days, but 3 days extension possible if ship stays longer.
AGENT: Sub-agents of Dodwell & Co, Tokyo. Naigai Unyu Co. Ltd., 7–1, 1-chome, Naka-dori, Kure. Tel. Kure 0823 21–5181/5. Telegraphic "Naigai Kure". Telex: 662340.

KUSHIRO: 42.58 N. 144.21 E.

DOCUMENTS:
Ship's Register.
Last Port Clearance.
3 Crew Lists including Passport Nos.
3 Passenger Lists.
1 Store List.
1 Declaration of Crew's Baggage, i.e. tobacco, wine/spirits, camera, wrist-watch, radio, firearms/swords, etc. (only at first port of call in Japan).

Ship's Agent will prepare Inward/Outward Declaration, 1 Cargo Manifest and Cargo Manifest in transit using specific forms. Therefore ship's Agent should be provided with necessary information about details of cargoes in advance.

PILOTAGE: No telegraphic address. Previous advance notice, minimum 8 hours advance notice ETA and any alterations. Contact pilot boat through Harbour office/tug boats with wireless telephones. Pilot boat has no radio telephone. Pilot boat waits at Quarantine anchorage (1,000 metres off and 280 degrees from North B/W white L/H), and entrance of B/W during winter period (December-March).

ANCHORAGE: Bottom sand and mud. Minimum depth 9 metres in passage and 7·5 metres in anchorage. Depth over 29½ ft. 162,075 sq. metres, Section 2; Depth over 24½ ft. 690,000 sq. metres, Section 2 and 3; Depth under 24½ ft. 393,600 sq. metres, Section 3. Tidal range, average high-tide plus 1·533 metres, average low-tide plus 0·154 metres, average tidal difference plus 0·953 metres.

RESTRICTIONS: Vessel allowed enter and sail day and night. Pilot assistance officially not compulsory but in practice necessary, and pilot service available for 24 hours subject 8 hours advance notice.

MAX. SIZE: Pilot agrees take in 25,000 dwt vessels (length O/A about 185 metres). However, depth maximum 9·5 metres.

HEALTH: At first port of call in Japan, vessel must obtain free pratique. Quarantine Officers will attend vessel only from daylight to sunset and Captain to show all Vaccination Cards, Derating Exemption Certificate. In case vessel arrives from cholera-infected area within 10 days. Captain must advise crew and passengers health condition to respective Quarantine Office through ship's Agent prior to arrival and close all soil pipes before entering port.

RADIO: Recommended Captain communicates with Agent through Choshi Radio or Nagasaki Radio which cover all ports in Japan. If specifically West bound vessel to Choshi and North bound to Nagasaki Radio respectively.

TUGS: Usually join vessel at entrance of breakwater and ship's line to be used.

BERTHING: No specific requirements. Pilot boarding time will be notified by ship's Agent mainly by radio.

STEVEDORES: At least 24 hours prior notice excluding Sundays and holidays required in order for Agent to arrange stevedores. Vessel must constantly keep her Agent advised of ETA. If stevedores connot commence loading/unloading at time notified by the Agent, the orderers must pay for waiting time. If cargo gears not rigged on berthing, stevedores will do same for ships' crew at additional cost. Overtime surcharges 1700–1900 hours 50% additional of basic stevedorage; 2100–0500 hours next morning 130% additional; Sundays/holidays 60% additional.

MEDICAL: No advance notice required unless urgent.

TANKERS: North Pier – 3 berths for 20,000 dwt×2 and 18,000 dwt×1. Hose-diameters 10″×1, 8″×3, 6″×3. South New Pier – 1 berth for 3,000 dwt. Hose-diameters 10″×1.

DENSITY: Average 1·025 inner breakwater high-tide, and average 1·022 low-tide.

FRESH WATER: Direct supply from the wharves at 30 tons per hour. Cost at Y90.– per cubic ton. Barge supply and capacity 3 hours round per barge. costing at Y135.– per cubic ton basic in summer period.

FUEL: All grades of bonded bunkers are stocked in Tokyo Bay, Ise Bay, Osaka Bay and Kanmon Port. At all other ports bunkers will be lightered from the nearest bunker stock ports at maximum 7 days prior notice.

DEVELOPMENT: Total of 21 berths including 4 for up to 40,000 dwt. Industrial raw materials carriers will be built and port breakwater will be lengthened by 3,940 metres from 1970 to 1980.

GANGWAY/DECK WATCHMEN: Not specially required unless passengers or valuable cargo on board. Cost day-time (0800–1700 hours) Y2,700, night-time Y5,940 (approx.).

OPENING/CLOSING HATCHES: Stevedores carry out opening and closing hatches. Cost per hour per gang depending on type of cargoes. If any time lost by ship's crew doing this work, stevedores charge ship for waiting. Recommend request stevedores for this work unless crew can complete it before berthing.

CERTIFICATES: Ship's Register to show Customs Inspector ship's registered gross and nett tonnages. Valid Cargo Gear Certificates sometimes required by stevedores when cargo gears maintenance appears to be poor.

CUSTOMS ALLOWANCE: Only allowed 50 cigarettes to take ashore but no spirits.

CONSULS: None. US Consul located in Sapporo city.

REPAIRS: Ordinary deck, engine and electrical repairs arrangeable by the local factory.

DRY DOCKS: None; nearest located in Hakodate and Muroran ports.

REPATRIATION: Possible.

AIRPORT: Kushiro air port about 40 minutes taxi or direct connection bus from port area. Flight service daily, 2 flights for Tokyo and 1 flight for Sapporo.

TIME: GMT plus 9. No alterations made to clocks during year.

HOLIDAYS: 1st May.

POLICE/AMBULANCE/FIRE: Police HQ 23–7111 or emergency 110; Hospitals Kushiro Grand Hospital 41–6121, Kushiro Red-Cross Hospital 22–7171; Fire HQ 22–2156 or emergency 119.

TELEPHONES: No systems for arranging on board.

GENERALS: All port facilities services except wharfage applicable. Winter period additional charges 30%–50% while 1st December and 31st March (all Hokkaido ports same).

SERVICES: Arrangeable from Muroran.

SHORE LEAVE: Local Immigration Offices issue shore pass valid for only 3 days, but 3 days extension possible if ship stays longer.

AUTHORITY: Kushiro-Shiyakusho, 7–5, Kurogane-cho, Kushiro City.

AGENT: Sub-agents of Dodwell & Co. Ltd., Tokyo. Narasaki Sangyo Co. Ltd., c/o Mitsuwa Transport Co. Ltd., Attn. Shipping Agency Dept., Mirami Hama-cho, Kushiro. Tel. Kushiro (0154) 22–3030, 22–0903. Telegraphic "Narasaki Kushiro".

In case vessel arrives from cholera-infected area within 10 days, Captain must advise crew and passengers health condition to respective Quarantine Office through ship's Agent prior to arrival and close all soil pipes before entering port.

RADIO: Recommended Captain communicates with Agent through Choshi Radio or Nagasaki Radio which cover all ports in Japan. If specifically West bound vessel to Choshi and North bound to Nagasaki Radio respectively.

TUGS: 6 available: "Suwa maru" 131 g/t 1100 h.p. "Minato maru" 131 g/t 1100 h.p. "Miike maru" 146 g/t 570 h.p. "Suehiro maru" 25 g/t 166 h.p. "Wakashio maru" 19 g/t 120 h.p. "Asahi maru" 5 g/t 60 h.p.

BERTHING: No specific requirements. Pilot boarding time will be notified by ship's Agent mainly by radio.

STEVEDORES: At least 24 hours prior notice excluding Sundays and holidays required in order for Agent to arrange stevedores. Vessel must constantly keep her Agent advised of ETA. If stevedores cannot commence loading/unloading at time notified by the Agent, the orderers must pay for waiting time. If cargo gears not rigged on berthing, stevedores will do same for ship's crew at additional cost. Overtime surcharges 1700–1900 hours 50% additional of basic stevedorage; 2100–0500 hours next morning 130% additional; Sundays/holidays 60% additional.

MEDICAL: No advance notice required unless urgent.

DENSITY: 1.025.

FRESH WATER: Available at wharf only. Y140.– per ton and delivery 20–25 tons per hour.

FUEL: All grades of bonded bunkers are stocked in Tokyo Bay, Ise Bay, Osaka Bay and Kanmon Port. At all other ports bunkers will be lightered from the nearest bunker stock ports at maximum 7 days prior notice.

GANGWAY/DECK WATCHMEN: Not specially required unless passengers or valuable cargo on board. Cost day-time (0800–1700 hours) Y2,700, night-time Y5,940 (approx.).

OPENING/CLOSING HATCHES: Stevedores carry out opening and closing hatches. Cost per hour per gang depending on type of cargoes. If any time lost by ship's crew doing this work, stevedores charge ship for waiting. Recommend request stevedores for this work unless crew can complete it before berthing.

CERTIFICATES: Ship's Register to show Customs Inspector ship's registered gross and nett tonnages. Valid Cargo Gear Certificates sometimes required by stevedores when cargo gears' maintenance appears to be poor.

CUSTOMS ALLOWANCE: Only allowed 50 cigarettes to take ashore but no spirits.

CONSULS: Consuls at Kitakyushu.

REPAIRS: Minor repairs only.

DRY DOCKS: See "Kitakyushu".

REPATRIATION: Possible.

AIRPORT: See "Kintakyushu".

TIME: GMT plus 9. No alterations made to clocks during year.

HOLIDAY: 15th August.

POLICE/AMBULANCE/FIRE: Tel. 110 and 119.

TELEPHONES: Available at stevedores' office at the wharf.

SHORE LEAVE: Local Immigration Offices issue shore pass valid for only 3 days, but 3 days extension possible if ship stays longer.

AGENTS: Sub-agent of Dodwell & Co. Ltd., Tokyo. Kanbayashi Shaten, 3–74, Mikawa-Cho, Omuta. Tel. Omuta (09445) 3–61000. Telegraphic "Ringer Omuta".

MIZUSHIMA: 34.31 N. 133.44½ E.

DOCUMENTS:

Ship's Register.
Last Port Clearance.
3 Crew Lists including Passport Nos.
3 Passenger Lists.
1 Stores List.
1 Declaration of Crew's Baggage, i.e. tobacco, wine/spirits, camera, wrist-watch, radio, firearms/swords, etc. (only at first port of call in Japan).

Ship's Agent will prepare Inward/Outward Declaration, 1 Cargo Manifest and Cargo Manifest in transit using specific forms. Therefore ship's Agent should be provided with necessary information about details of cargoes in advance.

PILOTAGE: (*a*) Inland Sea pilotage should preferably be arranged through Agent by cable via Nagasaki Radio giving 72 hours notice. Urgent correction of ETA outside business hours should be cabled direct to pilot station. Inland Sea Pilot Association covers all Inland Sea ports. Pilotage not compulsory but recommended in view of great number of islands causing navigational hazards. Pilots obtained from one of three pilot stations dependent upon vessels last port of departure and at Master's discretion. Pilotage available throughout 24 hours and 72 hours advance notice preferred, thereafter advising any alterations. Most Inland Sea pilots also act as harbour pilots up to berth or anchorage at destination. *Note:* No VHF communication available with Inland Sea pilot stations.

1. Wadamisaki, at entrance to Kobe (vessels transmitting Kii Straits). Position 34° 38′ N. 135° 11′ E. Telegraphic address "Anjin Kobe".

2. Sekisaki, 3 miles South of Sekisaki lighthouse (vessels transitting Bungo channel). Position 33° 13′ N. 131° 54′ E. Telegraphic address "Anjin Saganoseki". In event bad weather, recommended vessels proceed for shelter as near as possible having due regard to safety, to Sekisaki pilot-station.

3. Hesaki, at East side of Kanmon (Shimoneseki) Straits. Position 33° 56′ 24″ N. 131° 03′ 12″ E.

(*b*) Vessels over 50,000 d/wt or of draft of more than 12·5 metres are unable to pass through Kurushima Strait and required to transit Wadamisaki.

There are very narrow and crooked channels, such as the Kurushima Strait, maximum tidal current amounting to 10 knots; the Bisan Strait maximum tidal current amounting to 4 knots, and the Akashi Strait, maximum tidal current amounting to 6 knots.

(*c*) Harbour pilot: Pilots of the Inland Sea Pilots Associations are also employed for this pilotage if required, and Pilot boards at Mizushima quarantine anchorage (34° 26′ 30″ N. 133° 34′ 30″ E. approximate centre position of quarantine area). However, if an Inland Sea pilot is employed at the above-mentioned pilot stations, the same Pilot acts for harbour pilotage.

ANCHORAGES: Anchorages available for small size vessels only, and not for large vessels. In case of large vessels waiting for berthing, these vessels shall wait at Quarantine anchorage, at around Nabeshima, at nearby Sakatewan or off Kobe.

Around "Q" Anchorage	Depth	15–18 metres
Around Nabeshima	,,	32–40 metres
Nearby Sakatewan	,,	32–41 metres
Off Kobe	,,	43–47 metres

RESTRICTIONS: (*a*) Entering and departing from port shall be in accordance with instructions to be given by Signal Station.

(*b*) No restriction imposed upon entering or leaving port during night time, nevertheless such movements are next to impossible in consideration of the nature of the structures of the port. In addition Pilots refuse to board during night-time.

(*c*) Super-sized vessels, unable enter except at high tide.

Pilots refuse board vessels with draft exceeding 17 metres, regardless of high tide.

BERTHING: Max. size:

Max. DW/T	*Max. LOA*	*Max. safe draft*	*Discharging Facilities*	*Discharge rate per hour/gang or unit*
Coal, Iron Ore and Scrap				
(A) *Tokyo Seitetsu*				
(i) A berth = 215 metres

(i)) 2 Pier (Dolphin) at high tide 17·0 m. (170,000 dwt)				
70,000 (g/t)	No limit	16·0 m.	Crude oil 12 in.×4	7,000 tons

Max. DW/T	Max. LOA	Max. safe draft	Discharging facilities	Discharge rate per hour/gang or unit
(C) *Asahi Kasei K.K. Mizushima Works*				
C–8 Pier (Dolphin) 10,000 (g/t)	No limit	8·3 m.	Chemical (vapour line 4 in.×1) (cargo line 6 in.×1)	100/200 tons

HEALTH: At first port of call in Japan, vessel must obtain free pratique. Quarantine Officers will attend vessel only from day-light to sunset and Captain to show all Vaccination cards, derating Exemption Certificate. In case vessel arrives from cholera-infected area within 10 days, Captain must advise crew and passengers' health condition to respective Quarantine office through ship's Agent prior to arrival and close all soil pipes before entering port.
RADIO: Recommended Captain communicates with Agent through Choshi Radio or Nagasaki Radio which covers all ports in Japan. If specifically West bound vessel to Choshi and North bound to Nagasaki Radio respectively.
TUGS: Tugs normally join the vessel at the Quarantine anchorage area. Usually tug's lines used free of charge.
TANKERS: See "Berthing".
STEVEDORES: At least 24 hours prior notice excluding Sundays and holidays required in order for Agent to arrange stevedores. Vessel must constantly keep her Agent advised of ETA. If stevedores cannot commence loading/unloading at time notified by the Agent, the orderers must pay for waiting time. If cargo gears not rigged on berthing, stevedores will do same for ship's crew at additional cost. Overtime surcharges 1700–2100 hours 50% additional of basic stevedorage; 2100–0500 hours next morning 130% additional; Sundays/holidays 60% additional.
MEDICAL: No advance notice required unless urgent.
DENSITY: Entrance channel summer av. 1.020, winter av. 1.023. Harbour channel summer av. 1.019, winter av. 1.025.
FRESH WATER: Available at berth, ex-pipe-line. Average delivery rate 20 k/t/hour cost Y65.– per k/t. Water barges available, sent from Onomichi. Delivery rate approximately 50 k/tons per hour. Cost is Y350.– per k/t basic rate, 50% additional for Sunday/holiday supply.
FUEL: All grades of bonded bunkers are stocked in Tokyo Bay, Ise Bay, Osaka Bay, and Kanmon Port. At all other ports bunkers will be lightered from the nearest bunker stock ports at maximum 7 days prior notice. All grades available by pipeline at Refinery berths.
FIRE PRECAUTIONS: (*a*) Whenever necessary to repair vessel, the rule of "Strictly and Completely No Fire" is to be observed. (*b*) To keep sufficiently powered tugboat alongside vessel at all times when engine is under repair. (*c*) A written pledge to be submitted to Oil Company, promising to take full responsibility and to pay full indemnity by ship's Owners (in case of repairing vessel) if any accident has occurred by fault of the vessel.
DEVELOPMENTS: See "Berthing" – Seto Futo Wharf.
GANGWAY/DECK WATCHMEN: Not specially required unless passengers or valuable cargo on board. Cost day-time (0800–1700 hours) Y2,700, night-time Y5,940.
OPENING/CLOSING HATCHES: Stevedores carry out opening and closing hatches. Cost per hour per gang depending on type of cargoes. If any time lost by ship's crew doing this work, stevedores charge ship for waiting. Recommend request stevedores for this work unless crew can complete it before berthing.
CERTIFICATES: Ship's Register to show Customs inspector ship's registered gross and nett tonnages. Valid Cargo Gear Certificates sometimes required by stevedores when cargo gears maintenance appears to be poor.
CUSTOMS ALLOWANCE: Only allowed 50 cigarettes to take ashore but no spirits.
CONSULS: No consul available, but marine note of protest can be attested by the local notary public.
REPAIRS: All types of deck and engine repairs possible by Mitsui Shipbuilding and Engineering Co. Ltd., Tamano Works. Minor repairs possible by Nojima Senpaku Co. Ltd., Mizushima Works.
DRY DOCKS: No dry docks at Mizushima, but Mitsui Shipbuilding and Engineering Co. Ltd. Tamano Dock is the nearest from Mizushima, distance approximately 20 miles and navigation about 2 hours.
Mitsui Shipbuilding and Engineering Co. Ltd., Tamano Dock
(*a*) Dimensions of largest dry dock No. 3 D. Dock (length 672 ft.× width 103 ft. 3 in.× depth 32 ft). (*b*) Number of small docks: 2.
AIRPORT: Okayama airport is the nearest from Mizushima, distance approximately 40 km. and takes about 40 minutes by car. Only domestic regular airlines available. 3 flights to Tokyo, daily.
TIME: GMT plus 9. No alterations made to clocks during year.
POLICE/AMBULANCE/FIRE: Police 110; Ambulance 119; Fire 119.
TELEPHONES: No telephone installation service on board.
SHORE LEAVE: Local Immigration offices issue shore pass valid for only 3 days, but 3 days extension possible if ship stays longer.
SERVICES: All navigational apparatus can be served, as requested, but technicians are to be sent from Kobe.
REGULATIONS: Quarantine anchorage is outside harbour limits therefore (i) no persons allowed ashore from this anchorage, (ii) No supplies permitted to vessels and, (iii) No Agency services available.
AUTHORITY: Okayama-Kencho, 81–1, Uchiyamashita, Okayama City.

AGENT: Sub-Agent of Dodwell & Co., Tokyo. Naigai Unyu Co. Ltd., 2, 1-chome, Kaigan-Dori Mizushima, Kurashiki-Shi. Cables Naigai Kurashikimizushima. Tel. Kurashiki (0864) 44–5211.

MOJI (Kitakyushu): 33.54 N. 130.58 E.
(See Kanmon-Ko)

DOCUMENTS: When ship arrives direct from foreign port, customs officials will board vessel for search. Following documents to be submitted:
Crew List.
Passenger List.
Store List.
Manifest of crew personal effects (must be signed by individual crew member).
Arms and ammunition list.
Narcotics List.
List of ports of call on current voyage.
Discharging Cargo Manifest.
Through Cargo Manifest.
Declaration inward/outward (Form No. C2000).
The following will be checked on board:
Ship's Registry.
Last Port Clearance.
When ship comes from Japanese port, Customs Officials will not attend on board, except special case. Master or Agent to attend Custom House for entry formalities with following documents:
Discharging Cargo Manifest.
Through Cargo Manifest.
Declaration inward/outward.
Ship's Registry.
Last Port Clearance.
Documents entrusted with the Master by Customs at previous port.
On ship's departure, clearance issued by Customs, after confirming payment of tonnage dues.

PILOTAGE: (1) *Harbour pilotage* compulsory for entry and departure, but not when vessel passing through Straits. Pilots embark East-bound vessels at Mutsure Quarantine Anchorage position half mile East Mutsure L.H. 33° 58′ 15″ N. 130° 53′ 43″ E. and West-bound vessels at Hesaki Quarantine Anchorage position 125 degrees, 1,500 metres from Hesaki L.H. 33° 56′ 24″ N. 131° 03′ 12″ E. Two Pilots embark vessels exceeding 30,000 gross tons for entry and departure charging double pilotage.

(2) *Sea pilotage:* Vessels approaching from East can obtain Pilots by radio request made at least 24 hours in advance. Pilot embarks at position 3 miles South from Sekisaki L.H. 33° 13′ 00″ N. 131° 54′ 00″ E.

(3) Pilots should be kept closely advised of vessel's accurate ETA at pilot station. If any change in vessel's movements, Master requested to immediately communicate by radio or VHF to pilot offices directly or through Agent reporting revised ETA. Cable addresses of pilot offices are: Harbour pilot "Kanmonpilot Moji", Inland Sea Pilot "Anjin Moji".

(4) *VHF:* Vessels keep in direct contact with port authorities with regard to arrival, berthing instructions and Pilot's requirements through VHF as follows:

(*a*) Call sign: Kitakyushu Port Radio (or Shimonoseki Port radio).
(*b*) Location of Radio facilities: Transmitting and receiving station located at the top of Mt. Hinoyama, Shimonoseki.
(*c*) Type of wave: Channel: Simplex 16 (calling, responding); Simplex 12 (communicating); Simplex 14 (communicating); Duplex 20 (communicating). Output 50 W.
(*d*) Operating hours: 0600–2000 hrs.
(*e*) Communicating range: within a radius of 50 miles from the Hinoyama Station.
(*f*) Communicating language: Japanese/English.

ANCHORAGE:

	Depth	Capacity (g/t)
"A" Section	10·0 m.	1,000 tons×2
Tanoura	9·1 m.	20,000 tons×3

(No. 1 anchorage: 87 degrees from Moji saki light buoy, 1,340 m.)
(No. 2 anchorage: 83 degrees from Mojisaki light buoy, 1,770 m.)
(No. 3 anchorage: 80 degrees from Mojisaki light buoy, 2,300 m.)

WIND, TIDE: Easterly winds prevail in warm seasons. Northwesterly winds prevail in winter season. Dense fog frequently prevails in spring and autumn.
Tidal range 3·07 metres. Current near entrance of port runs Westward at flood and Eastward at ebb. Speed of current in vicinity of narrowest section of Straits sometimes reaches 7–8 knots. In stream of port, it is about 3–5 knots.

RESTRICTIONS: (*a*) Berthing: During day-time only. Swift tidal current prevails at buoy berths necessitating strong moorings, and in accordance with harbour rules, ships moor with anchor chains to buoy. Requisite chain preparations should be completed before ship leaving pilot station. Occasionally large vessels drawing deep draft made to await high water and/or suitable current to berth alongside wharves.

(*b*) Departure: with adequate notice, no restrictions from anchorage and/or buoys. Night departure from wharves generally practicable, except when Pilot disagrees to ship-out; this will depend upon conditions of weather, tide, etc.

(*c*) Tug assistance may be required at Pilot's discretion for large vessel mooring to and/or unmooring from buoy, depending upon efficiency of engine and conditions of weather, tidal current, etc.

(*d*) Maximum draft to enter and passing through Kanmon Straits limited to 10 metres.

MAX. SIZE (Also see "Tankers")

Wharf	*Length*	*Depth*	*Capacity (g/t)*
	m.	m.	
1	247	8·5	15,000 tons×1
2	198	8·0	15,000 ,, ×1

10	160	9·3	8,000 ,, ×1

HEALTH; At first port of call in Japan, vessel must obtain free pratique. Quarantine Officers will attend vessel only from day-light to sunset and Captain to show all Vaccination Cards, Derating Exemption Certificate. In case vessel arrives from cholera-infected area within 10 days, Captain must advise crew and passengers' health condition to respective Quarantine Office through ship's Agent prior to arrival and close all soil pipes before entering port.

(*a*) Quarantine Station at Western entrance: Half mile East from Mutsure lighthouse 33° 58′ 15″ N., 130° 53′ 43″ E.

(*b*) Quarantine station at Eastern entrance: 125 degrees, 1,500 metres from Hesaki lighthouse 33° 56′ 24″ N., 131° 30′ 12″ E.

(*c*) Quarantine inspection not allowed inside port except when weather or other special reasons prevent quarantine boat from approaching ship at anchorage.

(*d*) "Q" flag should be hoisted until ship is in free pratique.

(*e*) Vessels exceeding 20,000 gross tonnage may undergo quarantine on application when they berth inside port.

RADIO: Recommended Captain communicates with Agent through Choshi Radio or Nagasaki Radio which cover all ports in Japan. If specifically West bound vessel to Choshi and North bound to Nagasaki Radio respectively.

TUGS: Normally join vessel at adequate position in judgment of pilot and tug for mooring. In operation, tug's line to be used for mooring and unmooring without any charge.

BERTHING: No specific requirements. Pilot boarding time will be notified by ship's Agent mainly by radio.

STEVEDORES: At least 24 hours prior notice excluding Sundays and holidays required in order for Agent to arrange stevedores. Vessel must constantly keep her Agent advised of ETA. If stevedores cannot commence loading/unloading at time notified by the Agent, the orderers must pay for waiting time (Y4,400–Y7,200 per hour per gang). If cargo gears not rigged on berthing, stevedores will do same for ship's crew (Y2,200–Y3,600 per hatch). Average loading/discharging:

Bulk cargo:	Coal	50 tons per hr./gang/hatch	(dis.)
	Iron ore	45–50 ,, ,, / ,, / ,,	(dis.)
	Grain	50 ,, ,, / ,, / ,,	(dis.)
Baled cargo:	Cement	50 ,, ,, / ,, / ,,	(load.)
	Fertilisers	40 ,, ,, / ,, / ,,	(load.)
	Grain	30–50 ,, ,, / ,, / ,,	(dis.)
	General	40 ,, ,, / ,, / ,,	(load.)
Steel cargo:	Under 20 ft. long	25–30 ,, ,, / ,, / ,,	(load.)
	Over 20 ft.	15–20 ,, ,, / ,, / ,,	(load.)
Scrap steel:	Pressed	20 ,, ,, / ,, / ,,	(dis.)
	Ordinary	10 ,, ,, / ,, / ,,	(dis.)
	Bulky and awkward	5 ,, ,, / ,, / ,,	(dis.)
Lumber/logs:	Lumber	15–20 ,, ,, / ,, / ,,	(dis.)
	Logs	30 ,, ,, / ,, / ,,	(dis.)

2 shifts: 0800 to 1700 hrs, and 1800 to 0500 hrs. Normal working hours 0800 to 1700 hrs. Overtime work is possible by applying to Customs at the following fees: 0000–0500 Y350.– per hour, 0500–0830, 1700–2200, also Sundays and holidays Y300.– per hour, 2200–2400 Y350.– per hour. No work can be arranged on 31st December and during New Year holidays (1st to 3rd Jan.).

MEDICAL: No advance notice required unless urgent.

TANKERS: No slop discharge facilities. Mobil Oil berth situated at Okubo, near Tanoura. At vicinity of berth, the current runs towards West nearly all the time. Maximum rate of current 3 knots. Vessels berthed during period that tide sets to West, in day-time only. Mooring berth consists of one oil pier (length 80 m. width 5 m.) and two dolphins. Two 10-in pipes connected to vessel; discharge efficiency 1,500 tons per hour.

Maximum size of vessel which can be accommodated at this berth is 33,000 tons D/W on 9·1 metres draft.

FRESH WATER: Good fresh water supplied from water barges to vessels lying at buoys and/or anchorage; from hydrants to those alongside wharves. The rate of delivery per hour is 20–40 tons from hydrant and 50 tons from barge. Cost per m/ton from barge: Y175.–, from hydrant: Y115.–

FUEL: All grades of bonded bunkers are stocked in Tokyo Bay, Ise Bay, Osaka Bay and Kanmon Port. At all other ports bunkers will be lightered from the nearest bunker stock ports at maximum 7 days prior notice.

Bonded bunker oil is supplied by oil barges. The rate of delivery: 80–100 tons per hour.

DEVELOPMENTS: Tanoura Container Terminal, expected ready April, 1971. One berth only. Sea depth: at present 10 m. under low water level (LWL), but will be dredged to 12 m. in near future, to accommodate max. 43,000 D/W full container vessel.

GANGWAY/DECK WATCHMEN: Not specially required unless passengers or valuable cargo on board. Cost day-time (0800–1700 hours) Y2,700, night-time Y5,940 (approx.).

OPENING/CLOSING HATCHES: Stevedores carry out opening and closing hatches. Cost Y4,400–Y7,200 per hour per gang depending on type of cargoes. If any time lost by ship's crew doing this work, stevedores charge ship for waiting. Recommend request stevedores for this work unless crew can complete it before berthing.

CERTIFICATES: Ship's Register to show Customs Inspector ship's registered gross and nett tonnages. Valid Cargo Gear Certificates sometimes required by stevedores when cargo gear maintenance appears to be poor.

CUSTOMS ALLOWANCE: Only allowed 50 cigarettes to take ashore, but no spirits.

CONSULS: Honorary British Consulate concurrent with Honorary Swedish Consulate, tel. 33–1311.

REPAIRS: Mitsubishi Heavy Industries, Ltd. Shimonoseki; Sasebo Heavy Industries Co., Ltd. Moji; Kitakyushu Iron Works, Tobata.

DRY DOCKS: Refer "Shimonoseki".

REPATRIATION: Possible.

AIRPORT: Distance to Kitakyushu airport: 30 minutes by taxi and to Fukuoka airport; 2 hours by train and taxi.

TIME: GMT plus 9. No alterations made to clocks during year.

POLICE/AMBULANCE/FIRE: Police station (tel. 110) and Fire/Ambulance (tel. 119).

TELEPHONE: Telephone placed on board. Approximate cost for installing telephone Y1,000.– and rent per day Y1,300 and actual fee for telephone call plus Y90.– per call.

SERVICES: All services available including hold cleaning and grain fitting.

SHORE LEAVE: Local Immigration Offices issue shore pass valid for only 3 days; but 3 days extension possible if ship stays longer. Immigration Officials board vessel on her arrival in port to examine passports, discharge books and/or other equivalent travel documents and provide 72-hour landing passes for crew members and passengers. One copy each of crew list and passenger list are required by them. Providing ship's Agent with a crew list beforehand will be a great help in expediting immigration business on ship's arrival. When ship stays in port more than 72 hours, the landing passes may be extended every 72 hours on application. In the event that crew members, without entry visas, are to be landed for repatriation or transfer, Immigration will not permit their landing unless passage, by either sea or air, ensuring the prompt departure from Japan (within 72 hours) of these men have been booked, or unless the ships to which they are to be transferred, arrive in Japan within 5 days.

AGENT: Sub-agents of Dodwell & Co. Ltd., Tokyo. Holme Ringer & Co. Ltd., PO Box 72, 9–9, Minato-merchi, Moji-Ku, Kitakyushu. Tel. Moji (093) 33–1311. Telegraphic "Ringer Moji".

MURORAN: 42.20 N. 140.58 E.

DOCUMENTS:
Ship's Register.
Last Port Clearance.
3 Crew Lists including Passport Nos.
3 Passenger Lists.
1 Store List.
1 Declaration of Crew's Baggage, i.e. tobacco, wine/spirits, camera, wrist-watch, radio, firearms/swords, etc. (only at first port of call in Japan).

Ship's Agent will prepare 2 Inward/Outward Declarations, 1 Cargo Manifest and Cargo Manifest in transit using specific forms. Therefore ship's Agent should be provided with necessary information about details of cargoes in advance.

PILOTAGE: Arranged by Agent subject receipt of ETA advice at least 24 hours prior arrival. Pilot boards vessel about one mile outside breakwater.

ANCHORAGE: Outside harbour limits: Subject notice having been given to Authorities prior arrival. Inside harbour limits: Permitted in any part.

MAX. SIZE: Ore carriers, length 300 metres, draft 14 metres. Oil tankers, draft 10·8 metres. Channel depth 40 ft. Depth at Refinery berth 35·5 ft.

HEALTH: At first port of call in Japan, vessel must obtain free pratique. Quarantine Officers will attend vessel only from day-light to sunset and Captain to show all Vaccination cards, derating Exemption Certificate. In case vessel arrives from cholera-infected area within 10 days, Captain must advise crew and passengers health condition to respective Quarantine office through ship's Agent prior to arrival and close all soil pipes before entering port.

RADIO: Recommended Captain communicates with Agent through Choshi Radio or Nagasaki Radio which covers all ports in Japan. If specifically West bound vessel to Choshi, and North bound to Nagasaki Radio respectively.

TUGS: Usually meet vessel near Inner Harbour breakwater. 10% additional charge if tug's lines used.

BERTHING: No specific requirements. Pilot boarding time will be notified by ship's Agent mainly by radio.

STEVEDORES: At least 24 hours prior notice excluding Sundays and holidays required in order for Agent to arrange stevedores. Vessel must constantly keep her Agent advised of ETA. If stevedores cannot commence loading/unloading at time notified by the Agent, the orderers must pay for waiting time (Y4,400–Y7,200 per hour per gang). If cargo gears not rigged on berthing, stevedores will do same for ship's crew (Y2,200–Y3,600 per hatch). Overtime surcharges 1700–1900 hours 50% additional of basic stevedorage; 2100–0500 hours next morning 130% additional; Sundays/holidays 60% additional.

MEDICAL: No advance notice required unless urgent. Hospital facilities available.

TANKERS: See "Max. Size". N.P.R.C. Muroran Refinery. Ore discharge berth. About 25% of deadweight required in ballast.

DENSITY/TIDE: Density 1025. Rise and fall of tide about 4 ft.

FRESH WATER: Delivery at piers: Average rate about 40 tons/hour and cost Y150 per ton (approx.). Delivery by barge: Rate about 60 tons/hour and cost Y275 per ton (approx.).

FUEL: All grades of bonded bunkers are stocked in Tokyo Bay, Ise Bay, Osaka Bay, and Kanmon Port. At all other ports bunkers will be lightered from the nearest bunker stock ports at maximum 7 days prior notice.

DEVELOPMENT: Fairway, and Skinnihon Steel Co. Wharf number 19 scheduled for deepening to 16·5 metres by end 1971, allowing draft of 16 metres.

GANGWAY/DECK WATCHMEN: Not specially required unless passengers or valuable cargo on board. Cost day-time (0800–1700 hours) Y2,700, night-time Y5,940 (approx.).

OPENING/CLOSING HATCHES: Stevedores carry out opening and closing hatches. Cost Y4,400–Y7,200 per hour per gang depending on type of cargoes. If any time lost by ship's crew doing this work, stevedores charge ship for waiting. Recommend request stevedores for this work unless crew can complete it before berthing.

CERTIFICATES: Ship's Register to show Customs inspector ship's registered gross and nett tonnages. Valid Cargo Gear Certificates sometimes required by stevedores when cargo gear maintenance appears to be poor.

CUSTOMS ALLOWANCE: Only allowed 50 cigarettes to take ashore but no spirits.

CONSULS: None.

REPAIRS: Only minor repairs available, but Hakodate dockyard able undertake all grades repairs.

AIRPORT: Domestic flights only from Chitose Airport – 100 km. from Muroran.

TIME: GMT plus 9 hours. Permanent.

POLICE/FIRE: Police Muroran 2–5191; Fire Muroran 2–2111.

TELEPHONES: May only be connected on board at No. 2–2 West Pier.

SHORE LEAVE: Local Immigration offices issue shore pass valid for only 3 days, but 3 days extension possible if ship stays longer.

AGENT: Sub-agents of Dodwell & Co., Tokyo. Narasaki Sangyo Co. Ltd. 3–3–2, Kaigan-Cho, Muroran. Tel. Muroran (0143) 2–1171. Telegraphic "Narasaki Muroran".

NAGASAKI: 32.45 N. 129.52 E.

DOCUMENTS:
Ship's Register.
Last Port Clearance.
3 Crew Lists including Passport Nos.
3 Passenger Lists.
1 Store List.
1 Declaration of Crew's Baggage, i.e. tobacco, wine/spirits, camera, wrist-watch, radio, firearms/swords, etc. (only at first port of call in Japan).

Ship's Agent will prepare Inward/Outward Declaration, 1 Cargo Manifest and Cargo Manifest in transit using specific forms. Therefore ship's Agent should be provided with necessary information about details of cargoes in advance.

PILOTAGE: Not compulsory, but necessary unless Master well acquainted with locality. Pilot embarks in vicinity of Ioshima lighthouse, lat. 32° 43′ 20″ N., 129° 46′ 43″ E. Pilot available any time, subject to adequate notice (no VHF system). All communication with Pilot through Agent. Pilot boat carries International signals. "G" flag in day-time and "Morse" signals at night to call Pilot. In event bad weather Pilot boards at anchorage off Megami.

ANCHORAGE: Megami anchorage located in Harbour Division No. 3 (within line between Kagenoo lighthouse and West end of Shirogashima) 60 ft. depth and capacity of 3 vessels of 20,000 dwt. Safe anchorage.

RESTRICTIONS: Berthing: During day-time only, except for emergency purposes. Entering into anchorage at Megami is generally permitted during day-time only except with Harbour Master's permit. Departure: No restriction from buoy or wharf with adequate notice, but no night departure from Oil Terminal.

MAX. SIZE: Max. permissible length 1,200 ft., breadth 120 ft., draft 45 ft.
No oil installation outside main port area.

HEALTH: At first port of call in Japan, vessel must obtain free pratique. Quarantine Officers will attend vessel only from day-light to sunset and Captain to show all Vaccination Cards, Derating Exemption Certificate. In case vessel arrives from cholera-infected area within 10 days, Captain must advise crew and passengers health condition to respective Quarantine Office through ship's Agent prior to arrival and close all soil pipes before entering port.

RADIO: Recommended Captain communicates with Agent through Choshi Radio or Nagasaki Radio which cover all ports in Japan. If specifically West bound vessel to Choshi and North bound to Nagasaki Radio respectively.

TUGS: Tugs normally join vessel at anchorage for swinging and/or at berth for assisting vessel. Tugs arrangeable at outer harbour at vessel's special request.

BERTHING: No specific requirements. Pilot boarding time will be notified by ship's Agent mainly by radio.

STEVEDORES: At least 24 hours prior notice excluding Sundays and holidays required in order for Agent to arrange stevedores. Vessel must constantly keep her Agent advised of ETA. If stevedores cannot commence loading/unloading at time notified by the Agent, the orderers must pay for waiting time. If cargo gears not rigged on berthing, stevedores will do same for ship's crew at additional cost. Overtime surcharges 1700–1900 hours 50% additional of basic stevedorage; 2100–0500 hours next morning 130% additional; Sundays/holidays 60% additional.

MEDICAL: No advance notice required unless urgent.

TANKERS: Slop discharge facilities to be available September 1971.

Oil installation	*Diameter of discharge line*	*Max. permitted draft*
Nippon Oil (Kogakura)	10 in.	15 metres
Hayashikane Oil (Doinokubi)	8 in.	10–15 metres
Mobil Oil (Kibachi)	8 in.	11 metres
Idemitsu (Kibachi)	8 in.	11 metres
General Sekiyu (Ohtao)	8 in.	15 metres

DENSITY: 1.025.

FRESH WATER: Capacity of water barges: 150 tons, 60 tons and 34 tons. 3 barges in total. Rate of delivery: Average speed 100 tons. Cost (basic rate): Y200.– per ton from water barge.

FUEL: Available ex-barge only. All grades of bonded bunkers are stocked in Nagasaki. One day notice sufficient.

FIRE PRECAUTIONS: No specific precautions.

DEVELOPMENTS: Area of "Yanagi" new wharf (195,600 m²) will be completed by March 1972. Depth 7 m. to 12 m. Mitsubishi Heavy Industries Ltd. constructing 1,000,000 dwt building dock at Koyagi Shima.

GANGWAY/DECK WATCHMEN: Not specially required unless passengers or valuable cargo on board. Cost day-time (0800–1700 hours) Y2,700, night-time Y5,940 (approx.).

OPENING/CLOSING HATCHES: Stevedores carry out opening and closing hatches. Cost Y4,400–Y7,200 per hour per gang depending on type of cargoes. If any time lost by ship's crew doing this work, stevedores charge ship for waiting. Recommend request stevedores for this work unless crew can complete it before berthing.

CERTIFICATES: Ship's Register to show Customs Inspector ship's registered gross and nett tonnages. Valid Cargo Gear Certificates sometimes required by stevedores when cargo gear maintenance appears to be poor.

CUSTOMS ALLOWANCE: Only allowed 50 cigarettes to take ashore, but no spirits.

CONSULS:
French Consul Agency, tel. 23–1221
Portuguese Honorary Consul Agency, tel. 26–2311

REPAIRS: All types of repair can be carried out.
DRY DOCKS:

	Length	*Width*	*Depth*	*Capacity (g/t)*
No. 2	350 m.	56 m.	14 m.	150,000 tons
No. 3	276 m.	41 m.	9·3 m.	57,500 tons
No. 4	118·8 m.	19·1 m.	6·9 m.	4,000 tons

REPATRIATION: Possible.
AIRPORT: Distance 54 km. (centre of town to Omura airport). Time 1·5 hrs. by car. All Nippon Airway have regular daily service with 8 flights (Omura/Osaka/Tokyo) and vice versa.
TIME: GMT plus 9. No alterations made to clocks during year.
POLICE/AMBULANCE/FIRE: Police 22-2141; Ambulance/Fire 22-3211 (Fire station).
TELEPHONE: Shore telephone can be installed on board vessel at Dejima wharf. Vessels at Mitsubishi Yards can communicate via shipyards' switchboard with town.
SERVICES: Slop (residue) discharge facilities will operate September 1971. Will be located in Ioshima Island at outer harbour of Nagasaki.
SHORE LEAVE: Local Immigration Offices issue shore pass valid for only 3 days, but 3 days extension possible if ship stays longer.
AUTHORITY: Nagasaki-Kencho, 2-13, Edo-machi, Nagasaki City.

AGENT: Sub-agents of Dodwell & Co. Ltd., Tokyo, Nagasaki Warehouse Co. Ltd., 2-13, Dejima-Machi, PO Box 6, Nagasaki. Tel. Nagasaki (0958) 24-1261. Telegraphic "Ringer Nagasaki".

NAGOYA: 35.05N. 136.53

Situated at northern head of Ise Bay. Harbour protected by breakwater 8,250 meters in length stretching from Chita peninsula to bank of Kiso River at opposite side of harbour.
DOCUMENTS: (*a*) Quarantine (only when arriving from a foreign port); 1 Maritime Declaration of Health, 1 Crew List, 1 Cargo Manifest, 1 List of Passengers (if any on board), Log Book and Registry should be readily available. (*b*) Customs: 1 Declaration Inward/Outward with ports of Call, 1 Ship's Registry, 1 Last Port Clearance, 1 Store List including arms and narcotics, 2 Manifests of Cargo for day charge (prepared by Agents), 1 Manifest of Through Cargo, 1 Crew List, 1 List of Passengers, 1 List of Crew's Baggage (only necessary if crew-members have to land personal effects ashore). (*c*) Immigration: 1 Crew List, 1 Notification of Arrival, 1 Application for Shore-passes, 1 List of Passengers, 1 Notification of Departure (to be returned through Agents after sailing). (*d*) Harbour Master: 1 Crew List, 1 Declaration Inward/Outward with ports of Call. (*e*) Port Authority: 1 Declaration Inward/Outward with ports of Call.
PILOTAGE: Request Pilot and other services to JHY (Nagoya Port Radio Station) at least 10 hours prior arrival on frequency 500 Kc. JHY keeps watch also on 480 Kc. Pilot station near No. 1 and No. 2 channel buoys at entrance of habour channel. When wind over 15 m/sec. pilot boards inside High tide Breakwater. When very rough, Pilot taken on board east side of West Breakwater. Pilot not compulsory but desired. Pilot boat white painted with white and red funnel and letters "Pilot" on hull.
ANCHORAGE: The port boundary indicated by line connecting Oono Lighthouse (34° 55′ 49″ N., 136° 49′ 28″ E.), Ise Bay Light Buoy (34° 56′ 05″ N., 136° 47′ 44″ E.), southwest corner of Nagoya High tide Breakwater (35° 00′ 54″ N., 136° 47′ 04″ E.) and the base point at northwest of the same Breakwater (35° 1′ 54″ N., 136° 46′ 09″ E.). Quarantine Anchorage, located outside High tide Breakwater offers safe anchorage for vessels awaiting Pilot or quarantine service. Depth this anchorage area ranges from 10 to 20 metres. Sea bed silty clay.
MAX. SIZE: Tankers: 30,000 DWT. Other vessels: 160,000 DWT. Draft: 16 metres.
HEALTH: Ships coming direct from overseas ports are quarantined at Quarantine Anchorage located outside High tide Breakwater. Ships coming from cholera area requested close ship's-waste at entrance of Ise Bay. (Pratique automatic after calling other Japanese ports.)
RADIO:
JHY (*Nagoya Port Radio Station*). Service area: 100 miles. Frequency: 500 Kc. (also 480 Kc.). Working frequency: 486 Kc.
International VHF (*Nagoya Port Radio*). Service area: 36 miles. Frequency: Simplex working frequency Channel 12. Duplex working frequency Channel 16.
To be given prior arrival: Name; Capacity; draught and length; Port of departure; Last port; Time arrival outer port; Time passing Kamishima Signal Station; Grade of cargo; Grade of dangerous cargo (if any); Health of crew.
TUGS: Usually join at point where vessel directs course toward allocated berth. Tug's lines normally used without charge.
MEDICAL: Hospitals conveniently located near port.
TANKERS: Four oil tanker berths for up to 30,000 d/w tankers. Draft 8-9·5 meters.
DENSITY: 1·020.
WATER: Water supplied direct from pier: Y. 95 per ton (minimum vol. 10 tons), supplied from barge: Y. 155 per ton (minimum vol. 20 tons).
FUEL: All grades fuel available. Notice 2 days in advance desired. Delivered by barge only.
DEVELOPMENTS: Western part of anchorage (9 metres deep at present), to be deepened to 10 meters by 1972. Main channel 12 meters deep and 300 metres wide to be deepened to 14 metres. Breakwater main entrance to be widened to 650 metres. Establishment of large-scale oil refinery and petro-chemical complex in reclaimed South Seafront Industrial Zone. Two berths for container ships with a depth of 10·5 metres, 1 berth for passenger ships with 12 metre depth, 2 berths for grain discharging with 12 metres, 12 berths for general cargo ships with 10 metres depth will be constructed in Kinjo Pier by 1972. Water depth in front of No. 8 grain wharf of 9 metres will be dredged to 10 metres.
GANGWAY/DECK WATCHMAN: Not compulsory but recommended.
OPENING/CLOSING HATCHES: Normally carried out by crew. When stevedores do this work charges as follows:
1 hatch – approx. Y. 6,000 for vessels of 5,000 g.r.t.
1 hatch – approx. Y. 10,000 for vessels of 10,000 g.r.t.
CUSTOMS ALLOWANCES: 200 cigarettes and 1 bottle spirits per week.
CREW IDENTIFICATION CARDS: Required.

per ton (0800–1600)	Y584

1600 and thereafter and 9/12–31/11) unobtainable. 50% extra for bad weather.
FUEL: Seven days notice usually required. All grades of bonded bunkers are stocked in Tokyo Bay, Ise Bay, Osaka Bay and Kanmon Port. At all other ports bunkers will be lightered from the nearest bunker stock ports at maximum 7 days prior notice. (Also see "Regulations".)
DEVELOPMENTS: The reclamation of land for Niigata East Port will be completed within 1975. One public berth is ready for about 15,000 D/W tonner class vessel. One shore crane was recently equipped with about 570 M/T discharging capacity for ore in bulk per hour.
GANGWAY/DECK WATCHMEN: Not specially required unless passengers or valuable cargo on board. Cost day-time (0800–1700 hours) Y2,700, night-time Y5,940 (approx.).
OPENING/CLOSING HATCHES: Stevedores carry out opening and closing hatches. Cost Y4,400–Y7,200 per hour per gang depending on type of cargoes. If any time lost by ship's crew doing this work, stevedores charge ship for waiting. Recommend request stevedores for this work unless crew can complete it before berthing.
CERTIFICATES: Ship's Register to show Customs Inspector ship's registered gross and nett tonnages. Valid Cargo Gear Certificates sometimes required by stevedores when cargo gear maintenance appears to be poor.
CUSTOMS ALLOWANCES: Only allowed 50 cigarettes to take ashore, but no spirits.
CONSULS: None.
DRY DOCKS: No facilities for ocean going vessel.
REPATRIATION: Possible.
AIRPORT: 5 kilometres. Round service Japan Domestic Air Line.
TIME: GMT plus 9. No alterations made to clocks during year.
HOLIDAY: 22nd August.
POLICE/AMBULANCE/FIRE: Water Police Station 44–2269; Ambulance Station 119; Fire Station 119; Main Police Station 110.
TELEPHONES: No facilities for telephones on board available.
SERVICES: Hold cleaning by longshoremen available.
SHORE LEAVE: Local Immigration Offices issue shore pass valid for only 3 days, but 3 days extension possible if ship stays longer.
REGULATIONS: Oil carriers can receive bunker by oil barge and/or shore line except when discharging cargo.

AGENTS: Sub-agents of Dodwell & Co. Ltd., Tokyo. Niigata Rinko Kairiku Unso K.K., 11–20, 5-chome, Bandai, Niigata. Tel. Niigata (0252) 45–4111. Domestic Telex 3122–310. Telegraphic "Rinko Kairiku Niigata".

1. Master to telegraph ETA and Crew's Health Condition directly to Quarantine Niihima before arrival.

2. * To be prepared by Master before arrival. Others to be made up by Agent with assistance of Master on arrival.

PILOTAGE: Inland Sea Pilotage should preferably be arranged through Agent by cable via Nagasaki Radio giving 72 hours notice. Urgent correction of ETA outside business hours should be cabled direct to Pilot Station. Inland Sea Pilot Association covers all Inland Sea ports. Pilotage not compulsory but recommended in view of great number of islands causing navigational hazards. Pilots obtained from one of three pilot stations dependent upon vessels last port of departure and at Master's discretion. Pilotage available throughout 24 hours and 72 hours advance notice preferred, thereafter advising any alterations. Most Inland Sea Pilots also act as harbour Pilots up to berth or anchorage at destination. *Note:* No VHF communication available with Inland Sea pilot stations.

1. Wadamisaki, at entrance to Kobe (vessels transitting Kii Straits) Position 34° 38′ N., 135° 11′ E. Telegraphic address "Anjin Kobe".

2. Sekisaki, 3 miles South of Sekisaki lighthouse (vessels transitting Bungo Channel). Position 33° 13′ N., 131° 54′ E. Telegraphic address "Anjin Saganoseki". In event bad weather, recommended vessels proceed for shelter as near as possible having due regard to safety, to Sekisaki pilot station.

3. Hesaki, at East side of Kanmon (Shimonoseki) Straits. Position 33° 56′ 24″ N., 131° 03′ 12″ E.

ANCHORAGES: Approved anchorage area just inside harbour limit. A circle drawn at a point 33° 59′ 18″ N., 133° 16′ 31″ E. with radius of 430 m. where holding ground good and depth of water 12–15 m. No buoy moorings. Harbour protected by breakwater.

TIDE: (Springs) Max. 263 cm; min.: —9 cm. (Neaps) max. 182 cm; min.: 136 cm.

RESTRICTIONS: Pilot does not take vessel in during darkness. Vessel has to wait if depth during low water is insufficient to pass channel.

MAX. SIZE: Pier No. 4 (Sumitomo Chemical Co. Ltd., Kikumoto Wharf). Length of vessel 160 m. Breadth (range of cranes, reaching 12 m. from the pier), draft, 9·50 m.

Berth B (Anchorage. Stern moored to Sumitomo Chemical Co. Ltd., Niihama Works). Length of vessel, 170 m. Breadth, no restriction. Draft, 9 m.

HEALTH: Quarantine Inspectors go aboard during day. Master to keep waste until Quarantine inspected in event of any suspected disease or fever on board after entered Japan.

RADIO: Choshi Radio, Nagasaki Radio.

TUG: Joins vessel at Quarantine anchorage or Section II, always using tug's lines without charge. "Niihama Maru" 700 h.p. If more powerful tugs required, can be obtained from Matsuyama or Mizushima.

BERTHING: Harbour Pilot operates during day.

Berth	*Length*	*Depth*	*Vessel's tonnage*
Berth No. 1	80 m.	7·5 m.	One 5,000 g/t
Berth No. 2	130 m.	9·50 m.	One 10,000 g/t
Berth No. 3	Dolphin	6·5 m.	One 3,000 g/t
Berth No. 4	120 m.	9·80 m.	One 15,000 g/t
Berth A	anchorage	8·0 m.	One 10,000 g/t
Berth B	anchorage	9·0 m.	One 10,000 g/t
Berth C	anchorage	9·0 m.	One 10,000 g/t
Berth D	anchorage	8·0 m.	One 6,000 g/t

Remarks: Berth No. 1: Owned by Sumitomo Chemical Co. Ltd., Miihama Works and used for loading fertiliser, nitric acid, ammonium nitrate by ship's gear.

Berth No. 2: Owned by Sumitomo Metal Mining Co. Ltd., equipped with two 5 ton luffing cranes with maximum reach 22 m. and maximum height 20 m.; used for discharging of Nickel Ore, copper concentrates, Nickel copper concentrates and maize and also by ship's gear.

Berth No. 3: Owned by Sumitomo Chemical Co. Ltd., Oh-e Works and used for loading and discharging of clean oil only.

Berth No. 4: Owned by Sumitomo Chemical Co. Ltd., Kikumoto Works and used for discharging of Bauxite, anthracite, salt, fluorspar and loading of alumina. Three 5 ton level mobile cranes, maximum reach 22 m. and maximum height 20 m.

Berth A: Public berth for general purposes, no buoy, just anchorage. However, vessel anchoring at this berth sometimes ordered by port authority to shift order vessel approaching or leaving berth no. 4 may pass.

Berth B: Owned by Sumitomo Chemical Co. Ltd., Niihama Works and used for loading of fertiliser and discharge of phosphate and muriate of potash. Possible to use for general purposes with permission by Sumitomo Chemical Co. Ltd., Niihama Works through Agent. Vessel moors stern to wharf with two anchors about 4 shackles each.

Berths C and D: as above.

Average Rate of Discharge

Phosphate	70–90 tons by ship's gear
Potash	40–60 tons by ship's gear
Copper Conc.	70–90 tons by ship's gear and 130–150 by cranes
Nickel Copper Conc.	70–90 tons by ship's gear and 130–150 by cranes
Nickel Ore	40–70 tons by ship's gear and 40–70 by cranes
Bauxite	140–160 tons by cranes
Anthracite	60 tons by ship's gear and 80–100 by cranes
Salt	120–140 tons by cranes
Lumbers	13,000–15,000 BFM

Average Rate of Loading

Fertiliser in bags	30–65 tons per hour by ship's gear
Alumina	100 tons per hour by two pneumatic loaders

MEDICAL: Hospitals and medical facilities available week-days only.

TANKERS: No facilities for oil carriers.

DENSITY: Entrance 1.023 (rate of tide, 1 knot); channel 1.022; anchorage 1.021.

FUEL: Available but not in bond. Bunkers in bond available from main ports or oil stations in transhipment. 2 days notice.

FRESH WATER: By barge which needs about one hour to supply after being alongside vessel. Y150.– per ton. 4 trips daily available. By shore line, rate 10 tons per hour. Y90.– per ton.

DEVELOPMENTS: Sumitomo Chemical Co. Ltd., Kikumoto Works, intend to make another Bauxite berth available for large size vessel (suitable for vessels up to 50,000 dwt).

Sumitomo Metal Mining Co. Ltd., Niihama reclaiming land adjacent to Western harbour limit of port of Niihama to construct additional refinery for producing copper which provides a berth for 25,000 ton vessel to discharge copper concentrate. Final date of completion unknown.

GANGWAY/DECK WATCHMEN: Not necessary.

OPENING/CLOSING HATCHES: Stevedores.

CUSTOMS ALLOWANCES: Only 50 cigarettes to take ashore. No spirits.

CARGO GEAR: Valid Cargo Gear Certificate sometimes required by stevedores when cargo gear maintenance appears to be poor.

CONSULS: None. Nearest in Kobe.

REPAIRS: Minor repairs only. Main engine piston overhauling possible.

DRY DOCKS: None. For nearest see "Matsuyama".

REPATRIATION: Arranged by Agent.

AIRPORT: None. Nearest at Matsuyama and Takamatsu. All Nippon Airways – 11 flights per day to Osaka and one to Tokyo.

TIME: GMT plus 9 hours. Permanent.

HOLIDAYS: National Holidays: New Year's Day, January 1st; Adult's Day, January 15th; Foundation Day, February 15th; Vernal Equinox Day, March 20th; Emperor's Birthday, April 29th; Constitution Memorial Day, May 3rd; Children's Day, May 5th; Respect-for-age Day, September 15th; Autumnal Equinox Day, September 23rd; Physical Culture Day, October 10th; Culture Day, November 3rd; Labour Thanksgiving Day, November 23rd.

Local Holidays: New Year's Day (Lunar Calendar), January 30th; May Day, May 1st; Memorial Day of the Sea, July 20th; Bon Festival (Lunar Calendar), August 8th; Autumnal Festival, October 17th–18th.

Vessels may enter/leave *except* January 1st, and cargo work can be done as usual at overtime rates on above national/local holidays *except* for *Niihama* December 31, January 1, 2, 3, and October 17, 18.

Vessels may enter/leave port at overtime rates and cargo work will be done up to 1700 hours (day-time) against surcharges.

No cargo will be handled: *Niihama* December 31, January 1, 2, 3, and October 17, 18. No ship's movement (as well as cargo handling) can be done on January 1st.

POLICE/AMBULANCE/FIRE: Police 110; Ambulance/Fire 119.

TELEPHONES: No facilities for placing telephones on board.

GENERAL: *Quarantine:* Hiroshima Quarantine Office, Niihama Detached Office, Nishibara-cho, Niihama, tel. Niihama 2–3966.

Customs: Kobe Customs, Niihama Branch Customs, Nishibara-cho, Niihama, tel. Niihama 2–3405.

Immigration: Niihama Port Station, Takamatsu Immigration Office, Nishibra-cho, Niihama, tel. Niihama 2–2672.

Maritime Bureau: Sanbashi-dori, Niihama, tel. Niihama 2–2855.

Maritime Safety Agency: Nishibara-cho, Niihama, tel. Niihama 2–3879.

Emergency Procedure: No Harbour Master radio available, therefore cable Agent. Telephone sub-agent since one person will be in attendance even during night, who in turn will contact person in charge.

Salvage: No salvage tug stationed, nearest from Kure.

SHORE LEAVE: Crew allowed ashore with pass.

AGENT: Sub-agents of Dodwell & Co. Ltd., Tokyo. Sumitomo Warehouse Co. Ltd., c/o Taisei Kaiun K.K., 1594, Sobiraki-cho, Niihama. Tel. Niihama (0897) 37–1101. Telegraphic "Sumitomosoko Niihama".

OFUNATO 39.03 N. 141.44 E.

DOCUMENTS:

Ship's Register.
Last Port Clearance.
3 Crew Lists including Passport Nos.
3 Passenger Lists.
1 Store List.
1 Declaration of Crew's Baggage, i.e. tobacco, wine/spirits,

camera, wrist-watch, radio, firearms/swords, etc. (only at first port of call in Japan).
Ship's Agent will prepare Inward/Outward Declaration, 1 Cargo Manifest and Cargo Manifest in transit using specific forms. Therefore ship's Agent should be provided with necessary information about details of cargoes in advance.
PILOTAGE: Not compulsory. Pilot boards about two miles from entrance of Ofunato bay, at 38° 59′ N. and 141° 48′ E., where depth 35 metres (but not after dark). Master must radio vessel's Agent of ETA 24 hours in advance, because neither telegraphic address of pilot station nor VHF available.
ANCHORAGE: Not suitable in stormy weather. Depth of water at anchorage 30 to 40 metres. Quarantine anchorage located between radius 500 metres of 39° 59′ N. 141° 48′ E.
RESTRICTIONS: Depth of water at entrance of passage 14 metres, oil tanker's draft restricted to 13 metres (42 ft. 6 in.), and draft of log and coke carriers restricted to 8 metres (26 ft. 2 in). Depth of water alongside wharf 9 metres (29 ft. 5 in.) at mean level.
MAX. SIZE: (*a*) Tankers: 35,000 g/t. (*b*) Log and Coke carriers: 8,000 g/t. Length (*a*) 250 metres (968 ft.) (*b*) 200 metres (774 ft. 4 in.); breadth (*a* and *b*) No limitation; draft (*a*) 13 metres 42 ft. 6 in.); (*b*) 8 metres (26 ft. 2 in). Tide range: 1–1·4 metres 3 ft. 3 in.–4 ft. 7 in.).
HEALTH: At first port of call in Japan, vessel must obtain free pratique. Quarantine Officers will attend vessel only from day-light to sunset and Captain to show all Vaccination Cards, Derating Exemption Certificate. In case vessel arrives from cholera-infected area within 10 days, Captain must advise crew and passengers' health condition to respective Quarantine Office through ship's Agent prior to arrival and close all soil pipes before entering port.
RADIO: Recommended Captain communicates with Agent through Choshi Radio or Nagasaki Radio which cover all ports in Japan. If specifically West bound vessel to Choshi and North bound to Nagasaki Radio respectively.
TUGS: One tug 250 h.p., but assistance from three or four others available, and they usually join vessel about 400 metres in front of jetty and discharging wharf. Ship's lines used if necessary.
BERTHING: No specific requirements. Pilot boarding time will be notified by ship's Agent mainly by radio.
STEVEDORES: At least 24 hours prior notice excluding Sundays and holidays required in order for Agent to arrange stevedores. Vessel must constantly keep her Agent advised of ETA. If stevedores cannot commence loading/unloading at time notified by the Agent, the orderers must pay for waiting time. If cargo gears not rigged on berthing, stevedores will do same for ship's crew at additional cost. Overtime surcharges 1700–1900 hours 50% additional of basic stevedorage; 2100–0500 hours next morning 130% additional; Sundays/holidays 60% additional.
MEDICAL: No advance notice required unless urgent.
TANKERS: No special requirements at present. Only one berth, and maximum draft 13 metres (42 ft. 6 in.).
DENSITY: Average density 1.020.
FRESH WATER: Available from shore installation. Supply 10–15 tons per hour for Y105.– per ton (approx.).
FUEL: All grades of bonded bunkers are stocked in Tokyo Bay, Ise Bay, Osaka Bay and Kanmon Port. At all other ports bunkers will be lightered from the nearest bunker stock ports at maximum 7 days prior notice.
GANGWAY/DECK WATCHMEN: Not specially required unless passengers or valuable cargo on board. Cost day-time (0800–1700 hours) Y2,700, night-time Y5,940 (approx.).
OPENING/CLOSING HATCHES: Stevedores carry out opening and closing hatches. Cost Y4,400–Y7,200 per hour per gang depending on type of cargoes. If any time lost by ship's crew doing this work, stevedores charge ship for waiting. Recommend request stevedores for this work unless crew can complete it before berthing.
CERTIFICATES: Ship's Register to show Customs Inspector ship's registered gross and nett tonnages. Valid Cargo Gear Certificates sometimes required by stevedores when cargo gear maintenance appears to be poor.
CUSTOMS ALLOWANCE: Only allowed 50 cigarettes to take ashore, but no spirits.
CONSULS: None.
REPAIRS: Minor deck and engine repairs available.
DRY DOCKS: None.
REPATRIATION: Possible.
AIRPORT: Hanamaki Airport about 17 km. from Ofunato. All Nippon Air Lines; two flights between Hanamaki/Tokyo every day.
TIME: GMT plus 9. No alterations made to clocks during year.
TELEPHONES: No facilities for placing telephones on board.
GENERAL: Discharging ex-gearless vessel at wharf unavailable, because no shore crane for discharge.
SERVICES: Surveyor: NKKK and Kentei Shin Nihonsha. Hold and tank cleaning. Provisions/Laundry/Water. Bunker: Domestic diesel oil available.
SHORE LEAVE: Local Immigration Offices issue shore pass valid for only 3 days; 3 days extension possible if ship stays longer.

AGENT: Sub-agents of Dodwell & Co., Tokyo, Abeki Shokai, c/o Fujisawaya Shoken, 10–12 Suzaki, Ofunato. Tel. Ofunato (019222) 2753. Telegraphic "Abe Ofunato".

OITA: 33.15 N. 131.35 E.

DOCUMENTS:
Ship's Register.
Last Port Clearance.

Ship's Register.
Last Port Clearance.
3 Crew Lists including Passport Nos.
3 Passenger Lists.
1 Store List.
1 Declaration of Crew's Baggage, i.e. tobacco, wine/spirits, camera, wrist-watch, radio, firearms/swords, etc. (only at first port of call in Japan).

Ship's Agent will prepare Inward/Outward Declaration, 1 Cargo Manifest and Cargo Manifest in transit using specific forms. Therefore ship's Agent should be provided with necessary information about details of cargoes in advance.

PILOTAGE: Inland Sea pilotage should preferably be arranged through Agent by cable via Nagasaki Radio giving 72 hours notice. Urgent correction of ETA outside business hours should be cabled direct to pilot station. Inland Sea Pilot Association covers all Inland Sea ports. Pilotage not compulsory but recommended in view of great number of islands causing navigational hazards. Pilots obtained from one of three pilot stations dependent upon vessels last port of departure and at Master's discretion. Pilotage available throughout 24 hours and 72 hours advance notice preferred, thereafter advising any alterations. Most Inland Sea pilots also act as harbour Pilots up to berth or anchorage at destination. *Note:* No VHF communication available with Inland Sea pilot stations.

1. Wadamisaki, at entrance to Kobe (vessels transmitting Kii Straits). Position 34° 38′ N. 135° 11′ E. Telegraphic address "Anjin Kobe".

2. Sekisaki, 3 miles South of Sekisaki lighthouse (vessels transitting Bungo channel). Position 33° 13′ N. 131° 54 E. Telegraphic address "Anjin Saganoseki". In event bad weather, recommended vessels proceed for shelter as near as possible having due regard to safety, to Sekisaki pilot station.

3. Hesaki, at East side of Kanmon (Shimoneseki) Straits. Position 33° 56′ 24″ N. 131° 03′ 12″ E.

ANCHORAGE: Omishima located at centre of the inland sea and lies between Ehime and Hiroshima prefectures. Eastern part of island, Inokuchi surrounded by deep water where holding ground good. Oil company located at Inokuchi. No strong winds.

RESTRICTIONS: No restriction on entry; however mooring and unmooring to be carried out during day-time, regardless of tide and current.

MAX. SIZE: Maruzen pier, length of vessel 200 metres, breadth no limit, draft 9·40 metres.

HEALTH: At first port of call in Japan, vessel must obtain free pratique. Quarantine Officers will attend vessel only from day-light to sunset and Captain to show all Vaccination Cards, Derating Exemption Certificate. In case vessel arrives from cholera-infected area within 10 days, Captain must advise crew and passengers health condition to respective Quarantine Office through ship's Agent prior to arrival and close all soil pipes before entering port.

RADIO: Recommended Captain communicates with Agent through Choshi Radio or Nagasaki Radio which cover all ports in Japan. If specifically West bound vessel to Choshi and North bound to Nagasaki Radio respectively.

TUGS: Join vessel at sea anchorage, always using tug's line without charge.

TANKERS: No advance information of loading/discharge lines required. No loading facility. Only one berth available for discharge. See "Max. Size".

DENSITY: Anchorage 1.025. Berth 1.025.

FRESH WATER: Not available but usually brought by barge from Cnomichi (about 3 hrs. run to Omishima) at Y350.– per ton. Rate of delivery 80 tons to 200 tons per hour which depends on barge.

FUEL: All grades of bonded bunkers are stocked in Tokyo Bay, Ise Bay, Osaka Bay and Kanmon Port. At all other ports bunkers will be lightered from the nearest bunker stock ports at maximum 7 days prior notice.

GANGWAY/DECK WATCHMEN: Not specially required unless passengers or valuable cargo on board. Cost day-time (0800–1700 hours) Y2,700, night-time Y5,940 (approx.).

CERTIFICATES: Ship's Register to show Customs Inspector ship's registered gross and nett tonnages. Valid Cargo Gear Certificates sometimes required by stevedores when cargo gear maintenance appears to be poor.

CUSTOMS ALLOWANCE: Only allowed 50 cigarettes to take ashore, but no spirits.

CONSULS: No consuls. Nearest Consulates are in Kobe.

REPAIRS: Minor repairs only.

REPATRIATION: Possible.

AIRPORT: Nearest at Matsuyama and Takamatsu.

TIME: GMT plus 9. No alterations made to clocks during year.

POLICE/AMBULANCE/FIRE: Police 110; Ambulance 119; Fire 119.

TELEPHONES: Not available.

GENERAL: Closed port. To conform with regulations vessel obtains special permission from Shikoku Maritime Bureau to enter.

Customs request vessels calling Omishima to obtain permission to enter at preceding port of call by paying charge at same rate of tonnage dues prior to arrival. This procedure undertaken by Agent. No quarantine station, nearest at Matsuyama. Immigration officer comes from Niihama.

SHORE LEAVE: Immigration Offices issue shore pass valid for only 3 days, but 3 days extension possible if ship stays longer.

AGENT: See "Matsuyama".

ONAHAMA (Iwaki City): 36.56 N. 140.55 E.

The port is protected by breakwater, 8,200 ft. long and is open to the South.

1 Stores List.
1 Declaration of Crew's Baggage, i.e. tobacco wine/spirits, camera, wrist-watch, radio, firearms/swords, etc. (only at first port of call in Japan).

Ship's Agent will prepare Inward/Outward Declaration, 1 Cargo Manifest and Cargo Manifest in transit using specific forms. Therefore ship's Agent should be provided with necessary information about details of cargoes in advance.

PILOTAGE: No means of communication with Pilots and vessels should arrange pilotage by advising Agent of ETA. Vessels awaiting Pilot should anchor in position 36° 55′ N. 140° 54′ E. Pilot-boat carries flag "H".

ANCHORAGE: Just outside No. 1 West breakwater. Depth of water 14–22 metres.

RESTRICTION: Restriction only by ship's draft. Depths of water alongside wharves 9 and 10 metres at low tide, and rise of tide is about 1·40 metres highest.

MAX. SIZE: (Also see "Berthing").

	Length of Wharf	*Depth of Water*
No. 2	350 metres	9 m. for 165 m. and 10 m. for 185 m.
No. 3	350 metres	10 metres
	350 metres	10 metres

Each wharf used for 2 vessels, and view depths, Pilot requires restrict draft within 32 ft. 2 in.

HEALTH: At first port of call in Japan, vessel must obtain free pratique. Quarantine Officers will attend vessel only from day-light to sunset and Captain to show all Vaccination cards, derating Exemption Certificate. In case vessel arrives from cholera-infected area within 10 days, Captain must advise crew and passengers health condition to respective Quarantine office through ship's Agent prior to arrival and close all soil pipes before entering port.

RADIO: Recommended Captain communicates with Agent through Choshi Radio or Nagasaki Radio which covers all ports in Japan. If specifically West bound vessel to Choshi and North bound to Nagasaki Radio respectively.

TUGS: Normally join vessel on passage from anchorage. Vessel's lines used.

"Bandai Maru"	800 h.p.
"No. 2. Shukutsu Maru"	675 h.p.
"Katori Maru"	675 h.p.
"Iwaki Maru"	300 h.p.
"Abukuma Maru"	1,300 h.p.×2

BERTHING: (Also see "Developments"). No specific requirements. Pilot boarding time will be notified by ship's Agent mainly by radio.

STEVEDORES: At least 24 hours prior notice excluding Sundays and holidays required in order for Agent to arrange stevedores. Vessel must constantly keep her Agent advised of ETA. If stevedores cannot commence loading/unloading at time notified by the Agent, the orderers must pay for waiting time. If cargo gears not rigged on berthing, stevedores will do same for ship's crew at additional cost. Overtime surcharges 1700–1900 hours 50% additional of basic stevedorage; 2100–0500 hours next morning 130% additional; Sundays/holidays 60% additional.

MEDICAL: No advance notice required unless urgent.

TANKERS: No facilities for ocean-going tankers.

DENSITY: 1025.

FRESH WATER: Available from shore lines, at about 30 tons per hour. Cost: Y70.– per m/t, and additional 30% for overtime service; 1700–0800 hrs., Saturday afternoon, Sunday and holiday.

FUEL: All grades of bonded bunkers are stocked in Tokyo Bay, Ise Bay, Osaka Bay, and Kanmon Port. At all other ports bunkers will be lightered from the nearest bunker stock ports at maximum 7 days prior notice.

DEVELOPMENT: Wharf No. 4 will be completed by 31/3/71. Length of wharf: 400 metres. Depth of water alongside: 10 metres.

No. 2 West Breakwater: A part of 465 metres in length will be completed by 31/3/71.

Wharf No. 5 and 6 will be constructed by 31/3/73. Length of wharf: 500 metres. Depth of water alongside: 12 metres.
Wharf No. 7 is also planned.
GANGWAY/DECK WATCHMEN: Not specially required unless passengers or valuable cargo on board. Cost day-time (0800–1700 hours) Y2,700, night-time Y5,940 (approx).
OPENING/CLOSING HATCHES: Stevedores carry out opening and closing hatches. Cost Y4,400–Y7,200 per hour per gang depending on type of cargoes. If any time lost by ship's crew doing this work, stevedores charge ship for waiting. Recommend request stevedores for this work unless crew can complete it before berthing.
CERTIFICATES: Ship's Register to show Customs inspector ship's registered gross and nett tonnage. Valid Cargo Gear Certificates sometimes required by stevedores when cargo gear maintenance appears to be poor.
CUSTOMS ALLOWANCE: Only allowed 50 cigarettes to take ashore but no spirits.
CONSULS: None.
REPAIRS: Minor repairs only.
DRY DOCKS: None.
AIRPORTS: None.
TIME: GMT plus 9. No alterations made to clocks during year.
POLICE/AMBULANCE/FIRE: Iwaki (02465); Police 3-3141; Ambulance and Fire, 119.
TELEPHONES: No facilities for connecting on board.
AUTHORITY: Onahama Port Administration and Harbour Construction Office, Fukushima Prefecture. Tatsumicho 38, Onahama, Iwaki, Fukushima Prefecture, Japan. Iwaki (02465) 2–4121.

AGENT: Sub-agent of Dodwell & Co., Tokyo. Abeki Shokai, c/o Minato Ryokan, 14, Onahama, Iwaki. Cables "Abe Iwaki". Tel. Iwaki (02465) 2–3712.

ONOMICHI–ITOZAKI (incl. Mihara, Matsunaga): 34.20 N. 133.16 E.

DOCUMENTS:
Ship's Register.
Last Port Clearance.
3 Crew Lists including Passport Nos.
3 Passenger Lists.
1 Store List.
1 Declaration of Crew's Baggage, i.e. tobacco, wine/spirits, camera, wrist-watch, radio, firearms/swords, etc. (only at first port of call in Japan).

Ship's Agent will prepare Inward/Outward Declarations, 1 Cargo Manifest in transit using specific forms. Therefore ship's Agent should be provided with necessary information about details of cargoes in advance.
PILOTAGE: Inland Sea pilotage should preferably be arranged through Agent by cable via Nagasaki Radio giving 72 hours notice. Urgent correction of ETA outside business hours should be cabled direct to pilot station. Inland Sea Pilot Association covers all Inland Sea Ports. Pilotage not compulsory but recommended in view of great number of islands causing navigational hazards. Pilots obtained from one of three pilot stations dependent upon vessels last port of departure and at Master's discretion. Pilotage available throughout 24 hours and 72 hours advance notice preferred, thereafter advising any alterations. Most Inland Sea pilots also act as harbour pilots up to berth or anchorage at destination. *Note:* No VHF communication available with Inland Sea pilot stations.

1. Wadamisaki, at entrance to Kobe (vessels transmitting Kii Straits). Position 34° 38′ N. 135° 11′ E. Telegraphic address "Anjin Kobe".

2. Sekisaki, 3 miles South of Sekisaki lighthouse (vessels transitting Bungo channel). Position 33° 13′ N. 131° 54′ E. Telegraphic address "Anjin Saganoseki". In event bad weather, recommended vessels proceed for shelter as near as possible having due regard to safety, to Sekisaki pilot station.

3. Hesaki, at East side of Kanmon (Shimoneseki) Straits. Position 33° 56′ 24″ N. 131° 03′ 12″ E.

Inland Sea Pilot also berths vessels at anchorage berth (if Matsunaga Bay – logs), or pier in Itozaki district (Mihara section).
ANCHORAGES: Draft limitations: Itozaki-Mihara 7·5 m. Matsunaga bay 8·5 m. Tidal range: Maximum (+) 3·91 m. Minimum (−) 0·09 m. Capacity for 3×20,000 ton vessels.
HEALTH: At first port of call in Japan, vessel must obtain free pratique. Quarantine Officers will attend vessel only from daylight to sunset and Captain to show all Vaccination Cards, Derating Exemption Certificate. In case vessel arrives from cholera-infected area within 10 days, Captain must advise crew and passengers health condition to respective Quarantine Office through ship's Agent prior to arrival and close all soil pipes before entering port.
RADIO: Recommended Captain communicates with Agent through Choshi Radio or Nagasaki Radio which cover all ports in Japan. If specifically West bound vessel to Choshi and North bound to Nagasaki Radio respectively.
BERTHING: No specific requirements. Pilot boarding time will be notified by ship's Agent mainly by radio.

Name of Berth	*Length*	*Depth*	*Permissible draft and length overall*	*Capacity*	*Shore crane and pipe-line*
Municipal Wharf	135 m.	7·5 m.	7 m.×130 m.	15,000	Nil
Anchorage		8·5 m. 7·5 m.	7·5 m.	3×20,000	Nil

STEVEDORES: At least 24 hours prior notice excluding Sundays and holidays required in order for Agent to arrange stevedores. Vessel must constantly keep her Agent advised of ETA. If stevedores cannot commence loading/unloading at time notified by the Agent, the orderers must pay for waiting time (Y4,400–Y7,200 per hour per gang). If cargo gears not rigged on berthing, stevedores will do same for ship's crew (Y2,200–Y3,600 per hatch). Overtime surcharges 1700–1900 hours 50% additional of basic stevedorage; 2100–0500 hours next morning 130% additional; Sundays/holidays 60% additional.
MEDICAL: No advance notice required unless urgent.
TANKERS: No facilities.
FRESH WATER: Available. Method of delivery (1) Barge Y150/M3 (approx.) (2) Pier Y75/M3 (approx.). Additional charge for overtime work and in event of bad weather.
OPENING/CLOSING HATCHES: Stevedores carry out opening and closing hatches. Cost Y4,400–Y7,200 per hour per gang depending on type of cargoes. If any time lost by ship's crew doing this work, stevedores charge ship for waiting. Recommend request stevedores for this work unless crew can complete it before berthing.
CERTIFICATES: Ship's Register to show Customs Inspector ship's registered gross and nett tonnages. Valid Cargo Gear Certificates sometimes required by stevedores when cargo gear maintenance appears to be poor.
CUSTOMS ALLOWANCE: Only allowed 40 cigarettes to take ashore but no spirits.
CONSULS: None.
REPATRIATION: Possible.
AIRPORT: Nearest, Tokyo International Airport.
TIME: GMT plus nine hours. Permanent.
POLICE/AMBULANCE/FIRE: Police 110; Ambulance/Fire 119.
TELEPHONES: No arrangements for placing telephones on board.
SHORE LEAVE: Local Immigration Offices issue shore pass valid for only 3 days, but 3 days extensions possible if ship stays longer.
AUTHORITY: Hiroshima-Kencho, 10–52, Motomachi, Hiroshima City.

AGENT: See "Kure".

OSAKA: 34.41 N. 135.28 E.

DOCUMENTS:
Ship's Register.
Last Port Clearance.
3 Crew Lists including Passport Nos.
3 Passenger Lists.
1 Store List.
1 Declaration of Crew's Baggage, i.e. tobacco, wine/spirits, camera, wrist-watch, radio, firearms/swords, etc. (only at first port of call in Japan).

Ship's Agent will prepare Inward/Outward Declaration, 1 Cargo Manifest in transit using specific forms. Therefore ship's Agent should be provided with necessary information about details of cargoes in advance.
PILOTAGE: 24 hours notice required. Telegraphic address: "Hanshinpilot Osaka". VHF contact on Channels 12, 16, 19, 20. Agents operate Channel 26. Three 15-ton pilot boats with radio equipment to pilot office. Pilot boards anywhere within harbour limits. In event bad weather Pilot boards just inside breakwater when acknowledgement obtainable from Master. If awaiting Pilot, anchor inside harbour limits as near as possible to breakwater.
ANCHORAGES: Sections Nos. 7 and 8. Section 7 is quarantine anchorage. Section 8 for other vessels. Harbour Master allocates anchorage position prior vessel's arrival which radioed to Master by Agent. Max. draft about 39 ft. 8 in.
RESTRICTIONS: Vessels only permitted enter from sunrise to 2000 hrs. However, order avoid danger, some wharves (oil wharf, Nakayama wharf and various shipyards where there is not enough space to conduct berthing operation), accept vessel only until sunset. Maximum draft 34 ft. 1 in. (with high tide) – Buoys No. 7, 14 and 27.

Draft restrictions at other berths depend upon berth allocated. But less than 34 ft. 1 in.
MAX. SIZE: Maximum permissible length, breadth: "Helen" LOA 742 ft. 10 in. Breadth 102 ft. 3 in. Maximum permissible draft: "West Bulk" Draft 34 ft. 1 in. (allowable up to 34 ft. 1 in.). State of tide: −0·94 m. No installations (sea-berth) for oil carriers outside main port.
HEALTH: Vessel requiring free pratique requested cable directly to "Quarantine Station", Osaka informing ETA, date of departure from last port, name of last port, number of crew and health condition. At first port of call in Japan, vessel must obtain free pratique. Quarantine Officers will attend vessel only from day-light to sunset and Captain to show all Vaccination Cards, Derating Exemption Certificate. In case vessel arrives from cholera-infected area within 10 days Captain must advise crew and passengers health condition to respective Quarantine Office through ship's Agent prior to arrival and close all soil pipes before entering port.
RADIO: Recommended Captain communicates with Agent through Choshi Radio or Nagasaki Radio which cover all ports in Japan. If specifically West bound vessel to Choshi and North bound to Nagasaki Radio respectively.
TUGS: Tugs join vessel just before harbour entrance. Tug's lines used, no extra charge.
BERTHING: No specific requirements. Pilot boarding time will be notified by ship's Agent mainly by radio.
STEVEDORES: At least 24 hours prior notice excluding Sundays

and holidays required in order for Agent to arrange stevedores. Vessel must constantly keep her Agent advised of ETA. If stevedores cannot commence loading/unloading at time notified by the Agent, the orderers must pay for waiting time (Y4,400–Y7,200 per hour per gang). If cargo gears not rigged on berthing, stevedores will do same for ship's crew (Y2,200–Y3,600 per hatch). Overtime surcharges 1700–1900 hours 50% additional of basic stevedorage; 2100–0500 hours next morning 130% additional; Sundays/holidays 60% additional.

MEDICAL: No advance notice required unless urgent.

TANKERS: No slop discharge facilities. No specific requirements. Number of Tanker berths: 1 (wharf No. 49 – Sakurajima Oil Wharf). Maximum permitted draft: 33 ft. 6 in. (10·20 m.).

DENSITY: Outside anchorage: 1023–1025. Near breakwater: 1020–1022. Average density inside breakwater 1020. Wharves near estuaries (Aji river, Shirinashi river, Kizu river and etc.): 1016–1020.

FRESH WATER: Methods of delivery: by barges or pipe-line. Rate of delivery: 200 ton barges – 4; 160 ton barges – 1; 60 ton barges – 1; Total – 6. Cost of water: Y175.– per ton (during office hours). Additional 50% (Y262.50 per ton) out of office hours 1715–0900 hrs. (week-day), after 1200 hrs. (Saturday) Sunday, holiday. Supplying at anchorage: every 1 km. off breakwater Y40.– per ton additional.

FUEL: All grades of bonded bunkers are stocked in Tokyo Bay, Ise Bay, Osaka Bay and Kanmon Port. At all other ports bunkers will be lightered from the nearest bunker stock ports at maximum 7 days prior notice.

DEVELOPMENTS: 12 container berths (2 already completed); 20 foreign trade berths (Liners and Tramps); 24–25 home-trade berths; completion of new berths by 1975.

GANGWAY/DECK WATCHMEN: Not specially required unless passengers or valuable cargo on board. Cost day-time (0800–1700 hours) Y2,700, night-time Y5,940.

OPENING/CLOSING HATCHES: Stevedores carry out opening and closing hatches. Cost per hour per gang depending on type of cargoes. If any time lost by ship's crew doing this work, stevedores charge ship for waiting. Recommend request stevedores for this work unless crew can complete it before berthing.

CERTIFICATES: Ship's Register to show Customs Inspector ship's registered gross and nett tonnages. Valid Cargo Gear Certificates sometimes required by stevedores when cargo gear maintenance appears to be poor.

CUSTOMS ALLOWANCE: Only allowed 50 cigarettes to take ashore, but no spirits.

CARGO GEAR: See "Certificates", but no special requirements.

OTARU: 43.12 N. 141.01 E.

DOCUMENTS:

Ship's Register.
Last Port Clearance.
3 Crew Lists including Passport Nos.
3 Passenger Lists.
1 Store List.
1 Declaration of Crew's Baggage, i.e. tobacco, wine/spirits, camera, wrist-watch, radio, firearms/swords, etc. (only at first port of call in Japan).

Ship's Agent will prepare Inward/Outward Declaration, 1 Cargo Manifest and Cargo Manifest in transit using specific forms. Therefore ship's Agent should be provided with necessary information about details of cargoes in advance.

PILOTAGE: Pilot district fixed by Ministry of Transport. Limit of Otaru piloting district is sea area surrounded by line drawn from Kayashiba-misaki to Horaiso-misaki and coast line. Licensed pilots stationed in office from 9 a.m. to 5 p.m. When Pilot observes pilot signal or is requested by any other means he comes out to ship at once. Boarding place about one mile from North B.W. Lt. H. 70 degrees. Pilot boat painted white and carries International Code flag "H" at forecastle deck. "Otaru Pilot" registered cable address for Otaru Pilot Association.

ANCHORAGE: Depth of water inside breakwater is 3·6 to 17·0 metres (average 9·4 metres) and nearly everywhere, except some Southern parts, good anchorage. Sea area, outside breakwater, also good holding for anchors, but be careful not to foul fishing nets. Around quarantine anchorage is best anchorage of ship staying outside breakwater.

RESTRICTIONS: Quarantine and Customs business between 0800 hrs. and 1700 hrs. Pilot: Vessel allowed to enter and leave day and night. Pilot assistance officially not compulsory but in practice necessary, and Pilots available 24 hours.

MAX. SIZE: *Buoys:* Four mooring buoys available for large vessels.

Pier and wharves: Three piers, two wharves, and one coal pier. Also No. 4 pier now under construction.

Mooring Buoys

Buoy Nos.	*3*	*4*	*5*	*6*

HEALTH: At first port of call in Japan, vessel must obtain free pratique. Quarantine Officers will attend vessel only from day-light to sunset and Captain to show all Vaccination Cards, Derating Exemption Certificate. In case vessel arrives from cholera-infected area within 10 days, Captain must advise crew and passengers health condition to respective Quarantine Office through ship's Agent prior to arrival and close all soil pipes before entering port.
RADIO: Recommended Captain communicates with Agent through Choshi Radio or Nagasaki Radio which cover all ports in Japan. If specifically West bound vessel to Choshi and North bound to Nagasaki Radio respectively.
TUGS: Two tugs available for large vessels. Tugs M/S "Sakura Maru" 147 g/t 1,000 h.p. M/S "Tatwiea Maru" 38 g/t 180 h.p. Both belong to city's Harbour Bureau.
Position: Tug boat waits and joins vessel near appointed berth according to Agents' request. Tug's line in general use.
BERTHING: No specific requirements. Pilot boarding time will be notified by ship's Agent mainly by radio.
STEVEDORES: At least 24 hours prior notice excluding Sundays and holidays required in order for Agent to arrange stevedores. Vessel must constantly keep her Agent advised of ETA. If stevedores cannot commence loading/unloading at time notified by the Agent, the orderers must pay for waiting time. If cargo gears not rigged on berthing, stevedores will do same for ship's crew at additional cost. Overtime surcharges 1700–1900 hours 50% additional of basic stevedorage; 21—0500 hours next morning 130% additional; Sundays/holidays 60% additional.
MEDICAL: No advance notice required unless urgent.
TANKERS: Available berthing for small vessels only, 1,000 g/t and usual berthing 300–500 g/t. Japanese tankers only. Draft: maximum permitted 7·2 m. Discharging: about 100 k/t per 1 hr.
DENSITY: Average 1025.
FRESH WATER: Good drinking-water at all piers and wharves. Two water barges (both 150 tons) available when off shore in harbour. International code flag "Y.J" used as "I want fresh water".
Supplier: Otaru Municipal Office. 1. Direct water supply from wharves: No minimum quantity. Per cubic ton: summer (Apr.–Nov.) Y90.–, winter (Dec.–Mar.) Y135.– (about 50 tons from pier per 1 hr.).
2. Direct water supply from barge: minimum quantity 20 tons. Per cubic ton: summer (Apr.–Nov.) Y150.–, winter (Dec.–Mar.) Y225.– (about 60 tons from barge per 1 hr.).
Remarks: Charges for water supply outside office hours (1700–0830) increased by 50% of basic. Very bad weather add 50%.
FUEL: All grades of bonded bunkers are stocked in Tokyo Bay, Ise Bay, Osaka Bay and Kanmon Port. At all other ports bunkers will be lightered from the nearest bunker stock ports at maximum 7 days prior notice.
FIRE PRECAUTIONS: No smoking at tanker berth, Umaya Machi Ganpeki No. 1 and No. 3 berth.
GANGWAY/DECK WATCHMEN: Not specially required unless passengers or valuable cargo on board. Cost day-time (0800–1700 hours) Y2,700, night-time Y5,940.
OPENING/CLOSING HATCHES: Stevedores carry out opening and closing hatches. Cost per hour per gang depending on type of cargoes. If any time lost by ship's crew doing this work, stevedores charge ship for waiting. Recommend request stevedores for this work unless crew can complete it before berthing.
CERTIFICATES: Ship's Register to show Customs Inspector ship's registered gross and nett tonnages. Valid Cargo Gear Certificates sometimes required by stevedores when cargo gear maintenance appears to be poor.
CUSTOMS ALLOWANCES: Only allowed 50 cigarettes to take ashore, but no spirits.
CONSULS:
American Consulate, Sapporo in Sapporo city only. Tel. 0122–22–5121.
U.S.S.R. Consulate, Sapporo in Sapporo city only. Tel. 0122–56–3171.
R.O.K. Consulate, Sapporo in Sapporo city only. Tel. 0122–62–0288.
REPAIRS: All type of deck and engine repair are possible.
DRY DOCKS: None.
REPATRIATION: Possible.
AIRPORT: Distance from airport to Agent's office at Otaru about 80 km. Service bus air station in Sapporo to airport by each airline. Charge: Y200.– Flights: JAL (from Chitose airport to Haneda airport) 19 times per day. ANA (from Chitose airport to Haneda airport) 15 times per day. KOKUNAI KOKU twice per day.
TIME: GMT plus 9. No alterations made to clocks during year.
HOLIDAYS: Stevedores do not work on 1st May.
POLICE/AMBULANCE/FIRE: Tel. Police 110; Ambulance and Fire 119.
TELEPHONES: Arrangeable on board. Cost: Security Y30,000.– Wiring works charge Y5,000.– Basic Y260.– per day. Telephone charge Y10.
SHORE LEAVE: Local Immigration Offices issue shore pass valid for only 3 days, but 3 days extension possible if ship stays longer.

AGENT: Sub-agents of Dodwell & Co., Tokyo. Narasaki Sangyo Co. Ltd., 1–9, 1-chome, Ironai-cho, Otaru. Tel. Otaru (0134) 3–3281. Telegraphic "Narasaki Otaru".

OWASE: 34.04 N. 136.13 E.

DOCUMENTS:
Ship's Register.
Last Port Clearance.
3 Crew Lists including Passport Nos.
3 Passenger Lists.
1 Store List.
1 Declaration of Crew's Baggage, i.e. tobacco, wine/spirits, camera, wrist-watch, radio, firearms/swords, etc. (only at first port of call in Japan).
Ship's Agent will prepare 2 Inward/outward Declarations, 1 Cargo Manifest and Cargo Manifest in transit using specific forms. Therefore ship's Agent should be provided with necessary information about details of cargoes in advance.
PILOTAGE: Ocean-going vessels calling at Owase have cargo destined to Toho Oil, Owase Refinery only. There is no local pilot association in this port and the Oil Refinery's Dock Master boards all vessels as a Pilot. Pilot boarding time is passed to ship by ship's Agents after consulting with pilot (Dock Master) and he boards vessel 1 mile East of Toto Island.
ANCHORAGE: Quarantine Anchorage position is 34° 4′ 13″ North 136° 16′ 43″ East. Depth Water 60–80 m. Radius 500 m. However, it is not advisable for vessels to stay there for a long time as there are many fishing boats nearby.
RESTRICTIONS: According to Agreement between Fishery Association and Oil Refinery, ship's movement is prohibited at night.
MAX. SIZE: Depth water alongside pier is 17.00 m. ship's maximum permissible draft is 16.20 m. at high tide. L.O.A. limited to 300 m. No restrictions as to breadth.
HEALTH: At first port of call in Japan vessel must obtain free pratique. Quarantine Officers will attend vessel only from daylight to sunset and Captain to show all Vaccination cards, derating Exemption Certificate. In case vessel arrives from cholera-infected area within 10 days, Captain must advise crew and passengers health condition to respective Quarantine office through ship's Agent prior to arrival and close all soil pipes before entering port.
RADIO: Recommended Captain communicates with Agent through Choshi Radio or Nagasaki Radio which covers all ports in Japan. If specifically West bound vessel to Choshi, and North bound to Nagasaki Radio respectively.
TUGS: Tugs usually join vessel at Harbour Limit (near Sabaru Island) and tug's line is used.
BERTHING: No specific requirements. Pilot boarding time will be notified by ship's Agent mainly by radio.
MEDICAL: No advance notice required unless urgent. Hospital facilities available.
TANKERS: One berth available – see "Max. Size".
FRESH WATER: Fresh water can be supplied to the vessel from pipe at Quay, Y80 per ton. Supply Capacity 30 tons per hour.
FUEL: All grades of bonded bunkers are stocked in Tokyo Bay, Ise Bay, Osaka Bay and Kanmon Port. At all other ports bunkers will be lightered from the nearest bunker stock ports at maximum 7 days prior notice.
DEVELOPMENT: Toho Oil have plan to construct New Dolphin Berth, 150 m. offshore where depth of water 21.00 m.
GANGWAY/DECK WATCHMEN: Not specially required unless passengers or valuable cargo on board. Cost day-time (0800–1700 hours) Y2,700, night-time Y5,940 (approx.).
CERTIFICATES: Ship's Register to show Customs inspector ship's registered gross and nett tonnages.
CUSTOMS ALLOWANCE: Only allowed 50 cigarettes to take ashore but no spirits.
CONSULS/REPAIRS/AIRPORT: None.
TIME: GMT plus 9 hours. Permanent.
TELEPHONES: Emergency numbers, Owase Police Office (05972); 2–0004; Owase Fire Station (05972) 2–2020; Owase Hospital (05972) 2–2118. No facilities for placing telephones on board.
SHORE LEAVE: Local Immigration offices issue shore pass valid for only 3 days, but extension possible if ship stays longer.

AGENT: Sub-Agents of Dodwell & Co., Tokyo. Uyeno Unyu Shokai, c/o Showa Yokkaichi Sekiyu Bldg., Building No. 40, 1, Shiohama-cho, Yokkaichi. Cables "Uyenoshell Yokkaichi;" Tel. (0593) 45–2271.

DOCUMENTS:

Ship's Register.
Last Port Clearance.
3 Crew Lists including Passport Nos.
3 Passenger Lists.
1 Store List.
1 Declaration of Crew's Baggage, i.e. tobacco, wine/spirits, camera, wrist-watch, radio, firearms/swords, etc (only at first port of call in Japan).

Ship's agents will prepare Inward/Outward Declaration, 1 Cargo Manifest and Cargo Manifest in transit using specific forms. Therefore ship's Agent should be provided with necessary information about details of cargoes in advance.

PILOTAGE: Inland Sea pilotage should preferably be arranged through Agent by cable via Nagasaki Radio giving 72 hours notice. Urgent correction of ETA outside business hours should be cabled direct to pilot station. Inland Sea Pilot Association covers all Inland Sea ports. Pilotage not compulsory but recommended in vew of great number of islands causing navigational hazards. Pilots obtained from one of three pilot-stations dependent upon vessels last port of departure and at Master's discretion. Pilotage available throughout 24 hours and 72 hours advance notice preferred, thereafter advising any alterations. Most Inland Sea pilots also act as harbour Pilots up to berth or anchorage at destination. *Note:* No VHF communication available with Inland Sea pilot stations.

1. Wadamisaki, at entrance to Kobe (vessels transitting Kii Straits) Position 34° 38′ N.; 135° 11′ E. Telegraphic address "Anjin Kobe".

2. Sekisaki, 3 miles South of Sekisaki lighthouse (vessels transitting Bungo Channel). Position 33° 13′ N. 131° 54′ E. Telegraphic address "Anjin Saganoseki". In event bad weather, recommended vessels proceed for shelter as near as possible having due regard to safety, to Sekisaki pilot-station.

3. Hesaki, at East side of Kanmon (Shimonoseki) Straits. Position 33° 56′ 24″ N. 131° 03′ 12″ E.

ANCHORAGE: Port located on North coast at East part of Shikoku Island in Inland Sea.

Boundaries and Areas. Area bounded by line joined with three points, East corner of Sosha river mouth, Mamako-Hana of Semi Jima and Tako-Saki of Shotsuji-Yama.

Depth of water inside harbour limit: 11 metres, outside harbour limit: 13 metres.

RESTRICTIONS: Vessels entering and/or leaving during daytime only at wharves; but done day and night at sea anchorage provided favourable weather conditions prevail.

MAX. SIZE: East section of Centre pier, length 160 metres, breadth no limit, depth 8·50 metres.

West section of Centre pier, length 110 metres, breadth no limit, depth 7·50 metres.

Mitsubishi Chemical Industries wharf, length 250 metres, breadth no limit, depth 12 metres.

Anchorage inside breakwater, length no limit, breadth no limit, depth 7–9 metres.

Anchorage outside breakwater, length no limit, breadth no limit, depth 10 metres.

HEALTH: At first port of call in Japan, vessel must obtain free pratique. Quarantine Officers will attend vessel only from daylight to sunset and Captain to show all Vaccination Cards, Derating Exemption Certificate. In case vessel arrives from Cholera infected area within 10 days, Captain must advise crew and passengers health condition prior to arrival and close all soil pipes before entering port.

RADIO: Recommended Captain communicates with Agent through Choshi Radio or Nagasaki Radio which cover all ports in Japan. If specifically West bound vessel to Choshi and North bound to Nagasaki Radio respectively.

TUGS: Wharves. Join vessel at sea anchorage, using tug's line without charge. Sea anchorage. No tug required in normal conditions.

BERTHING: No specific requirements. Pilot boarding time will be notified by ship's agents mainly by radio.

STEVEDORES: At least 24 hours prior notice excluding Sundays and holidays required in order for agents to arrange stevedores. Vessel must constantly keep her Agent advised of ETA. If stevedores cannot commence loading/unloading at time notified by the Agent, the orderers must pay for waiting time (Y4,400–Y7,200 per hour per gang). If cargo gears not rigged on berthing, stevedores will do same for ship's crew (Y2,200–Y3,600 per hatch). Overtime surcharges 1700–1900 hours 50% additional of basic stevedorage; 2100–0500 hours next morning 130% additional; Sundays/holidays 60% additional.

MEDICAL: No advance notice required unless urgent.

TANKERS: No tanker berth.

DENSITY: Inside harbour limit 1·025. Outside harbour limit 1·025.

FRESH WATER: Sea anchorage. No water barge available but usually brought from Onomichi (about 4 hours run to Sakaide) at Y350.– per ton. Rate of delivery 80 tons to 200 tons per hour dependant on barge.

Centre pier: Can be supplied by shore line with capacity 25 tons per hour; Y100.– (0800–1700). 50% extra (1700–0800) (Sunday and Holiday operation).

Mitsubishi Chemical Industries wharf: Can be supplied by shore line with capacity 60 tons per hour; at Y75.– (0800–1700). 50% extra (1700–0800).

FUEL: All grades of bonded bunkers are stocked in Tokyo, Ise Bay, Osaka and Kanmon Port. At all other ports bunkers will be lightered from the nearest bunker stock ports at maximum 7 days prior notice.

FIRE PRECAUTIONS: No specific precaution.

DEVELOPMENTS: Asia Sekiyu Kaisha Ltd. intends to construct oil refinery installation but company has not yet decided when they are going to start this project.
GANGWAY/DECK WATCHMEN: Not specially required unless passengers or valuable cargo on board. Cost day-time (0800–1700 hours) Y2,700, night-time Y5,940.
OPENING/CLOSING HATCHES: Stevedores carry out opening and closing hatches. Cost Y4,400–Y7,200 per hour per gang depending on type of cargoes. If any time lost by ship's crew doing this work, stevedores charge ship for waiting. Recommend request stevedores for this work unless crew can complete it before berthing.
CERTIFICATES: Ship's Register to show Customs Inspector ship's registered gross and nett tonnages. Valid Cargo Gear Certificate sometimes required by stevedores when cargo gear maintenance appears to be poor.
CUSTOMS ALLOWANCE: Only allowed 50 cigarettes to take ashore, but no spirits.
CARGO GEAR: See "Certificates", but no special requirements.
CONSULS: None. See "Kobe".
REPAIRS: Only minor repairs.
DRY DOCKS: Kawasaki Heavy Industries Ltd., Sakaide, which is suitable to dry dock. Dock No. 2 for 500,000 dwt vessel. 450 m.×72 m. ×12·3 m. Not yet in action for ship repairs. Only used at present for ship building and after services.
REPATRIATION: Possible.
AIRPORT: No airport. Nearest Takamatsu, All Nippon Airways 11 flights to Osaka and 1 to Tokyo.
TIME: GMT plus 9. No alterations made to clocks during year.
HOLIDAYS: National Holidays – see "Niihama". Local Holidays: New Year's Day (Lunar Calendar) January 30th; May Day May 1st; Memorial Day of the Sea July 20th; Bon Festival August 8th.

No ship's movement can be effected on January 1st. No cargo handling on December 31st, January 1st, 2nd and 3rd, August 8th and October 15th.
POLICE/AMBULANCE/FIRE: Police 110; Ambulance 119; Fire 119.
TELEPHONES: No facilities for placing telephones on board.
GENERAL: Mitsubishi Chemical Industries Co. Ltd., Sakaide Works. As wharf of above works located outer harbour limit of Sakaide port, the undermentioned procedures required: In conformity with regulations, vessel required to get special permission for entering into closed port, which will be given from Shikoku Maritime Bureau.

Customs request vessel calls Mitsubishi Chemicals wharf to obtain special permission for entering. If tonnage dues paid prior arrival, this procedure will be attended to by Agent.

Waiting anchorage: Avoid Bisan Seto Boundary according to special water zone navigation order. Imperative to exclude water surfaces with established Fishery Privilege.
SHORE LEAVE: Local Immigration Offices issue shore pass valid for only 3 days, but 3 days extension possible if ship stays longer.

AGENTS: Sub agents of Dodwell & Co., Tokyo. Sumitomo Warehouse Co. Ltd., c/o Taisei Kaiun K.K., 1594, Sobiraki-Cho, Niihama. Tel. Niihama (0897) 37–1101. Telegraphic – "Sumitomosoko Niihama."

SAKATA: 38.57 N. 139.48 E.

Located at mouth of Mogami River. Strong wind blows from Japan Sea November to March.

In winter season, wave height between 3 to 5 metres, length 70 to 80 metres and period 7 to 10 seconds. Current South to North along coastline at 0·15 m. sec.
TIDAL RANGE:

Higher high water	+40 cm.
Spring tide high water	+28 cm.
Neap tide high water	+24 cm.
Mean sea level	+20 cm.
Neap tide low water	+16 cm.
Spring tide low water	+12 cm.

SERVICES: Compass adjustment.
SHORE LEAVE: Local Immigration offices issue shore pass valid for only 3 days, but 3 day extensions possible if ship stays longer.
AUTHORITY: Yamagata Harbour Office. 3–15, Ohhama 1-chome, Sakata City. Tel. 2–0701.

AGENT: Sub-Agent of Dodwell & Co., Tokyo. Sakata Kairiku Unso K.K., 6–19, 2-Chome, Funaba-Cho, Tel. (02342) 2–1801. Cables: "Sakatakairiku".

SASEBO: 33.10 N. 129.43 E.

DOCUMENTS: See "General – Customs and Immigration".
PILOTAGE: Compulsory. Vessel should keep Pilot closely advised, through Agent, of ETA pilot station at least 24 hours prior arrival and any subsequent change. Pilot boards vessel one mile Northwest Kogosaki lighthouse. (33° 06′ N. 129° 38′ E.). In bad weather, Pilot will board at 33° 05′ 48″ N. 129° 40′ 24″ E.

Telegraphic address of Port Captain JNK 500 kc/s (Sasebo Maritime Safety Office).
ANCHORAGE: Ample good holding ground in inner harbour, but is controlled by U.S. Navy and only following anchorage available for commercial vessels: No. 3 Section, Depth 10 m.–37 m. Capacity (g/t) 20,000 tons and over × 20.
RESTRICTIONS: Entry and departure from sunset to sunrise only allowed under extenuating circumstances subject to Port Captain's special permission. (MSTS chartered vessels excepted). No particular restrictions upon draft or tide conditions. Berthing during day only. Controlling depth of water – in the passage 23–54 m., at anchorage 10–37 m.
WEATHER: South-westerly winds prevail in summer, while Northerly blows frequently in other seasons. Maximum wind velocity recorded 26·1 m/sec. In early spring dense fog prevails, but renders navigation impossible only for 7 days or so.

Tidal range 2·6 metres. Current rate maximum 1·5 knots in vicinity of harbour entrance at rising tide. At ebb tide, it flows in opposite direction and is faster than during flood, but not so strong as to hinder navigation.

MAX. SIZE: "See Berthing". No particular limitation for entering port. For berthing however, acceptable length, draft and breadth will be decided case by case in accordance with conditions of each berth consulting with pilots, U.S. Navy and Port Captain. No tanker installations outside port.

HEALTH: Quarantine station: 33° 05′ 30″ N., 129° 42′ 00″ E.), 1½ mile East of Kogosaki lighthouse. Quarantine service from sunrise to one hour before sunset. Q flag should be hoisted until free pratique granted. When vessel arrives from plague and cholera infected or suspected area within 10 days (plague) and 5 days (cholera). 24-hour special quarantine required. All sanitary scuppers must be closed and garbage not thrown overboard after vessel reaches 60 miles off Japanese coast. Vessel chartered by MSTS or USN (GAA, T/C, CVC, V/C) shall be cleared by U.S. Navy Quarantine and service available after sunset also.

RADIO: See "Yokohama".

TUGS: Normally join vessel about ½–1 hour prior berthing and tug's lines used. Charge for use of lines included in tug hire.

BERTHING:

IDENTIFICATION CARDS: See "General – Immigration".

CONSULS: None

REPAIRS: All deck and engine repairs possible.

DRY DOCKS: Sasebo Heavy Industries Co. Ltd. No. 3 dry dock: Length 370·0 m. Width 70·0 m. Depth 15·0 m. Max. ship (dwt) 300,000. Another 5 dry docks available.

AIRPORT: Itazuke Airport, Fukuoka, about 120 kilometres (about 220 min. by taxi). Served by regular airlines. Omura Airport, Nagasaki, about 50 kilometres (about 70 min. by taxi). 7 flights daily. (All Nippon Airways).

TIME: GMT plus 9 hours. No alterations to clocks throughout year.

POLICE/AMBULANCE/FIRE: Police Station: Sasebo 3–7161 (if emergency: 110). Ambulance Sasebo 3–5121 (Sasebo Fire Station). Fire Sasebo 119 (Sasebo Fire Station).

TELEPHONES: No facilities exist for placing telephones on board.

GENERAL: *Customs:* When vessel arrives direct from foreign port, Customs officials board for search. Following documents to be submitted. Crew List, Passenger List, Store List, Manifest of crew personal effects (must be signed by individual crew member). Arms and ammunition List, Narcotics List, List of Port of call on current voyage, Discharging cargo Manifest, Through cargo manifest, Declaration inward/outward (Form No. C2000). Following will be checked on board. Ship's Registry, Last port clearance.

When vessel comes from Japanese port, Customs officials will not attend on board, except special case. Master or agents to attend at Customs House for entry formalities with following documents. Discharging cargo Manifest, Through cargo Manifest, Declaration inward/outward, Ship's Registry, Last Port Clearance, documents entrusted with the Master by Customs at previous port.

On vessel's departure, clearance issued by Customs after confirming payment of tonnage dues.

Immigration: Immigration officials board vessel on arrival to examine passports, discharge books and/or other equivalent travel documents and provide a 72-hour landing pass for crew members and passengers. Two copies each of crew list and passenger list are required by them. Providing vessel's Agent with these documents beforehand will help in expediting immigration business on arrival. When vessel in port more than 72 hours, landing passes will be extended every 72 hours on application.

In event that crew members, without entry visas, to be landed for repatriation or transfer, Immigration will not permit their landing unless passage, by either sea or air, ensuring prompt departure from Japan (within 72 hours) of these men has been booked, or unless vessels to which they are to be transferred, arrive in Japan within 5 days. Services are rendered from 0900 hours to 1700 hours.

MEDICAL: Hospital: U.S. Station Hospital (for U.S. military personnel only). Sasebo Dojinkai Hospital. Bussaka Dental Hospital. Tanaka Dental Hospital.

SERVICES: Hold cleaning. Compass adjusting. Fumigation.

AUTHORITY: Sasebo Municipal Office, 1–10, Hachiman-cho, Sasebo City.

DELAYS: Berthing during night-time not allowed in principle.

AGENTS: Subagents of Dodwell & Co., Tokyo. Nishikyushu Warehouse Co. Ltd., Tategami-cho, Sasebo. Tel. Sasebo (09562) 4–6161. Telegraphic "Ringer Sasebo".

SHIMIZU: 35.01 N. 138.30 E.

DOCUMENTS: *Quarantine* (only when arriving from a foreign port):
1 Maritime Declaration of Health.
1 Crew List.
1 Cargo Manifest.
1 List of Passengers (if any on board).
Log Book and Registry should be readily available.

Customs:
1 Declaration Inward/Outward with ports of Call.
1 Ship's Registry
1 Last Port Clearance.
1 Store List including arms and narcotics.
2 Manifests of Cargo for discharge (prepared by Agents).
1 Manifest of Through Cargo.
1 Crew List.
1 List of Passengers.
1 List of Crew's Baggage (only necessary if crew-members have to land personal effects ashore.

Immigration:
2 Crew Lists.
1 Application for Shore-passes.
2 Lists of Passengers.
Notification of Departure, (to be returned through Agents after sailing).

Harbour Master:
1 Declaration Inward/Outward with ports of Call.

Port Authority:
1 Declaration Inward/Outward with ports of Call.

PILOTAGE: Pilot boats: black hulls and white house with H flag at bow. G flag: when requiring a Pilot. Pilot Station: 35° 01′ 30″ N. 138° 31′ 30″ E. (to be altered at a later date to the point 80 degrees 2600 metres distant from Masaki Lighthouse 35° 01′ 02″ N., 138° 31′ 06″ E. Night Pilotage: charge – 50% extra applicable from one hour before sunset to one hour after sunrise.

ANCHORAGES: See Section 3 on Chart of Shimizu.

MAX. SIZE: (See "Developments") Dry-cargo max. draft 12 metres. Length and breadth no restriction. Tankers, up to 16.50 m. draft.

HEALTH: Free pratique automatic calling at another Japanese port.

RADIO: Cable Agent giving ETA, draft and any other informations via Shimizu Radio. Call sign: JGQ. Transmitting frequency 500, 512, 486 kc. Receiving frequency 500,480 kc. Area within 200 km.

TUGS: Normally join in-coming vessels near pilot station. Tugs's lines usually used no extra charge.

STEVEDORES: Enable Agents order gangs important obtain accurate ETA in good time. Latest time to order gangs 1600 of previous day. Gang shifts: Normal and deferred shift 0830 every day. Night shift 1700 every day except 3rd Sunday. Any request for attendance preceding 0830 non-acceptable.

VHF: Call sign: Shimizu Port Radio. Channels 16, 12, 14 Simplex, 20 Duplex. Power 50 w. Area 50 km.

MEDICAL: Masters to advise by radio prior arrival if medical attendance required.

DENSITY: 1023–1024.

FRESH WATER: Most berths supply by shore installations, otherwise barge. Price Y80.– per ton from shore, Y150.– per ton from barge. Minimum quantity invoiced at 20 tons or Y3,000.–

FUEL: All grades of oil delivered by barge only.

FIRE PRECAUTIONS: Harbour fire-fighting corps with a fire-fighting boat.

DEVELOPMENTS: Okitsu Wharf completed 1970. Possible to berth a full-container ship and eight 15,000 ton class ships at same time. Sodeshi Wharf construction to be completed end 1975 latest.

GANGWAY/DECK WATCHMEN: Available for gangway, hold checking hawsers, bridge, telephone, etc.

OPENING/CLOSING HATCHES: On liners normally by stevedores with assistance of crews, otherwise according Charter Party.

CERTIFICATES: Ship Registry, Radio and Safety equipments Certificate, Deratting Exemption Certificate, etc.

CUSTOMS ALLOWANCES: Tobacco: 50 packets permitted per each crew per day. Wine 6 bottles per crew member.

IDENTIFICATION CARDS: Passport or Seaman's Book.

CONSULS: None.

REPAIRS: Most repairs and overhauls possible.

DRY DOCKS: NKK Shimizu yard (largest 210×24·6 metres).

AIRPORT: 180 km. distant from Haneda International Airport.

TIME: GMT plus nine hours. Permanent.

HOLIDAYS: No work on from December 31 to January 3 and Shimizu Port Festival Day (Aug. 5).

POLICE/AMBULANCE/FIRE: Police 110; Ambulance 119; Fire 119; Water Police (52) 0200.

TELEPHONE: Available on board cost Y1,200.– first calendar day Y500.– from second.

SHORE LEAVE: Normally allowed.

AUTHORITY: Shimizu Port Administration Office, 2–9, Hinide-cho, Shimizu City, Shizouka Pref., Japan. Tel. (53)2201.

AGENT: Suzuyo & Co., Ltd. 12, 3-chome, Irifune-cho Shimizu City' Shizuoka Pref. Cable Address: Suzuyo Shimizu. Domestic Telex: 3965–671, 672, 677 Suzuyo SMZ. Telephone: Shimizu (0543) 53–3111 & 52–4503.

SHIMONOSEKI (including Mutsure): 33.57 N. 130.58 E. (See Kanmon-Ko).

DOCUMENTS:
Ship's Register.
Last Port Clearance.
3 Crew Lists including Passport Nos.
3 Passenger Lists.
1 Store List.
1 Declaration of Crew's Baggage, i.e. tobacco, wine/spirits, camera, wrist-watch, radio, firearms/swords, etc. (only at first port of call in Japan).

Ship's agent will prepare Inward/Outward Declaration, 1 Cargo Manifest and Cargo Manifest in transit using specific forms. Therefore ship's agents should be provided with necessary information about details of cargoes in advance.

PILOTAGE: See "Moji".

ANCHORAGE: Nishiyama anchorage located off Hikoshima Island, on Western end of Honshu Island. Max. draft 9·5 m. capacity 10,000×2.

Mutsure anchorage: undermentioned area is open port. The sea area surrounded by:

(*a*) Line connecting Daibahana on Takenoko Island and top of Wagora Island.
(*b*) Line connecting top of Wagora Island and Udonohama on Mutsure Island.
(*c*) Coastline between Udonohama and Unoishibana on Mtsure Island.
(*d*) Line connecting Unoishibana and Anse-no-Shiri in Shimonoseki.
(*e*) Line connecting Anse-no-Shiri and point at 370 metres from Daibahana on the line connecting Daibahana and top of Wagora Island.
(*f*) Line long. 130° 54′ E.

Anchorage includes a part of quarantine anchorage and Mutsure oil berth; depth 10–25 metres.

RESTRICTIONS: See "Moji".

MAX. SIZE:

Wharf		*Length*	*Depth*	*Capacity (g/t)*
Western wharf	(Nos. 3–4)	340 m.	7·2 m.	15,000×1
Daiichi Pier	(Nos. 9–10)	330 m.	8·5 m.	24,000×1
	(Nos. 12–13)	330 m.	8·5 m.	13,000×1
Daini Pier	(Nos. 15–16)	340 m.	8·5 m.	15,000×1
	(Nos. 17)	210 m.	9·1 m.	25,000×1

For tank installations, see "Tankers".

HEALTH: At first port of call in Japan, vessel must obtain free pratique. Quarantine Officers will attend vessel only from daylight to sunset and Captain to show all Vaccination Cards. Derating Exemption Certificate. In case vessel arrives from cholera-infected area within 10 days, Captain must advise crew and passengers health condition to respective Quarantine Office through ship's Agent prior to arrival and close all soil pipes before entering port.

RADIO: Recommended Captain communicates with Agent through Choshi Radio or Nagasaki Radio which cover all ports in Japan. If specifically West bound vessel to Choshi and North bound to Nagasaki Radio respectively.

TUGS: See "Moji".

VHF: See "Yawata".

BERTHING: No specific requirements. Pilot boarding time will be notified by ship's Agent mainly by radio.

BRIDGES: No bridges at present, but construction begun on suspension bridge, across Kanmon Strait.

STEVEDORES: At least 24 hours prior notice excluding Sundays and holidays required in order for agents to arrange stevedores. Vessel must constantly keep her Agent advised of ETA. If stevedores cannot commence loading/unloading at time notified by the Agent, the orderers must pay for waiting time (Y4,400–Y7,200 per hour per gang). If cargo gears not rigged on berthing, stevedores will do same for ship's crew (Y2,200–Y3,600 per hatch). Overtime surcharges 1700–1900 hours 50% additional of basic stevedorage; 21–0500 hours next morning 130% additional; Sundays/holidays 60% additional.

MEDICAL: No advance notice required unless urgent.

TANKERS: Shell oil berth situated at Hikoshima, on Southwestern end of Honshu, facing Moji across Kanmon Strait. In vicinity of berth, flood tide sets to East, ebb tide to West, current about 5–6 knots. Mooring berth consists of 4 buoys, approximately 140 metres offshore, space between buoys being approx. 270 metres.

Maximum dimensions of vessel which can be safely accommodated are gross tonnage 18,000 tons, length OA 170 metres, breadth unlimited, draft 9 metres.

Vessels only berthed or unberthed when tide sets to west during daytime only. In approaching berth, as vessel comes against tide, full engine power and tug assistance required. One 10 in. pipe connected to vessel; discharge efficiency per hour 500–600 kl.

Taiyo Gyosho Installation located about 610 metres South of Mutsure lighthouse. At this berth, West-going current stronger than East-going and ship taken to berth only on Westerly current, with stern towards South. Most suitable berthing time is 2–3 hours after commencement of West-going current. Maximum dimension of vessel which can be accommodated at this berth is gross tonnage 37,000 tons, dead weight 60,000 tons, length OA 270 metres, draft 11 metres.

One 8 in pipe is connected to vessel. Speed of discharge is an average 1,000 kl per hour.

DENSITY: 1·025.

FRESH WATER: Good fresh water supplied either from water

barge or from hydrants alongside wharves. Rate of delivery from water barge 50 tons per hour and from hydrants 40–50 tons. The cost per ton from water barge is Y175.– and from hydrants Y115.–

FUEL: All grades of bonded bunkers are stocked in Tokyo Bay, Ise Bay, Osaka Bay and Kanmon Port. At all other ports bunkers will be lightered from the nearest bunker stock ports at maximum 7 days prior notice. Also see "Moji, Fuel".

DEVELOPMENTS: 182,000 m. land reclaimed since 1967 along National Railway wharves, near Shimonoseki Station and work scheduled to complete in spring 1973. At present, No. 18 wharf, mostly reclaimed land, used for ferry boat service linking Shimonoseki to Pusan, which opened service June 1970. After completion of reclamation, further three berths (Nos. 19, 20 & 21) will be equipped for larger vessels, where maximum draft planned 10 metres.

GANGWAY/DECK WATCHMEN: Not specially required unless passengers or valuable cargo on board. Cost day-time (0800–1700) Y2,700, night-time Y5,940.

OPENING/CLOSING HATCHES: Stevedores carry out opening and closing hatches. Cost Y4,400–Y7,200 per hour per gang depending on type of cargoes. If any time lost by ship's crew doing this work, stevedores charge ship for waiting. Recommend request stevedores for this work unless crew can complete it before berthing.

CERTIFICATES: Ship's Register to show Customs Inspector ship's registered gross and nett tonnages. Valid Cargo Gear Certificates sometimes required by stevedores when cargo gear maintenance appears to be poor.

CUSTOMS ALLOWANCE: Only allowed 50 cigarettes to take ashore, but no spirits.

CARGO GEAR: See "Certificates", but no special requirements.

CONSULS: Korean Consul, tel. (66) 5341.

REPAIRS: All types of repairs possible.

DRY DOCKS: Mitsubishi Heavy Industries Ltd. 4 dockyards (Nos. 3 & 4 for smaller vessels).
Hayashikane Shipbuilding K.K. 3 dockyards (Max. 1,100 G/T).
Towa Shipbuilding K.K. 1 dockyard (Max. 1,000 G/T).
Mitsubishi Heavy Industries Ltd.

Dimensions of dock

	Length metres	*Breadth* metres	*Draft* metres
No. 1 Dock	164·13	25·0	7·04

TELEPHONES: No facilities for placing telephones on board.

SHORE LEAVE: Local Immigration Offices issue shore pass valid for only 3 days, but 3 days extension possible if ship stays longer.

AGENTS: Sub agents of Dodwell & Co. Ltd., Tokyo. Shimamoto Kaiun K.K., 5–7 Chikko, Wakayama. Tel. Wakayama (0734) 22–5111, Kainan (07348) 2–5463. Telegraphic "Shimamoto Wakayama", "Shimamoto Kainan."

TANABE: 33.44 N. 135.21 E.

DOCUMENTS:
Ship's Register.
Last Port Clearance.
3 Crew Lists, including Passport Nos.
3 Passenger Lists.
1 Store List.
1 Declaration of Crew's Baggage, i.e. tobacco, wine/spirits, camera, wrist-watch, radio, firearms/swords, etc. (only at first port of call in Japan).

Ship's Agent will prepare Inward/Outward Declaration, 1 Cargo Manifest and Cargo Manifest in transit using specific forms. Therefore ship's Agent should be provided with necessary information about details of cargoes in advance.

PILOTAGE: Not compulsory, but if required Agent to be advised 72 hours prior arrival. No pilotage sunset to sunrise. Anchorage waiting for Pilot 33° 42′ N.; 135° 19′ E. Pilot station 2,200 metres 315 degrees from Banshono-hana lighthouse. Depth, 38 metres.

ANCHORAGE: Waiting anchorage, 1,900 metres 40 degrees from Banshono-hana lighthouse. Depth, 19 metres. Bottom, sand and mud.

RESTRICTIONS: Maximum draft, 9·5 metres (31 ft.), high tide. Usual draft, under 8·5 metres (28 ft.).

HEALTH: At first port of call in Japan, vessel must obtain free pratique. Quarantine officers will attend vessel only from daylight

to sunset and Captain to show all vaccination cards, Derating Exemption Certificate. In case vessel arrives from cholera-infected area within 10 days, Captain must advise crew and passengers health condition to respective Quarantine Office through ship's Agent prior to arrival and close all soil pipes before entering port.
RADIO: Recommended Captain communicates with Agent through Choshi Radio or Nagasaki Radio which cover all ports in Japan. If specifically West bound vessel to Choshi and North bound to Nagasaki Radio respectively.
TUGS: If required, ordered from Wakayama subject three days advance notice. Tug's line used, no extra charge.
BERTHING: 3 buoy-berths, depth 10 metres.
STEVEDORES: At least 24 hours prior notice excluding Sundays and holidays required in order for Agent to arrange stevedores. Vessel must constantly keep her Agent advised of ETA. If stevedores cannot commence loading/unloading at time notified by the Agent, the orderers must pay for waiting time (Y4,400–Y7,200 per hour per gang). If cargo gears not rigged on berthing, stevedores will do same for ship's crew (Y2,200–Y3,600 per hatch). Overtime surcharges 1700–1900 hours (50% additional of basic stevedorage), 2100–0500 hours next morning (130% additional), Sundays/holidays (60% additional).
MEDICAL: No advance notice required unless urgent.
DENSITY: About 1.03.
TIDE: Tidal range. Maximum plus 2·13 metres. Minimum minus 0·21 metres.
FRESH WATER: Available by water-barge, capacity 30 tons. Day-time delivery only to buoy berths. 48 hours notice required. Cost per ton Y250 (approx.).
FUEL: All grades of bonded bunkers are stocked in Tokyo Bay, Ise Bay, Osaka Bay and Kanmon Port. At all other ports bunkers will be lightered from the nearest bunker stock ports at maximum 7 days prior notice.
GANGWAY/DECK WATCHMEN: Not specially required unless passengers or valuable cargo aboard. Cost, day-time (0800–1700 hours) Y2,700; night-time, Y5,940 (approx.).
OPENING/CLOSING HATCHES: Stevedores carry out opening and closing hatches. Cost Y4,400–Y7,200 per hour per gang depending on type of cargoes. If any time lost by ship's crew doing this work, stevedores charge ship for waiting. Recommend request stevedores for this work unless crew can complete it before berthing.
CERTIFICATES: Ship's Register to show Customs Inspector ship's registered gross and nett tonnages. Valid Cargo Gear Certificates sometimes required by stevedores when cargo gear's maintenance appears to be poor.
CUSTOMS ALLOWANCES: Only allowed 50 cigarettes to take ashore but no spirits.
CONSULS: None.
REPAIRS: Minor repairs only.
AIRPORT: Shirahama Airport about 25 km. distant. Domestic flights only, daily to Tokyo, Osaka, and Nagoya.
TIME: GMT plus 9. No alterations made to clocks during year.
POLICE/AMBULANCE/FIRE: Tanabe police office, tel. 0739–2–1226; Ambulance, Chu-o Hospital, tel. 0739–2–8383; Fire department, tel. 0739–2–0931.
SERVICES: None available locally but obtainable from Osaka.
SHORE LEAVE: Local Immigration Offices issue shore pass valid for only 3 days, but 3 days extension possible if ship stays longer.

AGENTS: Sub-Agents of Dodwell & Co. Ltd., Tokyo. Shumamoto Kaiun K.K., Kamiyashiki, Tanabe-shi. Tel. Tanabe (0739) 2–4047. Telegraphic, Shimamoto Tanabe.

1 Store List.
1 Declaration of Crew's Baggage, i.e. tobacco, wine/spirits, camera, wrist-watch, radio, firearms/swords, etc. (only at first port of call in Japan).
Ship's Agent will prepare Inward/Outward Declaration, 1 Cargo Manifest and Cargo Manifest in transit using spedific forms. Therefore ship's Agent should be provided with necessary information about details of cargoes in advance.
PILOTAGE: See "Yawata".
ANCHORAGES: No. 5 section, Wakamatsu. Depth: 9–11 m. Capacity (g/t) 15,000×2. Quarantine anchorages also used when necessary.
WIND/TIDE: South-easterly winds prevail in the warm seasons and North-westerly winds in the winter season. The maximum velocity recorded in the past being 18 m./sec. The tidal range is 2·145 metres. The current at the channel leading to new port runs Southward at the flood and Northward at the ebb. The maximum speed of the current is about 3 knots. There is no current in the dock.
RESTRICTIONS:
(a) Vessels exceeding 20,000 tons gross may berth only within one hour before and/or after slack tide. Vessel's under 20,000 tons gross may berth regardless of current, if it does not exceed 5 knots.
(b) Night entry: Vessels under 10,000 gross tons may berth at Nos. 1, 2, 3 and 8 wharves until 2200 hrs. in summer season and 2100 hrs. in winter season, subject to Harbour Master's permission and Pilot's agreement.
(c) Night departure: Vessels under 20,000 gross tons allowed to sail from Nos. 1, 2, 3, 8 wharves and Nos. "A", "B", "C" buoys until 2200 hrs., regardless of current, provided they are moored with bow outward. However, now dredging fairway from Mutsure anchorage to Tobata Hakuchi and this will take some months. While dredging, night entry/departure prohibited.
MAX. SIZE:

HEALTH: At first port of call in Japan, vessel must obtain free pratique. Quarantine Officers will attend vessel only from daylight to sunset and Captain to show all vaccination cards, Derating Exemption Certificate. In case vessel arrives from cholera-infected area within 10 days, Captain must advise crew and passengers health condition to respective Quarantine Office through ship's Agent prior to arrival and close all soil pipes before entering port.
RADIO: Recommended Captain communicates with Agent through Choshi Radio or Nagasaki Radio which cover all ports in Japan. If specifically West bound vessel to Choshi and North bound to Nagasaki Radio respectively.
TUGS: Two tugs join vessel at entrance of harbour (in front of harbour signal station). Vessels exceeding 20,000 tons gross require 3 tugs. One of them will join vessel at Mutsure leading into main harbour and 2 join vessel at entrance of port (in front of harbour signal station).
BERTHING: No specific requirements. Pilot boarding time will be notified by ship's Agent mainly by radio. See "MAX-SIZE".
STEVEDORES: At least 24 hours prior notice excluding Sundays and holidays required in order for Agent to arrange stevedores. Vessel must constantly keep her Agent advised of ETA. If stevedores cannot commence loading/unloading at time notified by the Agent, the orderers must pay for waiting time (Y4,400–Y7,200 per hour per gang). If cargo gears not rigged on berthing, stevedores will do same for ship's crew (Y2,200–Y3,600 per hatch). Overtime surcharges 1700–1900 hours (50% additional of basic stevedorage), 2100–0500 hours next morning (130% additional), Sundays/holidays (60% additional).
MEDICAL: Kinjyo Hospital, Yawata; Shimada Surgical Hospital, Yawata. No advance notice required unless urgent.
DENSITY: Average density in the port is about 1.019–1.021 in summer season, 1.025–1.026 in winter season.
FRESH WATER: Available in connecting lines from shore side at wharves Nos. 1, 2, 3, 8, 9. No. of hydrant 5 4 5 5 5. At buoys: from barges, arranged from Wakamatsu. Rate of delivery: 55–70 tons per hr. ex-hydrant, 60 tons per hr. barge. Cost per ton Y113.– at wharves (approx.), Y230.– at buoys. Overtime (0500–0800) (1700–2200), 50% add.; (2200–0500), 100% add.; bad weather, 50% add.; Sundays and holidays, 50% add.; minimum quantity at Tobata, 30 tons; minimum quantity at Mutsure, 50 tons at Y280.– (approx.).
FUEL: Available ex-barge. All grades of bonded bunkers are stocked in Tokyo Bay, Ise Bay, Osaka Bay and Kanmon Port. At all other ports bunkers will be lightered from the nearest bunker stock ports at maximum 7 days prior notice.
FIRE PRECAUTIONS: No tanker berth. Each tugboat equipped with fire extinguishing system for attending emergencies on request.
DEVELOPMENTS: No. 4 wharf completed. Depth of water about 17 metres, but also 2nd plan for 19 metres. Berthing capacity, over 150,000 dwt. Shore crane installation and dredging of fairway will take at least another year.
GANGWAY/DECK WATCHMEN: Not specially required unless passengers or valuable cargo aboard. Cost, day-time (0800–1700 hours) Y2,700; night-time Y5,940 (approx.).
OPENING/CLOSING HATCHES: Stevedores carry out opening and closing hatches. Cost Y4,400–Y7,200 per hour per gang depending on type of cargoes. If any time lost by ship's crew doing this work, stevedores charge ship for waiting. Recommend request stevedores for this work unless crew can complete it before berthing.
CERTIFICATES: Ship's Register to show Customs Inspector ship's registered gross and nett tonnages. Valid Cargo Gear Certificates sometimes required by stevedores when cargo gear's maintenance appears to be poor.
CUSTOMS ALLOWANCES: Only allowed 50 cigarettes to take ashore but no spirits.
CONSULS: See "Yawata".
REPAIRS: All types of deck and engine repairs possible afloat.
DRY DOCK: No dry dock.
REPATRIATION: Possible.
AIRPORT: See "Yawata".
TIME: GMT plus 9. No alterations made to clocks during year.
POLICE/AMBULANCE/FIRE: Tobata police office, tel. 093–87–4321; Wakamatsu Water Police, Tobata Branch, tel. 093–87–1561; Ambulance/Fire: Tobata fire department, tel. 093–87–2621.

TELEPHONES: See "Yawata".
SHORE LEAVE: Local Immigration Offices issue shore pass valid for only 3 days, but 3 days extension possible if ship stays longer.
AUTHORITY: Kitakyushuko Kanti-Kumiai, Nishikaigan-Dori, Moji-ku, Kitakyushu City.

AGENTS: Sub-Agents of Dodwell & Co. Tokyo. Holme Ringer & Co. Ltd., c/o Tobata Works of Yawata Iron and Steel Co. Ltd., Motomiya-cho, Tobata-ku, Kitakyushu. Tel. Tobata (093) 87–1561 (ext. 5528). Telegraphic, Ringer Yawata.

TOKUYAMA: 33.59 N. 131.45 E.

Port situated in Yamaguchi Prefecture on Western part of mainland, facing Seto Inland Sea. Surrounded by Oshima peninsula on the East, by Otsu-Shima and Uma-Shima (islands) on the South-west, and by the land on the North. Forms a grand bay with deep water suitable for shelter. Sen-Shima and Kurokami-Shima (islands) lying in harbour, divide it into Tokuyama section and Tonda section.

DOCUMENTS:

(*a*) *Customs.* When vessel arrives direct from foreign port, Customs officials will board her for search. The following documents are to be submitted:

Crew List.
Passenger List.
Store List.
Manifest of Crew Personal Effects (must be signed by individual crew member).
Arms and Ammunition List.
Narcoticts List.
List of Ports of Call on current voyage.
Discharging Cargo Manifest.
Through Cargo Manifest.
Declaration Inward/Outward (form No. 02000).

The following will be checked on board: Ship's Registry, Last Port Clearance. When vessel comes from Japanese port, Customs officials will not attend on board, except special case. Master or Agent are to attend at Custom House for entry formalities with the following documents:

Discharging Cargo Manifest.
Through Cargo Manifest.
Declaration Inward/Outward.
Ship's Registry.
Last Port Clearance.
Documents entrusted with Master by Customs at previous port.

On vessels' departure a clearance is issued by Customs, after confirming payment of tonnage dues. Ship's Agent will prepare Inward/Outward Declaration, 1 Cargo Manifest and Cargo Manifest in transit using specific forms. Therefore ship's Agent should be provided with necessary information about details of cargoes in advance.

(*b*) *Immigration.* Immigration officials attend from Tokuyama. They board vessel on arrival to examine passports, discharge books and/or other equivalent travel documents, and provide 72-hour landing passes for crew members and passengers. One copy each of Crew List and Passenger List are required by them. Providing ship's Agent with a Crew List beforehand will be a great help in expediting immigration business on vessel's arrival. When vessel stays in port more than 72 hours, the landing passes will be extended every 72 hours on application. In event that crew members, without entry visas, are to be landed for repatriation or transfer, Immigration will not permit their landing unless passage, by either sea or air, ensuring the prompt departure from Japan (within 72 hours) of these men has been booked, or unless vessels to which they are to be transferred, arrive in Japan within 5 days.

PILOTAGE:

Inland Sea Pilot (*Sekisaki/Tokuyama*): Not compulosry. Agent gives 24 hrs. notice to Pilot Association, Moji, and advice if ETA changed. (Master to cable "Anjin Moji" in case ETA changed and believes that his advice, if relayed by Agent, will not reach in good time; for example, at night before date of arrival at Sekisaki). Location: 3 miles South of Sekisaki lighthouse (33° 13′ N., 131° 54′ E.). Pilot boards on vessel's arrival at pilot station day and night. No alternative area in event of bad weather. No VHF.

Harbour Pilot (*Tokuyama Harbour or Tokuyama-wan:* Not compulsory. Pilot boards in Tokuyama-wan at quarantine anchorage, or other anchorage to pilot to berth. Master who has not taken Pilot at Sekisaki should enter harbour without Pilot (no pilot station at entrance). Master to inquire position for anchoring from Agent prior arrival. Agent advise Master in consideration of vessel's size, draft or nos. of other vessels, especially supertankers, in port.

ANCHORAGE: Quarantine anchorage, 34° 01′ N. 131° 46′ E., depth water 36 ft. Deeper water of more than 60 ft. about 2 miles S.W. of quarantine anchorage where quarantine board supertankers. If harbour congested, vessels, especially supertankers, anchor outer harbour. In this case quarantine go to outer harbour if advised by Master or Agent. In emergency or unable contact Agent, vessel can talk with Harbour Master by VHF, Channel 16, calling "Tokuyama Hoan". No restriction for entry into and/or departure from the anchorages after nightfall.

MAX. SIZE: Biggest recorded vessel to enter, 215,000 tons dwt, 64 ft. draft.

HEALTH: Quarantine station at Tokuyama section: 33° 27′ 30″ N. 131° 45′ 00″ E. Quarantine station at Tonda section: 34° 02′ 17″ N. 131° 43′ 30″ E. Quarantine service rendered from sunrise to one hour before sunset. "Q" flag should be hoisted until free pratique is granted. Vessel exceeding 20,000 gross tonnage may undergo quarantine on application upon berthing at the loading/discharging place. When vessel arrives from plague-infected or suspected area within 10 days after she left such place, a 24-hour special quarantine is required. All sanitary scuppers must be closed and garbage not thrown overboard after she reaches 60 miles off Japanese coast. At first port of call in Japan, vessel must obtain free pratique. Quarantine Officers will attend vessel only from day-light to sunset and Captain to show all vaccination cards, Derating Exemption Certificate. In case vessel arrives from cholera-infected area within 10 days, Captain must advise crew and passengers health condition to respective Quarantine Office through ship's Agent prior to arrival and close all soil pipes before entering port. Radio pratique available after 1st Jan. 1971.

RADIO: Recommended Captain communicates with Agent through Choshi Radio or Nagasaki Radio which cover all ports in Japan. If specifically West bound vessel to Choshi and North bound to Nagasaki Radio respectively.

TUGS: Join inside harbour. For supertankers outer harbour if requested. Tugs' lines used.

STEVEDORES: At least 24 hours prior notice excluding Sundays and holidays required in order for Agent to arrange stevedores. Vessel must constantly keep her Agent advised of ETA. If stevedores cannot commence loading/unloading at time notified by the Agent, the orderers must pay for waiting time. If cargo gears not rigged on berthing, stevedores will do same for ships crew. Overtime surcharges 1700–1900 hours (50% additional of basic stevedorage), 2100–0500 hours next morning (130% additional), Sundays/holidays (60% additional).

Loading/Unloading facilities

(*a*) Gangs: Maximum 20 gangs are available.

Classification	*Regular employees*	*Temporary labourers*
Stevedores	160	180
Longshoremen	80	60

Tokuyama Kairiku Unso Kabushiki Kaisha; Kamigumi & Co. Ltd.; Toyo Koun Co., Ltd.; Sankyu Transportation & Engineering Co., Ltd.

(*b*) Lighters: No lighter is available, but semi-motor schooners are arrangeable in case of need.

(*c*) Shore crane: None.

(*d*) Floating crane: No. 1. Capacity, 100 tons. Owners, Maruike Kaiun (from Kudamatsu).

(*e*) Average performance of loading/unloading: Loading: Cement in bags, 55–65 tons per hr./gang; Soda ash in bags, 40–50 tons per hr./gang; Fertilisers in bags, 55–65 tons per hr./gang. Discharging: Salt in bulk, 65–75 tons per hr./gang.

Working hours: One labour shift. Normal working hours: 0800 to 1700 hours. Overtime is possible by applying to Customs at the following fees: 0000–0500, Y350.– per hour; 0500–0830, 1700–2200, also Sundays and holidays, Y300.– per hour; 2200–2400, Y350.– per hour. No work can be arranged for during New Year holidays (1st to 3rd January).

MEDICAL: No advance notice required unless urgent. Hospital: Asanoumi Hospital, Asami Hospital, Ono Dental Plant.

TANKERS: No slop facilities.

OIL TERMINALS:

(*a*) Idemitsu Oil instruction:

				Fuel oil	4,000
				Naphtha	3,000
Centre Pier	220	12	35,000×1	Crude oil	2,000
				Fuel oil	1,500
				Diesel oil	1,500
				Kerosene	800
				Naphtha	1,000

Sea berth: is located in Tokuyama Bay at the position of 33° 59·5′ N., 131° 46·1′ E., consisting of seven mooring buoys. 130,000 tons deadweight tanker can be accommodated at this berth, being moored to buoys fore and aft. Four powerful tug boats and two line boats are engaged in berthing/unberthing. The depth of water is 19·5 metres. The 30-in. or 36-in. submarine oil-pipe is connected to vessel; discharge efficiency of crude oil per hour is 10,000 tons. Vessel should have derricks of more than 10 tons capacity.

(*b*) Nippon Seiro Refinery: The mooring berth consists of one oil pier and two mooring buoys, to which vessel is moored fore and aft, keeping about 15 metres off the pier. The depth of water is 12 metres. The maximum size of vessel which can be accommodated is 25,000 gross tonnage. A 10-in. floating oil-pipe, which joins with the shore pipe-line at the end of the oil pier, is connected to vessel; discharge efficiency per hour is 600 tons.

Nippon Geon Wharf (25 ft.) (for LPG).

DENSITY: Normal. 1.025.

WIND/TIDE: The prevailing wind throughout year is North-easterly. Tidal range is 2·50 metres. Current runs in vicinity of harbour entrance Westward at flood tide and Eastward at ebb; inside harbour Northeastward at flood and in opposite direction at ebb. The speed of current at entrance is 0·77 m./sec., but it is negligible in harbour.

FRESH WATER: Water barges available, one each of 450 tons, 350 tons and 160 tons. Hydrants at Idemitsu Central pier, Toyo Soda wharf. The rate of delivery: 50 tons per hour from barge, 20 tons per hour from hydrant. Cost Y200 per ton (approx.).

FUEL: Ex-barge. Delivery rate 80–100 tons/hour. All grades of bonded bunkers are stocked in Tokyo Bay, Ise Bay, Osaka Bay and Kanmon Port. At all other ports bunkers will be lightered from the nearest bunker stock ports at maximum 7 days prior notice. Bunkering alongside Refinery berths not permitted.

GANGWAY/DECK WATCHMEN: Not specially required unless passengers or valuable cargo aboard. Cost, day-time (0800–1700 hours), Y2,700; night-time, Y5,940 (approx.).

OPENING/CLOSING HATCHES: Stevedores carry out opening and closing hatches. Cost Y4,400–Y7,200 per hour per gang depending on type of cargoes. If any time lost by ship's crew doing this work, stevedores charge ship for waiting. Recommend request stevedores for this work unless crew can complete it before berthing.

CERTIFICATES: Ship's register to show Customs Inspector ship's registered gross and nett tonnages. Valid Cargo Gear Certificates sometimes required by stevedores when cargo gear's maintenance appears to be poor.

CUSTOMS ALLOWANCES: Only allowed 50 cigarettes to take ashore but no spirits.

CONSULS: None.

REPAIRS: Minor repairs only.

DRY DOCKS: Kasado Dockyard in Kudamatsu-wan, entrance 3 miles East of Tokuyama-wan entrance. Largest dry dock for 50,000 tonners and 4 other dry docks/building docks.

AIRPORT: Hiroshima (about 2·5 hours by taxi/train), Ube (2 hours by taxi/train) (two flights a day).

TIME: GMT plus 9. No alterations made to clocks during year.

POLICE/AMBULANCE/FIRE: Police, tel. 110; Ambulance and Fire, tel. 119.

TELEPHONES: No facilities for placing on board.

SERVICES: From Moji, Kobe or Osaka.

SHORE LEAVE: Local Immigration Offices issue shore pass valid for only 3 days, but 3 days extension possible if ship stays longer.

AGENTS: Sub-Agents of Dodwell & Co. Ltd., Tokyo. Tokuyama Kairiku Unso K.K., 2–18 Chikko-machi, Tokuyama. Tel. Tokuyama (0834) 2–1292. Telegraphic, Ringer Tokuyama.

TOKYO: 35.43 N. 139.45 E.

DOCUMENTS:

3 copies Inward/Outward Declaration – (Form C.2000).
1 copy Berth Application (normally prepared by Agent).
1 Cargo Manifest (Form C.2030).
1 List Ship's Stores (Form C.2060).
1 Parcel List.
1 Passenger Manifest (Form C.2070).
1 Crew Manifest (Form C.2080).
1 Statement by Master (Form C.2020).
1 Declaration for Payment Tonnage Dues.
1 Maritime Declaration of Health.
1 Application for Shore Passes.

PILOTAGE: 12 hours advance notice of ETA required. Pilot boats named Musashi, Takao, Tsukuba and Asuka. No light or sound signals, use ship's radio in case necessity arises. Address: Tokyo Pilot Union, 3–26–82 Kaigan, Minato-ku, Tokyo (at the Southern tip of the Shibaura Wharf). Tel. (453) 1691.

Pilot boards vessel outside harbour. Vessel awaits Pilot around "Quarantine Anchorage".

ADVANCE APPLICATIONS: Passenger ships and large vessels using mooring facilities must submit applications for use of facilities to port managers (the Port and Harbour Bureau of Tokyo Metropolitan Government) through shipping firms or Agents 24 hours before entry into port so that they may have berths designated.

When they want to use anchorage facilities, they must submit applications for use of anchorage areas to Tokyo–Yokohama Port Director (the Port and Harbour Section of the Tokyo Maritime Safety Agency) to have anchorage sites designated. Small vessels of less than 300 gross tons do not need to submit anchorage application.

When ships of over 500 gross tons want to enter port at night (from sunset to sunrise), must submit applications in advance to port director and receive permission. Copy of written permission given to captain of ship when ship has entered port.

A ship carrying explosives or any other dangerous cargo must submit two copies of application in advance for permission to use port to Port Director. Such ships required to stay outside port in No. 3 Area. However, they will be allowed to enter port when port director considers it allowable.

RESTRICTIONS: No. 1 fairway is long and narrow (5,400 metres × 300 metres) and carries considerable traffic. Vessels under 500 tons not permitted use fairway when vessel over 5,000 tons is in transit.

DEPARTURE PROCEDURE: Ship over 300 tons departing must hoist signal in daytime and two white lamps at night and make two prolonged blasts of whistles or siren 30 minutes before starts to move and then act according to signals given by signal station on Shibaura Quay. Departure notice must be submitted to Maritime Safety Agency and port managers (Operations Section of Port and Harbour Bureau). Foreign ships must submit required documents in addition to above notice to Tokyo Custom House, Immigration Control Office and Tokyo Medical Inspection Station to receive permissions from these quarters.

ANCHORAGES: (See "Advance Applications".)

Quarantine anchorage on starboard hand of No. 1 fairway.

Sector A triangular sea area formed by line passing through point 180° and 400 metres from light buoy No. 16 and point 105° and 240 metres from same light buoy. Accommodates one 1,000-ton class ship or two ships of 500-ton class or smaller.

Sector B circular area with radius 120 metres from point 295° and 380 metres from tide signal post of No. 3 Daiba. Accommodates one 1,000-ton class ship.

Sector C (263,330 square metres) is a space between Harumi Wharf and Toyosu Wharf. Accommodates five 2,000 ton class vessels.

Sector D (141,350 square metres) sea area enclosed by line drawn from point 217° and 400 metres from North-western tip of Tsukishima Fishery Base through No. 8 mooring buoy. No. 15 buoy and Southern tip of Tsukishima Fishery Base. Accommodates five vessels smaller than 1,000 tons, but two if vessels larger than 700 tons.

MAX. SIZE: (Draft). Tanker, 9·5 m. or less; bulk carrier, 9·3 m. or less; general cargo, 9·3 m. or less. (Quay and Pier capacity). Passenger vessels up to 20,000 gross tons or cargo vessels up to 15,000 dead weight tons.

(Tide). Vessels of said size will not be affected by tide. Largest vessels to enter: tanker, 29,060 dwt.; bulk carrier, 19,947 dwt.; general cargo vessel, 19,599 dwt.

HEALTH: At first port of call in Japan, vessel must obtain free pratique. Quarantine Officers will attend vessel only from daylight to sunset and Captain to show all vaccination cards, derating exemption certificate. In case vessel arrives from cholera-infected area within 10 days, Captain must advise crew and passengers health condition to respective Quarantine Office through ship's Agents prior to arrival and close all soil pipes before entering port.

When pratique issued at first port of entry in Japan, no further quarantine required at other ports while in Japan.

In event of infectious disease, patient will be isolated, everybody on board inspected and the vessel disinfected and allowed to enter port only after safety has been confirmed.

Any foreign vessel entering port to make contact with: Tokyo Quarantine Station, Ministry of Welfare, 3–32–26, Higashishinagawa, Shinagawa-ku, Tokyo. Tel. (471) 7922.

Anchor in Quarantine Anchorage area and hoist a yellow flag. Master to present to Quarantine Officer:

Crew List.
Deratisation Certificate.
Preventive Vaccination Certificates.
Prepare and submit Maritime Declaration of Health.

Medical inspection of plants: When a report is received in advance from a ship by telegraph or other means of communication, Tokyo Office of the Yokohama Plant Disease Prevention Station must be notified by telephone or verbally in request for an on-the-spot inspection of plant in question.

Medical inspection of animals: When a report is received from a ship in advance by telegraph or other means of communication, the Tokyo Branch or the Haneda Branch of Animal Disease Prevention Station must be notified by telephone or verbally in request for an on-the-spot inspection of the animals.

RADIO: Vs entering are watched at all times at Torigasaki, the entrance gate to Tokyo Bay, and record of passing the point is taken. As each ship passes point, this is immediately communicated by VHF radio telephone to head office of Toyo Signal Communications Company. From here news communicated on normal telephone or on exclusive direct call telephone to interested parties. (Also see "VHF".)

Recommended Captain communicates with Agents through Choshi Radio or Nagasaki Radio which covers all ports in Japan. If specifically West bound vessel to Chosi and North bound to Nagasaki Radio respectively.

TUGS: The port has two tug companies: (i) Toko Service Co., Ltd., 3–25–8, Kaigan, Minato-ku, Tokyo. Tel. (452) 4781. (ii) Shibaura Tsusen Co., Ltd., 3–1–3, Kaigan, Minato-ku, Tokyo. Tel. (451) 3871. Upon notification to either, tugs will be waiting in neighbourhood of scheduled berth. Ship's lines to be used.

BERTHING: Any vessel entering port required to:

(1) Submit one each of "Declarations Inward Outward of Vessels" to TMG and TMSA. See "Documents". (2) Submit "Application for Berth" to TMG. See "Documents". (3) Submit "Application for

Designation of Anchoring Site" to TMSA (Form No. 13) regarding anchoring area. Berthing will be in order of arrival, passenger and special cargo vessels excepted.

STEVEDORES: Advance advices should be made 24 hours at latest before vessel's arrival order arrange necessary gangs.

Discharge rates (approx.):

(*a*) Iron, steel and scrap, using crane or magnet, about 1,000 tons/day.

(*b*) Coal, crane and bucket, 1500/2,000 tons/day.

(*c*) Ores, grabs and bulldozers, 1,000 tons/day.

(*d*) Timber, 1,000 tons/day.

(*e*) Grain, crane with bucket or suction, 1,000 tons/day.

VHF:

A.	Transmitting antenna:	Located 39°26′ N. 139°39′ E.
B.	Type:	Single communication – Yagi type. Plural communication – corner reflector type.
C.	Direction:	Southern part of entrance to Tokyo Bay and Port of Tokyo.
D.	Frequency class:	F3
E.	Frequency:	Single communication – 156·6 mc/s., CH 12 156·7 mc/s., CH 14 156·8 mc/s., CH 16 (for calling, answering and safety) Plural communication – 161·6 mc/s., CH 20 161·7 mc/s., CH 22
F.	Antenna power:	50 W.
G.	Call sign:	Tokyo Port Radio.
H.	Range:	Approx. 1,000 km (straight range) South-east side – About 20 nautical miles South of Mojimazaki South-west side – about 5 nautical miles North of Oshima Island. North side – Tokyo Port and Chiba Port.
I.	Operating time:	All times.

Ship telephone: Uses VHF and is a service between navigating or anchored ships and subscriber telephones on land, and between ships connected via base station on land. Communicating sphere approximately 50 to 100 kilometres from base station. Base stations located so as to allow communication with any ship sailing along Japanese coasts.

Charges for device: Y1,000 for one telephone set and actual cost for use by ship.

Service charges: (in case Japan Telegraph and Telephone Public Corporation installed the unit) Y22,000 a month for long term, Y1,100 a day for short term.

Call charges: Within specified call area for ship telephone in general – Y90 up to 3 minutes and additional Y30 per minute after the 3 minutes.

MEDICAL: Hospitals, clinics and all specified facilities. Advance notice not necessary.

TANKERS: No slop discharge facilities, (but see "Services"). One tanker berth only, max. permitted draft 9·5 metres.

FRESH WATER: Water supply from hydrant by Tokyo Metropolis, and waterboat by private management.

(*a*)	Water supply on wharves	
	Application	Bureau of Port and Harbour Offices in charge of each wharf.
	Work of water supply	Tokyo Port Service Association
	Rate	Y130 per 1m³ (from 17.15 to 08.30, extra charge 50%)
(*b*)	Water supply by water boat	
	Basic Rate	Y220 per 1 m³
	Extra charge	Overtime from 17.00 to 23.00 50% from 23,00 to 7.00 100% Special district 50% Festal day 50%

In the case of less than 15 tons per time, it will be considered 15 tons supply.

FUEL: All grades available. 24 hours notice required.

FIRE PRECAUTIONS: (Tankers).

1. Must enter port at dead slow speed preceeded by patrol boat of TMSA, one tug boat each side of vessel and followed by fire patrol boat.
2. Engine to be kept ready for immediate use in case of emergency.
3. Tow lines to be placed over bow and stern with eyes close to water surface.

Note: No vessels allowed alongside a tanker during loading or discharging.

DEVELOPMENTS: Port and Harbour programme for Tokyo, completion date target 1975.

1. Major reclamation and development of land.
2. Expansion of anchorage for discharging timber. Timber yards to be expanded.
3. No. 10 sector to be equipped to meet increasing internal trade.
4. Specialised wharves for iron, steel, timber and containers will be constructed.
5. No. 15 and Keihin No. 6 sections constructed to handle dangerous cargoes, mainly petroleum products.
6. Basin facilities and canals to be improved.
7. Dredging work in progress on 2nd fairway. When completed this fairway will be 300 m. wide and about 9 m. deep to be increased to 10 m. at a later date. A third fairway is also programmed.

GANGWAY/DECK WATCHMEN: Necessary only in the case of valuable cargo.

OPENING/CLOSING HATCHES: Normally by crew.

CUSTOMS ALLOWANCES: (Tobacco) 200 cigarettes a week. (Wine and/or spirits) 760 cc's per crew member per week.

IDENTIFICATION CARDS: Not required.

CONSULS: No consulates. But most countries have embassies in Tokyo.

REPAIRS: All grades of repairs available.

DRY DOCKS: Largest dry dock: length 180 m.; width 24 m.; depth, 7·27 m. Capable of accommodating vessel of 16,750 gross tons.

Also one other dry dock for ocean-going vessels.

REPATRIATION: All facilities. Crew accommodation:

(1) Tokyo Seamen's Club, 1–4–9 Kaigan, Minato-ku, Tokyo, Tel. (433) 5688.

(2) Tokyo Shibaura Seamen's Home, 1–11–8, Shibaura, Minato-ku, Tokyo. Tel. (451) 3249.

(3) Kaiko-ryo, c/o Tokyo Central Wholesale Market, 5–2–1, Tsukiji, Chuo-ku, Tokyo. Tel. (541) 0934.

AIRPORT: Distance to Tokyo International Airport, approx, 18 km.

TIME: GMT plus 9 hours. Permanent.

HOLIDAYS: National Holidays: New Year Holidays (Dec. 31st-Jan. 3rd); New Year's Day (Jan 1st.); Adult Day (Jan. 15th.); Foundation Day (Feb. 11th.); Vernal Equinox Day (around Mar. 21st.); Emperor's Birthday (Apr. 29th.); Constitution Commemoration Day (May 3rd.); Children's Day (May 5th.); Respect-for-Age Day (Sept. 15th.); Autumnal Equinox Day (around Sept. 23rd.); Tokyo Festival (Oct. 1st.); Physical Education Day (Oct. 10th.); Culture Day (Nov. 3rd.); Labour Thanksgiving Day (Nov. 23rd.).

No cargo work on 1st or 3rd Sundays of each month, and no work from 31st December to 3rd January inclusive. Cargo work can be arranged on all other days including National Holidays.

POLICE/AMBULANCE/FIRE: Tokyo Water Police, 1–11–12, Kaigan, Minato-ku, Tokyo. Tel. (433) 2411. Call Fire Stations for ambulances. Tokyo Water Fire Station, 5–1–23, Kachidoki, Chuo-ku, Tokyo. Tel. (531) 3121–3.

TELEPHONES: (also see "VHF")

Installed on ships moored at piers or jetties to allow telephone communications between ships and subscriber telephones on land and between ships. Charges for the device: Y700 for one telephone. Call charges: Y500 a day for base charge and Y7 per local call.

SERVICES: Two tank cleaning companies available with barges of capacity 100 tons for disposal of residues. All other usual services available.

SHORE LEAVE: Crew members allowed ashore upon ship master's request to Tokyo Immigration Office if have valid passports or seaman's pocket ledgers. In case a crew member has a criminal record or has been expelled from Japan, he will not be allowed ashore.

PORT REGULATIONS: Maintenance of order in Port of Tokyo is under the responsibility of TMSA in accordance Port Regulation Law. In case of an occurrence of disaster, TMSA and the Tokyo Water Fire Station will take charge of refuge, rescue and fire fighting.

DELAYS: Congestion in the port. Bad weather.

AUTHORITY: Bureau of Port and Harbour, Tokyo Metropolitan Government, 5, Marunouchi 3, Chiyoda-ku, Tokyo. Tel. (212) 5111.

AGENTS: Dodwell Tramp Agencies, CPO Box 297, Togin Building, 4–2, 1-chome, Marunouchi, Chiyoda-ku, Tokyo. Tel. (03) 211–2141., Telegraphic: Dodwell Tokyo. International Telex: TK 2274, TK 2602.

TOYAMA: 36.46 N. 137.13 E.

DOCUMENTS:

Ship's Register.
Last Port Clearance.
6 Crew Lists, including Passport Nos.
3 Passenger Lists.
1 Store List.
1 Declaration of Crew's Baggage, i.e. tobacco, wine/spirits, camera, wrist-watch, radio, firearms/swords, etc. (only at first port of call in Japan).

Ship's Agent will prepare Inward/Outward Declaration, 1 Cargo Manifest and Cargo Manifest in transit using specific forms. Therefore ship's Agent should be provided with necessary information about details of cargoes in advance.

PILOTAGE: Not compulsory. No telegraphic address for pilot station. but Pilot arranged through Agent whom keep advised ETA which may be sent through Niigata Radio. Pilot boards one mile off East breakwater from small tug. In event bad weather recommend remain outside port until weather clears. Pilot available day-time only.

ANCHORAGE: The harbour at the Jintsu river mouth is always calm. Covers about 125 acres, with depths of from 16½ to 33 ft. over mud and sand. Room at anchorage for at least four vessels over 5,000 gross tons. Anchoring position for ocean tankers is 36° 48′ N.; 137° 14′ E.

MAX. SIZE: Length 170 metres. Draft 9·5 metres (summer) and 9·10 metres (winter). Tidal range max. 0·45 metres. Also see "Tankers".

HEALTH: At first port of call in Japan, vessel must obtain free pratique. Quarantine Officers will attend vessel only from day-light to sunset and Captain to show all Vaccination Cards, Derating Exemption Certificate. In case vessel arrives from cholera-infected area within 10 days, Captain must advise crew and passengers health

condition to respective Quarantine Office through ship's Agent prior to arrival and close all soil pipes before entering port.
RADIO (Also see "Pilotage"): Recommended Captain communicates with Agent through Choshi Radio or Nagasaki Radio which cover all ports in Japan. If specifically West bound vessel to Choshi and North bound to Nagasaki Radio respectively.
TUGS: Usually join vessel at port entrance but can join outside harbour for large vessels. Used only when pilot aboard.
"Narita Maru" – 2,060 h.p. uses own lines free of charge.
"Nihonkai Maru" – 1,800 h.p. uses own lines free of charge.
"Raicho Maru" – uses ship's lines.
BERTHING: No specific requirements. Pilot boarding time will be notified by ship's Agent mainly by radio.
MEDICAL: No advance notice required unless urgent.
TANKERS: Maximum size: 80,000 gross and 150,000 Dead Weight, Max. Length overall 300 metres, and Safety Draft 19 metres for Sea Berth of Nihonkai Sekiyu K.K., Toyama. Two lines, diameters 16 in. Reducing pieces supplied as necessary. Discharging of Arab crude and Sumatra crude. Average discharge rates: Under 50,000 dwt – 2,000 tons/hour; above 50,000 dwt – 2,500 tons/hour.
DENSITY: 1015–1019 min./max.
FRESH WATER: Available ex-wharf at Nos. 1, 2, 3, 4 and 5 wharves; average 40 tons/hour at Y60 per ton (approx.) during day-time. Other berthing positions supplied by barge which ordered from Fushiki and is filled up at Toyama; cost Y150 per ton, plus Y3,000 transit charge of barge Fushiki/Toyama.
FUEL: All grades of bonded bunkers are stocked in Tokyo Bay, Ise Bay, Osaka Bay and Kanmon Port. At all other ports bunkers will be lightered from the nearest bunker stock ports at maximum 7 days prior notice.
FIRE PRECAUTIONS: Nihonkai Oil Co., Toyama, issue Safety Regulations to Master on arrival tanker sea-berth.
GANGWAY/DECK WATCHMEN: Not specially required unless passengers or valuable cargo aboard. Cost, day-time (0800–1700 hours), Y2,700; night-time, Y5,940.
OPENING/CLOSING HATCHES: Stevedores carry out opening and closing hatches. Cost per hour per gang depending on type of cargoes. If any time lost by ship's crewdoing this work, stevedores charge ship for waiting. Recommend request stevedores for this work unless crew can complete it before berthing.
CERTIFICATES: Ship's Register to show Customs Inspector ship's registered gross and nett tonnages. Valid Cargo Gear Certificates sometimes required by stevedores when cargo gear's maintenance appears to be poor.
CUSTOMS ALLOWANCE: Only allowed 50 cigarettes to take ashore but no spirits.
CONSULS: Nil.
REPAIRS: Minor repairs only.
DRY DOCKS: Nihonkai Juko Co. Ltd., Toyama. No. 1 dock, used for construction. No. 2 dock, ship-building capacity: length, 104 metres; width, 15 metres; depth, 1·8 metres. Size of dock: length, 112 metres; width, 14·6 metres. depth, 4 metres. Maximum building capacity, 4,000 gross tonx. No. 3 dock, ship-building capacity: length, 150 metres; width, 20·8 metres; depth, 5 metres. Size of dock: length, 168·2 metres; width, 21·88 metres; depth, 9·2 metres. Maximum building capacity, 10,750 gross tons.
AIRPORT: Toyama airport, distance about 10 kilometres. Two daily flights.
TIME: GMT plus 9 hours. Permanent.
POLICE/AMBULANCE/FIRE: Police, Toyama North Police Station, Toyama (0764) 37–7171; Ambulance, Toyama Iwase Fire Station, Toyama (0764) 37–7141 or 119; Fire, Toyama Fire Station, Toyama (0764) 37–7141.
TELEPHONES: No facilities for placing on board.
SHORE LEAVE: Local Immigration Offices issue shore pass valid for only 3 days, but 3 days extension possible if ship stays longer.
AUTHORITY: Toyama-Kencho, 1–7, Shinsomagatiwa, Toyama City.

AGENTS: Sub-agents of Dodwell & Co. Tokyo. Fushiki Kairiku Unso K.K., c/o Toyama Kowan Unso K.K., 82 Higashi-Iwase-cho, Toyama-shi. Telegraphic, Fushiki-kairiku Fushiki.

TSUKUMI: 33.05 N. 131.52 E.

DOCUMENTS:
Ship's Register.
Last Port Clearance.
3 Crew Lists, including Passport nos.
3 Passenger Lists.
1 Store List.
1 Declaration of Crew's Baggage, i.e. tobacco, wine/spirits, camera, wrist-watch, radio, firearms/swords, etc. (only at first port of call in Japan).
Ship's Agent will prepare Inward/Outward Declaration, 1 Cargo Manifest and Cargo Manifest in transit using specific forms. Therefore ship's Agent should be provided with necessary information about details of cargoes in advance.
PILOTAGE: Not compulsory, but recommended unless Master well acquainted with locality. Pilot embarks vessel off Shiro-Ishi lighthouse, position 33° 06′ 19″ N. 131° 56′ 29″ E., at entrance. Request for Pilot made through Agent; Master to report ETA 24 hours prior arrival.
ANCHORAGE: Good holding anchorage available; depth of water about 20 m. Loading and/or unloading of cargo usually effected alongside wharves and in event of loading/unloading at anchorage, when rough weather prevails, difficulty sometimes experienced on account of swell from open sea. Therefore suggested that vessel anchor as close to shore as possible consistent with safety.
RESTRICTIONS:
(*a*) Berthing: Night entry or berthing after nightfall, though not impractical (depending on weather) is not recommended unless special arrangements (stevedores, etc.) necessitate vessel's immediate berthing.
(*b*) Departure: Night departure allowed, weather permitting, and subject Pilot's agreement.
MAX. SIZE:

Wharf	*Length*	*Depth*	*Capacity (g/t)*
Prefectual W. (Noshima W.)	164 m.	9·5 m.	10,000×1
Onoda Cement No. 1 W.	82 m.	8·0 m.	3,500×1
Onoda Cement No. 2 W.	185 m.	8·0 m.	10,000×1
Nittetsu Pier	155 m.	10·5 m.	18,000×1
Todaka Pier	120 m.	9·0 m.	15,000×1

HEALTH: At first port of call in Japan, vessel must obtain free pratique. Quarantine Officers will attend vessel only from day-light to sunset and Captain to show all vaccination cards, Derating Exemption Certificate. In case vessel arrives from cholera-infected area within 10 days, Captain must advise crew and passengers health condition to respective Quarantine Office through ship's Agent prior to arrival and close all soil pipes before entering port.
RADIO: Recommended Captain communicates with Agents through Choshi Radio or Nagasaki Radio which cover all ports in Japan. If specifically West bound vessel to Choshi and North bound to Nagasaki Radio respectively.
TUGS: One tugboat named "Bungo" 1,600 h.p., 150 g/t.
BERTHING: No specific requirements. Pilot boarding time will be notified by ship's Agents mainly by radio.
STEVEDORES: At least 24 hours prior notice excluding Sundays and holidays required in order for Agent to arrange stevedores. Vessel must constantly keep her Agent advised of ETA. If stevedores cannot commence loading/unloading at time notified by the Agent, the orderers must pay for waiting time (Y4,400–Y7,200 per hour per gang). If cargo gears not rigged on berthing, stevedores will do same for ship's crew (Y2,200–Y3,600 per hatch). Overtime surcharges 1700–1900 hours (50% additional of basic stevedorage), 2100–0500 hours next morning (130% additional), Sundays/holidays (60% additional).
MEDICAL: No advance notice required unless urgent.
DENSITY: Average density about 1.023–1.024.
FRESH WATER: Available. On prefectual wharf and Onoda No. 2 wharf, Y110.– per ton; on Nittetsu Pier, Y130.– per ton; on anchorage, Y100,000.– per every 200 tons (approx.).
FUEL: All grades of bonded bunkers are stocked in Tokyo Bay, Ise Bay, Osaka Bay and Kanmon Port. At all other ports bunkers will be lightered from the nearest bunker stock ports at maximum 7 days prior notice.
FIRE PRECAUTIONS: By Marine Security Guards.
DEVELOPMENTS: New prefectural wharf. Now under construction. Expected to complete 1972. Length, 200 m.; depth, 15 m.; capacity 20,000 g/t×1, 3,000 g/t×1.
GANGWAY/DECK WATCHMEN: Not specially required unless passengers or valuable cargo aboard. Cost, day-time (0800–1700 hours), Y2,700; night-time, Y5,940 (approx.).
OPENING/CLOSING HATCHES: Stevedores carry out opening and closing hatches. Cost Y4,400–Y7,200 per hour per gang depending on type of cargoes. If any time lost by ship's crew doing this work, stevedores charge ship for waiting. Recommend request stevedores for this work unless crew can complete it before berthing.
CERTIFICATES: Ship's register to show Customs Inspector ship's registered gross and nett tonnages. Valid Cargo Gear Certificates sometimes required by stevedores when cargo gear's maintenance appears to be poor.
CUSTOMS ALLOWANCES: Only allowed 50 cigarettes to take ashore but no spirits.
CONSULS: Nil.
REPAIRS: Local workshop available only for minor repairs.
REPATRIATION: Possible.
AIRPORT: Oita airport; one hour from Tsukumi by train. Regular airlines: ANA, JDA, TAW.
TIME: GMT plus 9 hours. No alterations to clocks during year.
HOLIDAYS: 14th–16th August.
POLICE/AMBULANCE/FIRE: Police, 110; Ambualnce/Fire, 119.
TELEPHONES: No facilities for placing telephones on board.
SERVICES: No special services available, but if required will be arranged by Agent who calls from another port.
SHORE LEAVE: Local Immigration Offices issue shore pass valid for only 3 days, but 3 days extensions possible if ship stays longer.

AGENT: Sub-agents of Dodwell & Co. Tokyo. Azuma Shipping Co. Ltd., 344–53, Shimoaoe, Tsukumi. Tel. Tsukumi (09728) 2144. Telegraphic, Ringer Tsukumi.

TSURUGA: 35.40 N. 136.03 E.

DOCUMENTS:
Ship's Register.
Last Port Clearance.
3 Crew Lists, including Passport nos.
3 Passenger Lists.

1 Stores List.
1 Declaration of Crew's Baggage, i.e. tobacco wine/spirits, camera, wrist-watch, radio, firearms/swords, etc. (only at first port of call in Japan).

Ship's Agent will prepare Inward/Outward Declaration, 1 Cargo Manifest and Cargo Manifest in transit using specific forms. Therefore ship's Agent should be provided with necessary information about details of cargoes in advance.

PILOTAGE: Daylight hours only. Pilot arranged through Agent. Await Pilot at quarantine anchorage (see "Anchorages").

ANCHORAGES: Quarantine anchorage is best area for anchoring to avoid heavy weather (being protected from the North by mountains). Position 35° 40′ 08″ N.; 136° 02′ 55″ E.

HEALTH: At first port of call in Japan, vessel must obtain free pratique. Quarantine Officers will attend vessel only from daylight to sunset and Captain to show all vaccination cards, Derating Exemption Certificate. In case vessel arrives from cholera-infected area within 10 days, Captain must advise crew and passengers health condition to respective Quarantine. Office through ship's Agent prior to arrival and close all soil pipes before entering port.

RADIO: Recommended Captain communicates with Agent through Choshi Radio or Nagasaki Radio which covers all ports in Japan. If specifically West bound vessel to Choshi and North bound to Nagasaki Radio respectively.

TUGS: Join ship inside breakwater and use tug's line.

BERTHING: No specific requirements. Pilot boarding time will be notified by ship's Agent mainly by radio.

STEVEDORES: At least 24 hours prior notice excluding Sundays and holidays required in order for Agent to arrange stevedores. Vessel must constantly keep her Agent advised of ETA. If stevedores cannot commence loading/unloading at time notified by the Agent, the orderers must pay for waiting time (Y4,400–Y7,200 per hour per gang). If cargo gears not rigged on berthing, stevedores will do same for ship's crew (Y2,200–Y3,600 per hatch). Overtime surcharges 1700–1900 hours (50% additional of basic stevedorage), 2100–0500 hours next morning (130% additional), Sundays/holidays (60% additional).

MEDICAL: No advance notice required unless urgent.

TANKERS: No facilities for big tankers.

DENSITY: Average density through year 1.023.

FRESH WATER: Available. Rate Y65.00 per ton from wharf; Y125.00 inside breakwater; Y245 outside breakwater by barge.

FUEL: All grades of bonded bunkers are stocked in Tokyo Bay, Ise Bay, Osaka Bay, and Kanmon Port. At all other ports bunkers will be lightered from the nearest bunker stock ports at maximum 7 days prior notice.

DEVELOPMENT: By 1972 one new berth will be constructed, 12 m. depth, 185 m. length, able accommodate 20,000 dwt.

GANGWAY/DECK WATCHMEN: Not specially required unless passengers or valuable cargo on board. Cost, day-time (0800–1700 hours), Y2,700; night-time Y5,940.

OPENING/CLOSING HATCHES: Stevedores carry out opening and closing hatches. Cost Y4,400–Y7,200 per hour per gang depending on type of cargoes. If any time lost by ship's crew doing this work, stevedores charge ship for waiting. Recommend request stevedores for this work unless crew can complete it before berthing.

CERTIFICATES: Ship's Register to show Customs Inspectors ship's registered gross and nett tonnages. Valid Cargo Gear Certificates sometimes required by stevedores when cargo gear's maintenance appears to be poor.

CUSTOMS ALLOWANCES: Only allowed 50 cigarettes to take ashore but no spirits.

CONSULS: None.

REPAIRS: Minor repairs only.

AIRPORT: Distant one hour by train. Two flights daily to Tokyo.

TIME: GMT plus 9 hours. Permanent.

POLICE/AMBULANCE/FIRE: Police, 2–4000; Ambulance and Fire, 119.

TELEPHONES: Not available for placing on board.

SHORE LEAVE: Local Immigration offices issue shore pass valid for only 3 days, but 3 days extension possible if ship stays longer.

SERVICES: Hold cleaning.

AUTHORITY: Fukui Kencho, 17–1, Ohte 3, Fukui City.

AGENT: Sub-agents of Dodwell & Co., Tokyo. Tsuruga Kairiku K.K., 2–10, Sakura-cho, Tsuruga. Tel. (07702) 2–3111. Cables, "Kairiku".

UBE: 33.56 N. 131.15 E.

DOCUMENTS:
Ship's Register.
Last Port Clearance.
3 Crew Lists, including passport numbers.
3 Passenger Lists.
1 Store List.
1 Declaration of Crew's Baggage, i.e. tobacco, wine/spirits, camera, wrist-watch, radio firearms/swords, etc. (only at first port of call in Japan).

Ship's Agent will prepare Inward/Outward Declaration, 1 Cargo Manifest and Cargo Manifest in transit using specific forms. Therefore ship's Agents should be provided with necessary information about details of cargoes in advance.

PILOTAGE: Not compulsory but recommended unless Master well acquainted with area. No harbour Pilot stationed at Ube but inland sea pilot will attend.

Inland sea pilotage should preferably be arranged through Agent by cable via Nagasaki Radio giving 72 hours notice. Urgent correction of ETA outside business hours should be cabled direct to pilot station. Inland sea Pilot Association covers all inland sea ports. Pilotage not compulsory but recommended in view of great number of islands causing navigational hazards. Pilots obtained from one of three pilot stations dependent upon vessel's last port of departure and at Master's discretion. Pilotage available throughout 24 hours and 72 hours advance notice preferred, thereafter advising any alterations. Most inland sea Pilots also act as harbour Pilots up to berth or anchorage at destination. *Note:* No VHF communication available with inland sea pilot stations.

1. Wadmisaki, at entrance to Kobe (vessels transitting Kii Straits). Position 34° 38′ N. 135° 11′ E. Telegraphic address "Anjin Kobe".

2. Sekisaki, 3 miles South of Sekisaki lighthouse. (Vessels transitting Bungo Channel). Position 33° 13′ N. 131° 54′ E. Telegraphic address "Anjin Saganoseki". In event bad weather, recommended vessels proceed for shelter as near as possible having due regard to safety, to Sekisaki pilot station.

3. Hesaki, at East side of Kanmon (Shimoneseki) Straits. Position 33° 56′ 24″ N. 131° 03′ 12″ E.

ANCHORAGE: Sea bottom is mud.

	Depth	
	4–7·5 m.	*7·5–10 m.*
Sheltered	73,000	233,100 sq. m.
Unsheltered	12,175,500	680,000

RESTRICTIONS:
(*a*) Outer harbour: No restriction.
(*b*) Inner harbour: Berthing/unberthing is practicable only during daytime.
(*c*) Deep draft vessels may berth at high water only.

MAX. SIZE: See "Berthing".

HEALTH: At first port of call in Japan, vessel must obtain free pratique. Quarantine officers will attend vessel only from daylight to sunset and Captain to show all Vaccination Cards, Derating Exemption Certificate. In case vessel arrives from cholera infected area whithin 10 days, Captain must advise crew and passengers health condition to respective Quarantine Office through ship's Agents prior to arrival and close all soil pipes before entering port.

RADIO: Recommended Captain communicates with Agents through Choshi Radio or Nagasaki Radio which cover all ports in Japan. If specifically West-bound vessel to Choshi and North-bound to Nagasaki Radio respectively.

TUGS: "Naruto Maru" 2,800 h.p. stationed at Ube. Other tugs available from Moji or Tokuyama. Tug's lines used at no extra charge.

BERTHING: No specific requirements. Pilot boarding time will be notified by ship's Agents mainly by radio.

Wharf	*Length*	*Depth*	*Capacity (G/T)*
Ube Cement 7 M wharf	247 m.	7 m.	8,000×1

Central Glass wharf	162	9	15,000×1

Buoys: None.

New Wharf for Limestone

Name of wharf: Okinoyama Limestone Wharf (Ube Kosen No. 5 Wharf). Length of wharf 165m. Maximum safe draft 11·00 m. Maximum D/W tonnage 30,000 tons. Fairway 300 m. wide, 2·25 m. long, 8·80 m. deep, with shallow spot 8·40 m. at low water. Accessible max. draft 10·50 m. Facilities Loaders×2; 1,500 tons per unit/hour. Entry and Departure Berthing/unberthing is practicable only during daytime. Deep draft vessel may unberth at high tide only.

STEVEDORES: At least 24 hours prior notice excluding Sundays and holidays required in order for Agent to arrange stevedores. Vessel must constantly keep her Agents advised of ETA. If stevedores cannot commence loading/unloading at time notified by the Agents, the orderers must pay for waiting time Y4,400–Y7,200 per hour per gang). If cargo gears not rigged on berthing, stevedores will do same for ship's crew (Y2,200–Y3,600 per hatch). Overtime surcharges 1700–1900 hours (50% additional of basic stevedorage), 2100–0500 hours next morning (130% additional), Sundays/holidays (60% additional).

MEDICAL: No advance notice required unless urgent.

TANKERS: Seibu Sekiyu Co. Refinery.
(*a*) Geographical Location: 33° 49′ 48″ North. 131° 13′ East. 163 degrees. 11,400 metres from Motoyama Misaki.
(*b*) Entry Permission: Sea berth located outside harbour limit of Ube port and treated as a closed port. Vessels therefore required to obtain special permission for entry from Customs at any open port prior to arrival.
(*c*) Restrictions: Max. 200,000 dwt. Max. safe draft 19 metres.
(*d*) Diameter/No. of shore pipes: Float-sink hose: 16 in×2 lines connecting to manifold; sub-marine hose: 20 in×2 lines; sub-marine pipe-line: 48 in.×1 line.
(*e*) Discharging Rate: 10,000 K.L per hour.

DENSITY: 1025.

FRESH WATER: (*a*) Water barges available from Moji and supply about 50 tons per hour, rate Y450 per ton (minimum charge 100 tons). (*b*) Water from wharf supply at Central Glass Ube Cement and Ube Chisso wharves at rate of Y90 – 1700–0800 – Y100 per ton.

FUEL: All grades of bonded bunkers are stocked in Tokyo Bay, Ise Bay, Osaka Bay and Kanmon Port. At all other ports bunkers will be lightered from the nearest bunker stock ports at maximum 7 days prior notice.

GANGWAY/DECK WATCHMEN: Not specially required unless

passengers or valuable cargo on board. Cost, day-time (0800–1700 hours) Y2,700; Night-time Y5,940 (approx.).
OPENING/CLOSING HATCHES: Stevedores carry out opening and closing hatches. Cost Y4,400–Y7,200 per hour per gang depending on type of cargoes. If any time lost by ship's crew doing this work, stevedores charge ship for waiting. Recommend request stevedores for this work unless crew can complete it before berthing.
CERTIFICATES: Ship's register to show Customs Inspector ship's registered gross and nett tonnages. Valid Cargo Gear Certificates sometimes required by stevedores when cargo gears maintenance appears to be poor.
CUSTOMS ALLOWANCES: Only allowed 50 cigarettes to take ashore but no spirits.
CONSULS: None.
REPAIRS: Sasebo Heavy Industries Co., Ltd., Moji; Kitakyushu Iron Works, Tobata; Ube Dockyard Co., Ltd.
DRY DOCKS: None.
AIRPORT: 30 mins. by road.
TIME: GMT plus 9 hours. Permanent.
POLICE/AMBULANCE/FIRE: Police 110; Ambulance/Fire 119.
SHORE LEAVE: Local Immigration Offices issue shore pass valid for only 3 days, but 3 days extensions possible if ship stays longer.
SERVICES: All services available.
AUTHORITY: Yamaguchi-Kencho 1–1, Takimachi Yamaguchi City.

AGENTS: Sub-agents of Dodwell & Co. Ltd., Tokyo.
Tankers: Uyeno Unyo Shokai, Yamaguchi Branch Office, Oaza Nishioki, Onada City, Yamaguchi Pref. Cable address: Uyenoshell Ube, Domestic Telex: 6845–42, Tel. Ube (08368) 8–1171.
Dry Cargo Vessels: Nippon Express Co. Ltd., 5–12, 3-chome, Chuo-machi, Ube City, Yamaguchi Pref. Cable address: Nexco Ube. Tel. Ube (08362) 2–5135.

3. Hesaki, at East side of Kanmon (Shimoneseki) Straits. Position 33° 56′ 24″ N.; 131° 03′ 12″ E.

ANCHORAGES: No. 5 section, Wakamatsu. Depth 9–11 m. Capacity (g/t), 15,000×2. Also quarantine anchorage.

RESTRICTIONS: Easterly winds prevail in warm season, dense fog prevails sometimes in spring and winter, but generally clears in a few hours in the morning. Tidal range about 1½ metres and current in leading channel about 1½–2½ knots, but no current in port. Due to narrow channel leading to main harbour and shallow water at entrance of channel, length and draft of vessels are generally limited as follows:

Buoy: Ship's length overall, 165 metres; draft, 8·5 metres; gross tons, 11,000 tons.

Fairway leading into main harbour about 200 metres wide and 2 miles long, running parallel to a breakwater and reclaimed land. In this channel, as in main harbour and fairway, vessels observe only one-way traffic and on an outgoing signal from the shore, wait outside for outgoing vessel until channel is cleared. Vessels with draft of more than 7 metres can enter/depart only at high tide. Entry permitted only from sunrise and vessel to be berthed before sunset. Night departure prohibited.

MAX. SIZE:

Buoy	*Ship's LOA*	*Draft*	*Capacity*
	m.	m.	
"B"	165	8·5	11,000×1
"C"	165	8·4	11,000×1
"E"	160	8·1	10,000×1
"N"	147	6·7	7,000×1
"O"	147	7·3	5,000×1
"L"	165	8·5	10,000×1

HEALTH: At first port of call in Japan, vessel must obtain free pratique. Quarantine Officers will attend vessel only from daylight to sunset and Captain to show all vaccination cards, Derating Exemption Certificate. In case vessel arrives from cholera-infected area within 10 days, Captain must advise crew and passengers health condition to respective Quarantine Office through ship's Agent prior to arrival and close all soil pipes before entering port.

RADIO: Recommended Captain communicates with Agent through Choshi Radio or Nagasaki Radio which cover all ports in Japan. If specifically West bound vessel to Choshi and North bound to Nagasaki Radio respectively.

TUGS: Two tugs join vessel under Wakato bridge at corner of fairway leading to main harbour.

BERTHING: No specific requirements. Pilot boarding time will be notified by ship's Agent mainly by radio.

BRIDGES: Wakato bridge. Height of mast limited to 38 metres for passing under bridge.

STEVEDORES: At least 24 hours prior notice excluding Sundays and holidays required in order for Agent to arrange stevedores. Vessel must constantly keep her Agent advised of ETA. If stevedores cannot commence loading/unloading at time notified by the Agent, the orderers must pay for waiting time (Y4,400–Y7,200 per hour per gang). If cargo gears not rigged on berthing, stevedores will do same for ship's crew (Y2,200–Y3,600 per hatch). Overtime surcharges 1700–1900 hours (50% additional of basic stevedorage), 2100–0500 hours next morning (130% additional), Sundays/holidays (60% additional).

MEDICAL: No advance notice required unless urgent.

TANKERS: No tanker berths.

DENSITY: Average density in port about 1.019–1.021 in summer season; 1.025/1.026 in winter season.

FRESH WATER: Available. Rate of delivery: 50–60 tons per hr. ex-barge. Cost per ton is Y173 at buoy, Y230 at No. 5 section. Overtime charge: (0500–0800) (1700–2200), 50% add.; (2200–0500), 100% add.; Bad weather, 50% add.; Sundays and holidays, 50% add.; minimum quantity at buoy, 10 tons; minimum quantity at No. 5 sec., 30 tons.

FUEL: All grades of bonded bunkers are stocked in Tokyo Bay, Ise Bay, Osaka Bay and Kanmon Port. At all other ports bunkers will be lightered from the nearest bunker stock ports at maximum 7 days prior notice.

FIRE PRECAUTIONS: No tanker berth. Each tugboat is equipped with fire extinguisher system for attending emergency case at request.

DEVELOPMENTS: Land reclamation N.E. Wakamatsu for discharge wharves (coal/iron ore). Depth to be 12 metres. Completion 1972.

GANGWAY/DECK WATCHMEN: Not specially required unless passengers or valuable cargo on board. Cost, day-time (0800–1700 hours), Y2,700; night-time, Y5,940 (approx.).

OPENING/CLOSING HATCHES: Stevedores carry out opening and closing hatches. Cost Y4,400–Y7,200 per hour per gang depending on type of cargoes. If any time lost by ship's crew doing this work, stevedores charge ship for waiting. Recommend request stevedores for this work unless crew can complete it before berthing.

CERTIFICATES: Ship's Register to show Customs Inspector ship's registered gross and nett tonnages. Valid Cargo Gear Certificates sometimes required by stevedores when cargo gears maintenance appears to be poor.

CUSTOMS ALLOWANCES: Only allowed 50 cigarettes to take ashore but no spirits.

CONSULS: See "Tawata".

REPAIRS: All grades deck and engine repairs afloat.

DRY DOCKS: None.

AIRPORT: See "Tawata".

TIME: GMT plus 9 hours. Permanent.

Ship's Register.
Last Port Clearance.
3 Crew Lists, including passport nos.
3 Passenger Lists.
1 Store List.
1 Declaration of Crew's Baggage, i.e. tobacco, wine/spirits, camera, wrist-watch, radio, firearms/swords, etc. (only at first port of call in Japan).

Ship's Agent will prepare Inward/Outward Declaration, 1 Cargo Manifest and Cargo Manifest in transit using specific forms. Therefore ship's Agent should be provided with necessary information about details of cargoes in advance.

PILOTAGE: *Harbour pilotage:* Compulsory for entry and departure, but not when passing through straits. Pilots embark East-bound vessels at Mutsure quarantine anchorage (see "Moji"), West-bound vessels at Hesaki quarantine anchorage (see "Moji"). Two Pilots embark vessels exceeding 20,000 gross tons, charging 180% pilotage.
Sea pilotage: Vessel approaching from East obtain Pilot by radio request made at least 24 hours in advance. Pilot embarks 3 miles South from Sekisaki lighthouse; 33° 13′ N.; 131° 54′ E.

Pilots should be kept closely advised of accurate ETA pilot station. If any changes, Masters requested radio immediately to pilot offices direct or through Agent reporting revised ETA. Cable addresses of pilot offices: Harbour Pilot, "Kanmonpilot Moji". Inland Sea Pilot, "Anjin Moji". Require 24 hours notice of ETA, but can attend with 2–3 hours notice in emergency cases.

ANCHORAGES: No anchorage at Yawata, but quarantine anchorage used in essential cases. See "Quarantine".

RESTRICTIONS:
(*a*) Because of narrow channel leading to Yawata and shallow water at entrance of channel, length and draft of vessel limited, except for berthing at Nishi-Yawata wharf, where 20,000 gross tonnage with 200 metres length overall and 8·3 metres draft may be accommodated. Limits:

	Wharf	*Buoy*
Length (overall)	166 m.	155 m.
Draft	8·5 m.	8·5 m.
Gross tonnage	10,000 tons	10,000 tons

Vessel slightly exceeding above may be berthed at the Pilot's discretion, subject weather conditions and efficiency of engine, steering, etc.
(*b*) Fairway leading into main harbour about 200 metres wide and 2 miles long, running parallel to breakwater and reclaimed land. In this channel, as in main harbour and fairway to Yawata, vessels observe one-way traffic and, on a "not-clear" signal from shore, wait outside for outgoing vessels to clear channel. Vessels with draft of more than 7 metres can enter/depart only at high tide.
(*c*) Entry permitted only from sunrise and vessels to be berthed before sunset. Night departure prohibited.
(*d*) Wakato Suspension bridge crosses channel between Tobata and Wakamatsu. Height of bridge from water line at fairway 42·675 metres at spring high tide; height of mast of vessels passing under bridge limited to 38 metres.
(*e*) Easterly winds prevail in warm season. North-westerly winds in winter. Dense fog sometimes in spring and winter, but generally clear in morning. Tidal range about 1·2 metres. Tidal current in channel about 1½ to 2½ knots, but no current in port.
(*f*) Port privately owned and controlled by Nippon Steel Corp.

HEALTH: At first port of call in Japan, vessel must obtain free pratique. Quarantine Officers will attend vessel only from daylight to sunset and Captain to show all vaccination cards, Derating Exemption Certificate. In case vessel arrives from cholera-infected area within 10 days, Captain must advise crew and passengers health condition to respective Quarantine Office through ship's Agent prior to arrival and close all soil pipes before entering port.

QUARANTINE:
(*a*) Quarantine station at Western entrance: Half-mile East of Mutsure lighthouse 33° 58′ 15″ N., 130° 53′ 43″ E.
(*b*) Quarantine station at Eastern entrance: 125 degrees, 1,500 metres from Hesaki lighthouse 33° 56′ 24″ N., 131° 30′ 12″ E.
(*c*) Quarantine inspection not allowed inside port except when weather or other special reasons prevent quarantine boat from approaching ship at anchorage.
(*d*) Quarantine service is rendered from sunrise to one hour before sunset.
(*e*) "Q" flag should be hoisted until ship in free pratique.
(*f*) Vessels exceeding 20,000 gross tonnage may undergo quarantine on application when they berth inside port.
(*g*) When ship arrives from plague-infected or suspected area within 10 days after she left such place, 24 hours special quarantine required. All sanitary scuppers must be closed and garbage must not be thrown overboard after ship reaches 60 miles off Japanese coast.

RADIO: Recommended Captain communicates with Agent through Choshi Radio or Nagasaki Radio which cover all ports in Japan. If specifically West bound vessel to Choshi and North bound to Nagasaki Radio respectively.

TUGS: Two tugs join vessel at corner of fairway leading into main harbour. Ship's lines used when vessel berths.

BERTHING: No specific requirements. Pilot boarding time will be notified by ship's Agent mainly by radio.

BRIDGE: See "Restrictions".

STEVEDORES: At least 24 hours prior notice excluding Sundays and holidays required in order for Agent to arrange stevedores. Vessel must constantly keep her Agent advised of ETA. If stevedores cannot commence loading/unloading at time notified by the Agent, the orderers must pay for waiting time (Y4,400–Y7,200 per hour per gang). If cargo gears not rigged on berthing, stevedores will do same for ship's crew (Y2,200–Y3,600 per hatch). Overtime surcharges 1700–1900 hours (50% additional of basic stevedorage), 2100–0500 hours next morning (130% additional), Sundays/holidays (60% additional).

VHF: Vessel can keep in direct contact with port authorities in regard to arrival, berthing instruction, etc. through VHF, details as follows:

	Kitakyushu (Moji)	*Shimonoseki*
(*a*) Call sign:	"Kitakyushu port radio"	"Shimonoseki port radio"
(*b*) Location of radio facilities:	The transmitting and receiving station located at top of Mt. Hinoyama, Shimonoseki, for the above both radio.	
(*c*) Type of wave:		
Channel: Simplex	16 (Calling, responding)	16 (Calling, responding)
,,	12 (Communication)	12 (Communication)
,,	14 (,,)	14 (,,)
Duplex	20 (,,)	20 (,,)
Outport:	50 W.	50 W.
(*d*) Operating hours:	0600–2000 hrs.	
(*e*) Communicating range:	Within a radius of 50 miles from the station.	
(*f*) Communicating language:	English and Japanese.	

MEDICAL: No advance notice required unless urgent.

TANKERS: No tanker berth.

DENSITY: Average density in port about 1.020–1.022 in summer season, 1.024–1.025 in winter season.

FRESH WATER: At buoys: Water barges available from Wakamatsu, rate of delivery about 50 tons per hour; cost per ton Y173. At wharves: (Nos. 16, 17, 18, 19, 20 and Nishi-Yawata wharf.) From hydrants: 25–40 tons per hour, cost per ton Y113. For supply at Nishi-Yawata wharf, one day prior notice required. Overtime charge: (0500–0800) (1700–2200), 50% add.; (2200–0500), 100% add.; bad weather 50% add.; Sundays and holidays, 50% add.. Minimum quantity at Yawata, 10 tons. Minimum quantity at Mutsure anchorage, 50 tons.

FUEL: All grades of bonded bunkers are stocked in Tokyo Bay, Ise Bay, Osaka Bay and Kanmon Port. At all other ports bunkers will be lightered from the nearest bunker stock ports at maximum 7 days prior notice.

FIRE PRECAUTIONS: No tanker berth. Each tugboat is equipped with fire extinguisher system for attending emergency cases.

DEVELOPMENTS: All the present discharging berths (wharves) for coal, ore (including Nishi-Yawata scrap wharf) will be converted to loading berths as from April 1972.

GANGWAY/DECK WATCHMEN: Not specially required unless passengers or valuable cargo aboard. Cost, day-time (0800–1700 hours), Y2,700; night-time, Y5,940 (approx.).

OPENING/CLOSING HATCHES: Stevedores carry out opening and closing hatches. Cost Y4,400–Y7,200 per hour per gang depending on type of cargoes. If any time lost by ship's crew doing this work, stevedores charge ship for waiting. Recommend request stevedores for this work unless crew can complete it before berthing.

CERTIFICATES: Ship's Register to show Customs Inspector ship's registered gross and nett tonnages. Valid Cargo Gear Certificates sometimes required by stevedores when cargo gears maintenance appears to be poor.

CUSTOMS ALLOWANCES: Only allowed 50 cigarettes to take ashore but no spirits.

CONSULS: British Consul, who is also acting Swedish Consul, is stationed with Holme Ringer, Moji (tel. 093–33–1311). American Consul stationed at Fukuoka (tel. 092–75–9331). Korean Consul stationed at Fukuoka (tel. 092–77–0461).

REPAIRS: All types of deck and engine repairs possible.

DRY DOCKS: No dry dock available.

REPATRIATION: Possible.

AIRPORT: Fukuoka airport; approx. 70 kilometres.

(*a*) International line:
JAL, for Pusan (Tuesday and Thursday);
for Taipei–Hongkong (Monday and Thursday).
CPA, for Taipei–Hong Kong (Wednesday and Saturday).
KAL, for Pusan-Seoul (Mon., Tues., Wed., Fri., and Sat.).

(*b*) Domestic line:
JAL and ANA, regular service.

Kitakyushu airport; approx. 20 kilometres. Flights often suspended by heavy rain and fog.

(*c*) Domestic line:
ANA, regular service.

TIME: GMT plus 9. No alterations made to clocks during year.

POLICE/AMBULANCE/FIRE: Yawata Police Station, tel. 093–67–6631; Wakamatsu Water Police, Yawata Port branch, tel. 093–67–0611; Ambulance/Fire, Yawata Fire Department, tel. 093–67–4831.

TELEPHONES: Nippon Senpaku Tsushin K.K. available at Moji (tel. 093–33–1089). Approx. cost of installation/dismantle (except Nishi-Yawata) is Y10,000.– to Y15,000.– plus daily rent. In case of Mutsure anchorage, extra boat charge and personnel expenses will be incurred. Due to insufficient number of telephones require adequate advance notice for installation. Suitable ship's electrical voltage; DC–22/28 v. AC–100 v. 110 v. 120 v. (to keep at least within 10 v.).

GENERAL: Whenever vessel takes bunkers in port, advisable to close deck scuppers' holes before pumping in order to avoid overflow oil into sea.

SERVICES: Tank cleaning, sand blasting (Fuji Co., Tobata), chemical cleaning (Fuji Co., Tobata). Hold cleaning (Tsuyama Kosan K.K., Yawata; Fuji Co., Tobata). Compass adjusting (Kajiwara Koki, Shimonoseki). DF calibration (Nippon Radio Co., Tobata). Life-raft servicing and inspection (Kikutani Sengu, Shimonoseki; Marinair International, Kobe; International Marine, Kobe; Marine International; Yokohama and Tokyo); this service requires name of maker in advance. Radio and radar repairs available, but requires name of makers/type of the machine in advance. Laundry (Sunrise Cleaning, Tobata; Moji Dry Cleaning, Moji). Watchmen service available. Charts: only Japanese charts available locally; BA and HO charts can be obtained from Kobe and Yokohama respectively, with adequate notice. Grain fitting (Ushio Co., Moji; Fuji Sobi, Moji); this work is usually carried out at Moji (public port). Fumigation (Toyo Fumigation Co., Moji), this work is not permitted at Yawata but at Moji. Floating crane, capacity 200 tons (Kondo Kaiji, Wakamatsu; Nichibei Kosan). Diver (Nippon Salvage Co., Moji; Tsuyama Kosan, Wakamatsu). Salvage service (Nippon Salvage, Moji) Painting service (Fuji Co.).

SHORE LEAVE: Local Immigration Offices issue shore pass valid for only 3 days, but 3 days extension possible if ship stays longer.

AUTHORITY: Kitakyushuko Kauti-Kumiai, Nishikaigan-dori, Moji-ku, Kitakyushu City.

AGENTS: Sub-Agents of Dodwell & Co., Tokyo. Holme Ringer & Co. Ltd., c/o Yawata Works of Yawata Iron and Steel Co. Ltd., Edamitsu, Yawata-ku, Kitakyushu. Tel. Yawata (093) 67–0611. ext. 852. Telegraphic, Ringer Yawata.

YOKKAICHI: 34.58 N. 136.38 E.

DOCUMENTS: See "Yokohama".

PILOTAGE: Not compulsory; Pilot available at 34° 56′ 15″ N.; 136° 40′ 40″ E. Vessels requiring Pilot cable Agent at least a day ahead advising exact ETA pilot station. Wireless station for communicating with entering ships and for other port business, call signal JCZ. Radio wave in use is A1.A2 500 kc/s. and A1.A2 486 kc/s., output A1 50 w. and A2 110 w. Zone of communication about 100 km. Yokkaichi signal station also equipped for assigning berths to entering ships and for other port business. VHF communication available, call signal Yokkaichi Port Radio, Channel 16. Working Channel 14, hours 06.00 to 20.00 any day.

ANCHORAGE: Vessels anchor 34° 56′ 15″ N., 136° 40′ 40″ E. where authorities board and grant free pratique; maximum depth 13 m.

RESTRICTIONS: Entry restricted by vessel's draft and pratique. Maximum draft inside port 11 m. Quarantine authority attend vessel usually from 07.30 hours to 17.00 hours on any day. Berthing day-time only. Unberthing any time except tankers day-time only.

MAX. SIZE: Maximum permissible draft *inside port* 11 metres. Water depth: Berth No. 1, 29 ft.; Nos. 2, 3, 28 ft.; Nos. 4, 5, 29 ft.; No. 8, 33 ft.; No. 9, 34 ft.; No. 11, 33 ft.; No. 13, 36 ft.; No. 14, 33 ft.; No. 15, 33 ft. Showa Oil Pier: "SD", 11·5 m.; "SE", 11·4 m. Daikyo Oil Pier: "Shiohama", 12·0 m.; "Umaokoshi", 12·0 m. Mooring buoy: No. 1, 10·0 m.; No. 2, 10·0 m. Sea berth capable receive tankers up to 210,000 tons deadweight. Installations outside main port: Shoseki No. 1 sea berth (inner), depth 62 ft. Shoseki No. 2 sea berth (outer), depth 69 ft. Daikyo sea berth, depth 72 ft. No limitation on length.

HEALTH: Request for radio pratique to be addressed to agents not less than 12 hours before arrival.

TIDE: Tidal current of Ise bay runs Northward along East side of Mie Pref. and turns round at mouth of Kiso River and runs Southward for Chita peninsula.

Tidal level:		Tidal level (average)
	High tide	+7·74 ft.
	Mean tide	+4·30 ft.
	Low tide	±0·00 ft.

TUGS: Normally stand-by to assist vessel inside breakwater of entrance to fairway; tug's lines used.

TANKERS: No specific requirements before arrival; reducer can be arranged from shore side. Slop facilities available.

Diameter of discharge lines:	
sea berth No. 1	12 in.×2
sea berth No. 2	12 in.×2
Daikyo sea berth	16 in.×2
Daikyo "Shiohama"	12 in.×2
Daikyo "Umaokoshi"	10 in.×2
Showa Oil Pier "SE"	10 in.×2

For details of depths, etc., see "Max. Size".

DENSITY: Average 1.025.

FRESH WATER: Available, rate of delivery 50 tons per hour from shore pipes; 100 tons from barge; before 22.00 hours additional cost 50%; after 22.00 hours additional cost 100%.

FUEL: Most domestic and bonded oil available, ex-barge. Minimum 5 days notice required.

CONSULS: None.

REPAIRS: Minor repairs only.

AIRPORT: No airport.

POLICE/AMBULANCE/FIRE: Police, tel. 110; Ambulance/Fire, tel. 119.

TELEPHONES: Telephone can be arranged from shore connection. Cost: installation charges, Y700.–; using charges, Y500.– per day plus amounts used; for long-distance call, exact amounts costed when used.

GENERAL: Lightening: Not allowed, except a cargo of oil or chemicals.

SERVICES: Technicians for vessel's instruments can be arranged from other ports.

REGULATIONS: Under adverse weather conditions:

1. If a typhoon is reported approaching, and upon advice from refinery representative, loading or unloading operation will be suspended and vessel will leave berth to a designated area for refuge.
2. During a violent thunderstorm, cargo work will be stopped upon receiving order from refinery, and vent-line valves securely closed.
3. During stormy weather, with gusty winds condition, Master shall follow weather reports closely and shall endeavour to prevent any accidents by taking all possible precautions, such as reinforcing mooring ropes and arranging adequate emergency personnel to stand-by for any emergency.

Liability for Accidents: If accident is judged by refinery representative and port Captain to be ship's fault, either through negligence of these Safety Regulations or otherwise, Master shall immediately cease operations, if necessary, and simultaneously follow in good faith the instructions of refinery and port Captain, and take all necessary actions. Master shall inspect and verify cause of accident in the presence of refinery representative and ship's Agent, and shall be held responsible for reporting the accident, in writing, to the parties concerned. Until this is completed and full agreement reached with refinery representatives, the vessel shall not leave the jetty, unless otherwise requested. For actual confirmation of the accident, and damage liability, Public Surveyor (Messrs. Japan Marine Inspections Co. Ltd.) is fully entitled to inspect the accident.

AGENTS: Sub-Agents of Dodwell & Co. Ltd., Tokyo. Uyoen Unyu Shokai, c/o Showa Yokkaichi Sekiyu, 1 Shiohama-Cho, Yokkaichi. Tel. Yokkaichi (0593) 45–2271. Telegraphic, Uyenoshell, Yokkaichi.

YOKOHAMA (incl. Negishi and Tsurumi): 35.27 N. 139.38 E.

DOCUMENTS:
Ship's Register.
Last Port Clearance.
3 Crew Lists, including passport nos.
3 Passenger Lists.
1 Store List.
1 Declaration of Crew's Baggage, i.e. tobacco, wine/spirits, camera, wrist-watch, radio, firearms/swords, etc. (only at first port of call in Japan).

Ship's Agent will prepare Inward/Outward Declaration, 1 Cargo Manifest and Cargo Manifest in transit using specific forms. Therefore ship's Agent should be provided with necessary information about details of cargoes in advance.

PILOTAGE: As Yokohama/Kawasaki a busy port, all movements – entering, leaving port and shifting within port – regulated by Harbour Authorities, and Agent has to make application for movement one day before, also tugboat(s) arranged through Agent. If any change necessary to arrangement already made, two hours notice sufficient to make rearrangement with Pilot. If Pilot required at area off Ashika Shima L't Bn. in Tokyo Bay for passing Uraga Strait, 24 hours prior notice required for dispatching Pilot. (In rough sea Pilot cannot be obtained in that area.) No station pilot boat; Pilots use small launches and often make use of tugboat when it is employed at same time, for embarking and disembarking especially when sea rough. In either case, launch or tugboat with Pilot on board displays "H" flag or lights prescribed in International Regulations. Pilot for Yokohama/Kawasaki port picked-up off Yokohama fairway entrance buoys No. 1 and No. 2, but in case ship has to wait for berth, usually does not take Pilot and proceeds to anchorage shown on chart as "Quarantine Anchorage" or as near as safety permits, and anchors. In this case Pilot boards at anchorage. If anchor or picks-up Pilot inside harbour limit, pilotage cheaper because assessed on two stages; "From Bay to Sea" and "From Sea to Berth", but Master requested to anchor outside fairway. Vessel to provide properly approved pilot ladder.

ANCHORAGES: 12–26 m. in quarantine anchorage, and 26–34 m. in other areas. For details refer to chart published by Hydrographic Division of Japan MSA.

RESTRICTIONS: Entry or departure or movement inside port not allowed from sunset to sunrise, but ships less than 15,000 g/t without dangerous cargo can be given special permission to enter, leave port and move inside the port (only in Yokohama). In Kawasaki, which is very narrow and long, no special permission given. Depths of shallows in Yokohama, Tsurumi and Kawasaki fairways 11·6, 11·2 and 12·0 metres, and Pilot Association make these the maximum drafts accessible to the berths inside the respective fairways. Ship with max. draft of 11·6 metres, when entering Yokohama through Yokohama fairway, has to wait for tide.

MAX. SIZE: Maximum permissible size of tankers for proceeding to installations in Yokohama:

Name of Berth	*Max. g/t*	*Max. LOA*	*Max. safe draft*
Keihin Yokohama (sea berth)	No limit	No limit	23·00 m.
Shell Oil	No limit	175 m.	10·50 m.
General Sekiyu	No limit	180 m.	9·30 m.
Mobil Oil	No limit	210 m.	9·30 m.
Asia Oil No. 5	50,000	270 m.	12·00 m.
Nisseki Yokohama	No limit	250 m.	12·00 m.
Nisseki Negishi A	No limit	No limit	16·50 m.
Nisseki Negishi B	70,000	No limit	12·50 m.
New Shell	No limit	265 m.	11·70 m.

HEALTH: At first port of call in Japan, vessel must obtain free pratique. Quarantine Officers will attend vessel only from daylight to sunset and Captain to show all vaccination cards, Derating Exemption Certificate. In case vessel arrives from cholera-infected area within 10 days, Captain must advise crew and passengers health condition to respective Quarantine Office through ship's Agent prior to arrival and close all soil pipes before entering port.

RADIO: Recommended Captain communicates with Agent through Choshi Radio or Nagasaki Radio which cover all ports in Japan. If specifically West bound vessel to Choshi and North bound to Nagasaki Radio respectively.

TUGS: under control of Pilot, compulsory in Yokohama/Kawasaki for foreign ships, and normally join ships in fairway between outer breakwater and L't Hos. and Entrance L't Buoys. If ship is at anchor in quarantine area or near to it, tug(s) joins ship at anchor. Usually two tugs used for mooring and/or unmooring, but depends largely upon special conditions of berth and weather conditions. Tug's lines used and charge included in towage.

BERTHING: No specific requirements. Pilot boarding time will be notified by ship's Agent mainly by radio.

STEVEDORES: At least 24 hours prior notice excluding Sundays and holidays required in order for Agent to arrange stevedores. Vessel must constantly keep her Agent advised of ETA. If stevedores cannot commence loading/unloading at time notified by Agent, the orderers must pay for waiting time (Y4,400–Y7,200 per hour per gang). If cargo gears not rigged on berthing, stevedores will do same for ship's crew (Y2,200–Y3,600 per hatch). Overtime surcharges 1700–1900 hours (50% additional of basic stevedorage), 2100–0500 hours next morning (130% additional), Sundays/holidays (60% additional).

VHF: Call sign Yokohama Port Radio. (See details under "Kawasaki/VHF".)

MEDICAL: No advance notice required unless urgent.

TANKERS: Masters of tankers seldom requested to fit reducing pieces before arrival for connection of shore lines since oil installation have own appliances. Two slop disposal facilities, one in district No. 5 in Yokohama which is private enterprise and can dispose of dense residues, and one in District No. 1 in Kawasaki which is run by Kawasaki city and can dispose of diluted slop or oily ballast. (Also see "Max. Size" and "Developments".)

DENSITY: Average approx. 1.023.

FRESH WATER: Can be taken either at wharf ex-pipe or at buoy or anchorage by barge:

Place	*Approx. cost (basic)*	*Rate of delivery*
South Pier	Y75.– per m/t	70 tons per hour
Government Silo	Y110.– per m/t	70 tons per hour
Nippon Petroleum Refinery, Negishi	Y120.– per m/t	70 tons per hour
Buoy or anchorage	Y150.– per m/t	100 tons per hour (subject to ship's condition)

FUEL: All grades of bonded bunkers are stocked in Tokyo Bay, Ise Bay, Osaka Bay and Kanmon Port. At all other ports bunkers will be lightered from the nearest bunker stock ports at maximum 7 days prior notice.

FIRE PRECAUTIONS: Oil installations in Yokohama/Kawasaki generally do not allow bunker barge to come alongside ships moored to their berth.

DEVELOPMENTS: Sea berth in a circular area with a 500-metre radius centred at position 2,215 m. 160 degrees from Kawasaki S. breakwater light. This sea berth is of dolphin type in operation October 1970 with mooring capacity for 250,000 ton tanker.

GANGWAY/DECK WATCHMEN: Not specially required unless passengers or valuable cargo on board. Cost, day-time (0800–1700 hours), Y2,700; night-time, Y5,940.

OPENING/CLOSING HATCHES: Stevedores carry out opening and closing hatches. Cost Y4,400–Y7,200 per hour per gang depending on type of cargoes. If any time lost by ship's crew doing this work, stevedores charge ship for waiting. Recommend request stevedores for this work unless crew can complete it before berthing.

CERTIFICATES: Ship's Register to show Customs Inspector ship's registered gross and nett tonnages. Valid Cargo Gear Certificates sometimes required by stevedores when cargo gears maintenance appears to be poor.

CUSTOMS ALLOWANCES: Only allowed 50 cigarettes to take ashore but no spirits.

ANCHORAGES: At 4th District of Yokosuka Port. Depths 10–30 m.

RESTRICTIONS: The 1st, 2nd and 3rd District of Yokosuka Port under compulsory pilotage districts. No restrictions on time of entry. No tidal restrictions.

MAX. SIZE: Buoys at 2nd District for up to 20,000 g/t. Wharves for Vs. up to 15,000 g/t. No tankers. State of tide negligible.

HEALTH: Quarantine Station to be informed in advance name of last port, ship's name, tonnage, number of crew, number of passengers, ship's nationality etc. In event any suspected disease, Agent should be advised. When isolation of ship needed, it will be transferred to Nagahama Quarantine Station in Yokohama.

RADIO: No local radio station. (See "Yokohama".)

TUGS: Can be arranged through Agent. Tugs normally join vessel in 3rd District when vessel enters Nagaura, and in 7th District when it enters Kurihama. Tug's lines to be used. Charge for tug's lines included in charge for tug.

BERTHING: Agent submits application for berth to Port Authority (Nagaura and Kurihama port offices).

STEVEDORES: Agent will arrange stevedores by request latest 15.00 hours of previous day to ship's arrival.

MEDICAL: Agent can arrange doctor who understands foreign languages.

TANKERS: No berthing facility for commercial tankers. Only U.S. Naval Base, Yokosuka, has berthing facilities.

FRESH WATER: Available. Method of delivery (1) barge Y150./M3 (approx.), (2) pier Y75./M3 (approx.). Additional charge for work and in case of bad weather.

FUEL: Available ex-lighter,

DEVELOPMENTS: Plan to build new berths, expected complete 1973. 15,000 d/w×2, 5,000 d/w×1, 2,000 d/w×2.

GANGWAY/DECK WATCHMEN: Agent arranges watchmen.

OPENING/CLOSING HATCHES: Stevedores carry out this work at Day-time, Y4,400; night, Y6,100, per hatch (approx.).

CUSTOMS ALLOWANCES: Tobacco: 2 packets per day. Spirits: 1 bottle when more than one month voyage; 2 bottles when more than 6 months voyage.

CONSULS: None.

REPAIRS: Dockyards available for all repairs.

DRY DOCKS: 1 – 475×19½ ft.; 1 – 352×15¾ ft. 5 large-size slips; 1 rigging wharf.

REPATRIATION: No facilities exist. If necessity occurs, Yokohama Immigration Office will attend.

AIRPORT: 40 km. to Tokyo International Airport.

TIME: GMT plus nine hours. No alterations during year.

HOLIDAYS: Day-time cargo work on Saturday afternoon and Sunday, National holidays, and Dec. 31; Jan. 1, 2 and 3 no cargo work.

POLICE/AMBULANCE/FIRE: Police, 110; Ambulance/Fire, 119.

TELEPHONES: Agent arranges on board upon request. Cost: fixing Y1,000.–; cost per day Y1,100.

GENERAL: Port situated in city confines and main part is for use of U.S. Naval Forces.

SHORE LEAVE: Crew allowed ashore.

AUTHORITY: Yokosuka City, No. 11, Ogawa-cho, Yokosuka. Tel. 22–4000. No telex.

AGENT: Sub-Agent of Dodwell & Co., Tokyo. Sagami Unyu Kabushiki Kaisha, Taura Minato-Machi, Yokosuka. Cables: Sagami Yokosuka Taura. Tel. Yokosuka (0468) 61–3111.

Jordan

AQABA: 29.31 N. 35.01 E.

DOCUMENTS:
1 copy Freighted Manifest, stating all details.
6 copies Unfreighted Manifest.
2 copies of Unfreighted Manifest not showing shippers nor consignees but weights and measurements.
1 set of non-negotiable Bills of Lading.
All Manifests should bear the following clause: "This is to certify that the above vessel has not called and is also not scheduled to call at any Israeli ports nor is owned by any Israeli Company, also it is not included in the Black List." All the above documents are to be airmailed to the Agent's Head Office in Amman and not Aqaba.
Documents required by the authorities for free pratique:
7 copies Crew List.
7 copies Passenger List.
1 copy Stores List.
1 copy Crew Declaration List.
1 copy Vaccination List.
The following forms to be filled:
2 copies of Maritime Declaration Form.
1 Customs Declaration Form.
2 copies Vessel's Specification Form.
1 copy Pilotage Form.
The following documents to be produced for checking:
(*a*) Log Book.
(*b*) Ship's Registry Certificate.
(*c*) De-Rating Certificate.

PILOTAGE: Compulsory pilotage in that area of Aqaba Bay North of an imaginary line 270 degrees from Al-Breij point. Ships in harbour requiring a Pilot should by day hoist "G" flag below a ball or shape, one hour before ship is ready to move; and "B" flag by night with a red over white. The sound signal is four long blasts. Advance notice of the ship's requirement of pilot service should be given to the Agent who will advise the Harbour Master or his representative. It should be noted that vessels may proceed to sea from the anchorage without taking a Pilot, but for ships leaving the berths alongside, pilotage is compulsory, and the signals described above should be made.

ANCHORAGE: About ½ mile from shore in depths of 15 to 30 fathoms. Ships awaiting discharge can easily anchor in deep water anchorage which can accommodate 25 ships or more.

MAX. SIZE: Up to 20,000 deadweight. Max. draft 32 ft. Phosphate loading berth: up to 50 ft. draft.

TUGS: The tugs available at Aqaba are only for towing barges and handling ship's line during berthing but no salvage tugs are available.

RADIO: Aqaba Radio. Station call sign JYO. Watchkeeping hours GMT 0500 to 0900 and 1300 to 1700, Station has transmitting frequencies CW and R/T for: A. 2182 kc/s; B. 2612·5 kc/s; C. 4326·5 kc/s; D. 6479 kc/s; E. 8723 kc/s. Station can receive on all M/F and H/F frequencies. Station listens: 2182 kc/s A3 continuous, 500 kc/s H plus 10 to H, 6,200 to 6,300 A1 H to H plus 10. Station answers on 6479 kc/s or 2182 kc/s.

HEALTH: A ship arriving from sea should, in addition to the "G" flag for Pilot, hoist its signal letters and "Q" flag to request free pratique if it is healthy. If there are passengers to land, "I" flag should be hoisted. The port doctor boards the vessel together with a representative of the Port Dept., Customs Dept., Passport Dept., and Police. If the vessel has to anchor first, boarding the vessel takes place at anchorage. If the vessel berths alongside, then the aforementioned representatives board the vessel. Health certificates of crew and passengers are required.

BERTHING:
General Cargo Berth: Three medium-size ships or two large ships can berth alongside. The depth is 10 metres (32 ft.) at low tide.
Phosphate Loading Berth: The berth is 210 m. long and 32 ft. depth. It is situated South of the General Cargo Berth and is especially built to load phosphate. The berth is designed to accommodate ships of up to 20,000 dwt. In addition, pipes have been laid to supply petroleum to a nearby tank farm for the occasional import of some petroleum products. There are two main berthing dolphins with a loading tower in between, and mooring dolphins at each end. The loading tower is connected with a conveyor belt feeding the tower from two silos with a 20,000-ton capacity each. There is a short retractable boom and telescopic trunk which can be travelled forward up to a distance of 9 metres from the berthing face to plumb the centre of the hold of a ship. The loading capacity is 500 tons per hour. The guaranteed loading rate by the Phosphate Company is 2,000 tons per weather working day of 24 hours. Vessels should arrive at the berth with as large an amount of water ballast as possible, both to facilitate berthing (as there is no tug) and to reduce the height from water-line to hatch coaming. This height should not exceed 30 ft.
Bulk Export Berth 'B': Is 180 metres long with 15,5 metres (50 feet) depth of water at low water spring tides and is designed for berthing and loading 100,000 DWT bulk carriers. The travelling ship-loader has a capacity of 1,500 tons of phosphate per hour and provision is made in the design for the installation in the future of a second similar shiploader to give a total loading capacity of 3,000 tons per hour. Phosphate for loading into ship is weighed on a continuous recording belt weigher (accuracy +0.5% between 25% and 150% of rated capacity) and is loaded through a telescopic pivoting feed chute. Clearance above high water level is 18 metres.
Lighters Wharf: The Lighters wharf has a length of 215 m. and a

width of 10 m. and a depth of about 9 ft. About 10 lighters can be discharged alongside.

STEVEDORES: Stevedoring Company's working hours are from 0800–1600. Work has to start at 0700 and end at 1600; therefore, there are 2 compulsory overtime hours in the morning, from 0600 to 0800 and one hour in the afternoon, i.e. from 1600 to 1700.

Ships Working Hours: Ships can work round the clock, depending on Captains' option and the number of ships available in port. Opening hatch of a ship is allowed up to 2200 hours and subject to Port Authority agreement. Friday is the official weekly holiday, however, work is carried on, on the ships.

TANKERS: Berth in daylight hours only.

MEDICAL: The Health Section of Aqaba Port Department gives all medical services required and responds to any urgent call by radio before arrival. A government hospital is available and is satisfactorily staffed by doctors. A doctor may be called on board at any time day or night, to attend to sick crew or passengers by arrangement with the Agent.

FRESH WATER: Can be supplied to ships berthed alongside.

FUEL: Bunkering is inadvisable. In case of necessity, fuel oil can be transported from the refinery in Zerka by tank lorries with a capacity of 12 tons each at a cost of J.D. 10 per ton. A 3 day's notice must be given in order to arrange transport.

GANGWAY/DECK WATCHMEN: Customs provide a guard who has to be given full board and lodging. Ships are also supplied by local watchmen through Agents.

HOLIDAYS: *Shawal 1, Eid El Fitr (January 12th); Arbor Day (January 15th); Arab Summit Conference Day (January 17th); Coronation of H.M. King Faisal (March 8th); *Thil-Hijja 10, Eid El Adha (March 21st); Arab League Day (March 22nd); *Moharram 1, Islamic New Year (April 10th); Independence Day (National Day) (May 25th); *Rawbi El Awal 12, Prophet's Birthday (June 19th); H.M.'s Accession to the Throne (August 11th); Birthday of Crown Prince Hassan (September 5th); *Rajab 27, Al-Mi'raj Al-Sharif (October 30th); Birthday of H.M. The King (November 14th); Arab Renaissance Day (November 22nd). *Dates fluctuate due months being lunar months.

CONSULS: No consul or vice-consul available at Aqaba. All Consular Offices in Amman, the Capital.

TIME: GMT plus two hours.

REPAIRS: A shipyard has been established to build fishing boats and trawlers, barges, tugboats and undertake minor repairs. Welding can also be carried out.

DRY DOCKS: No dry docks are available at Aqaba.

AIRPORT: From Aqaba Air communication: Alia (The Royal Jordanian Airlines (Fokker) to Amman twice weekly. Distance to Amman International Airport, 355 kms.

GENERAL: Masters are warned that during the winter months strong Southerly gales can develop within two hours followed by swell. In such case it may be necessary to unberth the vessel, and it should be noted that there is no tug available for this operation. Vessels in the anchorage in such weather conditions should not hesitate to weigh anchor if there is a possibility of dragging, and proceed out of the bay until the weather moderates.

AUTHORITY: Aqaba Port Department, Ministry of Transport, Ports, Railways and Airports in Amman.

AGENT: *Head Office:* Amin Kawar & Sons, POB 222, Phone 22324 (6 lines). Telex: 1212. Amman – Jordan.

Port Office: Amin Kawar & Sons, POB 22. Phone: 83. Telex: 0220 Aqaba – Jordan. (All correspondence to be addressed to Head Office at Amman).

Kenya

MOMBASA: 04.04. S. 39.40 E.

DOCUMENTS:

Health Certificates: forms obtainable from Pilot.
6 Crew Lists.
10 Passenger Lists.
Dangerous Cargo Lists.
Ship's Register.

PILOTAGE: ETA through ships' agents, 48 hours' notice. VHF Channel 12 (Mombasa Radio VHF Ch. 16) Pilot boat 72 ft. ex-Admiralty launch, white. No signals for Pilot – call on VHF 12 (Mombasa Pilots) or by signal lamp to lighthouse. Pilot boat position one mile outside turning buoy on Ras Serani leads (301°) except for deep-load tankers (over 35 ft.) when pilot boat position one mile from turning buoy on Mackenzie leads (327°). No special bad weather regulations. Pilot ladder 6 ft. from water – must have man-ropes – light at night.

ANCHORAGES: No safe outer anchorage.

RESTRICTIONS: No tidal restrictions. Entry for dangerous cargo restricted to daylight. Entry for tankers over 650 ft. restricted to daylight.

MAX. SIZE: Length 820 ft. Draft 40 ft.

HEALTH: Radio Port Health Officer, Mombasa, giving last port of departure, ETA Mombasa, condition of crew, any sickness on board, passengers. Must have Q Flag until doctor visits vessel or until Pilot passes information to lower flag.

RADIO: Mombasa Radio Coast Station M/F, H/F, W/T & R/T and VHF R/T Services:

Station 5ZF (W/T) 500–524 kc/s.; traffic list 0100, 0500, 0900, 1300, 1700, 2100; Continuous watch; listening freqs. 500 kc/s.

Mombasa Radio also provides continuous R/T service on VHF for the benefit of ships in and around Mombasa within radius of 30 miles. Channel 16 for calling and Channels 26 and 27 for working. All times in GMT.

TUGS: Tugs join vessel inside harbour between Ferry and Kilindini reef. Tug lines no additional charge.

BERTHING: All berths fendered. Nos. 89 and 10 and Shimanzi Oil Terminal berths, no berthing on ebb tide, with range of 6 ft. or more. Kipevu Oil Terminal berthing on first of ebb with tankers over 650 ft.

STEVEDORES: ETA preferably 48 hours in advance in order to arrange gangs. Advisable notify Harbour Master ETA and also give quantity of cargo to be loaded and/or discharged and other matters of importance.

MEDICAL: In emergencies necessary to receive advance notice. Hospital facilities available. Inoculations required – smallpox (compulsory), yellow fever (endemic zones in Africa and South America), cholera (all ships from Asia).

TANKERS: Discharge and load white oils at Shimanzi. Discharge and load Heavy oils at Kipevu.

Shimanzi Oil Terminal: T-head jetty with 200 ft. long berthing head. Depth alongside 32 ft. L.W.O.S.T. Bunkers and fresh water available. Slop reception facilities for up to 6,000 tons.

Kipevu Oil Terminal: T-head jetty with 225 ft. long berthing head. Tankers up to 65,000 dwt. berth at dolphins alongside jetty head; depth alongside 44 ft. L.W.O.S.T. Max. Length 820 ft. Max. draft 40 ft.

DENSITY: 1025.

FRESH WATER: Available at all berths in stream ex-tug at Harbour Master's discretion. 30 tons/hour on quay.

FUEL: (1) *Main Quay Berths:* Marine fuel oil, viscosity 1000 secs. Marine diesel fuel. Gas oil cannot be delivered by pipeline at these berths but delivery can be made up to only 10 tons by bulk lorries at extra delivery cost. Minimum 48 hours' notice required. Quantities of 10 to 30 tons can be made by rail tank wagon if 48 hours advance notice given. Thin fuel oil viscosity below 1000 seconds can be delivered at berths 1, 2, 3, 4, 9, 10, 11, 12, 13 and 14 through fisher blender. Only one fisher blender available and can deliver fuel to only one vessel at a time.

(2) *Shimanzi Oil Terminal:* All grades, i.e. fuel oil, marine diesel, gas oil and thin fuel oil (through fisher blender).

(3) *Cased Oil Jetty:* Only marine diesel and gas oil can be delivered at this jetty.

(4) *Kipevu Oil Terminal:* Only fuel oil of viscosity between 1500 secs. and 3500 secs available. Fuel oil viscosity below 1500 not available. At least three days clear notice required by EA Oil Refineries for arranging bunker delivery. Not possible to deliver any marine diesel or gas oil either ex pipeline or rail tank-wagons/bulk lorries at this berth.

DEVELOPMENTS: Three further Main Quay berths within two years. Grains and cement silos envisaged within three years at wharf adjacent to Likoni ferry, i.e. rebuilding of ex "Coal Wharf".

GANGWAY/DECK WATCHMEN: Watchmen available for gangway and deck and recommended. Cost of watchmen Shs. 10/- per man per shift; foreman Shs. 30/- per shift.

OPENING/CLOSING HATCHES: Normally done by stevedores except Macgregor type hatches.

CERTIFICATES: Normal port requirements for safety cargo equipment.

CUSTOMS ALLOWANCES: Tobacco, 200 cigarettes for each crew member for eight days. Wine and/or Spirit, eight small bottles of beer for each crew member for 4 days.

CARGO GEAR: All cargo gear supplied by Stevedores.

IDENTIFICATION CARDS: Not required.

INCHON: 37.29 N. 126.38 E.

DOCUMENTS:

4 copies Report of Entrance.
4 Copies Crew List.
4 copies Cargo Manifest.
Stores List.
Crew Personal Effects List.
Currency List.
Passenger List.
Ammunition List.
Narcotics List.

Vessels with hazardous cargo must complete application to carry hazardous cargo and an application for anchorage of hazardous cargo vessel.

CERTIFICATES:

De-rat. Certificate or exemption.
Inoculation and Vaccination Certificates for all crew members.

PILOTAGE: Cable address of Pilot Office, "Pilot Inchon". Notice of ETA, 10–24 hours prior to arrival; communication channel, 16; communication channel with office and boat, 16; emergency sign of light and siren, (*a*) International sign "G", (*b*) fog – siren; Boat Station, "Ahn-Do" or "Palmeto"; boarding station of Pilot, "Ahn-Do", "Palmeto" or "Pido". Temporary boarding station of Pilot in inclement weather, "Pido" or "Palmeto".

ANCHORAGES: Limit: circle of diameter 20,000 m. Focus at entrance of No. 1 Tidal Basin lock gate.

Zone 1: Between 37° 27′ 35″ N. Ten miles width between West coast line of Walmido to Yung-jong do, village town; under 20,000 tons, vessel allowed to anchor in depth of 12–28 m.

Zone 2: Ten miles width between 27° 24′ N. and 37° 7′ 29″ N. Vessel over 10,000 tons allow3d to anchor in depth 10–20 m.

Zone 3: Inner Harbour, N.E. side water front of wharf.

RESTRICTIONS: A vessel having called at a Communist country in the preceding 6 months needs to obtain permission of Authorities.

MAX. SIZE: Length – 190 m. draft – 10 m.

RADIO: Address of Radio Station and call sign, Inchon Radio (HLC).

HEALTH: Entry prediction to be supplied to quarantine authorities by vessel's Agent 24 hours before arrival. Master required to complete Health Declaration when officer boards on arrival. Free pratique is automatic when coming from another Korean port.

TUGS: Eight tugs available up to 1200 h.p. One tug may be required for berthing.

DEVELOPMENTS: Increase in depth of 7·8 to 11·0 m.
New installation of berths: 50,000 T–1 Ea 40,000–1
30,000 –1 20,000–1
10,000 –4 8,000–8
5,000 –1

New tidal basin will be constructed by end of 1971. Nineteen new anchorages will be installed nearby.

STEVEDORES: No special ETA is necessary to arrange gangs.

MEDICAL: Launch is provided in emergency call to evacuate sick men. Modernised hospital is available. Provincial and Christian hospital.

TANKERS: T-2: Lat. 37° 26′ 30″ N. & Long. 126° 35′ 30½″, draft acceptable 40 ft, at East Side of B-8 anchorage. Three (3) mooring Buoys are equipped for mooring tanker with help or both bow anchors.

This mooring berth is used for U.S. Army/Navy tankers and vessels carrying petroleum products for Korea Oil Corporation (joint company with GULF). Sub-marine pipes are equipped to connect to the vessel.

Honam Buoys: Lat. 37° 29′ 00″ and Long. 126° 36′ 03″, draft acceptable 30 ft., at east side of A-3 anchorage. This berth is the private facility of the Honam Oil Refinery Co. (joint company with CALTEX) for discharge of their own petroleum products. Consisting of 4 mooring Buoys and sub-marine pipe lines.

DENSITY: Varies between 1022 and 1024.

FRESH WATER: Available. Twenty-two tons water tanker is utilised at $33.00 per ton charge.

FUEL: Available.

CUSTOMS ALLOWANCES: One carton cigarettes or 1 lb. of tobacco, and one bottle wine or spirits allowed, each man.

IDENTIFICATION CARDS: Crew required to carry valid identification cards at all times.

REPATRIATION: No facilities for crew changes or repatriation.

GANGWAY/DECK WATCHMEN: Ship security guard is required. Cost: day-time (0700–1800) W90.00 per man hour; night-time (1800–0700) W135.00 per man hour. Stream charge 30% additional.

OPENING/CLOSING HATCHES: Normally carried out by stevedores.

CONSULS: None.

REPAIRS: Deck and engine repairs possible. Floating cranes up to 60 tons capacity.

AIRPORT: 20 miles from port. Regular flights to Japan.

POLICE/FIRE/AMBULANCE: Police Officer (2) 0568; Fire Depot (2) 119; Medical Centre (2) 2535.

TELEPHONES: Portable communication facility is available (W30.00 per commun.).

TIME: Korean Standard Time. 9 hours ahead of GMT. No alterations during year.

HOLIDAYS: 1st January, 1st March, 5th April, 6th June, 17th July, 15th August, 3rd October, 9th October, 24th October, 25th December.

GENERAL: Tide condition is critical, swift currents (high tide: 9 to 10 m.) special attention is required.

SHORE LEAVE: 72 hours allowance; can be extended if required.

DELAYS: Can be caused by bad weather.

PORT AUTHORITY: Inchon Marine Bureau MOT. 57 Sun Rin Dong Inchon, (2) 285, (w) 0044–47.

KUNSAN (including Changhang) 35.55 N. 126.45 E.

The Port of Kunsan is situated on the Southern mouth of the Kum-River which flows into the Yellow Sea, and North Changhang.

DOCUMENTS:

6 copies Report (Ent/Departure).
6 copies Crew List.
6 copies Passenger List.
2 copies Crew Personal Effects List.
3 copies Passenger Luggage List.
2 copies Store List.
9 copies Manifest (dis./loading) only.

NOTICES: All vessels bound for Korean ports should give an ETA to the local Agents 27 hours prior arrival. This is essential to enable the Agents to notify the Port Authorities and arrange Pilot if necessary.

RESTRICTIONS: Vessels should enter during dayight hours only. Many small Korean fishing and cargo boats in this area display dim navigation lights or none at all at night. Pilot is not compulsory but all vessels calling at this port recommended employ a Pilot in view of the hazardous channel and tidal difficulties. Controlling depth 7 ft. Keel clearance of 2 ft. required.

PILOTAGE: The pilot station is situated at the Southern side of Piun Do (Hiyo To) Island the correct position of which is at 35° 56′ N. and 126° 27′ E.

RADIO: Kunsan Radio, call sign HLN operating on 500 and 484 kHz.

MAX. SIZE: Draft 18 ft. to 27 ft. dependent on height of tide.

TUGS: 5 tugs with respective capacity of 300 h.p. (1) 150 h.p. (2) and 80 h.p. (2) are available. One floating crane with capacity of 30 tons owned and managed by the Korea Dredging Corp. is available.

BERTHING: The port is controlled by Kunsan District Marine Bureau and all vessels come under jurisdiction of Kunsan Custom House. The anchorages in stream inner harbour can accommodate one or two vessels less than 1,000 gross tons, and outer anchorage (Yubudo Anchorage) accommodates one ocean going vessel drawing about 29 ft. There are 5 pontoon piers (3 for Kunsan and 2 for Changhang) each of which can accommodate an ocean-going vessel with maximum draft of 27 ft.

STEVEDORES: There is one stevedoring company with 14 wooden barges, 3 steel barges and 3 tug boats. Discharging capacities: average records per day of 24 hours: coal 1,500 tons; grain and wheat 1,600 tons; fertilizer 1,300–1,400 tons; cement 1,000–1,100 tons; lauan log 500,000 B/F Daytime only.

MEDICAL: Crew members should be in possession of health certificate showing vaccinations for smallpox and typhoid. In case health certificate has expired, the person(s) will be vaccinated/inoculated by a quarantine doctor at the cost of Wen.300 for each of the above vaccinations and Wen.1,000 should be paid in case new health certificate to be issued by the quarantine officials.

CURFEW: In Korea the curfew is still effective from 2400 to 0400 every day.

TIME: Korean Standard Time, GMT plus 9 hours.

HOLIDAYS: Public Holidays – New Year (January 1–3); Indepen-

dence Movement Day (March 1); Labour Day (March 10); Arbor Day (April 5); Memorial Day (June 6); Constitution Day (July 17); Liberation Day (August 15); Nation's Foundation Day (October 3); National Alphabet Day (October 9); United Nations Day (October 24); Christmas Day (December 25). (Can be worked if requested.)

Local Holidays. Work cannot be carried out on Lunar New Year's Day and the Moon Festival, about 15th August.

SHORE LEAVE: Crew shore passes will be issued by Port Immigration Office.

AUTHORITY: Kunsan Maritime Bureau.

MASAN: 35.11 N. 128.33 E.

DOCUMENTS:

6 copies Report (Ent/Departure).
6 copies Crew List.
6 copies Passenger List.
2 copies Crew Personal Effects List.
2 copies Store List.
9 copies Manifest (dis./loading only).

NOTICES: All vessels bound for Korean ports should give ETA to the local Agents 27 hours prior arrival. This is essential to enable the Agents to notify the Port Authorities and arrange a Pilot if necessary.

MAX. SIZE: The maximum draft admissible for entrance is 36 ft.

TUGS: 2 tug boats of 1,000 h.p. and 350 h.p. owned and managed by Masan District Marine Bureau available.

ANCHORAGE: Mooring capacity at anchorages: A–1, A–2, A–3 Depth 30 ft.; A–4, A–5, A–6 Depth 24 ft.; A–7, A–8 Depth 23 ft. Quarantine Station A Depth 36 ft.

BERTHING: Pier No. 1 provides 2 berths for ocean-going vessels and pier No. 2 only for vessels less than 800 gross tons due to insufficient water. Wharf capacity: Pier berth No. 1 and 2, length 162 ft. depth 24 ft. Pier berth No. 3 and 4 length 660 ft. depth 26 ft. Difference between high water and low water at spring only 9 ft. Pier No. 5 berth length 180 ft., depth less than 12 ft. Warehouse belongs to Masan Marine Bureau, capacity 10,000 cubic ft. located No. 1 pier in front of the ship alongside.

STEVEDORES: Korea Express Co., 8 barges (1,000 tons), 1 tug (145 h.p.); Hyopshin Stev. Co., 6 barges (1,000 tons), 1 tug 180 h.p.).

Discharging capacity – average records per day (24 hours).

Coal	in bulk	1,000 tons
Cement	in bags	1,000 tons
Grain & Wheat	in bulk	1,000 tons
Fertiliser	in bags	1,000 tons
Steel Scrap	in bulk	750 tons

MEDICAL: Crew members should be in possession of health certificate showing vaccinations for smallpox and typhoid. If the health certificate has expired, the person(s) will be vaccinated/ inoculated by a quarantine doctor at the cost of Wen.300 for each of the above vaccinations, and Wen.1,000 should be paid if new health certificate to be issued by quarantine officials.

CURFEW: In Korea the curfew is still effective from 2400 to 0400 every day.

TIME: Korean Standard Time – GMT plus 9 hours.

HOLIDAYS: Public Holidays:

New Year (January 1–3); Independence Movement Day (March 1); Labour Day (March 10); Arbor Day (April 5); Memorial Day (June 6); Constitution Day (July 17); Liberation Day (August 15); Nation's Foundation Day (October 3); National Alphabet Day (October 9); United Nations' Day (October 24); Christmas Day (December 25).

SHORE LEAVE: Crew shore passes will be issued by Port Immigration Office. Extension of shore passes should be made every 72 hours.

AUTHORITY: This port is controlled by Masan District Marine Bureau, under jurisdiction of Masan Custom House.

MOKPO: 34.37 N. 126.23 E.

DOCUMENTS:

6 copies Report (Ent./Departure).
6 copies Crew List.
6 copies Passenger List.
2 copies Crew Personal Effects List.
3 copies Passenger Luggage List.
2 copies Stores List.
9 copies Manifest (Dis./Loading only).

NOTICES: All vessels bound for Korean ports should give an ETA to the local Agents 27 hours prior to arrival. This is essential to enable the Agents to notify the Port Authorities and arrange a Pilot if necessary.

RESTRICTIONS: Mokpo is located at the South-western end of the Korean peninsula. The port is at the mouth of the Yungsan River which flows through the Yungsan peninsula. Kasako Island protects this port from heavy winds and swell. The Yungsan River provides 5 anchorages where 5 vessels of liberty type can berth at a time. The port is 30 miles from the pilot station off Ksasdo Island, in position 34° 27′ 20″ N. and 125° 02′ 05″ E.

Tide Information: maximum tide level at high water 4·5 metres; minimum tide level at high water 2·8 metres; average tide level at high water 3·5; Maximum tide level at low water 0·5 metres; Minimum tide level at low water 1·3 metres; Average tide level at low water 0·7 metres.

ANCHORAGE: Five anchorages in depths from 11 metres to 20 metres. Anchorage Nos. 2, 3, and 4 are better than No. 1 and 5 for discharging cargo because No. 1 is sometimes very dangerous due to strong tidal currents.

RADIO: Mokpo Radio. Call sign HIM operating on 500 and 484 kc/s.

BERTHING: Sam Hak Do Pier, length 168 metres and width 18 metres, where only one 8,000 ton ocean-going vessel can operate in 13 metres depth.

STEVEDORES: There are 3 stevedores companies with 28 wooden barges (1,680 tons), 7 steel barges (1,200) tons and 3 tug-boats.

MEDICAL: Crew members should be in possession of Health Certificate showing vaccinations for smallpox and typhoid. In case the Health Certificate has expired, the person(s) will be vaccinated/ inoculated by a quarantine doctor at the cost of Wen. 300 for each of the above vaccinations, and Wen. 1,000 should be paid in case new Health Certificate to be issued by the quarantine officials.

CURFEW: In Korea, the curfew is still effective from 24.00 to 04.00 every day.

TIME: Korean Standard Time, GMT plus 9 hours.

HOLIDAYS: Public Holidays: New Year (January 1st–3rd); Independence Movement Day (March 1st); Labour Day (March 10th); Arbor Day (April 5th); Memorial Day (June 6th); Constitution Day (July 17th); Liberation Day (August 15th); Nation's Foundation Day (October 3rd); National Alphabet Day (October 9th); United Nations Day (October 24th); Christmas (December 25th). Work can be arranged on all above holidays. Local Holidays: No work can be done on Lunar New Year or on the Moon Festival about August 15th.

SHORE LEAVE: Crew shore passes will be issued by Port Immigration Office. Extension of shore passes should be made every 72 hours.

AUTHORITY: Mokpo District Marine Bureau.

MUKHO: 37.33 N. 129.27 E.

DOCUMENTS:

6 copies Report (ent/departure).
6 copies Crew List.
6 copies Passenger List.
2 copies Crew Personal Effects List.
3 Passenger Luggage Lists.
2 copies Store List.
9 copies Manifest (dis./loading only).

RESTRICTIONS: Vessels bound for this port should anchor at the out-harbour awaiting for Quarantine Inspectors, and are required to radio the Harbour Master (6MF2/500 kc/s) the following, free of charge, at least 12 hours prior to the ship's arrival at the Quarantine Station, viz.: 1. Name and nationality of vessel; 2. Exact ETA at out-harbour (Quarantine or Pilot Station); 3. Maximum draft on arrival; 4. Description and quantity of cargo and the number of passengers, and so on.

ANCHORAGE: In Outer Harbour with max. draft 40 ft., 20,000 to 30,000 G/tonners, possible anchor near Quarantine Station, however, cargo work not possible due to no cargo gear and bad weather except under special circumstances.

BERTHING: Central Pier depth 18 ft. 05 in.; Coal Pier Conveyor A depth 21 ft. 00 in.; Conveyor B depth 21 ft. 09 in.; Stream berth depth, 21 ft. 00 in.; Ssangyong Pier depth 26 ft. 10 in; Ssangyong Pier depth 31 ft. 05 in.

Generally speaking, the loading berth at Coal Pier, Central Pier and Ssangyong Pier, is determined by ship's arrival order. However priority is often given to local vessels carrying domestic coal when domestic coal transportation is urgently required which could cause a rather prolonged wait. Therefore, all vessels bound for this port for coal/graphite/cement are recommended to contact Agents well in advance to ascertain the port conditions.

STEVEDORES: One stevedoring company: Korea Express Company Limited.

MEDICAL: Crew members should be in possession of health certificate showing vaccination for smallpox and typhoid. In case health certificate has expired, the person(s) will be vaccinated/ inoculated by a quarantine doctor at the cost of Wen.300 for each of the above vaccinations, and Wen.1,000 should be paid if new health certificate to be issued by the quarantine official.

CURFEW: In Korea the curfew is still effective from 2400 to 0400 every day.

TIME: Korean Standard Time – GMT plus 9 hours.

HOLIDAYS: Public holidays:

New Year (January 1–3); Independence Movement Day (March 1); Labour Day (March 10); Arbor Day (April 5); Memorial Day (June 6); Constitution Day (July 17); Liberation Day (August 15); Naton's Foundation Day (October 3); National Alphabet Day (October 9) United Nations Day (October 24); Christmas Day (December 25) Work can be done.

Local Holidays: No work can be done on Lunar New Year's Day and on the Moon Festival about August 15th.

SHORE LEAVE: Crew shore passes will be issued by Port Immigration Office. Extension of shore passes should be made every 72 hours.

AUTHORITY: District Marine Bureau.

POHANG: 36.02 12.22 E.

DEVELOPMENTS: A new pier under construction for discharging iron ore cargoes. One berth for 50,000 dwt bulk carriers and one berth for smaller vessels up to 5.000 dwt. Total length of new facility – 2,340 metres. Expected completion end 1971.

AUTHORITY: Pohang Composite Iron and Steel Works.

PUSAN: 35.07 N. 129.02 E.

DOCUMENTS:
4 copies Report of Entrance.
4 copies Crew List.
4 copies Cargo Manifest.
Stores List.
Crew Personal Effects List.
Currency List.
Passenger List.
Ammunition List.
Narcotics List.
Vessels with hazardous cargo must complete application to carry hazardous cargo and an application for anchorage of hazardous cargo vessel.

CERTIFICATES:
De-rat. Certificate or Exemption.
Inoculation and Vaccination Certificates for all crew members.

PILOTAGE: Professional pilot service is available at Pusan and contact can be made by telephone No. 6–1346 or 6–1743. Necessary for arriving vessel to notify Pilots of arrival 24 hours in advance. VHF unavailable. Formal address is: 73 2-Ka, Choong-Gu Taigyo-Ro, Pusan, Korea. Blast signal from vessel used to call Pilots. Pilot station position 35° 05′ 5″ N. 129° 05′ E.

ANCHORAGES:

Designation	*Depth*	*Capacity*
S-anchorage	8–9 m.	6 vessels of 300–2,000 t.
E-anchorage	11–12 m.	6 vessels of 8,000–12,000 t.
N-anchorage	7–10 m.	18 vessels of 500–6,000 t.

RESTRICTIONS: Only restriction imposed on an arriving vessel is on her call at ports of Communist bloc. Vessel having called at such ports within six months of contemplated entry of Pusan needs to obtain permission of authorities.

MAX. SIZE: No restrictions on length or breadth of a vessel. Draft should be less than 10 m. when vessel is alongside a pier, or 12 m. when anchored at an anchorage.

HEALTH: Quarantine clearance only effected in day-light hours. Entry prediction to be supplied to quarantine authorities by vessel's Agent 24 hours before arrival. Master required to complete Health Declaration when officer boards on arrival. Free pratique is automatic when coming from another Korean port.

RADIO: Pusan Harbour Radio Station: call sign, 6 MF. Frequency, 500, 434 kc/s. operation round the clock.

TUGS: Tugs join an arriving vessel at immediate interior to breakwater, Pusan Harbour. Ship's own lines are used.

BERTHING: Normally in daylight only.

	Length	*Beam*	*Draft*
Pier No. 1	407 m.	115 m.	28 ft.
Pier No. 2	407 m.	116 m.	28 ft.
Quay way No. 2	645 m.	—	27 ft.
Pier No. 4	556 m.	145 m.	29 ft.

STEVEDORES: On basis using full gangs per day, the capacity is: 1,000 L/tons on general cargo; 1,200 L/tons on grains; 1,500 L/tons on anthracite or coal.

MEDICAL: Service is available at short notice.

FRESH WATER: Available. Rate of water supply, 80 L/tons per hour. Charge: when carried by water barge, W250 per ton; when supplied at pier, W125 per ton.

FUEL: Availability on Bunker "A", Bunker "C", LRFO, LO and diesel oil.

FIRE PRECAUTIONS: Port has separate anchorage for tankers. Port requests for compliance with regulation not to contaminate waters with inflammable substances, e.g. petroleum products. Tankers are prohibited to clean tanks in port.

DEVELOPMENTS: Plans for building pier for exclusive use for discharge of coal for year 1971.

GANGWAY/DECK WATCHMEN: This service is available and charge is W60 per watchman.

OPENING/CLOSING HATCHES: Usually carried out by stevedores.

CUSTOMS ALLOWANCES: One carton cigarettes or 1 lb. of tobacco, and one bottle wine or spirits allowed, each man.

IDENTIFICATION CARDS: Crew required to carry valid identification cards at all times.

CONSULS:
Consul, Republic of China (Formosa) Tel. 4–0276
Consul, Japan ,, 22–0135

REPAIRS: All repairs can be effected.

DRY DOCKS:

Name of facility	*Capacity*	*Location*	*Remarks*
Korea Ship Building Eng. Corp. No. 1	5,000	Pusan	—
Korea Ship Building Eng. Corp. No. 2	10,000	Pusan	—
Korea Ship Building Eng. Corp. No. 3	100,000	Pusan	construction under way, to be complete by 1971.
Dae Sun Ship Building Corp.	400	Pusan	—

REPATRIATION: No facilities.

AIRPORT: Airport is at Suyeng about 12 km. from Pusan. Japan-bound plane takes off once a day.

TIME: Korean Standard Time. 9 hours ahead of GMT. No alterations during year.

HOLIDAYS: 1st January, 1st March, 5th April, 6th June, 17th July, 15th August, 3rd October, 9th October, 24th October, 25th December.

POLICE/AMBULANCE/FIRE: Police, 22–0863/2497; Ambulance, Pusan Quarantine Station, 6–1371, 4–5736.

TELEPHONES: "Port Telephone Service" operates for purpose of serving communication, on board–shore, the charge being: for first day of service, W4,972; from second day and on, W1,657 (above figure applies when ship is alongside pier); for first day of service, W7,650; from second day and on, W1,912 (above for ships at anchorage).

SERVICES: Adjustment of compass, available.

SHORE LEAVE: Allowed.

DELAYS: Port congestion is experienced occasionally.

AUTHORITY: Pusan District Marine Bureau. Tel. 4–0041/0043 or 6–0357.

ULSAN: 35.27 N. 129.23 E.

Korean Oil Company, Single Buoy Moorings.

DOCUMENTS:
3 copies of Manifested Parcels on Board.
3 copies of the Store List.
3 copies of List of Narcotics on Board.
3 copies of List of Arms and Ammunition on Board.
3 copies of List of Vessel's Foreign Currency.
3 copies of List of Crew's Foreign Currency.
3 copies of List of Vessel's Tobacco, Cigarettes, Spirits, etc.
13 copies of the Crew List.
3 copies of List of Crew's Personnel Effects, Tobacco, Cigarettes, Spirits, etc.
Crew's Vaccination Certificates.
Deratisation Exemption Certificates.
Clearance from Last Port.
10 copies of List of Landing Passengers, if any.
10 copies of List of Passengers in Transit, if any.
3 copies of List of Passengers' Baggage.

PILOTAGE: The seaward approaches to the Imodco Terminal mooring site are free of underwater obstructions and existing landmarks and navigation aids are adequate. Depth of water not less than 65 ft. in approaches. The Imodco Terminal can be approached with the summit of Pongdae San bearing 333° true. When in position the following navigation fix will obtain at the mooring site:

Pongdae San (summit) bearing 333° true distance 2,915 yds.
Pongjin Hang Light (end of breakwater) ,, 053° true ,, 4,770 yds.
Chuck To (centre cut) ,, 255° true ,, 3,800 yds.

A good radar echo will be obtained from the tanks ashore at approximately 20 miles, the Imodco buoys at a distance of 8 miles, and the small buoys, marking the floating hose heading off the Imodco buoy, at 1·5 miles.

Lights ashore, lights on the Imodco buoys and on the small buoys appear to be unreliable.

After clearing Customs a harbour Pilot will board the vessel to direct it to the buoy and conduct the mooring operations if required. There is no night mooring. However, unmooring is carried out during darkness as well as in day-light.

ANCHORAGE: Anchor the vessel about 1 mile South-east of the buoy, if the weather permits. In this location it is less difficult to find vessel, when in fog. Do not anchor less than 1 mile from buoy, and under no circumstances can the anchors ever be used on approaching the buoy terminal, chain cables and pipe-lines are located at this site and anchoring is strictly prohibited.

HEALTH: Entry prediction to be supplied to quarantine authorities by vessel's Agent 24 hours before arrival. Master required to complete Health Declaration when officer boards on arrival. Free pratique is automatic when coming from another Korean port.

RADIO: There is no marine radio telephone at Ulsan to communicate with on radio telephone frequency. A small transreceiver on shore can communicate with attendant launch.

BERTH DESCRIPTION: Two berths at single buoy moorings. 12·5 metres, red and white vertically striped buoys.

Lights on buoy: Alt. fl. RW. ev. 12 sec., visibility 5 miles or more; duration of each flash 4 sec.

Lights on hose: There are 3 red flashing marking buoys equally spaced along 675 ft. of hose, vis. 2 miles. All of the above lights are activated by photoelectric cells, and are fairly reliable.

Radar Reflector: On buoy's mast.

Fog Horn on buoy: 2 sec. blast; period 20 sec. range 1 mile; must be turned on at buoy.

Soundings at site: 11 fathoms.

BERTHING: Two launches are in attendance during mooring and unmooring operations. One launch will keep the hoses clear while the other handles the mooring ropes.

The vessel will be moored with four to five ropes off the bow. No ropes used from the well decks. One rope will be run single to the buoy to heave the vessel in proper position, all other lines will be used double by sending one end out through the port or starboard bow chock and hove back through the opposite side of the bow chock, sufficient slack is brought on board so that a complete set of turns can be securely placed on the bollards. A good messenger rope, about 3½ in. to 4 in. circ., at least 400 ft. in length, will be required to heave the lines around the mooring arm on the buoy and back on board the vessel. The first line used single will be doubled up last.

Both bow anchors are to be hove well up in the hawse pipes and properly secured before reaching the buoy mooring. Anchors are never to be used while on the buoy; they can foul buoy cables and pipe-line on the bottom if released.

There are two sets of 12-in. hose and one set of 8-in. hose. The 2–12-in. hoses are for crude oil and the 8-in. hose for gas oil. The

hoses are 675 ft. in length from the buoy manifold, and are floating in plastic-type doughnut-shaped floats. The hose connections are always made to the port manifold, and are lifted one at a time to the ship's manifold. Each hose, when full of cargo and equipment, is over 1½ tons in weight.

BUNKERS AND WATER: Available by barge only.

BALLASTING: After the vessel has been somewhat more than half discharged, the vessel should be ballasted to a safe margin, to draw not less than 12 to 13 ft. forward. This will avoid the vessel yawing widely on the buoy with strong winds and assist in avoiding contact with the buoy and hoses. Vessel will moor about 120 ft. from buoy.

CUSTOMS ALLOWANCES: One carton cigarettes or 1 lb. of tobacco, and one bottle wine or spirits allowed, each man.

IDENTIFICATION CARDS: Crew required to carry valid identification cards at all times.

REPATRIATION: No facilities for crew changes or repatriation.

TIME: Korean Standard Time, 9 hours ahead of GMT. No alterations during year.

HOLIDAYS: 1st January, 1st March, 5th April, 6th June, 17th July, 15th August, 3rd October, 9th October, 24th October, 25th December.

SHORE LEAVE: Allowed up to midnight.

GENERAL: Vessels arriving at Ulsan should radio to Agent at Pusan four days in advance information on size of vessel's manifold connections, as the adapters, if required, will have to be made by the Korea Oil Corp. This applies mainly to vessels arriving at Ulsan for the first time or in case there has been any alteration to the manifold since the last arrival.

While on the buoy the vessel will be required to provide sleeping quarters and linen for about eight to ten men; this includes the discharging Master and his apprentice. The standby men include launch-men and riggers; these men connect and disconnect hoses and are mainly kept on board for emergency.

The discharging Master will remain with the vessel during its entire operation on the buoy. Under certain conditions, should it become necessary, they may ask the vessel for meals; however, food for standby men is generally furnished from ashore.

The ship's engines must remain ready for immediate use.

AUTHORITY: Korean Oil Company, Ulsan.

YOSU: 30.51 N. 127.47 E.

Honam Oil Refinery Single Buoy Mooring.

DOCUMENTS:

Last Port Clearance.
Register.
12 copies of Crew List.
12 copies of Passenger Manifest.
3 copies of Store List.
3 copies of Bonded Store List.
3 copies of Arms and Ammunition List.
3 copies of Livestock List.
1 copy of Vaccination List showing dates of last smallpox and yellow fever vaccination, etc.

PILOTAGE: The approach to Yosu Gulf from the South is open and clear of dangers until vessel approaches "Tae Do" near which the pilot station is located. The depths of water vary from 40 metres off "Cah-To" to 20·5 metres in the vicinity of Tae Do.

From Tae Do the channel narrows and changes direction to the West North-west towards the town of Yosu. Off the South-west extremity of Namhae, where the channel is about 1·25 miles wide, course is altered to North by West into Yosu Gulf. The land on each side is mountainous and rises to an average height of 450 metres. The highest peak in the area is Mangun San, situated in the Northern part of Namhae and rises to an elevation of 785 metres.

At approximately latitude North 34° 47′ East are located 5 buoys and 1 lighthouse (beacon) for markers of the narrowest part of the channel. The buoys are numbered 1 to 5 with black buoys having even numbers. The course is laid midway between the buoys. About ¾ mile from the Imodco buoy a 13-metre patch is marked by a buoy.

RESTRICTIONS: Channel depth minimum 60 ft. The channel area to Yosu has been hydrographic surveyed and wire-dragged North of Latitude 34° 35′ 30″. A channel about 2½ miles wide and 15 miles long has been wire-dragged South of Latitude 34° 35′ 30″. The Western extremity of this channel is located about 3¼′ East of Chock-To Island. Daylight berthing only at the buoy terminal.

MAX. SIZE: Up to 60 ft. draft.

ANCHORAGE: Depth 14 fathoms. It is prohibited to anchor within 1 mile of buoy mooring.

HEALTH: Entry prediction to be supplied to quarantine authorities by vessel's Agent 24 hours before arrival. Master required to complete Health Declaration when officer boards on arrival. Free pratique is automatic when coming from another Korean port.

RADIO: Pusan Radio. There is at Yosu a non-commercial radio station with call signal 6 MY operating and listening on 500 kc/s. Manned by two operators with 24 hours service. The station is located at the Yosu Marine Bureau for the benefit of the port authorities, including the Pilot. The range of the station is about 100 nautical miles, and it is recommended that Masters communicate with this station giving their ETA at the pilot station. The communication from tanker to shore when moored at the Imodco buoy is by VHF transreceiver and is handled by refinery personnel on board. Messages should therefore be relayed to the refinery representatives.

TUGS: Two tugs available each of 1,000 h.p.

BERTHING: The approach to the buoy is made with minimum headway on the tanker and the first synthetic line to the buoy is supplied by the vessel, and by using this line the vessel is brought approximately 150 ft. from the buoy, when two 15-in. synthetic lines from the buoy are brought up to the ship and made fast. During the discharge operations engines must be ready on a moment's notice and sufficient officers on duty to man the bridge and the engine-room. In order to avoid riding up on the buoy and the cargo hoses stern movements with the engine may be required. On turbine vessels where the chief engineer is unable to completely stop his engines, the r.p.m. must be kept at a minimum. Vessels which are not able to conform with these regulations should advise Honam Oil representative in writing.

Honam Oil maintain a boat to bring the cargo hoses alongside and crew for connecting of same. The tanker's crew is, however, responsible for adjusting the boom and the gear necessary for this operation. The same procedure takes place upon completion of cargo.

MEDICAL: There are Medical facilities in Yosu Town. Inoculation and vaccination can be arranged with quarantine doctor. Deratisation Certificates can be arranged. Vessels requiring emergency medical assistance should contact agent immediately.

DENSITY: 1025.

FRESH WATER: No fresh water is available for delivery to ships.

FUEL: Bunkers available by barge.

REPAIRS: There are no repair facilities in Yosu, except for small jobs.

CUSTOMS ALLOWANCES: One carton cigarettes or 1 lb. of tobacco, and one bottle wine or spirits allowed, each man.

IDENTIFICATION CARDS: Crew required to carry valid identification cards at all times.

REPATRIATION: Crew changes or repatriation can be arranged.

TIME: Korean Standard Time, 9 hours ahead of GMT. No alterations during year.

HOLIDAYS: 1st January, 1st March, 5th April, 6th June, 17th July, 15th August, 3rd October, 9th October, 24th October, 25th December.

BALLAST: There are no facilities for reception of dirty ballast. It is the ship Master's responsibility to see that no oil or oily ballast is spilled or pumped overboard from his ship. Drip-pans must be used at all times and all scuppers must be plugged. The waters in or adjacent to the terminal must not be polluted and only oil-free bilgewater may be discharged at the terminal. If, during inspection or during progress of discharging, it is revealed that the vessel's tanks are not oil-tight, she will be refused further discharging, if so determined by the refinery representative.

SAFETY: Sufficient officers and crew personnel must always be on board to attend to the vessel and to cargo. Power must be available at all times on deck winches and windlass while the vessel is in the moorings. The presence of unauthorised craft along side is extremely hazardous, and Masters are requested to require all unauthorised craft to clear the vessel's side prior to commencement of cargo discharging. Master should shut down all cargo operations during severe electrical storms and under any circumstances which imperil the cargo operation.

SHORE LEAVE: Shore leave for ship's personnel is arranged by ship's Agent and the local authorities. The nearest town is Yosu, 40 min. boat ride from the terminal, which should be arranged by the Agent. Caution: Sufficient personnel must be on board at all times for letting go lines and clear the buoy immediately.

AUTHORITY: Honam Oil Refinery Co. Ltd., Yosu Refinery, PO Box 7, Yosu Chollanamdo, Korea.

Kuwait

MINA ABDULLA:

LOCATION: Mina Abdulla bounded on South by parallel of latitude 28° 55′ N. on the East by longitude 48° 18′ E. and on North by a line joining following points:

(1) 29° 01′ 45″ N.	48° 09′ 25″ E.
(2) 29° 01′ 45″ N.	48° 10′ 06″ E.
(3) 29° 02′ N.	48° 10′ 18″ E.
(4) 29° 02′ N.	48° 18′ 00″ E.

FLAG: Every merchant ship when entering or leaving port between sunrise and sunset shall fly her national flag and national flag of Kuwait and, when entering port, shall fly her signal letters. All vessels required to fly Kuwait flag on foremast during day-light hours. Flags may be obtained from Agent.

APPROACHES: Two oil-loading berths supplied by three pipelines are situated here. A number of large tanks define tank farm area. A refinery stands to South-west of tank farm. The flare is conspicuous. Other conspicuous objects in area are the radio tower, Mosque Minaret and the four leading beacons for two berths. These are lit for night berthing by three white lights on each beacon in the form of triangles, the beacon lights for Berth No. 1 are occulting every 5 seconds, the lights of No. 2 Berth are fixed.

When a vessel is ready to enter at the same time as another vessel is ready to leave the port, the outgoing vessel shall have priority over the incoming vessel, subject always to the provisions of the International Regulations for Preventing Collisions at Sea and to the requirements of safe navigation.

DOCUMENTS: Before leaving Kuwait the Master shall be responsible for obtaining a Port Clearance Certificate. The documents necessary for vessels to enter and leave Mina Abdulla are:

Enter

Ship's Manifest.
Bill of Health.

Crew List.
Clearance from Last Port.
Light Dues Certificate.
Clear
Register.
Load-line Certificate.
Radio Certificate.
Safety Certificate.
Last Port Clearance.

Masters and Agents of vessels shall, when called upon by a Customs Officer or Marine Officer, produce any documents relative to the landing or shipment of their vessel's cargo in the port. The Master or his representative is required to hand to the Company a written Notice of Readiness to load.

Discharging certificates of oil cargo loaded from Kuwait and neutral zone ports are to be sent to vessels' local Agents immediately duly attested by the Customs Authorities and Arab Consulate covering full quantity as per Bill of Lading.

If a vessel, which has not submitted the certificate for the previous voyage, calls for the second time, she will be allowed to load and sail only after paying a cash deposit of KD 2,000.

In order to avoid delay in berthing, loading and outward clearance for vessels, all owners must give instructions to Agents at discharging ports to forward relevant cargo discharge certificates to Agents at loading ports without delay.

PILOTAGE: Mooring Masters normally meet vessels within one-and-a-half-miles of terminal sea berths and will act as Pilot and as Company's Representative and remain on board during vessel's stay in port. Vessels requested to have pilot ladder of an approved pattern, safely and securely rigged, ready for immediate use, and long enough to reach Mooring Master's launch. When it is necessary for a vessel to anchor before being berthed she should do so in the recommended anchorage area. Two 45 ft. tugs painted blue with white superstructure assist berthing by running mooring lines to stern buoys. The pilot boat has a blue hull and white superstructure and is radar equipped.. The name "Independent" is on each bow and stern.

Vessels with a Mooring Master on board shall display International Code Flag "H" in a prominent position whilst manoeuvring under his advice, and shall, if so instructed by Mooring Master, display a flag indicating berth to which vessel is proceeding.

ANCHORAGES: Vessels requiring anchor for any reason in port limits should do so within area enclosed between positions:

29° 02′ N.	48° 14·3′ E.
29° 02′ N.	48° 15·1′ E.
29° 01·2′ N.	48° 15·1′ E.
29° 01·2′ N.	48° 14·1′ E.

or within reasonable proximity to the East if congestion arises in anchorage area.

All vessels and craft within the port shall be navigated with care and caution at a speed and in a manner which shall not endanger the safety of other vessels or craft. In particular, special care and caution is to be observed in passing vessels or craft of the following category: weight-lifting or deeply-laden craft, vessels which are mooring or moored at terminal buoys, vessels or craft in tow and vessels or craft engaged on diving, dredging, grabbing, pile-driving or construction work, survey operations or the removal of obstructions.

All vessels within the port shall anchor, or moor and unmoor, when and where required by the Marine Officer, and shall be moved from place to place as required and by such means or appliances as may be ordered by the Marine Officer.

Vessels or craft shall not anchor near any submarine lines within the port limits, unless engaged on work which, in the opinion of the Marine Officer, necessitates their doing so.

MAX. SIZE: No. 1 Berth, depth 43 ft. No. 2 Berth, depth 56 ft.

HEALTH: Quarantine regulations administered by Kuwait Government's Quarantine Medical Officer. Pratique granted at anchorage or berth.

Prior to arrival in port, free pratique, when applicable, should be requested through the vessel's Agent. Every vessel on arriving from a foreign port shall display the appropriate signal as required in the Quarantine Section of the International Code of Signals.

No craft, other than one having on board the Mooring Master or Port Health Officer, may approach any vessel entering the port and no other person may board any such vessel until free pratique has been granted.

Adequate covers shall be placed over all overside discharges.

Masters shall be responsible for ensuring that no unhealthy or offensive matter is deposited from their vessels on port premises. Any such matter so deposited that is, or becomes offensive, or, in the opinion of the Port Health Officer, injurious to health, may be removed, confiscated or destroyed and the place of deposit cleaned or disinfected on the direction of the Marine Officer at the expense of the Master responsible.

Any vessel, having on board offensive goods, or goods which, in the opinion of the Port Health Officer, are injurious to health, may be ordered to leave the port by the Marine Officer.

No ashes, refuse or other objectionable matter shall be thrown overboard from any vessel either on to any premises or into any waters of the port.

TIDE: The maximum tidal range is 10 ft. 6 in. and velocity of tide is from ½ to 2 knots.

DENSITY: Water density is 1.025 oz.

GEAR: Mooring Masters may decline to moor any vessel if in his opinion it is not equipped with satisfactory mooring facilities, lines and gear, etc.

Vessels shall provide such tackle as may be required for loading or discharging cargo.

Vessels berthed at sea terminals shall provide not less than six good quality mooring ropes and/or wire hawsers aft, each not less than 120 fathoms in length. An eye shall be spliced in ends of ropes to secure lines to pelican hooks on buoys. Two insurance wires are provided in each berth. Ships must have both anchors ready for immediate use each with minimum of chain as follows:

Below 10,000 dwt, 8 shackles. Between: dwt. 10,000–20,000, 9 shackles; 20,000–30,000, 10 shackles. Above: dwt. 30,000, 11 shackles; 40,000, 12 shackles. Above 60,000, 13 shackles; and above 80,000, 16 shackles. The term shackles is to be interpreted as a length of 15 fathoms. Masters shall be responsible for seeing that a strict watch is kept on their vessel's moorings to prevent ranging.

BALLAST: As soon as practicable after arrival, all vessel's tanks will be inspected for evidence of oil in ballast. During discharge of ballast, similar inspections will continue. If evidence of oil appears at any of these inspections, the ship must return at once to a point not less than 100 miles from the coastline and there completely discharge all oily or dirty ballast.

Masters will be required to sign a declaration certifying that any water ballast intended for discharge from vessel is clean and free from oil. Arrangements are being made by the Company for dirty ballast disposal facilities to be supplied in the near future, if and when required, by vessels in this port.

POLLUTION: Cases of discharging dirty ballast or oil spillages will be investigated and vessels are liable to fines and/or detention. Vessels shall not discharge into the water of the port any part of the content of their cargo, slop, or ballast tanks or bilges which is liable to pollute these waters. Masters shall ensure that pipe-line and equipment are clean before using them for discharging anything into the water of the port. Scuppers shall be plugged effectively and no leakage or spillage of petroleum on board shall be allowed to leak or be swept overboard.

The State of Kuwait has stringent laws in force concerning the pollution of the sea by oil. The following are two amended paragraphs of this law:

Paragraph 1, Art. 4. "A person responsible for any pollution as described in Articles 1 and 2 shall be punished by a fine of not less than one thousand and five hundred and not more than six thousand Dinars. In the event of his committing a similar crime within a period of one year from the date of his conviction, such a person shall be punished by a fine of not less than three thousand and not more than six thousand Kuwaiti Dinars, and in the event of his committing yet another crime within a year from this last conviction he shall be punished by a fine of six thousand Kuwaiti Dinars."

Paragraph 3, Art. 6. "The person responsible for pollution may suspend the detention order against the ship on payment, as a cash guarantee, of six thousand Kuwaiti Dinars to the official entrusted with the execution of such order."

BERTHING: Master shall, before berthing, advise Marine Officer of any special damage or disability to the vessel. No. 1 Berth lat 29° 01′ 16″ N. Long. 48° 11′ 52″ E. approximately, situated about 2 miles offshore in 43 ft. water LWOST over sand and coral with fair holding ground. A spar-buoy painted yellow with black bands marks end of submerged steel pipe-lines. A common bunker line to the berths, off-branches approximately 1,000 ft. South of Berth No. 1 and runs in to meet the direct line from shore to this berth. Ends of attached loading hoses marked by can-buoys on either side of the Spar. Four mooring buoys in Berth No. 1 and five in Berth No. 2 painted red and silver located in an arc, 1–2 cables approximately E.S.E. through South of S.S.W. from spar-buoys for vessel's stern moorings. Ship's anchors only are used forward No. 2 Berth (situated approximately half a cable South and nine cables East of Berth No. 1); Lat. 29° 01′ 0″ N. Long. 48° 12′ 51″ E. approximately. Depth of water in Berth No. 2 is 56 ft. LWOST over mud and clay which is excellent holding ground.

LOADING: Terminal has facilities to load at maximum rate of 1,500 tons per hour in Berth No. 1 and 2,800 tons per hour in Berth No. 2, but this loading rate can be achieved only when vessel is furnished with appropriate equipment.

Caution: The incoming oil stream is pumped from shore and it is extremely dangerous to close a ship's valve against the incoming oil stream. Such a procedure creates an excessive pressure, which may damage submarine lines, ship's pipe-lines or the terminal facilities. Vessels will be held liable for damages resulting from failure to observe this precaution.

Raising, connecting, disconnecting and lowering of submarine hoses will be performed by shore crew as advised by Mooring Master who will remain on board while ship is mooring, loading or discharging and unmooring. Vessels will provide winch drivers and remove such manifold blanking flanges and fit reducing pieces as required.

Deck hose connections from submarine lines as follows:

Cargo: 10 in. ID, working pressure 150 PSI, fitted with 150# ASA steel flanges. Bunker flanges 8 in. ID, working pressure 150 PSI, fitted with 150# ASA steel flanges.

Loading and discharging of petroleum vessels shall not be undertaken without permission of Marine Officer.

Loading and discharging of petroleum vessels shall not commence until:

(1) Master or Chief Officer has certified to Marine Officer that all necessary valves are open and that vessel is in proper condition to receive or dischage cargo.

(2) Master or Chief Officer has certified to Marine Officer that all ship's sea valves are closed or blankflanged except those required

for water circulation purposes, and that these regulations are being and will be observed.

(3) Ship's tanks have been inspected by an authorised inspector and passed as suitable for loading.

Throughout period of loading and discharging operations, following conditions shall be observed:

(1) A responsible ship's officer shall be on watch on board at a point near tanks which are receiving oil during process of loading. The company's staff have received instructions to stop loading immediately whenever this rule is disregarded.

(2) A capable member of ship's crew shall be stationed by ship's tank valves which are receiving oil during loading.

(3) All pipe-lines and hoses shall, while rigged for loading or discharging petroleum, be directly and continuously earthed and kept constantly under supervision.

(4) No petroleum shall be allowed to escape or overflow.

(5) The following signals will be observed, as well as the radio communications, between ship and shore:

Signal Flag by Day	*Starting*	*Light Signal by Night*
1 Red Flag	Slow Speed	1 Red Light
2 Red Flags	Full Speed	2 Red Lights
	Stopping	
1 Red Flag	Slow Speed	1 Red Light
All Flags Down	Stop	No Lights

(6) When normal ship-to-shore communication fails, the emergency signal to stop the oil flow will be a continuous blast on the ship's whistle until the oil ceases to flow. Steam or air should never be shut off from whistle during loading. When practical, means should be provided for blowing the whistle from the after section of the cat walk. Whenever an Emergency Whistle Signal is used, all loading operations in the berths will be shut down until normal communication is restored. For this reason it is requested that ships in the area refrain from using ship's whistle for other than essential purposes.

Load Lines: Masters are warned that their load lines are subject to scrutiny by the port officer from Mina Al Ahmadi on completion of loading or bunkering. It is in their own interest therefore, to observe the regulations, as vessels are liable to be delayed and have to pump ashore or be fined if overloaded, and Port Clearance withheld.

RADIO: Master shall inform Marine Aminoil at least 72, 48 and 24 hours notice of time of arrival via Kuwait Government Coastal Radio Station, call sign "9KK".

MEDICAL: Patients will in normal course of events be treated by Quarantine Medical Officer on board. Neither medical nor hospital facilities are provided by the Company. However, in cases of emergency those requiring urgent hospitalisation may be taken by vessel's Agent.

FUEL: Fuel oil bunkers can be loaded in either berth at a maximum rate of 500 tons/hour, thus raising the maximum loading rate of either berth by 500 tons per hour for fuel oil cargoes only.

FRESH WATER: Cannot be supplied at Mina Abdulla. In case of utmost need Agent may hire a barge with a capacity of 100 tons of fresh water from Kuwait, and send to Mina Abdulla.

CUSTOMS: Import of firearms and ammunition is forbidden. Under Kuwait Law No. 46, it is an offence to sell or trade liquor within the State of Kuwait. Any person convicted for selling, purchasing, giving away, accepting or acquiring in any manner, liquor or any intoxicating drinks for the purpose of trading and marketing shall be punished by a maximum 3 years imprisonment and a maximum fine of KD 300 or by only one of the two aforesaid penalties. Alcoholic beverage is strictly prohibited to be held out of bond. Master allowed to keep limited quantity in his cabin.

CONSULS: See "Shuwaikh". The American Consulate is situated just outside Kuwait town, some 30 miles from the terminal.

REPAIRS: No facilities.

REPATRIATION: Seamen arriving Kuwait Airport to join vessels at Kuwait ports can obtain transit visa at airport, if Agents arrange to submit necessary guarantee to Immigration Authorities confirming that they are in transit and joining vessels calling at Kuwait. In order to meet the crew at airport and arrange transit visa, cables confirming their arrivals and flight numbers are to be sent to Agents to reach them at least 24 hours before arrival of crew. Marine Superintendent of Owners, or Owners Representatives and businessmen visiting Kuwait must have valid visas. Such visas can be obtained from Kuwait Government's diplomatic missions abroad.

AIRPORT: Kuwait.

TIME: GMT plus 3 hours.

PROVISIONS: Aminoil does not provide any chandling facilities. Masters of vessels calling at Mina Abdulla must arrange for supplies through ship's Agent. Foodstuffs, beverages, tobaccos, etc., are available from ship chandlers in Kuwait in limited kinds and quantities. Prices a little more expensive than in Kuwait due to long transportation. Ship's Agent should be advised by cable well in advance.

CERTIFICATES: See "Documents". There is no organisation for dealing with Deratisation Certificate at Mina Abdulla. Agents are responsible for presentation of oil-discharging certificate to Customs authorities as guaranteed by them. All cargo discharge certificates duly attested by the Arab Consulate are to be sent to Agents directly.

SHORE LEAVE: At present, crews not allowed ashore at Mina Abdulla, and this rule will be strictly adhered to.

REGULATIONS: Main engines shall always be kept ready for immediate use. Steam pressure shall be maintained at minimum necessary to operate auxiliaries and to manoeuvre in case of need. Deck steam is to be maintained at all times.

Engine repairs which may prevent working of main engines may only be undertaken with written permission of Marine Officer.

Master shall at all times retain on board sufficient crew to work vessels.

Vessels shall have both anchors ready for immediate use on arrival and departure.

Vessels berthed at sea terminals shall not carry out engine trials without permission of Marine Officer.

Vessels berthing during hours of darkness must if available provide a portable light of an approved gas-tight pattern capable of being placed on either quarter of vessel to illuminate vessel's mooring ropes sufficiently for mooring boat.

Vessels shall provide an efficient accommodation ladder and boat rope for port authorities and, during hours of darkness, shall install adequate approved lighting for same. Failure to comply with this may lead to inward clearance being delayed by authorities, thus incurring delays to vessel.

No swimming in vicinity of vessels or from vessels in berth is allowed.

DRY CARGO: Masters shall be responsible for proper provision of adequate lights in all parts of vessel while work is being carried on in any area connected with discharging or loading of general cargo.

No damaged or leaking package containing any of the goods in Schedule of Dangerous Cargoes shall be landed on to any pier or conveyance before it has been inspected on board the carrying vessel by the Marine Officer and passed as fit for handling.

The Marine Officer shall have right to prohibit handling of any package he may consider to be detrimental to safe working of port.

Masters and authorised persons engaged in discharging or loading cargo shall not use, or permit to be used, any rope, tackle or other gear that may be worn, frail or otherwise unsuitable from any cause whatsoever for the purpose of lifting or lowering such cargo or other articles. Any authorised official may at any time examine such rope, tackle or other gear and prohibit their use if found unsuitable. No heavy lift cranes available.

AUTHORITY: American Independent Oil Company, Kuwait Office: Post Box No. 69, Kuwait, Arabian Gulf. Telegrams: Aminoil Kuwait. Tel. Kuwait 84201.

AGENTS: See "Shuwaikh".

MINA-AL-AHMADI

OPERATORS: Kuwait Oil Company Ltd.

LOCATION: Port of Mina al Ahmadi is open roadstead situated on Western shore of Arabian Gulf, and is contained between the port limits of 29° 02′ 45″ N. and 29° 10′ 00″ N. with seaward limit extending to 48° 11′ 30″ E. There are two piers and a sea island having a total of fourteen oil loading berths.

FLAG: National flag of Kuwait is to be flown at foremast head during vessel's stay in port.

NAVIGATIONAL AIDS:

Current hydrographic information may be obtained by radio from the "Middle East Navigation Aids Service, Bahrain".

Lights and Fog Signals

1. A white flashing light giving single flash every 10 seconds, 50 metres (164 ft.) above MHW, visible 36·1 km. (19·5 miles nautical) situated in Lat. 29° 04′ 30″ N. Long. 48° 08′ 30″ E.
2. A fog signal on the extreme South end of South Pier with characteristics of one 3-second blast every minute. Approx. position Lat. 29° 04′ 05″ N. Long. 48° 10′ 00″ E.
3. A fog signal situated on the North Pier with a characteristic of 2·5-second blast, 3-second silence, 2·5-second blast, 3-second silence, 2·5-second blast, 46·5-second silence. Approximate position 29° 07′ 24″ N. 48° 09′ 00″ E.
4. A fog signal situated on the Sea Island with a characteristic of 2 × 3 second blasts every 90 seconds. Approximate position 29° 06′ 48″ N. 48° 17′ 29″ E.

DOCUMENTS:

1. To obtain clearance inwards, following documents required by Agents:
   (i) Ship's Register.
   (ii) Safety Equipment Certificate.
   (iii) Safety Radio Certificate.
   (iv) Load Line Certificate.
   (v) Last Port Clearance.
   (vi) Two copies of Crew List showing names, nationalities and passport/seamen's book numbers.

Items (i) to (v) are returned to Master together with Port Clearance (valid 24 hours only) prior to sailing.

2. Customs boarding officers require following:
   (*a*) One Copy of Crew List.
   (*b*) Log Books covering period from last visit.
   (*c*) Completed Customs Declaration Form (supplied by boarding officer).
   (*d*) List of Ports visited with arrival and departure dates since last visit (form also supplied by boarding officer.)
   (*e*) Completed Ballast Form (form also supplied by boarding officer).
3. Immigration officials require the following:
   (*a*) Valid Passport or Seamen's Book – the latter is preferable for landing.
   (*b*) Letter of Guarantee from Agents (iv above).
   (*c*) Two copies of Crew Lists.
4. Early Departure Procedure. KOC Documents Section are now operating an Early Departure Procedure to cut down delays in

documentation. Masters may opt to use this scheme, full details of which can be obtained from KOTC.

5. Discharge Certificates: Discharging certificates of oil cargo loaded from Kuwait and neutral zone ports are to be sent to vessels' local Agent immediately, duly attested by Customs authorities and Arab Consulate covering full quantity as per Bill of Lading.

If a vessel, which has not submitted the certificate for the previous voyage, calls for the second time, she will be allowed to load and sail only after paying a cash deposit of KD 2,000.

In order to avoid delay in berthing, loading and outward clearance for vessels, all owners must give instructions to Agent at discharging ports to forward relevant cargo discharge certificates to Agent at loading ports without delay.

PILOTAGE: Vessels should arrive with sufficient clean ballast for safe manoeuvring under prevailing weather conditions. Under certain conditions the Pilot, after consulting the Harbour Master, may require additional ballast to be run in before berthing.

All berthing, unberthing and manoeuvring of vessels within the port limits, restricted area and prohibited anchorage must be done under the supervision of a KOC Pilot.

It is the duty of the Master to inform the Pilot of any special conditions, difficulties, or peculiarities whatsoever pertaining to his vessel which might impose hazards in connections with the handling, mooring, unmooring, loading or discharging of the vessel.

ANCHORAGES: The suggested anchorages in the port of Mina-al-Ahmadi have been laid out to facilitate shipping in general. These anchorage areas are outside of the port limits and clear of the prohibited anchorage and restricted areas. Depths in the anchorages range from 10 to 15 fathoms, the seabed is of sand and soft coral with mud patches and affords good holding ground.

Incoming vessels are assigned berths by the Harbour Master in accordance with time of arrival, type of cargo required, size of vessel and loaded draft. Endeavour is made to berth vessels on arrival and Masters will be advised prior to arrival of the pier at which they will berth. If a berth is not available, vessels will be requested to anchor in one of the three anchorages as follows:

1. To the North-east of the Sea Island and outside of the restricted area.
2. To the East of the North Pier, outside of the port limits and to the North of the prohibited anchorage.
3. To the East of the South Pier, outside of the port limits and between the Southern limit of the prohibited anchorage and the Northern port limit of Shuaiba Port.

To the East of the port limits exists a prohibited anchorage and a restricted area which embraces the Sea Island and submarine-feeder pipe-lines.

Positions of these areas are:

Prohibited anchorage	29° 05′ 00″ N.	to	29° 05′ 00″ N.
	48° 11′ 30″ E.		48° 15′ 00″ E.
	29° 07′ 00″ N.		29° 07′ 00″ N.
	48° 11′ 30″ E.		48° 15′ 00″ E.
Restricted area	29° 05′ 00″ N.		29° 05′ 00″ N.
	48° 15′ 00″ E.	to	48° 20′ 00″ E.
	29° 09′ 00″ N.		29° 09′ 00″ N.
	48° 15′ 00″ E.		48° 20′ 00″ E.

HEALTH:

Pratique. Depending upon advance radio information, free pratique may be granted by radio before arrival.

Regulations.

(i) All vessels must exhibit quarantine signals until quarantine formalities are completed or free pratique granted. By day, International Code Flag "Q"; by night, red light over white light. No person other than the Pilot is allowed to board any vessel either alongside pier or at anchorage until pratique has been granted.

(ii) Valid smallpox Vaccination Certificates for all crew members and passengers are required. Valid Cholera Certificates will be required from travellers coming from infected areas with the exception of children under one year.

(iii) Rat guards must be fitted to all moorings – this is being rigidly enforced.

(iv) Maritime Declaration of Health Form (supplied by boarding quarantine officer) to be completed.

(v) One copy of Crew List containing dates of vaccination and inoculation is required.

(vi) International Certificates of Vaccination and Inoculation to be available for inspection if required.

(vii) Details of air-conditioning available in vessel (form supplied by boarding officer).

(viii) A valid Deratisation Certificate must be produced. Facilities are available locally for renewal.

RADIO:

1. *Station:* All radio communications to the Company should be quoted in Greenwich Mean Time and should be routed through Kuwait Coast Station 9KK, details of which are given below:

412G Al Kuwait (9KK) 29° 10′ 09″ N. 47° 45′ 42″ E.

Frequency			*Hours*
(9KK) 430,* 450, 500	A1, A2	2 kW.	0300–2100
(9KK2) 4,287	A1	0·75 kW.	On request
(9KK3) 6,370	A1	0·75 kW.	On request
(9KK4) 8,525	A1	0·75 kW.	0300–2100
(9KK5) 12,895	A1	0·75 kW.	0300–2100
2,182, 2,200, 2,750	A3	0·1 kW.	0300–2100

* On request.

Procedure: Transmits traffic lists on 450 kc/s. each even hour; 8,525 and 12,895 kc/s. each odd hour plus 35, listens for 30 mins. thereafter: 2,750 kc/s. each odd hour plus 05.

2. *ETA:* 96 hours before arrival Masters should transmit to Kuoco through Al Kuwait Radio (9KK) the following information required by Kuwait Oil Company.

1. ETA.
2. Cargo and Bunkers required.
3. Notice of any repairs which may immobilise vessel.
4. Any special requirements regarding cargo documents.

The ETA should be confirmed 24 hours before arrival. The Master should also provide Agent with following information prior to arrival:

1. ETA.
2. Last port of call.
3. Any sickness on board.
4. Number of crew members unprotected against smallpox.
5. Number of crew to see doctor or dentist.
6. All requirements – provisions, supplies, lubricating oils, repairs, stores, machinery for landing, crew repatriation, etc.

3. *Radio Beacon:* A low power radio beacon call sign "9KU" frequency 312·6 kc/s. is situated at Lat. 29° 04′ 13·4″ N. Long. 48° 08′ 27·5″ E. Code transmissions are repeated every 20 minutes commencing on the hour throughout the 24 hours as follows: 9KU repeated 3 times for a period of 20 seconds followed by a dash for 20 seconds alternatively for a whole period of two minutes.

NOTICE OF READINESS: (*a*) *Vessels Berthing Direct from Sea:* The vessel will be advised by VHF or signal lamp. "Berthing on arrival" and the "Notice of readiness time" will be taken as the time the Pilot boards the vessel.

(*b*) *Vessels Anchoring and Awaiting Berth:* When a berth is not available, or in the absence of any communication from the shore the time of NOR is taken as the time the vessel anchors in the roads. Time of anchoring, together with position relative to South Pier Control, should be advised to the Harbour Master by VHF or through 9KK as soon as possible. All vessels at anchor are required to be ready to berth on receipt of one hour's notice from the shore; this notice will be given by VHF or lamp and vessels should ensure an efficient watch is maintained to receive this notice.

(c) *Cancellation of NOR:* If after receiving one hour's notice a vessel is not ready to berth when Pilot boards, at the expiry of that notice the original NOR will be cancelled and the Pilot withdrawn. The new NOR will be the time the vessel indicates to the shore that she has rectified the defect that originally prevented her from berthing. As vessels are normally berthed in strict order to NOR time a vessel could lose considerable time through not being ready, and Masters should ensure that delays of this nature do not occur.

TUGS: KOC maintain six diesel tugs for port use. Four of 1,500 h.p. with a bollard pull of 24 tons, and two of 2,500 h.p. with a bollard pull of 30 tons. Four tugs normally maintained on duty at all times. Hire charges for the services of Pilots, tugs and rope launches are covered by comprehensive port charges. Under normal operating conditions, no tug or other craft will come alongside the vessel before the Pilot boards; ship's personnel must not signal for tugs or other boats to come alongside.

MOORINGS: When at berth, vessels must be moored to entire satisfaction of Pilot. Vessels must be ready at all times to put out extra moorings as requested by pier personnel or dictated by weather changes.

Mina-al-Ahmadi is subject to sudden fierce squalls; winds of 70 knots have been recorded, therefore vessel's mooring lines must be checked frequently to prevent excessive movement of vessel in berth. Experience has shown that wholly synthetic moorings have too much elasticity and allow vessel to range or drift away from the berth during periods of adverse weather. Whilst these moorings are acceptable as head/stern ropes, it is felt that the ideal breast moorings should be of wire or a wire rope combination with the end being sent ashore fitted with a synthetic pennant or tail. This type of mooring provides the necessary elasticity while still being able to hold the vessel in position. All vessels moored with automatic tension winches must set the manual brakes on these winches.

BERTHING: There are two piers, 6 buoy moorings (seaberths) and a Sea Island.

South Pier. The South Pier is connected to the shore by an approach trestle, this trestle leaves the shore in position 29° 04′ North, 48° 09′ E., and runs seaward in an 071° 26′ direction for a distance of 4,200 ft. (1,280 m.). The "T" head is formed by the oil pier running Northwards in a 341° 26′ direction for 2,805 ft. (655 m.) and the general cargo/oil pier running southwards in a 174° 26′ direction for 1,076 ft. (328 m.). The pier is a steel piled structure with a wooden deck, 24 ft. above LWOST. The South Pier has 6 oil-loading berths, plus 2 berths which can be used for general cargo or oil loading; details of these berths are as follows:

Limiting Depths and Berth Lengths

Berth	*Depth at LWOST*	*Nominal length*
1	48 ft.	660 ft.
2	47 ,,	675 ,,
3	47 ,,	705,,
4	50½ ,,	765 ,,
5	41½ ,,	765 ,,
6	43½ ,,	705 ,,
9	44 ,,	615 ,,
10	49 ,,	1,050 ,,

All the above berths are equipped with 10-in. cargo hoses and 8-in. bunker hoses. In addition, No. 10 Berth has 8-in. hoses for loading LPG.

North Pier. The North Pier is situated 3·5 nautical miles North of the South Pier and connected to the shore by an approach trestle which runs seaward from 29° 07′ 04″ N. 48° 08′ 10″ E. in a direction of 071° for a distance of 4,754 ft. (1,449 m.); the head is formed by the oil pier which runs Northward in a direction of 341° for a distance of

2,304 ft. (702 m.). The pier is a steel piled structure with a wooden deck, 20 ft. above LWOST. The North Pier has 4 oil-loading berths details of which are:

Limiting Depths and Berth Lengths

Berth	*Depth at LWOST*	*Nominal length*
11	60 ft.	1,008 ft.
12	59 ,,	1,296 ,,
15	57 ,,	792 ,,
16	57 ,,	740 ,,

Berths 11 and 12 each have 4×12 in. cargo hoses, 1×12 in. Chiksan arm and 2×8 in. bunker hoses. Berths 15 and 16 each have a Chiksan loading unit consisting of 4×12 in. cargo arms and 2×8 in. bunker arms. To facilitate the connecting of hoses on Berths 11 and 12, North Pier vessels are requested to retain sufficient ballast so that their manifold height above zero ft. tide does not exceed 60 ft.

Sea Island Terminal. The loading platform of this new terminal is located in position 29° 06′ 48″ N. 48° 17′ 29″ E., approximately 7·4 miles East of the North and South Piers. This terminal is a steel piled structure in 94 ft. of water (LWOST). It consists primarily of a central loading platform with control tower, six mooring and four breasting dolphins, all interconnected by catwalks. The terminal, which lies in 330°–150° direction, is some 1,620 ft. in length. The height above datum of the loading platform is 44 ft. Two vessels can be accommodated at any one time on the terminal. Crude oil is fed to the terminal by a 48-in. submarine line and heavy fuel oil by a 20-in. submarine line. To mark the run of these pipe-lines from the shore, 3 light buoys lettered "A", "B" and "C" have been established. Details are given in the list of Navigational Aids. LFO and DO bunkers are not available at the Sea Island.

Sea Berths. There are 6 sea berths in the port of Mina-al-Ahmadi; 2 are situated to the South of the South Pier and the remaining 4 to the North of the South Pier. They are lettered from North to South, i.e. "H", "E", "D", "B", "A" and "J". Depth of water in the berths varies from 47 ft. to 52 ft. Mooring buoys and submarine pipe-lines for all of these berths are still in position, but none of the berths are in general use at the present time.

Manifold Loading Connection Sizes. North Pier cargo flanges are 12 in. and bunker flanges 8 in. standard 150#ASA. South Pier cargo flanges are 10 in. and bunker flanges 8 in. standard 150#ASA. Sea Island Terminal cargo flanges are 16 in. and bunker flanges 12 in. standard 150#ASA.

Reducers. All vessels using the port of Mina-al-Ahmadi, should be equipped with reducing spools to fit these loading connections. These fittings should be in place prior to berthing to help expedite the vessel's turn-around time.

Slops. A 6 in. slop-line is available on all berths on North and South Piers for reception of slops. For first 3 hours use of this facility is free, for each additional hour or part thereof, a charge of KD. 25 is made. Reception of slops is necessarily slow and a vessel may be considerably delayed in having to pump slops ashore. Vessels are therefore expected to arrive with clean ballast and Masters are asked to certify that all tanks and lines have been thoroughly washed unless "load on top" techniques are being operated.

FUEL: Heavy, light and diesel fuel can be supplied on all berths except the Sea Island, where only heavy fuel is available. Approx. Specifications:

	API	*Viscosity*	*Sulphur content*
Heavy Fuel	15·2–15·8	2,900–3,400	4·0 or less
Light Fuel	19·0–20·0	600	3·5 or less
Diesel Fuel	35·5–36·5	36	1·5 or less

Lubricating Oils are available in drums in limited quantities.

DRY CARGOES: Dry cargo vessels will either discharge into lighters in the anchorage or alongside South Pier at berths No. 9 or No. 10, subject availability of berths.

Cargo Cranes. Portal cranes of 5 tons capacity on berths 9 and 10, also a stiff-leg derrick with a lift of 54 tons on berth No. 10A. However, vessels are expected to have their own cargo equipment ready for use in case this gear is required.

Explosives. Cargo vessels carrying explosives are not allowed alongside piers.

Barges. Company barges available for use in discharging dangerous cargoes or other cargo in the anchorage.

Stevedores. Agents will arrange stevedores to work cargo whilst KOC will provide launch, barge and shore labour.

VHF: A short range VHF radio telephone Port Control system is in operation and continuous watch is maintained on International Channel 16. Port Working Channels are:

Channel	*Function*
11	General Port Working
12	Pilot and Tugs North/South Pier/Sea Island
13	Sea Island Loading
14	Pilot and Tugs North/South Pier/Sea Island
26	Public Correspondence
27	,, ,,

Vessels bound for Mina-al-Ahmadi should contact Port Control calling "Mina South Pier" on Channel 16 a few hours before arrival.

N.B. As Channel 16 is reserved for Calling, Safety and Emergency, vessels should refrain from using this channel unnecessarily.

MEDICAL: Patients will normally be treated at pier dispensaries, where doctors are on duty between 0800–1200 hours and 1500–2000 hours daily. In emergencies doctors are available any time. Patients requiring hospital treatment will be transported by Agents to either KOC hospital in Ahmadi or to State hospital in Kuwait. Dental treatment can be arranged by Agents.

FRESH WATER: *North and South Piers.* Fresh water is in short supply and cannot normally be supplied to ships. In an emergency, small amount may be supplied at cost of KD. 1,000 per ton. Fresh water is not available on the Sea Island.

DEEP WATER DEPARTURE CHANNEL: A comprehensive survey was carried out to determine the route of the departure channel for the larger and deep draft vessels leaving the port of Mina-al-Ahmadi in a loaded condition. This channel is some 28 miles in length; it extends from the Sea Island Terminal to Madaira Reef and is marked by 21 light buoys and 2 light beacons, one established on Taylor Rock and the other on Madaira Reef. In addition to the above aids, Madaira Reef Light Vessel has been re-positioned further to the East and renamed Ahmadi to act as a fairway mark. Vessels which by reason of their draft are confined to this deep water channel and consequently hampered in their freedom to manoeuvre, will exhibit the following signals:

(i) *By day.* A black cylinder 4 ft. long by 2 ft. in diameter exhibited where it can best be seen.

(ii) *By night.* Four red lights vertically disposed spaced 3 ft. apart with an all round visibility of 4 miles exhibited where they can best be seen.

The exhibition of these signals in no way absolves any vessel from taking all appropriate action to avoid collision as required by the International Rules and Regulations for Preventing Collisions at Sea, but if a deep draft vessel is in doubt that an approaching vessel is not giving her sufficient room to manoeuvre she should indicate such doubt by giving at least five short and rapid blasts on her whistle.

Vessels having less draft should when able to do so give way to vessels exhibiting and sounding these signals and indicate this intention by giving one short blast followed immediately by one long blast on the whistle. Normal sound signals for vessels in sight of another should then follow.

Anchoring and fishing are forbidden within the deep water departure channel.

The departure channel is marked by buoys and beacons.

CUSTOMS: Local officials carry out inspection to confirm that all alcoholic beverages are under lock and key during the vessel's stay.

(i) Personal effects mainly required for personal use and not for re-sale or purpose of commercial gain are allowed free of duty. However, all other goods are subject to a 4% ad valorem duty (CIF value). Suppliers invoices and Certificate of Origin are required for clearance.

(ii) Importation and the sale of alcoholic beverages is strictly prohibited.

(iii) All goods for landing from tankers must be declared to boarding Customs Officer and necessary documentation completed.

(iv) Israeli goods, goods made by companies having interest or branches in Israel, Israeli vessels and vessels trading with Israel are boycotted and not allowed entry into Kuwait.

IMMIGRATION:

(i) Nationals of all friendly countries normally allowed to land. Israelis forbidden entry into Kuwait.

(ii) Transit visas should be obtained from Kuwait Embassies and Consulates abroad. However, in emergencies entry visas can be arranged at airport.

(iii) Transit passengers having valid connecting airline ticket to next port are allowed to land without visas up to 24 hours, extendable to 48 hours if required.

(iv) Seamen of all freindly countries normally allowed to land in transit to join vessels, without visas but on Agents guarantee. Advance information regarding names, nationalities, age, sex, etc. is required by Agents in order to facilitate reception and immigration clearance. *N.B.* Thursdays and Fridays are Company holidays.

(v) Seamen allowed to land for hospitalisation, repatriation, transfer, etc., on a written undertaking that all expenses are met by Agents on behalf of Owners.

(vi) Passports must be valid for Kuwait for citizens of all countries. Stateless persons are required to have a visa before arrival in Kuwait.

CONSULS: Most friendly countries maintain Embassies or Consulates in Kuwait Town.

TIME: Kuwait State bases local time on the 45th meridian (GMT plus 3 hours). This time is in force the whole year.

SERVICES: Order avoid delay, vessels requiring any of following services should advise Agent prior arrival giving fullest possible details.

Repairs. Local repair companies can undertake limited repairs of a general nature.

Divers. Services of Company Divers may be available to vessels where it is essential that diver's services required to enable vessel to sail.

Provisions. Normally provisions of all categories are in ample supply and services are operated by various ship chandlers. When ordering stores Master should indicate the ship chandler they wish to use.

Laundry. Some ship chandlers operate a laundry service.

Oil Inspectors. An independent oil inspection service is maintained at Mina-al-Ahmadi by E. W. Saybolt & Co.

Seamen's Services Centres. Centres on both North and South Piers open to visiting seamen from 0700 hours to 2200 hours daily. During these hours, soft drinks, ice cream, cigarettes, postage stamps, etc. may be purchased. A barber's shop is located in each centre. Cinema shows held daily on North and South Piers. Timing of these shows is arranged as far as is possible to accommodate ships' crews. Details of day's programme available from Services Centre on each pier. Film exchange facilities available at both centres.

Lloyds Register of Shipping. Office in Kuwait Maritime and Mercan-

tile Co. building and undertake all marine and non-marine work. Lloyds Register of Shipping, PO Box No. 78, Kuwait, Arabian Gulf. Tel. 34181. Cables: "Gray Kuwait". Telex: 005. Surveys, etc. for other classification societies can be arranged through KOTC.

SHORE LEAVE: Ship's personnel and passengers not permitted ashore for any purpose whatsoever until pratique granted. All shore leave is contingent upon compliance with quarantine regulations and, under limited conditions and hours, shore leave may be granted. Masters should consult Agents to obtain the necessary passes.

REGULATIONS:

(*a*) *Local laws.* The laws of Kuwait are in force at the port of Mina-al-Ahmadi. Masters and crew members are advised for their own protection to abide by them. Comprehensive regulations governing the use of the port are promulgated in Law No. 21 of 1961. Masters of visiting vessels should acquaint themselves with this law.

(*b*) *Pollution.* The State of Kuwait has stringent laws in force concerning the pollution of the sea by oil. The following are two amended paragraphs of this law:

Paragraph 1, Art. 4. "A person responsible for any pollution as described in Articles 1 and 2 shall be punished by a fine of not less than one thousand and five hundred and not more than six thousand Dinars. In the event of his committing a similar crime within a period of one year from the date of his conviction, such a person shall be punished by a fine of not less than three thousand and not more than six thousand Kuwaiti Dinars, and in the event of his committing yet another crime within a year from this last conviction he shall be punished by a fine of six thousand Kuwaiti Dinars".

Paragraph 3, Art. 6. "The person responsible for pollution may suspend the detention order against the ship on payment, as a cash guarantee, of six thousand Kuwaiti Dinars to the official entrusted with the execution of such order."

(*c*) *Certificates.* All vessels must comply with International Safety Regulations and ensure that ship's certificates, i.e. Safety Radio, Safety Equipment and Load Line are valid. Facilities are available for renewal or extension providing proper notice is given. At least 48 hours should be allowed *excluding* Thursday, Fridays or other local holidays.

AGENT: Kuwait Oil Tanker Co., PO Box 7055, Fahaheel, Kuwait. Cables: "Minatank Kuwait". Tel. 911, 759, 911–811. Telex. 176 and 014. (For Agency of dry-cargo vessels – see "Shuwaikh".)

SHUAIBA: 29.02 N. 48.08 E.

All vessels should hoist the Kuwait flag.

PORT LIMITS: Shuaiba port limits defined as follows:

Inner Harbour: *On the West* by the coast line. *On the North* by a line from the coast due East on parallel 29° 02′ 45″ N. to 48° 12′ 42″ E. *On the South* by a line from the coast on parallel 29° 01′ 45″ N. and East to 48° 09′ 58″ E. Thence, 45° to 29° 02′ 00″ N. through 48° 10′ 15″ E. Thence, due East parallel 29° 02′ 00″ N. to 48° 12′ 42″ E.

Outer Harbour: *On the North* by parallel 29° 02′ 45″ N. *On the South* by 29° 02′ 00″ N. *On the West* by 48° 12′ 42″ E. *On the East* by 48° 15′ 07″ E.

Shuaiba port includes the main quay, the barge and small boat jetty and the oil pier.

DOCUMENTS: 10 copies of Cargo Manifest (3 copies duly signed by Agent at loading port) and one copy each of hatch list and stowage plan. Also 2 copies of Crew List to be presented to Customs Office.

N.B. A copy of complete set of Inward Manifests and a copy of the Stowage Plan covering cargo for discharge at Shuaiba has to be passed to Authorities by Agents at least 24 hours before vessels expected time of arrival, otherwise berthing likely to be delayed.

PILOTAGE: Pilotage available and request for Pilot should be made to Port Signals Station, or to look-out Signal Station when in use.

ANCHORAGE: (Also see "Radio".) Safe anchorage will be found in following positions: Latitude 29° 02′ 24″ N. Longitude 48° 12′ 15″ E. With KOC South Pier, Mina-al-Ahmadi bearing 305° 2·7 miles, bearing from seawards. Gives good anchorage in 10 fathoms, good holding sand and clay.

MAX. SIZE: See "Berthing".

HEALTH: All vessels are boarded by quarantine officer and pratique is given only after checking valid Cholera and Vaccination Certificates.

RADIO: Give ETA well in advance and confirm ETA 48 hours before arrival through Kuwait Coast Station 9KK. A shore station at Shuaiba has been established and operates on following frequencies: 156·80 Mc/s. PS: Channel 16, int'l and safety channel. 156·65 Mc/s. PS: Channel 13, port and operations channel. 156·45 Mc/s. PS: Channel 9, berthing operations channel.

TUGS: Tugs lines will be used.

BERTHING: Vessel has to give arrival time and fore and aft draft to Harbour Master. Normal official hours for berthing and departure on Saturdays through Wednesdays, count from 0700 to 1600, on Thursdays from 0700 to 1200.

A. Main Quay Mole: Has two berthing areas: sea side and shore side. Effective Berthing Area Shore Side: 457·20 m. = 1,500 ft. Will accommodate three 500 ft. vessels on the following drafts: Inside Berth No. 1: draft 9·14 m. = 30 ft. Middle Berth No. 2: draft 10·67 m. = 35 ft. Seaward Berth No. 3: draft 10·67 m. = 35 ft. Effective Berthing Area Sea Side: Main quay mole: 350 m. = 1,148 ft. Consisting of No. 4 and 5 Berths which will each accommodate a 350 ft. vessel on 22 ft. draft. They can be used only during fine weather. Seaward side berths are to be used in fine weather and are not fitted with travelling cranes. Two 10-ton mobile cranes are available when required.

B. The Oil Pier: Runs slightly West of North, and slightly East of South, has two loading berths, one seaward and one inshore. Seaward Berth: Length 300 m. = 948 ft. Will accommodate a vessel of 275 m. = 900 ft. on 45 ft. draft providing connections reasonably centred on vessel. Inshore Berth: Length 260 m. = 852 ft. Will accommodate a vessel of 245 m. = 800 ft. on 40 ft. draft. Barge Harbour: Situated North of the main quay mole which will accommodate barges and small crafts of less than 4 m. = 13·1 ft.

C. Cargo Loading Facilities – Oil Pier: Loading points on seaward berth situated in middle of berth. Loading points are 450 ft. from causeway on inner berth. Seven feeder lines in each berth: One 20 in., three 16 in., two 12 in., and one 8 in. These are connected to 12 in. loading lines for connection to vessel. The loading lines are all metal – supported by a loading arm.

D. Shore Facilities: Oil Pier: Slop discharge line 8 in., and fresh water line with 4 in. main lines, branch lines 3 in. with 8 fresh water hydrants. Loading rates of water: 20 tons per hour. Main Quay Mole: The shore side of the main quay mole is fitted with 5 electric travelling cranes, 3×5 tons capacity and 2×3 tons capacity.

E. Allocation of Berths:

Berth No.	*Allocation*
1	Discharging
2	Loading
3	Optional – Discharge/Load
4	Optional – Discharge/Load
5	Optional – Discharge Load

The allocation of an optional berth is at the sole discretion of the Harbour Master and Traffic Manager.

A vessel arriving at the port to load may berth at No. 1 and similarly a vessel wishing to discharge may berth at No. 2, but it must be clearly understood that any vessel so doing is only berthed at that berth on sufferance and will be required to vacate the berth if a vessel arrives which has a claim to it.

STEVEDORES: Stevedores aboard ship will be provided by ship's Agent. Labourers in barges and ashore will be provided by port of Shuaiba but under ship's responsibility for breakage, pilferage, etc. Vessels will be required to maintain a minimum daily tonnage dependent on the type of cargo they are carrying. Ships failing to achieve the average daily rate laid down will be liable for a penalty charge of (approx.) KD.200 per day, for every day or part thereof, they remain on the quay over the prescribed period.

Minimum Daily Rates. Cement, 1,700 tons; fertiliser, 1,700 tons; charcoal, 800 tons; general cargo, 400 tons.

Shore cranes are available for ships to enable them to achieve these rates and ships Agents, importers and exporters are expected to make use of them.

No cranes over 20 tons lifting capacity available. Regarding landing of heavy lifts on quay, permission has to be obtained from the Port Authorities each time in advance. On the quay pieces up to 300 tons have been discharged.

MEDICAL: Advance notice required if medical attendance needed on board.

DENSITY: 1025.

FRESH WATER: Also see "Berthing – D". All berths fitted with fresh water connections. Cost of water (approx.) fils 280 per ton. No water barge available. Vessels can obtain water according to requirements.

FUEL: The Kuwait National Petroleum Co. KSC, Kuwait, supply marine fuel and diesel oil at cargo wharf and oil jetty at Shuaiba. Specifications as under:

	FO 1500	*MDO*
Ash % wt. max.	0, 5	0, 01
Pour point degs. C (degs. F.) Max.	10 (50)	2 (35)
Specific Gravity 60/60 degs. F. max.	0·99	–
Sulphur % wt. max.	3·7	1·8

Bunker nomination is to be arranged through Kuwait National Petroleum Co. (U.K.) Ltd., 25 St. James Street, London S.W.1; cables: "Kunpetco", London S.W.1. Telex: 261998.

Facilities on main quay mole for bunker fuel, gas oil and marine diesel oil in berths 1 through 4 only.

DEVELOPMENTS: The port of Shuaiba, mainly intended for exports, will be extended by adding another finger jetty able to accommodate 3 more ocean-going vessels. This is a 5-year plan.

GANGWAY/DECK WATCHMEN: Not necessary in port area.

OPENING/CLOSING HATCHES: Opening and closing of hatches normally carried out by stevedores on liners, and by ship's crew on charter vessels.

CERTIFICATES: All usual documents such as:

Ship's Manifest.
Bill of Health.
Crew List.
Clearance from Last Port.
Passenger Manifest, if any.
Store List.
Bonded Store List.
Safety Radio Certificate.
Bill of Measurements, etc.

CUSTOMS ALLOWANCES: Tobacco. No restrictions. Wine and/or spirit. Alcoholic beverage strictly prohibited to be held out of bond. Master allowed to keep limited quantity in his cabin.

CARGO GEAR: Ship's gears and shore cranes used for discharging; slings and pallets can be hired from the port. Shore cranes capacity 3–5 tons.

IDENTIFICATION CARDS: Passport or seamen's book necessary.

CONSULS:

Algeria	31587	Republic of China	23993
Czechoslovakia	23806	France	25066
India	33852	Iran	39506

Sudan	39551	Syria	31705
Tunis	28361	U.A.R.	39555
U.K.	32047	U.S.A.	24156
U.S.S.R.	31422		
Consular:			
Austria	33666	Belgium	21899
Costa Rica	27185	Cyprus	33075
Denmark	23376	Germany	23031
Norway	33735	Paraguay	35147
Sweden	26908	Switzerland	31142

REPAIRS: Small repairs can be arranged if sufficient notice is given.

DRY DOCK: No dry dock available.

REPATRIATION: Can be arranged. Entry visa regulations have been enforced in Kuwait, and the following is roughly the procedure in respect of crew changes:

1. Seamen arriving at Kuwait Airport to join vessels at Kuwait and neutral zone ports can obtain transit visa at Airport, if Agents arrange to submit necessary guarantee to Immigration authorities confirming that they are in transit and joining vessels calling at Kuwait and/or neutral zone. Order meet crew at airport and arrange transit visa, cables confirming their arrivals and flight numbers are to be sent to Agents to reach them at least 24 hours before arrival of crew.
2. Marine superintendent of owners, or owners' respresentative and businessmen visiting Kuwait must have valid visas. Such visas can be obtained from Kuwait Government's diplomatic missions abroad.

TIME: GMT plus 3 hours.

HOLIDAYS: New Year's Day, Eid Al Fitr, Accession to the Throne, Eid Al Haj, 1st Muharram, Prophet's Birthday, Rajab. Dates are subject to alteration.

TELEPHONES: Telephone sockets fitted on North side of Main Quay Mole for convenience of vessels requiring a telephone on board.

SPECIAL SERVICES: Swedish Welfare for Seamen; Lloyd's surveyor; Butterworth Tank Cleaning Machines and Equipment; and also underwater cleaning.

SHORE LEAVE: Permitted.

PORT REGULATIONS: Until further notice all Kuwait Customs and Port Regulations will be effective at Shuaiba port including prohibition of sea water pollution.

AGENT: For dry-cargo vessels only: International Shipping Agency Ltd., Abdulla Ali Reza Building, Fahd Al Salem Street, POB 20637, Kuwait, State of Kuwait. Cables: "Shipagent", Kuwait. Tel. 205 07, 269 08, 228 41. After office hours: 218 52, 314 29. Telex: 208 (answer back: "Isaship Kuwait").

SHUWAIKH: (Kuwait Harbour) 29.21 N. 47.55 E.

DOCUMENTS: 11 copies of Cargo Manifest, whereof 3 copies duly signed by Agent at loading port, and one copy each of Hatch List and Stowage Plan. Also 2 copies of Crew List to be presented to the Customs Office.

PILOTAGE: Pilotage service available and request for Pilot should be made to Port Signals Station, or to look-out Signal Station when in use. Ships proceeding through the dredged channel to Shuwaikh are boarded by the Pilot in the anchorage.

ANCHORAGE: Vessels anchor without Pilot in position 29° 20′ 5″ N., 47° 56′ 02″ E.

MAX. SIZE: Draft 29 ft. 6 in. Vessels of more than 22 ft. draft have to wait for tide.

HEALTH: All vessels boarded by quarantine officer and pratique given only after checking documents concerned.

RADIO: Kuwait radio 9KK. ETA messages and draft (fore and aft.) should be sent via Kuwait Radio simultaneously to Harbour Master, Port of Kuwait, and also to Agent, at least 24 hours prior arrival. The cable should be received by the port at least 12 hours prior to arrival. Should the vessel fail to give this notice, the port will only decide on her turn of berth the following morning. Thus an unnecessary delay of 24 hours might occur.

Registration Procedure (To register turn for berth before proceeding to another port).

1. Prior to arrival Master to telegraph Harbour Master, Kuwait, stating his wish to register, stating draft fore and aft, ETA, and that all Kuwait cargo is clear to discharge.
2. If Master does not request confirmation of registration, the signal station and the port takes it for granted that vessel awaits her turn staying in the anchorage, and will usually not confirm the registration for turn.
3. On arrival Kuwait anchorage Master to contact signal station by VHF or visual signals requesting confirmation of registration.
4. The vessel should not leave until such confirmation is received. Confirmation will only be given by the signal station, which accepts registrations during 24 hours.
5. Upon receipt of confirmation the vessel can leave at once. Agents will cable via Kuwait Radio the return date given by port, that is the time the vessel should be back in Kuwait.
6. A stowage plan must be shown to the port within 24 hours after registration.

TUGS: Join vessel entering dredged channel. Tug's lines used. The use of tugs by ships manoeuvring within Shuwaikh port limits under direction of Harbour Master or Pilots. Number of tugs used for each movement: (*a*) Two tugs for ships exceeding 400 ft. in length. (*b*) One tug for ships between 250 ft. and 400 ft. in length.

BERTHING: (Also see "Radio".) 4 deep berths alongside, two buoys, and 4 shallow draft berths. The vessels' berthing turn is decided at the "Port Meeting" held in the morning on all port working days.

1. Notification of vessels arrival. According to port regulations a questionnaire issued by the Harbour Master, duly filled in and signed by the Captain of the vessel, is to be submitted to the port prior to berthing. In many cases vessels arrive and obtain berth immediately and thus there is no possibility of presenting the questionnaire to Authorities in time. In order avoid berthing delays Masters should cable following information to the Harbour Master directly:
   (*a*) ETA.
   (*b*) Total cargo for discharging Kuwait.
   (*c*) Distribution quantity each hatch.
   (*d*) Declaration hazardous, inflammable and explosives cargo, and guns and ammunition.
   (*e*) Declaration all vessels winches in good working condition and cargo clear for discharging at Kuwait.
   (*f*) Draft fore and aft.

   We quote below specimen cable covering the above:
   "Vessel XXX ETA Kuwait 21/8 0600 local quantity discharging 1,400 tons general hatch one 300 hatch two 300 hatch three 250 hatch four 300 hatch five 250 no hazardous, inflammable explosives guns ammunition stop All winches derricks good working condition draft fore 24 ft. Aft 27 ft.".

   The above cable sent to the Harbour Master will facilitate berthing vessel on time.
2. Vessels with a cargo of up to 400 measurement tons will be given priority alongside pier.
3. Vessels carrying up to 500 tons weight will be given priority to discharge at the buoys providing heavy lifts do not exceed 20 tons, or vessel does not carry reefer cargo.
4. A vessel that intends to stay in the anchorage in Kuwait until her turn will be allowed to shift over-stowed cargo while waiting.
5. Liners carrying cement in bags will still be considered as liner ships. Thus they will not be taken out to wait their turn at the cement berth.
6. Vessels berthing at the buoys have to keep mooring chains ready.
7. Berths nos. 6 and 7 are now in commission, details as follows,

Berth No. 6	*Berth No. 7*
22 ft. 6 in. draft	15 ft. draft
No bunker line	No bunker line
No fresh water line	No fresh water line
No crane	No crane

These two berths will be dredged in due course to about 30 ft.

STEVEDORES: Aboard ship will be provided by the Agent. Labourers in barges and ashore will be provided by the Port of Kuwait but under ship's responsibility as for breakage, pilferage, etc. Small number of mobile cranes with lifting capacity up to 40 tons. However mobile cranes can only be used in port area for discharging barges alongside. Cranes are too small to be used for discharging from liner vessels and therefore, pieces over 6 tons to be discharged by vessels own gear. Heavy lifts up to 100 tons have been discharged by vessels own gear on to quay without any difficulty.

MEDICAL: Masters to radio prior arrival if medical attendance required on board.

DENSITY: Salt water.

FRESH WATER: Available in all berths alongside. Vessels can obtain water according to requirements. For vessels discharging at dolphins and at anchorage, water is supplied by water barge. Cost of water is fils 250 per ton at dolphins and also at anchorage. The extra barge transport for supply at dolphins and at anchorage is KD.30. – for 100 tons capacity barge and KD.50. – for 200 tons capacity barge (approx.).

FUEL: Diesel oil and light fuel obtainable alongside Berth Nos. 1–4. Other grades at Mina-al-Ahmadi.

FIRE PRECAUTIONS: Kuwait Fire Brigade is responsible for all fire fighting in port areas and a new fire station is being built at Shuwaikh to cover the new port area and port storage areas. There is also a fire station situated in Kuwait Small Boat Harbour area. A salt water main for the fighting services is laid-on at the new deep water berths at Shuwaikh. The Kuwait fire service also maintain two 90 ft. fire fighting tenders each of which is capable of pumping 5,000 gallons of water per minute from four nozzles. In addition they can pump 900 gallons of foam per minute. These modern fire-fighting units are equipped with radio, radio telephone, radar and echo sounding.

DEVELOPMENT: The port has at the moment 4 deep berths, 4 shallow, plus 2 buoy berths. Another deep berth will be ready in one year. Additional 2 deep berths will be ready in about five years. Shuwaikh will be dredged up to 24 ft. at low tide.

GANGWAY/DECK WATCHMEN: Available, but not necessary in port area.

OPENING/CLOSING HATCHES: Opening and closing of hatches is normally carried out by the stevedores on liners, and by ship's crew on charter vessels.

CUSTOMS ALLOWANCES: Tobacco: No restrictions. Wine and/or spirit allowance: Alcoholic beverage is strictly prohibited to be held out of bond. Master allowed to keep limited quantity in his cabin.

CARGO GEAR: Ship's gear and cranes used for discharging. Slings and pallets can be hired from the port.
IDENTIFICATION CARDS: Passport or seaman's book necessary.
CONSULS: (Embassies):

REPAIRS: Small repairs can be arranged if sufficient notice is given.
DRY DOCK: No dry docking facilities.
REPATRIATION: Can be arranged. Seamen arriving at Kuwait Airport to join vessels at Kuwait ports can obtain transit visa at the airport if Agents arrange to submit the necessary guarantee to the Immigration Authorities confirming that they are in-transit and joining vessels calling at Kuwait. In order to meet the crew at airport and arrange transit visa, cables confirming their arrivals and flight numbers are to be sent to Agents to reach them at least 24 hours before arrival of crew. Marine Superintendent of Owners, or Owners' Representatives and businessmen visiting Kuwait must have valid visas. Such visas can be obtained from Kuwait Government's diplomatic missions abroad.
AIRPORT: Served by regular airlines.
HOLIDAYS: New Year's Day (January 1); Eid Al Fitr (January 1–3); Accession to the Throne (February 25); Eid Al Haj (March 11–14); 1st Muharram (March 30); Prophet's Birthday (June 9); Rajab (November 2); The above dates are subject to alteration.
POLICE/AMBULANCE/FIRE: Police 30986; Ambulance 8215; Fire 32038.
TELEPHONES: Cannot be arranged on board.
PROVISIONS: All kinds of food available at reasonable prices.
SERVICES: Swedish Welfare for Seamen. Lloyd's Surveyor. Butterworth Tank Cleaning Machines and Equipments and also under water cleaning.
SHORE LEAVE: Permitted.
REGULATIONS: The State of Kuwait has stringent laws in force concerning the pollution of the sea by oil. The following are two amended paragraphs of this law:

Paragraph 1, Art. 4. "A person responsible for any pollution as described in Articles 1 and 2 shall be punished by a fine of not less than one thousand and five hundred and not more than six thousand Dinars. In the event of his committing a similar crime within a period of one year from the date of his conviction, such a person shall be punished by a fine of not less than three thousand and not more than six thousand Kuwaiti Dinars, and in the event of his committing yet another crime within a year from this last conviction he shall be punished by a fine of six thousand Kuwaiti Dinars".

Paragraph 3, Art. 6. "The person responsible for pollution may suspend the detention order against the ship on payment, as a cash guarantee, of six thousand Kuwaiti Dinars to the official entrusted with the execution of such order."
TIME: GMT plus 3 hours.

AGENT: International Shipping Agency Ltd., serving: Kuwait (Shuwaikh), Mina-al-Ahmadi, Shuaiba, Mena Abdulla, Mena Saud, Khor-el-Mufatta, Ras-al-Khafji. Head Office: (Kuwait) International Shipping Agency Ltd., Abdulla Ali Reza Building, Fahd Al Salem Street, POB 20637, Kuwait, State of Kuwait. Cables: "Shipagent", Kuwait. Tel. 205 07, 269 08, 228 41. After office hours: 218 52, 314 29. Telex: 208 (answer back: "Isaship Kuwait").

In Mina-al-Ahmadi and Shuaiba Agents for dry cargo vessels only. Correspondence and cables for all ports in Kuwait and the Partitioned Zone should be addressed to the Kuwait head office.

Lebanon

BEIRUT (Beyrouth): 33.54 N. 35.30 E.

DOCUMENTS:

Manifests should be visaed by Lebanese Consul at ports of shipment, or at any port *en route* where there is a Lebanese Consul. If on account of non-existence of Lebanese Consul at ports of shipment or at any of these *en route* the manifests are not visaed, then such consular visa dues are collected at Beirut.

5 Copies of Cargo Manifests.
2 Store Lists.
5 Passenger Lists.
2 Lists of Cigarettes and Tobacco. (See "Customs Allowances").

PILOTAGE: Agent arranging Pilot via Harbour Master. Agent therefore to be kept well informed of ETA, 48 hours and 24 hours prior arrival. Pilot boat white with red funnel. Sound signals, two long and one short or via VHF to Harbour Master. Pilot boarding outside main breakwater. Assistance of Pilot outside daily normal hours, Sundays and official holidays, will be cost calculated at 100% more. Official normal working hours for pilotage station as follows: from 1st October up to 30th April, 07.00 till 17.00 hr.; from 1st May up to 30th September, 07.00 till 18.00 hr. For tankers outside harbour, the pilotage dues will be 100% more.
ANCHORAGE: In roads outside breakwater.
RESTRICTIONS: No particular restrictions. Pilot available between sunrise and sunset otherwise by special agreement with Pilot.
MAX. SIZE: Maximum draft in port 13 metres. No limitation to breadth or length.
HEALTH: Health authorities boarding in roads. Health form obtainable from Agent or doctor. Smallpox and yellow fever certificates for ships coming from Far East and Red Sea. Owners should check with Agents respecting any recent imposition of anti-epidemic regulations and requirements for additional injections for crew members.
RADIO: Cables via Beirut Radio to and from Agent.
TUGS: Tugs of 1,000 h.p. joining vessel inside port when necessary. Ship's lines to be used.
BERTHING: If port congested priority given to vessel already registered. Passenger-tourist vessel and cargo for army have priority. Harbour capable of berthing simultaneously 24 ships and three moored on buoys, discharging into barges. All discharging is by ship's gear.

Dock No. 1. Surrounded by quays nos. 1, 2, 3. Depth of water varies between 3 and 8 metres. Parts of quay no. 1 and quay no. 2 with 3 metres depth of water are reserved for floating units of port company and for launches of Harbour Master and pilotage service. Slipway of 1,000 tons capacity and workshops.

Dock No. 2. Surrounded by quays nos. 4, 5, 6, 7, with water depths varying between 8 and 10·5 metres. On quay no. 5 berthing priority is given to passenger ships, while the other quays are for cargo vessels.

Dock No. 3. Surrounded by quays nos. 8, 9, 10, 11, with depths varying between 10·5 and 13 metres. All these quays can berth ships bringing general cargo. At quay no. 8 of 13 metres depth, priority of berthing is given to grain ships.

Grain Silo. At the present time bulk grain ships are unloaded by means of removable suction machines, which can be installed on the ships and deliver the grain to lorries for direct transport. Under construction is a 60,000 metric tons capacity silo, expected ready end 1970. Ships will be unloaded by means of two gantry type suction machines, mobile on rails with a capacity of 6×100 tons per hour. An eventual extension is already designed which would increase capacity of silo to 105,000 tons.
STEVEDORES: Ordered by Agent. No ETA to Stevedores necessary. Working hours, 08.00–12.00, 13.00–16.00. Otherwise overtime incl. on Sundays and on official holidays.
VHF: VHF over Channels 13 and 16, Frequency 156·6 and 156·7.
MEDICAL: Master to advise Agent by cable prior to arrival if medical attendance required.
DENSITY: 1025.
FRESH WATER: The port company has equipped all quays with hydrants. Berthed ship can be supplied with water while loading and unloading. Ships moored on buoys can also be supplied with water from cistern barge. By shore installation or by barge, Leb. £0.65 resp. Leb. £2.00 per ton. Delivery rate 20/25 tons per hour. Outside harbour double price per barge.
FUEL: Fuel, gas oil, diesel obtainable. 48 hours notice required.
FIRE PRECAUTIONS: Special berths for tankers. No smoking.
DEVELOPMENTS: Discussions about a fourth basin.
GANGWAY/DECK WATCHMEN: Available and recommended Costs Leb. £10. – per day and Leb. £15 – per night (approx.).
OPENING/CLOSING HATCHES: For liners by stevedores, otherwise per agreement.
ALLOWANCES: (Tobacco) 40 cigarettes per crew member. Customs very strict, checking crew cabins. Regulations are as follows:

1. That the quantity of tobacco to be allowed on board vessels upon their arrival at a Lebanese port, will be fixed on the basis of two packets per crew member, passenger per day and to be calculated on a maximum period of four months, if the vessel emanates from an American, Asian or African port – not central Africa; and for two months if the vessel last port of call is in Europe, Central Africa or Mediterranean, which will be deducted from the quantity, and, on the same basis the consumption by the crew members and passengers during their trip, and this to start from the last port of call until arrival at a Lebanese port. That the number of passengers to be taken into account on a tourist vessel, will be the number of berths the vessel can accommodate and not the number of passengers actually on board. As to cargo vessels, the actual number to be accounted for will only be the crew members and the Master of the vessel.

2. In the event that it is the first call of the vessel at a Lebanese port and not aware of such regulations, and it was found onboard her an excess quantity to the actual one allowed, as indicated above, a Proces Verbal will be established for the excess quantity found and the cigarettes placed under seal. An undertaking is also to be obtained from either the Owners and/or her Agents to the effect that they will submit a certificate, within one month, to be issued by the relevant Customs Authorities of the next port of call of the vessel after a Lebanese port. While the seizure on the vessel will be lifted when a Bank Guarantee equalling the amount of fine and dues is placed, or a personal guarantee from the Agent – if solvable – and in the event that the undertaking is not fulfilled the usual penalties will be inflicted according to the Law.

3. In the event the vessel is aware of such restriction, and for one reason or another, she is carrying an excess quantity, this excess must be, as per official regulations, be shown on the manifest legalised and issued at the last port of call touched by the vessel prior to Beirut. Any excess found over and above such declaration will be considered as smuggling and the law will be applied.

Wine and/or Spirits: One bottle per crew member. Captain allowed 3/4 bottles.

CARGO GEAR: Ship's Gear to be used.

IDENTIFICATION CARDS: Shore pass given to each crew member. Passport and seaman's book to remain in Captain's care.

CONSULS: Most countries have consulates.

REPAIRS: Most types of repairs carried out.

DRY DOCKS: None except for 500/1,000 tonner.

REPATRIATION: Very good facilities for repatriation.

AIRPORT: About 10 km. distant, served by regular airlines.

TIME: GMT plus 2 hurs. all year round.

HOLIDAYS:

Holidays	*Date*	*Days*
New Year's Day	January 1	1
Al-Adha (Kurban Bairam)	Varies	2
Ashoura	,,	1
New Year (Islamic)	,,	1
Arab League Day	March 22	1
Good Friday	Varies	1
Easter Monday	,,	1
Good Friday (Orthodox)	,,	1
Easter Monday (Orthodox)	,,	1
Labour Day	May 1	1
Martyr's Day	May 6	1
Ascension Day	Varies	1
Mohamed's Birthday	,,	1
Assumption Day	August 15	1
All Saints' Day	November 1	1
Independence Day	November 22	1
Ramadan	Varies	2
Christmas Day	December 25	1

Port closes completely: New Year's Day, Al Adha, Easter Monday, Labour Day, Independence Day, 1st day of Ramadan and Christmas Day. On other holidays, day work in port carried out against overtime payment.

POLICE/AMBULANCE/FIRE: Telephone numbers: Police 16, Ambulance 18, Fire 17.

TELEPHONES: On request by shipping agency, berthed ships can be connected to telephonic network of city. Arrangeable at Leb. £10.

SERVICES: Tank-cleaning equipment. Facilities for discharge of tank-washings, compass adjusting, laundry, etc., available.

SHORE LEAVE: Crew allowed onshore.

DELAYS: 1. Unavailability of berth or barges due congestion mainly during winter months (December to April). 2. Vessel already registered will lose turn if not back to port in time. 3. Barge ordered for bunkering might be occupied if vessel's arrival delayed.

AGENT: Gulf Agency Co. (Lebanon) Ltd., PO Box 4392, Beirut, Lebanon. Cable address: "Gacship". Telex 906 (answerback: "Gacship Beryt"). Telephones, 29 67 33, 25 65 16 AO 30 78 02. Office in El Arz Street, Modern Building.

CHEKAA: 34.20 N. 35.43 E.

Port is used for cement loading and discharge of sulphates.

ANCHORAGE: Safe anchorage in Chekaa Bay.

MAX. SIZE: Draft up to 26 ft. 6 ins. (in calm weather) alongside quay. In event of swell, vessel required to leave quay and anchor in bay.

LOAD/DISCHARGE: 800/1,000 metric tons per 24 hours.

AGENT: See "Beirut".

RAS SELAATA: 34.16 N. 35.39 E.

Port is used for discharge of sulphates and sulphuric acid.

MAX. SIZE: Up to 21 ft. draft (in calm weather) alongside pier which has two cranes.

AGENT: See "Beirut".

SIDON: 33.30.04 N. 35.20.31 E.

OPERATORS: Trans-Arabian Pipe-line Company, Sidon Terminal. The Company transports crude oil from Saudi Arabia via pipe-lines and exports from terminal South of Sidon (Saida). Terminal operates 24 hours a day, seven days a week.

FLAG: All vessels required fly Lebanese Ensign on foremast during daylight hours. Lebanese flags may be obtained from ship's Agent.

LOCATION: Sidon Terminal is open, unsheltered roadstead, situated immediately North of Zahrani River, about 5 miles South of city of Sidon (Saida), Lebanon. It is approximately 35 miles South of Beirut, and 17 miles North of Tyre.

DESCRIPTION: Terminal's Tank Farm consists of 23 storage tanks situated East of terminal at 360 ft. (average) above sea level. Marine and administrative offices, a laboratory for testing stocks, three large and three small storage tanks all located within area just above sea level. An "L"-shaped pier for harbouring Company's marine craft extends approximately 1,000 ft. from shore near Southern end of berthing area.

NAVIGATIONAL AIDS: Terminal sea buoy approximately one mile westward of mooring berths in 98 ft. of water. Position 33° 32′ 02″ N.; 35° 19′ 16″ E. Buoy painted white and exhibits flashing white light every four seconds (flash 0·3 seconds, eclipse 3·7 seconds). Lantern 11 ft. above water and visible 8 miles. Mooring Master will board vessels within two miles to Westward of this buoy. Vessels should not enter inside restricted area described by a line joining South-west buoy and North-west buoy with terminal sea buoy unless so directed by Mooring Master.

Radio beacon tower located 1,200 ft. back from beach, South-east of moorings. Occulting red light (about 30 flashes per minute) mounted on top, elevation 184 ft. above sea level; position 33° 30′ 04″ N.; 35° 20′ 31″ E. Tower also marked with two sets fixed red lights located respectively 45 and 90 ft. below occulting red light. Radio beacon is automatic and operates on 24 hour basis on frequency of 296·5 kc/s, with "SAD" as the identifying call sign. It will signal two times over a 10-second period and then give a constant 1,000 cycle tone for 72 seconds. Tower is of cage-type construction, painted red and white. About 2½ miles South-west of terminal sea buoy and approximately 2 miles offshore is rocky shoal with approximately 32 ft. of water over it. Outside this shoal is a lighted buoy, painted red, in 51 ft. of water, showing flashing red light every 4 seconds (flash 0·3 seconds, eclipse 3·7 seconds). This buoy moored in 33° 30′ 21″ N.; 35° 18′ 04″ E. Lantern 11 ft. above water and visible 5 miles. Vessels approaching from Southward should keep offshore until radio beacon tower bears 100° true before hauling-in.

"Sailing Directions for the Mediterranean" (U.S. Navy Hydrographic Office Publication No. 154A Vol. IV) reads in part:

"*Caution:* As the coast between Saida and Tyre, 20 miles South-South-westward, is bordered in places by rocks and shoal water extending as far as one mile offshore, it should not be approached closer than 1½ miles, nor within depths of less than 16 fathoms."

Unlighted, white painted spar buoys mark North-west and South-west corners of restricted area. North-west buoy in 78 ft. of water and located approximately 33° 33′ 35″ N.; 35° 21′ 13″ E. South-west buoy in 57 ft. of water and located approximately 33° 30′ 20″ N.; 35° 19′ 36·5″ E. During darkness terminal range lights and mooring buoy marker lights may be visible. These lights are located inside the restricted area.

A conspicuous water tank (painted in black and white vertical bands) on a tower located 33° 29′ 27″ N.; 35° 21′ 10″ E., the top of which has elevation of 460 ft. above sea level. Location is seaward of centre oil storage tanks.

There are a number of smaller radio towers to North-west and South-west of beacon tower. South of terminal, at Medreco Refinery, is a conspicuous black stack located 33° 29′ 31″ N.; 35° 20′ 08″ E. A little farther North-west from this stack is a tall pipe painted aluminium with a flare on top at 33° 29′ 35″ N.; 35° 20′ 03″ E.

DOCUMENTS:

Health Declaration: International Health Form to be filled out by Master on arrival.

Cargo Manifest: No cargo arrival manifest required, as same usually prepared by local Agent.

Clearance: No clearance required.

Crew List: 4 copies required on arrival.

Passenger Manifest: If any passengers on board.

Store List: 2 copies.

Bonded Store List: 2 copies. Present regulations at Sidon Terminal allow each seaman to retain in his possession a maximum of 40 cigarettes or the equivalent weight of tobacco or cigars. The balance of all smoking items must be collected and carefully listed prior arrival. This list will be checked by Customs before sealing lockers. If any discrepancies, vessel subject to a fine.

PILOTAGE: Vessels to be moored at Sidon will be boarded by Mooring Master of Company within 2 miles to seaward of terminal sea buoy. Mooring Master will advise Ship's Master on approaches to berth, mooring, unmooring, connecting and disconnecting submarine hoses and in all other operations within berthing area. All manoeuvring of ships within berthing area shall be done only in accordance with advice of a Tap-line Mooring Master, subject to the understanding that in all cases and circumstances Master of the vessel being manoeuvred shall remain solely responsible, on behalf of vessel's owner, for safety and proper manoeuvring of vessel. Ship's Master or qualified deck officer must be on bridge at all times while ship is manoeuvring.

Vessels must have a pilot ladder safely and securely rigged, and all vessels over 45,000 dwt. should have an accommodation ladder rigged in combination with pilot ladder for safe boarding of Mooring Master and Government officials. Pilot ladder should be abaft and close to accommodation ladder so that Mooring Master, after climbing a few steps, can use accommodation ladder for remaining climb. Since hoses handled on port side at Sidon, it is advisable to rig ladders on starboard side. If at night, adequate lighting must be rigged over-side for Mooring Master to approach side of ship and climb ladder safely.

Note: Vessels having special rigs, such as hoisting equipment on short sections of pilot ladder, are not required to rig pilot/accommodation ladders per the above.

ANCHORAGE: For vessels awaiting berth, good anchorage just W.S.W. of terminal sea buoy in 16 to 20 fathoms, sandy bottom. Vessels should under no circumstances anchor North of terminal sea buoy as depths are excessive for safe anchoring.

MAX. SIZE: Berths Nos. 1 and 4 depths 47 ft., and berths Nos. 2 and 3 depths approximately 67 ft. Tankers up to 150,000 dwt. or approximately 55 ft. draft are considered maximum size which should be handled during winter months at Sidon, and then only if vessel meets all of below recommended requirements. Otherwise, vessels of over 100,000 dwt. should not be nominated for liftings at Sidon during period November–March.

Based on previous experience, sudden and severe storms of long

duration are not expected from April through October. Vessels over 150,000 dwt. may, therefore be accommodated during this period. However, prior to acceptance of nomination of vessels over 150,000 dwt. Tap-line requires advance information regarding maximum draft, vessel's equipment and location of manifold in reference to distance from stern of vessel which should not exceed 450 ft. Acceptance or rejection will be made after evaluation of above data by Sidon Marine personnel.

Summary of Recommendations for Vessels over 40,000 dwt.:

1. Capable, efficient and reliable anchor windlass(es).
2. Fifteen shots on starboard chain – thirteen shots on port chain are satisfactory.
3. Mooring wire winches, one on aft well deck, three on poop deck, 200 fathoms wire on each, with adequate number of manila or synthetic ropes to double up as needed.
4. Capability of lifting 16 in. hose string – 6·5 tons static weight.
5. Suitably located hang-off bitts.
6. Capability of keeping vessel in a reasonably safe ballast condition (November–March) by permanent ballast or loading while deballasting, or a combination of both.
7. Ship's manifold located not more than 400 ft. from stern.

HEALTH: Rules governing quarantine of vessels are same as found in other ports.

RADIO: (*a.*) *Facilities.* Tapline has own ship-to-shore radio telegraph, and VHF radio telephone station at terminal. This station is not open to commercial traffic. Services limited to traffic between Tapline and tankers within three days' sailing time from terminal. Messages to or from tanker agents classed as "Commercial" and must be routed via "Radio Orient," a commercial radio station. Its call sign is "ODR" and its frequency: 8702 kc/s and 13101 kc/s; traffic lists simultaneously sent at 0630, 0830, 1230, 1630, 1830 and 2030 GMT. Call sign of Tap-line radio station is "ODA3," in operation 24 hours per day. Operating schedule and frequencies used are:

Transmits (CW) on: 8502·5 kc/s at 0800, 1200, 1600, and 2000 GMT the traffic list.

12840 kc/s at 0830, 1230, 1630, and 2030 GMT, the traffic list. 424 kc/s for traffic upon request.

Listens on: 8354–8374 kc/s for replies and calls and on 8374 for traffic. Will listen on 8476 kc/s for traffic upon request.

12531–12561 kc/s for replies and calls. 425, 468, 480.

Keeps Continuous Watch on: 500 kc/s.

(*b*) *Advice of Arrival* It is important that ships establish radio contact with Tapline Station ODA3 when three days distant from Sidon and maintain this contact at regular intervals until just prior to arrival at the terminal. All ships should send a 72-hour ETA message to Tapline, giving the best estimate of ship's arrival time, a statement of bunker requirements and other relevant information. Shorter notice may result in berthing delay. Further ETA messages should be sent when vessel is 24 hours and 12 hours distant and to cover any other time changes occurring in the original ETA or those subsequent thereto. The 12-hour ETA should include a statement regarding "ship's readiness to load" on arrival, and time required to discharge clean ballast after ship is moored. A further contact when 4 hours away is desirable for exchange of weather data and mooring schedule. Vessels failing to give minimum of 12 hour arrival notice may be subject to delays in acceptance.

(*c*) *Ship-to-Shore Communications.* Ship-to-shore communications, while ships are in moorings, will be by portable VHF radio units used by the Mooring Master only. The use of the ship's radio station (except channels 16–14) and/or battery charging equipment is prohibited for safety reasons during cargo transfer operations.

In the event of normal ship-to-shore communications failure, the (ship's) emergency whistle signal should be used.

(*d*) *Radio Message.* Upon first contact with inbound tanker, ODA3 will transmit following message of 285 words:

"MASTER

"SIDON RADIO/ODA3 ACCEPTING TFC FOR TAPLINE BEIRUT/SIDON ONLY QSJ NIL QTU 24 HOURS stop TFC LIST AT 0800–1200–1600–2000 GMT ON 8502. 5 KC/S QSX FIRST 15 MINS 8354–8374 KC/S AND AT 0830–1230–1630–2030 GMT 12840 SKC/QSX FIRST 15 MINS 12531–12561 KC/S stop CONTINUOUS WATCH ON 500 KC/S AND VHF CHANNEL 16 stop TRANSMITS ON 424 KC/S UPON REQUEST stop RADIO BEACON ON 296·5 KC/S QTU 24 HOURS TRANSMITS SIGNAL SAD TWICE FOLLOWED BY DASH QTH 33, 30, 04 N 35, 20, 31 E stop MOORING MASTER BOARDS VESSEL AT SEA BUOY PAINTED WHITE SHOWING WHITE LIGHT EVERY FOUR SECONDS QTH 33, 32, 02 N 35, 19, 16 E VIS EIGHT MILES stop ALL VESSELS OVER 45,000 DWT MUST HAVE ACCOMMODATION LADDER RIGGED IN COMBINATION WITH PILOT LADDER FOR EMBARKING MOORING MASTER stop A SHOAL BUOY PAINTED RED SHOWING RED FLASH EVERY FOUR SECONDS QTH 33, 30, 21 N 35, 18, 04 E VIS FIVE MILES QUICK FLASHING WHITE LIGHT ON SPAR BUOYS IN BERTHS NUMBER ONE, TWO AND THREE SHOULD NOT BE USED FOR NAVIGATIONAL AID stop NO DIRTY BALLAST OR BILGES TO BE DISCHARGED WITHIN 100 MILES FROM COAST stop BEFORE ARRIVAL AND WHILE STILL OUTSIDE THE 100 MILE LIMIT FLUSH CLEAN ALL PIPELINES PUMPS AND SEA SUCTIONS THAT WILL BE USED IN VICINITY OF TERMINAL stop IF INSPECTION SHOWS FOREGOING NOT COMPLETED TANKER WILL BE REJECTED stop RIG HOSE BOOM PORT SIDE FOR SIX AND ONE HALF TON STATIC LIFT stop CHECK BOOM AND GEAR CAREFULLY stop HAVE THREE GOOD MOORING LINES AFT WELL DECK AND FIVE AFT POOP DECK stop ADVISE ETA IN GMT CARGO REQUIREMENTS IN LONG TONS BUNKERS IF REQUIRED AND DEBALLASTING TIME FOUR HOURS PRIOR TO ARRIVAL CONTACT ODA3 FOR WEATHER CONDITIONS AND ADVICE REGARDING BALLAST AND MOORING stop ADVISE IF DEBALLASTING AND LOADING CRUDE OIL CAN BE CARRIED OUT SIMULTANEOUSLY stop

"TAPLINE SIDON"

It is important that a reply to this message be sent soonest after receipt. Also requested that all vessels forward their local weather observations to this station while approximately 100 miles and again 50 miles Westward of Sidon when approaching and also upon departure during period November 1 to March 31. This data is used to assist in preparation of terminal weather forecasts and radio contact may be useful in event Tapline needs to furnish any information to vessel after its departure.

VHF: Tap-line VHF radio telephone system operates on international Channels 14 and 16, 156·7 mc/s and 156·8 mc/s respectively. Channel 16 used to establish contact while all traffic handled on Channel 14. Tapline guards these channels on a 24 hour basis, and contact can generally be made at distances up to 100 miles from terminal. Conversations on these channels will be carried out in English language only.

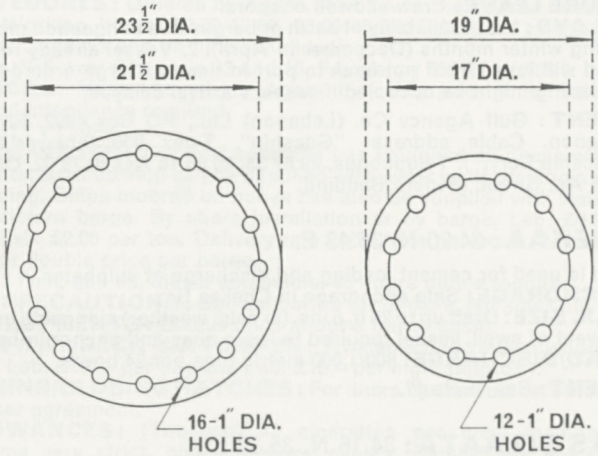
Mooring Master only will be in direct charge of portable VHF ship-to-shore radio communications.

BERTHING: Five buoys in berth No. 1 and seven buoys in each of berths No. 2, 3 and 4. During winter months vessels over 40,000 dwt. usually moored in berths No. 2 or No. 3. These berths approximately 1 mile to 1½ from shore. Berths numbered 1 to 4 from South to North. Vessels moored on one heading (West) basis using both bow anchors with maximum possible spread of anchors to increase ship's anchor beam holding components. Ship's stern moored to cylindrical buoys fitted with release hooks, using seven ropes (or wires) to respective mooring buoys. Permanent moorings consist of 7 steel cylindrical buoys in each berth. (Five buoys in No. 1 berth.)

Certain mooring buoys in all berths fitted with 1½ in. diameter preventer wires, one end of which is secured to mooring buoys. When required, other end is brought on board vessel by a messenger line after ship moored in position. Preventer wires supplemental to ship's regular moorings during adverse conditions. Ships should have chain stoppers for handling these wires.

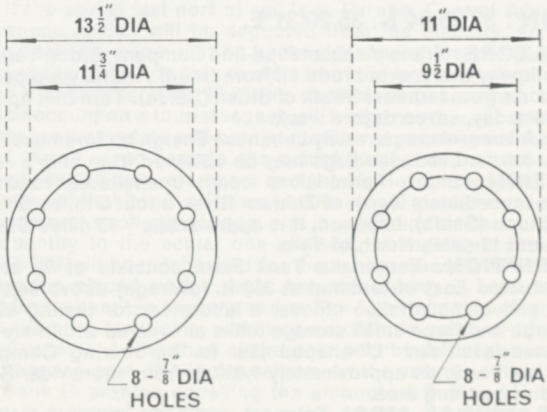
LOADING: (*a*) *Readiness:* Tenders to load will normally be accepted and berths assigned to vessels in order of arrival, provided vessels have nominations for cargo valid at the time, carry clean ballast and in all respects equipped and ready to moor. In event berthing delayed on account weather, vessels will ordinarily keep their loading priority in order of arrival. Vessels required to leave port area on account of weather (port closed), should keep in contact with terminal via radio

DETAIL OF 16″, 12″, 8″ & 6″ HOSE CONNECTIONS FROM SUBMARINE HOSE TO SHIP



16″ FLANGE TEMPLATE 150# A.S.A. RATING
In use in Berth 2 only

12″ FLANGE TEMPLATE 150# A.S.A. RATING



8″ FLANGE TEMPLATE 150# A.S.A. RATING

6″ FLANGE TEMPLATE 150# A.S.A. RATING

in order that they will be available when weather moderates. Company will make every effort to load vessels on arrival, or as promptly as berth is available, weather permitting. Notice of readiness will not be accepted unless vessel ready to load. Arrival time will be considered as time Mooring Master boards vessel underway or time vessel anchors, whichever occurs first.

(*b*) *Connecting-up.* Ships loaded by means of submarine pipe-lines. Weight of the 16 in. hose in No. 2 berth about 6·5 tons; weight of 12 in. hose in No. 3 berth about 5 tons; and weight of 12 in. hoses in No. 1 and No. 4 berths about 4 tons. Hoses lifted by ship's gear on port side. Detail of flange templates shown in drawings below. Ships should provide manifold fittings to allow connection of flanges shown.

Mooring Master advises ship's personnel in lifting, connecting, disconnecting and lowering of hoses. A ship's deck officer must be present, and must direct ship's crew in all hose handling. There must be sufficient crew on deck to perform this work.

(*c*) *Rates:* Loading is by gravity flow from tank farm which is approximately 360 ft. above sea level. Loading rates as follows (approximate maximum):

	Rates (BPH	
Berth	*With 1 Hose*	*With 2 Hoses*
1	17,000	29,000 (12 in. hoses)
2	40,000	70,000 (16 in. hoses)
3	27,000	43,000 (12 in. hoses)
4	25,000	37,000 (12 in. hoses)

Order save ship's time and to ballast vessel as quickly as possible, as well as to make berth available for others, it is requested that ships receive oil as fast as it can be delivered, with due regard for safety. The removal of any restrictions, such as strainers, etc., is recommended.

MEDICAL: Neither medical nor hospital facilities provided byTapline. Private doctors and hospital facilities available at Sidon and Beirut. Agents acquainted with situation and can make necessary arrangements.

If unable make radio contact, then vessels requiring emergency medical assistance should hoist International Code Flag "W" in daylight, and at night, send "W" (·—) on blinker light to attract immediate attention, the same signal "W" (.—) should be given on ship's whistle in either day or night hours. Signal should be repeated until acknowledged visually by either another ship in berth; from shore station or from Company launch. As soon as signal is received, terminal officials will advise ship's Agent as soon as possible of the emergency medical aid required.

DENSITY: Salinity of the sea is same as open Atlantic Ocean. Temperature ranges from 60°F. to 85°F. (15·6°C to 29·4°C.) depending on season.

FRESH WATER: Not available.

FUEL: Bunker fuel loaded at rate of 3,000–5,000 BPH through 8 in. deck hose. Bunker connection should be located near ship's cargo manifold. Ships calling at Sidon to load crude oil should arrange for bunker fuel nominations through one of the offtaker companies well in advance of arrival. Bunker fuel will not be delivered until Tapline has received a firm nomination. Bunker fuel will be loaded as promptly as circumstances permit, but Tapline assumes no liability for any delays incurred by a vessel in berthing or loading bunker fuel. Maritime lubricants available, through marketing representatives in Beirut by arrangement through Agents.

PRECAUTIONS: (*a*) *Valve Control.* Ship's valves must not be closed against the oil stream.

(*b*) *Emergency Signal.* When, and if normal ship-to-shore communications fail, the emergency signal to stop oil flow will be a continuous blast on ship's whistle, until oil ceases to flow. Steam or air should never be shut off from the whistle during loading. Whenever emergency whistle is used, all loading operations in all berths will be shut down until communications can be established with vessel giving the signal. For this reason, it is requested that ships in the area refrain from using their whistles for other purposes.

(*c*) *Readiness to Leave Berth.* Port is considered an "open roadstead," and under no circumstances may engine be shut down for repairs while ships moored in submarine berths. Vessels in submarine berths must be able to clear, and shall clear immediately upon advice of Mooring Master. Ship's engine and gear must therefore be ready at all times with full power for immediate use.

(*d*) *Loading and Deballasting Simultaneously.* Properly equipped vessels will be encouraged to discharge clean ballast and load oil simultaneously. This capability is especially necessary during unsettled weather order keep vessel reasonably ballasted.

REPAIRS: No facilities.

CONSULS: Two consulates at Sidon, one Italian and one Norwegian. Consular or diplomatic representatives for most nations maintain offices in Beirut.

OFFICIALS: Lebanese officials, such as Customs Director, Quarantine Officer, Immigration Officer, Captain of the Port and Police, stationed at Sidon. Should Customs guards be stationed on board while in berth, it is expected that ships will provide food for these guards and other officials.

SHORE LEAVE: Arranged between Agent and Lebanese Security Officer aboard vessel. Ship's personnel (other than emergency or medical cases) not allowed to disembark at terminal. All personnel going ashore must land at Sidon where small boats must cross a shallow and sometimes impassable bar. Delays have been caused to vessels whose personnel have been unable to rejoin their ship. Sufficient personnel must be aboard at all times for letting go lines so that vessel can clear berth whenever required.

GENERAL: (*a*) *Mooring Wires and Winches.* Use of mooring wires to powered drums for all vessels calling at Sidon is strongly recommended. Because there are no mooring tugs available, a ship's ability to moor during marginal weather conditions is dependent upon its ability to warp itself into position. Vessels with capable wire winches and deck mooring equipment that are able to place one or two mooring ropes on a windward mooring buoy, usually able to moor without difficulty. Vessels over 40,000 dwt should have mooring wires to powered drums, one on aft well deck and three on poop deck. The wires should be 200 fathoms in length and so secured as to be easily let go from ship if necessary.

(*b*) *Ropes.* Vessels should have two suitable, best quality mooring ropes of 200 fathoms each located on aft part of after well deck for use on either port or starboard side, three (minimum) suitable, best quality mooring ropes of 200 fathoms each and three additional ropes of 150 fathoms each on poop deck plus properly located warping winches and bitts. Vessels equipped with mooring wire winches on poop deck may reduce required "additional" ropes accordingly. Wires are not used on port side of aft well deck due to possible fouling of wire with hose or pipe-line underwater facilities. In this position a suitable, best quality mooring rope must be used. Two ropes of 200 fathoms each recommended, to be used on either side while mooring, and used on port side only for securing ship in berth.

(*c*) *Tides/Currents/Winds.* Tidal range between 12 and 18 in., greatest range occurring after several days of Westerly winds. Occasionally, strong Southerly sets experienced during and after Northerly winds. Wind direction and velocity subject to rapid change without warning and precautions necessary to avoid difficulties. Heaviest seas and swells from South-west through West to North-west. Winds of force 11 have been recorded.

AUTHORITY: Trans-Arabian Pipe-line Company. Company maintains offices at following addresses: (*a*) *Beirut Office:* PO Box 1348, Beirut, Lebanon. Cable Address: Tapline Beirut. (*b*) *Sidon Office:* PO Box 28, Sidon Lebanon. Cable Address: Tapline Beirut. (c) *New York office:* 505 Park Avenue, New York, New York 10022, United States of America. Cable Address: Taplineco New York.

AGENTS: Gulf Agency Co. (Lebanon) Ltd., Sidon, Lebanon. Cables: "Gacship", Sidon. Tel. 296733, 256516. Telex: 906 Beirut.

For communication and operational reasons we ask you kindly to address all your correspondence and cables concerning your vessel's calls at the Sidon Terminal to our head-office in Lebanon: Gulf Agency Co. (Lebanon) Ltd., POB 4392, Beirut, Lebanon. Telephones: 25 65 16, 29 67 33. Cables: "Gacship", Beirut. Telex: 906 (answer back: "Gacship Beryt").

TRIPOLI: 34.28 N. 35.49 E.

A. DRY-CARGO PORT.

Manifests should be visaed by Lebanese Consul at ports of shipment, or at any port *en route* where there is a Lebanese Consul. If on account of non-existence of Lebanese Consul at ports of shipment or at any of these *en route* the manifests are not visaed, then such consular visa dues are collected at Beirut.

DOCUMENTS:

1 Legalised copy of Cargo Manifests.
5 copies of Cargo Manifests.
2 Store Lists.
5 Passenger Lists.
2 Lists of Cigarettes and Tobacco (see "Customs allowances").

PILOTAGE: Agent arranges with Harbour Master, therefore keep Agent closely advised ETA. Harbour Master may also be contacted on VHF Channels 13 (frequency 156·6) and 16 (frequency 156·7).

ANCHORAGE: Good anchorage.

MAX. SIZE: Depth at entrance 22·5 ft. Max. draft alongside berth 22 ft.

HEALTH: Health authorities boarding in roads. Health form obtainable from Agent or doctor. Smallpox and yellow fever certificates for ships coming from Far East and Red Sea. Owners should check with Agents respecting any recent imposition of anti-epidemic regulations and requirements for addition injections for crew memmembers.

RADIO: Cables via Beirut Radio to and from Agent.

BERTHING: New pier about 600 metres length. Two berths. 4 shore cranes suitable for vessels up to about 7,000 tons only. Two heavy-lift cranes, capacities 25 and 50 tons. Lighters available for discharging alongside vessel. Ship's gear often used for discharging.

STEVEDORES: Ordered by Agent. No ETA to stevedores necessary. Working hours, 08.00–12.00, 13.00–16.00, otherwise overtime included on Sundays and on official holidays.

VHF: See "Pilotage".

MEDICAL: Master to advise Agent by cable prior to arrival if medical attendance required.

DENSITY: 1025.

GANGWAY/DECK WATCHMEN: Available and recommended. Costs Leb. £10. per day and Leb. £15. per night approximately.

OPENING/CLOSING HATCHES: For liners by stevedores, otherwise per agreement.

CUSTOMS ALLOWANCES: Tobacco. 40 cigarettes per crew member. Customs very strict, checking crew cabins. Regulations are as follows:

1. That the quantity of tobacco to be allowed on board vessels upon their arrival at a Lebanese port will be fixed on the basis of two packets per crew member, passenger per day, and to be calculated on a maximum period of four months, if the vessel emantes from an American, Asian or African port – not central Africa; and for two months if the vessel last port of call is in Europe, Central Africa or Mediterranean, which will be deducted from the quantity, and on the

same basis the consumption by the crew members and passengers during their trip, and this to start from the last port of call until arrival at a Lebanese port.

That the number of passengers to be taken into account on a tourist vessel will be the number of berth the vessel can accommodate and not the number of passengers on board. As to cargo vessels, the actual number to be accounted for will only be the crew members and the Master of the vessel.

2. In the event that it is the first call of the vessel, at a Lebanese port and not aware of such regulations, and it was found on board her an excess quantity to the actual one allowed, as indicated above, a Proces Verbal will be established for the excess quantity found and the cigarettes placed under seal. An undertaking is also to be obtained from either the Owners and/or her Agents to the effect that they will submit a certificate, within one month, to be issued by the relevant Customs Authorities of the next port of call of the vessel after a Lebanese port. While the seizure of the vessel will be lifted when the Bank guarantee equalling the amount of fine and dues is placed, or a Personal Guarantee from the Agent – if solvable – and in the event that the undertaking is not fulfilled, the usual penalties will be inflicted according to the law.

3. In the event the vessel is aware of such restriction, and for one reason or another she is carrying an excess quantity, this excess must be, as per official regulations, be shown on the manifest legalised and issued at the last port of call touched by the vessel prior to Beirut.

Any excess found over and above such declaration will be considered as smuggling and the law will be applied.

Wine and/or spirits: One bottle per crew member; Captain allowed 3/4 bottles.

CARGO GEAR: Ship's gear to be used.

IDENTIFICATION CARDS: Shore pass given to each crew member. Passport and seaman's book to remain in Captain's care.

CONSULS: Most countries have consulates in Beirut.

AIRPORT: Beirut.

TIME: GMT plus 2 hours all year round.

HOLIDAYS:

AGENT: Gulf Agency Co. (Lebanon) Ltd., Customs Street, Tripoli, Lebanon. Cables: "Gacship", Tripoli/Lebanon. Telephone: 62 52 54. Telex: 906 Beirut. Head Office: Beirut (which see).

B. – OIL TERMINAL.

OPERATORS: Iraq Petroleum Company.

DOCUMENTS: See "Section A – Dry-cargo Port".

LIGHT BUOY: Position 34° 30′ 00″ N. 35° 52′ 28″ E. Character: Green flash every 4 seconds.

PILOTAGE: The company's Mooring Masters will meet tankers two miles North-east of Tripoli Breakwater Head. Tankers of 40,000 dwt and over should have rigged, when in light condition, an accommodation ladder lowered to about 12 ft. above water. This can be adjusted to suit conditions. A pilot ladder should be rigged immediately abaft the accommodation ladder, to within 2 ft. above the water. This will enable Pilot to ascend pilot ladder clear of launch and then step on to the lower platform of the accommodation ladder. United Kingdom Merchant Shipping (Pilot Ladders) Rules 1965 is relevant.

ANCHORAGE: Good anchorage immediately West North-West of No. 4 sea berth buoys.

MAX. SIZE: Least depth of water available in berth, and swinging circle, after deducting 6 ft. for the height above sea bed of the sea line and cradle is as follows: No. 1 Berth, 62 ft.; No. 2 Berth, 66 ft.; No. 3 Berth, 53 ft.; No. 4 Berth, 38 ft. The swinging circle is defined as 1½ ship's lengths from dropping position of ship's inshore anchor. The approximate draft limits quoted are based on an underkeel clearance, in the berths, of 6 ft.

HEALTH: See "Section A – Dry-cargo Port".

RADIO: The Iraq Petroleum Company Limited, must be informed 48 hours prior to arrival of a vessel's ETA, quantity of cargo required, maximum loading rate, SWL of derrick for lifting hoses and confirming that the ballast for discharge in port waters is clean. Communication with Iraq Petroleum Company, Limited, should be by cable addressed to "Petriraq, Tripoli, Lebanon", or direct to Tripoli Terminal Radio Station.

Tripoli Terminal Radio Station. Call Sign – ODC 8.

Waveband	*Hours (GMT)*	*Watch Details*
	0800–0830	ODC 8 Broadcast Traffic List and calls ships on 8514 kc/s. Listens on 8354–8374.

	2232	Broadcast call QSY QSX 500 kc/s.

Cables to Agents may be routed through Beirut radio.

VHF: Tripoli:

Equipment: Fixed Station sited in Terminal Building and used by Control Room.
Call sign: Tripoli Control.
Range: Approximately 15 miles.
Frequency: Transmitting on 163·6 mc/s.
Receiving on 159·1 mc/s.
Watches: Continuous.

Mobile Station

Equipment: Portable, battery operated, carried aboard vessel with Mooring Master.
Call sign: Ship's name (before mooring). or Berth No. (after mooring).
Range: Approximately 8 miles.
Frequency: Transmitting on 159·1 mc/s.
Receiving on 163·6 Mc/s.
Watches: Continuous, whilst Mooring Master on board.

Notes

1. Tripoli also keeps a continuous watch on the international calling frequency of 158·8 Mc/s. This has a range of approximately 15 miles and its call sign is "Tripoli Control".
2. The VHF System is not connected to the main telephone switchboard and only selected shore stations have access to it.

TUGS: There is no tug at Tripoli.

BERTHING: *Sea Line Berths.* Four berths numbered from North-east to South-west. Specifications as follows:

Berth No.	*Max. TPH*	*Fixed Sea Line*	*Strings of Flexible Hoses*	*Approximate Limits Draft*	*Deadweight*
1	5,000	Two 24″	Two 16″ One 12″	56′	140,000
2	6,000	One 32″	Two 16″	60′	140,000
3	4,000	One 32″	Three 12″	47′	87,000
4	1,500	Two 12″	Two 12″	32′	25,000

As loading is by gravitation, the maximum rates are dependent upon availability of suitable shore tanks and loading lines.

LOADING:

1. *Readiness to Load*, will be received by the Mooring Master, who is the Company Representative on board. The advice from the vessel which states she is ready to receive cargo is considered as final, and as indicating that every operation necessary aboard the vessel has been completed. As soon as possible after such a signal has been received, and without further advice, loading will commence. Damage to hoses can occur if ship's valves are not open at the start of loading.

2. *Derricks*

(*a*) Two hoses are connected on the port-side amidship.
(*b*) Derricks or cranes reaching over the hose connection should be capable of lifting the flexible hose from the sea-bed to a height of up to 30 ft. above the deck.
(*c*) A minimum SWL of 5 tons is required for 12 in. hoses.
(*d*) The faster loading berths equipped with 16 in. hoses are available only to vessels with derricks and tackle with a minimum "Safe Working Load of 7 tons". Such vessels will be given berthing priority when queuing occurs and these berths are free but other vessels have not the capacity to handle the larger hoses.

3. *Hose Hang-off Bitts* are required at about 10 ft. from the ship's rail at the loading manifold to secure the submarine hoses on the portside.

4. *Hose Connection/Disconnection.* Ship's crew with a responsible officer in charge to perform all operations as advised by the Mooring Master, to lift, connect, disconnect and lower hoses.

5. *Ship's Manifold* – to be prepared for the connection of 12 in. or 16 in. hoses with flanges of 150 series, dependent on berth allocation.

6. *Loading – Supervision and Commencement*

(*a*) All operations in connection with starting of loading, discharging, switching of tanks on board and topping-off must be directly and personally supervised by a responsible ship's officer.

(b) The advice from the vessel that she is ready to receive cargo is considered as final, and as indicating that every operation necessary aboard the vessel has been completed. As soon as such a signal has been received, and without further advice, loading will commence. Damage to hoses can occur if ship's valves are not open at the start of loading.

Caution: The oil loading stream to the ship is controlled on shore and it is extremely dangerous if a ship's valve is closed against the flow of oil.

To prevent excessive pressure from surge in ship and shore lines, ship's valves must not be shut-off against the stream, and when switching tanks, ship's valves must be closed slowly. Vessels will be held liable for damages resulting from any mal-operation of valves on board.

7. *Tank Dips.* During loading frequent checks should be made by the responsible ship's officer to ensure that cargo is entering the designated cargo tanks only and that there is no escape of oil into pump-rooms or through sea and overboard discharge valves. Particular care must be exercised by ship's personnel in "topping-off" tanks and towards completion of loading to ensure that the terminal is given timely advice of any decrease in loading rate required. Adequate "standby" notice must be given before the final "stop".

8. *Loading Operations*

(a) The Mooring Master will not transmit any loading instructions to the shore until the responsible ship's officer is satisfied that the hoses are connected correctly and that all valves have been set for receiving cargo.

(b) Loading rates requested by the vessel or quoted by the terminal will be the peak or maximum rate at any time during the loading period.

(c) While in berth, ships should be ready to move under their own power in the event of their breaking adrift, catching fire, fire in adjacent berths or other emergency. No repair should be carried out while in berth which would immobilize the ship or impair her fire-fighting efficiency.

Failure to vacate the berth on completion of loading may result in delays to other vessels, demurrage, and loss of throughput which shall be accountable to the vessel.

(d) The Mooring Master will advise the Master of the ship as to any signals needed for local requirements.

(e) The Mooring Master brings a portable radio on board for ship to shore communication.

DENSITY: 1025.

FRESH WATER: May be available at anchorage before berthing, but it is expensive.

FUEL: Fuel oil is available at Berths 2 and 3. The 12 in. bunker hose is raised on the port side of the vessel. Bunkering rates are 100 to 350 tph.

CUSTOMS ALLOWANCES: See "Section A – Dry-cargo Port".

GENERAL:

1. *Ballast*

(a) Vessels should arrive with sufficient clean ballast for safe handling of vessel under prevailing weather conditions.

(b) Ballast water must be clean and a declaration signed by the Master and delivered to the terminal to this effect. Vessel's scuppers must be effectively plugged and leakage or spillage of oil aboard ship must not be swept or washed overboard.

(c) *Pollution of the sea – warning.* It is an offence to discharge dirty ballast or pump out bilges. The authorities are very strict and your attention is drawn to the Lebanese Notice to Mariners No. 23/1 of 29th July 1965, and to the volume entitled "International Conference on Prevention of Pollution of the Sea by Oil", issued by IMCO London.

In the event of your vessel discharging dirty ballast or spilling oil, cost for cleaning the pollution, third party claims and port fines shall be borne by the vessel.

It is recommended that vessels carry an adequate amount of dispersants with means of application in case of oil spills.

2. *Gear to be provided by the ship*

(a) Anchor to be fitted with marker buoys and 20 fathoms line.

(b) Four good mooring lines of not less that 150 fathoms each and of suitable size for the vessel. Two additional 150 fathoms lines securely tailed to the first lines for cases where 150 fathoms may not reach to the stern buoys initially.

(c) For vessels of 50,000 dwt. and larger, powered mooring winches with 200 fathoms of wire rope.

(d) Four suitable rope stoppers to be available aft.

(e) Two good chain stoppers for use on 5½ in. circumference wires (preferably carpenter's patent stoppers).

(f) Two good 4½ in. circ. boat ropes 200 ft. long placed one on each side of the vessel.

(g) Two good ropes, 15 fathoms × 3½ in. circ. and two heaving lines for lowering hoses.

3. *Lighting.* Manifold and poop mooring areas should be adequately lit to enable night mooring and loading operations to be carried out with safety. Sea area around the ship to be illuminated.

4. *Deck Watch.* A deck watch must be maintained at all times the vessel is in berth. In addition to its normal duties, the watch must inspect the hose connections and area around the ship against oil spillage, pollution, and prevent unauthorised persons from boarding your vessel.

5. *Boarding of vessel.* The control of persons boarding your vessel is the ship's responsibility. Boarding should be restricted to Company employees on duty and to persons authorised by the Port Authorities as advised by your Agents.

6. *Stores/Provisions* or other items should not be received or discharged whilst loading is in progress. Launches other than the Company's mooring launch, should not lie alongside the vessel.

7. *Tanker Safety.* Masters are at all times responsible for the application of all safety precautions as prescribed in the International Oil Tanker and Terminal Safety Guide.

8. *IOTTSG Safety Check List.* The Tanker Safety check list must be completed after inspection of each item prior to commencement of and during loading. The Mooring Master is authorized to stop all loading operations should he consider that the safety of lives and property is endangered by the infringement of safety rules.

9. *Action in case of Emergency.* In the event of a fire, oil spillage or other emergency on the vessel,

The Emergency Signal is:—

Three or more blasts of not less than ten seconds duration each on whistle or siren supplemented by a continuous ringing of the general alarm bells.

AGENT: Gulf Agency Co. (Lebanon) Ltd., Customs Street, Tripoli, Lebanon. Cables: "Gacship", Tripoli/Lebanon. Telephon: 62 52 54. Telex: 906 Beirut. Head Office: Beirut (which see).

Leeward Islands

BASSETERRE: St. Kitts: 1618 N. 62.43 W.

DOCUMENTS:
3 copies of Crew List.
3 copies of Passenger List.
1 copy High Duty Cargo List.
1 copy Crews' Personal Effects List.
1 copy Clearance from last port.
1 copy Ship's Stores List.
7 copies Manifest.
2 copies Bills of Lading.

PILOTAGE: No pilotage required.

ANCHORAGES: Harbour at Basseterre is an open roadstead and safe anchorage will be found at a distance of ¼ to ½ mile from the shore opposite the piers in the centre of the town.

RESTRICTIONS: None.

MAX. SIZE: A vessel of any size may be admitted. Anchorage position will depend on the draught of the ship.

HEALTH: The Harbour Master boards all vessels on arrival at port and inspects the clearance from the last port. If there are no health problems the vessel is immediately granted pratique. If there is suspected disease or fever on board pre-notification is recommended. If this is done the Harbour Master will have a Medical Officer with him when he boards the ship on arrival.

RADIO: Contact is through Barbados Radio, call sign 8PO.

TUGS: Not needed.

BERTHING: Ships anchor off shore.

STEVEDORES: ETA should be advised 24 hours before arrival of vessel, also tonnage to be discharged and number of gangs required. Discharging rate: 15 tons per gang per hour on bags. 6 tons per gang per hour on general cargo.

MEDICAL: Advance notice if possible – hospital facilities available. Valid Vaccination Certificate for passengers disembarking but not for intransit or cruise ship passengers.

DENSITY: No tides. Density normal for a West Indian island.

FRESH WATER: Not available.

FUEL: No bunkering facilities.

GANGWAY/DECK WATCHMEN: Not required.

OPENING/CLOSING HATCHES: Done by stevedores.

CUSTOMS ALLOWANCES: Tobacco, 1 carton of cigarettes. Wine and/or Spirit, 1 bottle.

IDENTIFICATION CARDS: Not needed.

CONSULS: Netherlands, France, Dominican Republic.

REPAIRS: The sugar factory has well-equipped shops for machine, welding and maintenance work. They can assist with most engine repairs.

DRY DOCKS: None.

REPATRIATION: Crew changes and repatriation can be arranged.

AIRPORT: Two miles from town with regular daily connections to Antigua and Puerto Rico where onward passages to Canada, the U.S.A., Great Britain and Europe can be arranged.

TIME: GMT minus 4; no alteration.

HOLIDAYS: New Year's Day (January 1st); Statehood Day (February 27th); Good Friday; Easter Monday; Whit Monday; Queen's Birthday (date fixed by announcement annually); August Monday; Prince Charles' Birthday (November 14th); Christmas Day (December 25th); Boxing Day (December 26th).

POLICE/AMBULANCE/FIRE: Police 999; Fire 999; Ambulance (Hospital) 2551.

TELEPHONES: None available.

AGENT: S. L. Horsford & Co. Ltd., PO Box 45, Basseterre, St. Kitts, BWI. Cable address: Horsford, St. Kitts. Tel. Shipping Manager, Office 2219, Home 2101; Secretary, Office 2805, Home 2122.

ST. JOHN'S: Antigua: 17.7 N. 61.52 W.

DOCUMENTS:
4 Crew Lists.
6 Passenger Lists.
1 Customs Declaration.
1 Declaration of Health.
4 Copies of Manifest.

3 copies of B/L.
1 copy Crew Personnel Curio List.
Fumigation and Deratisation Exemption Certificate.

PILOTAGE: Compulsory. Messages should be received by Agents 48 hours in advance. Pilot boat may be identified by pilot flag. Pilot boards 1 mile North of Sandy Island.

ANCHORAGE: Open seas just outside inner harbour. Depths exceeding 50 ft.

RESTRICTIONS: No restrictions on entry, difference in tide is negligible. Channel is 8,000 ft. long and 300 ft. wide.

MAX. SIZE: At present vessels of any size can anchor in outer harbour. The New Deep Water pier is 1,200 ft. long and depth alongside is 35 ft., a turning basin of 8,000 ft. diameter is available. Oil carrier's berth at Oil Refinery Pier in 36 ft. of water or at "Sea Buoy" in calm water exceeding 50 ft. High and low tide are negligible.

HEALTH: Pratique granted at berth. Suspected disease or fever should be notified by cable in advance.

RADIO: Cable and Wireless (W.I.) Ltd. Barbados Radio 8PO.

TUGS: Two tugs of 1800 h.p. available.

BERTHING: No special requirements.

STEVEDORES: 48 hours notice required to arrange gangs.

RADAR/VHF: No port radar. Tugs fitted with VHF equipment.

MEDICAL: Required medical attention should be cabled in advance to Agents. Hospital facilities available, smallpox vaccination required.

TANKERS: At Oil Refinery Pier several product pipe-lines of 10, 8, and 4 in., one 16-in. crude line, one 3-in. fresh-water line. 36 ft. mean low water, acceptable draft 32 ft. (deeper draft subject marine terminal approval). At Seabuoy one 10 in. Bunker C line, one 16-in. crude line; five mooring dolphins secure vessel in position. Acceptable draft 45 ft. No slop residue discharge facilities available yet.

DENSITY: 1025.

FRESH WATER: Available from Oil Refinery Pier and by barge in conjunction with bunker fuel deliveries.

FUEL: All grades marine fuel available; ex wharf the at oil refinery pier, at the Sea Buoy, and by barges to vessels at St. John's Harbour and adjacent offshore bunkering area.

Bunker nominations should be placed with Independent Petroleum Supply Co., London. Cables: "Oilsuppli London EC4". Tel. 01-236 4326 and/or New York or San Francisco offices.

FIRE PRECAUTIONS: No smoking or cooking at docks.

WATCHMEN: Not necessary. Available on request.

HATCHES: No set custom for opening/closing.

CERTIFICATES: All certificates should be on board but it is required to show Deratisation Exemption Certificate, L.S.A., Load Line.

CUSTOMS ALLOWANCES: 1 carton cigarettes. 1 bottle (26 oz.).

IDENTIFICATION CARDS: Not required.

CONSULS: Norwegian, Dutch, French, Danish and Swedish Consulates.

REPAIRS: No deck or engine repairs are possible.

DRY DOCKS: None.

AIRPORT: Airport is 4 miles from docks in city and served by international airlines such as BOAC, PAA, BWIA, Air Canada, ALM, Caribair, LIAT, Air France.

TIME: Local time is GMT minus 4. No alterations made to clocks during the year.

HOLIDAYS: 1st January; Good Friday; Easter Monday; Labour Day (1st Monday in May and no work is possible); Whit Monday; August Monday; Carnival Holiday (Tuesday following August Monday); State Day (1st November); Christmas Day; Boxing Day; H.M. Queen's Official Birthday observed either first or second Saturday in June.

POLICE/AMBULANCE/FIRE: Police 45, Ambulance 251, Fire 99.

SHORE TELEPHONE CONNECTION: Not available.

AGENT: Geo. W. Bennett, Bryson & Co. Ltd., PO Box 162, St. John's, Antigua. Telegraphic address "Bennett". Tel. 21200. Estate & Shipping Agents, Liner Agents, General Commission Merchants, Insurance Agents, Travel Agents, Stevedores.

Liberia

BUCHANAN: 05.54 N. 10.04 W.

DOCUMENTS:
1 copy Clearance of last Port of Call.
1 copy Health Declaration.
6 copies Number of Passengers.
6 copies Cargo Manifest (even in ballast).
6 copies Crew List.
3 copies Store List (ship).
3 copies Personal Effects List.
1 copy Vaccination List.

PILOTAGE: The ship shall be considered to have arrived at Port of Buchanan when she cuts a circle with a three nautical miles radius from the beacon on the main breakwater head (Fl "G" 3-sec.). Lamco provides pilotage. Pilot boarding approximately 1½ miles off the main breakwater, bearing 095°/110°. Pilot ladder on port side.

ANCHORAGE: If waiting Pilot, anchor 2 miles off main breakwater.

RESTRICTIONS: Harbour traffic hours – towage and pilotage (ore ships), 0600–0100. General cargo ships (tankers), 0600–1630.

MAX. SIZE: Ore carriers up to 42 ft. draft.

RADIO: Dakar Radio, or when within 200 miles Buchanan Harbour Radio. Communications with ore ships per HF, call 2182 kc. Traffic, 2638 kc, 2738 kc. VHF, call Channel 16. Traffic, Channels 9, 11, 12 & 14.

HEALTH: Customs, health and passport inspection normally takes place at the berths. Quarantine signal must not be hauled down before "Free Pratique" is received. If diseases are suspected on board contact the Port Authorities or Agents by radio for instructions. After call at other Liberia ports where free pratique has been granted, Port Health will not board here.

TUGS: Lamco provides towage with two 1,640 h.p. tugboats. Tugs join vessel about one mile N.W. of red buoy.

STEVEDORES: As early as possible advance notice of ETA required latest by 1500 hours on day preceding arrival if a weekday. Or Saturday before noon if arrival on Sunday. Shore working hours: Ore handling: 0700–2400 with two 1-hour mealbreaks; general cargo handling, 0700–1200, 1300–1530, and overtime 1530 to 2300.

BERTHING: Port provides nylon springs for mooring at $5 per day each. Number of berths for sea going vessels, 5. Length of quays, 2,800 ft. with 50–100 tons bollards and properly fendered. Depth conditions, 42 ft. at ore-loading quay (at MLWS), 33 ft. at commercial quay (at MLWS). Ore loading capacity, 6,000 tons per hour.

MEDICAL: Hospital and medical care is provided; advance notice should be given in serious cases. Smallpox, yellow fever inoculations are required to enter the Republic. Yellow Vaccination Book is required.

TANKERS: One tanker berth for discharging only. Hose connections are: 6 in. and 10 in. Max. draft 30 ft.

DENSITY: Varying but around 1020/25.

FRESH WATER: Fresh water is available, ex-quay only, rate is 20 tons/hour – costs about $1.50 per ton. Subject to availability, max. 100 tons per ship.

FUEL: No bunker facilities available.

GANGWAY/DECK WATCHMEN: Available, cost $10 per day.

OPENING/CLOSING HATCHES: Performed by stevedores.

REPAIRS: No commercial facilities available. In cases of emergency Lamco might assist with minor repairs.

CUSTOMS ALLOWANCES: Direct sales of Liquors, cigarettes, foodstuff, etc. from ships are strictly forbidden.

IDENTIFICATION CARDS: Not required.

CONSULS: Swedish Vice-Consul only; however, most countries are represented either by Embassy or Consul at Monrovia.

REPATRIATION: Can be arranged.

AIRPORT: Roberts International Airport about 1 hour ride by car; several connections to the rest of the world.

TIME: GMT minus 45 minutes; no alterations during the year.

HOLIDAYS: January 1st; The first Monday in January after every Presidential Election; January 7th; February 11th; Second Wednesday in March; March 15th; Second Friday in April; April 15th; May 14th; July 26th; August 24th; First Thursday in November; December 1st; December 25th. Special holidays as proclaimed from time to time by the Liberian Government. No work will be performed on January 1st, July 26th and December 25th.

GENERAL: Two Customs officers stay on board the ship during ship's entire stay and they should be given meals in the Officers' Mess and if necessary night quarters.

POLICE/FIRE/AMBULANCE: No phone available; however the Lamco Plant Protection Force should be contacted; one officer is normally assigned to each quay/gate.

SHORE LEAVE: Apart from South African, Portuguese and Rhodesian Citizens, who are not allowed ashore, no restrictions.

DELAYS: Generally, no major delays have occured. For ore loaders and tankers the tide may occasionally involve 24/36 hours waiting time depending on the size of ships expected to load; general cargo ships: no delay.

AUTHORITY: Port Operators: Lamco J. V. Operating Company, Buchanan, Roberts International Airport, Liberia. Telex: 203, Lamco Monrovia, Cable: Lamco Monrovia.

AGENTS: All ore carriers must employ LJVOC as their Agent. *Other vessels;*
Scanship (Liberia) Inc., PO Box 19, Buchanan, Cable: Scanship. Telex via Monrovia 209. R/T 2182 Kcs callsign Scanship Buchanan.

MONROVIA: 06.20 N. 10.50 W.

DOCUMENTS:
5 Crew Lists.
5 Passenger Lists or 5 Statements "Nil" if none aboard.
2 Manifests for Customs. This should state S.W. Ballast if no cargo aboard.
5 Lists of Ports of call from commencement of voyage with date of calls.
1 International Health Declaration.
1 List of Crew with dates of smallpox and yellow fever vaccination.
5 Store Lists.
2 Crew Custom Declarations.
Immigration now stamp all seamen's discharge books or passports.

PILOTAGE: Order Pilot through local Agents. Monrovia Freeport Pilot station equipped with R/T and VHF radio and on continuous listening watch from 0645 GMT to 2245 GMT. R/T 2182 kc/s, range 300–500 miles VHF Channel 16 range–30 miles.

Pilot comes out from inside breakwater by launch displaying H. flag. Vessels should approach to approx. 7 cables off entrance and should anchor clear of fairway channel as very large iron-ore carriers sail on deep draft. Anchorage lies S.W. of Leading Line from 7 cables to 10 cables from Southern breakwater end.

ANCHORAGE: Good unlimited anchorage space available on roadstead S.W. of Leading Line, depth 7 to 10 fathoms. Anchorage

safe but subject to moderate South-westerly swell during rainy season, April to October.

RESTRICTIONS: Pilot service given day and night. Loaded oil tankers berth in daylight hours only. Only deep-loaded vessels restricted to tide for berthing or sailing. Dredging at present in progress to deepen the channel to 45 ft. and areas adjacent to Iron-ore Piers. Channel outside breakwater being dredged to 49 ft. MLW. New channel will be from breakwater, 500 ft. wide in direction of 300° for 4,000 ft. and then in a direction of 270° for a further 4,000 ft.

Present entry restrictions are 38 ft. HW to Crude Oil discharge Pier and Iron-ore Piers, 35 ft. HW to Bunkering Pier and 30 ft. for marginal general cargo wharf. Upon completion of dredging maximum draft for the marginal cargo wharf still to be 30 ft. and for Iron-ore Piers 45 ft. HW.

MAX. SIZE: Vessels up to 850 ft. length can be accommodated on Iron-ore Piers. Tankers discharging on Crude Oil Pier restricted to 700 ft. No restriction on beam except iron-ore carriers with beam more than 126 ft. may experience difficulty in loading with present loading gantries. Maximum draft see "Restrictions". Iron-ore vessels entering Port should retain sea ballast.

HEALTH: Vessels entering must fly International Code flag Q. Port Health Officials board upon berthing. Pratique automatic for vessels having cleared at other Liberian ports, but vessel must still clear Customs.

RADIO: ETA cables should be routed to Agents through Government radio station ELC or via land cable (French Cables) through Dakar or Abidjan. Pilot R/T station will pass on messages to Agents free of charge.

TUGS: Join vessels just inside breakwater entrance. For berthing, tug lines used; for sailing, ships' lines used. No charges for tug lines.

BERTHING: Day and night, except loaded tankers not berthed during hours of darkness. Tankers arriving must enter breakwater by 1730 hours. Fishing boats are moved to or from fishing pier situated on North Breakwater during darkness.

STEVEDORES: Engaged by Agent. Several stevedoring companies. Port Management handles all cargo on shore and accepts cargo ex-ship's hook only.

MEDICAL: Whenever possible Masters should cable Agents if require medical attention especially when arriving week-ends or during night. Hospital facilities available. Port Health require smallpox and yellow fever vaccinations for crew members.

TANKERS: One bunkering and oil-loading pier, and one crude-oil discharge pier. At Crude Oil Pier discharge by means of floating 10 in. pipe-line.

DENSITY: Density varies with the tide. Also varies during rainy season as river flow increases. Varies from 1009 to 1024 oz. per cu. ft. with average of approx. 1019 oz. per cu. ft.

FRESH WATER: Available only on marginal wharf and three Iron-ore Piers by means of hoses from shore. Average rate of delivery approx. 20 tons per hour. Cost $3.30 per 1,000 U.S. gall.

FUEL: Light diesel oil and heavy fuel oil available and these can be blended to specification by supplying oil company Diesel only available on bunkering pier. Fuel oil available by barge and on bunkering pier.

DEVELOPMENTS: Channels being dredged (see "Restrictions"). Vessels of 80,000 to 100,000 tons dwt. were expected to be able load iron-ore by end 1970.

GANGWAY/DECK WATCHMEN: Supplied by Agent, and recommended. Customs also place one gangway officer aboard and this officer is supplied with food by ship.

OPENING/CLOSING HATCHES: Normally done by stevedores.

CUSTOMS ALLOWANCES: Tobacco, reasonable quantities for consumption while in port. Wine and/or Spirit, as tobacco.

CREW IDENTIFICATION CARDS: Not required, but seamen's books are endorsed aboard by Immigration.

CONSULS: Majority of foreign countries have Consuls.

REPAIRS: Limited deck and engine repairs can be carried out by two private companies.

DRY DOCKS: One very small floating dock capable of lifting 300 tons with max. draft of 8 ft. This dock is used for small coastal craft and only accepts very limited outside work.

REPATRIATION: Repatriation of crews is possible.

AIRPORT: Roberts Field International Airport 45 miles distant. Served with daily international flights to Europe and America.

TIME: GMT minus 45 minutes.

HOLIDAYS: Many official holidays during year but cargo work carried out those days on overtime rates. Port closes three days per year: 26th July (Independence Day), Christmas Day and New Year's Day.

POLICE/AMBULANCE/FIRE: Port Management have own Security Force and Fire Service. Situated in port area.

TELEPHONES: There are no facilities for telephones on board.

GENERAL: Stevedores gangs have to be ordered the day before required, therefore essential for Agents to receive ETA messages in sufficient time.

SERVICES: Hull, deck and engine surveys can be obtained through Lloyd's, German Lloyds, B.V., Norske Veritas, America Bureau Agents.

SHORE LEAVE: No restriction on shore leave.

PORT AUTHORITY: Monrovia Port Management Co., PO Box 14, Monrovia, Liberia.

AGENT: Scanship (Liberia) Inc. PO Box 209. Tel. 21–634/35. Telex 209. Cables: Scanship Monrovia.

Libya

BENGHAZI: 32.07 N. 20.03 E.

DOCUMENTS:
4 Crew Lists.
4 Passenger Lists.
6 Manifests of Cargo for Discharge.
1 Manifest of Cargo in Transit.
Clearance from Last Port.

PILOTAGE: Harbour Pilots will not come out farther than one mile off-shore. Vessels anchored outside this limit cannot expect to receive a Pilot. International code signals used to call Pilot.

MAX. SIZE: Vessels up to 28 ft. draft.

RADIO: Messages to Agents, Receivers, etc., normally through Malta Radio. Due to difficulty of communications, Masters are advised to maintain radio watches while anchored off port.

HEALTH: International quarantine signals to be shown on arrival and until pratique granted.

TUGS: Tug assistance available if required.

BERTHING:

Old Port	Quay	No. 1	Length	400 ft.	Depth	14 ft.	6 in.

TANKERS: Oil Berth – tankers up to 350 ft. length, 25 ft. draft.

FRESH WATER: Not available.

FUEL: Not available.

MEDICAL: All facilities available.

CONSULS: Following countries are represented – France, Germany, Greece, Italy, Tunisia, United Kingdom and U.S.A.

AIRPORT: Benina Airport situated 29 km. away.

AGENT: Gulf Agency Company (Libya) Limited, POB 1544, off Omar Muhtat Street, Sh. Scabbi No. 6, Benghazi, Libya. Cables: "Gacship", Benghazi. Tel. 2517.

ES SIDER: 30.38 N. 18.22 E.

DOCUMENTS: The Libyan Federal Police require a list of the crew with a declaration of their personal belongings, a list of tanker's stores and a list of passengers. Also six copies of the cargo manifest are required for discharge at Es Sider and one copy of the cargo manifest for cargo in transit.

PILOTAGE: 72 hours before the Master expects to arrive at Es Sider to receive a Mooring Master on board, he shall notify the terminal by cable addressed to Oasisoil Pipeline Tripolibya, providing the following information:

(*a*) Name of tanker.
(*b*) Precise estimated time of arrival at Es Sider.

This information is to be repeated 24, 12, and 4 hours before arrival. Coastal landmarks in the area are as follows:

(*a*) The most prominent landmark is a water tower in the terminal area which is painted white and is 180 ft. above sea level. This water tower is located at 30° 38′ 00″ North Latitude and 18° 21′ 01″ East Longitude.

(*b*) A radio antenna tower which is 624 ft. above sea level is located at 30° 35′ 48″ North Latitude and 18° 24′ 12″ East Longitude. At night the tower is lighted with five red lights, vertically arranged. The top light and the fouth from the top flash simultaneously every second. Lights two, three and five are fixed.

(*c*) A radio antenna tower which is 770 ft. above sea level is located at 30° 36′ 30·5″ North Latitude and 18° 17′ 24″ East Longitude. At night the tower is lighted with four red lights, vertically arranged. The top light and the third from the top flash alternately every second. Lights two and four are fixed.

(*d*) Marble Arch is an archway along the coastal highway. It rises approximately 100 ft. above the roadway and its highest elevation is 171 ft. above sea level. Marble Arch is located at 30° 27′ 42″ North Latitude and 18° 24′ 12″ East Longitude.

Vessels to be moored, anchored or manoeuvred at Es Sider will be boarded within the recommended anchorage area. The Mooring Master will advise the Master on approaches to berths, mooring, unmooring, connecting and disconnecting the hoses and in all operations within the anchorage or berthing area.

ANCHORAGE: Recommended anchorages at Es Sider within the seaward perimeter of a circle having a radius of 3,000 ft. centred at 30° 40′ 00″ North Latitude and 18° 24′ 00″ East Longitude. The anchorage area has a sandy bottom with a depth ranging from approximately 70 to 100 ft.

MAX. SIZE:

	Length	*Beam*	*Draft*
No. 1 Berth	900 ft.	None	52 ft.
No. 2 Berth	900 ft.	None	54 ft.
No. 3 Berth	1100 ft.	None	62 ft.

RADIO: Oasis maintains direct communication with Malta Radio, details of which are shown in publication 205 of the U.S. Hydrographic Office and are included in the Berne Lists. Oasis also maintains a VHF station at Es Sider Terminal.

Cables should be addressed to: Oasisoil Pipeline Tripolibya. Cables addressed in this manner will be received directly by the Oasis communications centre in Tripoli and relayed immediately by voice radio or teletypewriter to the terminal at Es Sider.

If the tanker is equipped with an FM radio-telephone in the 156–162 mc band, communications may be established with the Es Sider

terminal dispatcher by calling on Channel 16, 156·8 mc. This frequency is monitored continuously. The range of the terminal station is approximately 100 miles. After initial contact, further conversation should be conducted on either Channel 12, 156·6 mc, or on Channel 14, 156·7 mc.

HEALTH: Tankers shall fly "Q" on arrival by day and display a red light over a white light at night to indicate quarantine conditions.

TUGS: Not required. Oasis maintains launches to assist in berthing tankers. These are under the direct supervision and control of the Mooring Master.

BERTHING: Three open roadstead submarine sea loading berths are available for loading crude oil at flow rates up to 40,000 barrels per hour. These berths are of the seven-buoy type. The berth headings are North and ships should pick up hoses on the port side.

The central spar buoy of the Easternmost loading berth at Es Sider is located at 30° 38′ 58″ North Latitude and 18° 22′ 43″ East Longitude. The middle of the three loading berths at Es Sider is located at 30° 39′ 06″ North Latitude and 18° 22′ 06″ East Longitude. The Westernmost loading berth at Es Sider is located at 30° 39′ 35″ North Latitude and 18° 21′ 53″ East Longitude. All berths are approximately one mile from shore and in approximately 65 ft. of water.

After the tanker is securely berthed, the submarine hose shall be lifted amidships on the port side. The base lift may weigh up to five tons. Hoses shall be lifted and connected by the tanker crew. The Mooring Master shall advise the tanker's officer-in-charge concerning lifting techniques; however, the responsibility for all operations shall remain with the officer.

BALLAST: A tanker shall have sufficient ballast for safe handling. Careful watch of the weather, frequent interchange of information between the tanker and the terminal and the knowledge of the behaviour of his tanker may permit the Master to bring his tanker to the terminal with a minimum of ballast and thereby reduce the possibility of violating sea pollution requirements.

There are no facilities at the port of Es Sider for the discharge of dirty ballast, and vessels arriving with dirty ballast will not be authorised to de-ballast in the vicinity of the port. Any tanker rejected because of dirty ballast or sea pollution will automatically nullify its notice of readiness and thereby relinquish any right to priority of loading position.

MEDICAL: Medical assistance shall be on an emergency basis only.

FRESH WATER: Not available.

FUEL: Not available.

REPATRIATION: No facilities exist for crew change or repatriation.

REPAIRS: When a tanker is in or near the berth, its engines shall remain ready with full power for immediate use. Engine repairs shall not be performed near any berth.

WATCHMEN: Not less than one capable deck officer and three able seamen shall be available on the deck at all times. No person under the influence of alcohol shall be allowed on deck. The Mooring Master's opinion on the sobriety of an individual shall be final.

CUSTOMS ALLOWANCES: Cigarettes, cigars, tobacco,, spirits, wines, beers, perfume, arms, ammunition, saccharine, and certain other items shall be placed under Libyan Customs seal from the time of arrival in port until such time as the tanker has left territorial waters. Each officer and crewman is allowed the following ration for each day the tanker is in port: (*a*) 25 cigarettes per day, or 25 grammes of tobacco or 25 grammes of cigars. (*b*) One litre of beer or one-half litre of wine. (*c*) Special provisions are sometimes made for the Master.

CONSULS: Consulates are located in Tripoli, which is approximately 650 kilometres by road from Es Sider. Some countries having consulates are: Denmark, France, Germany, Greece, India, Italy, Netherlands, Norway, Russia, Spain, Turkey, United Arab Republic, United Kingdom, United States of America, and Yugoslavia.

GENERAL: When a Mooring Master and his assistants (launch crews and possibly apprentice Mooring Masters) are assigned to a tanker, the tanker shall supply them with meals at the same time and in the same manner as comparable personnel of the tanker. No special meals or special foods shall be required. The terminal will keep this item to a basic minimum. The intent is that the furnishing of meals to Oasis personnel be kept to the minimum.

SHORE LEAVE: None of the officers and none of the crew of any tanker shall be permitted shore leave at Es Sider.

AUTHORITY: The Port of Es Sider is the marine terminus of the Sidrah Pipe-line System, which is operated by Oasis Oil Company of Libya, Inc. The terminal and port facilities of the Sidrah Pipe-line System are owned by Ameradapetroleum Corporation of Libya, Continental Oil Company of Libya, Marathon Petroleum Libya, Ltd., Esso Sirte, Inc., Libyan-American Oil Company, and W. R. Grace & Company.

AGENTS: See "Benghazi".

MARSA AL HARIGA: 32.04 N. 24.00 E.

LOCATION: Marsa Al Hariga Oil Terminal is located on the South side of the harbour of Tobruk, approximately one mile Eastward of Marsa Al Hariga (see British Admiralty Chart no. 3657).

OPERATORS: Oil Terminal of the BP Exploration Co (Libya) Ltd. and Nelson Bunker Hunt.

APPROACHES: Vessels bound for the terminal should approach the harbour of Tobruk from the North-east with the lighthouse on Tobruk Point bearing 238° (true). In daylight this lighthouse should be kept in line with the conspicuous German War Memorial on the South side of the harbour. When about 4 miles from Tobruk Point course should be altered to 224½° (true) to bring the leading lights on Marsa Umm esc- Sciausc in line. This course should be maintained until the vessel is close to the outer buoy where one of the Company's Berthing Masters will board. Deep drafted vessels sailing from the terminal should avoid navigating North-westward of the leading line from Marsa Umm esc-Sciausc owing to the presence of shoal water off Tobruk Point.

FLAG: On entering the territorial waters of the Libyan Arab Republic, which commence 6 miles from the coast of Libya, vessels should, if possible, hoist the Libyan flag, and in any event the Libyan flag must be hoisted before entering the harbour of Tobruk. Should a vessel arrive without a Libyan flag on board, one may be obtained from the Company's Berthing Master when he boards at the outer buoy.

DOCUMENTS:

A. Customs' Requirements. On the arrival of a vessel, the Tobruk Customs Authorities will require from the Master of the vessel:

4 copies of a Crew List.
2 copies of a List of Ship's Stores.
2 copies of a Declaration of the Crew's Personal Belongings, including currency, cigarettes, gifts, etc.
4 copies of a Passenger List.

B. Harbour Master's Requirements. On the arrival of a vessel, the Tobruk Harbour Master will require from the Master of the vessel:

1 copy of a Crew List.
1 copy of a Passenger List.
1 copy of the Ship's Manifest.
1 copy of a Port Declaration (form will be made available to each vessel on arrival).

PILOTAGE: Vessels coming to and departing from the terminal will be berthed and unberthed by Berthing Masters provided by the Company, subject to the understanding that in all circumstances the Master shall remain solely responsible on behalf of his Owners for the safety and proper navigation of his vessel. Berthing Masters will board vessels at the outer buoy.

ANCHORAGES: If a berth is not immediately available on a vessel's arrival off the harbour of Tobruk, the vessel will be advised by the Company where she is to anchor.

MAX. SIZE: One berth is at the end of a T-head jetty, which extends some 700 ft. from the shore. There is a minimum depth alongside of 60 ft. and approach to and departure from the berth can be made in not less than this depth of water. A buoy berth is situated some 1,200 ft. from the shore, approximately 3,300 ft. West of the jetty. There is a minimum depth in the buoy berth and its approaches of 49 ft.

DRY CARGO: Berths in Tobruk Harbour;
Quay No. 3 Length 82 ft., draft 11 ft.
Quay No. 4 Berth 1, length 560 ft., draft 20 ft.
Berth 2, length 395 ft., draft 28 ft.
Berth 3, length 410 ft., draft 30 ft.

HEALTH: Pratique. The Libyan Authorities will grant clearance by radio of a vessel coming to the terminal. Radio messages requesting clearance should be sent not earlier than 48 hours prior to a vessel's arrival off the harbour of Tobruk and should give the details required in the Maritime Declaration of Health, which must also be completed.

READINESS: The Master or his representative is required to hand to the Company a written Notice of Readiness to Load. Receipt of such Notice of Readiness does not necessarily imply acceptance.

RADIO: The Company operates a radio station for the terminal and this station only handles traffic directly connected with the Company's activities. Particulars of the services available to shipping on official business with the Company are given below:

Tobruk Radio Station. Position: 32° 02′ N, 29° 00′ E. Calling Sign: 5AL (MF & HF) BP Tobruk (VHF).

Schedules: Traffic lists transmitted as follows: (*a*) On 420 kc/s, after call on 500 kc/s, at 0905, 1305, 1705 and 2105. (*b*) On 4241 kc/s at 2130. (*c*) On 8480 kc/s at 1730. (*d*) On 16,963 kc/s at 0930 and 1330.

Hours of watchkeeping: (*a*) On 500 kc/s, 0900–0930, 1300–1330, 1700–1730, 2100–2130 (watch is also kept on 425 kc/s for calls during these periods). (*b*) On 4 Mc/s calling on (4177–4187 kc/s) 2130–2200.

(*c*) On 8 Mc/s calling on (8354–8374 kc/s) 1730–1800. (*d*) On 16 Mc/s calling on (16, 708–16, 748 kc/s 0930–1000, 1330–1400. (*e*) On 156·8 Mc/s (Channel 16) continuous.

Note: This station is operated by the BP Exploration Co. (Libya) Limited and only handles traffic directly connected with the company's activities. No charges are made.

Arrival Messages: In addition to their arrival messages to the Agents, vessels must pass an arrival message to the terminal via the Company's radio station giving at least 72 hours' notice of their ETA and advising their estimates of: (*a*) the quantity of cargo (in long-tons) to be loaded at the terminal. (*b*) the quantity of ballast (in long-tons) to be discharged ashore at the terminal (see Section 5). (*c*) the ballast discharge rate (in long-tons per hour).

If, subsequent to advice of their 72 hours ETA, there is any material change, a further ETA message must be passed via the Company's radio station.

TUGS: For berthing and unberthing at the terminal vessels will be required to use the two diesel tugs, which are available at the terminal. Each of these diesel tugs has a bollard pull of approximately 25 tons.

BERTHING: (A) *Jetty.* Vessels will berth on the jetty either side alongside, depending on the prevailing weather conditions, though starboard side alongside is preferred. The jetty is of "T"-head form and is protected by four breasting dolphins. All moorings, except the back springs to the breasting dolphins, are attached to quick release hooks. In addition to the vessels' moorings, the permanent mooring wires provided by the Company must, at the Berthing Master's discretion, be utilised, and vessels must be moored to the satisfaction of the Company.

DATA SUMMARY (JETTY)

Terminal operates on 24 hour basis. Ship–shore connections: 4 flowbooms with suspended rubber hoses; diameter of hoses, 12 in. Flange size and rating: 12 in., ASA 150; diameter thickness, 19 in., $1\frac{1}{4}$ in.; bolt PCD No. and diameter, 17 in. $12 \times \frac{7}{8}$ it. Full range of standard adapters available.

Deballasting: All cargo tank ballast must be delivered ashore through one or two flowbooms. Rate, 6,000 Tons/hr. maximum; quantity, 300,000 tons maximum. Loading: Method, Gravity, maximum head 350 ft., rate regulated to requirements; rates, two lines, each 4,000 tons/hr. two 8,000 tons/hr. maximum. Shore measurement: Positive displacement metres with loading line recording thermometers. Hose draining: Drain pumps on jetty head. Loading lines remain filled. Bunkers fresh water: Not available.

DATA SUMMARY (Buoy Berth)

Buoy Berth. Vessels will berth heading East or West depending on the prevailing weather conditions though heading East is preferred. The moorings consist of four buoys, one buoy being on each bow and one buoy on each quarter. In addition to the vessel's moorings of two ropes to each buoy, the mooring wires, provided by the Company, to each buoy must be utilised and vessels moored to the satisfaction of the Company. The Company's Berthing Master will remain on board the vessel whilst the vessel is in the buoy berth to supervise and co-ordinate the ballast discharging and loading operations.

Buoy berth operates on 24 hour basis berthing and unberthing in daylight only. Ship–shore connections: 3 flexible hoses, 2 crude oil loading, 1 ballast discharge; diameter of hoses, 12 in.; Max. lift, from ships equipment, 5 tons. Flange size and rating: 12 in. ASA 150; diameter thickness, 19 in., $1\frac{1}{4}$ in.; bolt PCD No. and diameter, 17 in., $12'' \times \frac{7}{8}$ in. Full range of standard adaptors available.

Deballasting: All cargo tank ballast must be discharged ashore through ballast hose. Rate: 1,500 tons/hr. maximum; quantity, 25,000 tons maximum. Loading: Method, gravity, maximum head 350 ft., rate regulated to requirements; rate, 4,000 tph. Shore measurement: Positive displacement metres with loading line recording thermometers. Hose draining: None–loading lines remain filled. Bunkers fresh water: Not available.

(C) *Pneumatic Oil Barrier.* Although it is emphasised that all precautions must be taken by vessels to avoid any leakage or spillage of oil into the harbour, the berths are each protected by a pneumatic oil barrier to contain any oil, which may, due to unavoidable circumstances, get into the harbour waters.

A pneumatic oil barrier consists of a pipe-line, which is laid on the harbour bed around the berth. Through this pipe-line is pumped compressed air, which escapes from the pipe-line via small holes in it. As a result of this escape, the surface of the water above the pipe-line is forced upward to form a 'mound' of water, which enclose the berth and prevents any spillage from spreading.

While vessels are berthing and unberthing the barrier will be kept in operation and the disturbance on the surface of the water will indicate the position of the pipe-line. To avoid damage to the pipeline it is essential that vessels do not drop their anchors in its vicinity.

(D) *Weather and Tides.* The berths are sheltered from weather from all directions except between North and South-east. From time to time, principally in spring and in autumn, hot, dry desert winds, known as Ghiblis, occur and blow from between South and East at velocities up to 50 knots. For this reason, Masters should ensure that their vessels' moorings are well tended at all times. The tidal level is practically constant and currents within the harbour are slight.

CARGO OPERATIONS:

(A) *Deballasting.* Vessels should make every effort to arrive at the terminal with clean ballast and with the minimum quantity for safe handling under prevailing weather conditions.

All ballast must be discharged into shore tanks provided by the Company unless it is clean ballast carried in tanks, which are completely isolated from the vessel's cargo system; however, the discharge of such ballast into harbour waters must not be commenced until the ballast has been inspected by a Company official and he has certified that it is in order to commence discharge.

Ballast can be accepted into the Company's shore tanks at rates up to 6,000 tons per hour from the jetty and 1,500 tons per hour from the buoy berth. Ballast is discharged ashore over the jetty by way of the loading booms. Ballast is discharged ashore from the buoy berth through a separate 24 in. ballast discharge line connected to a 12 in. flexible hose.

(B) Loading Facilities. Cargo loading at the jetty is by means of four 16 in. flow booms, to which 12 in. flexible hoses are attached. Cargo loading at the buoy berth is by means of a 34 in. submarine line, to which two 12 in. flexible hoses are attached.

This system permits a maximum loading rate of approximately 8,000 tons per hour over the jetty and 4,000 tons per hour through the buoy berth. But the actual loading rate for a particular vessel will be determined prior to the commencement of loading by agreement between the Master and the Company.

(C) *Commencement of Deballasting and Loading.* The attention of Masters is drawn to the conditions that must be observed before the Company will permit deballasting or loading to commence. These conditions are set out in the Company's Jetty Safety Regulations

(D) *Buoy Berth Operating Signals.* The following signals will be exhibited by a vessel whilst in the buoy berth to indicate the nature of the operation taking place and to provide a second channel of communication should VHF contact be broken between ship and shore.

	Day	*Night*
De-ballasting	Code flag "N"	1 green light
Slow loading	1 red flag	1 red light
Full loading	2 red flags	2 red lights
Stop	flags lowered	lights out
Require launch	Code flag "L"	signal lamp
Fire emergency	Continuous sounding of short blasts on whistle or siren.	

These signals will also be repeated ashore from a mast situated on top of the main administration office building which is situated opposite the buoy berth.

SAFETY: A copy of the Regulations will be given to Master when Company's Berthing Master boards at outer buoy. Masters should make themselves thoroughly acquainted with these Regulations, strict observance of which is required by the Company.

In the event of any infringement of the Regulations, operations may be stopped and, if so, will not be recommenced until the Company is satisfied that appropriate action has been taken by the Master to comply with all the Regulations. The Company also reserves the right to unberth a vessel in the event of a continued or blatant disregard of any of the Regulations. Any loss or expense to the Company resulting from an infringement of the Regulations and, in particular, in the event of an infringement leading to an interruption of operations and/or unberthing of a vessel, will be for the account of the Owners.

FRESH WATER: Not available.

FUEL: Not available.

REPAIRS: No shore facilities for carrying out repairs to vessels either at the terminal or at Tobruk.

CONSULS: No Consulates at Tobruk and the nearest locations of Consular officials are as follows:

Benghazi – 445 kilometres from Tobruk: France, Germany, Greece, Italy, Saudi Arabia, Tunisia, United Arab Republic, United Kingdom of Great Britain and Northern Ireland, United States of America, U.S.S.R.

Derna – 175 kilometres from Tobruk: Turkey.

El Berda (Beida) – 260 kilometres from Tobruk: Belgium, United States of America.

CUSTOMS ALLOWANCES: Cigarettes, cigars, tobacco, matches, spirits, wines, beer, perfume, arms, ammunition and saccharine have to be locked up under Customs' seal from time of vessel's arrival in harbour of Tobruk until time of departure.

Whilst in harbour, each member of crew allowed following: 200 cigarettes (the Master will be allowed 400); $\frac{1}{2}$ bottle spirits (the Master will be allowed 1 bottle); 4 bottles of beer or wine per man per day.

No fixed allowances for cigars and tobacco.

Libyan law prohibits vessels from having on board any goods or containers of Israeli origin. Any vessel having such goods or containers on board on arrival in the harbour of Tobruk will be liable to a heavy fine and confiscation of the goods or containers. The Libyan Authorities may, moreover, refuse to clear the vessel.

REGULATIONS:

1. *Ships' Garbage.* Whilst within limits of harbour of Tobruk the throwing overside of ships' garbage is prohibited.

2. *Ships' Radio.* Once vessel berthed at Terminal the use of her radio will not be permitted.

3. *Ships' Boats.* Use of ships' boats not permitted within limits of harbour of Tobruk.

AGENTS: Gulf Agency Co. (Libya) Ltd., POB 34, Tobruk, Libya. Telephone: 2417. Cables: "Gacship", Tobruk, Libya.

Gulf Agency Co. (Libya) Ltd., POB. 1444, Benghazi, Libya. Telephone: 2517. Cables: "Gacship", Benghazi, Libya.

Kindly address all correspondence and cables concerning your vessels' calls at Marsa Al Hariga Terminal to office in Tobruk with copies to office in Benghazi. Ships mail should be sent to the Tobruk office. Spare parts to be air-freighted to Benina Airport, Benghazi, and addressed to the Benghazi office, but marked with the vessel's name and also with "Ship's Spares in Transit".

MARSA EL BREGA: 30.25 N. 19.34 E.

DOCUMENTS: Customs and Immigration officials may not always board the vessel. All relevant documents are supplied by the Mooring Master and on completion of mooring the Master will fill in, sign and stamp the papers. These will be dispatched ashore and clearance granted by the officials on sighting all documents.

A. Port Declaration, Form PC7 (2 copies).
B. Inward Report (title in Arabic), Form CL128 (3 copies).
C. Cargo Manifest Inward, Form CL1 (3 copies).
D. Report Outwards, Form CL4 (3 copies).
E. Crew Manifest Inwards, Form CL31 (2 copies).

Required when ships clear inwards, lists each member of the crew and all goods held (e.g. liquor, cigarettes, cameras, money, etc.) with crew members' signature opposite name or rank. This form is ordinarily supplied in advance so that it may be completed prior to arrival at Brega.

F. Cargo ships also required Ship's Cargo Manifest Form (3) with same information as C.

Ships' forms required by Customs

A. Crew List, ships' form (6 copies).
B. Stores List, ships, form (2 copes).
C. Clearance from Last Port, port's form (1 copy).

Forms required of cargo ships

A. Report of Cargo and Ship's Ullages (original).
B. Tanker Time and Loading Report (original).
C. Certificate of Cargo Discharge (3 copies).

Master signs and stamps one copy at bottom of form. Other two copies are completed by Master at port of discharge, stamped and signed by Customs authorities, and then are mailed to Controller of Customs, Benghazi, Libya.

Information required by Esso Standard Libya Inc. prior arrival

The Owner, Charterer or Agent should airmail or cable following to Esso Standard Libya Inc., PO Box 385 (Field), Tripoli, cable address Essoship Tripoli:

(1) Name and flag of vessel.
(2) Dimensional characteristics, e.g. overall length, beam and maximum draft.
(3) Total tonnage, number and type of products or cargo on board.
(4) Number and size cargo hose connections on either side and distance in feet of each from the bow.
(5) Safe working load of derricks in vicinity those connections.
(6) Number of shackles of chain (90 ft. shots) on each anchor.

Information concerning dimensional characteristics need not be included in letter or cable after first call.

PILOTAGE: Brega sea buoy located Lat. 30° 27·5′ N. Long 19° 35·1′ E. White flashing light on black conical buoy at 12 ft. above water. Characteristic, one flash every ten seconds. A bow mooring oil loading fixed structure located in Lat. 30° 26·0′ N. Long 19° 33·9′ E. with fixed red light 93 ft. above mean sea level. Structure also floodlit. Numerous lighted and unlighted navigational and mooring buoys located within restricted area. Vessels not to enter restricted area without Brega Pilot. The services of a Pilot/Mooring Master are provided without charge. He will normally board the vessel in the vicinity of the Brega buoy and will advise the Master on approaches to the berth, mooring and unmooring, connecting and disconnecting cargo hoses, and all other operations within the berthing area.

ANCHORAGE: Anchorages located ½ mile East or South-east of Brega buoy in 12 to 18 fathoms. *Vessels should not remain at anchor in bad weather.* Vessels not permitted to anchor within ½ mile of the channels into the bay and inner harbour.

HEALTH: Quarantine signals must be displayed upon entering Brega port limits in accordance with international practice, and shall be continuously displayed until pratique is granted.

RADIO: Vessels bound Marsa el Brega not required call Tripoli for inward or outward clearance. Radio messages should be sent through Tripoli (via Malta if beyond communication range of Tripoli) and ETAs should be sent at least 48 hours but preferably 72 hours in advance. Master should state whether ETA in GMT or local time.

As cable office closed between midnight and 0800, allowance for delays in receipt of radio messages due to this and other causes should be made when sending ETAs and other urgent traffic.

Ships can communicate direct with Brega via the tug *Cycloop* – call sign PDML – normal international watch for zone. Berthing instructions and information concerning facilities and Customs documents is available from tug *Cycloop*.

Esso Standard Libya Marine Terminal equipped with short-range Radio/VHF Telephone Port Control System. The following procedure should be adhered to: Vessels approaching Brega and equipped with VHF should call Port Captain's office on Channels 16 and 12. Channel 16 is reserved for "Calling,", "Safety", "Emergency". When contact made, vessel will be allocated one of the four working channels: Channel 13, Channel 12, Channel,9 Channel 6. Esso Libya's Pilot launch is equipped operate on these channels. Portable radio sets available for vessels not fitted with VHF.

TUGS: Esso Standard Libya Inc. maintains tugs and mooring launches to assist vessels to moor and unmoor.

BERTHING: Tankers calling at Brega to load at the crude sealine berths should be equipped with a minimum of eight 10 in. circ. fibre or synthetic mooring ropes in good condition, not less than 120 fathoms in length. Mooring wires or equivalent strength are acceptable. A fibre or synthetic mooring rope in good condition must be available for towing vessels into berths by tug.

Crude Tanker Sealine Berth No. 1

The least depth of water in this berth is 42 ft. The 30 in. crude line is approximately 6,000 ft. long and is fitted with two strings of hose each consisting of 175 ft. of 12 in. hose. The loading rate is approximately 12,000 to 30,000 barrels per hour. When berthed the vessel is heading 330° true with both anchors out forward and 6–700 ft. of chain on each anchor. The stern is secured to 5 mooring buoys fitted with quick-release hooks. The submarine hoses are picked up amidship on the port side of the tanker and the vessel's derricks should have a safe working load of 5 tons.

Crude Tanker Sea-line Berth No. 2

The least depth of water in this berth is 44 ft. The 30 in. crude line is approximately 8,000 ft. long, with two hose strings. The forward string is 200 ft. in length 6 no. 25 ft. × 16 in. and 2 no. 25 ft. × 12 in. and the after string is 175 ft. in length 5 no. 25 ft. × 16 in. and 2 no. 25 ft. × 12 in. Crude oil is loaded by gravity on pumps and rates of 15,000 bbls. per hour to 39,000 bbls. per hour can be obtained. When berthed the tanker is heading 330° true with both anchors out forward and 6–700 ft. of chain on each anchor. The stern is secured to 5 mooring buoys fitted with quick-release hooks. The submarine hoses are picked up amidships on the port side of the tanker and the vessel's derricks should have a safe working load of 5 tons.

In good weather No. 1 berth can safely accommodate a 47,000 dwt tanker (approx.) with the following principal dimensions: 47,000 dwt. overall 750 ft., beam unrestricted, draft 38 ft. 6 in., gravity of sea water 1030. In similar conditions, berth No. 2 can safely accommodate a 55,000 dwt. tanker with the following principal dimensions: 55,000 dwt., overall 800 ft., beam unrestricted, draft 40 ft., gravity of sea water about 1030.

Crude Tanker Sea-line Berth No. 3 – *bow mooring*

The bow mooring is located in approximately 95 ft. of water, and consists of a fixed pylon surmounted by a revolving boom from which hangs a submerged oil-loading pipe arm. The main structure has a diameter of 130 ft. and is 97 ft. above mean sea level at its highest point. The pylon is surrounded by a fender ring which is mounted on vertical steel piles. The revolving boom is 76 ft. in length from the centre of the pylon to the end. The loading arm hangs from a ball joint at the end of the boom and is approximately 560 ft. in length, terminating in a hose handling platform on the outer end. The hose platform is kept at the level of the ship's deck by means of a compressed air ballasting and deballasting system. Four 12 in. hoses hang from the platform. Vessels are normally berthed port side to the platform. Derricks should have a safe working load of 5 tons. A maximum loading rate of 65,000 bbls. per hour may be realised with the loading pump in operation.

Vessels are moored in position using two head ropes to the bollards on the boom and with a 6 in. nylon back spring mooring line to the hose-handling platform. In addition, a 4½ in. nylon snubber line is used to keep the platform alongside the ship. Vessels with the following principal dimensions can be accepted: 100,000 dwt., overall 1,000 ft., beam unrestricted, draft 48–49 ft., bow to manifold not to exceed 434 ft. Larger vessels may be accepted with prior approval.

Crude Tanker Sea-line Berth No. 4

The least depth of water in the berth is 72 ft. Crude is loaded through a 42 in. pipe-line approximately 8,000 ft. in length. Two strings of hoses, 225 ft. in length are used, consisting of 7–25 ft. lengths of 16 in., and 1–25 ft. length of 12 in. hose. A maximum loading rate of 60,000 bbls. per hour may be realised.

Vessels are moored on a heading of 295° true using both anchors forward with at least 800 to 900 ft. of chain out on each anchor. Vessels' sterns are secured to 7 mooring buoys equipped with quick-release hooks. The submarine hoses are picked up on the vessel's port side. Vessels with the following principal dimensions can be accepted in the berth: 100,000 dwt., overall 1,000 ft., beam unrestricted draft 55 ft. This is providing they are equipped with at least 11 shots of *useable* anchor chain.

Product and Asphalt Tanker Berth

Small tankers delivering refined petroleum products and asphalt to Marsa el Brega will be berthed at the product dock. Products will be discharged through a number of small pipe-lines approximately 2,000 ft. long. 3 in. or 6 in. hoses are provided according to the grades of oil being discharged. Asphalt will be discharged through one 10 in. pipe-line. Vessels assigned to discharge at this berth must be suitably equipped with mooring ropes and have derricks capable of lifting 2 tons.

Vessels cannot be berthed or remain alongside the breakwater except in fine weather. The breakwater is equipped with resilient fendering and ample mooring points. Tankers will be berthed by an Esso Standard Libya Pilot/Mooring Master. One tug is available, and a launch will run the mooring lines. In good weather vessel with the following principal dimensions can be accepted: Overall 500 ft., beam unrestricted, draft 26 ft. maximum.

Dry Cargo Dock

Vessels assigned to discharge dry cargo at Marsa el Brega will be berthed alongside the dry cargo dock by an Esso Standard Libya Pilot/Mooring Master. The minimum depth alongside and in the approach is 30 ft. One tug is available. A mooring launch will be available to run mooring lines. The dry cargo dock is fitted with resilient fendering and ample mooring points. During winter it may be necessary to leave the berth during bad weather, and the Master is responsible for requesting the removal of the vessel under his command. He will also be held responsible for any damage sustained by the jetty and/or his vessel. A Pilot/Mooring Master will be standing by at all times.

All mooring ropes should be in good condition and none should have more than one short splice in the useable length. Crew shall keep the moorings tendered and properly lighted day and night.

Ships shall provide their own gangways and the crew shall keep them lighted and tendered, day and night. Ships must be equipped with adequate unloading gear. All cargo will be offloaded with the

use of ship's gear. When weather permits, derricks should be topped at sea prior to arrival.

A 50-ton floating crane is available for heavy lifts by prior arrangement only. at £L300 a day or pro rata minimum charge £L200 unless otherwise agreed. The length of the dry cargo dock is 650 ft. The maximum size ship which can be accommodated is overall 500 ft., beam unrestricted, *maximum draft 26 ft.* Slightly deeper drafts may be acceptable depending on weather conditions.

MEDICAL: There are limited medical and no dental facilities at Marsa el Brega. Personnel requiring urgent medical treatment may obtain it, but this will only be undertaken in serious cases. Masters of vessels arriving at Marsa el Brega who require medical treatment should give advance notice of their requirements by radio.

FRESH WATER: No fresh water is available.

FUEL: No bunkers are available.

REPAIRS: No repairs are allowed to ship's engines while vessels are moored in the berths. Ship's engines should be ready for use on short notice in case the vessel has to vacate the berth suddenly because of bad weather. There are no repair facilities for ships available at Brega.

REPATRIATION: Crew members cannot pay off or leave the vessel at Marsa el Brega except in cases of emergency. Even in an emergency, it should be noted that seamen's Books are not valid under the Libyan law. A valid passport is required, and with adequate notice by radio it is possible to obtain an exit visa for a crew member leaving in an emergency.

GENERAL: Fly Libyan flag when inside territorial limits. Failure to fly Libyan flag may result in heavy fine. Libyan law does not permit ships using Libyan waters to retain Israeli flags or literature pertaining to Israel on board, even though these may be normally part of the vessel's navigation equipment.

Cargo Hoses

All cargo hoses used in the sea berths and at the bow mooring have 12 in. American standard flanges. Raising, connecting, disconnecting and lowering of the hoses used in the sea berths and at the bow mooring will be performed by the ship's crew as advised by the Pilot/Mooring Master, who will remain on board while the ship is in the mooring.

Ballast

Esso Standard Libya Inc. has no facilities for the discharge of *dirty ballast* in Brega. Accordingly, all ships must arrive with clean ballast. International oil pollution regulations must be strictly observed by all ships while in Libyan waters. Vessels should have sufficient ballast aboard for safe manoeuvring, but should not arrive excessively ballasted. The propeller should be submerged and the vessel trimmed not more than 8 ft. by the stern. Vessels not properly ballasted will not be berthed in order of arrival and will not have their Notice of Readiness accepted.

Caution

The shore storage tanks are situated on high ground and may gravitate into ship's tanks if allowed to do so.

Smoking

Smoking is strictly prohibited on board all tankers except in locations approved by the Masters of the vessels.

SHORE LEAVE: Passengers and crew members are not permitted to land for reasons other than emergencies.

AUTHORITY: Esso Standard Libya Inc.

AGENTS: See Benghazi.

RAS LANUF: 30.31 N. 18.35 E.

Sirtica Terminal

DOCUMENTS: Customs will require:

1 Crew List.
1 Crew Declaration of personal belongings (including cigarettes, etc.)
1 Store List.
1 Passenger List.

Crew Lists and Crew Declaration of personal belongings must be on the approved Libyan Government Documents. Vessels are advised on their initial visit to the port to obtain sufficient forms for future visits. Also required are:

6 copies of Cargo Manifest for Ras Lanuf Discharge.
1 copy of Cargo Manifest for transit cargo with a summary.
1 Copy of Passenger Manifest.

Clearance from the last port of call will be required by the Government authorities. The police will require 4 copies of a Crew List and a Passenger Manifest if any passengers on board.

PILOTAGE: It is most important that ships establish communications with the terminal not less than 72 hours prior to arrival, giving estimated time of arrival. Further ETA signals should be sent when the vessel is 24 hours, 12 hours and 4 hours distant or any time a change of one hour in original ETA occurs. These messages should state specifically whether ETA is given in GMT or local time. The 72-hour signal should include the following: ETA, last port of call, if any sickness on board and if vessel has clean bill of health. Cargo quantity and grades expected to be lifted in net long tons at 60°F. The 12-hour signal should include definite indication as to whether the vessel is ready to load or not and should also include information on the time she will require to discharge ballast after arrival. Precise time of arrival should be given when the ship is 4 hours distant from the terminal.

Vessels to be moored, anchored or manoeuvred at Ras Lanuf will be boarded by Mooring Master in the close vicinity of the suggested anchorage area mentioned below. The Mooring Master will advise the Ship's Master on approaches to berths, mooring, unmooring, connecting and disconnecting the hoses and in all operations within the anchorage or mooring area.

Terminal sea buoy, colour black, light characteristics, flash white every 5 seconds (flash 1 second eclipse 4 seconds) with radar reflector and bell is located in approximately Latitude 30° 32′ 40″ North, Longitude 18° 34′ 38″ East. Vessels in the vicinity of the port should not navigate or anchor inside of a bearing 120°–300° running through this buoy position.

ANCHORAGE: Suggested anchorage area is within a 3,000 ft. radius of position Latitude 30° 32′ 40″ North, Longitude 18° 35′ 50″ East in approximately 90 ft. of water.

MAX. SIZE: Up to 60 ft. draft, up to 130,000 dwt.

HEALTH: By day – fly flag "Q" and by night display red light over white light for Quarantine Service.

Libyan Customs, Federal Police and Immigration Officials will board the vessel as soon as possible after arrival to give inward clearance and "pratique" services. Libyan Government Regulations are strictly enforced. The vessel should have a clean Bill of Health or equivalent document from the last port of call. The vessel's Master and all members of the crew shall possess International Certificates of Health showing valid smallpox Vaccination Certificates.

RADIO: Direct communication by radio between ship and shore is available through Port Ras Lanuf Terminal shore to ship radio station (call sign 5AV) and by VHF International Maritime Mobile Radio-telephone Service to Ras Lanuf Oil Movements Control Centre. All communication between ship and terminal should be by way of these stations except that should a vessel be unable to contact them she should send messages to Mobilpro, Tripoli, Libya, via Malta Radio (call sign VPT). Ras Lanuf Oil Movements Control Centre keeps continuous watch on VHF Radio-telephone Channel 16 (156·80 mc/s), Channel 14 (156·70 mc/s) and Channel 11 (156·55 mc/s). Vessels approaching the port should make contact on Channel 16 when shore will request her to switch to Channel 14. This channel will also be used by terminal Marine Section for internal use and tanker mooring control. Channel 11 is reserved for communications between ships in mooring and Terminal Oil Movements Control Centre and should only be used for general purposes after obtaining clearance from Oil Movements Control on Channel 16. This is a safety measure since oil flow to ships is controlled through Channel 11 and therefore it must be clear at all times in case of need to stop oil flow for any cause. Channel 16 is for calling and safety use only.

TUGS: Not required. The company maintain launches to assist in mooring and unmooring vessels. These are under the direct supervision and control of the Mooring Master.

BERTHING: There are three submarine loading pipe-lines which terminate in the following approximate positions which are each marked by an unlit white spar buoy.

Berth No. 1: Latitude 30° 31′ 35″ North, Longitude 18° 34′ 37″ East, from which a submarine pipe-line runs to shore on a bearing of approximately 224°. Depth of water at spar buoy 70 ft.

Berth No. 2: Latitude 30° 31′ 55″ North, Longitude 18° 33′ 58″ East, from which a submarine pipe-line runs to shore on a bearing approximately 197°. Depth of water at spar buoy 70 ft.

Berth No. 3: Latitude 30° 32′ 18″ North, Longitude 18° 33′ 19″ East, from which a submarine pipe-line runs to shore on a bearing of approximately 198°. Depth of water at spar buoy 73 ft.

Raising, lowering, connecting and disconnecting of submarine hoses, as well as all other labours and duties on shipboard, will be performed by the ship's crew under direction of the Mooring Master.

LIFTING HOSES: After the vessel is securely moored the submarine hose will be hoisted on the port side. Berths No. 1 and 2 are each equipped with 2×12 in. loading hoses, the weight of each hose lift being approximately five long tons. Berth No. 3 is equipped with 2×12 in. loading hoses the weight of each hose lift being approximately 5.75 long tons. Therefore, all lifting equipment and tackle should have a safe working load of at least 6 long tons. Hoses are lifted by ship's gear and crew, and all connecting of hoses will be done by them. The lifting derrick, equipment, tackle, etc., should be topped off and ready on arrival.

MEDICAL: No medical services (except in case of emergency and subject to a doctor being available) or other services are to be expected at Ras Lanuf.

FRESH WATER: Not available.

FUEL: Not available.

REPAIRS: When a ship is in the moorings or vicinity, its engines must remain on standby with full power for immediate use. Deck machinery shall be kept in instant readiness. *Positively no repairs of any sort will be permitted in the moorings.*

CUSTOMS ALLOWANCES: Cigarettes, cigars, tobacco, matches, spirits, wines, beers, perfume, arms, ammunition, saccharin and possibly other items have to be locked up under Customs seal from time of arrival of ship in port until time of leaving territorial waters. Each person is allowed 25 cigarettes per day of stay or 25 grams of tobacco or cigars in lieu. Each man is allowed one litre of beer or half litre of wine per day. Special allowances are made for Master under special circumstances.

CONSULS: The only Consulates are located in Tripoli which is 670 kilometres by road from Ras Lanuf. These consist of U.S.A., British, Danish, Dutch, United Arab Republic, French, German, Greek, Indian, Italian, Norwegian, Spanish, Russian (U.S.S.R.), Turkish, Yugoslavian.

REPATRIATION: Crew members cannot pay off or leave the vessel at Ras Lanuf except in cases of extreme emergency. Even in an emergency it should be noted that Seamen's Books are not valid under the Libyan law. A valid passport is required.

BALLAST: Positively no provision is made for dirty ballast. Any ship arriving with dirty ballast will be rejected and all costs accruing

therefrom will be to the ship's account. Notice of readiness shall not be accepted until vessel returns with clean ballast and tanks fit to receive cargo. She will on second arrival tender a new notice of readiness to load.

DEVELOPMENTS: Single buoy mooring for 250,000 dwt. tankers under construction.

TIME: Libyan local time is GMT plus 2 hours.

GENERAL: No stores, foodstuffs or goods whatsoever of Israeli origin may be on board any ship calling at Ras Lanuf.

Penalties: Fine, confiscation of goods and possibly more. The Libyan Government strictly enforces this law.

Whilst arriving fly the Libyan Ensign (red side up).

Due to the existence in these waters of the fish commonly called "Weaver" fish, ship's crews are urged to exercise extreme caution in fishing whilst lying off the port area. There have been several cases of poisoning by these fish, all of which were distressingly painful, caused by contact with the fins.

When a Mooring Master and his shore crew, which includes launch crews, are assigned to a ship on business, it is expected that the ship will supply them with meals at the same time and in the same manner as comparable personnel of the ship. No special meals or special foods will be required. The terminal will keep this item to a basic minimum. The ship will also provide shelter and smoking facilities in the same manner as meals. All communications between shore personnel assigned to a ship and ship's personnel should be through the Mooring Master.

SHORE LEAVE: Not allowed.

AUTHORITY: Mobil Oil Libya Limited, Sciara Giama al Magarba, PO Box No. 690, Tripoli, Libya. Telephone: 30081. Cable address: Mobilpro, Tripoli.

AGENTS: Refer to "Tripoli, Libya".

TRIPOLI: 32.54 N. 13.13 E.

DOCUMENTS: 7 Crew Lists, Passenger Lists, Customs Documents, Health Documents, Manifests, Bills of Lading, Ship's Papers and all other Certificates required as per International Conventions.

PILOTAGE: By cable or VHF or radio, half an hour notice of ETA required. Possible to contact by international radio frequency 500 kc. Harbour Master via (VHF) Channel 16 frequency 500 kc. Pilot boat flies "H" flag. Pilot boat could be requested by three continuous long whistles. Pilot boat will meet ships outside the harbour. Ships waiting Pilot anchor outside the harbour if weather is good. In case of bad weather ships could enter harbour at their own risk and anchor inside. In case Pilot could not board, vessel should contact Harbour Master via radio station for instructions.

RESTRICTIONS: All ships can enter the harbour between sunrise and sunset, otherwise, special arrangements should be made with the Harbour Master after 2300 hrs.

HEALTH: Quarantine Flag should be hoisted until the doctor has been onboard. There is no automatic 'free pratique' for a vessel arriving from another Port of Libya.

MAX. SIZE: All types of ship of less than 27 ft. draft are safe in port. Tide does not exceed 2 ft.

RADIO: Malta Radio or Tripoli Radio, 5 AI/500 kc/s, 5 AI/476 kc/s, from 1700–1900 hrs. RT – 2182, 2662. All cables channelled through Harbour Master.

TUGS: Tugs are available immediately when the Pilot boards the ship.

BERTHING:

Main Port:

Quays no. 6 to 14; depths alongside 22 ft.

Karamanli:

Berth no. 1; max. depth alongside 27 ft. 6 in.
" no. 2 and 3; " " " 22 ft.
" no. 4; " " " 15 ft.

Buoy Berth no. 4; depth 27 ft. 6 in.

Other buoys: depth 23 ft.

MEDICAL: All facilities available. Doctors require 12 hours notice.

TANKERS: Berths at Karamanli Mole, 27 ft. draft.

FRESH WATER: Delivered on quay or by tanker barge.

FUEL: Bunkers available. 24 hours notice required.

DEVELOPMENTS: Port extension project released for tender; expected draft increase up to 35 ft. Completion around 1975.

WATCHMEN: Available on request. £L. 2/– per 24 hours.

OPENING/CLOSING HATCHES: Usually carried out by stevedores.

AIRPORT: About 25 kms away. Regular airlines.

TIME: 2 hours ahead of GMT. No alterations.

HOLIDAYS: Revolution Day (1st September of each year); Evacuation Day (31st March of each year); Eid El-Fitr (3 days around January); Eid El-Adha (3 days around March); New Year (Heja) (1 day around April); Prophet's Birthday (1 day around June); Ashoura (½ day around April); Rajab (½ day around October); Shaban (½ day around November).

POLICE/AMBULANCE/FIRE: Main Port call telephone 31808, 39111. Karamanli Wharf call telephone 30378.

GENERAL: Radio transmitters will be sealed by Port Authority whilst vessel in harbour. The Bond seals must remain unbroken if vessel is proceeding to another Libyan Port.

SHORE LEAVE: Allowed if ship berthed alongside a quay and after clearance from police. Shore passes delivered to vessel.

AUTHORITY: Directorate General of Ports, PO Box 648, Tripoli, Libya. Cable address as above. Telephone 33100.

AGENTS: Gulf Agency Co. (Libya) Ltd., POB 2252, 10/2 Ahmed El Sherif Street, Tripoli, Libya. Cables: "Gacship", Tripoli/Libya. Telephones: 415 34, 380 77; after office hours: 354 93, 327 26.

ZUETINA: 30.51 N. 20.00 E.

DOCUMENTS:

5 Crew Lists.
5 Passenger Lists, if there are passengers on board.
Certificate of Cargo Discharge (6 copies).
Cargo Manifest for Transit Cargo (1 copy).
Clearance from last Port of Call.

PILOTAGE: Es Zueitina Terminal is situated on the Libyan coast, in the Gulf of Sirte, 72 miles distant from Benghazi. The terminal sea buoy, painted black and white vertical stripes and at night showing one flash (white) every 10 seconds, is located in position Lat. 30° 55′ 39″ N. Long 19° 58′ 00″ E. A radio tower, in position Lat. 30° 49′ 57·6″ N. Long. 20° 03′ 05·6″ E., the height of which is 451·5 ft. above sea level, is a prominent landmark. It displays at night three red lights in a vertical line, the top light flashing, the lower two fixed.

A Mooring Master will board the vessel ½ to 1 mile W.N.W. of terminal sea buoy and advise Master on all manoeuvres relative to berthing, connecting and disconnecting the hoses.

Vessels of 40,000 tons or over are requested to have a pilot ladder long enough to reach Mooring Master's launch rigged alongside the accommodation ladder, in order that the Mooring Master may transfer to it after 7 or 8 ft. Adequate lighting should be provided and vessels should make a lee.

ANCHORAGE: Vessels awaiting the Mooring Master should heave to in the close vicinity of the terminal sea buoy. If they are obliged, or instructed to anchor, they should do so in the recommended anchorage, which is within the radius of a circle centred in position Lat. 30° 55′ N., Long 20° 01′ E. Under no circumstances should they anchor South of the 30° 54′ 00″ parallel.

RADIO: 72 hours prior to arrival at Es Zueitina, vessels should advise Occidental of their estimated times of arrival by cables sent via Malta Radio (Cable address: "Oxyport", "Oxylibya" Tripolilibya). They should also confirm or amend them when they are 48 hours and again when 24 hours distant from the port.

In addition to cabling via Malta Radio, vessels may inform "Oxyport Oxylibya" of their ETA by cables. Vessels equipped with VHF radio-telephone should contact "Zueitina Marine" on Channel 16 or 13 when they are within range and request berthing instructions.

HEALTH: Normally, Government officials do not board the vessel, and pratique is not granted, the quarantine signal must be displayed throughout the vessel's stay and quarantine regulations observed. Customs, Federal Police, and Immigration Department officials may, of course, visit any ships suspected of failing to conform fully with Libyan laws and regulations.

TUGS: No tugs available to assist berthing.

BERTHING: The sea terminal consists of five berths, two of which – "Bravo" and "Delta" – are conventional buoy moorings, and the others – "Alpha" "Charlie" and "Echo" – are "single-point moorings", or "mono-buoys". Conventional buoy moorings "Bravo" and "Delta" are approximately 2½ miles off shore, with an average depth of 70 and 80 ft. respectively. 42 in. (ID) submarine lines connect the berths to the shore installations. Two 12 in. hoses connect the header at the end of the submarine line to the ship's manifold. They are taken up on the port side. The weight to be lifted on each string is approximately 6 tons.

Single-point Moorings "Alpha", "Charlie" and "Echo" are all approximately 3 miles off shore, in an average depth of 100 ft. of water. As in the conventional buoy berths, the hoses are always taken up on the port side, and the connection to the ship's manifold is by a 12 in. ASA flange. The weight of each string to be lifted is approximately 3 tons.

Single-point Moorings. The "Mono-buoy" is a large cylindrical buoy (weight 106 tons), divided by steel bulkheads into four watertight compartments, through the centre of which emerges the loading hose. The perimeter of the buoy, to which the buoy-to-ship moorings are attached, is a turntable which revolves on bogies round the centre – hose-supporting – section, in such a manner that the vessel berthed on the buoy will always lie head to wind. The minimum depth of water within the swinging radius of the largest ship envisaged at the buoy is approximately 95 ft.

The port approach rope, a 600 ft. length of 10 in. plaited polypropylene, is taken up first, and the ship is hove steadily towards the buoy. The starboard approach rope – 330 ft. of 10 in. plaited polypropylene – is also brought aboard when within range, and both

lines are hove on until the chafing chains lie across the fairleads.

Loading. Rate of loading is between 32,000 and 50,000 bph.

Conventional Buoy Moorings. In berths "Delta" and "Bravo" the ship is berthed with two anchors ahead and seven mooring lines to buoys round the stern. As the mooring buoys are at distances of from 500 to 650 ft. when the ship is in position, vessels should have ropes of 200 fathoms ready for running out on each side of the after deck to warp ship into position. Where vessels are not so equipped, two ropes (of such length as to have the eye splice inboard when in position) should be married together and flaked out on deck clear of all obstructions and ready for running. Lifting, lowering, connecting and disconnecting hoses will be performed by ship's personnel under the direction of the Mooring Master.

MEDICAL: Medical facilities are restricted to treatment of emergency cases only.

FRESH WATER: No fresh water available.

FUEL: No bunkers available.

REPAIRS: There are no engineering repair shops.

REPATRIATION: Only in an emergency can any crew member be paid off. Seamen's discharge books are not recognised in Libya. Crew members are advised to have a valid passport in their possession in case of emergency.

CUSTOMS ALLOWANCES: Each member of the crew is allowed 25 cigarettes, or 25 grammes of tobacco, one litre of beer, or half a litre of wine, for every day of the ship's stay in port. Other tobacco and cigarettes, wines, beers, and spirits, as well as matches, arms and ammunition, and saccharine, must be locked under seal from the time of arrival until the time of departure from territorial waters.

CONSULS: There are consulates in Benghazi for most of the maritime nations. Those nations not represented in Benghazi are represented in Tripoli.

BALLAST: As there are no ballast discharging facilities at Zuetina, vessels must arrive at the terminal with clean ballast ensuring that all pipelines, pumps and strainers have been flushed out prior to arriving and not within 100 miles of the Libyan coast.

GENERAL: Vessels are advised not to have on board any articles whatsoever of Israeli origin. All ships must fly the Libyan flag when inside Libyan territorial waters. Being an open roadstead, vessels must keep engines on stand-by during their stay in the moorings. No repairs to main engine may be undertaken in berth. Steam must be kept on deck in case adjustments to anchor cables or mooring lines are found necessary.

SHORE LEAVE: No shore leave is permitted.

AUTHORITY: Occidental of Libya Inc.

AGENTS: See Benghazi.

Madeira

FUNCHAL: 32.38 N. 16.55 W.

DOCUMENTS:

Maritime Declaration of Health Form.
5 Crew Lists.
15 Lists of Passengers finally landing.
5 Lists of Passengers in transit.
1 List of Stores and Provisions, including Deck and Engine Stores.
1 List of Contents of Barber's shop.
6 copies of Manifest of Cargo for discharge.
1 copy of each B/Lading of Cargo for discharge.
1 copy of Manifest of Cargo in Transit.
1 List of Passengers finally landing, visaed by Portuguese Consul at original port.

All other entry and clearance documents are arranged by the Agents.

PILOTAGE: Vessels should radio their ETA to Agents who order Pilot. 24 hours notice requested. Pilot launch blue hull with "Pilotos" painted in white on both sides, flies "H" flag during day. Exhibits bright white light over red at night. To request Pilot on approach by day fly international "G" flag, or give 2 long and 1 short blast on whistle. At night flash 2 long 1 short. For vessels berthing alongside Pilot boards in bay; for vessels anchoring Pilot does not board but pilot launch indicated where vessel should anchor. Pilot boat equipped with radio telephone on 2182 and 2341 kHz.

ANCHORAGE: Permitted anchorage within 800/900 metres East from end of breakwater or 300/350 metres South of breakwater within a limit of 400 metres from shore.

RESTRICTIONS: None.

SIZE OF VESSEL: No limit to size of vessels which can anchor, but all anchorage positions should be indicated by pilot launch. For vessels berthing alongside quay maximum permissible length 990 ft. maximum draft 36 ft. Oil carriers discharge at buoys at Praia Formosa 3 miles to West of Funchal. Maximum length of oil tankers that can berth at oil discharge buoys 665 ft. maximum draft 36 ft.

HEALTH: Free Pratique may be arranged by Master sending wireless message addressed "Port Doctor Funchal" – "Request free pratique arriving . . . from . . . sailing to . . . number passengers . . . landing . . . number passengers in transit . . . number of crew . . . all well. Master."

In event suspected disease or fever on board Master should wireless either Port Doctor direct or to ship's Agents, who will inform Port Doctor. The Master will then be instructed what further action he is to take.

When vessel other than of national flag arrives after calling at another port in same country usual procedure applies, i.e. Masters radio for free pratique or pratique granted by Doctor visiting in bay.

RADIO: Madeira Radio Station call sign CUB 500 k/cs. Same station normally used by Agent when communicating with vessel.

TUGS: Normally join vessel outside breakwater. Usually tug lines used, which are charged for at Esc. 100$00 per line for each service. 1000 and 1100 MP bollard pull 18 tons.

BERTHING:

Quay No. 1 Length 139 metres, depth 6 metres.
Length 41 metres, depth 7 metres.
Length 19 metres, depth 8·5 metres.
Quay No. 2 Length 425 metres, depth 11 metres.
Quay No. 3 Length 347 metres, depth 11 metres.

STEVEDORES: When ships require labour, Agents must be notified before 4.00 p.m. on working days and on Sundays and holidays before 11.00 a.m. after these hours labour not available for last minute engagement. On Christmas Eve work stops 3 p.m. even if ships loading or discharging. No labour available Christmas Day, New Year's Day or Easter Sunday.

MEDICAL: Advance notice is required by Agents for any medical attention required. Hospital facilities available. No inoculations required.

TANKERS: Diameter of connection of discharge lines 8 in. into pipe-lines of 12 in. diameter for black fuel and 10 in. diameter for white fuel. 1 anchorage buoy berth with maximum draft of 36 ft.

DENSITY: Mean surface density 26, 22.

FRESH WATER: Available at anchorage and ex quay.

	At Anchorage	*Alongside*
Ex steel barges	Per ton Esc. 22$50	Per ton Esc. 22$50
Ex steel barges (supplies of over 500 tons)	Per ton Esc. 20$00	Per ton Esc. 20$00
Ex quayside	—	Per ton Esc. 7$50

Four barges available, with total capacity of 580 tons. Delivery hoses ex barge or ex quay are of 2½ in. diameter, and there are nozzles of various sizes. Rate of delivery ex barge – 50 tons per hour per barge. Delivery ex quay, said to be about 60 tons per lead per hour, but this can be slow, according to the number of ships being supplied, and the amount of water in the city storage tanks and may require to be supplemented ex barge in case of big quantities or supplies required within limited time.

FUEL: Fuel oil available from 3,500 seconds Redwood 1 to 200 seconds Redwood 1. Also marine diesel and gas oil. 12 hours (minimum notice) required.

FIRE PRECAUTIONS: At discharging buoys usual non-smoking precautions.

GANGWAY/DECK WATCHMEN: Gangway watchment recommended. Esc. 120$00 per watchman per day, Esc. 200$00 per watchman per night.

OPENING/CLOSING HATCHES: Normally carried out by crew.

CERTIFICATES: Safety Equipment Certificate. Deratisation or Exemption Certificate.

CUSTOMS ALLOWANCES: Tobacco and Wine and Spirits: Moderate supplies allowed for personal use during ship's stay.

CARGO GEAR: No specific local safety regulations. Vessels discharging must provide strops, slings and nets. Lifts over five tons must be effected by ships gear.

IDENTIFICATION CARDS: Required.

CONSULS:

Austria	21057	W. Germany	20338	Peru	21375

France	21445	Panama	20091	Venezuela	24050

REPAIRS: Repair yard available which can carry out most engine repairs on board except removing or replacing main engines. Hull work limited to removing riveting or replacing hull plates above water line, electric and oxy-acetylene welding. Most electrical work can be effected but notice required in regard to materials necessary. Foundry where casting can be made up to one ton weight.

DRY DOCKS: None.

REPATRIATION: Limited facilities for crew changes. Necessary repatriations can be made.

AIRPORT: At Santa Cruz, 20 kilometres East of Funchal. Service between Funchal and Lisbon operated by national airline TAP, twelve flights weekly Funchal/Lisbon/Funchal.

TIME: GMT maintained throughout year.

HOLIDAYS: New Year's Day (totally unworkable); Easter Sunday (totally unworkable); Municipal Holiday (local) (workable, 50% overtime); Camoes Day (workable, 50% overtime); Corpus Christi (workable, 50% overtime); The Assumption (workable, 50% overtime); Proclamation of the Republic (workable, 50% overtime); All Saints (workable, 50% overtime); Independence of Portugal (workable, 50% overtime); The Immaculate Conception (workable, 50% overtime); Christmas (totally unworkable).

Saturday is an ordinary working day. December 24 (workable up to 1500 hours only).

POLICE/AMBULANCE/FIRE: Police 22022; Ambulance 22122; Fire 21163.

TELEPHONES: Telephone can be placed on board when vessels alongside, the charge being Esc. 75$00 per day.

SHORE LEAVE: All crew visiting shore must be in possession of special Landing Card, plus Identity Cards, Discharge Books or Passports, which must be shown to Immigration Officer at gangway. Crew Landing Cards must be stamped by Immigration Officer before Crew can proceed ashore.

AGENT: Blandy Brothers & Co. Lda., PO Box 408, Avenida de Zarco 2, Funchal, Madeira. Telegraphic address "Blandy Funchal". Tel: 20161/9. No Telex.

Home telephone numbers for contact after office hours: R. C. Lee 20356; J. Figueira de Freitas 20579; Duarte Reis 22756; J. C. Rodrigues 24242.

PILOTAGE: No telegraphic address. Ships advise Agents hour of ETA. Pilots informed by Agents. Pilotboat is launch bearing usual marks of pilot boats, and waits for ships out of harbour entrance, at about one mile on South-pass range. If no pilot boat found outside, wait about three miles off South entrance. South entrance pass usually used, but if some captains choose Eastern pass, pilot-boat will wait one mile outside this pass.

ANCHORAGES: No special anchorage. If no berth available on ship's arrival, Pilots put ships at best anchorage, according to draft and length of ship, between Reef and shore.

RESTRICTIONS: No restrictions. Ships enter and sail day and night at any time. Maximum tide only 3 ft.

MAX. SIZE: For roads, maximum length about 200 metres (concerns only passenger ships). For cargo vessels, maximum length now 180 metres and nine metres draft (590 ft., 26 ft. 6 in.). For oil carriers maximum length and maximum draft 180 metres and 9 m. 30 (590 ft. 30 ft. 6 in.).

HEALTH: Quarantine message sent to Agents who inform health service. "Q" flag must be hoisted if health satisfactory. Captain presents maritime declaration of health.

RADIO: Tamatave Radio, call sign 5RS. VHF frequency (16) 156·80 – (26) 161·90 – 168·95.

TUGS: None.

BERTHING: Three berths for deep-sea ships and two berths for coastal ships. Ships moored at berth in order of arrival and according length and draft. Mooring has to be very strong, due to swell that may sometimes enter harbour when South-east trade winds are strong, or if cyclone in vicinity. Mooring by two chains and special nylon lines furnished by harbour. Swell is so dangerous that ships have to go to anchorage or put to sea until weather improves.

STEVEDORES: ETA to Agents must give hatches, tonnages, and all information about cargo.

RADAR/VHF: No radar. VHF, see "Radio".

MEDICAL: Preferable to inform Agents in advance. All hospital facilities available – smallpox vaccinations.

TANKERS: Dimensions and draft, 590 ft., 30 ft. 6 in. Diameter of lines 12 in. No slop discharge facilities. If tanks are to be washed, slops must be discharged outside harbour. At berths (anchors and mooring aft) for tankers, draft 30 ft. 6 in. One refinery that exports fuel oil and refined oils and imports crude oil.

DENSITY: 1023·5.

FRESH WATER: Delivered by water-boats at rate of about 100 tons/hour. Cost: 2·6 French francs a ton.

FUEL: Only gas oil and diesel oil available, by fuel-boat, for quantities not exceeding 250 tons. At least 4 days advance notice required.

FIRE PRECAUTIONS: One fire-boat stationed near tankers.

GANGWAY/DECK WATCHMEN: Recommended. Very low cost.

OPENING/CLOSING HATCHES: Booms always operated by crew. If hatches are Macgregor type, by crew; otherwise by stevedores.

CERTIFICATES: Safety certificates (three), Derating or Exemption Certificate, Register, Load-line Certificate.

CUSTOMS ALLOWANCES: 200 cigarettes. Wine/Spirits. One opened bottle.

IDENTIFICATION CARDS: Only seaman's papers required.

CONSULS:

France 2721	Dutch 2632
Great Britain 2680	Swedish 2136
Norway 2549	Danish 2615

REPAIRS: Only small repairs possible.

REPATRIATION: Possible, arranged by Agents.

AIRPORT: Served by regular airlines. One flight a day by Air Madagascar to Tananarive and 4 to 6 flights a week from Tananarive to Africa and Europe.

TIME: Local time GMT plus 3 hours.

HOLIDAYS: 13 holidays per year. Cargo work cannot be arranged on holidays but can be on about every second Sunday.

TELEPHONES: Two connections at two berths used for passenger ships, but may be requested by other ships.
GENERAL: Fourteen cranes of three tons each. One floating crane for maximum 120 tons weight. Small tugs and lighers for ships operating on roads. One port launch and some private launches for crews of ships at anchor.
SHORE LEAVE: Permitted.
DELAYS: Not fixed. When all berths occupied, ships wait at anchorage.
AUTHORITY: Directeur du Port, Tamatave. Tel. 2156 Tamatave.
AGENT: Transit A. Liounis, 37 Rue du Commerce, B.P. 411. Tel. 20–48. Cables "Liounistran" Tamatave.

Malaysia

DUNGUN, Malaya: 04.47.30 N. 103.27 E.

DOCUMENTS:
Register.
Last Port Clearance.
10 copies Crew List.
6 ,, Passenger List (if any).
6 ,, Stowaway List (if any).
2 ,, Stores List (including Firearms and ammunitions).
2 ,, Dutiable Liquor and Tobacco List.
2 ,, Crews Declaration List (cameras, radios, etc.).
PILOTAGE: Compulsory to the loading berths. Extra charge for pilotage outside normal office hours and holidays.
ANCHORAGE: On arrival vessels required anchor about one mile outside berthed ships to obtain pratique. Accommodation ladder must be rigged on lee side to allow Port Authorities to board.
READINESS: Notice of readiness cannot be accepted until the vessel is in free pratique, Customs Inward Examination completed, and in all respects ready to load.
LOADING: (*a*) Ladders. Masters particularly advised to see that a sound and adequate ladder provided at each lighter to allow labourers engaged in loading to pass to and from ship with no undue risk. Regulations are provided in the Merchant Shipping Ordinance, Section 445, Sub-Section (O) which takes care of this requirement and failure to take adequate precaution in seeing regulation is observed may result in serious consequence to those responsible.
Masters requested to ensure that in addition to ladders for labourers, an extra ladder, preferably a clean pilot ladder, be made available at all times for the Agent for boarding. This ladder should be made fast on lee side, just forward of any scuppers in vicinity, and a heaving line from ship's rail made fast to bottom rung. When ladder not in use, bottom of ladder can be pulled up a few feet with heaving line to prevent labourers from using it or damage from lighters.
(*b*) Winches. All winches must be in single gear at all times.
(*c*) Stowage. Practice is to build one or two cone-shaped piles of ore in each hold so as to keep centre of gravity as high as possible, otherwise intense wracking stresses and an uncomfortable ship would be experienced in a seaway.
(*d*) Trimming. No manual trimming is undertaken.
(*e*) Damages. While every endeavour made by shippers to avoid damage, Masters requested to place dunnage in centre of each hatch to protect tanktops, tunnel, etc. from first buckets of ore.
In event of vessel sustaining damage by stevedores during loading, inform clerk and foreman on board immediately and as soon as practicable confirm same in writing to Eastern Stevedoring Co. Ltd., Dungun, with copies to Hong Kong & Eastern Shipping Co. Ltd., Hong Kong, and Malay States Shipping Ltd., Dungun. It is important that full details of damage are given, together with measurements whenever possible
Minor damage has occurred on vessels due to hatch beams not being bolted or lashed. Masters therefore requested ensure all beams adjoining working parts of hatches either bolted or lashed, otherwise stevedores will repudiate liability for any damage incurred.
OPENING/CLOSING HATCHES: Removal and replacement of hatch beams and covers must be done by ship's crew. Ship's Officers should see that any tween-deck beam removed is replaced before ore reaches that height.
CUSTOMS: Customs Office hours 0830 to 1630 (Thursday afternoons, Fridays and holidays excepted).
IDENTIFICATION CARDS: Every member of crew must produce Identity Document or Shore Leave Pass at Customs House when landing and again when returning to vessel.
GENERAL: (*a*) *Scrap Iron.* Steel mills in Japan complain from time to time of finding pieces of scrap iron in iron ore cargoes. If this scrap is not found it will cause serious damage to the plant and occasion considerable delay to production; furthermore, should scrap iron enter the machinery there is always the possibility of it endangering life, and several fatal accidents have been attributed to this cause.
The assistance of officers and crew is requested in reporting any scrap iron they see being loaded, advising shippers into which hold it went and number of lighter it came from.
(*b*) *Whistle, Radio.* Wireless Transmitters, Whistles and Sirens, etc., must not be used by vessels at anchor off Dungun.
(*c*) *Stores.* Bonded stores can be obtained from Kuala Lumpur at prices roughly same as Singapore. Essential view Customs formalities, that Masters give Malay States Shipping Ltd., Dungun, six days prior notice of requirements.
(*d*) *Ferries.* Dungun passenger ferries independently owned and run, and not controlled by Agent. Ferries run from about 0800 to 1600 hours mainly for ferrying labourers to and from ships and do not run any regular service. However, whenever ferries going around vessels in port, they will normally call at any vessel flying International Code signal flags FK (F uppermost) to pick up crew members wishing to go ashore.
The regular fare is 50 c. (approx.) per man to go ashore and 50 c. (approx.) to return to vessel. However, some irregularities exist. If there are few passengers offering at any time for a trip, especially by arrangement or on demand, the ship or any crew member thereof is liable to pay $18 (approx.) each way, which is accepted price for a special trip. This is because ferries usually only run when they have a full complement of passengers and as each boat is licensed to carry 18 persons at any one time, the normal receipts for the ferry owner for a round trip at 50 c. (approx.) per man each way is $18 (approx.).
SHORE LEAVE: No seaman may proceed more than three miles from Dungun Customs House. The Officer in Charge Customs, as acting Immigration Officer, has authority to limit or prohibit Shore Leave in all cases.
AGENT: Malay States Shipping (F. of M.) Ltd.

KOTA KINABALU, (Jesselton), Sabah: 06.00 N. 116.05 E.

DOCUMENTS:
1. To be produced on Arrival:

Notes: (*a*) = If vessel arrives from any port outside those declared infected.
(*b*) = These 2 copies (Inward Cargo Manifests) must be certified by the Master as follows: "I hereby certify that to the best of my knowledge and belief this manifest is complete and correct. . . . Master".
2. To be Supplied to Ship before Departure:
1 set Agents Outward Manifests.
2 copies Passenger Lists for Immigration.*
1 copy Passenger Lists for Customs.*
1 set Manifests for Customs.*
* To be supplied by Agent.
If vessel departs to a port outside Sabah, 2 copies outward crew list are also required for Immigration.
PILOTAGE: Pilot normally available between 6 a.m. and 6 p.m. only, Written application must be submitted 12 hrs. in advance.
ANCHORAGES (Also see "Health"):
Special Anchorages and Prohibited Areas
(1) *Prohibited anchorage:* No vessels shall anchor as to swing within 3,000 ft. of the F.R.G. light on the N.N.E. end of the Authority wharf in approximate position Latitude 05° 59′ 51″ N. Longitude 116° 04′ 30″ E. Vessels under 150 ft. in length may anchor within this area, East of a line joining the F.R.G. light and Gueritz shoal light beacon.
(2) *Prohibited Area:* Except with the previous permission in writing of the Authority, no logs or timber shall be allowed to lie afloat within the area – Eastward of a line drawn in a 172° direction from Grieve Reef Beacon.
(3) *Explosives and Dangerous Goods Anchorage:* Vessels having explosives and Dangerous Goods on board shall anchor within a line drawn from a position in Latitude 06° 01′ 21″ N. Longitude 116° 05′ 45″ E. thence in a 360° direction for 6·5 cables thence in a 270° direction for 10 cables thence in a 180° direction for 6·5 cables thence in a 090° direction for 10 cables to the starting point.
(4) *Dangerous Petroleum Anchorage:* A vessel having dangerous petroleum on board shall anchor within a line drawn from a position in Latitude 06° 00′ 42″ N., Longitude 116° 05′ 45″ E. thence in a 270° direction for 10 cables thence in a 360° direction for 6·5 cables thence in a 090° direction for 10 cables thence in a 180° direction for 6·5 cables to the starting-point.
(5) *Quarantine Anchorage:* A vessel which is required to proceed to a quarantine anchorage shall anchor within an area bounded by a radius of 3 cables from a position in Latitude 06° 01′ 34″ N. Longitude 116° 03′ 46″ E.
RESTRICTIONS:
1. Entering. Vessels with dangerous cargo such as benzene are not allowed to stay alongside wharf or to berth after 6 p.m. Vessels arriving from any port within hours of day-light not allowed to berth until they see the signals at the Customs House directing them. This applies equally to vessels arriving on schedule as well as unscheduled vessels and any infringement of these Customs regulations can have very serious consequences.
Master of ship not sailing within 48 hours after port clearance to report to Harbour Master reason for not sailing, and, if so required obtain a fresh port clearance.
2. Shifting. The Authorities must be informed prior to shifting.

3. Immigration. No person may leave ship before clearance has been given by Customs/Immigration officers.

4. Currency. There is no restriction on amount of currency which can be brought into this State but maximum amount allowed to be taken out is £25 stg. Foreign exchange must be conducted through recognised banks.

HEALTH: (Also see "Regulations"). (*a*) Sabah Government are signatories to W.H.O. convention on Quarantine regulations. Port Health Doctor will not board unless vessel comes from infected port. Instead, Maritime Declaration of Health to be filled-out and handed to Boarding Officer of Marine Department who will require one copy of crew list and one copy of passenger list. Vessels should cable Agent prior arrival advising last port of call and whether vessel is healthy. Pratique normally cabled to ship but if unreceived, vessel need not proceed to Quarantine anchorage unless coming from infected port.

(*b*) Vessels arriving from ports outside the State will anchor until boarded by Authorities unless previously instructed by telegram to come alongside.

RADIO: (Also see "Health"). Information required before ship's arrival: Manifest, stowage plan, number of gangs required, amount of water required, pilot requirements. Local radio call sign "Control K.K.".

TUGS: Tug 280 h.p. available to assist vessels berthing and unberthing without a pilot at inner berth. Ship's lines used.

BERTHING: (*a*) Facilities. Wharf 647 ft. long and 40 ft. wide, minimum depth alongside being 25 ft. There is a godown 120 ft. × 140 ft. One 10-ton mobile crane and 4 forklift trucks, all privately owned, are normally available. Heavy lifts acceptable but Agent must be notified well in advance regarding any lift over two tons and any lift over 10 tons must be confirmed by Agents. A lift of 25 tons and over must be notified to Agent one month in advance and is accepted on condition that consignees can take delivery. No facilities for handling or storing bulk cargoes in any quantity.

(*b*) Buoys. No mooring buoys in Kota Kinabalu.

STEVEDORES: Messrs. Chong Yun Nyen Contractors. The stevedores supply labour for working in ship's holds, and winchmen (if required) against additional charges. About 50 men can generally be supplied at 24 hours notice, providing no second vessel working alongside together. Ship must provide all cargo working gear. Consignees provide own labour for taking delivery ex-wharf.

Normal Working Hours/Days for Customs: Weekdays 8 a.m.–4.15 p.m. Saturdays 8 a.m.–12 noon. All formalities for working overtime (when required) will be arranged by Agent.

Loading/discharging rate (speed) per gang/hour: General cargo: Approx. 6–8 tons (dependent upon stowage and nature of cargo). Flour: 20 tons if marks not mixed. Cement: 20 tons if marks not mixed. Kerosene: 500 tins. Rice/Sugar: 250 bags.

CARGO: (Also see "Berthing").

1. Tally: The Agent can provide tally clerks at ship's expense.

2. Inward cargo: Ship's responsibility ceases as soon as consignees take delivery ex-sling.

3. Transhipment cargo: Transhipment cargo is handled via Customs sheds.

4. Outward cargo: All cargo is brought to the ship alongside wharf either by truck or hand-trolley.

5. Special cargo regulations:

(*a*) *Dangerous cargo.* Vessels carrying explosives as cargo: All vessels arriving at, or remaining within the limits of, any port with explosives on board shall fly the gunpowder flag at the fore mast.

No vessel having explosives on board shall, without the permission in writing of the Harbour Master, come or remain within 500 yards of the shore or of any other vessel:

Provided that such a vessel may, with the written permission of the Harbour Master, come and remain within such limit where:

(i) such explosives are wholly and exclusively of Class V (Fulminate) or Class VI (Ammunition) or both such classes in the second schedule; and

(ii) the total quantity of such explosives does not exceed two thousand pounds; and

(iii) such explosives are carried in a properly constructed magazine duly certified as such by a British Board of Trade Surveyor or by an officer fulfilling similar functions appointed by a Government of any British possession or the vessel has a certificate from one of Her Majesty's Inspector of Explosives or from an Officer fulfilling similar functions appointed by the Governments of Singapore, the Federation of Malaysia or Hong Kong and approved by the Governor that all the explosives on board such vessel have been properly stored and the Master of such vessel further certifies in writing that no other dangerous cargo is carried by the vessel; or where:

(iv) such explosives are wholly and exclusively explosives of one or any of Class III (Nitro-compound), Class IV (Chlorate mixture) or Class VII (Firework); and

(v) the total quantity of such explosives does not exceed three thousand pounds.

No such explosive shall be landed, shipped or transhipped between sunset and sunrise without the previous permission in writing of the Harbour Master. Any Master of a vessel offending against the provisions of this section shall be liable to a fine of one thousand dollars.

(*b*) *Livestock.* Pigs or cattle may not be loaded or discharged on any wharf without permission of the Harbour Master.

MEDICAL: Medical Officer of Health: Medical Services Department, tel. 2102. Vaccination and inoculation (incl. Yellow Fever) can be arranged via Agent at any time during working days. In case of death on board, Agent and Harbour Master as well as the Police to be informed.

FRESH WATER: Can be supplied from wharf only, vessels providing their own hose and should give 24 hours notice of requirements. Supply rate is 25 tons per hose per hour, cost $6.00 per 1,000 gallons (approx.).

FUEL: Not available.

CONSULS: Consul of Japan.

HOLIDAYS: Working on Sundays/holidays is possible against overtime payment. No work will be done on Chinese New Year's Day, Hari Raya Puasa and Christmas Day.

POLICE: OCPD (Police), tel. 2435.

GENERAL: Ship Chandlers: All kinds of stores and provisions available.

Recreation Facilities. Two cinemas in town which show English films frequently. Three tennis courts available and football matches may be arranged. Sports Club is next to town Padang, about half a mile from wharf and golf and yacht clubs situated on beach at Tanjong Aru, 4 miles from town.

Surveyor: Harrisons & Crosfield (S) Ltd. are Lloyd's Sub-Agents and can arrange a surveyor provided prior warning is given.

Fumigation. No facilities.

SHORE LEAVE: Crew members allowed ashore after inspection by Immigration Officer.

REGULATIONS: (*a*) Arrival and Departure. 1. The owner or Agent of every vessel other than a small ship intending to call at a port shall, as soon as possible, and in any case not later than thirty-six hours prior to the estimated time of arrival of the vessel, give notice in writing to the Authority of such arrival and, if so desired, the requirement for a berth at a wharf.

2. The notice under this regulation shall be in a form prescribed by the Authority and shall contain full particulars regarding the cargo to be discharged and loaded, the embarkation and disembarkation of passengers, heavy lifts, special or perishable cargo, hazardous and dangerous goods (whether to be discharged at the port or not), and any other matters of importance relating to the working or safety of the vessel in the port.

3. The Master of every vessel entering or leaving a port between sunrise and sunset shall cause to be hoisted the national colours and the signal letters, if any, of the vessel. The national colours shall be exhibited from 8.00 a.m. to sunset whilst the vessel remains in port.

4. The master of every vessel arriving from outside the State of Sabah shall exhibit the Immigration and Quarantine signals contained in the First Schedule and shall also at the request of a customs officer hoist the Customs signals. Such signals shall remain exhibited until the appropriate officer has given permission for them to be lowered.

5. No vessel shall approach within six hundred ft. of any other vessel exhibiting the Immigration, Health or Customs signals.

6. No person other than a Pilot may board or disembark from any vessel until the vessel is cleared inwards and the Immigration, Quarantine and Customs signals have been lowered.

7. Every vessel entering a port shall be anchored or efficiently secured to a wharf or buoy before commencing the loading or discharging of cargo and/or the embarkation or disembarkation of passengers.

8. No vessel shall leave any port unless in possession of a valid Port Clearance issued by or on behalf of the Director of Marine.

(*b*) Special signals

Significance	*By Day*	*By Night*
Immigration (for ships not carrying passengers)	International Code Signal "2 5"	Two green lights, six ft. apart, hoisted vertically where best seen.
Immigration (for ships carrying passengers)	International Code Signal "3 4"	Two green lights, six ft. apart, hoisted vertically where best seen.
Quarantine (vessel is Healthy request pratique)	International Code Signal "Q"	Nil
Quarantine (vessel is suspect)	International Code Signal "Q Q"	A red light over a white light and a separate hoist of red light over a green light and hoisted vertically six ft. apart where best seen.
Quarantine (vessel is infected)	International Code Signal "Q L"	
Quarantine (not received pratique)	Nil	A red light over a white light six ft. apart hoisted vertically where best seen.
Request Police Assistance	International Code Signal "S T"	A green over a white light, six ft. apart hoisted vertically where best seen.
Request Medical Assistance	International Code Signal "W"	A red light over a green light, six ft. apart, hoisted vertically where best seen.

(*c*) Priority. First come first served.

AUTHORITY: Harbour Master: Customs House, Kota Kinabalu. Tel. 2741.

AGENT: Harrisons & Crosfield (Sabah), Limited. Telegraphic address "Crosfield". Tel. Shipping Department 2458; Vessels at wharf 2300–4400.

KUCHING: Sarawak 01.34 N. 110.21 E.

DOCUMENTS:

Port Clearance to be surrendered to Customs when boarding.

Crew Lists and Passenger Lists, 2 copies for Immigration Department, 2 copies for Kuching Port Authority, 2 copies for Customs, 1 copy for Port Health Officer.

List of Ship's Stores (2 copies for Customs).

List of Ammunition (2 copies for Customs).

Health Documents (Vaccination Certificates and Cholera Inoculation Certificates to be examined by Health Inspector.
Manifests (2 sets for Customs, 3 sets for Kuching port Authority).

PILOTAGE: Pilot can be applied for through Agents or by direct cable Marine Dept. giving at least 24 hours notice of ship's arrival time at Tanjong Po. Telegraphic address, Shipping, Kuching. Location of anchorage for vessel awaiting Pilot at 045°, one mile from Tanjong Po. Pilot boat "Alor" equipped with VHF.

In rough weather it may be necessary for a ship to follow or meet the pilot launch at the junction of Embang and Senari leads. Pilots for the Batang Lupar, Triso or Lingga Anchorages are also normally embarked off Tanjong Po by arrangement.

ANCHORAGES: (*a*) Tanjong Po Anchorage: 045° one mile from Tanjong Po line. Area of safe anchorage is ¼ mile radius. Depth 6 fathoms. (*b*) Sijinkat Anchorage: For vessel up to 550 ft. long with maximum draft 25 ft. (*c*) Pending Anchorage: For vessel up to 350 ft. long with maximum draft 17 ft.

RESTRICTIONS: Tide restriction and maximum draft 17 ft. at high tide. Not advisable to enter port at Tanah Puteh at night.

MAX. SIZE: Maximum permissible length overall for vessel entering port at Tanah Puteh is 435 ft. and maximum draft 17 ft. Maximum overall length for oil carriers proceeding to oil installation at Biawak Wharf, Pending Point, is 435 ft., and maximum draft 22 ft.

RADIO: ETA cables to ship's Agents can be sent to Dept. of Telecommunications, Kuching. Code words, Kuching Radio.

TUGS: Not available.

BERTHING: Application for berth must be made by Agents at least 24 hours before berthing.

STEVEDORES: Gangs required for working vessel for weekdays must be ordered by Agents before 3.30 p.m. prior to ship's working the following day. Gangs required for working vessel on Sundays or public holidays must be ordered before 10.00 a.m. prior to ship's working on Sundays and public holiday.

VHF: Hague plan Channels 16, 20 and 26.

MEDICAL: Necessary for Agents to receive advance notice of required medical attention at least 24 hours before arrival. Hospital facilities available. Crew should possess Cholera inoculation and Vaccination Certificates.

TANKERS: Tankers berth at Biawak Wharf, Pending Points, for discharge of their oil. Diameter of pipe line 6 in. Only one tanker can berth at a time and maximum draft is 25 ft.

DENSITY: 1008 oz. per cubic ft.

FRESH WATER: Available and can be supplied to vessel alongside Authority's Wharf by hose about 25 tons per hour. Cost $1.50 per ton (approx.).

FUEL: High-speed diesel fuel oil can be supplied to vessel by making arrangement with either Shell or Esso Oil installation at Biawak.

DEVELOPMENTS: New wharf expected to be built at Pending Point for vessels with draft of 25 ft.

GANGWAY/DECK WATCHMEN: Not usually available. Ship should provide own watchmen.

OPENING/CLOSING HATCHES: Normally carried out by stevedores.

CERTIFICATES: Ships should possess all relevant certificates on board in case required for reference.

CUSTOMS ALLOWANCE: Tobacco: 1 oz. tobacco or 25 cigarettes permitted for each crew member daily. Up to three days ration in port. Wines and/or Spirits, ⅛ qt. bottle is permitted for each crew member daily. Up to three days ration in port.

CARGO GEAR: Ship provides own gear especially for handling heavy lifts, vehicles, etc. Rope slings, pallets and safety nets, etc., will be provided by the Authority at Tanah Puteh Wharf.

IDENTIFICATION CARDS: Required.

CONSULS: British, American and Norwegian.

REPAIRS: Minor repairs to vessels only.

DRY DOCKS: Not suitable for sea-going vessels. Coastal vessels up to 220 ft. long.

REPATRIATION: Facilities available.

AIRPORT: Airport about 8 miles from port at Tanah Puteh. It is served by regular airlines which operate two flights daily except on Tuesday, Thursday and Friday when one flight only.

TIME: Local time eight hours ahead of GMT.

HOLIDAYS: Port work can be arranged on all official holidays on overtime rates except Chinese New Year Day, Hari Raya Puasa Day, International Labour Day, (1st May), Dayak Festival Day (1st June), and Christmas Day, during which port at Tanah Puteh will be closed.

POLICE/AMBULANCE/FIRE: For emergency call, tel. 999 is applicable to all these three services. Individual call: Central Police Station, 21222; General Hospital, 23151; Fire Station, 21033.

TELEPHONES: Telephones can be provided free of charge on board vessel occupying Authority's berths at Tanah Puteh Wharf.

SHORE LEAVE: Crew members are allowed ashore provided permission is granted by Immigration Department.

REGULATIONS: Refer to Sarawak Merchant Shipping Ordinance and Kuching Port Authority's Ordinance and By-laws.

DELAYS: Wating for wharf berths when Port is congested, up to 3 days.

AUTHORITY: Kuching Port Authority, Tanah Puteh, Kuching, Sarawak, East Malaysia. Tel. 22291, 22292, 22293, 22294 and 22295.

KUNAK, Sabah: 04.41 N. 118.15 E.

Sabah Government Requirements

(*a*) Customs will treat port as sufferance wharf as defined in Section 2 of Customs Ordinance (Cap. 33), with control from Lahad Datu. Agent will be required to make application to Customs for sufferance facilities in respect of each vessel, on appropriate form. Officer-in-Charge of Customs, Lahad Datu will arrange to send a supervising officer with ship; this officer will attend vessel's inward and outward Customs clearance. Transport, food and shelter of Customs officer are for vessel's account, though it is envisaged that his transport can be concurrent with boarding and departure of the Pilot, i.e. per Marine Department launch.

(*b*) Immigration requires that vessel shall be cleared inwards and outwards in Lahad Datu. As Marine Department launch will be required to run mooring lines at Kunak, it will not be available to transport Immigration Officer who will *not* accompany vessel. His transport will therefore be a matter for Agent to arrange.

(*c*) Medical will grant pratique by radio by Medical Officer, Lahad Datu: whose right to carry out full inspection is not affected thereby. This will only be exercised, it is anticipated, when vessel has called at an infected port within prescribed period. Radio messages should therefore give this information, e.g. "Malay Maru Hongkong Twentieth Tokyo Thirtieth Manila Second All Well Request Pratique Master".

(*d*) Marine in the case of a vessel arriving from foreign ports will ultimately place a Pilot on board in Lahad Datu, if requested.

(i) Pilot will receive vessel's arrival report and sight her last port clearance. Pilotage will commence at any such point on route as Master may request, at rates laid down in the Merchant Shipping (Fees) Regulations, 1961. The pilot launch carrying berthing crew will arrive in advance of vessel at Kunak and assist in making fast.

(ii) As there is no accommodation available at Kunak, the Pilot it is hoped, can be accommodated on board ship during her stay.

(iii) Return to Lahad Datu will follow as in sub-para (i) with the Pilot issuing Port Clearance on completion of Immigration formalities.

(iv) Requests for Pilot should be made *at least* 24 hours in advance to Marine Sandakan via Sandakan Radio, 9WHZ1. Initially this service will be offered from Sandakan, and ships proceeding Kunak from there will retain the Pilot on board. Ships from foreign ports will be served by air; charges to their account. Eventually, the Pilot will be based Lahad Datu as Port Officer.

For information the port limits of Lahad Datu are "a line drawn from Tanjong Melandong on the South-west point of Darvel Peninsula to the most Westerly point of Sakar Island and thence to the mainland, etc." From this it can be seen that large vessels need not enter the narrow waters of the inner bay.

BERTHING: 1. Wharf consists of,

(*a*) A raised cement platform 30 ft. × 30 ft. on wooden piling.
(*b*) Three lazy piles with rubber fendering situated 20 ft. from the front edge of the platform and 125 ft. in each direction from the centre of the platform.
(*c*) Two cement mooring dolphins 20 ft. × 20 ft. situated 350 ft. each side of the platform and 50 ft. from the rear edge of the platform.
(*d*) A metal jetty approach 10 ft. wide × 350 ft. long.
(*e*) A coral bond 24 ft. wide at the base and approximately 16 ft. wide at the top.
(*f*) Mooring Buoy placed 600 ft. off head of jetty.

2. Depth of water alongside: Minimum depth of water outside the lazy piles is in excess of 35 ft. datum.

3. Bulk oil will be pumped from installation along a metal pipe via coral bond and metal jetty. At a point approximately 15 ft. before cement platform the pipe bifurcates and the two terminals are situated two-thirds the way along each side of platform. To these terminals will be attached a flexible steel hose for connection with ships. Hose will be provided by shippers, and is 400 ft. long if required.

4. Pumping capacity. Maximum overall rate of pumping palm oil will be 100 tons per hour. Palm oil pipe is of 6 in. diameter.

AGENT: Until further notice all correspondence to be addressed to Messrs. Harrisons & Crosfield (Sabah) Ltd., PO Box 131, Sandakan, Sabah, Malaysia. Telegraphic address "Crosfield Sandakan". Tel. 2141. Code Bentley's Second Phrase.

LABUAN, Sabah: 05.17 N. 115.15 E.

Island of Labuan is 12 miles long and 7 miles wide lying off North-west coast of Borneo at entrance to Brunei Bay. It is part of State of Sabah and is only 4½ miles from mainland and some 77 miles from the State Capital of Kota Kinabalu.

DOCUMENTS:

(*a*) On arrival, when vessel has arrived from ports outside Sabah, Health Officer, Boarding Officer, Customs and Immigration or their representatives will board vessel. Agent cannot board until ship has been cleared.

(*b*) Health Officer will require Maritime Declaration of Health duly completed together with one copy of passenger list and one copy of crew list whenever vessel's last port or call has been outside State of Sabah.

(*c*) Boarding Officer will require one copy of Boarding Report, one copy of passenger list and one copy of crew list. He will also inspect various Certificates such as Load-line, Life Saving Equipment, etc.

(*d*) Following is summary of documents required:

	Customs	*Immi-gration*	*Boarding Officer*	*Agent*	*M.O.*
Passenger List	2	2	1	1	1
Crew List	2	2	1	1	1
Store List	2	—	—	1	—
Maritime Declaration of Health	—	—	—	—	1

(*e*) To be supplied before Departure: Manifests as necessary.

Captain's copies of Bills of Lading.
Port Clearance.
Customs Clearance.
Certificate of (*a*) Buoys and Lights Dues and (*b*) Port and Harbour Dues.

PILOTAGE: Pilot available between 0700 and 1800 if adequate notice given, but pilotage is not compulsory. Vessels not requiring a Pilot are permitted to berth or leave wharf at any hour of day or night provided notice of such movement is received between 0800 and 1600.

ANCHORAGES: Good anchorage for large vessels in a least depth of five and three-quarters fathoms South and South-east of No. 7 Beacon.

Quarantine. Vessels arriving from an unhealthy port should proceed to quarantine anchorage for pratique. This anchorage is bounded on North by a line drawn 090° from Harbour Shoal Beacon to Eastern Harbour Limit; on South by a line drawn between South-west point of Papan Island and Enoe Beacon; on West by Eastern Boundary Limit of Explosives Anchorage (as under). If vessels arriving from healthy port and healthy themselves, they need not proceed to Quarantine Anchorage.

Explosives. No vessels having explosives on board may come or remain within 500 yards of shore or of any other vessel; such vessels shall fly Gunpowder Flag at foremast, and should anchor in Explosives Anchorage which is within a line drawn from Enoe Beacon to Harbour Shoal Beacon thence in 090° for 6 cables thence in 180 degrees direction until it joins line between South-west point of Papan Island and Enoe Beacon.

Dangerous Petroleum. A vessel having dangerous petroleum on board shall anchor within a line drawn from Harbour Shoal Light beacon in a 360° direction for 2,500 ft., thence in a 090° direction for 3,600 ft., thence in a 180° direction to join Northern boundary limit of Explosives Anchorage.

Prohibited Anchorage. No vessel shall anchor within 1,700 ft. from F.R.G. Light – Liberty Pier.

RESTRICTIONS: Tides. Subject to diurnal inequalities but usually one high water and one low water a day. Average high water is 6·5 ft. and low water 3 ft. above datum of soundings.

Clearance. Port is open from 0600 to 1800 although vessels can be cleared later than 6 p.m. on application provided they are sighted from Papan Lighthouse at 1800.

HEALTH: See "Regulations" and "Anchorages".

RADIO: Information required before ship's arrival. ETA Labuan, with as much prior notice as possible. Number of gangs required. Quantity of fresh water required. Whether Pilot required for berthing. Labuan has no radio facilities and messages are received via Jesselton, Miri, Singapore, etc.

TUGS: No tugs available.

BERTHING: 1. Wharves.

(*a*) Liberty Wharf – A wharf with wooden piles and concrete decking measuring 400 ft. with dolphins 100 ft. off each end – least depth of water is 26 ft.

(*b*) Victoria or Small Ships' Wharf (marked on Chart as H. & C.'s Wharf). A wooden structure – length 270 ft. with minimum depth of 12 ft. No longer usable except by kumpits. No vehicles allowed on wharf.

(*c*) New Shell Installation Wharf. Concrete jetty 170 ft. long with two dolphins at each end with a total length between of 700 ft., least depth of water 31 ft.

2. Buoys: No mooring buoys in Labuan.

3. Monsoons. North-east monsoon prevails from December to April and South-west monsoon from middle of May to middle of October. Harbour is well sheltered from both monsoons.

4. Flags and Berthing Signals:

(*a*) When entering port vessel should fly Signal Letters, Mail Flag if applicable, and G flag if requiring Pilot, and also Quarantine Flag.

(*b*) Berthing Signals. Following berthing signals will be used at Labuan and will be displayed from Flagstaff in Harbour Office in vicinity of Liberty Wharf, Victoria Harbour. A red and white chequered flag and International Code numbered pendant will indicate berth number allocated. Berth numbers have been allocated as follows:

(*c*) Berth and Pendant No.

1. Liberty Wharf S.E. section of seaward frontage.
2. ,, ,, N.W. ,, ,, ,,
3. ,, ,, S.E. ,, inside frontage.
4. ,, ,, N.W. ,, ,, ,,
5. Repair and Slipway Wharf. (Marine jetty.)
6. Victoria Wharf (small ships) S.E. Section.
7. Landing Craft Hard (New Beach) (300 ft. N.W. of Victoria Wharf).
8. Landing Steps Liberty Wharf.
9. Shell Installation Jetty.
10. Anchor.

On receipt of berthing signal, vessel should acknowledge in the usual manner with the answering pendant and proceed to berth.

(*d*) Tidal Signal. A tidal signal consisting of a cone and ball is hoisted in conjunction with berthing signal showing state of tide at berth indicated. A cone point down signifies flood tide (West-going), a cone point up ebb tide (East-going), a ball slack water.

(e) Facilities. Maximum single load without special precautions on Liberty Wharf is 25 tons. Any load over this figure will require to be distributed over two or more panels of 10 ft. by 10 ft., each according to weight. However, special arrangements must be made prior to discharge, and Agent should be consulted in advance.

STEVEDORES: Supplied by Contractors as arranged by Agent. Working hours 0800–noon, 1300–1700. Working outside these hours on Sundays and Public holidays is overtime.

CARGO: 1. Inward. Inward cargo is tallied out of ship on to wharf or into lighter. Damaged cargo is surveyed on the spot, otherwise no liability of the vessel is acknowledged. Discharge is carried out after permission has been obtained from Customs after manifest of inward cargo has been deposited. Cargo is delivered to consignees against production of relative Bill of Lading. Ship's responsibility to consignees ceases at ship's side but, in the case of shortlanded cargo, reasonable proof must be given to Customs that the cargo has not been landed. A shortlanded Memo certified by the Chief Officer is usually accepted as proof.

2. Transhipment. After discharge of cargo from the 1st carrier, transhipment cargo is placed under supervision of Customs, unless it is possible to arrange direct transhipment into small coastal vessel. Customs do not accept responsibility for cargo in Customs Bond.

3. Refrigerated. Only small quantities of refrigerator cargo loaded or discharged.

4. Explosives. Explosives must be discharged into lighters under police escort and transported to an approved police store. A licence for their importation must be obtained from the police prior to arrival of cargo, and harbour and police authorities must be informed of arrival of explosives in port either for discharge or as through cargo.

MEDICAL: Hospitals. Not possible for Government Medical Officer to visit ships but patients can be sent to Cottage Hospital. 4 1st class beds, 10 2nd class beds, 46 3rd class beds.

Dentist A Government Dental Clinic, located in town area. In addition, a Chinese dentist is available in town.

TANKERS: See "Berthing".

FRESH WATER: Only available in small quantities (usually 30 tons maximum) and at restricted hours.

FUEL: No coal stock available. Bulk furnace oil and high speed diesel usually available but 48 hours notice of requirements must be given.

FIRE PRECAUTIONS: In case of fire, the Harbour Master, OCPD, and Agent should be telephoned immediately. A mobile gas turbine fire pump is available.

CONSULS: None.

REPAIRS: Slipways of up to 500 tons displacement, and Marine Department can undertake minor repairs.

POLICE/AMBULANCE/FIRE: Medical Officer 224; Asst. Commissioner of Customs 201; OCPD 400; Police Station 297; Hospital 222.

GENERAL: *Surveyors.* Harrisons & Crosfield are Lloyd's Sub-Agents in Labuan and may appoint a surveyor as necessary.

Ship Chandlers. Fresh fruits, vegetables and fish available and price list can be obtained from ship chandler through Agent. Cold storage with limited supplies.

Recreation Facilities. If owners pay a monthly subscription to the Labuan Recreation Club, ships crew are automatically members. Football and cricket, etc., can usually be arranged on application to Agent. Two cinemas in town which show American, English, Chinese, Malayan and Indian films.

Good beaches all round island, however, it is strongly recommended that bathers should remain in shallow water. It is not considered safe to bathe from the ship.

Victoria Hotel situated in town. All rooms air-conditioned and have private bathrooms or showers attached. International Hotel also situated in town. All rooms air-conditioned and have twin beds, but are treated as single rooms when occupied by one person. No meals available in this hotel. Lodging house accommodation available in town for Chinese crew members.

REGULATIONS: (*a*) Arrival and departure. 1. The Owner or Agent of every vessel other than a small ship intending to call at a port shall, as soon as possible, and in any case not later than thirty-six hours prior to the estimated time of arrival of the vessel, give notice in writing to the Authority of such arrival and, if so desired, the requirement for a berth at a wharf.

2. The notice under this regulation shall be in a form prescribed by the Authority and shall contain full particulars regarding the cargo to be discharged and loaded, the embarkation and disembarkation of passengers, heavy lifts, special or perishable cargo, hazardous and dangerous goods (whether to be discharged at the port or not), and any other matters of importance relating to the working or safety of the vessel in the port.

3. The master of every vessel entering or leaving a port between sunrise and sunset shall cause to be hoisted the national colours and the signal letters, if any, of the vessel. The national colours shall be exhibited from 8.00 a.m. to sunset whilst the vessel remains in port.

4. The Master of every vessel arriving from outside the State of Sabah shall exhibit the Immigration and Quarantine signals contained in the First Schedule and shall also at the request of a customs officer hoist the Customs signals. Such signals shall remain exhibited until the appropriate officer has given permission for them to be lowered.

5. No vessel shall approach within six hundred ft. of any other vessel exhibiting the Immigration, Health or Customs signals.

6. No person other than a Pilot may board or disembark from any vessel until the vessel is cleared inwards and the Immigration, Quarantine and Customs signals have been lowered.

7. Every vessel entering a port shall be anchored or efficiently secured to a wharf or buoy before commencing the loading or discharging of cargo and/or the embarkation or disembarkation of passengers.

8. No vessels shall leave any port unless in possession of a valid Port Clearance issued by or on behalf of the Director of Marine.

(*b*) Special signals.

Significance	*By Day*	*By Night*
Immigration (for ships not carrying passengers)	International Code Signal "2 5"	Two green lights, six ft. apart, hoisted vertically where best seen.
Immigration (for ships carrying passengers)	International Code Signal "3 4"	Two green lights, six ft. apart, hoisted vertically where best seen.
Quarantine (vessel is Healthy request pratique)	International Code Signal "Q"	Nil
Quarantine (vessel is suspect)	International Code Signal "Q Q"	A red light over a white light and a separate hoist of red light over a green light and hoisted vertically six ft. apart where best seen.
Quarantine (vessel is infected)	International Code Signal "Q L"	
Quarantine (not received pratique)	Nil	A red light over a white light six ft. apart hoisted vertically where best seen.
Request Police Assistance	International Code Signal "S T"	A green over a white light, six ft. apart hoisted vertically where best seen.
Request Medical Assistance	International Code Signal "W"	A red light over a green light, six ft. apart, hoisted vertically where best seen.

AUTHORITY: Harbour Master, Tel. 251; office hours (Government) 0800–1200, 1345–1615, 0800–1200 Saturdays.

AGENT: Harrisons & Crosfield (Sabah) Limited, PO Box No. 7, Labuan, Sabah, Malaysia. Telegraphic Address "Crosfield". Tel. 218, 219.

LIMBANG, Sarawak: 04.48 N. 115.05 E.

Limbang is the principal town of the Fifth Division and is situated eight miles above the entrance of the Limbang River. There is an anchorage for ocean-going steamers, five miles below the Limbang bar buoy with a least depth of 26 ft.

Every vessel arriving in quarantine shall fly or show the appropriate International Quarantine signal; and no person other than a Pilot, Port Officer, Port Health Officer, Immigration Officer or Officer of Customs shall board the vessel; and no person shall disembark therefrom until the vessel has been cleared by the Port Health Officer.

The Master of every vessel of over 15 tons about to depart from a port for any place outside Sarawak shall cause the "Blue Peter" (International Code Flag "P") to be hoisted, during day-light hours, for at least twelve hours before the vessel is due to sail, or if the vessel is in port for less than twelve hours, for the period of her stay in the port.

(1) The Master or the Agent of every vessel about to depart from a port shall, on demand by the Port Officer, produce for inspection the port clearance.

(2) The port clearance shall be in the form of an endorsement on the form of clearance prescribed under the Customs Ordinance or in such other form as may be approved by the Director.

A vessel arriving in, leaving from or shifting berth within a port shall hoist her signal letters, if any. Whilst under way.

MALACCA, Malaya: 02.15 N. 102.15 E.

DOCUMENTS:

1. *Harbour Master's Office or Marine Department*
   (*a*) "Report of Arrival of Vessel" on prescribed Form (Marine 28) obtainable from Harbour Master's Office on arrival.
   (*b*) One copy Passenger List, specifying names and nationalities and required to report any casualties, accidents, births or deaths that have occurred during the voyage to the passengers, crew, ship or cargo.
   (*c*) Port Clearance from last port and copy of Manifest of Cargo to be discharged.
   (*d*) List of all arms and explosives on board.
   (*e*) In the case of a British or Malaysian vessel and vessels belonging to a nation not having a Consular Officer at the port produce to Port Officer the Certificate of Registry and ship's Articles.
   (*f*) All ship's certificates such as Safety Equipment Certificate, Radio Certificate, Load-line Certificate, Safety Construction Certificate, Ship's Registry, Passengers' Certificate, Deratting Certificate and all Certificates of Competency of all Officers on board.
   (*g*) Crew List.
2. *Immigration Authorities*
   (*a*) Crew List (3 copies).
   (*b*) Passenger List (3 copies).
   (*c*) Produce all passengers passports/visas.
   (*d*) Produce all seamens cards.
   (*e*) Forms A and B – "Immigrant and Emigrant" obtainable from Immigration Department on arrival.
3. *Port Health*
   (*a*) Crew List showing last date of vaccination.
   (*b*) Passenger List, showing the last date of vaccination.
   (*c*) Produce all seamen and passengers' vaccination cards.
4. *Customs Department*
   (*a*) Crew List (2 copies).
   (*b*) Passenger List (2 copies).
   (*c*) Personnel Effects List (2 copies).
   (*d*) Cargo Manifests (2 copies).
   (*e*) Last Port Clearance.
   (*f*) Bonded Stores List (2 copies).
   (*g*) Full and correct statement of dutiable goods carried as ship's stores (2 copies).
   (*h*) Customs Form CD 15 obtainable from Customs Department on arrival.

APPROACHES: No difficulty from North or South. No sand bar at river mouth. Harbour open all year round.
PILOTAGE: None.
ANCHORAGES: For ocean-going and costal vessels anchorage between 1–1½ miles off Malacca harbour. Between 3–6 fathoms depth. No specific prohibited anchorage.
TUGS: None.
BERTHING: None. Discharging into lighters at anchorage.
STEVEDORES: Discharging cargo capacity per day – 1,000 tons.
MEDICAL: Modern Government hospital. All surgical and medical facilities available.
FRESH WATER: None.
FUEL: None.
DEVELOPMENTS: Proposed provision of deepwater berths.
CUSTOMS ALLOWANCES: Tobacco, cigarettes 25 in number per man per day, or cigars, 8 in number per man per day, or Tobacco, 1 oz. per man per day, or snuff, 1 oz. per man per day.

Wine and/or Spirit, Spirit, *8* qt. per man per day, or wines, 1 qt. per man per day, or beer or stout, ⅛ qt. per man per day.

REPAIRS/DRY DOCKS: None.
HOLIDAYS: Official holidays in the state as follows: New Year's Day, 1 day; Chinese New Year's Day, 2 days; Muslim New Year's Day, 2 days; Wesak's Day, 1 day; His Majesty's Birthday, 1 day; Prophet Mohammad's Birthday, 1 day; His Excellency Governor's Birthday, 1 day; Malaysia Day, 1 day; Deepavali, 1 day; Hari Raya Huji, 2 days; Christmas Day, 1 day. No cargo is worked on any of the above gazetted public holidays – port closed.
AIRPORT: Batu Berendam, 6 miles from port – commercial airlines daily.
AUTHORITY: Marine Department, Office of the Harbour Master, Malacca and Port Dickson, Melaka, Malaya.

MIRI, Sarawak (incl. Lutong): 04.26.30 N. 113.55.30 E.

Miri Roads is an open roadstead in a shallow bay, bounded at North by Tanjong Baram and at South by Tanjong Lobang.

DOCUMENTS: (*a*) *Health*. Vessels exempted from inspection (see "Health") should deliver to Berthing Master on arrival, a Declaration of Health, Last Port Clearance and 2 Crew and Passenger Lists.

(*b*) *Inward Clearance* (also see "Anchorage"). All vessels calling Miri Roads for passengers or cargo must be cleared by Immigration and Customs and, if necessary, by Port Health.

Inward clearance effected only between 6 a.m. and 6 p.m. and following signals must be shown: if passengers carried, flags "3" and "4"; if no passengers carried, flags "2" and "5"; if free pratique requested, flag "Q".

Following papers will be required on arrival for inward clearance:
Port Health:
Declaration of Health.
1 Crew List.
1 Passenger List, inward and through.
Customs Boarding Officer:
as above, if not boarded by Health Officer, and 2 Inward Cargo Manifests.

(*c*) *Outward Clearance*. For vessels that have called to lift bunkers only at Lutong Moorings, clearance will be issued by Berthing Master.

Other vessels will be issued a Port Clearance by Customs Officer on board who will require: 1 Outward Manifest and, if any embarked, 1 Outward passenger list.

APPROACHES: The loom of gas flares on Seria Oilfields thirty miles North-eastward of Miri are a general guide at night but should not be used as a bearing because flares movable within area of oilfield and liable to be extinguished at any time. Following bearings exist. By night, three lighthouses:
(*a*) *Tanjong Baram* 04° 35′ 47″ N. 113° 58′ 25″ E. white single light 680,000 candle power, visibility 17 miles, elevation 120 ft. in grey steel lattice tower, group flash three every twenty seconds.
(*b*) *Lutong* 04° 28′ 30″ N. 113° 59′ 46″ E. white single light, 13,500 candle power, visibility 10 miles, elevation 80 ft. in grey steel lattice tower, group flash two every ten seconds.
(*c*) *Tanjong Lobang* 04° 21′ 48″ N. 113° 57′ 36″ E. white single light 20,150 candle power, visibility 18 miles, elevation 155 ft. in grey steel lattice tower, 60 ft., flash one every ten seconds.
By day, above lighthouses difficult to distinguish and following may be used for day-time bearings:
(*a*) Lutong radio mast FR 210 ft., position 04° 26′ 25″ N. 113° 59′ 54″ E.
(*b*) Tanjong Lobang radio masts as marked on chart.

PILOTAGE: No official Pilot stationed at Miri but Shell Company provide Berthing Masters to moor vessels at their Lutong Moorings (see "Tankers").

ANCHORAGE: For cargo, passengers or clearance. It is recommended that vessels anchor close inshore directly opposite Miri River Mouth, but caution must be exercised as sudden squalls and swell up to 4 ft. can occur, for which allowance should be made.

Cargo usually worked into or from wooden lighters of 30 to 35 tons capacity. Swell often restricts work to landward side only and swell or wind often make it difficult to work Hatch No 1 in some vessels. Accommodation ladder should be lowered on landward side to enable shore personnel to board.

Prohibited Anchorage and Berthing Area. From (*a*) 4° 30′ 54″ N.; 113° 56′ 19″ E. in a 090° direction to the shore; and from (*a*) to (*b*) in 4° 27′ 30″ N.; 113° 47′ 01″ E., thence in a 090° direction to the shore.

HEALTH: Every vessel arriving in quarantine shall fly or show the appropriate International Quarantine signal; and no person other than a Pilot, Port Officer, Port Health Officer, Immigration Officer or Officer of Customs shall board the vessel; and no person shall

disembark therefrom until the vessel has been cleared by the Port Health Officer.

Free pratique granted without health inspection to vessels calling to lift bunkers only at Lutong Moorings, provided ship healthy. Vessels with unclean bill of health or vessels which have not declared themselves healthy in their arrival notice telegram are subject to normal Port Health inspection procedure. Therefore of utmost importance that arrival notice is sent not less than 24 hours before arrival and contains all information requested (see "Radio") in order to prevent unnecessary delay.

RADIO: Miri Radio call sign 9 WW21, frequency 500 kc/s., operates at following hours local time: 0900–0930, 1300–1330, 1700–1730, 2100–2130. Present station has a limited range and if difficulty is experienced making contact, vessels should pass messages through other stations, such as Singapore radio, or through other ships in close vicinity of Miri.

Arrival notice must be telegraphed at least 24 hours before arrival and should contain following information:

All vessels

(*a*) expected time of arrival (local time GMT plus 8 hours);
(*b*) name of last port of call and next port of call, if not previously advised;
(*c*) whether or not ship is healthy.

For bunkers

(*d*) quantity of bunkers required, in long tons at least 48 hours notice is required;
(*e*) provisions or medical attention required, if any.

For cargo

(*f*) tonnage to discharge, if any;
(*g*) number of gangs required to load;
(*h*) number of winchmen required to load.

Passengers

(*i*) number of passengers to disembark.

BERTHING: Cargo vessels – see "Anchorage", oil carriers – see "Tankers".

MEDICAL: Treatment of urgent cases available on shore subject weather conditions. Early notice should be telegraphed of medical requirements.

TANKERS: Lutong Terminal position 04° 30′ N. 113° 57′ E. (approx.). Open sea berths lying about 3 miles offshore just Northward of Lutong River mouth. Berthing any hour day or night. Await Berthing Master in area bounded by lines joining following positions: 04° 25′ N. 113° 56¼′ E.; 04° 25′ N. 113° 55′ E.; 04° 26¼′ N. 113° 55′ E.; 04° 26¼′ N. 113° 56¼′ E.

Pilot ladder should be rigged for Berthing Master, and starboard derrick near fuelling connection should be topped-up and rigged to lift heavy equipment required for mooring and connecting pipe-lines and which has to be taken on board before proceeding to mooring berth.

Moorings are in a prohibited area which must not be entered without a Berthing Master of Sarawak Shell Oilfields Limited on board.

Berth	*Max. length*	*Max. draft*
SBM 1	600 ft.	40 ft.
SBM 2	750 ft.	40 ft.
SBM 4	820 ft.	44 ft.

No slop discharge facilities.

FRESH WATER: No fresh or boiler water available.

FUEL: No ex-barge facilities but bunkers obtainable from Lutong Terminal.

Nos. 1, 2 and 4 Sealines. Available for bunkering dry-cargo vessels. Ship's spring wire will be used to haul ends of mooring wires on board and mooring winches should be double gear and in all respects ready for use. Both ship's anchors will be used. All other gear for mooring and connecting pipes is brought on board with Berthing Master at Pilot Station. Bunkers will be supplied through 8-in. flexible hose brought up on starboard side amidships and appropriate flange on ship's connection should be removed in advance. Berthing Master will remain on board throughout bunkering operation and will leave after vessel has unberthed. Mooring and unmooring operations each require about 1½ hours and bunkering rate usually 45–75 tons per hour.

CUSTOMS ALLOWANCES: Bonded Store on vessels other than those berthing at Lutong Moorings for bunkers only and exempted from formal clearance, sealed by Customs after allowing a daily ration for duration of stay in port.

One Customs Officer will remain on board all vessels anchored in Miri Roads and accommodation, if necessary, should be arranged for them. The Agents' staff will remain on board throughout all cargo operations and it would be highly appreciated if meals could be supplied to them and to the Customs Officer in view of the long time occupied travelling by launch between ship and shore.

AIRPORT: Distant 10 miles. Daily flights.

TIME: GMT plus 8 hours. Permanent.

SHORE LEAVE: It is regretted that both passengers and crew must be dissuaded from coming ashore other than for medical attention, owing to weather, tide and immigration restrictions.

REPAIRS: No facilities for repairs.

LUBRICANTS: Generally, lubricants not available but in emergency certain grades sometimes obtainable in very limited quantities.

PROVISIONS: Limited fresh provisions and ex-bond stores available for which vessels should give 72 hours notice of requirements so that arrangements can be made to secure the required supplies.

REGULATIONS: The Master of every vessel of over 15 tons about to depart from a port for any place outside Sarawak shall cause the "Blue Peter" (International Code Flag "P") to be hoisted, during day-light hours, for at least twelve hours before the vessel is due to sail, or if the vessel is in port for less than twelve hours, for the period of her stay in the port.

(1) The Master or the Agent of every vessel about to depart from a port shall, on demand by the Port Officer, produce for inspection the port clearance.

(2) The port clearance shall be in the form of an endorsement on the form of clearance prescribed under the Customs Ordinance or in such other form as may be approved by the Director.

A vessel arriving in, leaving from or shifting berth within a port shall hoist her signal letters, if any whilst under way.

POLICE/AMBULANCE/FIRE: Tel. 999.

AUTHORITY: Marine Officer, Marine Dept., Miri.

AGENT: Lloyd's sub-agents in Miri. The Borneo Company (M) Sdn. Bhd. Postal address PO Box No. 60, Miri, Sarawak. Tel. office: 3365, 3366, 3367; out of office hours: 3261, 3344. Telegraphic address "Borneo Miri".

The Borneo Co. (M) Sdn. Bhd. operate their own launches and a representative will board vessels as soon as possible after arrival.

PENANG: Malaya 05.25 N. 100.21 E.

DOCUMENTS:

The report of arrival (provided in Marine Shipping Ordinance, 1952).
A copy of Passenger Statistics on prescribed forms.
A List of Crew Members.
A List of Passengers.
Evidence of last port clearance.
All Ship's Documents (safety equipment, deratisation, radio, load line and register).

For oil tankers, a copy of Ship's Manifest to be submitted. Ship carrying explosives, Captain required to fill prescribed form "D" stating quantity of explosive cargo ship is carrying together with copy of Ship's Manifest.

PILOTAGE: Vessel approaching port has to send telegram to Pilot Office direct (cable address "Pilots Penang") or to ship's Agent stating "ETA North Channel Light Float" or in case of South Channel "ETA Pulau Rimau". Draft of vessel to be given. Pilot Office may be contacted through Penang Telephone Exchange on VHF Channel 16 to local telephone No. 63313. At least six hours' advance notice should be given before arrival at Pilot point.

Pilot boats have a blue hull varnished upperworks with "Pilot" written in bold letters on both sides of boat.

Pilot is usually taken on board, for North Channel, in vicinity of North Channel Light Float and for South Channel, in vicinity of Rimau Wreck Buoy one mile South of Pulau Rimau Lighthouse.

Vessels awaiting tide can anchor, in case of North Channel, in area shown by picked lines marked anchorage area in Chart No. 1366. For South Channel ship can anchor in vicinity of Rimau Wreck Buoy. During bad weather, provided draft suitable, vessels sometimes requested enter and take on Pilot at Erskine Buoy.

ANCHORAGES: All foreign-going ships carrying cargo or passengers (other than those carrying dangerous cargo or quarantine ships) are to be anchored Southward of South-west corner of Man-of-War anchorage (shown on Admiralty Chart by picked lines) and to Eastward of line drawn from this point to white buoy known as Northern White Boundary Buoy and thence in direction 180° (South line) and they shall moor so as to swing clear of these lines at all states of tide.

RESTRICTIONS: No entry restrictions imposed other than those dictated by state of tide and draft of vessel.

MAX. SIZE: No limitations of size of vessel except for draft. North Channel chart datum 26 ft. South Channel chart datum 22 ft. Vessels of up to 32 ft. can use port but must wait for high water.

RADIO: Penang Radio, call sign 9–MG.

TUGS: May be required to berth vessel at Butterworth Wharves in Port Penang. Tug joins vessel when at close proximity to wharves. Usual for tug's lines to be used and charge for this is M$20/–(approx.)

BERTHING: No specific requirements are necessary to reach any berths.

STEVEDORES: Stevedores can be provided by stevedore contractors at short notices but normally a minimum of 12 hours will be required. Shipping Agents normally make these arrangements with stevedoring contractors.

RADAR/VHF: No radar service. All ships can contact shore by means of HF radio communication.

MEDICAL: Advance notice is necessary if medical attention is required so that arrangements can be made with Medical Department by Agents.

TANKERS: Two tanker berths. Esso Wharf, 28 ft. at low water. Caltex Wharf, 35 ft. at low water. Mud bar approach to Caltex Wharf is 29 ft. at low water. Tankers also occasionally call at Swettenham Pier to deliver oil to City Council Power Station.

FRESH WATER: Available at all times. Delivery can be by means of hydrants at berths or by water-boats to vessels anchored in Roads. Rate of delivery is approximately 40 tons per hour and cost of each ton is $1.20 at berths and $2.40 if supplied in Roads (approx.).

FUEL: Fuel available from private oil companies at 24 hours notice.

DEVELOPMENTS: Five new berths completed on mainland side of port. Two have facilities for container traffic. These berths provided with modern facilities for working cargo. Depth of water alongside 32 ft.

GANGWAY/DECK WATCHMEN: Services of a watchman recommended.

OPENING/CLOSING HATCHES: Normally carried out by stevedores.

IDENTIFICATION CARDS: Needed only when a crew member is discharged after hospitalisation or when he is repatriated.
REPAIRS: Minor repairs can be undertaken.
DRY DOCKS: Dry docks not available for ocean carriers. Slipways available for vessels of 700 tons NRT with dimensions of 190 ft. × 40 ft.
REPATRIATION: Facilities exist for effecting crew changes and arranging necessary repatriation.
AIRPORT: Distance from port to airport approximately 11 miles. Served by both international and local airlines.
TIME: 8 hrs. ahead of GMT. No alteration to clocks during year.
HOLIDAYS: Three port holidays a year: Hari Raya Puasa, Hari Raya Haji and Prophet Mohammed's Birthday which usually fall in first half of year.
POLICE/AMBULANCE/FIRE: Dial 999.
TELEPHONES: A telephone is placed on every ship that berths alongside. This is one of services provided under a common charge known as the wharf service charge.
SERVICES: All types of minor marine servicing is available. Provided by private firms. Some of the services are draft survey, general conditioning of ship, valuation of ship, accident survey, inspection of refrigeration, radar adjusting service, compass adjusting and tank-cleaning facilities.
SHORE LEAVE: Allowed.
REGULATIONS: Free port, and as such, when a vessel calls at port, Customs search party may go on board vessel to search for contraband goods.
DELAYS: Rain is only factor that may delay a ship's discharging or loading operations.
AUTHORITY: The Penang Port Commission, PO Box 143, Penang, Malaysia. Tel. 63571. Telegraphic Address, "Wharves, Penang".

PORT DICKSON, Malaya: 02.31 N. 101.47 E.

DOCUMENTS:
1. *Harbour Master's Office or Marine Department*
(*a*) "Report of Arrival of Vessel" on prescribed Form (Marine 28) obtainable from Harbour Master's Office on arrival.
(*b*) One copy, Passenger List, specifying names and nationalities and required to report any casualties, accidents, births or deaths that have occurred during the voyage to the passengers, crew, ship or cargo.
(*c*) Port Clearance from last port and copy of Manifest of Cargo to be discharged.
(*d*) List of all arms and explosives on board.
(*e*) In the case of a British or Malaysian vessel and vessels belonging to a nation not having a Consular Officer at the port, produce to Port Officer the Certificate of Registry and ship's Articles.
(*f*) All ship's certificates such as Safety Equipment Certificate, Radio Certificate, Load-line Certificate, Safety Construction Certificate, Ship's Registry, Passengers' Certificate, Deratting Certificate and all Certificates of Competency of all Officers on board.
(*g*) Crew List.
X. *Immigration Authorities*
(*a*) Crew List (3 copies).
(*b*) Passenger List (3 copies).
(*c*) Produce all passengers passports/visas.
(*d*) Produce all seamens' cards.
(*e*) Forms A and B – "Immigrant and Emigrant" obtainable from Immigration Department on arrival.
3. *Port Health*
(*a*) Crew List showing last date of vaccination.
(*b*) Passenger List showing the last date of vaccination.
(*c*) Produce all seamen and passengers' vaccination cards.
4. *Customs Department*
(*a*) Crew List (2 copies).
(*b*) Passenger List (2 copies).
(*c*) Personnel Effects List (2 copies).
(*d*) Cargo Manifests (2 copies).
(*e*) Last Port Clearance.
(*f*) Bonded Stores List (2 copies).
(*g*) Full and correct statement of dutiable goods carried as ship's stores (2 copies).
(*h*) Customs Form C.D.15 obtainable from Customs Department on arrival.
APPROACHES: Deep water approach channel from North-west, marked by four light buoys, presents no difficulties and is clear.
Leading lights also exhibited which when in line bearing 070°, lead up to harbour over a sand ridge in depths of about 3½ fathoms.
PILOTAGE: The Port Dickson area does not constitute a Compulsory Pilotage District under provisions of Merchant Shipping Ordinance, 1952. Private pilotage services are, however, operated by Shell and Esso for vessels making use of their respective marine installations. Mooring Master boards tankers at Banbeck Shoal Buoy.
ANCHORAGES: (*a*) Good anchorage may be obtained in depths from 15 to 20 fathoms, Westward and South-westward of Tanjong Kamunin. Small vessels may obtain anchorage in depths from 4 to 5 fathoms North-eastward of Pulau Arang Arang, but holding ground is poor.
(*b*) Quarantine Anchorage is Westward of 10 fathoms line with leading light beacons of Port Dickson in line, bearing 070°, and within 15 cables of front leading light beacon situated on Railway Jetty.
(*c*) Prohibited Anchorage Area indicated by pecked lines on chart and described under Port (Negeri Sembilan) (Amendment) Rules, 1963. This area contains a tanker mooring buoy, with extensive ground tackle and floating hose attachments, which is connected to the shore by a submarine pipe-line. Passage between the buoy and the shore is also prohibited.
TUGS: No tug-boats available.
MAX. SIZE: Up to 47 ft. draft at S.B.M. terminal.
BERTHING: Port installations at Port Dickson comprise the following:
A small boat harbour contained in the curve of the stone approach to the Railway Jetty which affords little shelter against Southerly winds and dries out at low water.
The Shell Jetty – property of the Shell Refining Co. (Malaysia) Ltd. (Private.) Reinforced concrete jetty 700 ft. with "T" head 170 ft. × 36 ft.
The Esso Jetty – property of the Esso Standard Malaya Ltd. (Private). Reinforced concrete island jetty 200 ft. × 24 ft.
The Railway Jetty – property of the Malayan Railway Administration. Stone pier 600 ft. length terminating in a crosshead 150 ft. long with steel piling and wooden deck.
The Joint Shell/Esso single-buoy Tanker Mooring and Crude Oil Discharging Terminal.
Stone ramp on foreshore usable by lighters at high water.
MEDICAL: District hospital with 150 beds.
TANKERS: Shell/Esso Single Buoy Mooring for crude discharge into submarine pipe-line. Refineries produce petroleum products for export. Deballasting facilities up to 35,000 barrels capacity.
FRESH WATER: Available at Shell and Railway jetties.
FUEL: Bunker fuel-oil available. No diesel.
DEVELOPMENTS: Proposal to enlarge facilities and to provide deep-water berths.
CUSTOMS ALLOWANCES: Tobacco, cigarettes 25 in number per man per day, or cigars 8 in number per man per day, or tobacco 1 oz. per man per day, or snuff 1 oz. per man per day. Wine and/or spirits, spirit ⅛ qt. per man per day, or wines 1 qt. per man per day, or beer or stout 1 qt. per man per day.
REPAIRS/DRY DOCKS: None.
HOLIDAYS: Official holidays in the state as follows: New Year's Day, 1 day; Chinese New Year's Day, 2 days; Muslim New Year's Day, 2 days; Wesak's Day, 1 day; His Majesty's Birthday, 1 day; Prophet Mohammad's Birthday, 1 day; His Excellency Governor's Birthday, 1 day; Malaysia Day, 1 day; Deepavali, 1 day; Hari Raya Huji, 2 days; Christmas Day, 1 day. No cargo is worked on any of the above gazetted public holidays – port closed.
AIRPORT: None.
AUTHORITY: See "Malacca".

PORT SWETTENHAM, Malaya: 03.00 N. 101.24 E.

PORT LIMITS: All the waters in the Klang Straits, Klang River, Sungei Aur, Selat Lumut, Sungei Langat and other waterways contained within the parallels 2° 58′ N. and 3° 05′ N. and the meridians 101° 20′ E. and that passing through Connaught Bridge i.e. 101° 28′ 30″ E. approximately including all piers, jetties, landing places, wharves, quays, docks and other similar works whether within or without the line of high water mark, any position on the shore or bank within 50 yards of high water mark subject to any rights of private property therein.
APPROACHES: Ships from and to Penang enter and leave the port by the North Klang Straits; and ships from and to Singapore enter and leave by the South Klang Straits. The entrance channel at the North Klang Straits has a natural depth of 32 ft. below datum. A very large deep water anchorage for ships is available at the North Klang Straits. For ships entering the Old Port, the permissible draft is 26 ft. and 22 ft. plus the height of tide through the North Klang Straits and South Klang Straits respectively.
DOCUMENTS: (*a*) *For Agent.* Vessels required to fill in arrival report which may be obtained from Agent at Singapore or Penang or Boarding Agent on arrival. This should be completed and handed to Boarding Agent together with last port clearance and one copy each of crew list and passenger lists for submission to Marine Department.
Vessels should have ready and hand to Boarding Agent on arrival the following:
Arrival Report.
Last Port Clearance.
Two copies of Crew List.
Two copies each of Disembarking and Transit Passenger Lists (if any).
List of Explosives, dangerous cargo on board.
Following documents should also be handed to Boarding Agent on arrival and will be returned to vessel after perusal by Marine Department:
Malaysian Light Dues Receipt (if any).
Ship's Register.
Radio Safety Certificate.
Safety Equipment Certificate.
Load Line Certificate.
Deratisation Certificate.
Port Health Officer now requires all vessels arriving from foreign ports to submit an "Entry Declaration" on form Health 43, on the International "Maritime Declaration of Health" form or on a similar copy, and this should be handed to Boarding Agent, together with copy of crew list, in cases where vessels are not in Quarantine, in which case doctor does not attend on board.
Note: Endorsement of Port Clearance must be obtained from Port Office at Marine Office before a fresh Port Clearance can be issued by local Customs Authorities and handed to vessel before sailing.

(*b*) *Immigration*
2 copies Crew List.
2 copies Passenger List (Disembarking and Transit).
(*c*) *Customs*
2 copies Customs List (CD.15).
1 Crew List.
1 Passenger List.

FLAGS: The Malaysian Flag. Flag Q meaning Health Clearance required. * Flag 2/5 meaning No passengers on board, or * Flag 3/4 meaning Passengers on board. Pennant Zero is not required since Boarding Officers do not board the ship on arrival. Flag H meaning Pilot on board. (* Applies only to vessels arriving from foreign ports, which now includes Singapore.)

Note: Except for vessels under way, no vessel in port may use its siren except in case of an emergency when no other means of communication is available. The Authorities strictly enforce this rule and vessels infringing it become liable to heavy fine.

PILOTAGE: Available 24 hours a day.

(*a*) Application. Piloting carried out by Selangor Pilot Association Port Swettenham. Masters to cable "Pilots Port Swettenham" giving ETA and point of arrival, i.e. Pintu Gedong, Pulau Angsa, Kapar Buoy, Tanjong Bakau, or Deep Water Point, and draft at least 6 hours before arrival, as Pilots will not leave shore until confirmation received from vessel. Both North and South Channels are well marked and Pilots consider it quite safe to arrive and depart at any hour.

Vessels approaching this port normally apply through Agent, giving ETA Pintu Gedong, Pulau Angsa or Deep Water Point, together with draft and port of departure.

(*b*) VHF. If vessels wish to communicate direct all pilot boats are fitted with VHF for use between pilot office, pilot boats, pilot boat to pilot boat and where necessary to vessels arriving at this port. Operated on Channel 12 of International Maritime VHF radio telephone bands, and of a range of 20–25 miles.

(*c*) Recognition. Pilot boats painted black with white horizontal band all round and have white superstructure.

(*d*) Boarding. Unless advised otherwise Pilots will be ordered to board vessels at Pulau Angsa (North Channel), or Pintu Gedong South of the Seaward Bar Buoy, or, Deep Water Point between Tanjong Sarang Lang and Tanjong Bakau.

Pilot ladders should be of approved Standard pattern internationally used.

(*e*) Waiting a Pilot. Location for a vessel awaiting Pilot is at Pintu Gedong 5 cables South of Seaward Bar Buoy, at Pulau Angsa 1 mile East of Pulau Angsa Island, and at Deep Water Point where anchorage is available according to number of vessels already anchored.

(*f*) Regulations. Master may bring his vessel into Deep Water Point Anchorage without a Pilot and if this is the case the Pilots are to be informed accordingly. It is compulsory to take a Pilot when berthing or unberthing at a wharf and to take a Pilot to and from the buoys. Pilotage is not compulsory to the anchorages Nos. 6 and 7, to the North Shore Anchorage or to Deep Water Point. Vessels will be berthed port side to on ebb tide and starboard on flood.

ANCHORAGES: Per latest Admiralty charts. Vessels may load timber and ore from privately owned junks at Deep Water Point Anchorage. In exceptional cases and with permission of Port Authority it is also possible to work with Authority Lighters at Deep Water Point.

RESTRICTIONS: (See "Max. Size"). Pintu Gedong, the Southern Channel Pilot Station, there is a restrictive bar of 20 ft. at Chart Datum. Otherwise draft is the only restriction, of which vessels will be advised when giving their ETA.

MAX. SIZE: Maximum length of vessels using South Port (Old Port) is: Dry Cargo Vessels 565 ft. LOA and draft 32 ft., tankers 560 ft. LOA and draft 30 ft. Breadth is not considered any problem. Tidal conditions govern movements of all vessels over 500 ft. LOA in the South Port (Old Port) but not at the North Port (New Port).

HEALTH: Port Health Officer will board vessels arriving from infected ports, or carrying deck passengers at Deep Water Point between 0700 and 1800 hours. All ships arriving from foreign ports should ensure that all on board hold valid smallpox vaccination documents.

All vessels should include in arrival cables confirmation that all well on board and also that all health papers in order. It should be understood that the health papers referred to include deratisation, or deratisation exemption Certificate.

RADIO: ETA cables normally routed via Singapore or Penang as no radio station in Port Swettenham. Such messages when received are transmitted by telephone to Agents/and or Pilots at Port Swettenham.

TUGS: Supplied by Port Authority and normally "stand by" vessels berthing at wharves as and when required. Tugs towing use ships lines, tugs pushing use their own lines. 3 tugs available to assist in berthing and unberthing and are equipped with fire-fighting appliances and radio communications system. When vessels berth or unberth at wharf tugs ordered by Agent in consulation with Pilots and once in attendance are charged for whether used or not. Tugs also used to swing vessels in stream which are stemming ebb tide on departure. In addition 3 smaller tugs used to tow lighters to and from vessels.

BERTHING: There are two ports viz: the South Port or Old Port and the North Port. Vessels berthing in the South Port (Old Port) are governed by tidal conditions which vary considerably. Vessels over 525 ft. LOA are usually berthed port side to on the ebb and then only when tides are favourable. There is usually no objection to vessels unberthing from the wharf at night although generally speaking vessels will not be berthed at night. As a general rule discharging vessels will berth at North Port (North Klang Straits) and loading vessels in the stream in the South Port (Old Port).

(*a*) South Port. Three ocean wharves of 1,490 ft. length with 30 ft., 32 ft. and 35 ft. of water alongside, two coastal shipping wharves of 950 ft. with 20 ft. of water alongside, 5 swinging buoys, and two anchorages. Three to four vessels of not more than 250 ft. in length and with drafts up to 18 ft. can be accommodated at North Shore anchorage. Also three lighterage wharves and two conveyor wharves. There is 393,912 sq. ft. of covered storage accommodation provided in the area of which approximately one-third has been leased out to private firms. All transit and storage sheds are rail and road served. There are also very extensive privately owned bulk storage and warehouses within the port premises. The South Port has 120,000 sq. ft. of open storage plinths served by 10-ton and 5-ton gantry cranes.

(*b*) North Port (North Klang Straits) Wharves. Four ocean wharves with total length 2,490 ft. Each berth 580 ft. long, width 202 ft. Concrete wharves with a safe working load of 4 cwt. per square foot and a maximum point load of 10 tons. Draft alongside all four wharves 30 ft. Rail track on wharf apron.

(*c*) General.

Facility			*Depth* (ft.)

	on 500 ,, ,,		30
No. 7 Mark	on 600 ,, ,,		30
	on 500 ,, ,,		40

Distance between buoys is as follows:
Distance between No. 1 buoy and No. 2 buoy 1,200 ft.
Distance between No. 2 buoy and No. 3 buoy 1,200 ,,
Distance between No. 3 buoy and No. 4 buoy 1,200 ,,
Distance between No. 4 buoy and No. 5 buoy 1,300 ,,

The above distances allow for slackness in pendants at low water. The depths listed combined with tidal predictions for current year give actual depth of water.

STEVEDORES: Almost all timber loaded from private junks for which no lighter gangs needed. Average working rate, subject to stow, for timber in loose pieces is 4–6 tons per hour, and in bundles 6–8 tons per hour. Not more than two lighters or "tongkangs" may lie alongside any vessel abreast of each other and not more than two lights shall be moored astern of a vessel.

Rubber, latex in drums, etc., loaded by Port Authority and lighter/wharf gangs are required. Average working rate for these commodities is 8–10 tons per hour.

The average rate of discharge at North Port (North Klang Straits) wharves is 14–16 tons per hour.

On-board stevedores provided by Messrs. Seng Lee & Co., Eu-Lee & Co. or The Cargo Handling Corporation Limited who also supply all necessary stevedoring equipment. Lighter/Wharf gangs provided by Port Authority. While labour is plentiful and both stevedores and Port Authority are very helpful in obliging late ordering and cancelling of gangs, requirements for the 1st shift should be made known by 1430 hours the previous day and for 2nd shift by 1030 hours same day.

Working hours throughout port: 1st shift 0700–1500 hours (meal break 1100–1130). 2nd shift 1500–2300 hours (meal break 1900–1930). A finishing vessel may work up to 0300 hours provided all parties, i.e. labourers, tally clerks, scammell/forklift drivers, etc., agree.

RADAR/VHF: (See "Pilotage"). Ship to shore telephones available at all berths at North Klang Straits, and VHF sets available for ships in moorings. Klang Exchange keeps a 24-hour watch on Channel 16 and will connect the vessel to any telephone receiver ashore. For local calls the cost is $1.92 for 3 minutes (approx.).

No port radar service is available in the port.

MEDICAL: A number of private doctors in Port Swettenham and it is often not necessary to give any advance notice of medical attention being required. In event of vessel requiring urgent medical attention on arrival, advisable for Master to cable Agent in advance. At present 2nd class medical facilities available in Klang and 1st class facilities only available in Kuala Lumpur. As vessels arriving at Port Swettenham normally do so after calling at Penang or Singapore no inoculation, vaccination or fever certificates are required unless either Singapore or Penang is declared an infected port.

TANKERS: Tankers always berthed port side to on ebb and near

slack water. Vessels with bulk liquid cargo to load or discharge will berth at wharves 3, 4 and 5. When a number of pumping vessels in port, vessels will usually occupy these wharves only for the time it takes to complete pumping and may then have to shift to stream or another wharf. Two of the ocean wharves are provided with facilities for handling liquid cargo. Liquid cargoes now being handled are – latex, palm oil, coconut oil, petroleum products, alkane, tallow and fuel. oil. These facilities will also be extended to the third ocean wharf.

Shell Company has a private jetty on which vessels up to 420 ft. in length with drafts not exceeding 20 ft. can be berthed.

DENSITY: Varies considerably with state of tide and heavy monsoon rains.

FRESH WATER: Waterboat, capacity 200 tons, available to supply vessels in South Port (Old Port) and at Deep Water Point with fresh water. The (approx.) cost is $2.70 per ton with an additional $7, $8 per hour if used after 1600 hours on week-days, 1300 hours on Saturdays, or on holidays. As much notice as possible should be given if waterboat required. At North Port (North Klang Straits) water available from wharf at a cost of approx. $1.50 per ton. Pumping rate about 20–25 tons per hour.

FUEL: Bunkers are available.

FIRE PRECAUTIONS: In respect of tankers loading or discharging inflammable cargo, necessary to have wharf cordoned off and "No Smoking" signs exhibited prominently. Port Fire Brigade required to be on stand-by at wharf whilst operation in progress. Vessel may not disable engines whilst alongside wharf and shall have axes ready in event has to leave wharf urgently and necessary to cut ship's lines. Port Fire Service on duty 24 hours a day throughout year. Service is capable of fighting all types of fire whether on land or on sea. Fire service has following equipment: 3 fire engines, 1 Land Rover fire engine, 2 trailer pumps, 3 fire fighting tugs.

DEVELOPMENTS: North Port. Extension of 2,800 ft. of wharves and a reclamation of 40 acres of land. Project scheduled for completion at end 1972 would provide port with further alongside berthing facilities for both conventional and container ships.

OPENING/CLOSING HATCHES: Normally carried out by stevedores.

CUSTOMS/IMMIGRATION: Customs Officer will board vessel soon after arrival to seal the "Bonded stores". For vessels staying in port some time it is usual to issue 3 days supply – a further issue may be made on request after 3 days.

Immigration Officer will clear vessels arriving from foreign ports on all days between 0700 and 2100 hours. No one may board or leave or approach within one cable length of such vessel without special permission until vessel has been cleared by Immigration Officer and Immigration Signal is hauled down. No Immigration formalities required for vessels arriving from or leaving for other West Malaysian ports (Malacca and Penang).

IDENTIFICATION CARDS: Advisable that members of crew carry identification cards when leaving ship.

CONSULS: Consulates/Embassies/High Commissions in Kuala Lumpur (28 miles from Port Swettenham) and telephone numbers:

REPAIRS: Slipping facilities for repair of lighters and smaller tugs available. No facilities for major repairs to ships.

DRY DOCKS: None.

REPATRIATION: Crew changes and repatriation must be arranged by Agent. Harbour Master attends signing-on and signing-off of the crews on ship's articles.

AIRPORT: Subang International Airport approximately 20 miles from port on main trunk route to Malaysian capital of Kuala Lumpur and served by regular domestic flights and international flights.

HOLIDAYS: Port Closing Days. *Hari Raya Puasa; * Chinese New Year; Malaysia Day (31st August); * Deepavali; Christmas Day (25th December). * Dates subject to changes as festivals coincide with Mohammedan, Chinese and Hindu calendars.

TELEPHONES: At North Port (North Klang Straits) Wharves telephones installed on board if required at approx. cost of $10.00 per day. At wharves in South Port (Old Port) there is always a telephone within easy reach at Wharf Office.

GENERAL: (*a*) Ship-Shore Communication. When vessels are berthed in stream or at Deep Water Point a 24 hour launch service can be supplied. Arranged by Agent in consultation with Master to suit requirements of ship.

Vessels permitted use own boats with proper navigation lights at night.

(*b*) Seamen's Club. "Mariner's Club" for officers and seamen outside No. 3 Gate of South Port. Club has swimming pool and bar.

(*c*) Diving. Diving services available for salvaging lost cargoes, examining underside of ships, etc. Divers capable of deep-sea diving down to 120 ft.

AUTHORITY: Lembaga Pelabohan Swettenham, Port Swettenham.

ROMPIN (Kuala Rompin); PAHANG, Malaya: 02.43 N. 102.30 E.

DOCUMENTS:

Register.
Last Port Clearance.
7 copies Crew List and 4 for Agent.
5 copies Passenger List (if any).
5 copies Stowaway List (if any).
2 copies Stores List (including firearms and ammunition).
2 copies Dutiable Liquor and Tobacco List.
2 copies Crews Declaration List (cameras, radios, etc.).
1 copy Vaccination List.

Masters of vessels to fly the necessary following flags on arrival as required under Section 448 of the Merchant Shipping Ordinance and Sub-Section (9) of the Federation Port Rules, 1953.

(1) The Federation of Malaysia Flag.
(2) The Pennant "O" Flag (Request Port Officer).
(3) The "Q" Flag (Request Port Health Officer).
(4) The Pennant "2"; "5" Flags if no passengers and "3"; "4" Flags if there are passengers on board (Immigration).

PILOTAGE: Compulsory to the loading berths. Extra charge for pilotage outside normal office hours and holidays.

ANCHORAGE: On arrival, vessels required to anchor about one mile outside berthed ships to obtain pratique. An accommodation ladder must be rigged on lee side to allow Port Authorities to board.

READINESS: Notice of readiness cannot be accepted until vessel is in free pratique, Customs Inward Examination completed, and in all respects ready to load.

LOADING. (*a*) Ladders. Masters particularly advised to see that a sound and adequate ladder provided at each lighter to allow labourers engaged in loading to pass to and from ship with no undue risk. Regulations are provided in the Merchant Shipping Ordinance, Section 445, Sub-Section (O) which takes care of this requirement and failure to take adequate precaution in seeing regulation is observed may result in serious consequence to those responsible.

Masters requested to ensure that in addition to ladders for labourers, an extra ladder, preferably a clean pilot ladder, be made available at all times for the Agent for boarding. This ladder should be made fast on lee side, just forward of any scuppers in vicinity, and a heaving line from ship's rail made fast to bottom rung. When ladder not in use, bottom of ladder can be pulled up a few feet with heaving line to prevent labourers from using it or damage from lighters.

(*b*) Winches. All winches must be in single gear at all times.

(*c*) Derricks. Practice to work two sets of derricks to one lighter where practicable.

(*e*) Trimming. No manual trimming undertaken.

(*e*) Damages. In the event of your vessel sustaining damage by stevedores during loading, you are requested to inform the clerk and foreman on board immediately and as soon as practicable confirm same in writing to the Eastern Stevedoring Co. Ltd., Kuala Rompin, with copies to Hong Kong & Eastern Shipping Co. Ltd., Hong Kong, and Malay States Shipping Ltd., Kuala Rompin. It is important that full details of damage are given, together with measurements whenever possible.

Minor damage has occurred on vessels due to hatch beams not being bolted or lashed. Masters therefore requested ensure all beams adjoining working parts of hatches either bolted or lashed, otherwise stevedores will repudiate liability for any damage incurred.

OPENING/CLOSING HATCHES: Removal and replacement of hatch beams and covers must be done by ship's crew. Ship's Officers should see that any tween-deck beam removed is replaced before ore reaches that height.

CUSTOMS: Customs office hours 0830 to 1630 Monday to Friday, 0830 to 1300 Saturday.

IDENTIFICATION CARDS: Every member of crew must produce Identity Document or Shore Leave Pass at Customs House when landing and again when returning to vessel.
HOLIDAYS: New Year's Day; Hari Raya Puasa, 2nd day; Chinese New Year, 2nd day; Hari Raya Haji, 2nd day; First Day of Muharram; Vesak Day; Birthday of Sultan of Pahang; Birthday of H.M. The Yang Di-Pertuan Agong; Birthday of Prophet Muhammad; Malaysia Day; Deepavali; Christmas Day.

Note: Where a holiday falls on a Sunday, the following day will be observed as a holiday, and if such latter day is already a holiday, then the day following shall be a public holiday.
GENERAL: (*a*) *Scrap Iron.* Steel mills in Japan complain from time to time of finding pieces of scrap iron in the iron ore cargoes. If this scrap is not found it will cause serious damage to the plant and occasion considerable delay to production; furthermore, should scrap iron enter the machinery there is always the possibility of it endangering life, and several fatal accidents have been attributed to this cause.

The assistance of officers and crew is requested in reporting any scrap iron they see being loaded, advising shippers into which hold it went and number of the lighter it came from to enable us to take appropriate action.

(*b*) *Whistle, Radio.* Wireless Transmitters, Whistles and Sirens, etc., must not be used by vessels at anchor off Kuala Rompin.

(*c*) *Stores.* Bonded stores can be obtained from Kuala Lumpur and Kuantan at prices roughly same as Singapore. Essential, view Customs formalities, that Masters give Malay States Shipping Ltd., Kuala Rompin six days prior notice of requirements.
SHORE LEAVE: No seaman may proceed more than three miles from Kuala Rompin Customs House. The Officer in Charge Customs, as acting Immigrating Officer, has authority to limit or prohibit shore Leave in all cases.

AGENT: Malay States Shipping Sdn. Berhad, PO Box 2, Kuala Rompin, Pahang.

SABAH: including Kudat, Lahad Datu and Semporna.

DOCUMENTS: Eight copies all usual documents.
PILOTAGE: Applications normally made by Shipping Agents with advance notice of 24 hours prior to actual time that Pilot services required. Pilot boats between 30–40 ft. length and equipped with VHF/AM Sets – 80·4 Mc/s. frequency. Pilot station at Port Office and location for vessel awaiting Pilot is within port limit.
ANCHORAGE: All ports within bays, therefore provide safe anchorages.
RESTRICTIONS: No restrictions for vessels entering port at night.
MAX. SIZE: All ports unlimited, cargo worked at anchor.
HEALTH: To obtain pratique, arrange with Shipping Agent. Pratique for vessel entering, after calling at another port in same state, is not required. Anchor in quarantine anchorage if vessel is suspect and display following signals: *By Day:* International Code Signal "Q.Q.". *By Night:* A Red light over a White light and a separate hoist of Red light over a Green light. Hoisted vertically 6 ft. apart where best seen.
RADIO: Singapore Radio recommended.
BERTHING: Application for berthing has to be made within 24 hours notice prior to actual time that berthing is required. *Details and Requirements:* Name of vessel, gross and net tonnage, length overall, draft (fore and aft), ETA at berth, ETD from berth, nature and tonnage of cargo to be discharged/loaded. No priority for berthing ships and the turn is, first come first served.
STEVEDORES: Arrangement of stevedores should be made with 48 hours notice to Shipping Agent. Average load/discharge rate: General cargo, 15–20 tons per hatch per hour; cement 20–30 tons per hatch per hour.
MEDICAL: Arranged on arrival by Shipping Agent.
DENSITY: Average density in the ports 1020.
FRESH WATER: Available at Government General Cargo Wharves at a rate of 20 tons per hour. Cost $6.00 per 1,000 gallons (approx.).
DEVELOPMENTS: Lahad Datu, having new port installation and wharves facilities.
GANGWAY/DECK WATCHMEN: Not necessary.
OPENING/CLOSING HATCHES: Normally by stevedores.
CERTIFICATES: Registry, Loadline, Radio, Safety Equipment and Deratting Exemption.
CUSTOMS ALLOWANCE: Tobacco, wine and/or spirits: no control and up to discretion of Officers of Customs and Excise.
CARGO GEAR: Ships gear used.
IDENTIFICATION CARDS: Not needed.
CONSULS:

British,	Kota Kinabalu (Jesselton),	tel. 4169

REPAIRS: Marine Department operates engineering workshops at Labuan and Sandakan. Some private firms also undertake small engine and deck repairs.
DRY DOCKS: No dry docks available in the State. Marine Department has three slipways in Labuan which are capable of shipping vessels of 60 tons, 200 tons and 500 tons displacements. One in Sandakan for vessel up to 120 tons.
REPATRIATION: Normally arranged by Agents.
AIRPORT: Most airports in State between 2–5 miles from the town.
TIME: Local time is 8 hours ahead of GMT. No alteration to clocks.
HOLIDAYS: Cargo work can be arranged if necessary during official holidays, but not for Hari Raya Puasa, Chinese New Year and Christmas Day.
POLICE/AMBULANCE/FIRE:

	Fire/Police	*Hospital*
Kudat	333	335
Lahad Datu	599	522
Semporna	599	

SERVICES: No services available for cleaning tanks, but compass adjusting can be arranged with officers of Marine Department, Labuan.
SHORE LEAVE: Allowed.
DELAYS: Due to weather conditions only.

SANDAKAN, Sabah: 05.50 N. 118.07 E.

FLAGS: Signal letters, Mail flag (if any mail on board for discharge); "Q" flag is essential if Sandakan is the first Sabah port at which a vessel calls. If ship carrying passengers it should fly immigration signals Nos. 3 and 4; if no passengers Nos. 2 and 5.
DOCUMENTS: (Also see "Radio").
(*a*) *To be Produced on Arrival:*

	Total
Sabah Lights and Harbour Dues form	1
Manifest in the prescribed form	2
Crew List	3
Last Port Clearance	1
Stores List	3
Passenger List	3
Arms List	2
Narcotics List	3
Parcels List	2

(*b*) *Required by Agent:*
2 sets of Inward Manifests for all inward cargo.
5 sets of Transhipment Manifests for all cargo to be transhipped at Sandakan.
2 copies of hatch list.
1 copy of Passenger List.
1 copy of Crew List.
1 copy of List of Arms and Ammunition.
1 copy Narcotics List.
1 copy Stores List.
(*c*) *To be Supplied to Ship before Departure:*
Manifests, as required by vessels.
Captain's copy of B's/Lading.
Port Clearance and Customs Clearance.
Sabah Lights and Harbour Dues form.
(*d*) *Immigration:* Immigration Officer will board vessel on arrival and clear her inwards. No restrictions on crew and/or passengers going ashore. Immigration require 2 copies of crew list and 2 copies of passenger list. Vessels cleared inward until 1800 hours only. If there are special circumstances arrangements can be made to clear vessels inward after this time.
(*e*) *Marine Department:* Shipping Arrival Report to be signed by Master of Vessel.
PILOTAGE: Pilotage not compulsory but if required the Harbour Master acts as Pilot. At least 24 hours notice should be given and position where Pilot is required to embark (i.e. the bar buoy or within harbour limits) should be included in the message. Pilot station tel. 3128.
ANCHORAGES: For loading timber: A black and white conical buoy situated 1·2 miles South-westwards from Government Wharf indicates the anchorage. It is important that vessels should anchor as close to this buoy as possible, when anchored further from shore it may take up to an hour longer for launches towing rafts of timber to reach ship and in addition there is less shelter from wind and weather and consequently raftsmen have to cease work earlier.

For discharging: Unless it is intended to come alongside the wharf, vessels discharging should anchor 4 cables due South of wharf. Wharf is 750 ft. long with dolphins placed 100 ft. from each end giving a total length of 950 ft. If discharging into lighters and loading log timber simultaneously vessels should proceed to Timber Anchorage.
RESTRICTIONS: (*a*) Shifting: Vessels may not berth alongside after dark without special permission, but they may leave the wharf, having given prior notice.

(*b*) Special Cargo Regulations: No vessel with dangerous cargo may be alongside after sunset, except at discretion of Harbour Master. No dangerous cargo may be discharged simultaneously with general cargo except with permission of the Harbour Master. Livestock: subject to approval of Veterinary Authority. Certain animals, including cattle, are prohibited imports and exports except under licence.
MAX. SIZE: Draft up to 30 ft.

HEALTH: (Also see "Radio" and "Regulations"). If Sandakan is first port of entry into Sabah a vessel must proceed to quarantine anchorage until cleared by Health and Immigration Officials.

The Sabah Government are signatories to the WHO convention on quarantine regulations. If vessel comes from outside State of Sabah then Port Health Authority will require to board in quarantine anchorage before vessel can proceed to wharf or timber anchorage. If, however, vessel is not coming from an infected port pratique may be granted providing vessel cables Agent prior arrival advising last port of call and whether vessel healthy. Pratique normally cabled to ship but if unreceived, vessel must proceed to quarantine anchorage.

Port Health Authority require completed copy of Maritime Declaration of Health, and copies of Crew, Passenger and Narcotics Lists.

RADIO: (Information required before ship's arrival). ETA; number of passengers, health situation. Manifest, stowage plan, number of gangs required, (loading and discharging gangs to be specified separately). Amount of water required. Vessels not allowed to use their radio in port.

TUGS: No tugs available.

BERTHING: (Also see "Anchorages"). (*a*) Mooring: The numbers of a vessel which is berthing alongside will be shown from signal station on Eastern end of Customs House. In addition, a cone indicating tidal stream will be hoisted, pointed end of cone down indicates flood tide and pointed end up indicates ebb tide. Linesmen are on hand to receive a vessel's lines, a mooring boat will be provided by Marine Department if it is necessary to send lines to dolphins. Government Wharf, least depth 31 ft.

(*b*) Buoys: No mooring buoys.

(*c*) Lighters: No lighter fleet. The timber companies have their own lighters and scows which can sometimes be hired if not being used by these companies.

STEVEDORES: Stevedoring in hands of contractors who supply gangs as required. Women sometimes employed in handling light general cargo.

(*a*) Working hours. 0700–1100 also 1100–1200 (overtime), 1300–1700 also 1700–2200 (overtime). Gangs ordered at least 12 hours before a vessel arrives.

(*b*) Overtime. When working in stream, overtime usually from 1100 to 1200 and 1800 to 2200. Application for permission to work overtime must be made to Customs not later than 1500 hours on the afternoon that overtime is to be worked or 1100 hours on Saturday for weekend overtime.

(*c*) Working Sundays and holidays. Work is normally carried out Sundays and it is sometimes possible to arrange for work on some public holidays, principal exception being Chinese New Year. Application must be made to Customs for permission to work Saturday afternoons, Sundays and public holidays.

(*d*) Rate. Log loading is good, comparing more than favourably with other Borneo ports. Rate of loading about 800 cu. ft. hoppus (20 B/L tons) per gang hour for logs, and 6 B/L tons per gang hour for sawn timber. Discharging general cargo about 10 tons per gang hour.

(*e*) Bohayan. Vessels proceeding from Sandakan to Bohayan may be required to carry stevedores and tally clerks and on these occasions a temporary passenger licence is obtained and each man provided with a life jacket. A Customs Officer normally proceeds from Lahad Datu and remains on board whilst vessel is loading, accommodation and food being provided by ship, which also provides food for tally clerks. Stevedores provide their own food.

CARGO: (*a*) Tally: Tally clerks supplied by Agent if required. Sawn timber tallied on to scows by timber companies' clerks and tallied into ship by ship's tally clerks. Ship responsible for total number of pieces of timber shown on Mate's receipts. Letters of Credit do not allow the clause: "A quantity said to be" to be inserted on the B/Lading. Log timber tallied into ship by checking against specifications supplied by timber companies.

(*b*) Inward Cargo: Is tallied out of ship on to wharf or into lighter. Local watchmen can be supplied by Agent if necessary but it is generally found to be more satisfactory if these duties are carried out by crew. Damaged cargo is surveyed on the spot, otherwise no liability of vessel is acknowledged. Discharge carried out after permission has been obtained from Customs after manifest of inward cargo has been deposited. Cargo is delivered to consignees against production of relative Bill of Lading. Ship's responsibility to consignees ceases at ship's side but, in the case of short-landed cargo, resaonable proof must be given to Customs that cargo has not been landed. A short-landed Memo certified by Chief Officer is usually accepted as proof.

(*c*) Heavy Lifts: Usually landed overside on flat-top scows for delivery to private jetties, where they are man-handled to required site. Occasionally consignees provide low-loaders.

(*d*) Transhipment Cargo: After discharge of cargo from first carrier, transhipment cargo placed under supervision of Customs, unless it is possible to arrange direct transhipment into small coastal vessels.

(*e*) Outward Cargo: Main export is log timber and is towed out to loading vessels in rafts, each one accompanied by two raftsmen. Loading is on a single swinging derrick with gun tackle; the other derrick being used for pulling the logs into position in the holds. Vessels should have, if possible, two snatch blocks available at each hatch where log timber being loaded. Sawn timber loaded in normal manner from scows and lighters. Documents required are shipping order issued by Agent and list of specifications supplied by timber companies. Other exports are rubber, copra, coconuts, palm oil, jungle and sea produce.

(*f*) Refrigerator Cargo: Only small quantities of refrigerator cargo loaded or discharged. No formalities or certificates being required other than compliance with normal Customs regulations. Inward fridge cargo is confined to foodstuffs, meat, etc., and outward to frozen prawns.

(*g*) Explosives: Explosives must be discharged into lighters under police escort and transported to an approved police store. A licence for their importation must be obtained from police prior to arrival of cargo, and Harbour and Police authorities must be informed of arrival of explosives in port either for discharge or as through cargo.

(*h*) Damaged Cargo: Ship's survey should be carried out at ship's side on all cargo discharged in a damaged condition and Chief Officer should note extent of damage, and sign certifying same. Cargo coming alongside in a damaged condition should be noted and M/R claused accordingly. Chief Officers are reminded that it is most unwise to load any copra which is rain or salt water damaged.

MEDICAL: (*a*) Hospitals: Duchess of Kent Hospital will receive sick seamen or officers. Three classes of wards, also isolation wing. Hospital equipped to carry out normal surgery.

(*b*) Inoculation: PHO will vaccinate or inoculate crew members at Duchess of Kent Hospital.

(*c*) Death on Board: PHO and police to be informed immediately. They will then make an investigation into cause of death. If satisfied that death was due to natural causes, a certificate will be issued, and arrangements may then be made for interning the body. Harbour Master must also be informed in the case of seamen.

TANKERS: Two bulk oil installations at Karimunting (Pavitt Point). Esso, with storage capacity of 2,080 tons and Shell, with storage capacity 15,730 tons.

Jetty extends 550 ft. from shore, is 128 ft. long with mooring dolphins 125 ft. from each end. Minimum depth alongside 24 ft.

FRESH WATER: Can normally be supplied from wharf at rate of 20 tons per hour. No water boat. Occasionally water is not available and, at such times, Agent wants Principals in advance.

FUEL: No facilities for supply of fuel oil bunkers. Limited quantities of lubricants can be obtained in drums and bulk diesoline available at Shell jetty.

FIRE PRECAUTIONS: No fire-floats and in case of a vessel alongside, fire brigade should be summoned by dialling 999. The OCPD should be informed also.

WATCHMEN: No regulations regarding use of watchmen, who, however, can be supplied if required. There have been only very isolated reports of pilferage in Sandakan.

CONSULS: None.

DRY DOCKS/REPAIRS: No dry docks and very limited repair facilities. Marine Department slipway on Berhala Island is capable of taking ships up to 300 tons and Sabah Timber Co. have a slipway for vessels of a similar size. Castings, forgings, welding, etc., can be done at this slipway. Before repairs are carried out to the main engines of a vessel which would prevent her from shifting, the Harbour Master must be informed in writing.

POLICE/AMBULANCE/FIRE: Ambulance: Duchess of Kent Hospital, tel. 2111; Police/Fire: Police Station Emergency, tel. 999.

GENERAL: (*a*) *Surveyors:* Harrisons & Crosfield (Sabah), Sdn. Bhd. are Lloyd's Agents, neither Bureau Veritas nor the American Bureau of Shipping are represented.

(*b*) *Fumigation:* No facilities.

(*c*) *Ship Chandlers:* All kinds of stores and provisions can be supplied at reasonable prices.

(*d*) *Call Signals and Call Flags:* (i) Continuous watch kept by signal station during day-light hours. In emergency such as serious injury or fire a ship should hoist appropriate International Code signal and blow whistle or siren to attract attention. Apart from these circumstances and for purposes of navigation vessels are prohibited from using sound signals for any other reason.

(ii) Signals for attracting Public Service Launch: By day: International Code Pendant No. 8. By night: three red lights vertical. Owing distance of anchorage from jetty these signals often indistinguishable by hire launches unless they are cruising in the harbour. Regular launch services can be arranged if required by Master. No restrictions against a vessel using its own launch or motor lifeboat but it must not land anywhere other than at Customs wharf.

(*e*) *Recreation Facilities:* Three cinemas in town which show English-language films. Cricket, football, and hockey matches can be arranged with local teams and several tennis courts available. Only suitable swimming beaches at Berhala Island at mouth of harbour. Yacht Club and Golf Club for members only, but several Shipping Companies pay Corporate Membership fee which enables all officers and first-class passengers to use club. Recreation Club offers facilities for large variety of sports and entertainment; visitors must be accompanied by a member. Churches in town for Anglican, Catholic and Lutheran worship.

REGULATIONS: 1. Arrival and Departure. 1. The Owner or Agent of every vessel other than a small ship intending to call at a port shall, as soon as possible, and in any case not later than thirty-six hours prior to the estimated time of arrival of the vessel, give notice in writing to the Authority of such arrival and, if so desired, the requirement for a berth at a wharf.

2. The notice under this regulation shall be in a form prescribed by the Authority and shall contain full particulars regarding the cargo to be discharged and loaded, the embarkation and disembarkation of passengers, heavy lifts, special or perishable cargo, hazardous and dangerous goods (whether to be discharged at the port or not), and any other matters of importance relating to the working or safety of the vessel in the port.

3. The Master of every vessel entering or leaving a port between sunrise and sunset shall cause to be hoisted the national colours and the signal letters, if any, of the vessel. The national colours shall be

exhibited from 8.00 a.m. to sunset whilst the vessel remains in port.

4. The Master of every vessel arriving from outside the State of Sabah shall exhibit the Immigration and Quarantine signals contained in the First Schedule and shall also at the request of a customs officer hoist the Customs signals. Such signals shall remain exhibited until the appropriate officer has given permission for them to be lowered.

5. No vessel shall approach within six hundred ft. of any other vessel exhibiting the Immigration, Health or Customs signals.

6. No person other than a Pilot may board or disembark from any vessel until the vessel is cleared inwards and the Immigration, Quarantine and Customs signals have been lowered.

7. Every vessel entering a port shall be anchored or efficiently secured to a wharf or buoy before commencing the loading or discharging of cargo and/or the embarkation or disembarkation of passengers.

8. No vessel shall leave any port unless in possession of a valid Port Clearance issued by or on behalf of the Director of Marine.

2. Special signals.

Significance	*By Day*	*By Night*
Immigration (for ships not carrying passengers)	International Code Signal "2 5"	Two green lights, six ft. apart, hoisted vertically where best seen.
Immigration (for ships carrying passengers)	International Code Signal "3 4"	Two green lights, six ft. apart, hoisted vertically where best seen.
Quarantine (vessel is Healthy request pratique)	International Code Signal "Q"	Nil
Quarantine (vessel is suspect)	International Code Signal "Q Q"	A red light over a white light and a separate hoist of red light over a green light and hoisted vertically six ft. apart where best seen.
Quarantine (vessel is infected)	International Code Signal "Q L"	
Quarantine (not received pratique)	Nil	A red light over a white light six ft. apart hoisted vertically where best seen.
Request Police Assistance	International Code Signal "S T"	A green over a white light, six ft. apart hoisted vertically where best seen.
Request Medical Assistance	International Code Signal "W"	A red light over a green light, six ft. apart, hoisted vertically where best seen.

AGENT: Harrisons & Crosfield (Sabah), Sdn. Bhd. Telegraphic address "Crosfield". Tel. 2141 ext. 231–234 (Shipping Department). Code – Bentley's Second Phrase.

SARAWAK COASTAL PORTS

Coastal anchorages at Sibuti, Niah and Suai, 28, 30 and 47 miles S.W. of Miri respectively are being used increasingly for the export or round logs, good holding ground is to be found approximately 3½ miles offshore in 30 ft. of water. Caution should be observed in the event of sudden wind squalls from the West.

Vessels destined for coastal ports should report to Miri for Customs and Immigration Clearance.

Every vessel arriving in quarantine shall fly or show the appropriate International Quarantine signal; and no person other than a Pilot, Port Officer, Port Health Officer, Immigration Officer or Officer of Customs shall board the vessel; and no person shall disembark therefrom until the vessel has been cleared by the Port Health Officer.

The Master of every vessel of over 15 tons about to depart from a port for any place outside Sarawak shall cause the "Blue Peter" (International Code Flag "P") to be hoisted, during day-light hours, for at least twelve hours before the vessel is due to sail, or if the vessel is in port for less than twelve hours, for the period of her stay in the port.

(1) The Master or the Agent of every vessel about to depart from a port shall, on demand by the Port Officer, produce for inspection the port clearance.

(2) The port clearance shall be in the form of an endorsement on the form of clearance prescribed under the Customs Ordinance or in such other form as may be approved by the Director.

A vessel arriving in, leaving from or shifting berth within a port shall hoist her signal letters, if any. Whilst under way.

SEJINGKAT (Sungei Sarawak), Sarawak: 01.35.10 N. 110.26 E.

Anchorage off Kampong Sejingkat approximately 10 miles from mouth of river and three miles below Pending Point. (See "Kuching".)

Main timber loading point for the First Division of Sarawak. Loading used to be seasonal due to log rafts having to be towed from felling areas along coast. Since this is not possible during North-east monsoon season shippers now stockpile during favourable weather and loading continues throughout monsoon period.

Vessels up to 500 ft. length and 25 ft. draft regularly use anchorage. No facilities for obtaining fuel or fresh water.

Pilots may be picked up off Tanjong Po in the area marked "Pilots" on Admiralty Chart 1822 or at Pending. In rough weather it may be necessary for a ship to follow or meet the pilot launch at the junction of Embang and Senari leads. Pilots for the Batang Lupar, Triso or Lingga Anchorages are also normally embarked off Tanjong Po by arrangement. The Kuching Pilot launch "Alor" is fitted with "Hague Plan" VHF radio for ship to pilot communication.

Every vessel arriving in quarantine shall fly or show the appropriate International Quarantine signal; and no person other than a Pilot, Port Officer, Port Health Officer, Immigration Officer or Officer of Customs shall board the vessel; and no person shall disembark therefrom until the vessel has been cleared by the Port Health Officer.

The Master of every vessel of over 15 tons about to depart from a port for any place outside Sarawak shall cause the "Blue Peter" (International Code Flag "P") to be hoisted, during day-light hours, for at least twelve hours before the vessel is due to sail, or if the vessel is in port for less than twelve hours, for the period of her stay in the port.

(1) The Master or the Agent of every vessel about to depart from a port shall, on demand by the Port Officer, produce for inspection the port clearance.

(2) The port clearance shall be in the form of an endorsement on the form of clearance prescribed under the Customs Ordinance or in such other form as may be approved by the Director.

A vessel arriving in, leaving from or shifting berth within a port shall hoist her signal letters, if any, whilst under way.

SIBU, Sarawak (incl. Binatang and Sarikei): 02.24 N. 111.56 E.

Sibu is the major town in the Third Division of Sarawak. There are two inward routes (*a*) via Paloh River and (*b*) via Rejang River. Sibu is 51 miles from the sea via Paloh, and 70 miles via Rejang.

(*a*) Paloh Entrance: This route to Sibu is almost exclusively used by overseas vessels and the use of a Pilot is recommended, they having knowledge of other ship movements in the river (see "Pilotage").

The Outer Bar limits the draft to 17 ft. during the Landas (N.E. monsoon) or to 20 ft. during the summer months. The bar was resurveyed in 1967 and the Fairway and Inner Buoys were repositioned to give the deepest water over the bar. The depth on the axis of the channel is now 12 ft. chart datum. The two buoys are fitted with radar reflectors and the Fairway Buoy is visible for a distance of 10 miles. Care should be taken transiting the channel against being set to the Northward by the ebb tide as there is a 7 ft. patch in position 2° 29·2′ N. 111° 10·5′ E. The entrance to the Kuala is marked by a light beacon at Tanjong Sedi on the North bank of the river.

Strong cross currents and swell especially during the North-east monsoon period (November to March) necessitate caution when entering.

An inner bar with a least depth of 14 ft. exists where the Paloh joins the Seredeng at Tanjong Gelang. This crossing is marked by unlit transits and being sheltered no allowance is necessary for swell. The Inner Bar (at Tanjong Gelang) draft limitation is 21 ft.

Vessels can cross the Outer Bar at night then anchor off Tanjong Sedi to await day-light.

(*b*) Rejang Entrance: Draft for crossing Outer Bar is governed by state of tide with an allowance for swell together with depth of 19 ft. below ACD. Vessels drawing 29½ ft. have successfully crossed this Bar. However, this draft will only give access to the Deep Water Anchorage at Tanjong Mani and vessels proceeding further up river are restricted as follows:

(i) Deep water anchorage in Rejang River situated at Tanjong Mani. Has a capacity for about 6 large ships (500 ft.) and 4 small ships (300 ft.), it is normally used for loading logs. (See separate information for "Tanjong Mani".)

(ii) From Tanjong Mani inwards there is a Bar situated about 3 miles below Sarikei with a least depth of 13 ft. below ACD thus limiting drafts to 23 ft.

(iii) From Sarikei to Binatang, the next port, the river is winding with some shallow patches with depths of 15 to 18 ft. below ACD.

(iv) Proceeding from Binatang towards Tanjong Pendam and thence to Sibu vessels are limited to 13 ft. draft and 200 ft. length.

(v) Leba'an corner, 15 miles below Sibu is the junction of the two routes used by sea-going vessels bound for Sibu. A certain amount of shoaling has taken place here at the approach from the Rejang channel and it has been found necessary to restrict the length of vessels using this route (Rejang) to 200 ft. with a draft of 13 ft. This route is generally used by the smaller overseas vessels trading from Singapore, etc. There is an obstruction off Tanjong Ensurai approximately six and a quarter miles up river from Leba'an bend which has a least depth over it of 15 ft. Caution should also be exercised when rounding Tanjong Bindje due to three shoals across the river, one of which has a least depth over it of 11 ft.

Note: River Igan and Sungei Kut. The River Igan affords access to Sibu from the North. It is approximately 60 miles long and depth over the bar is 4 ft. with an average rise of 5 ft. Ocean-going oil tankers of up to 2,000 tons displacement entering the river from the Sibu end discharge at Sungei Meral Oil Wharf about three miles from Sibu.

The largest vessel to use this wharf was the Japanese vessel *Nisso Maru* of 1,566 gross tonnage, 264 ft. overall length with a draft of 16 ft. Larger vessels using this wharf are not envisaged due to the wharf position and structure.

PILOTAGE: (*a*) Kuala Paloh. Pilots usually embarked off Tanjong Sedi, however, if Master requires a Pilot to board at Fairway Buoy he should indicate this in his ETA telegram.

Ship Masters wishing to use Paloh channel should state this clearly in their ETA messages.

(*b*) Rejang River (Tanjong Mani, Sarikei, Binatang and Sibu). Pilots normally embarked, weather permitting in buoyed channel West of Jerijeh lighthouse but it may be necessary for a ship to follow the pilot launch to sheltered water inside turning buoy. This applies mainly to larger ocean ships calling at Tanjong Mani and smaller vessels on a first visit, but a Pilot may be picked up anywhere to suit provided clear and precise information is given in the arrival telegram. A few of the more frequently requested points are off South Jerijeh Beacon, Rejang Village and for upriver berths, Tanjong Mani itself, or even as far up as Tanjong Delima. The Rejang pilot launch Layang Laut, is fitted with "Hague Plan" VHF radio for ship to Pilot communication.

Application for Pilots should be made giving 24 hours' notice of arrival to "Shipping", Sibu or to "Shipping", Sarikei, for Sibu and Tanjong Mani ports respectively. Ships proceeding to Sibu and requiring a Pilot should indicate positively in their arrival telegram which channel they wish to use by adding "Paloh" or "Rejang" in the text, bearing in mind the maximum length via Rejang is 200 ft.

ANCHORAGES: (*s*) See "Tanjong Mani".

(*b*) Sibu Anchorage. Some foreign-going vessels load, with Customs permission, at the mid-stream anchorage when Customs wharf is congested.

(*c*) Restricted Anchorages.

(i) Abeam of Loba Selemit on the true right bank of the Rejang River in position 02° 08′ 22″ N.; 111° 16′ 35″ E. for loading and discharging dangerous goods.

(ii) The Anchorage defined by a line running 045 degrees 2·6 cables from position 02° 16·89′ N. 111° 49·28′ E. on Pulo Kerto, thence 135 degrees 8 cables to position 02° 16·5′ N. 111° 50·4′ E. thence 225 degrees 1·9 cables to shore on Pulo Kerto. For loading and discharging dangerous goods other than petroleum.

(iii) The berth alongside the Sungai Merah Wharf in position approximately two miles downstream from the junction of the Rejang/Igan River on the true right bank. For loading and discharging petroleum.

MAX. SIZE: Largest vessel to berth Sibu was 7,372 gross tons and overall length 450 ft.

Deepest drafted vessel to berth Sibu was 22 ft. 6 in.

HEALTH: Every vessel arriving in quarantine shall fly or show the appropriate International Quarantine signal; and no person other than a Pilot, Port Officer, Port Health Officer, Immigration Officer or Officer of Customs shall board the vessel; and no person shall disembark therefrom until the vessel has been cleared by the Port Health Officer.

BERTHING: (*a*) Principal wharves at Sibu

1. Main wharf 486 ft. long with minimum depth alongside 20 ft.
2. Lighterage wharf 156 ft. by 24 ft.
3. Kubu wharf 83 ft. long. Dries at 1 ft. Used mainly for small passenger craft.
4. Burong Apu wharf 250 ft. long with a least depth of 17 ft. Used for larger coastal craft.
5. Floating landing stages 576 ft. long with least depth of 4 ft. Used for smaller coastal and river craft.
6. Upstream of the public wharves several private wharves are used for timber and general cargo.
7. Sibu-Sungei Merah oil wharf is "T"-shaped with a berthing face of 64 ft. and a least depth alongside of 15 ft. This is a "common user" wharf at present used by the Shell and Esso Oil Companies. It can accommodate vessels up to 245 ft. long and 15 ft. draft.

(*b*) Sarikei. Customs wharf consiting of 2×60 ft. long floating pontoons, can accommodate vessels up to 2,000 tons deadweight up to 23 ft. draft. There is a Customs Godown on shore.

(*c*) Binatang. Customs Wharf 179 ft. long by 20 ft. wide with a least depth alongside of 15 ft.

STEVEDORES: 20 harbour contractors available with labour force of 330 union members plus 100 non-union members for moving cargo from ship to wharf and vice versa. These contractors are employed directly by the ship or Agent. The working day is 8 hours plus 2 to 4 hours overtime up to 2300 hours.

Ship's derricks used for discharging, then hand trucks are used up to a radius of ½ a mile or lorries for longer hauls. Bulk cargoes can be loaded directly into lorries on wharf.

No pallets or forklift trucks are available. Heavy lifts up to 5 tons can be handled subject to prior arrangements.

REPAIRS: 5 shipbuilding (up to 100 gross tons in size) and repairing yards near Sibu. These deal mainly with repairs to wooden or steel coastal and river craft. One yard has a slipway capable of taking vessels up to 500 gross tons.

DEVELOPMENT: Construction of a further one thousand feet of concrete jetty, in a Westerly direction, following the river bank from the existing jetty, will be commenced early 1972. Completion within two years. Also to be built are godowns and other buildings and ancillary services. All ports on the Rajang river, are now coming under the Rajang Ports Authority, as from early 1971.

GENERAL: Small quantities of diesel oil bunkers available, also provisions and fresh water. Principal exports rubber, pepper, timber and sago. Average delay time per ship varies from 10 to 25 hours.

REGULATIONS: The Master of every vessel of over 15 tons about to depart from a port for any place outside Sarawak shall cause the "Blue Peter" (International Code Flag "P") to be hoisted, during day-light hours, for at least twelve hours before the vessel is due to sail, or if the vessel is in port for less than twelve hours, for the period of her stay in the port.

(1) The Master or the Agent of every vessel about to depart from a port shall, on demand by the Port Officer, produce for inspection the port clearance.

(2) The port clearance shall be in the form of an endorsement on the form of clearance prescribed under the Customs Ordinance or in such other form as may be approved by the Director.

A vessel arriving in, leaving from or shifting berth within a port shall hoist her signal letters, if any, whilst under way.

AUTHORITY: Director of Marine.

TANJONG MANI, Sarawak: 02.09 N. 111.21 E.

Rejang River entrance. The least depth on the bar remains at 19 ft. The entrance is well lit by two lighthouses and one light beacon and the bar is marked by two light buoys.

Tanjong Mani. This is a deep water anchorage 16 miles from the river entrance, mainly used by vessels loading timber.

Size of vessels using Tanjong Mani limited only by depth on bar. Ten ships can be safely accommodated at anchorage at any time, roughly six large (500 ft. length) and four small (300–400 ft.). So far no ship has been delayed awaiting a berth though eight or nine ships anchored there at the same time is now a regular feature. Vessels up to 29½ ft. draft have crossed the bar.

Pilots are normally embarked, weather permitting in the buoyed channel West of Jerijeh lighthouse but it may be necessary for a ship to follow the pilot launch to sheltered water inside the turning buoy. This applies mainly to the larger ocean ships calling at Tanjong Mani and smaller vessels on a first visit but a Pilot may be picked up anywhere to suit provided clear and precise information is given in the arrival telegram. A few of the more frequently requested points are off South Jerijeh Beacon, Rejang Village and for upriver berths, Tanjong Mani itself, or even as far up as Tanjong Delima. The Rejang pilot launch Layang Laut, is fitted with "Hague Plan" VHF radio for ship to Pilot communicaton.

Application for Pilots should be made giving 24 hours' notice of arrival to "Shipping", Sarikei.

Anchorage. Abeam of Loba Selemit on the true right bank of the Rejang River in position 2° 08′ 22″ N. 111° 16′ 35″ E. is restricted to loading and discharging any dangerous goods.

TAWAU, Sabah: 04.15 N. 117.53 E.

DOCUMENTS:

(*a*) *To be Produced on Arrival:*

Customs	
Manifest in prescribed form	2
Crew List	2
Last Customs Clearance	1
Stores List	2
Passenger List	2
Arms List	2
Marine	
Marine Dept. Boarding Report, required to be completed	1
Last Port Clearance	1

Passenger List	1
Agent	
Manifest in the prescribed form	2
Crew List	1
Passenger List	1
Immigration	
Crew List	2
Passenger List	2
Travel Control Office	
Crew Lists and Passenger Lists	2 each.

(*b*) *To be Supplied to Ship before Departure:*

Manifests, as required by vessel.
1 Port Clearance and 1 Customs Clearance.
3 copies of Passenger List.

PILOTAGE: A Pilot is available from Sandakan for berthing vessels given reasonable notice (48 hours).

ANCHORAGES: Good anchorage in 8 fathoms 1,000 yd. to 1,300 yd. W.N.W. of wharf; and 350 yd. South there is an anchorage in 8½ fathoms.

Petroleum Anchorage. An area bounded by parallels of 04° 15′ N. and 04° 16′ N. and meridians of 117° 15′ E. and 117° 52′ E. This area is to be marked "Petroleum Anchorage".

Explosives Anchorage. An area bounded by parallels of 04° 12′ N. and 04° 13′ N. and meridians of 117° 52′ E. This area is to be marked "Explosives Anchorage".

Quarantine Anchorage. An area bounded by parallels of 04° 12.5′ N. and 04° 13.5′ N. and meridians of 117° 54′ E. and 117° 55′ E. This area is to be marked "Quarantine Anchorage".

RESTRICTIONS: (*a*) Communication ship/shore when lying on roads: Regular launch services difficult to arrange if required by Master. No recognised signals for summoning a launch, as distance between small boat jetty and anchorage is too great for flag signals to be recognised. No restrictions against a vessel using its own launch or motor life-boat apart from fact that it must not land anywhere other than at Customs Wharf.

(*b*) Explosives: No vessel carrying explosives shall come within 500 yards of shore or any other vessel except with written permission of Harbour Master which will be given provided that:

(*a*) quantity does not exceed 2,000 lb. of explosives of Class V and VI and are carried in a certified magazine, and there is no other dangerous cargo on board as certified in writing by the Master.

(*b*) quantity does not exceed 3,000 lb. and are exclusively of one of the following classes III, IV or VII.

Danger flag must be flown by day and a red light by night.

HEALTH: (*a*) Quarantine. The Sabah Government are signatories to WHO convention on Quarantine regulations. Port Health Doctor will not board, unless vessel comes from an infected port. Instead Maritime Declaration of Health is to be filled out and handed to Boarding Officer of Marine Department, who will require one copy of crew list and one copy of passenger list. Vessels should cable Agent prior arrival advising last port of call and whether vessel healthy.

(*b*) Immigration. Immigration officer will board vessel on arrival and clear her inwards. No restrictions on crew and/or passengers going ashore. Immigration will require 2 copies of crew list and 2 copies of passenger list. Vessels are cleared inward until 18.00 hours only. If there are special circumstances arrangements can be made to clear vessels inward after this time.

RADIO: Information required prior arrival, ETA Tawau with as much prior notice as possible. Number of gangs required. Quantity of fresh water required.

TUGS: No tugs available.

BERTHING: (*a*) Wharf Light at Tawau in position on North-west end of wharf, 04° 14′ 32″ N. 117° 52′ 56″ E.

(*b*) Tides/Linesmen. The numbers of a vessel which is berthing alongside will be flown from signal station. In addition a cone, indicating tidal stream will be hoisted, pointed end of cone down indicates flood tide and pointed end up indicates ebb tide. Linesmen are on hand to receive a vessel's lines; a motor boat can be hired to assist in berthing if prior advice is given.

(*c*) New Wharf. Consists of a 300 ft. long approach causeway extending from a reclamation area and a 600 ft. long wharf, 50 ft. wide with a dolphin in line ±100 ft. off each end. Least depth 20 ft.

(*d*) Monsoon. During strong wind from S.E. and S.W. ships are liable to range alongside wharf, and during S.W. monsoon sea breeze may make it difficult for ships to leave wharf in the afternoon.

(*e*) Buoys: No mooring buoys in Tawau.

(*f*) Lighters: No lighters available except a few wooden and steel lighters owned by Bombay Burmah Trading Corpn. Ltd. and Borneo Abaca Limited. Hire of these lighters can be arranged when they are not being used by owners, which is seldom.

STEVEDORES: (*a*) No stevedoring company in Tawau. Work is undertaken by stevedoring contractors. Stevedores in sufficient numbers usually available.

(*b*) Working hours 0700–1100 hours, 1300–1700 hours, 1800–2200 hours.

(*c*) Overtime: Overtime working hours are from 1800 to 2200 hours. Application must be made to Customs one day in advance; double rate charged.

(*d*) Sundays and holidays: Work normally carried out on Sundays and holidays, the only exception being Chinese New Year. Application must be made to Customs for permission to work Saturday afternoons, Sundays and public holidays.

(*e*) Rates: General cargo about 8 tons per gang/hour (loading/discharging).

CARGO: (*a*) Special Cargo Regulations: No vessel with dangerous cargo may be alongside after sunset except at discretion of Harbour Master. No dangerous cargo may be discharged simultaneously with general cargo except with permission of Harbour Master.

Heavy lifts usually landed overside on to flat-top scows. Customs bonded store is available with about 4,000 sq. ft. of space including Customs Liquor and tobacco store. There are no private bonded warehouses to date. There are no facilities for handling or storing bulk cargoes in any quantity.

Livestock: subject to approval of Veterinary Authority, certain animals including cattle are prohibited imports and exports except under licence.

(*b*) Damaged. Ship's survey should be carried out on all cargo discharged in a damaged condition and Chief Officer should note extent of damage, and sign, certifying same. Cargo coming alongside in a damaged condition should be noted and M/R claused accordingly. Chief Officers are reminded that it is most unwise to load any copra which is rain or salt water damaged.

(*c*) Tally: Tally clerks can be supplied by Agent if required, on receiving advance notice.

(*d*) Inward. Inward cargo is tallied out of ship onto wharf or into lighter. Damaged cargo surveyed on the spot, otherwise no liability of the vessel is acknowledged. Discharge carried out after permission has been obtained from Customs after manifest of inward cargo has been deposited. Cargo delivered to consignees against production of relative Bill of Lading. Ship's responsibility to consignees ceases at ship's side, but, in the case of short-landed cargo, reasonable proof must be given to Customs that cargo has not been landed. A short-landed Memo certified by Chief Officer is usually accepted as proof.

(*e*) Transhipment. After discharge of cargo from first carrier, transhipment cargo is placed under the supervision of the Customs, unless it is possible to arrange direct transhipment into small coastal vessel.

(*f*) Outward. When vessels berth alongside, packages are brought by motor transport and lighters; when in roads, by lighters.

(*g*) Refrigerator. Only small quantities of refrigerator cargo loaded or discharged. No formalities or certificates being required other than compliance with normal Customs regulations. Inward refrigerator cargo is confined to foodstuffs, meat, etc., and outward to frozen fish.

(*h*) Explosives. Explosives must be discharged into lighters or immediately on arrival onto wharf under police escort and transported to an approved police store. A licence for their importation must be obtained from police prior arrival of cargo, and Harbour and Police authorities must be informed of arrival of explosives in port either for discharge, or as through cargo.

TANKERS: Shell jetty, least depth 14 ft.

MEDICAL: (*a*) Hospitals. Government Cottage Hospital is only hospital in town, and will receive any sick seamen or officers. Three classes of wards, but first class ward can only accommodate two persons. Hospital is equipped to carry out normal surgery.

(*b*) Inoculation. Port Health Officer will vaccinate or inoculate crew members at Cottage Hospital.

(*c*) Port Health Officer. Cottage Hospital, General Office 2234; Medical Officer-in-Charge 2333; M.O.'s Residence 2239.

FRESH WATER: Can only be supplied at wharf. Twenty-four hours notice should be given of a vessel's water requirements. Usual rate of supply is about 15 tons per hour. A water barge is available but no guarantee of availability.

FUEL: Not available except diesoline in drums.

FIRE PRECAUTIONS: No fire floats and in the case of a vessel alongside catching fire, the fire brigade should be summoned by dialling 2299. The OCPD should also be informed.

CONSULS: None.

REPAIRS: No facilities.

POLICE/AMBULANCE/FIRE: (*a*) Police/Fire, tel. 2999; Hospital 2234.

(*b*) Accidents: Hoist a two-flag signal and give a blast of the whistle to call attention of signal station. Police and the hospital should be informed immediately of any untoward incident.

GENERAL: (*a*) *Surveyors:* Harrisons & Crosfield (S) Ltd., as Lloyd's sub-Agents, may appoint a Surveyor if a survey is requested.

(*b*) *Fumigation:* No facilities.

(*c*) *Ship Chandlers:* Main suppliers of frozen foods are Lee Foh Co. Fresh vegetables obtainable in limited quantities early every morning from vegetable market.

(*d*) *Priority:* Vessels are berthed on a "First come first served" basis

(*e*) *Watchmen:* These can be supplied if required.

REGULATIONS: (*a*) Arrival and Departure. The Owner or Agent of every vessel other than a small ship intending to call at a port shall, as soon as possible, and in any case not later than thirty-six hours prior to the estimated time of arrival of the vessel, give notice in writing to the Authority of such arrival and, if so desired, the requirement for a berth at a wharf.

2. The notice under this regulation shall be in a form prescribed by the Authority and shall contain full particulars regarding the cargo to be discharged and loaded, the embarkation and disembarkation of passengers, heavy lifts, special or perishable cargo, hazardous and dangerous goods (whether to be discharged at the port or not), and any other matters of importance relating to the working or safety of the vessel in the port.

3. The Master of every vessel entering or leaving a port between sunrise and sunset shall cause to be hoisted the national colours and the signal letters, if any, of the vessel. The national colours shall be exhibited from 8.00 a.m. to sunset whilst the vessel remains in port.

4. The Master of every vessel arriving from outside the State of Sabah shall exhibit the Immigration and Quarantine signals contained in the First Schedule and shall also at the request of a customs officer hoist the Customs signals. Such signals shall remain exhibited until the appropriate officer has given permission for them to be lowered.

5. No vessel shall approach within six hundred ft. of any other vessel exhibiting the Immigration, Health or Customs signals.

6. No person other than a Pilot may board or disembark from any vessel until the vessel is cleared inwards and the Immigration, Quarantine and Customs signals have been lowered.

7. Every vessel entering a port shall be anchored or efficiently secured to a wharf or buoy before commencing the loading or discharging of cargo and/or the embarkation or disembarkation of passengers.

8. No vessel shall leave any port unless in possession of a valid Port Clearance issued by or on behalf of the Director of Marine.

(*b*) Special signals

Significance	*By Day*	*By Night*
Immigration (for ships not carrying passengers)	International Code Signal "2 5"	Two green lights, six ft. apart, hoisted vertically where best seen.
Immigration (for ships carrying passengers)	International Code Signal "3 4"	Two green lights, six ft. apart, hoisted vertically where best seen.
Quarantine (vessel is Healthy request pratique)	International Code Signal "Q"	Nil
Quarantine (vessel is suspect)	International Code Signal "Q Q"	A red light over a white light and a separate hoist of red light over a green light and hoisted vertically six ft. apart where best seen.
Quarantine (vessel is infected)	International Code Signal "Q L"	
Quarantine (not received pratique)	Nil	A red light over a white light six ft. apart hoisted vertically where best seen.
Request Police Assistance	International Code Signal "S T"	A green over a white light, six ft. apart hoisted vertically where best seen.
Request Medical Assistance	International Code Signal "W"	Ared light over a green light, six ft. apart, hoisted vertically where best seen.

AUTHORITY: Port Officer. The Port Officer will be found in Customs building. Tel. 2672.

Police Department. OCPD tel. 2224; Immigration tel. 2265; OCPD's residence tel. 2575.

Customs. Assistant Commissioner tel. 2342 (Office); 2256 (House). Office hours 0800 to 1200 hours, 1330 to 1600 hours, week-days; 0800 to 1200 hours, Saturdays.

AGENT: Harrisons & Crosfield (Sabah) Ltd., Dunlop Street. Telegraphic address: "Crosfield". Tel. Manager 2624; Shipping 2262; Airways 2261. PO Box No. 5. Code – Bentley's Second Phrase.

Malta

VALLETTA: 35.54 N. 14.31 E.

DOCUMENTS: Pratique deposition to be filled by Master on arrival, form supplied by the boarding Customs Officer. 3 Crew Lists. 2 Bonded Store Lists and 1 list of dutiable items belonging to crew on arrival. 3 Passenger Lists.

PILOTAGE: Compulsory. Pilot boards at Fairway Buoy weather permitting. Pilot available at all hours for small ships, daylight hours for large vessels. Sea Pilot berths vessel for civil berths. Berthing Pilot boards in Bighi Bay for Malta Dry Docks or Buoy Berths. In bad weather Pilot boards inside entrance. Vessel's ETA should be given to Agent at least 12 hours' prior arrival to order Pilot. Pilot boat located near Customs House. Pilot boat not equipped with VHF.

ANCHORAGES: Sea anchorage off Grand Harbour. To East of line, Fairway Buoy to entrance, medium to poor holding ground. To West of line, holding ground excellent.

RESTRICTIONS: Minimum depth entrance channel (over wreck) 52 ft. Harbour channels – Bighi Bay 58 ft., French Creek 43 ft., Marsa 32 ft. Nature of bottom entrance channel rock and mud. Harbour channels mud. Harbour entrance and approaches affected by current – in North-west winds there is a set of up to ½ knot from North-west to North-east. Port is subject to closure in gregale (North-east gale) conditions – winter months occasionally, not more than 4 times a year.

SIZE: Discharging Berths – New Quay.

Berths 1, 2, 3. Min. water depth alongside berth 32 ft. Max. length acceptable 350/400 ft. Max. draught acceptable 32 ft.

Berth 4. Min. water depth alongside berth 32 ft. Max. length acceptable 550 ft. Max. draught readily acceptable 32 ft.

Maximum so far handled 1,000 ft. length, with draught 35 ft.

HEALTH: Port Medical Officer grants pratique when boarding on arrival. Accelerated pratique can be granted through Pilot provided crew all in good health and ship has not called any infected port during last 15 days, and is coming from a European port.

RADIO: Radio call sign 9HD. Radio telephony working frequency 2625 KHZ. Listening watch 2182 KHZ.

TUGS: Join vessel just inside harbour entrance. Lines at discretion of ship's Master.

BERTHING: No specific requirements necessary. Can berth at any time but subject size of vessel and weather conditions.

STEVEDORES: Ordered by Agents. At least 24 hours notice required.

RADAR/VHF: No radar service available. VHF facilities available by Malta Dry Docks. Frequency 156·8/156·55/157·9 Mc/s. Call sign Malta Dry Docks. Range 10 miles. Master can call signal station on VHF channel 16 or 12.

MEDICAL: Notice must be given to Agent soon as possible to make necessary arrangements. Hospital facilities available. Crew must be in possession of inoculation/vaccination certificates, etc.

TANKERS: Vessels must be gas-free except at tank-cleaning berth, where ships with not more than 2 tanks gas free are allowed. Slop (residue) discharging facilities available. No. of tanker berths: Parlatorio Wharf (Navy) Max. draught 35 ft.; max. length 650 ft. Marsaxlokk – has Saptan Dolphin (Navy) max. draught 34 ft.; max. length 650 ft.

FRESH WATER: Unlimited amount ex barge between 20 to 80 tons per hour.

FUEL: Bunker Berth – Shell (Malta) Ltd. at new quay. Grades handled include MFO. MDO. TFO. GO. Max. draught 32 ft. 48 hours notice required. Bunkering berth also used for discharging cargo and available when not occupied by discharging vessel.

FIRE PRECAUTIONS: Precautions according to Petroleum Ships Regulations. Civil tugs partly equipped with fire fighting equipment but not well trained. Admiralty tugs and salvage tug well trained and well equipped.

DEVELOPMENTS: Improvement at Coal Wharf – Improvement in Jetties Wharf commenced 1969. Free port envisaged at Marsaxlokk Harbour.

GANGWAY/DECK WATCHMEN: Not compulsory but recommended.

OPENING/CLOSING HATCHES: Opening by stevedores. Closing of hatches by crew. Stevedores can close hatches at extra cost.

CERTIFICATES: Ship's Register; Load Line Certificate; Derat Certificate.

CUSTOMS ALLOWANCES: 200 cigarettes allowed for each crew member. Wine and/or Spirit, None to crew except Captain, at Customs' discretion.

CARGO GEAR: Factory Act Book for Cargo Gear. Cargo work cannot commence unless certificates valid.

IDENTIFICATION CARDS: Not needed.

Mauritania

NOUADHIBOU (Port Etienne): 20.54 N. 17.03 W.

PILOTAGE: Pilotage is compulsory only for vesels berthing. Pilots normally board vessel at No. 2 Channel Buoys. Pilots may be ordered by VHF before arrival through Agent.
ANCHORAGE: Ships waiting for a berth should anchor about ¾ mile to the South-east of wharf. North-east of wharf is a turning area in which ships are forbidden to anchor.
RESTRICTIONS: Controlling depth in channel and alongside berth is 45 ft. Water density is 1025. Vessels may load to 45 ft. Salt-water draft if loading is completed during flood tide and the vessel sails at high water. Dredging operations continuing to allow deeper drafts.
HEALTH: Free pratique is given only after vessel has berthed.
TUGS: None available.
BERTHING: The ore-loading terminal of Société des Mines de Fer de Mauretanie (MIFERMA) is located in position 20° 49′ N., 17° 02′ W. The terminal comprises a single pier on steel piles, the northern part of which is the ore-carrier berth. Vessels moor port side to pier. The starboard anchor may be required to assist in berthing. Ships are requested to berth with a quantity of ballast equal to half of their cargo capacity. Vessels are loaded by travelling conveyor belt. The loading rate is up to 3,700 tons per hour.
FRESH WATER: Not available.
FUEL: Not available.
MEDICAL: There are hospital and medical facilities at the port. All officers and crew require valid smallpox and yellow fever inoculations.
CUSTOMS ALLOWANCES: All Bonded stores must be carefully declared. The vessel is liable to be fined if quantities are found to be more or less than those declared.
AUTHORITY: Société des Mines de Fer de Mauritanie.

AGENT: SOCOPAO – R.I.M., B.P. 7, Nouadhibou. Tel. 23. Cables "FREIGHT".

Mauritius

PORT LOUIS: 20.09 S. 57.30 E.

PILOTAGE: Compulsory. Vessels are brought in or taken out of the harbour at any time before or after official hours by special arrangement with the Director of Marine.
ANCHORAGE: Open roadstead with anchorages for vessels of any draft.
MAX. SIZE: Harbour entrance depths from 42 ft. to 119 ft. Channel – dredged to 32 ft.
RADIO: Port Authorities require to be notified of the date of the vessel's arrival by radio as soon as it is possible for Master to communicate with Harbour either:
1. By CW transmission through the Government Radio Station (VRS) at Vacoas on 500 kc/s.
2. By R/T transmission through Port Louis Harbour Radio Station (VRS 3) on 2182 kc/s.

TUGS: One 2,300 h.p. deep-sea and salvage tug *Le Corsaire*. Two 720 h.p. diesel-engine tugs, *Betty* and *Winnie*. These tugs are available for deep-sea towage and salvage and are fitted with fire-fighting equipment, R/T, W/T and VHF. Three smaller tugs: *Princess of Wales* and two 180 h.p. diesel-engine tugs *Paul* and *Virginie* for harbour work.
BERTHING: Quay "D" is the only deep-water quay in Port Louis. Length 485 ft. depth 31 ft. 6 in. (9 m. 63) alongside. Can take 1 vessel up to 580 ft., overall draft 30 ft. 6 in. Quay "C", length 396 ft., depth 18 ft. (5 m. 48), alongside for a length of 310 ft. Can take 1 vessel up to 300 ft., overall draft 17 ft.
Bulk Cargo: Cement Discharging facilities. Rate of discharge 500 tons per hour. Maximum draft 20 ft., minimum 18 ft.; capacity of Silo: 7,400.
Buoys: 6 berths capable of taking ships up to 31 ft. maximum draft; 3 berths capable of taking ships up to 29 ft. 6 in. maximum draft; 1 berth capable of taking ships up to 25 ft. maximum draft; 3 berths capable of taking ships up to 20 ft. maximum draft, maximum length 350 ft.; 2 berths capable of taking ships up to 16 ft. maximum draft; maximum length 225 ft. Vessels of 31 ft. are berthed in Quarantine Berth in No. 5E, No. 4E, No. 2E, No. 2W, and No. 5W. Distance between buoys at entrance 1½ cables.
STEVEDORING: Undertaken by private contractors. Approximate rate of loading per day of eight hours: Sugar in bags, 200–250 t. per gang per day; sugar in bulk, 200–250 t. per gang per day; general cargo, 60 t. per gang per day; rum in drums, 100 t. per gang per day; bales hemp, 100 t. per gang per day.
Working hours: Mondays to Fridays from 7 a.m. to 4 p.m. Saturdays from 7 a.m. to 1 p.m. Overtime can be carried out on weekdays up to midnight and up to 1600 hours on Sundays and public holidays.
MEDICAL: Arrangements for medical attendance should be made through ship's Agent. Private clinics available.
FRESH WATER: Fresh water supplied by barges at any berth between 7 a.m. and 4 p.m. Arrangements can be made for supply before 7 a.m. and after 4 p.m. on payment of overtime. The rate is about 25 to 30 tons per hour. Four barges of 50, 75, 85 and 110 tons respectively are available.
FUEL: Gas oil, marine diesel and furnace oil obtainable. (Arrangements must be made in advance between Owners and the Shell Co., BP, or the Anglo-Iranian Oil Co.) The pumping capacity of the installations at Port Louis for furnace oil is between 150 and 200 tons per hour, and for marine diesel oil and gas oil 50 tons per hour. Marine diesel oil and furnace oil (35 secs. to 1,000 secs.) is supplied at Quay "D". Furnace oil 1,000 seconds only is supplied on No. 5 West berth.
REPAIRS: Almost any type of repair can be undertaken in Mauritius.
DRY DOCK: Stevenson dry dock. Largest vessel that can be docked: 326 ft.×48 ft., with a maximum draft of 16 ft.; vessels of up to 358·5 ft.×50 ft. can also be docked, but at least 15 days notice should be given.
CONSULS: *Consulates:* Belgian, Danish, Dutch, Finnish, German (Federal Republic), Norwegian, Portuguese, Spanish and Swedish. *Embassies:* French, Malagasy, American, Russian and Pakistan. *High Commission:* British and Indian.
HOLIDAYS: 1st January (New Year's Day), port closed; 22nd January (Cavadee); 6th February (Chinese Spring Festival); 18th February (Id-El-Adha); 6th March (Maha Shivaratree); 12th March (Independence Day); 1st May (Labour Day); 29th October (Divali); 1st November (All Saints' Day); 1st December (Id-El-Fitr); 25th December (Christmas Day).
POLICE/FIRE: Police, tel. 999; Fire, tel. 999.
AUTHORITY: Mauritius Marine Services Dept.

Mexico

ACAPULCO: 16.50 N. 100.00 W.

DOCUMENTS:
Health Clearance from previous port.
Health Pratique.
4 Stores Lists.
4 Lists of Crew's Personal Effects.
12 Crew Lists.*
2 Passenger Lists.*
12 Manifests of cargo for the port.*
* One copy to be visaed by Mexican consul.

PILOTAGE: Pilot is ordered by Agent on the basis of Master's ETA, which should be given accurately at least 24 hours before arrival. Pilot boards at the port limits, approximately one mile from the entrance.
ANCHORAGE: Vessels may anchor in the middle of the bay as indicated by the Pilot. Depths up to 150 ft.
RESTRICTIONS: The Bay of Acapulco is a natural harbour surrounded by mountains, approximately 4 miles across at its widest part and 2½ miles across at its narrowest. There are two entrances, one called Boca Grande and the other called Boca Chica.
Boca Grande is between Punta Siclata on Isla de la Roqueta and Punta Bruja. The channel is 3,000 m. wide with a depth of 31 fathoms in mid-channel.
Boca Chica channel, between Isla de la Roqueta and the Peninsula of Las Playas is 300 m. wide with a depth of 14 fathoms in mid-channel.
MAX. SIZE: For berthing alongside maximum draft 28 ft. 6 in.
HEALTH: When vessel arrives at the port the following Authorities will board: Port Health Authority, Customs and Immigration, accompanied by the ship's Agent.
RADIO: Coastal station of Acapulco receiving on 8374 kHz in day-time and on 4180 kHz at night. Transmitting on 8514 kHz in day-time and 4250 kHz at night. Radiotelephone receiving and transmitting on 2715 kHz during the day and on 2182 kHz from 2000–0600 hours local time. VHF service available from 0630 to 2300.
TUGS: One tug is required for berthing. Tug's line used.
MEDICAL: Agent should be advised by radio in advance if any medical assistance required. Hospital facilities available.
TANKERS: Tanker moorings operated by Petroleos Mexicanos situated on the Eastern side of the bay. It is strictly prohibited to discharge oily residues in the bay or within 40 miles of the port.
FRESH WATER: Can be supplied by hoses from the quays, rate about 15 tons per hour. Cost 4 pesos per ton.
OPENING/CLOSING HATCHES: Is performed by stevedores.
CUSTOMS ALLOWANCES: Crew members are only allowed to retain cigarettes, tobacco and liquor sufficient for their own consumption while vessel is in port.
IDENTIFICATION CARDS: Crew members should carry a passport.

COATZACOALCOS: 18.08 N. 94.25 W.

DOCUMENTS:
2 Crew Lists visaed by Mexican Consul, and 6 simple copies of Crew List, not visaed.
2 Visaed Cargo Manifests from each loading port.
10 Cargo Manifests not visaed, *if in ballast.*
2 Manifests not visaed.
1 Clearance from Last Port of call.
1 Vaccination List (smallpox).
2 Passenger Lists from each loading port visaed by Mex. Consul.
6 Passenger Lists not visaed.
8 Passenger Lists in transit, not visaed.
Fumigation Certificate has to be shown.

Passports or Seaman's Books to be kept handy as Authorities will take them ashore, but being returned shortly before sailing. Above documents are required when vessels dock at piers located in the Free Port Area called "Puerto Libre de Coatzacoalcos" being free of Customs intervention. When vessels dock at fiscal berths, or at "Pajaritos FFM private berth" or proceed to Nanchital Pemex Terminal or to Fiscal Port at Minatitlan in addition to above documents has to present to Customs Authorities the following:
3 Ship's Store Lists.
3 Personal Effects Lists.
3 Dangerous Cargo Lists, if any.

PILOTAGE: Compulsory. No means available for Master to communicate with Pilots. Pilot meets off the jetties. Master shall give Agent information not less than 24 hours prior arrival.
ANCHORAGE: Only in the roads, about two miles off Coatzacoalcoalcos.
RESTRICTIONS: Vessels may enter harbour only with daylight. Harbour remains closed to navigation from 1800 to 0600 hours.
MAX. SIZE: Maximum LOA at Pajaritos (New Port) where FFM private owned berth of 610 ft. Maximum LOA at Free Port Area of 600 ft. No breadth restriction at both. Maximum draft permitted 31 ft. in fresh water.
HEALTH: Pratique never given by radio. Vessels granted free pratique when berthed alongside if no contagious illnesses aboard. See "Documents."
RADIO: No port radio. Vessels give ETA to Agent through Veracruz Radio, Merida Radio or Galveston Radio.
TUGS: Tugs join vessels in the river when entering. Tug's lines used. Towage is compulsory for docking, undocking and shifting berth in the harbour. For vessels up to 4,000 GRT one tug, over 4,000 GRT two tugs.
BERTHING: Normally vessels docked starboard side alongside. When current and circumstances permit vessel docked port side alongside. When vessels berthing must prepare accommodation ladder to be boarded by Port Authorities. There are seven docks in the Free Port area numbered 2, 3, 4, 5, 6, 7 and 8. Nos. 2, 3 and 4 exclusively for general cargo. Depths alongside: No. 2, 25 ft.; No. 3, 27 ft.; No. 4, 30 ft. Nos. 5, 6 and 8 exclusively for loading sulphur in bulk (dry and liquid). Depths alongside these 3 berths of 32 ft. No. 7 for discharging bulk harmless fertilisers. Depth 28 ft. There is one berth at Pajarito FFM private berth where bulk harmless fertiliser loaded or discharged. Depth of 33 ft. There are two small berths at Coatzacoalcos Fiscal Port used only for fishing-boats and tugs. No loading or discharging performed at these berths. Depths alongside of 18 ft.
STEVEDORES: No ETA advice necessary. Free Port: Straight working hours: from 0800 to 1200 and from 1400 to 1800 hours Overtime 100% overcharged according Tariffs. Latest times to order gangs: 0730, 1330 and 1730 hours. Straight time above hours Monday through Saturday. Sunday and holidays allowed to work except "Legal Holidays". Loading and discharging rates: 25 tons gang/hour using ship's derricks. No shore cranes available. Loading sulphur by conveyor belts at 500 tons per hour, working around the clock.

Private FFM Berth: Loading or discharging operations performed by their own personnel working 24 hours per day. Rate of loading by conveyor belt: 500 tons per hour. Rate of discharging 1,100 tons per day with ships gear.
MEDICAL: Hospital facilities available. No advance notice required.
DENSITY: Averages 1012.
FRESH WATER: Available at berths in Free Port area, delivered by 2 in. hose. Loading rate about 4 tons per hour. Cost Mex. Ps. 5.00 per ton (approx.)
FUEL: Fuel can be supplied at Coatzacoalcos port by tank-trucks when vessels need small quantities. Petroleos Mexicanos (PEMEX) has at Nanchital a loading terminal which is about 3 miles up-river from Coatzacoalcos (max. draft 27 ft. 06 in.) where Bunker C fuel available.
DEVELOPMENTS: Presently Pemex is constructing new berth at Pajaritos Lagoon where their vessels will load crude oil.
CUSTOMS ALLOWANCES: No restriction for free use on board.
CONSULS: Norwegian and Swedish only.
REPAIRS: Minor repairs may be effected. No dry dock available.
AIRPORT: At Minatitlan, about 40 minutes car drive away. 2 regular flights to Mexico City.
TIME: 6 hours behind GMT.
TELEPHONES: No facilities for placing telephones on ships.
POLICE/AMBULANCE/HOSPITAL: Police tel. 2 01 22, Red Cross 2 02 83; Hospital 2 00 30.

AGENT: Representaciones Maritimas, S.A. Calle Juarez 320 Altos Coatzacoalcos, Ver. Tel. 2 01 71. Telex 078 822. Cable: "Maritimex", Coatzacoalcos.

MANZANILLO: 19.03 N. 104.20 W.

DOCUMENTS:
14 Crew Lists.
20 Passenger Lists.
Derat Certificate.
Vaccination Certificate for each crew member.
Cargo Manifest and one copy to be visaed.
8 additional copies of Cargo Manifest, unvisaed.
10 Bills of Lading, one copy to be attached to each cargo manifest.

PILOTAGE: Pilot station cannot be contacted by radio, and Pilots are ordered by Agents basis Master's ETA.

Pilot boat is black with white wheel-house on which is painted letter "H". International Code signals used. Pilot normally boards vessel about one or two miles from breakwater but if requested in advance the pilot boat will come out to five or six miles. Pilot cannot board in rough weather. Vessels waiting for Pilot may anchor about two or three miles N.W. of breakwater in depths of 12–15 fathoms.
ANCHORAGE: Vessels may anchor in the whole North part of the Bay where depths are 12–15 fathoms at a distance of one to two miles from the coast.
RESTRICTIONS: Vessels may enter at any time day or night.
MAX. SIZE: No limitation for anchoring in the bay. For mooring alongside, maximum length 200 metres, maximum draft 32 ft. Tankers can be accepted up to 36 ft. draft.
RADIO: Coastal station Manzanillo Radio, call sign XFM, operating 0600–1800 local time.
TUGS: One tug available, compulsory to use tug when mooring alongside. Tug will join vessel as ordered by the Pilot.
BERTHING: Vessels may berth at both sides of the pier or at the North end of the pier.
STEVEDORES: Advise Agent in advance number of gangs required. Discharge rate approximately 20–25 tons per hour per gang.
MEDICAL: Agent should be advised in advance if medical attendance required on board. Hospital facilities available.
TANKERS: One berth available for tankers up to 36 ft. draft.
FRESH WATER: Should be ordered in advance. Supplied from the quay, cost about 0.50 pesos per ton.
FUEL: Should be ordered in advance: All grades available. May be expensive due customs fees.
DEVELOPMENTS: Improvements are in progress to accommodate vessels up to 30,000 tons with a draft of 40 ft.
GANGWAY/DECK WATCHMEN: No shore service available.
OPENING/CLOSING HATCHES: Normally performed by crew members.
CUSTOMS ALLOWANCES: Each crew member may retain one carton of cigarettes, and one bottle wine/spirits for his own use. No alcohol may be taken ashore.
IDENTIFICATION CARDS: Identification cards or shore passes are necessary for crew going ashore.
CONSULS: Nearest are at Colima and Guadalajara.
REPAIRS: Only repairs to auxiliary machinery can be effected. At Guadalajara hull repairs may be effected provided dry dock not required.
REPATRIATION: Can be arranged.
AIRPORT: Local airport only for internal traffic.
TIME: GMT minus 6 hours all the year round.
HOLIDAYS: The following holidays can only be worked in case of emergency: 1st January; 5th February; 21st March; 1st May; 5th May; 16th September; 12th October; 25th December; and in addition 23rd May, Anniversary of the Stevedores' Union.
POLICE/FIRE/AMBULANCE: Police tel. 4; Fire 23; Ambulance 96.
TELEPHONES: Cannot be connected on board ships.
SHORE LEAVE: Permitted except for crews of Russian, Cuban and Communist Chinese vessels.
AUTHORITY: Capitania de Puerto Edificio Federal, Morelos y 5 de Mayo. Tel. 34.

MINATITLAN: 17.54 N. 94.35 W.

DOCUMENTS: See "Coatzacoalcos."
PILOTAGE: See "Coatzacoalcos Pilotage." Port about 17½ miles up-river from Coatzacoalcos. Vessels are piloted either up-river or down-river to and from Minatitlan.
MAX. SIZE: Maximum LOA at Pemex berths: 475 ft. Maximum LOA at Fiscal berth: 440 ft. No breadth restrictions at both. Maximum draft permitted: 21 ft. in fresh water.

BERTHING: Normally vessels dock starboard side to. Petroleos Mexicanos (Pemex) has 8 berths for tankers, where they can load crude, fuel oil, gasoline benzene, xylene, metaparaxylene, toluene and other petroleum derivates. Fiscal berth has a length of 80 metres Depth alongside of 22 ft. Actually only used to discharge bulk harmless fertilisers Discharge performed by elevator at a rate of 800 tons per 24 hours Also by ship's gear using buckets at a rate of 200 tons per day per hatch.
STEVEDORES: No ETA advice necessary. Agent or Receivers of cargo order gangs to discharge. Straight working hours from 0700 to 1500 Mondays through Saturdays. Latest time to order gangs 0645 and 1445 hours.
DENSITY: Averages 1006.
MEDICAL: Hospital facilities available.
FRESH WATER: Available at all berths, but is not recommended
FUEL: Marine diesel oil and Bunker C obtainable.
DEVELOPMENTS: Constant programmes for more berths, sheds, dredging and equipment are under way, but rather slow.
REPAIRS: No dry docks available, but small repairs can be done in shore repair shops.
AIRPORT: About 15 minutes car drive away. Regular flights to Mexico City.
TIME: 6 hours behind GMT.
TELEPHONES: No facilities for placing telephones on ships.
AGENTS: See "Coatzacoalcos".

NANCHITAL: 18.00 N. 94.27 W.

DOCUMENTS: See "Coatzacoalcos."
PILOTAGE: See "Coatzacoalcos Pilotage." Port about 3 miles up-river from Coatzacoalcos.
ANCHORAGE: See "Coatzacoalcos Anchorage."
RESTRICTIONS: Vessels may enter Coatzacoalcos only with daylight. Navigation from Coatzacoalcos to Nanchital remains closed from 1630 to 0700 hours.
MAXIMUM SIZE: Maximum LOA 580 ft. No breadth restrictions. Maximum draft permitted 27 ft. 06 in.
HEALTH: See "Coatzacoalcos."
TUGS: When vessels proceed to Nanchital, 1 tug accompanies to pass the Coatzacoalcos bridge, according to Port Regulations. Tugs again join vessels when arriving at Nanchital berths. Tug's lines used. For vessels over 4,000 GRT two tugs used.
BERTHING: Normally vessels dock port side alongside. When current and circumstances permit vessel is turned around and docked starboard side to. There are two docks at Nanchital, called Old Pier and New Pier. Both to load crude oil, No. 6 fuel oil by pipe line of 6 in. and up to 10 in. Mooring, unmooring, connecting and disconnecting hoses performed by Pemex own labourers.
MEDICAL: Hospital facilities available only at Coatzacoalcos.
BALLAST: Special regulation for tankers that no ballast water to be discharged in the river. Deballasting performed by two pipe-lines of 6 in. diameter to shore tanks.
SALINITY: Average 1006.
FRESH WATER: Available at both berths but is not recommended for drinking.
FUEL: Available only at the Pemex Oil Terminal at any time.
DEVELOPMENTS: Constant programmes for more berths, sheds, dredging and equipment are under way, but rather slow.
CUSTOMS ALLOWANCES: No restrictions. Free use on board. Two Customs guards stay on board. Vessel to provide them boarding and lodging.
CONSULS: None.
REPAIRS/DRY DOCKS: No dry docks available, but small repairs can be done in shore repair shops.
AIRPORT: At Minatitlan, about 1 hour car drive away. 2 regular flights to Mexico City.
TIME: 6 hours behind GMT.
TELEPHONES: No facilities for placing telephones on ships.
AGENTS: See "Coatzacoalcos".

TAMPICO: 22.15 N. 96.51 W.

DOCUMENTS:
1 Crew List visaed by Mexican Consul.
9 simple copies of Crew List.
1 Visaed Cargo Manifest from each loading port.
4 simple copies of Cargo Manifest.
1 Visaed Passenger List or visaed Statement to the effect of no passengers, and 5 simple copies.
2 copies of Store List.
2 copies of Personal Effects List.
Rat Exemption Certificate.
Valid Smallpox Vaccination Certificates for all crew and passengers.
Passports or Seaman's Books of all crew.
Clearance from Last Port of Call.
PILOTAGE: Compulsory. No means available for Master to communicate with Pilots. Pilot boards vessel about 2 miles North-east of breakwater.
ANCHORAGE: About 2 miles East of breakwater in 40–60 fathoms of water.
RESTRICTIONS: Vessels with maximum draft, 29 ft. 06 in., are only allowed to enter or sail with high tide. No night restrictions.
MAX. SIZE: Maximum length 580 ft. overall, no breadth restrictions, Maximum draft for tankers 29 ft. 06 in. For general cargo vessels, 25 ft. and for mineral bulk cargoes 26 ft.
HEALTH: Smallpox vaccination Certificate for all crew and passengers, valid Rat Exemption Certificate.
No Radio pratique prior to arrival obtainable.
TUGS: Two Tugs, "Panuco" and "Tamesi," available, of about 350 h.p. each. They join vessel just before docking at respective berth and supply lines.
BERTHING: 5 berths available for tankers at Petroleos Mexicanos Oil Terminal, each with 29 ft. 06 in. depth. 2 berths available at Metals Pier with 26 ft. depth alongside. 7 berths available at the Fiscal Wharf, with a length of 130 metres each, and all with 25 ft. depth.
STEVEDORES: No ETA advice necessary of Stowage Plans received in advance by Agent, otherwise ETA advice for gangs appreciated 48 hours prior to arrival. Stevedores general cargo discharging and loading rate about 10 tons per gang/hour. Mineral loading at Metals Pier about 125 tons per belt/hour (2 conveyor belts available to service both berths.
MEDICAL: Hospital facilities available. No advance notice required.
TANKERS: 5 berths with 29 ft. 06 in. at Petroleos Mexicanos Oil Terminal available. Diameter of lines unknown, but so far never had any difficulties at all, i.e. Petroleos Mexicanos able to adapt to any size. Loading and discharging rate about 600 to 800 tons per hour. Tank washings are received ashore.
SALINITY: Average 1006.
FRESH WATER: Available at written request from Agent. Loaded by gravity at about 3 tons per hour and costs U.S.$ 0.40 per ton. The fresh water is not recommended.
FUEL: Available only at the Petroleos Mexicanos Oil Terminal, i.e., vessels have to shift there. Available only by notice through usual contract suppliers at least one week ahead of arrival.
DEVELOPMENTS: Constant programmes for more berths, sheds, dredging and equipment are under way, but rather slow.
CUSTOMS ALLOWANCES: No allowances to be taken ashore, but reasonable amounts of tobacco and spirits are allowed to be taken out of bond, but to be kept on board for use of crew and passengers only.
CONSULS: U.S.A., Great Britain, Peru, Germany, Holland, Norway, Sweden, Italy, Uruguay and Lebanon.
REPAIRS/DRY DOCKS: No dry docks available, but small repairs can be done in shore repair shops.
AIRPORT: About 20 minutes car drive away. Regular flights to Mexico City with consequent connections in any direction. Regular direct flights to Texas.
TIME: 6 hours behind GMT.
HOLIDAYS: January 1st; February 5th; March 21st; May 1st; September 16th; November 20th; December 25th; December 1st every 6 years.

DOCUMENTS:
Health Declaration.
4 Cargo Manifests.
6 Stores Lists.
6 Crew Lists.
6 Passenger Lists.
PILOTAGE: Compulsory. Pilot boards at port entrance. International code signals used.
ANCHORAGE: Good anchorage in open roadstead.
MAX. SIZE: Up to 29 ft. draft.
HEALTH: Pratique given immediately after berthing when port doctor boards.
TUGS: Two tugs available, one of 350 h.p., one of 1,275 h.p.
RADIO: Agadir Radio operates 24 hours a day.
BERTHING: Alongside pier: berth 475 metres long, 9 metres depth; berth 380 metres long, 6 metres depth.
MEDICAL: Doctors and hospital facilities available.
FRESH WATER: Available from pipe-line at berths.
FUEL: Fuel and gas oil available from pipe-lines at berths.
GANGWAY/DECK WATCHMEN: Available but not compulsory.
STEVEDORES: ETA required 24 hours in advance to arrange gangs.
OPENING/CLOSING HATCHES: Performed by stevedores.
CUSTOMS ALLOWANCES: Crew allowed normal daily consumption of tobacco, wine and spirits.
IDENTIFICATION CARDS: Required.
CONSULS: France, Spain, Belgium and Portugal represented locally.
REPAIRS: Small machinery and electronic repairs can be effected.
TIME: GMT plus one hour permanently.
POLICE/FIRE/AMBULANCE: Police, tel. 23–49; Fire, tel. 22–43; Ambulance, tel. 19.
HOLIDAYS: 1st January, 6th January, 19th March, Maundy Thursday, Good Friday, 1st May, Ascension Day, Corpus Christi, 29th June, 18th July, 25th July, 5th August, 15th August, 12th October, 1st November, 8th December, Christmas Day. Work may be arranged on all holidays except Good Friday.

SHORE LEAVE: Allowed.
AUTHORITY: Director del Puerto.

AGENT: Ernest Corcos, PO Box 54, Agadir. Tel. 24–55 and 33–31. Telex 810–18. Cables: Ercos Agadir.

CASABLANCA: 33.36 N. 07.37 W.

DOCUMENTS: Ship's papers required:
Certificate of Registration.
Cargo Manifests.
Crew Lists.
Passenger Lists.
Customs Declaration.
Bill of Health.
Ship's Entry Declaration.

PILOTAGE: Compulsory for all merchant vessels of 100 tons and over, in the area between the meridians 7° 37′ 10″ W. (the root of jetée Moulay Youssef) and 7° 33′ 50″ W. (Table d'Oukacha) and South of the parallel 33° 37′ 40″ N. Pilotage is available day and night. The Pilot meets vessel at the CA5 buoy.

A red flag displayed at the signal station by day indicates that the Pilot cannot come out, on account of the sea, but vessels may enter the port at their own risk, and the Pilot will await them under the shelter of jetée Moulay Youssef. Should bad weather prevent the Pilot from coming out, a vessel should not attempt to enter the harbour at night. The Master may contact the pilot station for port radar service. by VHF (Channel 12).

ANCHORAGE: The anchorage outside Casablanca harbour is partially protected from winds between S. and W. but a Westerly swell finds its way into the bay. With a heavy Westerly or North-westerly swell the anchorage becomes dangerous.

The holding ground in most places outside the harbour is poor, but a berth with good holding ground may be obtained in a depth of 13 fathoms N. of jetée Moulay Youssef. There are numerous anchorage berths in the harbour, some at mooring buoys, in depths up to 12 m. 8 (42 ft.).

MAX. SIZE: Maximum length permissible, about 884 ft.; maximum breadth permissible, about 105 ft.; maximum draft permissible, about 32 ft., but normally 30 ft. for berthing alongside. Tankers: up to 33 ft. draft.

HEALTH: Masters must fill in the declaration of health and display the "Q" flag, to obtain pratique. In the event of any suspected disease or fever on board, Masters have to warn their Agent before the ship's arrival.

RADIO: The name of radio station for ETA cables to Agents, receivers, etc., is Casa Radio.

TUGS: There are 6 tugs of 800 to 1,500 h.p.; 3 of them are sea-going tugs fitted with modern salvage apparatus. Normally tugs join the vessel at the entrance. To call them, four long blasts and one short for one tug, four long blasts and one short for two tugs, etc. Ship's lines are mostly used.

BERTHING: To arrange berth, ETA message should be given 24 hours before the ship's arrival.

Mooring. When making fast to the jetty by the stern, the anchor should be let go at a sufficient distance from the jetty to allow for a good scope of hawsers.

Vessels are recommended to secure with special 10-in. coir hawser tailed with wire. It is recommended to moor head to the swell, but in bad weather a vessel should be ready to leave at short notice.

STEVEDORES: There are 13 stevedoring companies. Normal working days are in two shifts (from 0700 to 1500 and from 1500 to 2300). Ship's Agents arrange gangs in connection with stevedores. Two daily orders (at 1100 and 1600) are made to fix the number of gangs.

MEDICAL: It is necessary for Agent to receive advance notice of required medical attention. Hospital facilities available. Only small-pox vaccination certificates are required.

TANKERS: There are four tanker berths, (*a*) one for Import and Export of white products (the maximum permitted draft is 33 ft.).

(*b*) Three for Import and Export of black products (these berths are situated inside the harbour; vessels should therefore be gas free and their drafts should not exceed 30 ft.).

FIRE PRECAUTIONS: Two firemen remain on board while vessel berthed alongside.

FRESH WATER: Numerous feeders along berths. Also delivery by barges is possible.

FUEL: All grades available. Ex-wharf or by barge.

DEVELOPMENT: New installations: a new pier for phosphates (export is expected in near future).

GANGWAY/DECK WATCHMEN: It is necessary to have watchmen on board. They are hired by the ship's Agent.

OPENING/CLOSING HATCHES: This work is normally carried out by stevedores.

CUSTOMS ALLOWANCES: 200 cigarettes are permitted for each crew member to be held out of bond.

IDENTIFICATION CARDS: Needed.

REPAIRS: Only small repairs and dry docking works are carried out.

DRY DOCKS: One large dry dock, 152 metres long and 22 metres wide (lifting power 10,000 tons). Three slips for ships up to 700 tons.

REPATRIATION: Facilities exist for effecting crew change and arranging any necessary repatriations.

AIRPORT: Distance from airport, 3 miles. International connections.

TIME: Local time, GMT. No alterations made to clocks during the year.

POLICE/AMBULANCE/FIRE: Police, 210–74 or 19; Ambulance, 15; Fire, 15.

TELEPHONES: Only arrangements for placing telephones on board passenger ships are possible.

SHORE LEAVE: Crew members are allowed ashore.

AUTHORITY: Monsieur le Directeur du Port, Place Zallaga, Casablanca, Morocco. Tel. 759–81.

AGENT: Lasry Maroc, 61, Avenue de l'Armée Royale, Casablanca. Telex: 21949 – 21092. Tel.: 688–75 – 669–46. Cables: "Jolasry".

CEUTA: 32.54 N. 05.17 W. (Spanish)

DOCUMENTS:
Health Declaration.
2 Cargo Manifests.
2 Stores Lists.
4 Crew Lists.
5 Passenger Lists.

PILOTAGE: Radio Agent advising ETA 24 hours in advance. International code signals used to call Pilot, or give three long blasts. Sound signal used day and night. Pilot boards within one mile of the breakwater. Pilotage compulsory.

ANCHORAGE: N. W. of the harbour in depths from 10 to 12 fathoms, at about $2\frac{1}{4}$ cables off breakwater but vessels should leave this anchorage with strong winds from E. or W. The bottom off the N. W. side of Muelle de Poniente is mostly rocky. The existence of submarine cables is marked by a hemispherical buoy painted in white, moored at about $3\frac{1}{4}$ cables bearing 74° from the red light at the head of Muelle de Levante. No light is exhibited. For this reason, anchorage is prohibited to the North of a line extending from the root of Muelle de Levante bearing 298° to position of the buoy already mentioned.

MAX. SIZE: Length, 220 metres. Maximum draft, 33 ft. 6 in.

HEALTH: Pratique obtained immediately after berthing when vessel boarded by health officials.

RADIO: Tangier, or Cadiz Radio.

TUGS: Usually two available of 1,200 h.p. Tugs use ship's lines.

BERTHING: West Mole five berths for vessels up to 33 ft. 6 in. draft. East Mole: two berths for vessels up to 31 ft. draft. Dato wharf, 2 berths, up to 20 ft. draft.

STEVEDORES: Accurate advance notice of ETA necessary to order gangs required. Gangs are ordered at 0730, and 1630 hours. For Sundays and holidays, gangs ordered before 1730 previous day. Average cargo handling rates: General cargo, 7 tons pre gang/hour; bagged cargo, 10 tons per gang/hour; drums, 13 tons per gang/hour. Overtime from 2000 hours, Sundays and holidays, 40% surcharge.

MEDICAL: Advance notice by radio preferred. Hospital facilities available.

DENSITY: About 3·64%.

FRESH WATER: Available, but may be some restriction in summer months.

FUEL: All grades available, to be ordered in advance.

GANGWAY/DECK WATCHMEN: Available but not essential.

OPENING/CLOSING HATCHES: Performed by stevedores.

CUSTOMS ALLOWANCES: Maximum 3 kilos tobacco for each crew member. Normal daily consumption of wine and spirits allowed.

IDENTIFICATION CARDS: Not required.

CONSULS:

Great Britain,	Tel. 512522	Denmark,	Tel. 512254
France	,, 512521	Italy	,, 511053
Belgium	,, 512521	Panama	,, 513431
Sweden	,, 511801	Portugal	,, 512990
Norway	,, 511700	Netherlands,	,, 511408

REPAIRS: Only minor repairs can be effected. Slipways for vessels up to 500 tons.

REPATRIATION: All facilities available.

AIRPORT: Nearest international airports at Tangier, 100 km. away, and at Malaga, 137 km. away.
TIME: GMT plus one hour permanent.
HOLIDAYS: New Year's Day, 6th January, 19th March, Holy Thursday (afternoon), Good Friday, 1st May, Ascension Day, Corpus Christi, 29th June, 18th July, 25th July, 5th August, 15th August, 12th October, 1st November, 8th December, Christmas Day. All holidays may be worked by voluntary labour.
POLICE/FIRE/AMBULANCE: Police, tel. 513324; Fire, tel. 513333; Ambulance, tel. 514509.
TELEPHONES: No arrangements for placing telephones on board.
AUTHORITY: Harbour Master, tel. 512900.

AGENT: Ybarrola, Depositos de Aceite Combustible, S.A. Avenida de Espana, 11. PO Box 46, Ceuta. Tel. 511800. Cables, Ybarrola Ceuta.

EL JADIDA (Mazagan): 33.15 N. 08.31 W.

DOCUMENTS: As for "Casablanca".
PILOTAGE: Arranged by Agent, basis vessels ETA given in advance. Pilot boards about 2 miles from the port entrance.
ANCHORAGE: About half a mile from head of North jetty in depths of 13 to 14 metres. Hard rock bottom covered in sand. Holding ground is fair only.
RESTRICTIONS: The port comprises an entrance channel 50 metres wide and an outer harbour area 7 hectares, partially dredged to 3 metres depth to make a waiting basin. In the Southern part of the outer harbour is a quay, called the barge quay. 120 metres long, dredged to 6 metres depth.
MAX. SIZE: No limitations for vessels anchoring. For entering harbour, maximum length 96 metres, draft 5 metres, entering at high water.
RADIO: No local radio station. Use Casa Radio for messages to Agent.
TUGS: Available. Normally join vessel 2 miles from port entrance.
MEDICAL: Hospital facilities available. Vaccinations can be arranged.
FRESH WATER: Available at the quay.
FUEL: Can be supplied subject to 24 hours notice.
WATCHMEN: Recommended to employ watchmen, cost 15.00 dirhams per day.
OPENING/CLOSING HATCHES: Work performed by ship's crew.
CONSUL: France. Tel. 21.41.
REPATRIATION: Can be arranged via Casablanca.
REPAIRS: Small repairs can be done on board, or parts sent to Casablanca. One small dry dock reserved for port authority vessels and fishing boats.
AIRPORT: Situated 1 km. from the port. Used only for tourist flights.
TIME: GMT, no alterations during the year.
HOLIDAYS: Sundays and holidays, except for National holidays, can be worked on payment of overtime.
POLICE/AMBULANCE/FIRE: Police, tel. 19; Ambulance, tel. 15; Fire, tel. 15.
TELEPHONES: Cannot be connected to vessel, but telephone situated on the quay.
AUTHORITY: Ingenieur des Travaux Publics, Avenue Fquih M'Hamed Errafi. Tel. 23–11.

KENITRA: 34.17 N. 06.30 W.

Situated on the left bank of the Oued Sebou, 17 km. from the Atlantic.
PILOTAGE: Pilotage is compulsory for entering and leaving port. Vessels must wait outside the port entrance for the tide. It is possible to enter from two hours before until one hour after high water during the night, and from three hours before until two hours after high water during the day. The Pilot boards vessels at river mouth.
RESTRICTIONS: From the mouth of the river up to the port is a dredged channel. Depths are 4·20 m. during neap tides and 5·40 m. during spring tides. Height of tide during neap tide is 2·60 metres. Height of tide during spring tide is 3·80 metres. The constant is 1·60 metres.

During the winter it is recommended to stay outside the port in strong squalls. Ships are advised by Kenitra port radio of the possibilities for entering port. The Pilot will be on station two hours before high water.

Between November and April there is a total of 6 or 7 individual days when the port is closed to navigation, due to weather conditions.
RADIO: Messages to ship's Agent should be sent through Casablanca radio. In the ETA message to Agent, also advise vessels draft. There is a radio station at Kenitra for port use only. Watch-keeping hours are only during high water, on 2182 kHz.
TUGS: One tug of 500 h.p., one tug of 414 h.p., one tug of 225 h.p., 2 tugs of 180 h.p., and 3 launches, available to assist berthing.
BERTHING: The outer port used only by trawlers, and a mooring quay of 360 m. length belonging to the Royal Moroccan Navy. The length of main quay is 870 metres and includes 10 berths. In addition to the above there is a jetty for wine vessels, and a jetty for oil tankers.
FRESH WATER: Supplied alongside the quays.
FUEL: There are supplies of diesel oil, gas oil and petrol in the port. These products supplied by tanker lorry along the quay.
REPAIRS: There are workshops for small running repairs in the port. There is a slipway for ships up to 400 tons.
CONSULS: The Consular representatives at Kenitra are those of Belgium, Denmark, France, Portugal, Sweden and Switzerland.
AIRPORT: The nearest commercial airport is that of Rabat-Sale and there is a small airfield at Kenitra.
AUTHORITY: Directeur du Port, Boite Postale 23, Kenitra. Tel. 20–58; 20–59 and 31–31.

MELILLA: 35.18 N. 02.57 W.

DOCUMENTS:
Health Declaration.
4 Cargo Manifests.
2 Stores Lists.
5 Crew Lists.
5 Passenger Lists.
PILOTAGE: Compulsory for vessels over 500 tons. ETA to Agent required at least 10 hours before arrival to arrange Pilot. Pilot boards at anchorage near port entrance. International code signals used.
ANCHORAGE: Half a mile East of port entrance, in depths of 14 to 20 metres.
RESTRICTIONS: Entrance normally in day-light only. In case of emergency vessel may enter at night.
MAX. SIZE: Up to 32 ft. draft.
HEALTH: Pratique obtained immediately after berthing when vessel boarded by health officials.
TUGS: None available.
MEDICAL: Doctors and hospital facilities available. Vaccinations can be arranged.
TANKERS: One oil berth for tankers up to 32 ft. draft.
FRESH WATER: Available at all quays.
FUEL: Available subject to advance notice.
GANGWAY/DECK WATCHMEN: Available. Consignee Agents have their own watchmen for goods on the quay.
OPENING/CLOSING HATCHES: This work is carried out by stevedores.
CUSTOMS ALLOWANCES: Crew allowed normal daily consumption of tobacco, wine and spirits.
IDENTIFICATION CARDS: Required.
CONSULS: France, Israel, and Italy are represented locally.
REPAIRS: All types of engine and hull repairs can be effected for smaller vessels.
DRY DOCKS: One dock for vessels up to 2,000 tons.
REPATRIATION: All facilities available.
AIRPORT: Situated 1 km. from the city. Two daily flights to Malaga, except Sundays.
TIME: GMT plus one hour, permanently.
HOLIDAYS: 1st January, 6th January, 19th March, Maundy Thursday, Good Friday, 1st May, Ascension Day, Corpus Christi, 29th June, 17th July, 18th July, 25th July, 15th August, 12th October, 1st November, 8th December, Christmas Day. Work may be arranged on all holidays except Good Friday.
POLICE/FIRE/AMBULANCE: Police, tel. 1741 or 1744; Fire, tel. 1693; Ambulance, tel. 1441.
TELEPHONES: It is possible to arrange for a telephone to be placed on board.
SHORE LEAVE: Allowed.
AUTHORITY: Ingenier Director del Puerto, Calle General Garcia Valino, 2. Tel. 2396.

MOHAMMEDIA: 33.45 N. 07.22 W.

DOCUMENTS:
Bill of Health.
3 Crew Lists.
3 Passenger Lists.
Manifests and Ship's Papers for Agent.
PILOTAGE: Compulsory for vessels entering or leaving the harbour or shifting berth. Pilot available for vessels arriving during night and wishing enter the basin when conditions are possible.
ANCHORAGE: Three good anchorages in depths of 11 to 6½ fathoms about a mile N.E. of the entrance, and N.W. and S.E. of the pipe-line area.
RESTRICTIONS: Ships with a draft above 15 ft. are obliged to wait for tide.
MAX. SIZE: (*a*) For the basin: maximum permissible length is 150 metres and 25 ft. draft. (*b*) For the sea-line installation outside the port: tankers of 45,000 dwt.
HEALTH: Port sanitary control officer boards immediately after arrival for pratique delivery. In the event of any suspected disease or fever on board, it is necessary to advise by radio to Agent 24 hours before arrival. Pratique is automatic after calling at another port of Morocco.
RADIO: Casablanca radio station.
TUGS: There are no tugs but three pilot boats of 150 h.p. will assist vessels if necessary, or tugs can be ordered from Casablanca.
BERTHING: Vessels up to 150 metres in length and drawing up to 7·6 m. (25 ft.) can enter the harbour.

Quay No. 1 has a length of 70 metres with a depth of 8·50 m. (28 ft. alongside).

Quay No. 2 has a length of 170 metres with a depth of 5·50 m. (18 ft. alongside).

Quay No. 6 has a length of 60 metres with a depth of 6·00 m. (19 ft. 8 in. alongside).

STEVEDORES: The loading and discharging capacity of general cargo or timber is 400 tons per day. Gangs are arranged by the stevedore according to the cargo plan given by the consignee to the harbour authorities.
MEDICAL: There is the hospital in Mohammedia, and other hospitals and clinics in Casablanca (16 miles away).
TANKERS: Berth at the sea-line terminal, or at harbour quay no. 1. At the sea-line berth the diameter of discharge lines is 14 in. It is necessary to fit reducing pieces before arrival. It is impossible to discharge slops. For the sea-line berth the maximum draft is 50 ft.
DENSITY: 1025.
FRESH WATER: Water can be supplied at any time alongside the quays at the rate of 15 tons/hour.
FUEL: Fuel and diesel oil can be supplied alongside the quays by tanker truck.
FIRE PRECAUTIONS: All tankers are confined by gates and watched over by special firemen.
PORT DEVELOPMENTS: New sea-lines for tankers of 100,000 dwt. expected in April 1971.
GANGWAY/DECK WATCHMEN: Services of watchmen are recommended and their cost is 10.00 dirhams ($2) by day and 15.00 dirhams ($3) by night.
OPENING/CLOSING HATCHES: This work is normally carried out by crew. When carried out by stevedores the cost is 28.00 dirhams by day and 56.00 dirhams by night.
IDENTIFICATION CARDS: Passport required and police permit for leaving the harbour.
CONSULS: There is no consul in Mohammedia. All are in Casablanca.
AIRPORT: The nearest airport is in Casablanca, about 18 miles away, and served by regular airlines.
TIME: Local time, GMT, and usually no alterations are made to clocks during the year.
HOLIDAYS: 1st January, 1st May, 3rd March, 18th November, and any other religious holidays which are not at regular dates. Only on two days (1st January and 1st May) no cargo work can be arranged.
POLICE/AMBULANCE/FIRE: Police, 21.51; Ambulance/Fire, 15.
SHORE LEAVE: Allowed.
AUTHORITY: RAPC, Port de Mohammedia, Maroc. Tel. 23.32 at Mohammedia.

SAFI: 32.19 N. 09.12 W.

DOCUMENTS: Clearance procedure is very simple. 3 Crew Lists, 3 Passenger Lists and 1 Stores List only are required. Other documents are presented on berthing.
PILOTAGE: Arranged by vessel's Agent, to whom a correct ETA should be given. There is no radio contact with the pilot station nor Harbour Master's office, except through Safi Radio Station. The pilot boat is located inside the harbour and the Pilot boards in the anchorage. Pilot ladder only is required.
ANCHORAGE: Safe holding ground in anchorage for 25,000 dwt. vessels; vessels should keep clear of port entrance.
RESTRICTIONS: There is no night entry, except in emergency.
MAX. SIZE: Vessels with a draft of more than 26 ft. enter and sail at high water.
HEALTH: Health Officer boards shortly after berthing but Agent must be advised before arrival if suspected disease or fever on board. Health clearance in one Moroccan port holds good for the next.
RADIO: Casablanca Radio for normal traffic or Safi Radio for local R/T traffic.
TUGS: Tugs stand by vessel inside breakwater and, usually, ship's lines are used.
BERTHING: Vessels berth in order of arrival.
STEVEDORES: Gangs are arranged by vessel's Agent. Night work is possible from 18.00 to 22.00 hrs. and, very exceptionally, until 24.00 hrs.
MEDICAL: Advanced notice of required medical attendance is advisable but not essential. Modern hospital and clinic are available. Smallpox vaccination only is necessary except when vessels have called at cholera and yellow fever ports.
TANKERS: Only small tankers use this port. White products and gas oil imported; no export. Ammoniac tanker berth maximum draft high water 30 ft.
DENSITY: Density varies between 1.024 and 1.026.
FRESH WATER: Availability not limited, by hoses from quay; cost 3s. 4d. per ton.
FUEL: Limited supplies gas oil; diesel available but must be stemmed. Fuel oil and large quantities diesel, gas oil can be delivered by tanking lorry from Casablanca; extra cost about £4 per ton.
DEVELOPMENTS: New port under construction; date of completion not known.
GANGWAY/DECK WATCHMEN: Watchmen necessary. One watchman day and night costs about £4.
OPENING/CLOSING HATCHES: Normally done by crew but can be arranged by stevedores with advanced notice.
CUSTOMS ALLOWANCES: No limit to the amount held out of bond. Bond is not sealed but heavy fines imposed by Customs for smuggling and trafficking.
IDENTIFICATION CARDS: These are needed.
CONSULS:

Denmark,	Tel. 30.39	Portugal,	Tel. 23.58
Finland	,, 31.40	San Salvador,	,, 28.76
France,	,, 27.97	Sweden,	,, 29.06

REPAIRS: Major repairs not possible; small workshops only for repairing fishing boats.
REPATRIATION: Repatriation by air or sea through Casablanca, 150 miles away.
AIRPORT: Nearest at Casablanca, served by principal European airlines.
TIME: Local time is GMT.
HOLIDAYS: On the following holidays no work is possible: 1st January (New Year's Day); 3rd March (Coronation Day); 1st May (Labour Day); 18th November (Independence Day). Other Moslem and Christian holidays are subject to last minute decisions as far as tariff is concerned, but work can be arranged.
TELEPHONES: No telephones can be placed on board. Public telephone available on the quay during working hours only.
GENERAL: Masters are strongly advised to take local currency from their Agent. Landing of foreign currency encourages black market transactions and incurs confiscation and heavy fines as well as delays by the Customs authorities.
SHORE LEAVE: Police permits are required by Liberty men and are delivered by Immigration Authorities.
AUTHORITY: Capitainerie du Port, Safi. Tel. 21–50, ext. 31. No Telex.

TANGIER: 35.47 N. 05.48 W.

DOCUMENTS: Required on arrival:
Health Declaration.
2 Crew Lists.
7 Cargo Manifests.
5 Lists of Passengers Disembarking.
4 Lists of Passengers in Transit.
Required on departure:
5 Cargo Manifests.
5 Manifests of Passengers Embarking.
PILOTAGE: Pilotage is compulsory for ships of more than 50 GRT for entering, leaving and shifting in harbour. Vessels arriving during the night must anchor outside the port, and are boarded by the Pilot after 0600 hours the following morning.
ANCHORAGE: There are good anchorages to the East and South-east of the breakwater head in depths of 10–16 m.
RESTRICTIONS: The harbour area between the breakwater and the extremity of the main pier has a depth of 9 m. minimum. Maximum height of tide is 2·40 m., minimum height is 0·10 m. West to South-west winds from October to May. North-east to Easterly winds from May to October, often very strong (the Levante).
TUGS: The port owns three tugs, 500, 375 and 250 h.p. respectively. Two of these tugs are equipped with fire-fighting equipment.
BERTHING: The port is protected by a breakwater 1,300 m. long on which is a tanker terminal dredged to 9 m. depth, 290 m. of quay dredged to 9 m., 160 m. of quay dredged to 8·50 m. and 100 m. of quay dredged to 5 m. These last two berths, which are reserved for the Gibraltar and Algeciras ferries, are equipped with special ramps for disembarking vehicles.

In the South of the dock enclosed by the breakwater is a pier at which are two berths, one of 330 m. length dredged to 9 m. over 130 m. length and with 6 m. depth over 200 m. length. The other berth is dredged to 4 m. depth over 100 m. length and to 3·50 m. depth over 100 m. length.

In the Western part of the harbour there is a jetty of 100 m. length with berths on both sides each having depths of 6·50 m. This jetty is used by passenger ferries and is equipped to serve vessels discharging vehicles at the stern.

The port also includes a small jetty called the Yacht Jetty with depths varying from 2 m. at its foot to 3·50 m. at the jetty head. The small harbour inside the jetty includes the quays of the fishing port, the Yacht Club and barge berths.
FRESH WATER: Replenishment of fresh water can be made at all times alongside the quays at a rate of 30 tons per hour. There are also two water barges each of 50 tons capacity.
FUEL: There are no refuelling installations at the quays. Only very small quantities can be supplied by tanker lorries belonging to the oil companies.
STEVEDORES: Normal working hours are from 0800–1200 and from 1400–1800 hours. Ships may be loaded and discharged outside these hours on payment of overtime. Usual loading and discharging rates are as follows: 15–18 tons per hour goods in sacks; 12–15 tons per hour for bales; 10 tons per hour for general cargo; 7–8 tons per hour for cork.
REPAIRS: There are no facilities for repairs in the port.
AUTHORITY: Société du Port de Tanger.
AGENT: Lasry Maroc (Tangier), 4, rue de la Mediterrannée, Tangier. Telex: 33064. Tel.: 335–75 – 325–76. Cables: "Jolasry".

Mozambique

BEIRA: 19.46 S. 34.50 E.

DOCUMENTS:
Customs Clearance from last port and Port Clearance if last port was Portuguese.
Health Certificate.
6 Crew Lists.
6 Lists Passengers in Transit.
7 Lists Passengers Disembarking.
2 Stores Lists.

2 Lists Deck Stores.
2 Lists Cargo in Transit (main items of cargo only).
6 copies of Manifest of Beira Cargo.

PILOTAGE: Is compulsory for all ships other than naval vessels and Portuguese coasters. Ship's name, ETA and draft should be radioed via Beira Radio, call sign CRS, 24 hours in advance to Port Captain Beira and owner's Agent.

The pilot boat – black hull, grey upperworks, black funnel with white "P" – is stationed 19° 52′ 47″ S., 34° 57′ 21″ E. Pilot boat call sign CRL H – W/T: listens on 500 kc/s., replies on 480 kc/s. – R/T: listens on 2,182 kc/s., replies on 2,341 kc/s. – VHF: frequency 156·6 Mc/s. (Channel 12).

Unless instructed to the contrary by the pilot boat, vessels with a draft under 25 ft. anchor by "P" buoy, 19° 52′ 47·3″ S., 34° 57′ 21·1″ E., and vessels with draft over 25 ft. anchor between "P" and "A" buoys, 19° 56′ 20·1″ S., 35° 02′ 44″ E.

In bad weather pilot boat may leave above position and enter port. In such cases vessels should anchor as indicated above, weather permitting.

ANCHORAGES: At bar, "P" and "A" buoys as indicated above. There is anchorage for 4–6 ships, depending on size, in inner harbour off Cabedelo sand-pit.

RESTRICTIONS: Ships with draft 18 ft. and under can enter at any time. Ships with draft over 18 ft. generally enter two hours either side of high water.

MAX. SIZE: Maximum permissible length about 800 ft. Maximum permissible drafts between 35–37 ft. at springs, about 30 ft. at neap tides.

HEALTH: Vessel to radio "Sanidade Maritima", Beira, their ETA and "All Well" (or otherwise) even when coming from another Portuguese port. If "All Well", Health Certificate given by Pilot.

RADIO: Vessels to route messages through Beira Radio – call sign CRS. Agents radio ships through same station. Naval Radio Station – call sign CRX 3 – available for distress signals.

TUGS: Join incoming vessels at inner anchorage, about 1 mile distant from quays. Ship's lines used.

BERTHING: No night berthing done unless with prior consent of Chief Pilot, otherwise no specific requirements.

STEVEDORES: Ordered by Agent. Vessels should advise Agent their ETA at least 12 hours in advance (weekdays), 24 hours in advance (week-ends).

MEDICAL: No advance notice required for medical attention, unless urgent assistance necessary. Hospital facilities available. Crew members and passengers should be in possession of valid smallpox and yellow fever certificates (cholera certificate too if from cholera area) on international forms. Vaccination/fever inoculations and certificates may be obtained ashore if required.

TANKERS: Discharge lines white and black oils, 2×10-in. lines feeding into 12 and 14-in. lines leading to storage tanks. Also a 22-in. discharge line for crude oil. No slop discharge facilities. Two tanker berths, maximum permitted drafts about 32 ft.

DENSITY: In harbour area allow 3 to 4 in.

FRESH WATER: Available at all berths, Esc.8.00 per ton, pumping rate about 50 tons per hour. Also available from water barge, Esc.32.00 per ton.

FUEL: Fuel oil 1,000′ viscosity, marine diesel 43·1′, diesel 34·1′. 3–4 days advance notice required. Bunkers delivered when alongside, no bunkering barge available.

GANGWAY/DECK WATCHMEN: Recommended to employ watchmen to prevent pilferage, but not compulsory.

OPENING/CLOSING HATCHES: Can be done by either crew or stevedores. Often done by crew.

SHIP CERTIFICATES: Tonnage Certificate to be produced to Pilot, as certain port dues are based on vessel's registered tonnage.

CARGO GEAR: All gear supplied by stevedores except rope slings, rain tents, and spreaders for heavy lifts.

IDENTIFICATION CARDS: Required. Passport if possible, otherwise Seamen's Book.

CONSULS: British (Tel. 22032), Belgium (23284), France (24074), Greece (23898), Holland (23174), Italy (22197), Malawi (24312), Norway and Denmark (22091), Panama (271519), Rhodesia (24227), Swiss (23137), South Africa (271251).

REPAIRS: Most types of deck and engine repairs are possible, but major repair jobs are not undertaken.

DRY DOCKS: One dry dock 115×17×8·5 metres, suitable for ships up to 5,000 tons.

REPATRIATION: Facilities exist for nationals of those countries maintaining diplomatic relations with Portugal. A valid passport is necessary as immigration authorities do not recognise a Seamen's Book as being a valid travel document.

AIRPORT: Beira Airport situated 7 miles from sea port. Regular flights to all destinations.

TIME: Local time 2 hours ahead of GMT. No alterations made to clocks during year.

HOLIDAYS: New Year's Day (1st January); National Day of Portugal (10th June); Corpus Christi (variable date); Assumption (15th August); Beira City Holiday (20th August); Republic Day (5th October); All Saints' Day (1st November); Restoration of Republic (1st December); Immaculate Conception (8th December); Christmas Day (25th December). No cargo work on 1st January and 25th December; on other holidays work continues normally in the port.

POLICE/AMBULANCE/FIRE: Port Police (Tel. 22920); Ambulance (22442); Fire (22222).

TELEPHONES: Can be placed on board at cost of Esc.20.00 per day. These telephones must only be used for local calls, not trunk calls.

GENERAL: Beira port works 24 hours per day, 7 days a week (except 1st January and 25th December) and overtime working is compulsory.

SERVICES: Services available for tank cleaning, compass adjusting, minor repairs to radar and radio.

SHORE LEAVE: Crew members are allowed ashore, excepting nationals of those countries not maintaining diplomatic relations with Portugal.

DELAYS: Generally nil delays, but sometimes 24–48 hours delay following rain or bunching of arrivals.

AGENT: Allen, Wack & Shepherd, Limited, PO Boxes 270, 280 and 290, Beira, Mozambique. Tel. 22091 (5 lines). Cables "Thaine" or "Allenwack". Telex: No telex in Beira.

Activities: Steamship Agents, Clearing and Forwarding Agents, Travel Agents, Bonded Warehousemen. Insurance Agents.

LOURENCO MARQUES: 25.59 S. 32.36 E.

DOCUMENTS:
6 Crew Lists.
1 Stores List.
6 Passenger Lists.
Last Port Customs and Port Clearance.
1 List of Ports of Call.
1 Health Declaration (given by Pilots on arrival).
1 Entrance Report (given by Pilot on arrival).
1 Customs Entrance (given by Agent on arrival).
1 Railway Statistics Form (given by Agent on arrival).

PILOTAGE: Compulsory. Channels in 24-hour use, but sailing after 2400 only by special arrangement with Immigration. Berthing only during day-light. Pilot station about 26 miles from Lourenco Marques wharf.

IMMIGRATION CLEARANCE: Inwards: 0600–1800 only inside harbour proper. Outwards: 0600–2400 except in special circumstances.

N.B. Vessels at the pilot station cannot obtain pratique because this includes Immigration clearance and can therefore be considered as not having arrived or not being in all respects ready to load.

ANCHORAGE: Inside harbour: One each for vessels drawing 32, 30 and 26 ft. respectively. Six for vessels between 17 and 19 ft. Vessels delayed in berthing are brought in from pilot station at port's convenience.

RESTRICTIONS: Berthing during day-light only. Unberthing 06.00 hrs. to 24.00 hrs. with exceptions of Matola piers where ships can only unberth during day-light. Vessels loading at Lourenco Marques Main Wharf normally sail two hours before high tide at any hour of the day or night. Vessels which load at Matola Ore Berth may only traverse the Matola Channel in day-light, and according to their draft, must leave Matola Wharf about 2 hours before high tide.

MAX. SIZE:

General Cargo Wharf	Length 750 ft.	Draft 34 ft.–37 ft.*
Matola Oil Pier	,, 750 ft.	,, 32 ft. 6 in.
Matola Ore Appliance	,, 820 ft.	,, 34 ft.–37 ft.*

* Maximum drafts published monthly by Port Authorities. Approximately 34 ft. to 37 ft. depending on tide.

HEALTH: Pratique granted by Pilot unless disease prevalent on board when Masters should telegraph "Saude" Lourenco Marques.

RADIO: Advice of arrival to the Port Captain, Chief Pilot or Port Health should be sent through the station CRX (Naval), operating 24 hours on 500 kc/s., replying on 437 kc/s., also 2000 to 0500 hours GMT on 8356 to 8376 kc/s. (replying 3642 kc/s.) and 0800 to 2000 GMT on 12534 and 12564 kc/s. (replying 1299 kc/s.). All other non-official messages through station CRL, operating 0200–1800 GMT on 6 Mc/s. at even hours, 0400 to 1800 GMT on 4 Mc/s. at even hours plus 30 minutes (answering on 4259 kc/s.). Continues watch 0200–0400 GMT on 4 Mc/s. Radio telephone through CRL on 2132 kc/s. at even hours plus 45 minutes 0600–1700 GMT answering on 4415 kc/s.

BERTHING: Carried out at all times except between 0000–0600 at the Main wharves. At Matola Ore berth vessels must berth only at permissible times according to tides.

Main Wharf: All facilities owned and operated by Caminhos de Ferro de Mocambique (CFM), belonging to the Portuguese Government, except stevedoring.

Dimensions: Wharf is in one uninterrupted line running roughly N.E./S.W., accommodating 10–12 vessels. Length: 2,433 metres.

For loading or discharging bulk grain there are two Buhler machines at a berth with 33 ft. depth of water LWOST. About 120 tons per hour. A recent vessel averaged 2,900 tons per day. For loading bulk sugar, there is a spout installation at the last berth on the wharf 40 ft. LWOST. Theoretical rate 750 tons per hour. Recent example 12,400 tons in 29 hours. For coal there is a fixed mechanical installation with adjustable chute and capstans for warping ships. Depth about 24 ft. LWOST. Maximum height of chute above wharf 6·20 metres minimum 3·80 metres, maximum length of vessel 600 ft. Theoretical rate 800 tons per hour, actual average 300 tons depending on trimming required. Maximum permissible draft 28 ft.

Depths alongside:

Berth A	16 ft.
,, B	24 ft.
,, F	28 ft.
,, J	29 ft.
,, L	28 ft.
Coal Tip	28 ft. now, but will have 40 ft. when completed
Berth Q	28 ft.
,, T	33 ft.
,, U	33 ft.
Wharf extension	40 ft.

TANKERS: Matola Mineral Wharf, 40 ft. LWOST, maximum length of vessel 820 ft. Matola Oil Jetty, 32 ft. 6 in. LWOST, maximum length of vessel 750 ft.
FRESH WATER: Available at all berths, cost per ton ex-wharf: Esc.800. Not available ex-barge.
FUEL: Vessels can be supplied from pipe-lines whilst working at all berths, including the Matola Appliance and Tanker Jetty, but excluding the new wharf extension, where pipes have been laid but the system is not yet ready for delivering bunkers. The rate of delivery varies between 300 to 500 tons per hour depending on the type of vessel taking bunkers. At present, supplies of gas oil and marine diesel oil are not in very plentiful supply, recommended to stem as far in advance as possible.
MEDICAL: No advance notice required for medical attention, unless urgent assistance necessary. Hospital facilities available. Crew members and passengers should be in possession of valid smallpox and yellow fever certificates (cholera certificate too if cholera area) on international forms. Vaccination/fever inoculations and certificates may be obtained ashore if required. Men for sick parade must first go through the port doctor whose hours are week-days 08.00–11.30 and 14.00–17.30; Saturdays 10.00–11.30, but always available on an emergency call.
REPAIRS: No dry dock except for small coasters. Facilities for most normal work, except underwater riveting, cutting and welding, and shaft balancing.
DEVELOPMENTS: An extension of 600 metres on the general cargo wharf is presently under way and it is anticipated that this extension will be completed during 1971. Administration are considering the construction of a deep-sea port on the coast between Inhaca Island and the Natal border. This port will be mainly used by coal and iron-ore carriers and have a capacity of approximately 6 million tons per annum. Should this project materialise, the port will be operational by 1973.
CONSULS:

U.S.A.	6051	Sweden	4757	Rhodesia	742988
U.K.	6011	Switzerland	6658	Brazil	742388
France	742115	Austria	2123	Germany	2400
Norway	3167	Italy	4131	Spain	91031
		South Africa	3152		

IDENTIFICATION CARDS: Crew and passengers are issued with Immigration Boarding Permits and they must be carried at all times. (Such permits to be returned to Immigration Officer prior to sailing.)
WATCHMEN: Strongly recommend employing services of a local watchman, who will also control visitors and labour passes.
OPENING/CLOSING HATCHES: Can be done by either crew or stevedores. Often done by crew.
CERTIFICATES: Tonnage Certificate to be produced to Pilot, as certain port dues are based on vessel's registered tonnage.
REPATRIATION: Facilities exist for nationals of those countries maintaining diplomatic relations with Portugal. A valid passport is necessary as immigration authorities do not recognise a Seaman's Book as being a valid travel document.
AIRPORT: About 5 miles from centre of town.
CUSTOMS ALLOWANCES: Bonded stores are usually not sealed.
HOLIDAYS: New Year's Day (1st January); National Day of Portugal (10th June); Corpus Christi (variable date); Assumption (15th August); Republic Day (5th October); All Saints' Day (1st November); Restoration of Republic (1st December); Immaculate Conception (8th December); Christmas Day (25th December). No cargo work on 1st January and 25th December, on other holidays, work continues normally in the port.
TIME: Local time 2 hours ahead of GMT. No alterations made to clocks during the year.
SHORE LEAVE: Crew members are allowed ashore, excepting nationals of those countries not maintaining diplomatic relations with Portugal.
TELEPHONES: A telephone will be placed on board the vessel.
GENERAL: Crew and passengers not to take photographs in the dock area. Permission through Agent required to lower any boats or gear overside into the water or on to the wharf.

Do not immobilize main engines or carry out engine trials at the wharf until permission has been obtained by the Agent as the Authorities require vessels to maintain sufficient steam for main engines to be used at 2 hours notice.

Customs guards to be supplied with meals and accommodation whilst at inner anchorage and alongside the LM wharf otherwise Esc. 50.00 per guard will have to be paid by Agent on Owner's behalf.
AUTHORITY: Capitania do Porto de Lourenco Marques.

AGENTS: Rennies' Consolidated (LM) Lda., Avenida 18 de Mayo 36, POB 351 or 292. Tel. 3021. Cables: "Reniform Lourenco Marques".

MOZAMBIQUE: 14.58 S. 40.42 E.

DOCUMENTS:
Customs Clearance from last port.
Port Clearance if last port was Portuguese.
Health Certificate.
6 Crew Lists.
6 Lists Passengers in Transit.
7 Lists Passengers Disembarking.
2 Stores Lists.
2 Lists Deck Stores.
2 Lists Cargo in Transit (main items of cargo only).
6 copies of Manifest of Mozambique Cargo.

PILOTAGE: One Pilot, available 24 hours. Pilot boat is black and grey, with two flags on the mast (Portuguese flag and a blue flag with a white "P") and, at night, with conventional lights. Ships take Pilot near buoy No. 2 (red buoy) placed off Goa Island. At night, ships should send Morse signals with Aldis lamp, to the middle of Mozambique Island (location of Port Office). ETA should be given with 48 hours advance to pilot station of Mozambique Island and/or to ship's Agent.
ANCHORAGES: When waiting for Pilot or in reason of their draft (more than 30 ft.), ships may drop anchor off red buoy No. 2 (half a mile seawards). Depths between 60 and 90 ft. Bottom with sand and some broken coral; current from North to South, sometimes up to 4 knots.
MAX. SIZE: Only ships with drafts less than 30 ft. can cross the bar and enter the port.
HEALTH: Quarantine flag should be flown, even after calling other ports in this country. Health Certificate given by Pilot.
RADIO: Radio Mozambique, call CRQ.
TUGS: Tugs are not necessary in this port.
BERTHING: No quay berths. Vessels work cargo at anchor.
STEVEDORES: All requirements on this purpose must be sent to the Agent, with the greatest advance possible.
MEDICAL: Medical assistance at any time, even outside the bar (when entrance is impossible on account of draft). Hospital – reasonable facilities.
FRESH WATER: Can be supplied, but lighter with 40 tons rain water can be supplied at 48 hours notice, except in very dry season (September to January).
FUEL: No supply.
OPENING/CLOSING HATCHES: By stevedores.
CARGO GEAR: Vessels anchor in bay and load and discharge by lighters and barges.
IDENTIFICATION CARDS: Required.
CONSULS: Finland and Norway represented locally.
REPAIRS: Only light repairs can be effected.
REPATRIATION: Can be arranged.
AIRPORT: At Mozambique. Three connections per week to Beira and Lourenco Marques.
TIME: Two hours ahead of GMT. No changes during the year.
HOLIDAYS: 1st January, 2nd March, 10th June, 15th August, 1st November, 1st December, 25th December. Cargo handling can be arranged on these days.
POLICE/AMBULANCE/FIRE: Maritime Police, Customs and Agent will always be on board during stay.
TELEPHONES: No telephones, but walkie-talkies are available, with Agent.
GENERAL: Mozambique is not a suitable port of call for landing sick or injured seamen. Recommended preferable call at Nacala.
AUTHORITY: Capitania dl Porto de Mocambique. Tel. 24. Telex: Capitaniamar Moçambique.

AGENT: Companhia Comercial Joao Ferreira dos Santos SARL, Caixa Postal No. 1, Mozambique. Cables "Jorreirantos".

NACALA: 14.32 S. 40.37 E.

DOCUMENTS:
Customs Clearance from last port.
Port Clearance if last port was Portuguese.
Health Certificate.
6 Crew Lists.
6 Lists Passengers in Transit.
7 Lists Passengers Disembarking.
2 Stores Lists.
2 Lists Deck Stores.
2 Lists Cargo in Transit (main items of cargo only).
6 copies of Manifest of Beira Cargo.

PILOTAGE: Permanent and compulsory for entering harbour. Pilot boat situated at harbour entrance.
ANCHORAGE: Fine natural harbour. Entrance half a mile wide, depths up to 60 metres. Good anchorage for any size vessel. Sand and mud bottom.
MAX. SIZE: For anchoring, no restrictions. For berthing, up to 31 ft. draft.
RADIO: Radio Naval Nacala operates from 0600 to 1800 on 2182 kHz.
HEALTH: Vessels to radio "Senidade Maritima", their ETA and "All Well" (or otherwise) even when coming from another Portuguese port. If "All Well", Health Certificate given by Pilot.
TUGS: None available and not required.
BERTHING: There is a pier with berths for three vessels. Two berths have depth of 10 metres alongside. One berth with 7·5 metres depth.
STEVEDORES: Working hours 0700 to 1100 and 1300 to 1700. Two local stevedoring firms.
FRESH WATER: Available from hydrants on the quay.
FUEL: Available from connections on the quay.
MEDICAL: No advance notice required for medical attention, unless urgent assistance necessary. Hospital facilities available. Crew members and passengers should be in possession of valid smallpox and yellow-fever certificates (cholera certificate too if from cholera area) on international forms. Vaccination/fever inoculations and certificates may be obtained ashore if required.
GANGWAY/DECK WATCHMEN: Recommended to employ watchmen to prevent pilferage, but not compulsory.
OPENING/CLOSING HATCHES: Can be done by either crew or stevedores. Often done by crew.

CERTIFICATES: Tonnage Certificate to be produced to Pilot, as certain port dues are based on vessel's registered tonnage.
REPATRIATION: Facilities exist for nationals of those countries maintaining diplomatic relations with Portugal. A valid passport is necessary as immigration authorities do not recognise a Seaman's Book as being a valid travel document.
TIME: Local time 2 hours ahead of GMT. No alterations made to clocks during year.
SHORE LEAVE: Crew members are allowed ashore, excepting nationals of those countries not maintaining diplomatic relations with Portugal.
HOLIDAYS: New Year's Day (1st January); National Day of Portugal (10th June); Corpus Christi (variable date); Assumption (15th August); Beira City Holiday (20th August); Republic Day (5th October); All Saints' Day (1st November); Restoration of Republic (1st December); Immaculate Conception (8th December); Christmas Day (25th December). No cargo work on 1st January and 25th December; on other holidays work continues normally in the port.
AUTHORITY: Capitão do Porto de Nacala.

AGENT: See Mozambique.

PORTO AMELIA: 13.00 S. 40.28 E.

DOCUMENTS:
6 Crew Lists.
6 Lists of Passengers Disembarking.
6 Lists of Passengers in Transit.
1 Master's Declaration.
1 Stores and Provisions List.
1 Health Declaration.
5 Sets Cargo Manifests.
2 Sets non-negotiable Bills of Lading.
Clearance Documents from last port.
PILOTAGE: It is necessary to order by radio request to Agent 14 hours before arrival.
ANCHORAGE: Vessels may anchor South of the dock about 300 metres off. Other suitable anchorages will be indicated by the Pilot.
RESTRICTIONS: Vessels may enter with Pilot at any hour day or night.
MAX. SIZE: Draft up to 27 ft. 6 in. for berthing.
HEALTH: In case of contagious disease on board, the port Health Authorities must be advised in advance.
RADIO: Send messages through Beira Radio.
TUGS: None available.
BERTHING: One berth, length 182 metres, depth alongside 28 ft.
STEVEDORES: In ETA message to Agent, indicate number of gangs required and advise quantity and description of cargo for discharge.
MEDICAL: In case of urgency advise Agent by radio before arrival. Hospital facilities available. Vaccinations can be performed.
FRESH WATER: Not available.
FUEL: Not available.
GANGWAY/DECK WATCHMEN: Not necessary as there is a permanent guard on board.
OPENING/CLOSING HATCHES: Performed by stevedores.
CUSTOMS ALLOWANCES: Bond is not sealed and no restrictions made.
IDENTIFICATION CARDS: Required by police.
CONSULS: Only Germany is represented locally.
REPAIRS: No facilities available.
REPATRIATION: Can be arranged.
AIRPORT: Situated 7 km. away. Flights to Beira 5 times a week.
TIME: GMT plus 2 hours. No alterations during the year.
HOLIDAYS: No work performed from 1700 Christmas Eve until 0600 on 26th December; no work performed from 1700 New Year's Eve until 0600 on 2nd January. Work may be arranged on the following holidays: 10th June, 13th June, 15th August, 5th October, 1st November, 1st December, 8th December.
POLICE/FIRE/AMBULANCE: Police, tel. 39; Hospital, tel. 54.
SHORE LEAVE: Allowed. Except for nationals of countries not maintaining diplomatic relations with Portugal.
AUTHORITY: Capitania do Porto de Porto Amelia.

AGENT: See Mozambique.

Nauru Island

NAURU: 08.26 S. 166.56 E.

DOCUMENTS:
International Declaration of Health, 1 copy.
Clearance from last port.
Crew Lists, 2 copies.
Passenger Lists, if any, 2 copies.
Manifest, 1 copy.
PILOTAGE: Pilotage is available on request without charge; Masters are advised to avail themselves of this service. It is necessary that Masters, through Radio Nauru, inform telegraphic address Nauruphos Nauru of ETA 48 hours before arrival, confirming or altering this 12 hours before arrival. Nauruphos will reply through Radio Nauru on receipt of second message giving time for the vessel to close in to half mile West of loading plants, where pilot will board. In case of adverse weather or congestion, Masters will be notified by radio, or by VHF channel 16, 156·8 Mc/s with range of about 40 miles. Vessels are handled inwards in daylight only, and should fly flag when approaching island. A safe and clean pilot ladder should be provided, a good lee made for the pilot to embark.
ANCHORAGES: No anchorages are available owing to the extreme depths of water. Vessels waiting normally drift off and return at daybreak or when instructed to do so.
ENTRY RESTRICTIONS: Tide and draft have no bearing on entry but it is normal not to handle vessels into berth in darkness. However, vessels are unmoored at all hours.
MAX. SIZE: Vessels have been handled up to an overall length of 630 ft. Beam should not exceed 90 ft., but there are no draft limitations.
HEALTH: Masters of vessels approaching Nauru are required to send a telegram addressed to the Quarantine Officer, Nauru within 24 hours of arrival. The telegram should state the name of last port, date, presence of any infectious disease. On receipt of telegram, the quarantine officer will send reply indicating whether or not pratique is granted. It is still necessary to fill out the International Declaration of Health and hand this to Boarding Officer after berthing.
RADIO: Nauru Radio station, call sign C2N. Should, through atmospheric conditions, difficulty be found in raising Nauru, it is suggested that the message be passed through Sydney or any other convenient coastal station.
TUGS: No tugs required for berthing.
BERTHING: Such special requirements which relate to berthing in the port are contained in a Letter of Advice to Ship Masters issued by the BPC.
STEVEDORES: As stevedoring is carried out by Nauruphos, no separate advice is required. Loading rate of bulk phosphate is as high as 3,000 tons per hour.
RADAR: No radar at Nauru.
MEDICAL: Medical treatment can be given on short notice. Limited hospital facilities are available, and emergency surgery can be carried out. Smallpox vaccination is required, and cholera if the vessel has come from an infected area.
TANKERS: Lengths and drafts as for bulk phosphate vessels. Eight inch discharge line to shore storage tanks.
DENSITY: Normal salt water all states of tide.
FRESH WATER: Island water is imported, and water will be supplied only in cases of emergency.
FUEL: Island stocks are imported for use in the phosphate industry, and only limited quantities of heavy fuel or diesel oil can be made available in cases of extreme urgency.
WATCHMEN: Not required.
OPENING/CLOSING HATCHES: Carried out by crew.
SHIP CERTIFICATES: Deratisation certificate only.
CUSTOMS ALLOWANCE: No restrictions apply.
CARGO GEAR: Cargo gear should be up to the standard demanded in Australian ports.
CREW IDENTIFICATION CARDS: Some form of identification, passport, discharge book, or identity card should be carried by crew members.
CONSULS: An Australian Representative is resident on the Island.
REPAIRS: The phosphate industry requires good workshop facilities of various kinds for maintenance of their own heavy plant and such workshops are kept busy at all times. Small repairs such as welding, brazing, lathe work, etc., can be carried out, but only when essential to allow the vessel to proceed on its voyage. Main engines cannot be immobilised whilst the vessel is moored to any section of the buoy system.
REPATRIATION: Repatriation can be arranged. No facilities for crew changes.
AIRPORT: Two weekly services operated by:
1) Fiji Airways to Nauru via the Gilbert and Ellice Islands Group to Fiji.
2) Air Nauru to and from Australia.
Air Micronesia operates a fortnightly service from the Marshall Islands to Nauru.
TIME: Local time is GMT plus 11½ hours. No alterations during the year.
HOLIDAYS: Christmas Day, New Year's Day, and Good Friday are normally closed holidays. Other National holidays occur during the year but normally work carries on, on these days.
POLICE/AMBULANCE/FIRE: All emergencies are handled by the Harbour Masters, one of whom remains aboard the vessel throughout the time the vessel is attached to the mooring system.
TELEPHONES: Telephones are put aboard for the use of island staff working the vessel.
GENERAL: Shore labour normally boards the vessel with the pilot to assist in mooring to the buoy system.
SERVICES: No special services available.
SHORE LEAVE: This may be granted at the discretion of the Master but should in all cases terminate at 5 p.m.
PORT REGULATIONS: No vessel may immobilise main engines whilst moored to the buoy system. Main engines should be on instant readiness, deck power should be available at all times, and the vessel must proceed to sea when instructed to do so by the Harbour Master.
DELAYS: Normally no delays should be expected. Vessels could wait a day, or possibly two due to port congestion, but this seldom happens; delays can occur due to adverse weather, the duration of which is unpredictable.
PORT AUTHORITY: The Harbour Master, appointed by The Nauru Phosphate Corporation, Nauru. Telegraphic address Nauruphos Nauru.

Netherlands

AMSTERDAM: 52.22 N. 4.54 E.

DOCUMENTS:
Health Certificate. Forms obtainable from sea pilot.
Crew List in triplicate.
2 copies of Crew Manifest for cigarettes, cigars, spirits, etc., belonging to crew.
Passenger List in triplicate.
1 copy of Manifest.
1 copy of Bills of Lading.
Dangerous Cargo List.
Ship's Register.

PILOTAGE: Pilot boat cruises at sea in vicinity of Ijmuiden Harbour near light whistle buoy. Strongly recommended to contact Harbour Master's office at Ijmuiden at least 2 hours before arrival by VHF Channel 11 to obtain information for safe navigation and rapid locking.

ANCHORAGE: Anchoring in Ijmuiden outer harbour, North Sea Canal and in harbour of Amsterdam is prohibited.

RESTRICTIONS: Entry possible at night. Official maximum draft is 43 ft. (salt water). By permission of Government Harbour Master at Ijmuiden it is possible to enter with maximum draft 45 ft. (s.w.). Such permission to be applied for at least 14 days prior to arrival.

MAX. SIZE: Vessels proceeding to Amsterdam have to pass locks at Ijmuiden, Dimensions of Northern lock (biggest): 1,312 ft. long, 164 ft. wide 49 ft. 2 in. deep.

RADIO: Cable Agents giving ETA draft, cash and other requirements via Scheveningen Radio/PCH.

TUGS: Sea-going tugs available between piers at Ijmuiden assisting vessels, into locks or outer harbour. Harbour tugs available in locks assisting vessels to Amsterdam. The rates include use of tug hawser.

BERTHING: Possible at night. If no berth available vessels may be moored on buoys.

BRIDGES: Vessels proceeding to Oil Harbour, Coen Harbour, Vlot Harbour and installations in Eastern part of port pass railway bridge over North Sea Canal at Zaadam. Notices indicating distance from bridge have been placed at 500 metres at either side and notices to stop at 150 metres at West side and 225 metres at East side. When bridge closed Masters must stop their ships and must on no account proceed unless signal is given that passage is allowed. Bridge is opened regularly in accordance with time-table of Netherlands Railway.

STEVEDORES: In order to enable agents to order gangs in time it is recommended to keep agents duly informed about ETA. No ETA to stevedores necessary.

RADAR/VHF: Harbour radar is installed at Ijmuiden. In bad visibility radar assistance will be given for incoming ships day and night. A radio portophone is provided by Pilot. Direct communication between incoming and outgoing ships and commanding post of locks is possible by means of VHF radio telephone, Channel 11. Government patrol boats are also equipped with VHF installations. The Radio-Radar Station (Redeplot) can also be contacted via VHF Channel 12 before approaching Ijmuiden.

MEDICAL: If immediate medical assistance will be required in the locks of Ijmuiden, Agents must receive advance notice.

TANKERS: Diameter of pipelines:

Mobil Refinery	8 in. and 12 in.
In the Oil Harbour (Amatex)	4 in „ 12 in.
Comos Tank	8 in. „ 14 in.

Slop discharge facilities either by barge or into shore tanks of tankers cleaning installations.

Tanker berths:

Mobil Refinery	1, Maximum draft 44 ft. 6 in.
Amatex	5, Maximum draft 41 ft.
Cosmos Tank	1, Maximum draft 42 ft.
Smid & Hollander	1, Maximum draft 36 ft. 2 in.

DENSITY: Amsterdam is not a tidal port. The water is brackish to fresh.

FRESH WATER: Drinking and boiler water can be supplied by barge, or if connection available, from shore. Price depends on quantity ordered.

FUEL: All grades of fuel are available. Advance notice 48 hours.

FIRE PRECAUTIONS: No repair work to be carried out to tankers without permission of Harbour Authorities. Usual non-smoking precautions, etc.

GANGWAY/DECK WATCHMEN: Not required. Dependent on commodity of cargo.

OPENING/CLOSING HATCHES: Liner vessels by crew or by stevedores, payable per man per hour. Tramp vessels as per Charter Party.

CERTIFICATES:
Ship's Register.
Usual Cargo Certificate.
Safety Radio.
Safety Equipment Certificate.
Crew Roll.
All usual certificates required for navigation.

CUSTOMS ALLOWANCES: Tobacco: 200 cigarettes per man or equivalent of tobacco or cigars. Wine and or Spirits: 5 litre of wine per man. Spirits: total 5 litre for the whole ship.

CARGO GEAR: Usual cargo gear certificate.

IDENTIFICATION CARDS: Not needed.

CONSULS: Nearly all countries have established consulates at Amsterdam.

REPAIRS: All types of deck and engine repairs are possible including gas-freeing and tank-cleaning.

REPAIRS: All types of deck engine repairs are possible including gas-freeing and tank-cleaning.

DRY DOCKS: 13 dry docks. Dimensions largest dry dock: length 817 ft., breadth 120 ft., depth on sill 28 ft.

REPATRIATION: Facilities for repatriation of crew to any destination are available.

AIRPORT: Distance to Schiphol Airport (served by regular airlines) 15 km.

TIME: GMT plus 1 hour. No alterations during the year.

HOLIDAYS: New Year's Day (qanuary 1st); Easter Monday; Queen's Birthday (April 30th); Ascension Day (May 15th); Whitmonday; Christmas Day (December 25th); Boxing Day (December 26th).

Cargoes can be worked during those days subject to labour being available at premium rates.

POLICE/AMBULANCE/FIRE: Police 222222; Ambulance 55555; Fire 66666.

TELEPHONES: Telephone connections on board are only possible on certain quays (passenger ships). It is possible to rent portable mobilophones.

SERVICES: 2 Tank cleaning installations, compass adjusting/direction finder calibration, representatives of all leading radio installations, radar and other nautical instruments available.

SHORE LEAVE: Crew members allowed ashore.

DELAYS: Usually no congestion.

AGENT: Wm. H. Muller & Co. (Amsterdam) n.v. Telegraphic address: Mineral Tel. 220115. Telex 12047, Liner, Stevedoring and forwarding departments 12058, Tramp Agency Department.

After office hours: Tramp Agency & Chartering Dept.

R. Spaan	Muiderberg (02942)	1396
R. de Groot	Amsterdam	949536
F. J. Bongenaar	Amsterdam	196292

DELFZIJL: 53.20 N. 6.54 E.

DOCUMENTS: See "Rotterdam".

PILOTAGE: Pilot boats normally cruise at Wester-Ems buoy. During bad weather they withdraw into estuary, but never further than Borkum Roads. Pilot boats listen on channel 16 VHF; distance from pilot station to Delfzijl 32 miles. Pilot service compulsory for all vessels drawing over 22 dm.

ANCHORAGE: Anchoring in harbour area prohibited. On roads, ships up to 4,000 dwt. anchor near buoy B.W. 14. Larger vessels should anchor in Doekegat.

RESTRICTIONS: Harbour accessible for ships with drafts up to 28 ft. 6 in. (At MHW in channel ships of this draft maintain a keel clearance of about 1 ft. under normal circumstances). These deep-loaded vessels should enter at H.W. only. Persisting easterly gales, may result in less water. No official restrictions regarding length and breadth of vessel.

TUGS: 3 tugs of 800 h.p. and 2 tugs of 175 h.p. available. Tugs use ship's lines.

RADIO: Cable to agents via Radio Scheveningen. PCH.

BRIDGES: Bridge to the 1st Inner Harbour may always be worked. Bridge to the Industrial Inner Harbour (Oosterhornkanaal) will be handled from Monday to Saturday. On Sunday bridge may be opened on special request.

DENSITY: Ranging between 1.007 and 1.020, depending on the tide.

FRESH WATER: Available along new quay in unlimited quantities. Cost Hfl. 1,50 for first 3 tons, thereafter Hfl. 0,60 per ton.

FUEL: Fuels in limited quantities for coasters are always available. For bunkering of larger vessels, arrangements should be made in advance.

DEVELOPMENTS: Present harbour entrance will be closed in the next few years. Outer harbour will be extended in an Easterly direction and a new entrance will be built opposite the village of Oterdum. New entrance will have bottom width of 200 metres. About 10 km. to the North of present port a new harbour will be constructed in the years 1969–75. It is expected that this harbour, which probably will be named "Eemshaven" will be operational in 1972. This harbour will be able to receive ships up to 250 metres length and 36 ft. draft.

GANGWAY/DECK WATCHMEN: According to police regulations, Master has to keep watchmen on board.

OPENING/CLOSING HATCHES: Normally carried out by ship's crew.

CONSULS:

Denmark	tel. 05961–3333	Belgium	tel. 050–35441
Finland	„ 05961–6800	Germany	„ 050–26741
Sweden	„ 05961–3333	Spain	„ 050–37879
France	„ 05961–3778	Norway	„ 050–24941

REPAIRS: Most engine and deck repairs can be carried out by two local shipyards.

DRY DOCKS: Dry-docking is limited to ships up to 3.000 dwt. with a draft not exceeding 32 dm. For larger vessels, dry-docking facilities exist in the nearby port of Emden (Germany).

CERTIFICATES: The tonnage certificate should be shown to Harbour Master. on first call every year.

HEALTH, MEDICAL ATTENDANCE, HOLIDAYS, LOCAL TIME, CUSTOMS ALLOWANCES: see Rotterdam.

AGENTS: Maritima Shipping and Trading Company Ltd., Markstraat 1, P.O. Box 7, Delfzijl. Tel. 3741. After office hours: 3711, 3743, 3742. Telegrams Maritima. Telex 53153.

DORDRECHT: 51.49 N. 4.40 E.

DOCUMENTS: See "Rotterdam".
PILOTAGE: Vessels have to enter New Waterway at Hook of Holland and proceed to Dordrecht via this New Waterway and the River Oude Maas. Masters of vessels bound for Dordrecht should state destination in ETA message as Pilots for Dordrecht embark from pilot cutter at roads. Deep-draughted vessels may have to exchange Pilots just inside breakwaters at Hook of Holland. (See Rotterdam "Ordering a Pilot").
ANCHORAGE: At sea off Hook of Holland (see Rotterdam). No anchorage between entrance to New Waterway and Dordrecht.
RADIO/RADAR/VHF: No radar service on river Oude Maas or Dordrecht.
RESTRICTIONS: Max. draft: 29 ft. 6 in. length: approx. 200 metres (656 ft.) breadth: 40 metres (131 ft.). For tankers minimum visibility 500 metres (1640 ft.). For dangerous cargoes, see Rotterdam.
TUGS: Tugboats ordered by Pilot when entering New Waterway. Tugs normally meet vessels at Dordrecht.
BRIDGES: Bridges across the River Oude Maas are opened day and night. Sea traffic has preference above shore traffic.
TANKERS: Oil installation of Messrs. Gebr. Broere N.V. has 7 tanker berths. There are other tanker berths for small tankers. No slop (residue) storage facilities.
REPAIRS: Yards of various capacities available for all types of repairs.
FRESH WATER: At oil installations fresh water can be supplied from shore. For supply by waterboat cost is Dfl. 2.50 per ton plus overtime at night, on Saturdays and Sundays.
CONSULS:

Other consulates at Rotterdam at 20 km. distance.
POLICE/AMBULANCE/FIRE: Tel. Police 30333; Ambulance 32555; Fire 33333.
AIRPORT: Rotterdam and Amsterdam airports at a distance of 30 and 90 km. respectively served by regular airlines.
PILOT CUTTERS, HEALTH, MEDICAL ATTENDANCE, BUNKERS, CUSTOMS ALLOWANCES, HOLIDAYS: see Rotterdam.
TIME: GMT plus one hour.
AGENTS: Wm. H. Muller & Co. Scheepvaartagenturen (Rotterdam) N.V. Westerlaan 1, Tel. 010–36.43.00. Rotterdam. Telegr. Mineral. Telex. 21245, 46, 48, 32124. Shipbrokers, Liner Agents.

FLUSHING: 51.27 N. 03.35 E.

DOCUMENTS:
2 Crew Lists.
2 Passenger Lists.
1 Store List.
1 Personal Effect List.
Ship's Register.
1 Manifest or Bill of Lading.
PILOTAGE: Entering by Northern entrance (Oostgat) in vicinity of MSB light buoy T (51° 39′ N. and 03° 20′ E.) Dutch pilot vessel has black hull and funnel, flying a blue flag with the letter L in white.
Entering by Southern entrance (Wielingen) from English channel past light vessels Sandettie Banks and Westhinder a Belgian pilot cutter is stationed in vicinity of Buoy A1 (51° 22′ N. and 02° 53′ E.). This motor pilot vessel has black hull with white number on bow, yellow funnel with black top, flies red flag with letter P in white.
ETA not compulsory but advisable. Contact both cutters via VHF Channel 6. Pilotage compulsory in River Scheldt, tariff according to draft. During bad weather both pilot boats shift to Flushing roads.
ANCHORAGE: Flushing roads at not less than ¾ of mile from Northern Coast. Depths vary quickly from 33 to 85 ft.
MAX. SIZE: Depth 31 ft. LWOST; length and breadth no restrictions. Maximum draft 44 ft. berth high tide and commence discharge immediately.
HEALTH: No certificates required. In event of any disease or fever contact agents.
RADIO: Cable agents giving ETA, draft and cash required via Scheveningen Radio.
TUGS: Join vessels in Flushing roads. Vessel's lines usually used. No extra for tug lines. For contract holders 10% reduction.
BERTHING: Westside, quay of 1,150 ft., and Eastside, Pamoil bunker station with two berths of 385 ft. each. Depths both sides 31 ft. LWOST. Quay height above sea level 2 metres at high tide and 7 metres at low tide. In Northern part of outer harbour a landing stage with length of 360 ft. Depth at low tide 20 ft.
A double lock and sluice give access from the outer harbour to Inner Docks and Canal through Walcheren. Largest lock 455 ft. long, 72 ft. wide. depth on sill LWOST of 17½ ft. The other one is 213 ft. long, 26 ft. wide, 10 ft. deep. Sluice 115 ft. wide, 28 ft. deep. Constant depth of water at quays 20 to 24 ft.
STEVEDORES: Ordered by agents; no ETA to stevedores necessary.
RADAR/VHF: Port radar service none. River service under consideration. Flushing Radio Channel 14. Every 5 min. each hour this station transmits information regarding visibility, water-level, hindrances, anchorages, etc. Harbour tugs Channel 6.
MEDICAL: Two hospitals available.
TANKERS: Vessels carrying over 4,400 gallons of combustible liquids with a flash point up to 21 degr. Centigrade or over 22,000 gallons up to 55°. Centigrade require Harbour Master's permission. Four discharging berths (two alongside the quay and two of Pamoil). Discharge lines three of 8 in. with capacity of about 2,000 tons per hour.
DENSITY: About 1024.
FRESH WATER: Alongside quays or by waterboat. Costs ex quay f 2,25 and by barge f 2,50 per ton. In the roads (weather permitting) by barge f 3,75 per ton.
FUEL: All marine fuels and grades ex installation available. If necessary also by barge. Advisable 24 hours notice.
DEVELOPMENTS: Flushing-East. Quay with a length of 300 metres ready end 1970. Depth alongside about 33 ft.
GANGWAY/DECK WATCHMEN: Available but not compulsory or necessary.
OPENING/CLOSING HATCHES: On liners by crew or stevedores, ship's option.
CERTIFICATES: On arrival, ship's register only.
CUSTOMS ALLOWANCES: 200 cigarettes for each member of crew and total on board out of bond 5 litres spirits and 100 litres wine.
CARGO GEAR: No additional requirements. Normally work with mobile shore cranes.
IDENTIFICATION CARDS: Not required.
CONSULS:

Belgium	tel. 5151	Norway	tel. 2272
Denmark	,, 4520	Portugal	,, 2272
France	,, 2373	Sweden	,, 2353
Germany	,, 4655 (Middleburg)		

REPAIRS: All repairs possible.
DRY DOCKS: Largest 705 ft. 5 in., width 98 ft. 4 in. and 4 smaller docks.
REPATRIATION: All facilities available for crew changes; good railway connections.
AIRPORT: Rotterdam (Zestienhoven) 125 km.; Brussels (Melsbroek) 150 km.; Amsterdam (Schiphol) 180 km.
TIME: GMT plus one hour.
HOLIDAYS: New Year's Day (January 1st); Easter Monday; Queen's Birthday (April 30); Ascension Day (May 15th); Whit Monday; Christmas Day (December 25th); Boxing Day (December 26th).
Work can be arranged on above days, however dependent upon permission of the Docker's Inspection.
POLICE/AMBULANCE/FIRE: Police 3333; Ambulance and Fire 2323.
TELEPHONES: Not possible to place telephones on board except for vessels berthing at the shipyard "De Schelde".
SERVICES: Compass Adjuster; Radio/radar services also calibration of the Direction Finder, Seamen's Home (Mission to Seamen); Lloyd's Sub-agents; Ship's Laundries.
SHORE LEAVE: After clearing inwards, crew members are allowed to go ashore without special permission.
AGENT: Wm. H. Muller & Co. Shipping Agencies (Rotterdam) N.V., Flushing. PO Box 81. Tel. 2171 (day and night). Telex 55068. Cables "Mineral".

IJMUIDEN: 52.28 N. 4.34 E.

DOCUMENTS:
2 Personal Effects Lists.
2 Stores Lists.
3 Crew Lists.
3 Passenger Lists.
Declaration of Health.
PILOTAGE: Compulsory. Pilot boat stationed off entrance to Ijmuiden. Contact by VHF and R/T with Pilots and Port Operations. In adverse weather vessels may receive radar assistance from Port Operations for entering harbour.
ANCHORAGE: Vessels may anchor off Ijmuiden outside the breakwaters.
MAX. SIZE: For North Sea Canal, entrance lock 1312 ft. long, 164 ft. wide, 47·7 ft. depth. Density: 1016.
Ijmuiden Outer Harbour: vessels up to 100,000 dwt. Max. draft 43 ft. or up to 45 ft. with prior permission.
HEALTH: Pratique granted automatically on arrival after completion of Maritime Declaration of Health. In case of suspected disease on board notify Agent by radio before arrival advising full details.
TUGS: Available. Meet vessel in harbour entrance if required.
BERTHING: Coal and ore cargoes discharged to Blast Furnace and Steel Works Co. in Outer Harbour: Berth I: 690 ft. length, 34 ft. depth. Berth II: 738 ft. length, 47 ft. 6 in. depth.
STEVEDORES: Work in shifts around the clock. Work normally stops 22.00 Saturday until 06.00 Monday unless arrangements made for overtime.
FRESH WATER: Available from quay.
FUEL: Available by barge.
MEDICAL: Doctors, hospital and all services available.
CUSTOMS ALLOWANCES: 200 cigarettes for each crew member; 5 litres spirits for whole ship.
CONSULS, REPAIRS: and all general information; refer to "Amsterdam".
AGENT: See "Amsterdam".

ROTTERDAM: 51.55 N. 4.24 E.

DOCUMENTS: Maritime Declaration of Health, obtainable from River Pilot. Crew list in duplicate on special Dutch forms, obtainable from agents. Ship's Register. Store list. Crew custom declaration showing quantity cigars, cigarettes, tobacco, spirits, wine, radios, cameras etc. and souvenirs for each crew member.

DEEP SEA PILOTAGE: See Dover/Brixham.

PILOTAGE: River pilotage compulsory from sea to harbour area and vice versa, except vessels in ballast drawing less than 7 ft, 3 in.

Harbour pilotage compulsory from fairway to berth in harbour area and vice versa, except for vessels under 475 GRT.

Pilot Cutters: Cruising continuously, day and night, off entrance to New Rotterdam Waterway, one North of line North Mole/Maasbuoy and one near Maasbuoy. Characteristic signals:

1. By day pilot flag, being a blue flag with white letter "L", displayed from main top mast.
2. At night, lights as prescribed by Regulations for Preventing Collisions at Sea.
3. During bad visibility the fog signal prescribed by rule 15 of these Regulations.

Ordering a Pilot:

1. Vessels bound for New Rotterdam Waterway should cable, at least four hours in advance, ETA pilot station and draft to:
   (*a*) Pilotage Hook of Holland via Coastal Station Scheveningen Radio (PCH) or
   (*b*) Coastal Station Maassluis Radio (Radio Dirkzwager) by VHF Channel 12 (Port operations) or
   (*c*) Coastal Pilot Maas at Hook of Holland by VHF Channel 20 and 18.
2. Vessels bound for Port of Dordrecht should also state their destination, as pilots for Dordrecht embark from pilot cutter on roads.
3. Vessels bound for Europoort or Botlek should also adopt following procedure:
   (*a*) Vessels equipped with VHF should notify via Channel 12 or 14 their ETA pilot station at least 1 hour in advance to Maassluis Radio Dirkzwager.
   (*b*) Vessels not equipped with VHF should cable same information to Europoort Rotterdam via Scheveningen Radio (PCH).

On arrival at pilot station vessels requiring Pilot are to display following signals, separately or together:

1. *By day*, International code signals G or PT. Pilot flag, viz., vessel's National Flag with white border from foremast.
2. *By night*, Morse signal G or PT by flashlight. Blue lights at intervals of 15 minutes. A bright white light shown just above bulwark for one minute at short intervals.
3. *During bad visibility*, At least 3 seconds after the normal fogsignal the international code signal G. Pilot vessel will answer: the normal fog signals, followed after at least 3 seconds by international code signal H (I have pilot on board).

Pilotage by Helicopter.

Helicopter pilotage for tankers drawing up to 62′ is regularly carried out now. However, also smaller vessels can benefit by such services which are rendered day and night.

Condition is that vessels have an obstacle free hoisting area on deck of min. 15 feet in diameter.

ANCHORAGES: Recommended anchorage with a depth of 62 ft. between the following positions:

52° 01′ N. 3° 55′ E.
52° 03′ N. 3° 55′ E.
52° 01′ N. 4° 00′ E.
52° 03′ N. 4° 00′ E.

RESTRICTIONS:

Draft: Restrictions depend on the draft allowed in various basins:

Name of Basin	*Max. draft at low water*	*Tide bound drawing over*
(*South Bank*)		
1st Petroleum dock Pernis	40′ FW	35′ FW
2nd Petroleum dock ,,	40′ FW	35′ FW
3rd Petroleum dock Botlek	40′ SW	36′ SW
4th Petroleum dock Europoort	62′ SW	45′ SW
5th Petroleum dock ,,	62′ SW	45′ SW
6th Petroleum dock ,,	62′ SW	45′ SW
7th Petroleum dock ,,	62′ SW	45′ SW

Lekhaven	30′ 10″ FW	
Merwehaven	33′ FW	
Wilhelminahaven	19′ FW	
Wilton Fijenoordhaven	28′ FW	
Vulcaanhaven – Vlaardingen	33′ FW 39′ FW (high water)	33′ FW

Fog

(*a*) Dry-cargo vessels – No restrictions view shore radar assistance.
(*b*) Tankers – Minimum visibility 500 metres (1640 ft.).

Dangerous Cargoes

(*a*) Explosive cargoes in quantities of over 1000 kilos.
(*b*) Gas in bulk.
(*c*) Poisonous liquids.
(*d*) Inflammable liquids with a flashpoint of less than 56°C. and of which the gas may form an explosive mixture with air.

Masters of vessels carrying dangerous cargoes have to report 4 hours before arrival at pilot station to "Pilot Hook of Holland" via Scheveningen radio or to "Maassluis Radio Dirkzwager" on VHF Channel 12 (Port operations) stating draft, ETA and the code word "Imco".

BERTHING: Entry times, which depend on prevailing circumstances, are as follows:

Europoort:

(*a*) Up to 38/39 ft. any time, except between 4 hours and 1 hour before high water, when flood current is too strong.
(*b*) Up to 44/45 ft. at slack low water 4 hours before high water at Hook of Holland, or at slack high water, 1½ hours after high water at Hook of Holland.
(*c*) 45 ft. in consultation with Pilot.
(*d*) Over 45 ft. always at slack high water, 1½ to 2 hours after high water at Hook of Holland.

Botlek

(*a*) Between 31 ft. and 37 ft. SW any time, except between 4 hours and 1 hour before high water at Rotterdam.
(*b*) 38 ft. and 39 ft. may sometimes enter between low and high water.
(*c*) Over 38 ft. or 39 ft. SW only at slack high water.

Pernis:

(1st and 2nd Petroleum dock).

Waalhaven:

Same as Botlek, but vessels with a draft of 39 ft. FW, which are over 800 ft. in length, must first discharge part cargo in Botlek, from where after draft has been reduced to 37 ft. FW, they can be shifted to Waalhaven.

Other Basins: Any time.

HEALTH: Master has to fill in and sign Maritime Declaration of Health which is handed to him by Pilot. Vessels subject to medical inspection have to hoist flag signal TM (at night two white lights horizontally placed).

RADIO: Recommended radio station: Scheveningen Radio, call sign PCH, via which station also Agents send messages to vessels.

RADAR/VHF: Chain of seven shore-based radar stations permits navigation during all weather conditions. Radio and radar station Pilot Maas, at Hook of Holland, communicates via Channel 20 of Hague Band or VHF Channel 20.

VHF range = about 15 miles.
Radar range = about 14 miles in S.W. to W. direction, and 10 miles in N. direction.

Captains are requested to call this station, especially during bad visibility, well in advance of arrival at pilot station. Pilot Maas provides vessels within range with nautical information and acts as a link with pilot cutters.

Radio and radar station, known as "Rijkshavendienst Waterway", located East of temporary entrance to Europoort now operates a 24-hour service. It acts as communication post for safety of shipping outside entrance to New Waterway and on Waterway. The station can be contacted by inward bound vessels, but must be contacted by vessels before departure from Europoort by VHF Channel 14, call-sign "RDH Waterway". Station also gives nautical information on situation on New Waterway every half hour via VHF Channel 14 in English.

MEDICAL: All medical facilities available. Advance notice only in emergency or if attendance required during week-end.

TUGBOATS: Tugs normally join vessel on river when nearing the basin where vessel will be accommodated. Vessel's towing lines used. On departure from Europoort the two-ropes, fastened to the stern, must be supplied by the tugs.

BRIDGES: New Waterway connects port of Rotterdam with North Sea, without any locks or bridges. Only to reach some shipyards, situated East of Rotterdam, vessels have to pass the "Maas-Bridges" (Koningshaven), which are on working days opened at regular times.

TANKERS: Hose connections:

Europoort	Beneluxhaven	Shell 16 in.
		Shell 12 in. or 16 in., depending on terminal
	4th Petr. dock	*Chevron* 12 in.
	5th Petr. dock	Chevron 16 in.
		Gulf 12 in.
	6th Petr. dock	*B.P.* 16 in. discharging and 12 in. loading
	7th Petr. dock	Mobiloil 16 in. crude oil 12 in. fuel oil
		Europak 16 in.
Botlek	3rd Petr. dock	Esso 10 in.
		Nieuwe Matex 6 in. and 10 in.
		Pakhoed 8 in. and 10 in.
Pernis	1st Petr. dock	Shell and Pakhoed 8 in.
	2nd Petr. dock	Shell, Chevron and N.O.M. 8 in.
		Mobiloil 6 in.

Slop discharge into shore tanks is possible at all terminals, except at following installations, where slop barges have to be ordered in advance:

Botlek 3rd Petr. dock Pakhoed.
Pernis 1st Petr. dock Pahkoed.
2nd Petr. dock N.O.M. and Mobil.

DENSITY: *Europoort* – At high water 1022; at low water 1010.

Botlek – At high water 1014; at low water 1001.

Waalhaven and other basins in the Rotterdam port area: At high water 1004; at low water 1000. All depending upon amount of fresh water carried down river.

STEVEDORES: Normal working hours:

1. *Bulk cargoes except grain:* Monday 06.00 – Saturday 14.00 hours uninterruptedly.

2. *Bulk grain:* Monday–Saturday dayshifts: 07.45–16.30 hours. Monday–Friday night shifts: 17.00–01.45 hours.

3. *General cargo:* Monday–Friday dayshifts 07.30–16.30 hours. Nightshifts: 17.15–02.00 hours.

4. *Oil:* Continuously, including week-ends, except the oil storage companies Pakhoed and Nieuwe Matex, which work from Monday till Friday during daytime only, unless overtime arrangements are made.

Agents should be kept closely advised of vessel's position. In view of ordering gangs for next morning/evening master's final ETA message is required before 14.00 hours. For work on Monday mornings a final ETA is required before Friday 14.00 hours.

OPENING/CLOSING HATCHES: On liners by stevedores. On tramp vessels by crew; stevedores lifting beams.

FRESH WATER: Can be supplied ex quay at many berths. Where no shore connections are available and at buoys: by waterboat.

BUNKERS: All types of oil bunkers can be supplied by means of barges or ex shore installations for tankers. Coasters can take bunkers ex installation during their inward or outward passage. Advance notice is required for vessels which are only 24 hours or less in port and for bunkering during week-ends.

FIRE PRECAUTIONS: No floating objects are allowed alongside tankers during discharge, or loading of dangerous cargoes and during ballasting.

DEVELOPMENTS: Present and future drafts allowed at Europoort: in early 1971 65 ft. SW. Breakwaters of Hook of Holland lengthened by 3 km. Expected to be ready before 1972.

On Maasvlakte a new bulk transhipment installation for ores and coal is planned. Capacity 7 million tons per year with two unloading cranes of 1200 tons per hour each.

The entrance to the New Waterway is being widened to 800 m. (2,625 ft.) allowing two channels, one to Europoort/Maasvlakte and one to other basins.

In Europoort a bulk transhipment installation for iron ore, named "Europoort CV" is planned to be completed end 1970. Capacity 11 million tons per year with two cranes of 50 tons lifting capacity each. Hourly capacity 4,000 tons. Quay-length 800 m.

Two grain installations, one of Grain Elevator Company of Rotterdam and one of Messrs. Bunge Corp. of New York, are planned to be completed by the end of 1970 in Europoort for the handling of grain bulk-carriers of approx. 250,000 tons dw. Expected discharging capacity 100,000 tons per 24 hours.

The Prinses Margriethaven Messrs. Europe Container Terminus dispose of five container cranes. Terminal is extended in order to accommodate 10 large container vessels at a quay length of 3000 metres.

Future plans are to accommodate another 20 container and roll-on/roll-off vessels in contemplated new basin "Rijnpoort" which will be situated between the Hook of Holland and Maassluis, 5 miles from the entrance to the New Waterway.

GANGWAY/DECK WATCHMEN: Recommended. Contract rebate 5%. Overtime Saturday, 07.00/Monday 07.00 and on official holidays: 25%. Holidays and Sundays: 50%.

CERTIFICATES: Ships Register and Deratting Exemption Certificate.

CUSTOMS ALLOWANCES: Tobacco. Permitted out of bond for each crew member: 200 cigarettes or 25 cigars or 500 grams of tobacco. Spirit/Wine. ¾ litre per man with a maximum of 5 litres per vessel. Wine: 5 litres per man.

REPAIRS: Yards of various capacities are available for newbuilding, engineering and all types of repairs.

DRY DOCKS: Largest dry dock for vessels up to 500,000 tons dw. with tank cleaning installation for largest vessels.

REPATRIATION: All arrangements for crew changes and repatriation can be made.

AIRPORT: Rotterdam airport Zestienhoven (distance 6 km.) and Amsterdam airport Schiphol (distance 70 km.) are served by regular airlines.

LOCAL TIME: During the whole year GMT plus one hour.

HOLIDAYS: New Year's Day; Easter Monday; Queen's Birthday (30th April); Ascension Day; Whit Monday; Christmas Day (25th December) no work; Boxing Day (26th December).

POLICE/AMBULANCE FIRE: Police Head office tel. 14.31.44; Alarm and accidents tel. 94; Ambulance tel. 13.50.00; Fire tel. 99.

TELEPHONES: All major shipyards, oil and grain terminals telephone is placed on board without extra charge.

AGENTS: Wm. H. Muller & Co's Scheepvaartagenturen. (Rotterdam) N.V., Westerlaan 1, Rotterdam–2.

Shipbrokers – Liner Agents. Tel. 010–36.43.00. Telegrams: Mineral. Telex 21245, 46, 48–23124. After office hours: 25.18. 06 – 32.29.05 – 17.40.29.

TERNEUZEN: 51.20 N. 3.49 E.

DOCUMENTS: Also see "Rotterdam". Customs clearance takes place in the outer harbour or in the locks, by permission of the lock master. Clearing of ships comprises the production of a document signed by the Master, accompanied by the following documents in triplicate: Cargo and Crew Manifest, and Stores List. Masters are requested to have Crew List completed beforehand to avoid delay in the lock.

PILOTAGE: Compulsory for all vessels entering, leaving, and navigating inland waterways. Sea Pilot meets inward vessels at buoy A1, 51° 22.00′ N. 2° 53.24′ E. for ships entering by Wielingen channel; or at Middensteen Bank buoy, 51° 39.30′ N. 3° 19.00′ E. for ships entering by the Oostgat channel.

In Wielingen channel Belgian and Dutch Pilots available. In Oostgat channel a Dutch pilot cutter is stationed. Belgian pilot boat carries at the masthead a red flag with a white letter P, the Dutch pilot boat has a blue flag with a white letter L. Communicate with pilot cutter by VHF Channel 6.

Warning: In approaches Masters may encounter fishing boats steaming a parallel course about 300 ft. apart. The net is being towed between the two vessels. If there is danger of fouling the net, the fishing vessels will display by day International Code flag D, or by night a searchlight from each vessel.

ANCHORAGE: Vessels anchor outside fairway where depth is at least 49 ft. Mud bottom and good holding ground.

RESTRICTIONS: No restrictions on night entry.

MAX. SIZE: Controlling depth 31 ft. 4 in. Keel clearance 3 ft. 0 in. Height of tide 12 ft. to 15 ft. A vessels of maximum draft 40 ft. 6 in. can reach Terneuzen in most circumstances.

For entering Terneuzen/Ghent Canal maximum limits are 230 m. length, 31 m. beam, and 11.50 m. draft.

HEALTH: Arriving vessels are only subject to medical examination when arriving from countries where contagious diseases reported or when such cases suspected on board. Medical Officer will board in Terneuzen roads or Outer Harbour.

RADIO: Communicate via Flushing radio Channel 14, 156.70 MHz. 24-hour watch kept. From five minutes past every hour to ten minutes past the hour switch to Channel 16 for traffic list and navigation reports.

TUGS: Towage not compulsory. Tugs can be ordered from Terneuzen tugboat company or Towage and Salvage Union Ltd. respectively by Channel 13, 156.65 MHz, and Channel 3, 156.15 MHz. Stations manned continuously for ordering tugs and general information.

MEDICAL: Two modern hospitals available.

FRESH WATER: Available from water barge.

FUEL: Fuel oil and lubricating oil available from lighter or tanker barge. Bunker coal not available.

GANGWAY/DECK WATCHMEN: Available. Tariff increase 100% on Sundays and holidays.

OPENING/CLOSING HATCHES: Can be effected by crew or stevedores.

CUSTOMS ALLOWANCES: See "Rotterdam".

IDENTIFICATION CARDS: Not required.

REPAIRS: Terneuzen Shipbuilding Yard situated at junction of East and West Canal branches. Able carry out hull and engine repairs. Floating cranes and diving equipment available.

DRY DOCKS: Dry-docking only possible for coasters, length 345 ft. width 39 ft. 6 in., draft 11 ft. 6 in.

TIME: GMT plus one hour.

HOLIDAYS: See "Rotterdam".

SERVICES: Repairs of radio radar, etc., can be effected.

SHORE LEAVE: Allowed.

FUTURE DEVELOPMENTS: Plans made to widen and deepen Outer Harbour, also extension to southern Canal Harbour and Zevenaardok Harbour.

AGENT: Wm H. Müller & Co's Shipping Agencies (Rotterdam) N.V. – FLUSHING. P.O. Box 81 – Telephone 2171 – Telex 55068 Cables Mineral.

Netherlands Antilles

BARCADERA, Aruba:

The industrial harbour of Aruba, situated three miles South-east of Oranjestad.

DOCUMENTS: Documents and all general information, refer to "Oranjestad".

PILOTAGE: Compulsory.

RESTRICTIONS: Harbour open day and night. Depth of water in entrance and throughout harbour is 36 ft. Swinging basin width 1,000 ft.

MAX. SIZE: Up to 12,000 GRT.
TUGS: Available.
BERTHING: 1,150 ft. of dockside accommodation.
FRESH WATER: Available at quayside.
FUEL: Can be supplied.
AUTHORITY: See "Oranjestad".

BULLENBAY, Curacao: 12.11 N. 69.01 W.

Bullenbay is an open bay on the South coast of Curaçao, 7 miles West of Willemstad.
DOCUMENTS: Documents and all General information, refer to "Willemstad".
PILOTAGE: There is a resident Pilot at the bay. Pilotage is compulsory and is rendered day and night.
ANCHORAGE: There is no anchorage in the bay.
MAX. SIZE: Length 800 ft., draft 36 ft.
BERTHING: There are three piers at the East side of the bay, naturally protected from prevailing wind and sea, T-shaped with mooring dolphins fore and aft. Vessels moor port-side alongside these piers. Pier No. 1, a wooden superstructure on iron piles has a depth alongside of 38 ft. Pier No. 2 is of concrete construction with a depth alongside of 41 ft. Pier No. 3 is of wooden superstructure on iron piles with a depth alongside of 36 ft. As the slope is steep, vessels held off the piers can load deeper.
FRESH WATER: Fresh water available at the piers.
FUEL: Bunker oil is available and can be taken simultaneous while loading cargo.
GENERAL: Other services, as tugboats, repairs, etc. are rendered from Willemsted.
AUTHORITY: Harbour Master of Curaçao.

CARACASBAY, Curacao: 12.04 N. 68.52 W.

Caracasbay is an open bay on the South coast of Curaçao, 6 miles East of Willemstad. This port, mainly used by tankers, bunker ships and big passenger liners, is specially fitted as an oil terminal.
DOCUMENTS: Documents and all general informations, refer to "Willemstad".
PILOTAGE: There is a resident Pilot at the bay. Pilot service is compulsory and rendered day and night.
ANCHORAGE: There is no anchorage in the bay.
MAX. SIZE: Vessels with a displacement up to 80,000 tons, maximum overall length of 1,050 ft. and maximum draft of 47 ft. can be accommodated.
TUGS: Tugboats operate from Willemstad; they are at hand if desired.
BERTHING: Three piers owned by "Shell Curaçao Ltd." are built at the East side of the bay, naturally protected from prevailing wind and sea, with depths up to 47 ft. alongside. Vessels dock directly with their port-side along the piers. Pier No. 1, with a depth alongside of 33 ft., is a wooden pier construction based on iron piles. Pier No. 2, with a depth alongside of 47 ft., and pier No. 3, with a depth alongside of 47 ft., are newly built concrete piers/quays, modern and equipped for handling oil in bulk, with enough platform to serve also as passenger terminal. The biggest cruise ships moor along these piers regularly.

The oil is transported through pipe-lines from the refinery at Willemstad to the storage tanks at Caracasbay. Three ships can bunker simultaneously. New electrically-driven centrifugal pumps, metering and blending equipment at the bay stand for efficiency to reduce bunkering time. Subject only to the capacity of ships receiving connections, loading rates up to 2,000 tons per hour of bunker oil can readily be achieved.
FUEL: The piers are built as oil piers, modern and equipped to supply any kind of bunker or lubricating oil to any vessel.
FRESH WATER: Fresh water can be obtained via pipe-line on the wharves.
STEVEDORES: Lighters and longshoremen are supplied from Willemstad.
REPAIRS: Small repairs can be done at the bay through working barges alongside.
GENERAL: Clearance, port administration, port charges and regulations are the same as at Willemstad.
AUTHORITY: Harbour Master, Curaçao.

FUIKBAY, Curacao: 12.03 N. 68.50 W.

Fuikbay, on the South coast of Curaçao, 9 miles East of Willemstad, is an inland bay with a 147 ft. wide navigable entrance. The depth of this harbour is 26 ft.
DOCUMENTS: Documents and general information, refer to "Wilemstad".
PILOTAGE: Pilotage is compulsory.
RESTRICTIONS: As a rule vessels only enter this port during daylight. Sailing can take place day and night.
ANCHORAGE: There is an anchorage area in the West side of the bay.
MAX. SIZE: Vessels can enter and leave with a maximum draft of 24 ft. and a maximum length of 360 ft.
BERTHING: This bay is mainly used as a loading terminal of the "Mining Company Curaçao" for export of phosphate rock mined out of the "Tafelberg". There is one berth under the conveyor which transports the phosphate rocks from shore into the holds of the vessel alongside. Depth alongside is 28 ft. There is also a 84 ft. berth available for handling explosives or other cargo, usually named Westwerf. Only small vessels with a maximum draft of 8¼ ft. can come alongside. Vessels with more draft can moor with the help of floats between ship and quay.

The piers are privately owned by "Mining Company Curaçao" situated on private territory of this company.
FUEL: This port has no bunker facilities, so vessels bound for this port must take bunkers in Caracasbay before or after calling at this port if bunkers are desired.
GENERAL: Other services such as tugboats, repairs, power, etc. are rendered from Willemstad.
AUTHORITY: Harbour Master, Curaçao.

KRALENDIJK, Bonaire: 12.15 N. 68.20 W.

DOCUMENTS: Two Passenger, Crew and Provision Lists to be handed on arrival. Ship's clearance to be paid on departure,
PILOTAGE: Pilot service is not available and not mandatory in Bonaire. In case a Pilot is desired, the authorities should be notified in advance so that a qualified Pilot from Curaçao can be called in at the expense of the ship.
ANCHORAGES: Unlimited. Depth 30 ft. and over.
RESTRICTIONS: Notify the Agent at least 24 hours in advance. No tide.
MAX. SIZE: Length 738 ft., draft 32 ft.
INWARD CLEARANCE: Inward clearance is effected on board immediately on docking. Immigration Officer arrives on board immediately after docking. Passengers disembarking at Bonaire must present themselves for document check.

Customs Officer boards immediately after docking and together with a representative of the Agency's Shipping Department the inward clearance document of the vessel (in ballast or with cargo in transit, as the case may be) is prepared and signed. This document must be signed by the Master. Occasionally the Customs Officer may insist that the Master sign in his presence. Only upon completion of the above formalities, usually carried out in a very short time, the vessel is declared free and passengers and crew may go ashore. It is recommended that one of the public rooms be made available for the purpose of inward clearance in order to avoid congestion in the purser's office.
HEALTH: No health formalities.
RADIO STATION: A Government Radio Station operates daily from 7.00 a.m. to 9.30 p.m. In case of emergency Bonaire Radio can be contacted by telephone. Vessels bound for Bonaire should route their messages for Bonaire through Curaçao Radio (PJC). The Government Radio and Telephone Station maintains daily telephonic communication with Curaçao, also with the United States, Europe, etc.
TUGS: None available.
BERTHING: A new concrete pier was recently built and inaugurated at Kralendijk. It has 225 ft. of berthing space, with a depth of 34 ft. alongside at LW. The pier front is provided with wooden fendering.

Vessels of maximum 30,000 GRT or a maximum length of 738 ft. are allowed to berth alongside. Maximum permitted load factor on the pier is 2,000 kilos per m2.

For the mooring and unmooring at the pier shore labourers are engaged by Agents at the expense of the shipping line. Motor-boats are available for running lines.
STEVEDORES: There are no regular stevedores (longshoremen) available in Bonaire. For cargo handling operations ordinary labourers are engaged by the Agent for account and risk of the ship.
MEDICAL: Modern facilities are available for medical and dental treatment. A "Medical Service Request" form must be signed by the Master or other authorised officer for crew members requiring medical or dental treatment. In case of crew members having to be left behind at Bonaire for hospitalisation or otherwise, Master must sign an authorisation guaranteeing expense of treatment and repatriation.
FRESH WATER: Unlimited quantities of fresh water from the Government Water distillation and power plant can be supplied at the pier.
BUNKERS: On advance request, bunkers are delivered by craft at rates comparable to those in Curaçao or Aruba.
DEVELOPMENTS: A new pier will be built. Length about 1,200 ft., depth 35 ft. Bunker facilities are in study.
GANGWAY/DECK WATCHMEN: Watchmen are not necessary but recommended; cost per hour Afl. 2. Overtime as usual.
OPENING/CLOSING HATCHES: This work is normally carried out by crew.
IDENTIFICATION CARDS: Passengers. No landing cards required, but some ships carrying a large number of passengers furnish landing cards to passengers for their own control of passengers returning on board. Crew. No landing cards required.
REPAIRS: There are no facilities for carrying out major repairs.
HOLIDAYS: The following are the official holidays observed in Bonaire: New Year's Day (Jan. 1st); Good Friday; Easter Monday; Queen's Birthday (April 30th); Labour Day (May 1st); Ascension Day; Whit Monday; Kingdom Day (December 15th); Christmas Day (December 25th); Second Christmas Day (December 26th). Religious holidays: August 15th (Assumption Day); November 1st (All Saint's Day).
TIME: 4 hours slow of GMT. No summer time kept.
AIR SERVICES: There is a good daily airplane service between Bonaire and Curaçao. Some days of the week there are two flights a day with good connections at Curaçao with the international services to and from many parts of the world.

CUSTOM OFFICERS ON BOARD: One or two Customs Officers will remain on board during the vessel's stay in port. Such officer(s) must be furnished meals at regular meal hours in the Officers' Mess or in first-class dining-room.
TELEPHONES: Telephone connection can be placed on board ships at the pier. Cost NAfls. 10.
POLICE/AMBULANCE/FIRE: Police, tel. 8250; Ambulance, 8250; Fire, tel. 8222.
AUTHORITY: Harbour Master, appointed by the Island Government of Bonaire.

ORANJESTAD, Aruba: 12.31 N. 70.02 W.

DOCUMENTS:
Clearance from last port.
Deratisation Exemption Certificate.
Ship's Register.
Manifest of Cargo (or ballast), or Bills of Lading for import goods and transit goods separately.
Crew List (four copies).
List of Stores on Board (two copies).
Consignee Mail (if cargo for discharge).
Passenger List (if any passengers).

The passenger list must carry full names, ages, sex, nationality and occupation of passengers landing at Aruba. The ultimate destination of in-transit passengers must also be shown on the passenger list.

Deratisation Exemption Certificates can be renewed at Oranjestad, Barcadera and St. Nicholas.

Outward clearance, cargo documents and list of outgoing passengers are delivered on board by the Agent's representative, thereby making it unnecessary for Masters to visit the Customs Office to obtain outward clearance.
PILOTAGE: Masters are requested to advise Agents of their expected time of arrival at least 48 hours in advance. Arrival messages should include advice regarding cash or other requirements. This information is particularly necessary in order to give prompt attention to vessel's requirements and to avoid delay after arrival.

Pilots are government employees and pilotage is compulsory for vessels from 50 GRT upward entering or leaving the harbour. Pilots board inbound vessels within two miles of shore. The Agent's representative will arrange for Pilots to board vessels as necessary. Inbound vessels should close the West entrance of the harbours as near as prudently possible and make a lee to facilitate the Pilot's boarding.

Every vessel arriving or departing must provide and properly secure a pilot ladder which conforms with the standards of construction normally accepted by international safety standards. Failure to provide such a ladder may result in the Pilot's refusal to board a vessel.
ANCHORAGE: Anchorages, suitable even for deepest draft vessels, are located outside the protecting reef along the whole length of the Western and South-western coast. The depth of water ranges from 10 to 35 fathoms. Because of the sharply shelving nature of the bottom in this area, it is recommended that the services of a Pilot be obtained in taking up an anchorage. Ships are anchored only during daylight hours.
TUGS: A tugboat of 1,000 h.p. is available for assisting vessels to and from the docks. (For tugboat rates see Port Charges.) The tugboat is fitted out with radio-telephone which is open on 2182 Mc. while tug is in operation.
MAX. SIZE: The harbour itself has a depth of 36 ft. at MLW. The safe salt water draft approved for entering and leaving is 33 ft. Vessels normally enter via the West channel and depart via the East channel.
HEALTH: The port doctor will visit an arriving ship only if there is a case of quarantinable disease on board, if the ship has no clean bill of health or if one of the preceding ports of call has been declared to harbour a quarantinable disease. The Netherland Antilles bill of health is free of charge.
BERTHING: In total there are 4,070 ft. of dock length available to accommodate ocean-going vessels and 1,090 ft. of dock for small craft, of which:

1,720 ft. with 36 ft. of water alongside
2,350 „ „ 34 „ „ „ „
460 „ „ 16 „ „ „ „
230 „ „ 10 „ „ „ „
400 „ „ 6 „ „ „ „

STEVEDORES: Stevedoring is performed at a fairly fast rate compared with other ports in the Caribbean area. All cargo has to be handled with ship's tackle, while on the docks and in the warehouses fork-lift trucks are used for transportation of merchandise. General cargo is handled at an average of 8 tons per gang per hour.
MEDICAL: Excellent medical and dental attention is available at any hour of the day or night to crew members of all vessels.
FRESH WATER: Boiler and drinking water of purest quality is supplied by hose from the docks at a rate of 200 tons per hour (in special cases 400 tons per hour) and at a price of f. 1.00 per ton.
FUEL: The port of Oranjestad is an official Esso bunker station. All grades of bunker fuels can be supplied from shore tanks at a rate of 1,500 barrels an hour. A minimum of 48 hours advance notice is required.
REPAIRS: There are no facilities at Aruba for major ship repairs. Local workshops can do repairs of minor nature. Preliminary advice regarding such minor repairs should be included in ETA messages and work requisitions for repairs should be prepared for handling to the Agent's representative immediately upon arrival.

Radar, radio and gyro repairs can be carried out. However, it is important that Masters radio in their requirements as early as possible and give a brief reference as to the nature of the breakdown or fault of the equipment concerned.

While alongside vessels must be prepared to move at one hour's notice. Engine repairs to the effect of demobilizing the vessel may only be carried out with special permission.
BALLAST: Vessels must arrive with sufficient ballast to permit safe handling. All vessels should enter port with clean ballast that can be pumped over board when alongside, as it is prohibited to pump dirty ballast into the harbour.
WATCHMEN: An efficient and continuous watch must be maintained on deck and in the engine-room of all ships while in port, and a sufficient number of men must be on board at all times to move vessels either for harbour operations purposes or in emergency situations.
OPENING/CLOSING HATCHES: This work is normally carried out by the crew.
AIRPORT: The port of Oranjestad – the commercial and tourist harbour of Aruba – is only 5 miles by road from the jet airport. The connection by air with the U.S.A. and Europe are very good and rather frequent (TCA, KLM, VIASA); other airlines operating in Aruba are: ALM, LAV, Aerocondor, and in future also Caribbair.
POLICE/AMBULANCE/FIRE: Police, Oranjestad, tel. 1000; Ambulance, Oranjestad, tel. 2010/1234; Fire Alarm, tel. 00.
CONSULS: The following countries have consular representatives at Aruba:

Brazil
Chile
Colombia
Costa Rica
Cuba
Denmark
Dominican Republic
Great Btitain
Guatemala
Haiti
Honduras
Italy
Lebanon
Liberia
Nicaragua
Norway
Panama
Peru
Portugal
San Salvador
Spain
Sweden
Switzerland
Venezuela
West Germany

TIME: Local time is four hours slow of GMT. Vessels are requested to use local time in ETA messages and when dealing with their Agents.
CUSTOMS GUARDS: Local authorities assign one or more Customs guards to each vessel during its stay in port; the charges for guarding are for the account of the vessel. These officials must be provided with meals on board at regular meal hours.
SHORE LEAVE: Under normal circumstances no restrictions are imposed by the Government Immigration Authorities on shore liberty. Masters are requested to endeavour to have all crew members on board prior to departure time, so that the ship will have no delay in sailing.
AUTHORITY: Eilandgebied Aruba, Dienst voor Economische Ontwikkeling.

ST. NICHOLAS, Aruba: 12.26 N. 69.55 W.

DOCUMENTS/HEALTH and all General Information, refer to "Oranjestad".
PILOTAGE: Pilotage is compulsory. Pilot boards off west Entrance within two miles of the shore. Inbound vessels are expected to approach the entrance as near as prudently possible and make a lee to assist Pilot boarding.
RESTRICTIONS: The port is open for day and night navigation, allowing vessels to enter and leave at any hour. The harbour has a depth of 42 ft., while the East and West channels are 45 ft. deep. The safe salt water draft approved for entering is 39 ft., for leaving – 41ft. Vessels normally enter via the West channel and depart via the East channel.
RADIO: A lookout tower and signal station is remotely controlled by close circuit TV and is operated by Lago. This tower is located immediately above the Marine Office building. The signal station maintains 24-hour service. Radio-telephonic communication is possible on wavelengths of 156.70 and 156.80 MC/VHF (Channels 14 and 16).
TUGS: Two diesel-powered tugs are used for berthing and unberthing.
BERTHING: All port facilities are controlled by Lago Oil and Transport Company. There are eight tanker loading berths, two of which accommodate vessels up to 80,000 DWT. Sea berth for up to 120,000 DWT.

The present capacity of the St. Nicholas harbour is three finger-piers which can accommodate tankers with lengths up to 800 ft. The depths of water alongside is 39 or 41 ft. The gasoline dock with 35 ft. of water alongside will take ships up to 630 ft. long.
FRESH WATER: Fresh water can be supplied ex-wharf.
FUEL: All grades of bunkers available.
REPAIRS: A local workshop can do minor repairs.
PORT FIRE PROTECTION: The port of St. Nicolas is very well equipped with modern equipments for fire-fighting and fire prevention.
BALLAST: Tankers must arrive with clean ballast only. Clean ballast will be discharged overboard after docking. Only slops can be discharged to the disposal facilities ashore.
SPECIAL REGULATIONS: Strict compliance with Harbour

Safety Regulations is mandatory. Stringent regulations prohibit the transportation of alcoholic beverages through Lago refinery and harbour area. No liquor or beer may be taken on board or removed from vessels except only bonded stores ordered by the Master.

SHORE LEAVE: As all ship's personnel when going ashore have to walk over the docks and the company's concession, nobody is allowed to leave the docks without a proper pass. Passes which are valid for the day of issue and the following day only, entitle personnel to proceed from the dock at which their ship is berthed to the main refinery gate and vice versa. Shore passes are not valid for the refinery area.

POLICE/AMBULANCE/FIRE: Police, 5000; Ambulance, 5050; Fire, 00.

AUTHORITY: Lago Oil and Transport Co.

SINT MICHIELSBAY, Curacao:

Sint Michielsbay, on the South coast of Curaçao, 5 miles West of Willemstad, is an open bay, naturally protected from prevailing winds and sea.

ANCHORAGE: In the bay 650 ft. out of the coast in 130 ft. water is laid a mooring buoy, which gives a good anchorage to vessels which, because of dangerous cargo, quarantine or because of a defect cannot enter another port of Curaçao.

REPAIRS: Repairs or handling cargo can be carried out by way of barges. A landing jetty for barges is available.

PILOTAGE: Compulsory.

Vessels are moored with their stern to the buoy and their bow anchors are dropped to hold the foreship from the coast.

Other services as tugboats, lighterage, stevedoring, etc. are rendered from Willemstad.

AUTHORITY: Harbour Master, Curaçao.

WILLEMSTAD/EMMASTAD, Curacao: 12.06 N. 68.56 W.

DOCUMENTS:

For Immigration.

2 copies of Crew List.

2 copies of List of Passengers Landing at Curaçao (if any).

2 copies of List of Passengers in Transit (if any).

For Customs:

1 copy List of Stores (deck, engine and steward department).

Manifest of Cargo for Curaçao, if any, in duplicate, on special form called "Vrachtlist".

Manifest of Cargo for Curaçao, in transit, for trans-shipment to other ports, if any, in duplicate.

Manifest of Cargo on Board, in transit, if any, in duplicate.

2 copies of Tally Books of Cargo for discharge at Curaçao, if any.

If the ship is in ballast only the store-list is required.

1 copy Crew List.

1 copy Passenger List landing at Curaçao.

PILOTAGE: Pilotage is compulsory. Rendered day and night. Pilots are government officials and are stationed at Willemstad, Caracasbay and Bullenbay. The Harbour Master is also the head of the Pilot Service.

Vessel bound for Curaçao should proceed to Willemstad harbour except when they have specified orders for another bay. Vessels in sight of Willemstad will be contacted by the signal station at Fort Nassau for further orders. From this same station lights are shown to direct the traffic in port. Vessels should stay ¾ miles off shore West of the harbour entrance to await Pilot. The pilot motor boat is identified by a blue flag with the letter "L" at daytime and a red light above a white at night time.

ANCHORAGE: As a rule there is no anchorage area in the harbour of Willemstad, but in the Eastern part of the Schottegat there are two pairs of mooring buoys available to await berth or orders for limited time subject to permission and conditions from the Harbour Master.

Two vessels alongside each other can be safely moored at each pair of buoys. Depths: 35 ft. to 47 ft.; distance between the buoys from 650 ft. up to 900 ft.

RESTRICTIONS: The harbour of Willemstad consists of a 1,400 yd. long and minimum 270 ft. broad channel, the St. Annabay, with depths from 49 to 79 ft. and an adjacent inner bay, the Schottegat a 150-acre body of water with a depth of more than 10 ft. and a maximum of 79 ft.

The navigable portion of the entrance of the port is 865 ft. wide, marked on either side by a light-buoy, and the minimum depth is 49 ft.

BRIDGE: The St. Annabay is crossed by a pontoon (floating) bridge, about 1¾ cables within the entrance. The width of the navigable portion of passage between the bridge heads by open bridge is 295 ft.

The bridge opens day and night for in and outgoing vessels, except on:

Working days: from 07.20 up to 07.55 hours; from 11.50 up to 12.25 hours; from 13.15 up to 13.45 hours.

Saturdays: from 07.20 up to 07.55 hours; from 12.05 up to 12.45 hours.

Sundays and holidays: from 07.45 up to 08.00 hours; from 18.45 up to 19.00 hours.

MAX. SIZE: Length 1000 ft., draft 45 ft.

RADIO: Port Operations Station (Operated by Harbour Authorities): Location, Fort Nassau. Call sign, Fort Nassau. Frequencies, international Channels 16 (156·80 Mc/s), calling and safety; 12 (156·60 Mc/s), working, first choice; 14 (156·70 Mc/s). Watchkeeping, 24 hours on Channel 16. Type of operation, Simplex, Frequency modulated. Range, 20 to 25 miles.

Main Private Station (Operated by Shell Curaçao N.V.): Location, on the Zwarteberg. Call sign, Shell Curaçao. Frequency, international Channel 25 (receiving, 157·25 Mc/s); transmitting, 161·85 Mc/s). Type of operation, Duplex working, frequency modulated; operated by remote control from Shell's telephone exchange; ask operator for connection with party desired. Range, 20 miles. Watch-keeping, 24 hours on Channel 25; normal daily business, 07.30 till 24.00 hours; urgent business only, 24.00 till 07.30 hours.

HEALTH: The port doctor will visit only if there is a case of quarantinable disease on board. The Netherlands Antilles Bill of Health is free of charge.

TUGS: Compulsory for all tankers and dry cargo longer than 600 ft.

L. Smit & Co. International Tug Service has a permanent ocean towage and salvage base in the port of Willemstad. There is always a powerful salvage tug at the station which has been especially equipped to deal with casualties.

Shell Curaçao has stationed here three sea-going motor-tugs, 1,250 h.p. and 2,250 h.p.

The Curaçao Dock Company has a motor-tug of 300 h.p. and one of 150 h.p.

There are about 30 harbour tugs available varying from 60 to 300 h.p. and about 80 lighters to receive the cargo or to bring the cargo alongside a vessel varying from 60 to 250 ton capacity.

BERTHING: There are berths on either side of the St. Annabay North of the pontoon bridge, with depths varying from 18 to 33 ft. alongside, generally used for bunker, cargo and passengerships.

On the Eastern side 4 wharves: the Handelskade, depth 18 ft.; the Kleine wharf, depth 24 ft.; Grote wharf, depth 24 ft,; and Salazar, depth 17 ft.

On the Western side 6 wharves: the Matheywerf, depth 23 ft.; Westwerf South, 25 ft.; Westwerf North, 25 ft.; Nieuwe werf, 33 ft.; Motetwerf, 33 ft.; Oranjewerf, 19 ft.

In the Schottegat there are seven more berths, generally used for bunker, cargo or passenger ships.

In Prins Hendrikwerf which closes the Western corner St. Annabay/Schottegat, has a depth of 34 ft.; however, ships with a draft of more than 34 ft. can be moored by way of placing rafts of 10 ft. width between vessel and the quay.

At the Eastern part of the Schottegat are the Admiraal Brionwerven, which has 3,000 ft. docking space available with 34 ft. depth alongside.

In the Schottegat on the peninsula of Asiento are situated the 15 piers owned by Shell Curaçao Ltd. which are mostly used by tankers; however, other vessels are enabled to use these wharves for bunker facilities. Valentijnpier No. 5 may be used for general cargo.

The names and the depths alongside these piers from West to East are: Valentijn 5, 32 ft.; Valentijn 1, 15 ft.; Valentijn 2, 15 ft.; Valentijn 3 (two berths), 34 ft.; Valentijn 4, 37 ft.; F-werf, 33 ft.; Emmawerf, 17 ft.; Julianapier, 38 ft.; Wilhelminapier, 34 ft.; A-pier, 34 ft.; Oceaanpier, 45 ft.; Margrietpier (two berths), 35 ft.; Bernhardpier, 36 ft.; Irenepier I, 20 ft.; Irenepier II, 34 ft.

Also in the Schottegat is 3,270 ft. length of quay available for repairs. The names of wharves and depths alongside are: Beatrix I, 21 ft.; Beatrix II, 22 ft.; Meerpalen North, 24 ft.; South, 28 ft.; further in the Bay of Versali: Nederhorst No. 2, draft of vessel (Fore); 18 ft., (aft) 20½ ft.; Nederhorst No. 3, (fore) 15 ft., (aft), 25 ft.; Nederhorst Nos. 4 and 5, (fore), 16 ft., (aft), 16 ft.; Parera Veesteiger: 17 ft.

In the Schottegat is a special berth, Bernhardkraan, with fixed sheerlegs for the purpose to discharge or to load heavy lifts up to 100,000 k/gs. Depth alongside this berth is 30 ft.

SLOP RECEPTION FACILITIES: Available at all Shell Terminals.

FRESH WATER: Fresh water for drinking purposes and use in boilers is available day and night in sufficient quantities at all wharves. Fresh water is delivered alongside by means of water barges.

FUEL: There are three bunkering installations, namely the Admiraal Brion wharves, comprising of 6 berths, the Motet bunkering installation comprising of 6 berths, and de Wilde bunkering installation comprising of 3 berths. Bunkers available at all tanker piers.

REPAIRS: The Curaçao Dock Company Ltd. has yards, graven dock and floating dock laid out in the Schottegat. They carry out hull, engine, motor, electric and other common ship repairs, drydocking, scraping, painting, etc.

The Beatrix graven dock is 633 ft. long, 135 ft. broad and for vessels up to 22 ft. draft. Cranes of 10 and 24 tons lifting capacity are moveable, fitted alongside the dock.

The Queen Wilhelmina floating dock is a steel floating dock for vessels up to 3,500 BRT, with maximum dimensions of 380 ft. length, 55 ft. breadth and 12 ft. 6 in. draft. A crane with a lifting capacity of 10 tons is moveable fitted on the dock.

The Curaçao Dock Company has 2,200 ft. of repair wharf with varying depths up to 30 ft. with cranes alongside up to 24 tons lifting capacity. A floating crane with a capacity of 30 tons is also available.

STEVEDORES: Gangs must be engaged between 06.00 and 06.30 for the day, on week-days and Saturdays. For work on Sundays and holidays, gangs must be ordered between 06.00 and 06.30 on Saturday or the workday preceding the holiday. Masters of vessels carrying out cargo operations are consequently recommended to advise Agents their ETA well in advance of above deadlines.

TIME: Curaçao time 4 hours slow of Greenwich time.

HOLIDAYS: New Year's Day, Good Friday, Easter Monday, Queen's Birthday, Labour Day, Ascention Day, Whit Monday, Kingdom Day, Christmas Day, Second Christmas Day. "No work"

holidays for cargo operations: New Year's Day, Good Friday, Labour Day and Christmas Day.
GENERAL: Customs Officers remain on board on duty during the vessel's stay in port. They must be fed by the ship and are entitled to the equivalent of officers mess or first-class dining saloon.
AUTHORITY: The Harbour Master.

New Caledonia

NOUMEA: 22.16 S. 166.27 E.

DOCUMENTS:
Ship's Register.
Safety Certificates.
Cargo Manifests.
List of Dangerous Cargo.
Passenger List.
Crew List.
Crew Personal Effects List.
Bonded Stores List.

PILOTAGE: Compulsory for vessels over 350 tons. ETA to Port Captain and Pilots required 24 hours in advance. The two access channels to Noumea are Boulari channel (Amadée light) and Havannah channel. Pilot boats are wooden launches about 15 metres long equipped with VHF.
Boulari Channel: Pilot boards one mile off, on the alignment of the Amadée high and low lights.
Havannah Channel: Pilot boards off Goro light on the alignment of the leading lights on Cap N'Dua.
In bad weather, pilot launches will remain on these leading lines, but as close as possible to the channel entrances.
ANCHORAGES: Available in the outer and inner roads of Noumea, as indicated by the Pilot. Prohibited zones are marked on the chart.
RESTRICTIONS: Vessels may enter and anchor at any time, but berthing alongside is in day-light only. When adequate lighting on the berths is completed, mooring may be effected at night.
MAX. SIZE: Tanker buoy berths designed for 20,000 dwt., average length 170 metres. Draft limited to 13 metres by a bar between the reef and the port.
HEALTH: Unless vessels have signalled that there is suspected disease or fever on board, free pratique is given automatically by radio request to the Capitaine du Port or by the Pilot.
RADIO: All messages by coast station Noumea, call sign FJP. Harbour Master's office equipped with VHF, Channels 16, 12 and 14, operated during normal working hours.
TUGS: Compulsory in 1971, when one tug of 1,200 h.p. comes into service.
BERTHING: At old Port Authority quay, draft limited to 7·50 metres. Quays under construction to accept vessels up to 10·0 metres draft and over 200 metres length. Private berths of Nickel Company are dredged to accommodate 9 metres draft.
STEVEDORES: Service provided by two private companies. Two or three days notice required to arrange work required.
MEDICAL: Doctors, hospital, and three private clinics available. Smallpox vaccinations are compulsory.
TANKERS: Mobil oil buoy berth, max. draft 10 metres. Shell berth (at Nickel Company), max. draft 9 metres.
DENSITY: 1026.
FRESH WATER: Supplied by pipe-line at the quays; rate, 40 tons per hour; cost, 12 francs per ton.
FUEL: Several grades available from Shell and Mobil.
GANGWAY/DECK WATCHMEN: Recommended, but not compulsory.
OPENING/CLOSING HATCHES: Can be performed by stevedores if required.
CUSTOMS ALLOWANCES: 200 cigarettes per man. Additional allowance can be made after 10 days. Max. 3 bottles spirits per man. Wines and beer not limited.
IDENTIFICATION CARDS: Recommended that crew carry Seamen's Books.
CONSULS: Australia, Belgium, Indonesia, Italy and Norway, are represented locally.
REPAIRS: Many engine, hull and electronic repairs can be effected. Slipway for small vessels.
REPATRIATION: All facilities available for crew change and repatriation.
AIRPORT: Tantouta Airport situated 50 km. from Noumea. Several connections a week to all parts of the world.
TIME: GMT plus 11 hours. No alterations during the year.
HOLIDAYS: 1st January, Easter Monday, 1st May, Ascension Day, Whit Monday, 14th July, 15th August, 1st November, 11th November, 25th December. Work may be arranged on Sundays and holidays.
POLICE/AMBULANCE/FIRE: Police, tel. 17; Fire, tel. 18; Ambulance, tel. 21.21.
TELEPHONES: Can be connected on board passenger vessels. The apparatus belongs to the Compagnie des Messageries Maritimes.
SHORE LEAVE: Allowed.
AUTHORITY: Port Autonome de Noumea, Quai des Volontaires, BP 14, Noumea. Tel. 30.74 and 49.41.

New Zealand

AUCKLAND: 36.51 S. 174.49 E.

DOCUMENTS: For Customs purposes vessels must have 4 copies of Crew List, 1 copy Search List, 1 copy Under Bond Stores List and statement of poisons and narcotics in medical locker and cargo. Also statement of all cargo and/or bunkers in unregistered spaces. Vessels must radio Port Health, Auckland, 24 hours before arrival stating crew number and health status. Approximately ten copies of Passenger Lists required and eight copies of Manifest. All Auckland Agencies can cyclostyle these copies if one copy is airmailed ahead. Accommodation ladder must be rigged in Harbour for doctor and Customs.
PILOTAGE: Vessel approaching port to give 24 hours notice by radio. A second notice confirming or amending first to be sent 4 hours before expected time. Signal Station on Mt. Victoria, call sign ZLEA, calling frequency 2182 kc/s, working frequency 2012 kc/s. Vessels call on 2182, listen on 2012. VHF, call sign "Auckland Port Control", Channel 12 and 16. Continuous listening watch on Channel 16.
Pilot launch is 64 ft. long, single mast, painted white. Name is "Akarana". Standard flags and lights. Word "Pilot" in black on white above cabin. Pilots board 1 mile N.N.E. of "A" Buoy. Good pilot ladder with man ropes to within 5 ft. of water line. Proper lighting at night. Heaving lines for mail and/or portable radio.
ANCHORAGE: While awaiting pilot: Gulf anchorage, No. 1, 000°× 1·5 miles; No. 2, 015°×2·5 miles; No. 3, 020°×3·5 miles. Bearings and distances from Rangitoto Beacon.
All inner anchorages in pilotage area can be indicated by Pilot. All anchorages are in 6–15 fathoms with good holding ground.
RESTRICTIONS: Ships may enter harbour at any time of day or night. Main channel has least depth of 35 ft. chart datum. Vessels with greater draft must wait for tide to make and enter at Harbour Master's orders. Tankers not berthing immediately on arrival anchor as directed at one of gulf anchorages.
MAX. SIZE: No limits, within reason, on length or breadth. Controlling depths chart datum: Entrance, 35 ft.; Rangitoto Channel, 35 ft.; anchorages, 32–60 ft.; berths, 20–40 ft.
HEALTH: 24 hours before arrival time, despatch message to Port Health, Auckland. Message to state ETA, last port, number of crew, number of passengers and state of health. 12 hours before arrival confirm ETA.
Doctor boards by way of vessel's shipside gangway (not pilot ladder) when in harbour. This gangway to be ready immediately on arrival in order to avoid any delay. A responsible person should meet doctor at head of gangway and conduct him to appropriate person.
Papers required:
Completed Maritime Declaration of Health.
De-ratting Certificate.
Complete Crew List with dates of last smallpox vaccination.
Complete Passenger List with dates of last smallpox vaccination.
N.B. Crew and Passenger Lists to be certified as being correct by the Master.
List of Addresses of Disembarking Passengers.
List of Dangerous Cargo on board.
Automatic pratique is accepted when last port of call was in New Zealand.
Free pratique applies to vessels in certain cases on application to Health Department.
Radio pratique can be granted when a doctor is carried on board and after prior approval from Health Department.
Vessels requesting pratique should exhibit appropriate International Code signals by day and night until pratique is granted.
RADIO: Station for routing traffic to the Auckland area is Auckland Radio, Call sign ZLD. Working both W/T and R/T on continuous watches.
TUGS: Three tugs available. Tugs join vessel East of Eastern Tide Wall. Tugs supply lines at no extra charge.
BERTHING: Tankers berthing at Eastern Tide Wall, BP Depot, must berth in accordance with weather and tidal conditions. Tankers must arrive at Pilot station not later than half an hour before sunset, otherwise berthing will be postponed until following morning.
BRIDGES: No particular time to pass under Auckland Harbour Bridge. Navigation span is 138 ft. to 131 ft. above MHWS for 250 ft. each side of centre.
STEVEDORES: Labour commences at 0730. In order to ensure labour for this time ETA should be received at Agent's office before 3 p.m. previous day, or before 3 p.m. previous Friday for a Monday start. Delays on radio messages may be up to 3 hours.
RADAR: Radar station with range of 45 miles located on Mt. Victoria 36° 49′ 42″ South, 174° 47′ 57″ E. Masters may call on radio telephone and request particulars of their bearing and range as shown on radar screen. Responsibility for the use of this information rests entirely with Master of vessel.
MEDICAL: In case of urgent medical attention being required, Agents can arrange for doctor to board in stream at any notice. Hospital and ambulance services available 24 hours. If any smallpox vaccinations have expired this must be included in ETA advice.
TANKERS: Any size pipe-lines can be used. Oil companies have all reducing pieces needed. No facilities for slop discharge. There are three tanker berths, two at 35′ LWST, up to 560′ LOA. One at 27′ LWST, 500′ LOA.
DENSITY: Always 1025.
FRESH WATER: Fresh water always available. Delivery rate 100

tons per hour, through canvas hoses. AHB supplies all equipment, cost is 72 cents per thousand gallons.

FUEL: Light fuel oil, diesel and gas oil are available. No heavy fuel oil. To be ordered in ETA notice.

FIRE PRECAUTIONS: In addition to usual precautions, Class I tankers are under extra security with a nightwatchman from Harbour Master's staff in addition to the normal tanker guard.

DEVELOPMENTS: Channel to be widened and deepened. To be at least 900 ft. wide and at least 36 ft. LWST. Work almost complete.

At Eastern end of port new Fergusson Wharf complex is being developed.

Roll on/roll off section of complex is operating and the "Hawea" and "Seaway Princess' are maintaining regular services to and from Southern ports.

The Container Terminal, planned to be operational by March 1971, will be completed as staged development in 1975. By October 1971, 1,500 ft. of berthage will be available, to be extended ultimately to 1,800 ft.

GANGWAY/DECK WATCHMEN: Watchmen are necessary. Best to use crew.

OPENING/CLOSING HATCHES: Crew can open completely mechanical hatches only. All other hatches opened by waterside workers.

CERTIFICATES: Register, De-ratisation, Load Line, Safety Equipment, Safety Radio, Articles of Agreement, are main Certificates required.

CUSTOMS ALLOWANCES: Tobacco allowance is 200 cigarettes or ½ lb. tobacco on arrival and every 10 days. Wine and spirits allowance is one broached bottle of spirits and a reasonable amount of beer for each person.

CARGO GEAR: Preventer guys must be entirely wire. All blocks and shackles must be moused. Safety trops on all heel blocks. All wires, ropes, chains and blocks to have Certificate of Test.

IDENTIFICATION CARDS: Not required.

CONSULS:

Belgium	Tel. 74690	Netherlands	Tel. 361–660
Denmark	,, 34–762	Norway	,, Browns Bay 906
France	,, 31–644	Panama	,, 32–359
West Germany	,, 34–357	Philippines	,, 78–988
Greece	,, 364–173	Sweden	,, 33–349
Italy	,, 362–180	U.S.A.	,, 30–992
Japan	,, 34–106		

REPAIRS: Any ship repairs can be carried out. A slipway can take vessels of 600 tons displacement and up to 211 ft. LOA.

DRY DOCKS: Maximum size of vessel that can be accommodated in Calliope dry dock is 595 ft. LOA and 65 ft. beam. Water on sill at MHWS 33 ft.

REPATRIATION: All facilities exist for repatriation.

AIRPORT: 8 miles from harbour to airport. Served by all major international airlines.

TIME: Local time is GMT plus 12 hours throughout the year.

HOLIDAYS: No work is done on these days: New Year's Day (1st January); Good Friday; Easter Monday; Anzac Day (25th April); Queen's Birthday (first Monday in June); Labour Day (fourth Monday in October); Christmas Day; Boxing Day. In addition, each Province has an Anniversary Day and a Waterside Workers' Picnic Day. In Auckland these are in last half January.

POLICE/AMBULANCE/FIRE: All emergency services are called through one telephone number. Dial 111 and state service required.

TELEPHONES: Telephones at all berths. Cost is $01.34 fee phone per day, plus the cost of any overtime incurred in connecting or disconnecting any such telephone.

GENERAL: *Refuse Disposal:*

It is important that no refuse be allowed to pass into tidal waters either directly or indirectly. This is covered by strict Government Regulation.

Masters should ensure that refuse is lowered into refuse boat "Manui" and not thrown into boat from any great height.

No refuse will be collected from stern of vessel as this is hazardous for collection craft. A suitable site in way of the flat side of the vessel on off shore side should be chosen.

SERVICES: Services include tank cleaning, compass adjusting, all cargo surveying, average adjusting, etc. Tank washings may be pumped to road tankers.

SHORE LEAVE: Crew members may go ashore.

PORT REGULATIONS: All guests aboard vessel in the evening must have passes signed by the Master. All visitors' passes expire at 11 p.m. All ships in port are subject to the Rules and Regulations contained in the Harbours Act 1950, and the By-laws of the Auckland Harbour Board.

AUTHORITY: Auckland Harbour Board, PO Box 1259, Auckland. Tel. 74–610. Cable address "Haboard N.Z."

BLUFF: 46.37 S. 168.22 E.

DOCUMENTS:

Clearance from Last Port of Call.
1 Search List.
1 Stores List.
3 Crew Lists.
1 Poison List.
3 Passenger Lists.
1 Livestock and Bird List.
1 Firearms List.

PILOTAGE: Pilotage is compulsory. Pilots board vessels from a launch within a 3-mile radius of signal station on Stirling Point, and always well to seaward of 6 fathom line. Arrangements regarding boarding will be made by radio-telephony, wireless-telegraphy, or visual signals from signal station.

Vessels, other than those which are exempt from pilotage, must not proceed inside fairway buoy without a Pilot.

Pilots do not usually board vessels between sunset and sunrise, except in reasonable weather.

Caution: Vessels stopping to pick up a Pilot are particularly warned not to approach fairway buoy too closely, especially during flood stream as stream sets strongly on to entrance shoal, Northeastward.

Coastal Pilots: Coastal Pilots are available on 24 hours notice for piloting service from Tairoa Head to Milford Sound.

ANCHORAGE:

Southward of Stirling Point: In fine weather vessels missing tide may anchor in 10 to 12 fathoms with Stirling Point lighthouse bearing about 356° and Dog Island lighthouse bearing abour 108°.

Eastward of Dog Island: A good anchorage for vessels delayed longer than six hours awaiting to enter Bluff is situated 5 miles East of Dog Island.

RESTRICTIONS: The safest time to enter the harbour is a slack water. Strict attention should be paid to signals passed from the signal station on Stirling Point. No vessel should attempt to enter without a Pilot, unless possessing local knowledge.

Least depth in fairway is 23 ft. on Northern edge of Channel Rocks; 24½ ft. on Mararoa Rock; also 25 ft. (about 1 cable West North-westward of the tidal stream indicator beacon).

Entering by North channel least depth is 20 ft. off Northern end of Davey Bank.

MAX. SIZE: Length, 620 ft., overall beam, no limit. Maximum draft permissible in approach channel: 30 ft. 0 in. at HW, 21 ft. 6 in. at LW.

HEALTH: Inspector boards in quarantine anchorage. In the open roadstead within navigable area enclosed by a circle having a radius of 3 nautical miles from the flagstaff on Stirling Point.

RADIO: A signal station is situated on Stirling Point and is connected by telephone with harbour officials. A continuous watch is maintained and vessels can communicate by the International Code of Signals or the Morse Code. There is a radio-telephone at signal station. Call sign is ZLRW, calling frequency is 2,182 kc/s, and the working frequency is 2,012 kc/s. VHF radio having Channels 16 and 12. Watches are maintained from 33 to 40 minues past the hour, every hour. After radio-telephone contact has been established further listening watches can be made by mutual agreement.

TUGS: Two tugs are available. A twin-screw vessel of 1,500 i.h.p. and 14·7 tons static pull. A twin-propulsion Voith Schneider vessel of 1,200 i.h.p. and 15·3 tons static pull. Both vessels are equipped for fire fighting and deep sea salvage work.

BERTHING: Main wharf: No. 11 Eastern berth, 29 ft. 6 in.; No. 12 Middle berth, 27 ft. 6 in.; No. 14 Western berth, 24 ft. 6 in.

Ferry wharf: 21 ft. 6 in. Vessels over 350 ft. overall with drafts of up to 18 ft. are berthed at this wharf only at HW in reasonable weather.

Berthing is generally carried out at HW slack tide or LW slack tide.

All vessels over 21 ft. 6 in. draft enter the South channel at the top of high wator.

STEVEDORES: Agents require ETA in advance to arrange labour for cargo handling.

MEDICAL: Port doctor available through Agents. Nearest hospital is at Invercargill City, 16 miles from Bluff. Medical service whilst at sea; through Awarua radio.

TANKERS: Tankers are berthed at No. 11 berth only, main wharf. Side connections are to be used. Only one pipe-line connection on wharf.

It is not permitted to commence the discharge of oil cargoes during the hours of darkness. No vessel carrying a cargo of motor spirit or having discharged such cargo will be handled during the hours of darkness.

DENSITY: 1025.

FRESH WATER: Available alongside all berths.

FUEL: Bunkering facilities are available. Boiler fuel is supplied by 8 in. diameter pipe-line located at No. 1 berth, main wharf. Delivery rate 240 tons per hour. Limited quantities of coal, light diesel oil and lubricating oil can be arranged for delivery by road or rail to the wharves.

GANGWAY/DECK WATCHMEN: Available.

OPENING CLOSING HATCHES: Usually carried out by stevedores, unless automatic then by crew.

CUSTOMS ALLOWANCE: Tobacco – 200 cigarettes or ½ lb. tobacco. Wine/spirits – one bottle of spirits/wine in use; total quantities to be declared. Excess will be placed under seal.

IDENTIFICATION CARDS: Not required.

REPAIRS: Major repair work can be undertaken by the following: Two small machine shops at Bluff; a foundry at Invercargill; a slipway for vessels of up to 500 tons displacement at Bluff. A diver is available for underwater inspections.

REPATRIATION: Facilities exist.

AIRPORT: Internal air services from City Airport, Invercargill, 16, miles by road. Connecting with international airports of Christchurch Wellington and Auckland.

TIME: GMT plus 12 hours. No change.

HOLIDAYS: Christmas Day; Boxing Day; New Years's Day; Second of January; Watersiders' Picnic Day (4th Monday, January); Good Friday; Easter Saturday (except by special arrangement); Easter Monday; Labour Day; Anzac Day; Reigning Sovereign's Birthday.

POLICE/AMBULANCE/FIRE:

	Tel. Emergency)	*(Other)*
Ambulance	Bluff 111	8844
Police	Bluff 111	8844
Fire Brigade	Bluff 111	

TELEPHONES: By arrangement, all vessels can be connected with telephone system.
SERVICES: Compass adjusting, refuse collection daily.
SHORE LEAVE: Allowed.
AUTHORITY: Southland Harbour Board, the Secretary-Manager, PO Box 1 Bluff.

GISBORNE: 38.42 S. 178.02 E.

DOCUMENTS: For vessels arriving direct from overseas.
6 Crew and Passenger Lists.
3 copies of Cargo Manifest.
1 Health Report.
2 copies of Customs Search List.
4 copies of Stores List.
PILOTAGE: Telegraphic address – Harbour Master, Gisborne. Advance notice – 24 hours of ETA and further confirmed at 4 hours of ETA. VHF Channel 12.

Pilot boat is painted white, 45 ft. in length; exhibits pilot flag or lights. Pilot boards on line of leads (332°) 2 miles from breakwater light.
ANCHORAGE: Vessels awaiting Pilot and berth anchor with Tuaheni Light bearing 084° 3·2 miles in 10 fms. of water.
RESTRICTIONS: Vessels may be berthed at night according to size, draft and weather conditions.
MAX. SIZE: Maximum length, 560 ft. OA. Beam, No restriction. Draft, 29 ft. at HW, 25 ft. at LW; there can be slight variations according to heights of tide and weather conditions.
HEALTH: Same procedure as "Auckland".
RADIO: Auckland Radio ZLD, Wellington ZLW.
TUGS: Tug joins vessel in channel outside breakwater. Normally use ship's lines; if tug's lines used, no extra charge.
STEVEDORES: Advice of ETA and particulars of stowage required in order that required number of gangs can be ordered. Hours of work, Monday to Friday, 7 a.m. – noon, 1 p.m. – 6 p.m.; Saturday, 7 a.m. – noon.
RADAR/VHF: Radar service available – arrangements can be made through Signal Station by means of VHF Channel 12.
MEDICAL: No advance advice required for medical attention. Full hospital facilities available.
DENSITY: 1025 at all stages of tide.
FRESH WATER: Available by 2½" hoses at approximately 40 tons per hour per hose. Cost 22.5 cents per 250 gallons.
FUEL: Fuel is at present only available by rail tanker and should be ordered through ship's Agent in advance. It is expected that tankers should be discharging here in about 2 years.
DEVELOPMENTS: It is expected that present overseas berth will be increased from 700 ft. to 1,300 ft. within about 3 years.
GANGWAY/DECK WATCHMEN: Ships at present provide own watchmen.
OPENING/CLOSING HATCHES: Stevedores normally carry out this work.
IDENTIFICATION CARDS: Not required.
CONSULS: None.
REPAIRS: Normal maintenance repairs.
DRY DOCKS: One 400 ton slipway.
REPATRIATION: Full facilities available for effecting crew changes and repatriation. However, no seaman's pool operating at Gisborne. Replacement crew must be obtained from either Auckland or Wellington.
AIRPORT: 3½ miles. Regular internal service.
TIME: Standard Time is related to the meridian of 180° *East,* i.e. 12 hours ahead of GMT.
AUTHORITY: Gisborne Harbour Board.

LYTTELTON: 43.35 S. 172.42 E.

DOCUMENTS: Customs procedure. Overseas vessels, on arrival in New Zealand, should have following papers ready to produce to Customs Officers:
Register,
Names of Owners and Agents,
Crew List,
Passenger List,
List of Prohibited or Restricted Immigrants,
Search List,
Stores List,
List of any stock or birds on board,
List of Poisons,
List of Firearms,
Statement of excess Tonnage of Cargo,
Statement of quantity of Fuel Oil in double bottoms,
Declarations by Passengers arriving in New Zealand,
Baggage Declarations by Passengers for duty purposes,
On departure for overseas, Master or his Agent is required to produce:
Manifest of Cargo,
Stores List,
Crew List,
Passenger List (if any),
Clearance from the Marine Department (if a British ship).
A home trade vessel under *transire* is required to produce her cargo book to Collector of Customs and such particulars as to passengers, crew, and cargo as the Collector may at any time demand. Cargo book shall contain name and port of registry of ship, Name of Master, and date of arrival at, and departure from each port. Particulars as to dates of arrival and departure must be entered not later than 24 hours after time of such arrivals and departures.
PILOTAGE: Masters requiring services of a Pilot must notify Harbour Master of their estimated time of arrival and maximum draft not later than 1600 hours on day prior to arrival (Monday to Friday). If estimated time of arrival is on a Saturday, Sunday or any public holiday which falls on a Monday, notification must be given before 1600 hours on previous Friday. International Code of Signals or Morse Code used for communicating with signal station. Station also equipped with radio telephone. Call sign is ZLHL, calling frequencies are 2182 and 2045 kc/s and working frequencies are 2012 and 2162 kc/s, a continuous listening watch being maintained. Radio telephone equipment also installed in the tug, pilot cutter and Harbour Master's office, and same call signs, frequencies and watches are employed. VHF in operation on International Channels 12, 14 and 16.

Pilot vessel is length 54 ft. Equipped with radar, radio telephone and echo sounder. Vessel is located at tug wharf in inner harbour and any vessel awaiting arrival of a Pilot should anchor about 1½ miles to seaward of Godley Heads in a depth of 9 to 10 fathoms, where Pilot will board. If bad weather prevents Pilot from boarding vessel at usual boarding point, vessel should anchor within navigable portion of water westward of Camp Bay and within an area bounded by a line bearing 345° from the rear anchorage beacon in Camp Bay and a line bearing 022° from flagstaff on Ripapa Islet situated about 2 miles Westward of Camp Bay. Every precaution should be provided to the Pilot in boarding a vessel, and the Master must give leeway.
ANCHORAGES: Anchoring in or near entrance of the dredged channel is not permitted. Vessels not awaiting pratique or a Pilot should anchor within navigable portion of water Westward of Camp Bay and within an area bounded by a line bearing 345° from rear anchorage beacon in Camp Bay and a line bearing 022° from flagstaff on Ripapa Islet situated about 2 miles Westward of Camp Bay. Anchorage is prohibited in the vicinity of a telephone cable laid across the port about 4 cables within entrance. Inner limit of the position of this cable is marked by two white patches painted on cliffs, one on the northern side and one on the southern side of the port.
RESTRICTIONS: Cargo vessels not berthed during hours of darkness, except at Cashin Quay in certain circumstances. Tankers are berthed during hours of darkness at the discretion of Harbour Master. All vessels can depart from their berths during hours of darkness. Vessels holding pilotage exemptions may enter or depart during the hours of darkness.
MAX. SIZE:

Controlling depths MLWS		*Nature of bottom*
Entrance to port	48 ft.	Mud
Dredged channel	32 ft.	
Inside anchorage	26 ft.	
Approaches to berths	32 ft.	
Alongside berths	28–35 ft.	

Maximum draft permissible for entering or leaving: 33 ft. at HW, 29 ft. at LW. Vessels drawing less than 29 ft., at any state of the tide. Maximum size permissible for entry: length overall, 800 ft.; beam, no limit.
HEALTH: Master of every ship about to enter a New Zealand port shall, not later than 12 hours and not earlier than 24 hours before expected time of arrival at that port, inform Port Health Officer by radio of last port of call, date of departure therefrom, and state of health of vessel.

Arrival of vessels. On arrival, vessel showing International Code quarantine signal, should proceed to inspection to await arrival of Port Health Officer. Inspections are normally carried out between 0700 and 1900 hours, local time.

Radio pratique. Certain ships may be granted pratique by radio and hence need not be visited by a Port Health Officer, provided that medical officer carried as part of ship's complement.

Maritime Declaration of Health. Masters of all vessels arriving in New Zealand from any port beyond New Zealand shall complete and deliver to Port Health Officer a maritime declaration of health countersigned by the ship's medical officer, if carried.

Crew List and Passenger List. Master of every ship liable to quarantine should be prepared to furnish Port Health Officer a list of all passengers, showing in respect of each passenger, name, sex, race, age, and port of embarkation; and a list of crew giving the name, race, and rating of each member.
RADIO: Wellington Radio, call sign ZLW; Awarua, call sign ZLB; or Auckland, call sign ZLO.
TUGS: Normally join vessel at Parsons Rock Beacon. Tug lines are used, charge for which is included in the overall hire rate for tug. Two tugs for vessels over 20,000 tons.
BERTHING: Requirements for berthing at berths 2, 3, 4, 5, 6 and 7 for vessels over 1,000 tons net are; bow out, the anchor to be used and gangway turned in.
STEVEDORES: Waterside labour can be ordered after arrival of ship at 6.30 a.m. up to 9 a.m. For work on Saturdays orders must be placed by 9 a.m. Friday. Saturday afternoon work to be ordered by 10.30 a.m. Saturday.
MEDICAL: Hospital facilities are available at Christchurch, 9 miles from port, and international regulations apply in regard to inoculations, vaccinations, etc. Agents can be notified at any time of medical allocation required, preferably with 24 hours notice.

TANKERS: All tankers berth alongside oil wharf in inner harbour.

Oil hoses can be connected during hours of darkness; they are not allowed to be disconnected until daylight unless permission has been given by Harbour Master.

Boiler and galley fires are not required to be extinguished when loading or discharging.

Loading and discharging of oil cargoes is permitted during the hours of darkness.

All scuppers are to be plugged and sand kept on hand in case of spillages.

Side connections are to be used. All pipe-line connections are situated at the middle of the oil wharf.

Berthing is generally starboard side to, head out.

FUEL: Bunkering facilities available:

Boiler fuel oil (supplied by 4 in. and 6 in. dia. bunker hose connected to an 8 in. dia. pipe-line located on the Oil Wharf).

A 10 in. line is also available for discharge and load which has a suitable fitting for reduction to 8 in. Slop (residue) facilities are not available and Lyttelton is considered to be a discharge port for fuel oils. One berth only is available with a maximum draft of 33 ft. 6 in. at high water.

DENSITY: 1025, salt water.

FRESH WATER: Available at all berths delivered by hose at a discharge rate of 20 tons per hour costing 50c (N.Z.) per 1,000 gallons.

FIRE PRECAUTIONS: Other than the normal safety precautions to be observed, vessel will not be permitted to immobilise engines.

DEVELOPMENTS: Plans are at present being prepared for the modernisation of the inner harbour.

GANGWAY/DECK WATCHMEN: All ships must be provided with a watchman whilst at oil wharf; a shore watchman is also required. Watchmen can be ordered at any time by contacting Seamen's Union at Lyttelton and cost per man is 83c per hour in ordinary time.

OPENING/CLOSING HATCHES: This work is carried out by waterside labour.

CUSTOMS ALLOWANCES: ½ lb. and/or 200 cigarettes per man. 1 bottle of wine and/or 1 bottle of spirits per man.

IDENTIFICATION CARDS: Passes are necessary at oil wharf but not required otherwise.

CONSULS: At Christchurch.

Australia	66–221	Belgium	77–905
Denmark	899–099	France	60–085
Italy	62–799	Japan	60–446
Netherlands	65–669	Norway	65–079
Sweden	65–179	U.S.A.	65–864

REPAIRS: Major work can be undertaken at Lyttelton where a machine shop and foundry are available.

DRY DOCKS: A graving dock is available for vessels up to 6,500 tons gross, and dimensions of dock are floor length 450 ft., top length 481 ft. 6 in., top width 82 ft., entrance width 62 ft., width in way of ships bilge 54 ft. 6in., sill depth at MHWS 23 ft. A patent slip is also available for vessels up to 240 tons gross.

REPATRIATION: Facilities are available.

AIRPORT: Distance from Christchurch – 6 miles, served by regular airlines.

TIME: Local time is 12 hours ahead of GMT, no alteration to clocks.

HOLIDAYS: Holidays throughout year shall be New Year's Day; Anzac Day; Provincial Anniversary Day; Good Friday; Easter Monday; Labour Day; Birthday of Reigning Sovereign; Christmas Day; Boxing Day; and the Harbour Board's employees picnic day (to be held on same day as the Waterside Workers' Union picnic day. No cargo work is carried out on these days.)

POLICE/AMBULANCE/FIRE: For emergency calls from ships telephones, dial 111 and ask the operator for service required. For other than emergency calls dial 8079 and ask for service you require.

TELEPHONES: Arrangements can be made with Harbour Master for telephones to be placed on board, charge being $1.00 per telephone per day with a minimum charge of $2.00 per telephone.

SERVICES: Tank-cleaning and tank-washing facilities are available as well as a compass adjuster by enquiring from Harbour Master.

SHORE LEAVE: Crew members are allowed ashore.

PORT AUTHORITY: Lyttelton Harbour Board, Christchurch.

MOUNT MAUNGANUI: 37.39 S. 176.11 E.

DOCUMENTS:

3 Crew Lists.
1 Passenger List.
1 Search List.
2 Bonded Store Lists.
1 Gift List.
1 Excess Cargo or Oil in D.B.
1 Declaration by Master of Restricted Immigrants.
1 Maritime Declaration of Health.
4 Cargo Manifests.
1 Pratique.
1 De-Rat.
1 Clearance, last port.
1 Livestock on Board.
1 Poisons on Board.
1 Firearms on Board.
1 Ship's Papers.

PILOTAGE: Prior notice of ship's arrival to be given to Harbour Master from ship's Agents. Telegraphic or radio-telephone advice to be sent to "Harbour Master Tauranga" 24 hours before earliest estimated time of arrival and confirmed again 4 hours before arrival. ETA is also required on Friday before 1600 for vessels arriving over weekend.

Pilot boards incoming vessels 1½ miles North-East of Mount Maunganui light house. Pilot launch is 50 ft. long, is painted white and equipped with R/T, 2182 kc/s., 2162 kc/s. and 2012 kc/s.; VHF Channels 16, 12, 14, 8 and 6, and radar.

Vessels awaiting Pilots may anchor in pilot boarding position.

ANCHORAGES: Three sheltered anchorages are situated in Western channel of Tauranga Harbour and are available for vessels of up to 500 ft. long with a maximum draft of 22 ft. 6 in.

RESTRICTIONS: Vessels may enter, berth, unberth, or depart during hours of darkness in fine weather. Tankers are handled during daylight only. Vessels over 300 ft. generally enter or depart on HW or LW slack.

MAX. SIZE: Maximum length permissible is 612 ft., no restriction on beam. Maximum arrival draft at H.W is 28 ft., LW is 23 ft. (An increase in draft may be considered on completion of dredging operations. Completion end 1971.)

HEALTH: Radio notification of be sent to "Port Health Tauranga", regarding state of health of crew and ETA 24 hours before arrival.

Pratique is granted by Port Health Officer on arrival. Notification should be made by radio to Port Health in case of suspected disease or fever on board.

Pratique is automatic if vessel has been previously cleared at another New Zealand port. Radio pratique may be granted in case of passenger vessels or such vessels as carry a doctor on board.

RADIO: Nearest coastal radio station to Port of Tauranga is "Auckland Radio" – call sign ZLD.

TUGS: Two tugs are available. Usually join vessels in vicinity of entrance. Tugs lines are normally used, for which there is no extra charge. A third tug planned for delivery in 1973.

BERTHING: Berthing normally takes place 30 minutes after negotiating harbour entrance at HW or LW slack. Wharves are quay type of concrete construction with wooden spring fendering and rubber buffers. At present 5,700 ft. of wharf is available.

STEVEDORES: ETA to stevedoring companies is usually worked in conjunction with ETA to Harbour Master.

RADAR/VHF: Radar is fitted to Harbour Board pilot launch and one tug. VHF is fitted to Harbour Board Watch Office, Main Office, both tugs, pilot launch and work launch. Channels 16, 14, 12, 8 and 6 available. Contact should be made through Channel 16 where continuous listening is maintained. Harbour Board Watch Office is also fitted with R/T, call sign ZLDQ Tauranga. A listening watch is kept on 2182 kc/s.

MEDICAL: Unless specifically required for arrival, Agents do not require advice. Local medical practioners are consulted and services of one public and one private hospital are utilised. Smallpox certificates are required.

TANKERS: Discharge of black and white products is done through a single 10 in. discharge line. Flexible connection between these lines and ship is 8 in. No slop facilities. Two tanker discharge points with a maximum permissable draft of 28 ft. at No. 5 Berth and 32 ft. at No. 10 Berth. (Maximum entry draft is 28 ft. 6 ins.).

DENSITY: Salt water, 1025.

FRESH WATER: Unlimited supply by pipe-line. Good quality, 15 tons per hour with a cost of 60 cents per 1,000 gallons.

FUEL: Light bunker fuel oil 200 secs. Redwood No. 1. Heavy bunker fuel oil 1,000 secs. Redwood No. 1. 24 hours – minimum notice. Availability up to 1,000 tons.

FIRE PRECAUTIONS: A fence is erected around tankers to prevent unauthorised access to berth. Both tugs are equipped for fire-fighting.

DEVELOPMENTS: An increase of draft to 29 ft. 6 ins. could be undertaken on completion of channel realignment, August 1971. Further increase to 32 ft. expected end 1973.

GANGWAY/DECK WATCHMEN: Ship's watchmen are usually employed by overseas ships.

OPENING/CLOSING HATCHES: Usually performed by stevedores.

CUSTOMS ALLOWANCES: 200 cigarettes or ½ lb. tobacco. 1 part bottle of wine or spirits.

IDENTIFICATION CARDS: Not required.

REPAIRS: All types of engine and deck repairs are possible with exception of docking and associated bottom repairs.

REPATRIATION: Repatriation no problem.

AIRPORT: Airport is situated 1 mile from wharves and is served with regular flights from internal airlines to overseas airports at larger centres.

TIME: GMT plus 12 hours.

HOLIDAYS: New Year's Day (1st and 2nd January); Good Friday (end of March); Easter Monday (end of March); Anzac Day (25th April); Queen Elizabeth II Birthday (1st June); Labour Day (26th October); Christmas Day (25th December); Boxing Day (26th December); Port Picnic Day (end of January). Cargo work does not take place on public holidays.

POLICE/AMBULANCE/FIRE: All connected through automatic exchange, Emergency No. 111.

TELEPHONES: Telephones are placed on board all ships by Harbour Board. Cost: 75 cents per day or part day, plus labour cost if telephone is connected or disconnected in overtime hours.

SERVICES: No facilities for discharge of tank washings exist. Compass adjusters can be arranged from other ports. Local provendors cater for most domestic supplies. Fumigation can be arranged.

SHORE LEAVE: Crew are permitted ashore at Master's discretion.

PORT AUTHORITY: Bay of Plenty Harbour Board, Private Bag, Mount Maunganui. Tel. 53–039. Telegram "Harboard".

NAPIER: 39.29 S. 176. 54 E.

Outward Clearance, last port.
Passenger List (if any), 4 copies.
Crew List, 4 copies.
Prohibited List (Lab. Imm. 290).
Poison List.
Search List (Reg. Form 2).
Stores List (Reg. Form 3).
List of Loading Ports and Dates.
List of Animals and Birds.
List of Fire Arms.
Health Certificate (Lab. Imm. 293), supplied and completed by port doctor.

PILOTAGE: Vessels should advise ETA and draft to Harbour Master Napier 24 hours prior to arrival, ETA to be confirmed or amended 4 hours before original ETA or 4 hours before arrival, whichever first.

VHF pilot boat and watchtower. Listen Channel 16. Work Channel 12.

Pilot boat 65 ft. long, painted white, funnel yellow with black top. Pilot boards inward vessels on main leads 1 mile East of roadstead buoy.

ANCHORAGES: Anchorage 1 mile East of roadstead buoy. 9 fathoms. Bottom sand and mud.

RESTRICTIONS: Vessels are berthed between 5 a.m. and sunset. Vessels up to 25 ft. draft may berth at any state of tide.

MAX. SIZE: Max. length OA 620 ft.; beam, no limit; draft, 28 ft.

Tanker and bulk carriers berthed at 29 ft. draft. Subject to prevailing swell conditions and being able to commence discharge immediately on arrival.

HEALTH: Cable port health Napier 24 hours before arrival. Doctor will board on arrival.

RADIO: Cables should be routed through Wellington Radio ZLW. Radio telephone – Napier Watchtower listens 2182 kc/s for 15 mins. at following times: 0400, 0800 1200, 1600, 2000, 2400 and by arrangement. Working frequency is 2162 kc/s. VHF listening watch as above for R/T and continuous during office hours.

TUGS: Two tugs take ship's line inside breakwater.

BERTHING: Vessels at max. draft limited to HW. Vessels normally berth "Port side to" all berths but will berth starboard side to on request. Notification must be received before 1600 hours on Friday for any shipping movement over weekend and 1600 hours on day preceeding public holidays.

STEVEDORES: ETA required for discharge ships 24 hours before arrival. Loading ships 48 hours before arrival with proposed stowages and vacant spaces. Advice number of gangs able to work. All work done by ship's tackles.

MEDICAL: No prior notice required for medical attention. Hospital facilities available. Advice would be needed of any contagious disease on board in advance.

TANKERS: Standard size discharge lines. All connections supplied by oil companies. Five berths, max. draft 29 ft.

DENSITY: 1025.

FRESH WATER: Available all berths 20T per hour per hose at 60 cents per 1,000 galls.

FUEL: 220 and 1,000 p/sec. Oil available ex-pipe-line at 110 tons per hour L/Marine diesel and gas oil ex-road tanker. All at immediate notice. Lubricating oil available. 1 weeks notice. No residue service available.

FIRE PRECAUTIONS: Watchman supplied on wharf at ship's expense when tankers discharging.

DEVELOPMENTS: Higgins wharf West 1st 700 ft. extension estimated July 1972.

GANGWAY/DECK WATCHMEN: Cargo watchmen supplied on request at current award rates.

OPENING/CLOSING HATCHES: Hatches normally opened and closed by stevedores unless automatic type.

CERTIFICATES:
Ship's Register,
Health Certificate,
Cargo Safety Certificate,
Radio Safety Certificate,
Load Line Certificate,

CUSTOMS ALLOWANCES: 200 cigarettes or ½ lb. tobacco. 1 bottle spirits in use or 1 bottle wine in use.

IDENTIFICATION CARDS: Not required.

REPAIRS: First class service available.

REPATRIATION: On arrangement with Customs and vessel's Agents.

AIRPORT: Hawke's Bay Airport, served by internal airline 3 miles from port.

TIME: GMT plus 12 hours.

HOLIDAYS: New Year's Day; 2nd January; Picnic Day (last Wednesday in January) (vessels berthed but cargo not worked on any of these holidays); Good Friday; Easter Monday; Anzac Day (25th April); Queen's Birthday (1st Monday in June); Labour Day (nearest Monday 25th October); Christmas Day; Boxing Day.

POLICE/AMBULANCE/FIRE: Emergency telephone 111.

TELEPHONES: Connection all berths. Charge – $1 per day.

GENERAL: Due to open port and swell, ship's engines to be kept at 12 hours notice of readiness.

SHORE LEAVE: No restrictions.

AUTHORITY: Napier Harbour Board, PO Box 166, Napier, New Zealand. Tel. 8684.

NEW PLYMOUTH, Port Taranaki: 39.03 S. 174.03 E.

DOCUMENTS:
4 Crew Lists.
4 Passenger Lists.
1 Customs Search List.
1 Maritime Declaration of Health Pratique Certificate issued by Port Health Officer after inspection.
2 copies Port Manifest.
2 Copies other N.Z. Ports Manifest.
Clearance from previous port
Ship's Register.

PILOTAGE: Compulsory. Telegraphic address "Harbour Master, New Plymouth". 3 days notice preferable with 1 day confirmation. VHF Channel 16. R/T 2182 kc/s.

Pilot boat white with buff deckhouse, either "Rawinia" or "Pilot" in black on side. Pilot taken on board within area of circle of 2½ miles radius centered on Trig Station 270 ft. Position 39° 03′ 56.8″ S. 174° 01′ 44.9″ E. bounded within lines bearing 355° and 043° from Trig.

ANCHORAGES: 6 to 7 cables off outer end of main breakwater with leading beacons open to Westward and with Light Tower on Mikotahi in line with centre of Paritutu. Position affords best holding ground in clean sand and shelter from prevailing W. and S.W. winds.

RESTRICTIONS: Ships not berthed during hours of darkness although permitted to sail. Draft maximum 29 ft. may be exceeded after prior consultation with Harbour Master. Ships under 21 ft. not affected by state of tide. In range 21 ft. to 29 ft. time of berthing relevant to high tide.

MAX. SIZE: Maximum size 660 ft. overall, breadth no limit.

HEALTH: Port doctor boards on arrival at berth. In event of suspected disease on board, will board in pilotage area. Pratique automatic if ship has already called at another New Zealand port.

RADIO: Radio telephone system operates watches for 15 minutes every 4 hours from midnight. Call sign ZLNE, call frequency 2182 kc/s. Working frequency 2012 and 2162 kc/s. VHF station operates on Channel 16 after notice given by telegraph or R/T. ETA cables generally received through Wellington Radio. All outward messages routed through Wellington Radio.

TUGS: One tug available.

BERTHING: In general all ships are swung in basin coming alongside berth stern first.

STEVEDORES: Labour must be engaged between 0700–0900 Monday to Friday. Agents should be advised ETA at least 24 hours, preferably 72 hours, in order arrange cargo if vessel loading.

MEDICAL: Hospital services available.

TANKERS: Black oils 10 in. pipe-line; white oils 8 in. pipe-line. 3 of 4 berths available for tankers, maximum draught 29 ft. Small deballasting tank available.

DENSITY: Sea water.

FRESH WATER: Available all berths from main supply at about 10 tons per hour. Cost per 1,000 gallons 75 cents.

FUEL: Light fuel oil and gas oil pipe-line connected all berths. Gravity fed at about 100 tons per hour. Can be arranged at 24 hours notice.

FIRE PRECAUTIONS: Tanker berth closed to public with Harbour Board watchman in attendance.

DEVELOPMENTS: New reclamation scheme provides for further 2 overseas vessels, berths being available mid-1971.

GANGWAY/DECK WATCHMEN: Not available and not necessary.

OPENING/CLOSING HATCHES: Stevedores must carry out this work.

CERTIFICATES:
Normal Safety Certificates. Ship's Register.

CUSTOMS ALLOWANCES: 200 cigarettes per man. Only officers may have 1 bottle spirits; ratings 2 bottles beer.

IDENTIFICATION CARDS: Not required.

CONSULS: None available locally.

REPAIRS: All repairs except underwater work of a major nature.

REPATRIATION: Facilities exist.

AIRPORT: Is 7 miles from city, 10 miles from port. Served by domestic service only, 2 flights northbound and southbound each daily.

TIME: 12 hours ahead of GMT. No adjustment made.

HOLIDAYS: Normal cargo working hours Monday–Friday 0700–noon, 1300–1700. Saturday 0700–noon. No work on Sundays; New Year's Day; Stevedores Picnic (4th Wednesday January); Provincial Anniversary Day (2nd Monday March); Good Friday; Easter Monday; Anzac Day (25th April); Queen's Birthday (1st Monday June); Labour Day (4th Monday October); Christmas Day; Boxing Day.

POLICE/FIRE/AMBULANCE: Telephone numbers respectively, 5449, 5505, 5439.

TELEPHONES: Yes – at 85 cents per day, plus labour installing/removing when performed in overtime hours.

GENERAL: Ship's garbage must be in covered containers supplied by Harbour Board and removed daily at a charge of $10.00 per day. Any meats on board vessel on arrival which have been supplied from other than Australia or New Zealand will be sealed off and fresh supplies obtained.

SHORE LEAVE: No restriction unless period of leave is more than 24 hours.

AGENT: Newton King Ltd., Shipping Department, 15–17 Currie Street, (PO Box 244), New Plymouth, New Zealand. Telegrams, "Kingship". Tel. 5719 (10 lines) Business, 83174 Residence. Telex, N.Z. 3275, Answerback "Newking".

OTAGO: 45.46 S. 170.43 E.

Includes Dunedin, Port Chalmers and Ravensbourne

DOCUMENTS:
Ship's Register and Clearance from previous port.
Inward Cargo Manifests, in duplicate for each port of discharge separately.
Search List (crew's declarable items).
Passenger Manifest (4 copies airmailed forward from previous port).
Poisons Declaration (typewritten list detailing any poisons on board, or declaring nil on board).
Agents will produce N.Z. Customs Stores List for Master to complete on arrival.

PILOTAGE: Address "Harbour Master, Dunedin. Through coastal radio stations ZLW (Wellington) or ZLB (Awarua) giving ship's name, draft, and ETA. First message 72 hours out, revise 24 hours out: if from another New Zealand port (coastwise) similar message as soon as possible after leaving that port. Subsequent contact with port private radio station ZLES Taiaroa Heads on 2182 kc/s. or VHF Channel 16. Pilot boat is 55 ft., white launch, also fitted with same frequencies, which meets vessels as required but does not remain on station otherwise. Boarding position is with Taiaroa Head Lighthouse bearing 170° distant 2 miles; good anchorage in same position, depth 12 fathoms. Pilots can always board in this vicinity provided Master has ship under way at slow speed and obeys Pilot's instructions. Vessels arriving to work general cargo should endeavour to embark Pilot by 5 a.m. in order to be alongside berth ready to take labour on board at normal commencing hour of 7 a.m.

ANCHORAGES: With Taiaroa Heads Lighthouse bearing 170° distant 2 miles, good holding ground in all weathers, safe except in very strong Easterly gales which are extremely rare. If this position is already occupied by another vessel, there is ample room close Westward, Northwestward, and Northward. Depths 12 to 16 fathoms.

RESTRICTIONS: Tankers proceeding to or from the oil jetty at Dunedin make passage of the upper harbour in daylight hours only. Otherwise ships are not boarded between midnight and 5 a.m. as no working time is gained by so doing.

MAX. SIZE: For berthing at *Port Chalmers:* Maximum draft 33 ft. at high water, 28 ft. at low tide. Channel is worked as required by circumstances; it is not restricted to slackwater. Maximum size of ship dependent on displacement; largest to date, length 702 ft. but vessels with displacement up to 35,000 tons may safely berth and larger vessels will be considered individually. For berthing in the upper harbour at *Dunedin* or *Ravensbourne,* maximum draft 26 ft. high water, 21 ft. zero tide; maximum length 585 ft.

HEALTH: Master to radio to Port Health Officer (entry port in N.Z. only) 24 hours before ETA requesting free pratique or declaring adverse state of health. Agents will advise Port Health Officer and Health Department inspectors who will board vessel on arrival, alongside actual wharf if free pratique requested. N.Z. regulations will require sealing of domestic meat chambers and purchase of local meats for use coastwise.

RADIO: Through Awarua Radio ZLB or Wellington Radio ZLW.

TUGS: Tug used in vicinity of wharves turning, berthing and unberthing, etc. Tug's lines used without charge.

BERTHING: Some restrictions for larger vessels berthing with flood tide at Beach St. Wharf Port Chalmers.

STEVEDORES: Labour for Saturday work must be ordered by 8.30 a.m. Fridays, otherwise by 1430 for following day. Advise Agents of firm ETA in time to judge this. Evening shift work expected commence 1971.

RADAR/VHF: Port radio station at entrance Taiaroa Head (ZLES) maintains 24-hour watch on R/T 2182 kc/s. and VHF Channel 16. Radar operated at station on request has range in excess of 20 miles to North and East.

MEDICAL: Emergency medical services and full hospital services always available at short notice. Emergency advice by radio available. Top priority given to arrangements for landing urgent cases for medical treatment.

TANKERS: Diameter of lines 8 in.; minor slop facilities only; one tanker discharge berth 700 ft. long, 28 ft. depth alongside at low water. Maximum size ship 585 ft. long; draft for channel transit 26 ft.

DENSITY: Harbour density 1024 all states of tide.

FRESH WATER: Fresh water 15c per ton available all berths, approx. delivery rate 20 tons per hour.

FUEL: Bunkers at oil berth available; all grades up to 1,000 secs. Redwood.

DEVELOPMENTS: New Beach St. Wharf Port Chalmers 1200 ft. long, 35 ft. depth at low water alongside, for container ships.

GANGWAY/DECK WATCHMEN: Shore watchman not normally required except at entry to oil jetty, such watchman arranged for by oil company. Ships required to maintain own gangway surveillance.

OPENING/CLOSING HATCHES: Automatic hatch gear may be operated by ship's personnel. Manual hatches by shore labour only.

CERTIFICATES: Normal cargo gear and equipment certificates as required for British ports; also Fumigation (Rats) or Exemption Certificate.

CUSTOMS ALLOWANCES: 200 cigarettes or 50 cigars or 8 oz. tobacco. One opened quart bottle any spirits or wine.

IDENTIFICATION CARDS: Not required for British subjects. Alien identification cards to be retained on board in case of need.

CONSULS: Consular agencies France, Norway, Denmark, Sweden, Germany, Italy, Netherlands, Portugal.

REPAIRS: All types deck and engine repairs possible; good machine shops, etc.

DRY DOCKS: Otago dock takes ships up to 520 ft. but beam limit 65 to 66 ft.; maximum draft entry 19 ft.

REPATRIATION: Repatriation arrangements can be made.

AIRPORT: Dunedin is served by all internal main airlines with connections to overseas via Christchurch, Wellington and Auckland. Airport 35 minutes from Dunedin City by car.

TIME: N.Z. Standard Time throughout year is GMT plus 12 hours.

HOLIDAYS: As for all N.Z. ports, i.e. January 1st and 2nd; Good Friday and Easter Monday; Anzac Day (April 25th); 1st Monday in June; Labour Day (Monday, nearest October 24th); Christmas Day and Boxing Day; Waterside Picnic day (Wednesday at end January). Where New Year and Christmas holidays coincide with Saturdays and/or Sundays, holidays are taken following Monday and/or Tuesday. General cargo not worked on these days nor on Sundays: tankers discharge 365 days: ships arrive and depart regardless of holidays.

POLICE/AMBULANCE/FIRE: Police 76012; Ambulance 77111; Fire Brigade 79111; Hospital 76740; Emergency (serious) dial 111 and ask for any service needed.

TELEPHONES: Slot telephones can be put on board rate $1.30 per day with all local calls free, others by cash in slot.

GENERAL: No special moorings are required. Harbour, though tidal, is landlocked and there is no surge at any berth. Tide rise averages 6 ft. above datum (extremes 5 ft. and 8 ft.).

SERVICES: Radar and gyro compass technicians available. Good shop and providore facilities. Compass adjuster usually available.

SHORE LEAVE: Crew members not restricted ashore.

REGULATIONS: No special local regulations, but all N.Z. ports have very strict rules for garbage collection and disposal, etc. and against oil spillage.

DELAYS: Ample berths normally available. Occasional delays for labour shortage or wet weather (rainfall average 30 in. per year). Small quantities bunkers available ex-tank wagons at any berth. Larger quantities obtainable by shifting to oil jetty outside cargo work hours or as otherwise convenient.

PORT AUTHORITY: Otago Harbour Board, PO Box 1, Dunedin, New Zealand. Tel. 77881. Telegraphic address "Koputai", Dunedin.

PICTON: 41.17 S. 174.02 E.

DOCUMENTS: Ship's Agents will advise on all matters of documentation before arrival re the number of Crew Lists, Passenger Lists, Customs Documents, Health Documents, Manifests, Bills of Loadings, Ships Papers, etc.

PILOTAGE: Compulsory. Pilot will board vessels between Long Island and Motuara Island provided he is notified at least 4 hours before estimated time of arrival of a vessel off these islands.

Pilot Boat. Board are building a 48 ft. vessel for this work and will use the International Signals required for all pilot boats. To be provided with VHF radio.

ANCHORAGE: Except during strong North-west winds, there is a good anchorage Northward of Mable Island in 16 fathoms for vessels of all sizes.

Quarantine Anchorage. Within the navigable area to Westward of Mable Island enclosed between the foreshore and a line from Kaipupu Point 047° to the Western extremity off Mable Island, then a 349° to Wedge Point. Vessels not in quarantine can use this anchorage.

RESTRICTIONS: Controlling depth in approaches to anchorage is 44 ft. MLWOS.

MAX. SIZE: Maximum length 640 ft. Draft forward, 30 ft., aft. 33 ft. Vessels of this size can berth at any state of the tide.

HEALTH: First entry at a New Zealand port pratique is granted after vessel berths provided she has a clean bill of health from her last port, otherwise vessel would anchor in the quarantine anchorage, where port Health Officer would board. Once clear at the first port in New Zealand no further pratique is required.

RADIO: Port is equipped with medium frequency and VHF Medium Frequency, call sign ZLVH, the calling frequency 2162 kc/s. Watches maintained Monday to Friday 1900 to 1930, 1140 to 1230, 1540 to 1603 daily and at other times by arrangement.

TUGS: None.

STEVEDORES: Agents will provide gangs and other facilities provided Master gives prior notice of his requirements.

MEDICAL: It is necessary for Master to give his Agent as much advance notice as possible. Two doctors reside in the port. Hospital at the port and the main hospital at Blenheim, 17 miles by road. Ambulance service available.

DENSITY: 1025.

FRESH WATER: Unlimited supplies available.

FUEL: By tank wagon only.

GANGWAY/DECK WATCHMEN: Required by general harbour regulations and is generally carried out by ship's deck hands.

OPENING/CLOSING HATCHES: Performed by stevedores.

CUSTOMS ALLOWANCES: Tobacco. ½ lb. tobacco or 200 cigarettes per man per 10 days. Wine/Spirits. 1 quart bottle of wine or spirits per man per 10 days; 1 bottle of beer or two 12 oz. cans of beer per man per day.

CARGO GEAR: Marine Department control this and regulations are issued accordingly. These regulations are very similar to those in the United Kingdom.

IDENTIFICATION CARDS: Not required.

CONSULS: These are stationed at Wellington. (See "Wellington".)

REPAIRS: Small repairs undertaken by three companies.

REPATRIATION: Crew changes can be made.

AIRPORT: Woodbourne – 22 miles by road from Picton, served by feeder services to Wellington – Christchurch.

TIME: GMT plus 12 hours, no change.
HOLIDAYS: New Year's Day, Anniversary Day, Good Friday, Easter Monday, Labour Day, Sovereign's Birthday, Christmas Day, Boxing Day, Anzac Day, Watersiders' Workers Picnic Day.
POLICE/AMBULANCE/FIRE: Police, tel. 439M; Ambulance, through doctor or in case of emergency tel. 160; Fire, ring exchange operator.
TELEPHONE: Facilities exist to place telephones on board.
SHORE LEAVE: Allowed.
AUTHORITY: Marlborough Harbour Board, PO Box 84, Picton. Tel. 270.

PORT NELSON: 41.17 S. 173.17 E.

DOCUMENTS:
4 Crew Lists.
4 Passenger Lists.
1 Search List.
1 Pratique Certificate.

1 Store List.
2 Returns for Light Dues.
1 Derat Certificate.
1 List of Prohibited Immigrants.
Articles of Agreement with Crew.
Official Log.
Ship's Register.
PILOTAGE: If possible 24 hours notice of ETA to Harbour Master. Confirm ETA before 1600 Friday if arriving during weekend or public holiday.

Radio telephone 2182 kc/s. and 2162 kc/s., call sign ZLED. Listening watch 10 minutes every 4 hours commencing at 0000 hrs. After contact has been estabilised a further listening schedule can be arranged.

VHF on Channel 16 listening and Channel 12 working. Pilots board inward-bound vessels about 1½ to 2 miles to seaward of main entrance.

Anchorage awaiting Pilot in depth about 30 ft., mud, with Boulder Bank lighthouse bearing 130° distance 8 cables. Pilot vessel 36 ft. double-ended flush-decked vessel painted white.
ANCHORAGES: Anchorage as indicated in pilotage or further seaward according to weather conditions, draft and length of stay at anchor.
RESTRICTIONS: Vessels may enter, berth, unberth, or leave during hours of darkness. Overseas vessels (over approx. 380 ft.) enter port on flood tide and usually swing and berth port side to.
MAX. SIZE: Maximum permissible length 570 ft. Beam no limit. Draft limits 28 ft.
HEALTH: Doctor clears vessel after berthing. Pratique automatic after clearance at first port. If suspected disease or fever on board advise Medical Officer of Health, Nelson, by radio and await instructions.
RADIO: ZLW Wellington Radio; ZLB Awarua Radio; ZLD Auckland Radio.
TUGS: One tug available, joins vessel inside harbour. Tug's own line used on berthing.
BERTHING: Vessels should endeavour to make their arrival as early on flood tide as possible.
STEVEDORES: Labour ordered 0700 for weekday work; 0900 Friday for Saturday work. ETA should be received by Agents before these times.
MEDICAL: Yes. Advise Agents of any medical attention required, giving up to 24 hours notice. Hospital facilities are obtainable. Smallpox vaccination certificates are required.
TANKERS: Diameter of discharge pipe, 10 in. white products; 8 in. black oil. No slop discharge facilities. Oil tanker berth, one only. Maximum draft at berth 27 ft.
DENSITY: Average sea water, 1025.
FRESH WATER: Obtainable at any time. Approximately 20 tons per hour delivery rate. Charge, 60 cents per 1,000 gals.
FUEL: Marine fuel oil, gas oil. Notice required, 24 hours.
DEVELOPMENTS: One extra overseas berth to be completed.
GANGWAY/DECK WATCHMAN: Watchman necessary but usually provided by ship's crew. Shore watchman can be engaged if requested by vessel. Cost in accordance with national award.
OPENING/CLOSING HATCHES: Usually by stevedores.
CUSTOMS ALLOWANCES: 200 cigarettes or ½ lb. tobacco per man per 10 days. 1 part bottle wine/spirits.
IDENTIFICATION CARDS: Not required.
REPAIRS: Deck and engine repairs are possible. (No underwater damage repaired.)
DRY DOCKS: None. 1,000 ton slipway being constructed, to be completed early 1971.
REPATRIATION: Facilities exist.
AIRPORT: Distance 3 miles. Served by internal airline only.
TIME: GMT plus 12 hours. No alteration made during year.
HOLIDAYS: New Year's Day (1st Jan.); Picnic Day (usually near end Jan.); Anniversary Day (1st Monday in Feb.); Good Friday; Easter Monday; Queen Elizabeth II Day (1st Monday in June); Labour Day (4th Monday in October); Christmas Day; Boxing Day. No cargo work on these days.
POLICE/AMBULANCE/FIRE: Police, tel. 5309; Ambulance, tel. 5299; Fire, tel. 5599. Emergency calls, dial 111.
TELEPHONES: Yes, available at $1.50 per day.
SHORE LEAVE: Allowed.
AUTHORITY: The Nelson Harbour Board, PO Box 1003, Port Nelson. Tel. 5264 Nelson. Telegram "Nelharbour".

TIMARU: 44.24 S. 171.19 E.

DOCUMENTS: On arrival from overseas, HM Customs require:
Crew List with Master's Declaration.
2 copies Stores List.
List of Prohibited or Restricted Immigrants.
Slop List from Chief Steward.
List of Firearms.
List of Poisons, or Certificate that none are on board.
List of Animals on board.
List of all Passengers.
Search List.
Excess Tonnage Form.
PILOTAGE: Pilotage is compulsory, and Pilots are available day and night. A vessel requiring a Pilot should remain 1 mile seaward of Eastern Extension Mole, and should not proceed Northward of line of leading lights on Benvenue Cliff.
ANCHORAGES: A vessel should anchor in a depth of not less than 7 fathoms, sand, and Eastward of harbour light structure, and not within 1 mile of Eastern Extension Mole.
RESTRICTIONS: Tidal conditions may affect the time of entering harbour.
MAX. SIZE: Length, 700 ft.; beam, 90 ft.; draft 27 ft. 6 ins. Time of berthing vessels of over 20 ft. draft. will be dependent on tidal conditions at Harbour Master's discretion.
HEALTH: Due to exposed nature of anchorage, incoming vessels are examined and pratique is granted after a vessel berths. In event that vessel is quarantined, she will be required to return to anchorage without any contact being made with shore.
RADIO: Timaru Harbour Board has a radio telephone station equipped with both medium frequency and VHF installations.

Call sign ZLSD, calling frequency 2182 kc/s., working frequency 2162 kc/s. Fixed watches maintained for a period of 15 minutes every 4 hours, e.g.: 0345–0400, 0745–0800, 1145–1200, 1545–1600, 1945–2000, 2345–2400 (New Zealand Standard Time) and at other times mutually arranged. VHF call sign is Timaru Harbour, Channels 6, 12, 16.
TUGS: One tug available.
BERTHING: Moorings supplied at all berths.
STEVEDORES: Gangs must be ordered before 7 a.m. weekdays, and before 9 a.m. Friday for Saturday work.
RADAR/VHF: Port radar set is located at Main Port Lighthouse immediately behind harbour, and is available to assist vessels arriving and entering port in poor visibility.
MEDICAL: Full medical facilities are available as required, including an excellent public hospital.
TANKERS: One tanker berth, discharge through 8-in. hoses.
DENSITY: Specific gravity 1.025 at all states of tide.
FRESH WATER: Available at all berths, delivered at up to 25 ton/hour. Price 60 cents (N.Z.) per 1,000 gallons.
FUEL: Bunkers available, medium fuel oil only. 24 hours advance notice required.
FIRE PRECAUTIONS: When tankers are discharging, access to wharf is prohibited except to those holding passes. Fire-fighting equipment is placed in readiness on wharf.
DEVELOPMENT: Main consideration in future planning is increasing the depth of water in the entrance channel and in the port.
GANGWAY/DECK WATCHMEN: Available if required.
OPENING/CLOSING HATCHES: Carried out by stevedores.
CUSTOMS ALLOWANCES: Half lb. tobacco, or 200 cigarettes, per 10 days, first issue on day of arrival. Two gallons spirits per 10 days per vessel.
IDENTIFICATION CARDS: Not required.
REPAIRS: Most deck and engine repairs can be undertaken.
REPATRIATION: Facilities exist for effecting crew changes and arranging necessary repatriations.
AIRPORT: Situated about 7 miles from city, and there is one flight per day to and from Christchurch International Airport.
TIME: New Zealand Standard Time (GMT plus 12).
HOLIDAYS: New Year's Day; 2nd January; Picnic Day (port holiday, last Wednesday in January); Good Friday; Easter Monday; Anzac Day (25th April); Queen's Birthday (first Monday in June); Dominion Day (third Monday in September); Labour Day (last Monday in October); Christmas Eve (work ceases midday); Christmas Day; Boxing Day. Work can be arranged only by private negotiation on a voluntary basis.
POLICE/AMBULANCE/FIRE: Emergency No. 111 and ask operator for service required. Other than emergency calls: Police, 4084 Timaru; Ambulance, 5253 Timaru; Fire Brigade, 7089 Timaru.
TELEPHONES: Can be supplied to vessels at all berths. Hire of telephone $NZ1 per day, plus connecting and disconnecting labour charge.
SHORE LEAVE: Allowed.
PORT AUTHORITY: Timaru Harbour Board, PO Box 76, Timaru. Tel. 4199

WANGANUI: 39.56 S. 175.04 E.

DOCUMENTS: See "Auckland".
PILOTAGE: If Wanganui is first N.Z. port, initial application for Pilot and vessel's ETA should be passed to local Agent by radio through one of three Post Office radio stations. If not first N.Z. port, this information should be given to local Agent by Agent at previous port. Final details settled when R/T contact made between pilot station and ship.

Pilot launch "Karere", 41 ft. OA, painted white, high midship wheelhouse. Pilot boards at anchorage position. International signals for Pilot should be used if no R/T contact made.

ANCHORAGES: One anchorage for vessels awaiting to enter.
RESTRICTIONS: Port worked day or night at high water when bar conditions are suitable.
MAX. SIZE: Length 350 ft., beam no limit, draft dependent on bar depths at particular time but usually 15 ft. maximum at high water springs. No installations outside main port area.
HEALTH: See "Auckland".
RADIO: Wellington Radio ZLW.
TUGS: No tug available. Pilot launch used for swinging.
BERTHING: Berthing takes place at high water slack.
STEVEDORES: Requirements for labour should be given with ETA and request for Pilot. At least 24 hours notice required.
RADAR/VHF: No radar or VHF. R/T frequencies 2182, 2162, 2012.
MEDICAL: 24 hours notice required if possible. Hospital facilities available. Inoculations, certificates, etc.
DENSITY: 1020 at HW. 1005 at LW. These figures vary greatly according to amount of fesh in river.
FRESH WATER: Plentiful supply through wharf hose connections. Rate of delivery depends on height of ship's filling pipe above wharf level. Cost $1 per 1,000 gallons plus cost of connecting and disconnecting.
FUEL: All grades available but ship has to pump out of road tankers. Amount of notice depends on grade required.
DEVELOPMENTS: Development plan in course of preparation but as yet no details of size of any possible new installations or draft increases.
GANGWAY/DECK WATCHMEN: Watchman necessary, either crew member or shore watchman. Shore watchman's basic rate is 87 cents per hour but overtime of up to $1.74 is payable on Sundays and holidays.
OPENING/CLOSING HATCHES: Carried out by stevedores.
IDENTIFICATION CARDS: Not required.
REPAIRS: Minor deck and engine repairs possible.
REPATRIATION: Facilities exist but more easily accomplished at a main port.
AIRPORT: About 6 miles. Airport caters for internal services only.
TIME: N.Z. Standard Time (12 hours in advance of GMT) is kept throughout year.
HOLIDAYS: As Auckland, except Anniversary Day holiday which is that held in Wellington Province. No cargo is worked on these days.
POLICE/AMBULANCE/FIRE: Ambulance, 8909; Police, 4488; Fire Brigade, Wanganui, 8185; Fire Brigade, Castlecliff, 34711; Emergency 111.
TELEPHONES: Arrangements can be made for placing telephones on board. Approximate cost if installed during ordinary working hours would be $10.50 for any period of up to a fortnight. Local calls free.
SHORE LEAVE: Allowed.
DELAYS: Fresh onshore winds could make entrance unworkable for a vessel waiting to enter. Cargo work stops in rain and in unusally strong wind. Bunkering would be slow if large amount of bunkers required.
AUTHORITY: Wanganui Harbour Board, Box 8001, Castlecliff, Wanganui, N.Z. Tel. 35137 Wanganui. Telegraph Harborbord, Wanganui.

WELLINGTON: 41.15 S. 174.46 E.

DOCUMENTS:
Port Health Authorities.
Maritime Declaration of Health (1 copy).
Crew List, stating name, rank, sex, nationality and date of smallpox vaccination (1 copy).
Port Health Officer will also wish to sight each member of crew's smallpox Vaccination Certificate.
Current International derating Exemption Certificate.
Customs Authorities.
Outward clearance papers from last port of call before arriving at a N.Z. port (2 copies, 1st N.Z. port of call.)*
Bills of Health (see Port Health).
Passenger List (3 copies).
Transit Passenger List (3 copies).
Stores List, completed by Master (1 copy).
Crew List, stating name and occupation of each member of crew (3 copies required).
Search List to be completed by each member of crew (1 copy).
List of Prohibited or Restricted Immigrants (1 copy).
List of Fuel Oil carried in Double Bottom Tanks only (1 copy).
List of Animals or Birds (1 copy).
Manifests typed, or written in ink, together with declaration of cargo form, signed by Master (2 copies).
List of Poisons in Cargo and where stored (1 copy).
List of Cargo carried in unregistered spaces and or on deck (1 copy).
**Note:* It is not necessary for vessel to produce any documents when departing finally or transversing between New Zealand ports as it is the responsibility of Agent to supply Authorities with these documents.
Agent.
Crew List, stating name, occupation, rank, sex and nationality (1 copy).
Freight Manifest (3 copies).
Note: Manifests should be airmailed by loading port to arrive in New Zealand at least one week prior to vessels arrival.
Stowage Plan, airmailed same as Manifest (2 copies).
Agricultural Authorities.
Port Agriculture Inspection Instructions – Ship's Meat Locker Regulations 1966.

PILOTAGE: Compulsory. Pilot vessel is not normally on station outside entrance, and all vessels requiring a Pilot are required to give 24 hours notice by radio of their expected time of arrival off port limits. A second notice confirming or amending the first is to be sent 4 hours before expected time of arrival. In event of a ship expecting to arrive earlier than the time given in 24-hour message, 4-hour message shall be sent 4 hours before the new expected time of arrival. Should vessel expect to arrive later than her 24-hour message, her 4-hour message shall be sent 4 hours before expected time of arrival given in her original 24-hour message. All communications which should be addressed "Harbour Master, Wellington", will be attended to at all hours of the day or night.
Should it not be possible to give previous notice of arrival it may be up to 1½ hours after a vessel is sighted by signal station on Beacon Hill before a Pilot can board.
Pilots normally embark or disembark South of Pencarrow Head, but in the event of heavy Southerly weather, it may be necessary to embark or disembark Pilot in smooth water at or near the compulsory limit.
ANCHORAGES: Depth in anchorages up to 60 ft.
Fairway. Within portion of harbour lying inshore and to Westward of a line drawn from Easternmost point of Oriental Bay, in a 344° direction, to Kaiwharawhara Shore.
Inner Anchorage. Within portion of harbour lying between the Eastern boundary of fairway anchorage and a line drawn from Point Jerningham, in a 354° direction to Kaiwharawhara Shore.
Outer Anchorage. Within portion of harbour Eastward of inner anchorage.
Note: Vessels anchoring in outer anchorage should take up a position well up towards Kaiwharawhara.
Explosives Anchorage. Within portion of harbour contained in an area 4 cables square with sides 000°, 090°, 180°, and 270°. Centre of area lies approximately 1·45 miles due North of Point Halswell light beacon.
Caution: It is advisable when anchoring (especially when in light draft) to drop two anchors in an Easterly and Westerly direction, veering from 75 to 90 fathoms of cable, as it frequently blows hard with heavy gusts of wind off the high land that surrounds harbour, causing a vessel to sheer about. In very strong winds a ship will lie much easier by having both anchors down. A strict watch should be kept.
Prohibited Anchorages. Anchorage is prohibited within 500 ft. of the jetty situated on the North-eastern side of Somes Island.
RESTRICTIONS: Controlling channel depth is 36 ft. below chart datum. All vessels may enter, berth, unberth, or depart during the hours of darkness. Tankers do not usually berth or depart during hours of darkness. Berthing is carried out at any state of the tide.
MAX. SIZE: Maximum draft 35 ft. LW with no swell. Size no limit.
HEALTH: *Health Officer's Examination Ground.* Within portion of harbour contained in an area 3 cables square, North-western corner of which is at the intersection of a line drawn from Point Jerningham in a 354° direction, towards Kaiwharawhara shore, and with a line drawn from tower on the Government Life Insurance Building (adjacent to the General Post Office) in a 055° direction, which line is the Northern boundary of the examination ground. Until pratique has been granted vessels arriving from ports beyond New Zealand must not proceed inwards beyond the limits of this area.
RADIO: Signal Stations. Beacon Hill. A signal station is situated on Beacon Hill, about 2 miles North North-westward of Pencarrow Head.
Radio-telephone. Beacon Hill signal station is equipped with both medium frequency and VHF radio-telephones.
Medium frequency: Call sign is ZLEG, calling frequency only 2182 kc/s, working frequency 2112 kc/s. Vessels working the port and calling on 2182 kc/s should listen for a reply on 2012 kc/s. A continuous watch is maintained on 2182 kc/s.
VHF: Call sign "Wellington Harbour Control", on Channel 16. Working, Channel 12 and Channel 14. A continuous watch is maintained on Channel 16.
Port Operations. Vessels equipped with radio-telephone when within harbour limits must maintain a listening watch on 2182 kc/s or Channel 16 to ensure immediate contact if required. Only calls for information on harbour conditions, berthing or safety of navigation will be accepted.
When a vessel is notified by radio-telephone or Morse lamp of berth allotted she must confirm this with Pipitea Wharf signal station prior to berthing.
Note: Pipitea Wharf signal station and pilot launches are equipped with both medium frequency and VHF radio-telephone.
Harbour Master's Office and Union Steam Ship Co. of New Zealand Ltd. tugs are equipped with VHF radio-telephone.
TUGS: Two tugs owned by Union Steam Ship Co., of N.Z. Ltd., are available. (Tapuhi, 850 i.h.p., and Taioma, 900 i.h.p.). 2 new Voith Schneider twin-tractor propulsion tugs each of 2,200 h.p., to commence service in 1971.

STEVEDORES: Available. No particular ETA advice required except as normally sent by Master.

MEDICAL: Four hours notice is sufficient for an Agent to mobilise the service concerned. For minor attention it is sufficient that Master advises Agent on arrival. Hospital facilities are available. Current International Certificates of Vaccination against smallpox are required by the authorities.

TANKERS: Tankers can berth alongside Point Howard Wharf, Dock Wharf and Miramar Wharf. Side connections are to be used at all wharves. During hours of darkness pipe-line must not be disconnected without first obtaining permission of Harbour Master. All precautions must be taken to avoid oil pollution of harbour. Scuppers must be plugged and sawdust kept at hand in case of spillage

Point Howard Wharf is exposed to weather and in the event of a Southerly gale special attention must be paid to vessel's moorings.

No facilities are provided for discharge of tank washings other than when a vessel is on the floating dock.

DENSITY: 1.025.

FRESH WATER: Available at all wharves, delivered by hose (4 hoses per vessel max.), 50 ton per hour, costing 58 cents per 1,000 gallons.

FUEL: Available at tanker discharging wharves.

DEVELOPMENTS: Container handling facilities: Thorndon Wharf Development – 38 acre reclamation, depths of water in excess of 40 ft. MLWS, two berths 950 long, working area behind berths of potentially 22 and 24 acres respectively; completion date 1971. It is also anticipated to dredge harbour entrance another 2 ft.

Roll-on Roll-off Terminals: 2nd Rail/Road Ferry Terminal by 1971.

Taranaki Street Terminal: Operative since June 1969, roll-on, roll-off berth 500 ft. long, stern bridge ramp, with sectional roadway able to be varied up to 20 ft. Other berth for conventional shipping 680 ft. long. New oil berth and mole, Point Howard.

GANGWAY/DECK WATCHMEN: Shore watchmen available at $2.50 hour.

OPENING/CLOSING HATCHES: Work normally carried out by stevedores. Only time crew are to open and close top hatches is when advised by stevedore. In case of hydraulic hatches in tween-decks crew are to open and close and not stevedores.

CERTIFICATES:

Customs Department require Ship's Register on arrival.

Marine Department require:

Load Line Certificate.
Tonnage Certificate.
Certificate of Registry.
Convention Certificate, i.e.
Safety Equipment Certificate.
Safety Radio-telegraphy Certificate.
Safety Construction Certificate.
Exemption Certificate (if any).
If passenger ship, Passenger and Safety Certificate.
Cargo Gear Register.
Certificates for all Cargo Gear, i.e. runners, spans, shackles, swivels, etc.
De-Ratification Certificate.

CUSTOMS ALLOWANCE: Tobacco: 200 cigarettes, or ½ lb. tobacco, or 50 cigars permitted for each crew member. Wine and/or spirits: One opened bottle spirits or wine for each crew member.

IDENTIFICATION CARDS: Not required.

CONSULS: United Kingdom and the Commonwealth Countries of Canada, Australia, India, Singapore and Malaysia have High Commissioners in New Zealand with Headquarters in Wellington.

Foreign Representatives: Argentine, Austria, Belgium, Bulgaria, Chile, China, Czechoslovakia, Japan, Netherlands, Norway, Panama, Poland, Portugal. South Africa, Sweden, Switzerland, Thailand, U.S.A., U.S.S.R., Yugoslavia, Denmark, Ecuador, Finland, France, Germany, Greece, Indonesia, Ireland, Italy.

REPAIRS: Major repairs can be undertaken. There are machine shops and foundries. Diving equipment and the services of trained divers are available for underwater inspections and repairs.

DRY DOCKS: *Floating Crane.* Harbour board has an 80 ton revolving and self-propelling floating steam crane of sufficient radius and height to serve the largest vessels when floating in light draft condition.

Floating Dock. A floating dock capable of lifting a vessel of 17,000 tons displacement is available.

REPATRIATION: Facilities are available for crew changes and arranging any necessary repatriations.

AIRPORT: Situated 4½ miles South-east of City Wharves by road; regular internal and Australian services.

TIME: Local time is GMT plus 12 hours throughout the year.

HOLIDAYS: New Years Day (1st January); Wellington Province Anniversary Day (22nd January); Waterside Workers Union Picnic Day (Wednesday of the week in which 29th January falls); Good Friday; Easter Monday; Anzac Day, (25th April); Sovereign's Birthday Observance (first Monday in June); Labour Day (fourth Monday in October); Christmas Day (25th December); Boxing Day (26th December).

POLICE/AMBULANCE/FIRE:

	Routine	*Emergency*
Wharf Police	47–000	Dial 111 and ask operator for service required.
Ambulance	555–999	
Fire Brigade	50–188	

TELEPHONES: Vessels may be connected to telephone system at city berths by application to the Harbour Master.

SHORE LEAVE: Crew members are allowed ashore at all times.

AUTHORITY: Wellington Harbour Board, PO Box 893, Wellington. Queen's Wharf, Jervois Quay, Wellington.

WHANGAREI: 35.53 S. 174.32 E.

DOCUMENTS: See "Wellington".

PILOTAGE: Compulsory.

Pilots embark on the line of leads 141°/132° at the seaward extremity of Pilotage District i.e. up to 1½ miles south-eastward of the Fairway Buoy. In heavy easterly weather, it may be necessary for Pilot Vessel to lead ship, in through the outer channel and embark in the lee of Frenchman Island.

Pilots are available at all hours day and night, subject only to notice of arrival. The Pilot supplies a set of Harbour By-Laws. Pratique, agriculture and Customs clearance, is normally undertaken on arrival at berth. Pilot boat is equipped with VHF. Working frequency is Channel 12, but Channels 6, 8 and 16 are also fitted. Pilot Vessel Manaia – Call Sign ZM3830, Pilot Vessel NGAPUHI – Call Sign ZM2146. Range approximately 20 miles.

ANCHORAGE: Is situated 5 to 10 cables eastward of the Fairway Buoy in 12 to 20 fathoms of water in the section enclosed by the Fairway Buoy bearing 225° T to 315° T. Holding ground good in fine sand, but exposed to easterly weather.

Harbour Anchorage. At Marsden Point, 2 cables west of Passage Island Light, in 12 fathoms of water. Good holding ground, sand and shell bottom.

RESTRICTIONS: Controlling depth in Entrance channel 49 ft. L.W. Depth in harbour channel to Port Whangarei is 23 ft. L.W. Tankers berth in daylight hours only.

MAX. SIZE: Tankers: Up to 50 ft. draft. Marsden Point: 600 ft. length, 28 ft. draft. Port Whangarei: 575 ft. length, 25 ft. draft.

HEALTH: All vessels examined by Health Officer on arrival.

RADIO: The Station is Marsden Point, Wei. Call sign A.K.L.W. A continuous 24 hour watch is maintained. VHF continuous listening watch on Channels 16 and 12. Working frequency channel 12 range 40 miles. Medium frequency – continuous listening watch on 2182 k/cs. working frequency 2012 k/cs., range 200 miles.

TUGS: Available. Tugs equipped with VHF.

Tugs usually secure to vessels entering in vicinity of Frenchman Island. Numbers of tugs normally used are 1 tug for vessels up to 25,000 tons dwt, 2 tugs for vessels up to 45,000 tons dwt, 3 tugs for vessels up to 65,000 dwt, 4 tugs over 65,000 dwt. Unberthing one tug is normally required for vessels under 25,000 tons dwt, and two tugs for all other vessels.

BERTHING: Marsden Point Crude Oils Berths (2) – for New Zealand Refining Company, Marsden Point.

Maximum draft 50 ft.

Marsden Point Cargo Berth (1): maximum draft 28 ft., any one vessel 600 ft.

Port Whangarei Berths (2): maximum draft 25 ft., Any one vessel 575 ft.
Portland Berths (2): cement berth: maximum draft 18 ft., any one vessel 270 ft.; cargo berth: maximum draft 18½ ft., any one vessel 350 ft.
Vessels of 40,000 tons dwt and upwards are usually berthed portside to berth.
STEVEDORES: Confirmation of arrival time four hours before ETA or revised ETA, whichever is earlier is required. Notice of arrival during a weekend or public holiday must be given not later than 1400 hours on the last working day preceeding arrival.
MEDICAL: Hospital and dental services available.
TANKERS: Are allowed to berth at any state of the tide and only during daylight hours. Ships gangway is required to be positioned 15 ft. to 30 ft. upstream of the hose connections.
Slop reception facilities are available.
DENSITY: 1025.
FRESH WATER: Available at 20 cents per 250 gallons, or part of thereof. If required at the oil refinery only limited supplies and is arranged by the refinery.
FUEL: Available from berths.
OPENING/CLOSING HATCHES: Usually carried out by Stevedores.
CERTIFICATES: See Wellington.
CUSTOMS ALLOWANCE: Tobacco 200 cigarettes or ½ lb. tobacco or 50 cigars permitted each crew member. Wine/spirit. one opened bottle wine/spirits for each crew member.
CARGO GEAR: No specific requirements except safety certificates.
IDENTIFICATION CARDS: Refinery passes are required when berthed at the Refinery Wharves. Passes are brought on board by Agent.
CONSULS: None.
REPAIRS: Small repairs only undertaken.
DRY DOCKS: None. Only slipway capable of receiving vessels up to 1,500 tons dwt.
REPATRIATION: Facilities exist.
TIME: GMT plus 12 hours No change.
HOLIDAYS: See Wellington.
POLICE/AMBULANCE/FIRE: Telephone 111 for emergency ask for service you require.
TELEPHONES: Available at wharves.
SHORE LEAVE: Allowed.
AUTHORITY: Northland Harbour Board, PO Box 141 and 269, Whangarei.

Nicaragua

CORINTO: 12.28 N. 87.11 W.

DOCUMENTS:

Clearance	1 visaed			
Crew List	3	,,	6	unvisaed
Store List	3	,,	6	,,
Passenger List	3	,,	6	,,
Cargo Manifest	3	,,	17	,,
Ballast Manifest	2	,,	6	,,
Health Declaration	—	—	1	,,
Passenger in Transit	—	—	8	,,
Mail List	—	—	9	,,
Bills of Ladings			1	complete set
Voyage Memorandum	—	—	9	,, sets
No Passenger List	—	—	9	,, ,,
Cargo Tally Books			18	books

Note: Documents must be legalised at the last port of call before proceeding to Corinto.
PILOTAGE: The Port Authority must receive in writing from Agents advice regarding vessels ETA 72 hours prior to vessels arrival and a confirmation 12 hours. There is no VHF apparatus in use, therefore all advice must be sent through Agents by cable via Balboa or Limon station. Pilotage is compulsory on all vessels exceeding 500 gross registered tons or exceeding 7 ft. draft. Pilot boards 1 mile off Isla de El Cardon.
RESTRICTIONS: The port is open 24 hours; however, entry is restricted in accordance with state of tide and draft. If vessel's draft exceeds 24 ft. entry has to be with the high tide. maximum permissible draft being 31 ft. at flood tide. Speed limit 8 knots in Corinto Bay, and 5 knots in vicinity of berths or other craft.
MAX. SIZE: Maximum permissible length 650 ft., 80 ft. beam, 31 ft. draft.
HEALTH: After entry and vessel has berthed or anchored, three long blasts are given requesting free pratique; after these blasts the Authorities board the vessel together with the Agent's representative and proceed with distribution of the documentation. In the event of any suspected disease on board, the action to be taken will be given by the Representative of the Health Department. There is no automatic pratique even though vessel is proceeding from another port in the same country.
RADIO: ETA cables are generally routed via NBA Balboa Station or TIM Limon Station, and received through Tropical Radio & Telegraph or All America Cable.
TUGS: Compulsory for berthing and unberthing. The tug joins vessel just after vessel passes Buoy No. 7. Tug's lines are generally used: however, at times ship's lines are used. There is no charge for use of tug's lines.
BERTHING: There is no preferential berthing, and berthing is indicated by the Port Authority. Vessels are attended to in the manner "first come first served".
STEVEDORES: Working hours 0700–1200, 1300–1800, 1900–2330, Monday to Saturday. Outside these times, overtime is charged. The deadline for ordering gangs is 21:30 hours; therefore if a vessel intends working overtime the Port Authority must be advised regarding vessels ETA and number of gangs required prior to ship's arrival.
MEDICAL: There are several doctors in the port and most of the Agents have a particular doctor to their service. Hospital facilities are also available. No particular inoculation is required.
TANKERS: The only tankers which frequent this port are those of Esso Standard, Parcel Tankers and the Athel Line. There is only one tanker berth and each of the above-mentioned companies have their particular load/discharge lines.
The Esso tankers only discharge oils, the Athel tankers load out molasses, the Parcel tankers discharge solvents and occasionally others load out cotton seed oil.
DENSITY: 1025.
FRESH WATER: Fresh water is available and is supplied from connections on the pier, by gravity at a rate of approximately 10 tons per hour. The cost is US$0.20 per ton.
FUEL: The only fuel available at this port is diesel.
PORT DEVELOPMENTS: Projected installation of bulk handling plant, additional warehouses and extension of pier 1,500 ft. with 2 transit sheds, new administration building, stevedores shed, equipment shed and repair shops; redesigning of range lights and buoys and increasing amount of same, also area for Industrial Park.
GANGWAY/DECK WATCHMEN: After entering, 2 Custom Officers are placed on board all vessels and their meals must be furnished on board.
OPENING/CLOSING HATCHES: If vessel is equipped with regular hatch boards or pontoons, stevedores open and close hatches as well as swing out booms. However, if covers are of the McGregor type or mechanical, the crew has to do the job.
CERTIFICATES: Ship's Registry Certificate is required from ships making their first call at the port.
CUSTOMS ALLOWANCE: There is no limit on tobacco allowance to be held out of Bond but crew members are only permitted to take two packages of 20 cigarettes ashore. Crew not permitted to take any alcohol ashore. Anyone trying to do will be subjected to heavy fines.
IDENTIFICATION CARDS: All crew members except Officers are requested to submit to the gangway watchman, proper identification with a photograph such as seaman book or passport.
CONSULS:

Denmark	Costa Rica
France	Panama
Mexico	Colombia
El Salvador	Venezuela
Guatemala	Ecuador

REPAIRS: There are no repair shops available only for minor welding jobs.
AIRPORT: The airport is approximately 160 kilometres from the port and served by regular airlines with daily flights.
REPATRIATION: Yes, repatriation can be effected.
TIME: Local time is Central Standard Time – GMT minus 6 hours. There are no alterations during the year.
HOLIDAYS: January 1st; Holy Thursday; Good Friday; 1st & 3rd May; 14th & 15th September; October 12th; December 25th. Cargo work can be arranged on these days.
POLICE/AMBULANCE/FIRE: Police 269; Ambulance 313; Fire 421.
SHORE LEAVE: Crew members are allowed shore leave.
AUTHORITY: Autoridad Portuaria de Corinto, Apartado Postal No. 11, Corinto, Nicaragua, C.A. Tel. 211/215. Telex 27. Cable Address: Portuaria.

PUERTO CABEZAS: 14.01 N. 83.23 W.

DOCUMENTS:
1 Clearance from Last Port.
10 Voyage Memorandums.
11 Crew Lists.
10 Passenger Lists.
10 Stores Lists.
1 Bill of Health.
12 Ballast Manifests.
13 Manifests of Cargo.
4 Bills of Lading.
10 sets Tally Books.
PILOTAGE: ETA required 24 hours before arrival at the port. The Pilot uses a boat with an outboard motor and boards about one mile off the port. Agent advises the Pilot the date of arrival, he goes out when he sees vessel.
ANCHORAGE: Vessels can anchor about half mile South of the wharf. Depths in anchorage 20–22 ft.
MAX. SIZE: Maximum length, 400 ft. Draft 19 ft. 6 in. Difference between high and low tide is 18 in.
HEALTH: The inspection takes place on arrival. It is not necessary when the vessel comes from some other port in Nicaragua.
RADIO: The Nipco has a radiophone for personal use, but they make contacts with vessels. The frequency is 2738. It is better to use or send radiogram via Radio Tropical in Managua.
TUGS: There is no tug service.

BERTHING: There is wreck in front of the wharf. The location is: 14° 0′ 57″ North, 82° 22′ 4″ West, 1,200 yd. from wharf end.
STEVEDORES: The Agent advises stevedores arrival of vessel. They discharge 6.25 tons of general cargo each hatch (one gang) per hour. Loading and discharging rate is $3.00 for each 1,000 BM ft.
MEDICAL: Not necessary to advise the need of a doctor, only for emergencies. One hospital and two other doctors, apart from the official doctor of the port.
TANKERS: There are two pipes of 6 in. diameter on the wharf. There is no special berth for oil tankers.
DENSITY: 1025.
FRESH WATER: The fresh water is carried to the wharf by truck or from one pipe on the wharf. Cost of water for boilers is $2.00 per ton and cost of fresh water is $4.00 per ton. The boiler water gets to the vessel by the pipe on the wharf. The difference in price with the fresh water is because it is transported by truck.
FUEL: Gasoline, diesel oil and lubricants are supplied by Texaco. Arrangements are made at the arrival of the vessel.
DEVELOPMENTS: Expected in the near future to have some grain loading equipment installed for the export of grain in bulk.
WATCHMEN: If vessel wants watchman on board, it costs $2.50 per 12 hours for each one. It is not obligatory. It is customary to have two custom guards in the gangway. When vessel is working, they get pay $0.72 per hour and when the vessel is not working they get pay $0.57 per hour.
OPENING/CLOSING HATCHES: The opening and closing of hatches is done together by the crew of the vessel and the stevedores.
CUSTOMS ALLOWANCES: Each of the crew can take 2 packs of cigarettes with the seal broken, and one bottle of wine or liquor opened.
IDENTIFICATION CARDS: Not needed, just passport or seaman's book.
CONSULS: Only consul of Panama available locally.
REPAIRS: Minor repairs only can be effected.
REPATRIATION: It is possible and only a passport needed. Necessary to go to the capital by air, thence to any part of the world.
AIRPORT: Distance of airport from wharf is about 2 kilometres. Service every day to the capital except Sundays and holidays. The name of the only airline is Lineas Aereas de Nicaragua (Lanica).
TIME: Local time is Central Standard Time, GMT minus 6 hours.
HOLIDAYS: Holidays are 1st January; Holy Thursday; Good Friday; 1st May; 14th and 15th of September, 12th October and the 25th December.
SHORE LEAVES: The crew is allowed to go ashore after the vessel is received by the Authorities.
DELAYS: Delays in berthing can be expected from bad weather.
AUTHORITY: Autoridad Portuaria de Puerto Cabezas.

PUERTO SOMOZA: 12.12 N. 86.46 W.

DOCUMENTS:
Clearance from Previous Port.
6 copies Voyage Memorandum.
6 Stores Lists.
6 Passenger Lists or negatives, 3 to be visaed.
6 Crew Lists.
6 Cargo Manifests, 3 to be visaed.
6 Lists of Mail, Explosives or Drugs if carried.

Nine crew lists and six store lists should be despatched by the Nicaragua consul at loading port if possible, otherwise they are forwarded by Agents from the Panama Canal.
PILOTAGE: No local Pilots. Leading lights are installed, at the entrance to the port, prominently sited on a hill. Several buoys indicate exact anchorage positions.
TANKERS: A Pilot is provided by the oil company in agreement with the Panama Canal Authority. Pilot boards about half a mile West of the sea berth.
ANCHORAGE: About one and three quarter miles off port entrance, depth is 30 ft. at low water, and about 45 ft. at high water.
RESTRICTIONS: Port is open day and night without exception.
MAX. SIZE: Anchorage suitable for vessels up to 25,000 tons. Tankers: see below.
HEALTH: Port Health inspector boards all vessels on arrival.
RADIO: There is a radiotelephone installation at the Customs office.
TUGS: Not available for manoeuvring vessels. Five small tugs employed for shifting lighters.
BERTHING: No quays for ocean-going vessels. Vessels work cargo to lighters at the anchorage.
STEVEDORES: Port has four gangs of forty men each for boarding vessels.
TANKERS: *Sealine Terminal.* The sea berth is situated in approximate location 12° 10′ N. 86° 49′ W., about two miles off shore in a depth of 47 ft. There are five mooring buoys, two at the bows and three at the stern of the vessel. The first lines to the buoys should each consist of two good ropes lashed end to end to effect the length required. Five lines are normally used at each end of the vessel.

Strong winds may delay berthing or cause vessel to vacate the berth once moored. Sailing at night is not recommended for safety reasons. The discharge hose is lifted on the port side by ship's crew.
MEDICAL: Doctor available in case of emergency. Nearest hospital at Managua.
FRESH WATER: Not available for supply to ships.
FUEL: Not available for supply to ships.
OPENING/CLOSING HATCHES: Normally performed by stevedores. Mechanically operated hatches are opened by ship's crew.
CUSTOMS ALLOWANCES: Each crewman allowed two packets of cigarettes. No wine/spirits allowed to be taken ashore.
IDENTIFICATION CARDS: Seaman's Book required for going ashore.
CONSULS: Nearest at Leon, 35 km. distant.
REPAIRS: Small items for repair can be sent to Managua. 75 km. away.
REPATRIATION: No facilities for crew changes. If crew member left behind, Agents are responsible for his repatriation at vessel's expense.
AIRPORT: Las Mercedes international airport at Managua, 75 km. away.
TIME: Central standard time, GMT minus 6 hours. No alterations.
HOLIDAYS: All holidays can be worked.
POLICE/FIRE/AMBULANCE: Police available locally. Nearest fire and ambulance stations are at Leon, 35 km. away.
AUTHORITY: Administracion de Aduana. Puerto Somoza.

Nigeria

BONNY: 04.25 N. 07.13 E.

DOCUMENTS:
12 Crew Lists.
12 Passengers Lists.
4 Arms and Ammunition Lists.
4 Livestock Lists.
4 Ports of Call Lists.
1 Bonded Store List.
2 Vaccination Lists.
8 Manifests.
2 Bills of Lading.
2 Crew Declaration (Special List).

PILOTAGE: Pilot station at Bonny, 15 miles from Fairway Buoy, Harbour Master listening on VHF 14 and 16 as well as 2182 from 0700 to 1800. Pilot boards at Fairway Buoys, pilot cutter green hull stone colour superstructure. Manropes essential. No radio station, but Shell/BP listening VHF 16, call: Tankfarm.

Position of Fairway Buoy: 4° 12′ 56″ N., 7° 00′ 28″ E.
ANCHORAGES: West of Fairway Buoy: depth 8–9 fathoms.
RESTRICTIONS: Presently (October 1970) berthing restricted to day-time only, special permit for night-movements can be given.

Sailling draft is restricted by a depth of 33 ft. in the channel. The height of tide is 6–8 ft., but local Pilots require an under-keel clearance of 2 ft. 6 in. to 4 ft. depending on seasonal weather conditions. At the berth the water depth is over 48 ft., density about 1015.
MAX. SIZE: Maximum length 1060 ft., beam no restriction draft about 37 ft. depending on tide and keel clearance.
HEALTH: Q-flag to be shown on arrival, except if from another Nigerian port, Yellow fever and small-pox inoculations compulsory. In case of suspected disease on board, advance notice to Agent advisory.
RADIO: Lagos Radio.
TUGS: Not available.
BERTHING: Four buoy berths for tankers. No slop discharge facilities.

Vessels berth on flood tide using the starboard anchor. 5 in. wires are taken from three buoys aft and two forward. The port derrick must be used for hose handling. An accommodation ladder is required on the port side.

Crude oil is loaded via 32-in. submarine line with two 12 in. hose connections to the ship. Loading rates up to 6,500 tph.
MEDICAL: No hospital at Bonny, nearest at Port Harcourt.
DENSITY: Channel 1020; berth 1015.
FRESH WATER: From barge, 15 ton/hour, 11/6 per ton, advance notice required as barge comes from Port Harcourt.
FUEL: Not available.
CUSTOMS ALLOWANCES: 200 cigarettes per man per 7 days. 1 wine or 1 btl spirit per officer per 7 days.
IDENTIFICATION CARDS: Crew to carry passport or seaman's book whilst ashore.
CONSULS: Nil.
REPAIRS: Nil.
REPATRIATION: Possible via Port Harcourt and Lagos.
AIRPORT: 28 miles by river, to Port Harcourt, then 7 miles by road, twice daily to Lagos, no international flights.
TIME: GMT plus 1, no change.
POLICE/AMBULANCE/FIRE: Contact Via Harbour Master or Shell/BP, VHF 14 or 16.
SHORE LEAVE: No restrictions.
SPECIAL PRECAUTIONS: Masters are recommended to maintain extra watches by ships personnel to prevent pilfering. Masters should pay particular attention to any special instructions advised by the Agents.

Topping off cargo outside the channel. Terminal operations will advise procedure if required.

AGENTS: Scanship (Nigeria) Limited, PO Box 432, Port Harcourt, Tel. 8053, Telex Scanship Lagos 44, att. Port Harcourt. Cables: Scanship.

BURUTU (incl. WARRI): 05.21 N. 05.31 E.

DOCUMENTS:
7 Ports of Call Lists.
5 Crew Lists.
5 Kroo boy Lists.
2 Animal Lists.
2 Arms and Ammunition Lists.
9 Manifests.
2 Summaries.
1 extra Manifest for transshipment cargo.
3 Stores Lists.
2 Crew Declarations.
2 Inward Reports.
2 NPA Master's Declaration.
2 NPA ship's particulars.
1 Customs Clearance.
1 Declaration of Health.
1 Vaccination List.

PILOTAGE: No compulsory pilotage, local pilots or rather river guides, available at Escravos. No communication is possible with these guides from Burutu.

ANCHORAGES: One anchorage known as "the pool", opposite Okorodudu Town; maximum draft for pool anchorage 14 ft. MLWS. Further anchorage at Forcados for vessels waiting to proceed to Burutu or Warri.

MAX. SIZE: Restricted only by draft. Official depth 21 ft. MLWS, governed by actual depth on Escravos bar which does vary from time to time. Latest information always available from Nigerian Ports Authority, Lagos.

HEALTH: International pratique regulations prevail. Pratique *not* necessary where vessels from another port in Nigeria.

RADIO: Station, Port Burutu. Watch kept from 0730–1200, 1400–1700 on week-days and 0730–1200 on Saturdays on 2182 kc/s R/T and channel 16 VHF.

TUGS: No tugs available.

BERTHING: No specific requirements to berthing. Berth number is hoisted on flagpole situated on No 4 berth. Ships berthed in order of arrival.

Warri

1	Buoys Fore and Aft	525 ft.	21 ft.
2	Buoys Fore and Aft	525 ft.	21 ft.
3	Single Buoy	No limit	21 ft.
4	Holt's Wharf Private	525 ft.	21 ft.

Burutu

Two vessels normally berth alongside the wharves. The main wharf being some 750 feet in length and a smaller wharf of some 300 feet. There is plenty of water alongside these berths and the depth that a vessel can load to is controlled by the Burutu flats which is 13 feet.

STEVEDORES: Advice given on radio during transit Escravos–Burutu is quite adequate. Normal rates approximately 13/15 ton per hook hour.

MEDICAL: Fully equipped hospital under supervision of resident European medical officer situated at Burutu.

TANKERS: Only small coastal tankers use Burutu to periodically replenish bulk tanks, which have capacity for 1,800 tons gas oil and 900 tons fuel oil, used primarily for consumption by local vessels.

DENSITY: Fresh water.

FRESH WATER: Limited amount available in wet season from shore line at rate of 4 tons per hour.

FUEL: No fuel available.

FIRE PRECAUTIONS: Small fire station situated in port area. No specific fire precautions required.

GANGWAY/DECK WATCHMEN: Considered advisable have gangway/deck watchmen. Charges 2/6 per hour week-days, 3/- per hour Sundays and 4/- per hour on public holidays.

OPENING/CLOSING HATCHES: Normally carried out by stevedores, except in ships fitted with Mcgregor hatches.

TOBACCO/WINE ALLOWANCE: 200 cigarettes; part bottle.

IDENTIFICATION CARDS: Either discharge books, or passports advisable.

CONSULS: No consulates at Burutu.

REPAIRS: Dockyard has four slipways which can accommodate most creek and river vessels up to tonnage of 600 tons. Management of dockyard in hands of qualified European engineers who are able carry out afloat, hull and/or machinery surveys as required. Limited deck, hull and engine repairs can be carried out.

REPATRIATION: Facilities exist for individuals but not for crew changes.

AIRPORT: Small airstrip one and a half hours away by launch, where daily scheduled flights by small twin-engined aircraft operate to Lagos.

TIME: GMT plus 1.

HOLIDAYS: January 1/2, March 9/10, April 12/15, June 8, October 1, December 25/26. Cargo may be worked on all these holidays except Christmas Day.

POLICE/AMBULANCE/FIRE: No telephone numbers – all these services available in port area.

TELEPHONES: Facility available for connecting telephones on board.

SHORE LEAVE: Crew members allowed ashore.

PORT AUTHORITY: Although authority for port is Nigerian Ports Authority administration of port is carried out by Niger River Transport, United Africa Co. of Nigeria Limited, Burutu.

AGENT: Scanship (Nigeria) Ltd. 4 Khalil Road, P.O.B. 374, Warri. Tel. Warri 341.

ESCRAVOS: 05.30 N. 05.00 E.

DOCUMENTS:
7 Ports of Call Lists.
5 Crew Lists.
2 Arms and ammunitions Lists.
3 Stores Lists.
2 Crew Personal Effects Lists.
Declaration of Health.
List of Vaccinations.

PILOTAGE: Vessels should approach berth from Westerly direction. Mooring Master boards about 2 miles seaward of storage tanker. Storage tanker 790 ft. long, situated about one mile from the buoy berth, marked by 3 lights in vertical line, red, white, red.

RESTRICTIONS: Berthing carried out day and night. No length limitation. Depth of water at the berth is 69 ft.

ANCHORAGE: Vessels waiting for berth should anchor Northwest of storage tanker in depths of 9–10 fathoms.

TUGS: None available.

BERTHING: Vessel moors heading N.W. using both anchors forward and 14 lines to 7 buoys in a semi-circle astern, 26 in. submarine line from storage tanker terminates in 10 in. flexible hose, lifted on the starboard side.

BALLAST: No facilities for reception of dirty ballast. Tankers must arrive with clean ballast only. Oily water must not be discharged overboard.

FRESH WATER: Not available.

FUEL: Not available.

DEVELOPMENTS: Imodco buoy mooring to be brought into operation.

REPAIRS: Terminal is situated in open and unsheltered roadstead and vessel must be ready to leave berth if required at all times. Engines must not be immobilised while at the berth.

REPATRIATION: There are no facilities for crew change and repatriation.

SHORE LEAVE: Not possible.

AUTHORITY: Gulf Oil Company (Nigeria) Limited, Private Mail Bag 2469, Lagos. Cables: "NAGOC LAGOS".

LAGOS: 6.27 N. 3.25 E.

DOCUMENTS: See Burutu.

PILOTAGE: Compulsory. Hoist "G" flag. Agent to give notice of ETA to Harbour Master as early as possible. VHF channel for Pilot 11. No pilot boat stationed outside.

ANCHORAGES:

	Length	*Draft*
Pool 1	450 ft.	24 ft.
Pool 2	600 ft.	28 ft.
Pool 3	450 ft.	26 ft.
Pool 4	450 ft.	26 ft.
Pool Buoy 5	350 ft.	19 ft.
Badagry Creek	300 ft.	16 ft.

RESTRICTIONS: Draft only.

MAX. SIZE:

	Length	*Draft*
Marina Buoys	700 ft.	26 ft.
Container Berth	720 ft.	27 ft.
Pool	600 ft.	28 ft.
APQs	600 ft.	27 ft.
Customs	520 ft.	24 ft.
PWA	580 ft.	25 dt.
BOP	500 ft.	26 ft.
Ijora	400 ft.	19 ft. 6 in.

HEALTH: Port Health Officer boards vessel on arrival. ETAs must be advised by ship or Agent direct to Port Health. Pratique automatic when from Nigerian port.

RADIO: Lagos Radio.

TUGS: No specific joining position, depending on tide and on Pilot's request, otherwise close to berth. Normally tug's line used. 2 tugs available 1,280 HP. 24 hour service available.

BERTHING: No specific arrival times required for berths, except for Petroleum Wharf where tankers need high water. Ebb tide required for Fish Wharf and Ijora Wharf.

BRIDGES: None.

STEVEDORES: Available.

RADAR/VHF: No port radar. Continuous VHF watch on Channels 11 and 16 maintained in Harbour Master's Office. Signal Station Channel 11.

MEDICAL: Agents to be given advance notice of medical attention required as early as possible. Hospital facilities available. International Certificates of smallpox and yellow fever required.

TANKERS: Length 580 ft. Draft 25 ft. (FW).

DENSITY: 1012.

FRESH WATER: Delivery by barges at between 20 to 40 tons per hour, approx. 11/3d. per ton. Advance notification needed.

FUEL: Fuel oil available, coal bunkers obtained from Ijora Wharf.

FIRE PRECAUTIONS: Tankers and vessels with explosives: fire-boat always in attendance with fire-control depot ashore working in conjunction with the Harbour Master on VHF Channel 11. Port area tugboats also equipped for fire fighting.

GANGWAY/DECK WATCHMEN: Advisable, available if required.
OPENING/CLOSING HATCHES: Stevedores/crew.
CUSTOMS ALLOWANCES: Tobacco allowance: 200 cigarettes per person reissue after 8 days. Wine/Spirit: One part bottle reissue to officers after 4 days.
IDENTIFICATION CARDS: Passports or identity cards.
CONSULS: Most countries maintain Embassies/High Commissions or Consuls.
REPAIRS: Major repairs available.
DRY DOCKS: Authority maintains large well-equipped dockyard which primarily for maintenance of Authority's own fleet, provides facilities to commercial interest. In installation is modern floating dock which has lifting capacity of 4,000 tons. Slipways also available for use of small craft.

In addition to facilities offered by Authority's dockyard, major shipping agencies in port maintain dockyard installations, including slipways for raking smaller vessels and lighters; can provide first-aid repair for main line vessels.
REPATRIATION: Facilities available for effecting crew changes and arranging any necessary repatriations.
AIRPORT: 8 miles from airport, which served by regular airlines.
TIME: GMT plus 1 hour.
HOLIDAYS: Fixed: New Year Day (1st January); National Day (1st October); Christmas Day (25th December); Boxing Day (26th December). Variable: Good Friday; Easter Monday; Eid-El-Fitir Festival; Eid-El-Kebir Festival; Maolud Nabiyyi (Mohammed's Birthday).
POLICE/AMBULANCE/FIRE: Police Apapa 45798, Lagos Custom 20020; Ambulance Apapa 41341/227; Fire Apapa 41741, Lagos Custom 20777, General Emergencies 999.
TELEPHONES: No arrangements for telephones on board.
GENERAL: 2 floating cranes 1×50 ton capacity, 1×100 ton capacity.
SERVICES: Small services available.
SHORE LEAVE: Crew members allowed ashore after clearance by Port Health and Immigration Authorities.
PORT AUTHORITY: Nigerian Ports Authority, 26–28 Marina,PMB 12588, Lagos. Tel. 26471.

AGENT: Scanship (Nigeria) Ltd. 38 Warehouse Road, Apapa. P.O.B. 2269, Lagos. Tel. 56276. Telex 244. Cables Scanship Lagos.

PORT HARCOURT: (incl. Okrika) 04.46 N. 07.01 E.

DOCUMENTS:
12 Crew Lists.
12 Passengers Lists.
4 Arms and Ammunition Lists.
4 Livestock Lists.
4 Ports of Call Lists.
1 Bonded Store List.
2 Vaccination Lists.
8 Manifests.
2 Bills of Lading.
2 Crew Declaration (Special Lists).

PILOTAGE: The Pilot Station for Port Harcourt is at Bonny, 15 miles from Fairway Buoy, 28 miles from Port Harcourt. The Harbour Master keeps watch on VHF Channels 16 and 14 and on 2182 from 0700 to 1800. As there presently is no radio station at Port Harcourt Masters should cable their Lagos Agent with a 48 hours ETA asking the Lagos Agent to pass the information to Port Harcourt. Pilot boards at Fairway Buoy from pilot-cutter green hull, stone colour superstructure.

Position of Fairway Buoy: 4° 12′ 56″ N., 7° 00′ 28″ E.

It should be noted that Bonny is an oil terminal and as such heavy traffic of tankers is continuous. If requested by Harbour Master to pass the channel from Fairway Buoy at Bonny and anchor at Bonny without Pilot, latest Notices to Mariners should be studied in order not to damage oil pipe-lines in prohibited anchorage areas.
ANCHORAGES: Position West of Fairway Buoy, depths 8–9 fathoms.
RESTRICTIONS: There is no pilotage after dark, and no navigation on the river after 1800 hours.
MAX. SIZE: Maximum draft is 25 ft. at high water, minimum depth in approaches 18 ft. datum. Max. length 600 ft. no restrictions on beam. Ebb tide reaches a max. of 3 knots off the berths and 2½ knots in the river, flood tide 2½ knots off berths and in the river.
HEALTH: Q-flag to be shown on arrival, except if from another Nigerian port, Yellow fever and small-pox inoculations compulsory. In case of suspected disease on board, advance notice to Agent advisory.
TUGS: Not available.
BERTHING: *Main Quay:* The main Quay is 3,459 ft. long and capable of berthing seven vessels, with drafts from 24 ft. to 26 ft.

The old quays at Port Harcourt have been completely reconditioned to enable them handle bigger ships. Dredging in front of these quays is in progress and when completed ships with drafts of up to 29 ft. will be able to use these berths.

Tanker Mooring Buoys. There is no wharf available for the use of tankers discharging bulk petroleum products. This operation is carried out from tanker mooring buoys discharging to shore installations by means of a floating pipe line. This buoy berth is capable of berthing tankers up to 585 ft.

Vessels berth and unberth on the flood tide during the hours of daylight only. Connection from ship to shore is by a floating pipeline of 6 in. diameter. Maximum rate of discharge is 350 tons per hour.

Coal Berth. Although the Coal Berth is situated within the Quay area, it is owned by the Government and operated by the Nigerian Railway Corporation. The berth consists of a central pier, carrying the conveyor belt and superstructure, and four dolphins, making the berth 500 ft. in length. The conveyor which has a capacity of 350 tons per hour is connected to storage hoppers of 3,000 tons capacity which are situated outside the Quay area.

B.O.P. Berth. This berth lies outside the Quay area, and is for the loading of palm oil by means of a direct pipe line from the installation of Bulk Oil Plants (Nigeria) Limited. It consists of a central "T" jetty with dolphins and is capable of berthing vessels up to 480 ft. in length. It is also used for the discharge of explosives as such cargo is not permitted to be handled across the general cargo Quay.

Oil is supplied by a 6-in. diameter pipe at a maximum rate of 250 tons per hour.

Okrika Oil Refinery: Okrika lies on the Bonny River, some 35 miles from Bonny Fairway Buoy. The approach is by a buoyed channel some 8 miles in length, dredged to a depth of 38 ft. chart datum. The river from Bonny to Okrika has been dredged as necessary and least depths are 29 ft. chart datum. Jetty at the oil refinery suitable for berthing coastal and ocean tankers up to 33,000 tons deadweight. The jetty is "L" shaped with a square dolphin at the end of the arm. Ocean tankers secure on the outside of the jetty making fast to two sets of mooring dolphins each end. The coastal vessels and barges are berthed on the inside of the jetty. Oil is supplied via gantry hoses on either side.
STEVEDORES: Gang requirements and hatch distribution should be included in 48-hours ETA cable to Agent. Discharging general cargo 8 tons per gang/hour, cement 15–20 tons per gang/hour, bagged cargo 20 tons per gang/hour, loading produce 15–20 tons gang/hour.
MEDICAL: Doctors available 24 hours, but limited supply of medicaments. General Hospital presently managed by USAID doctors. Yellow fever and smallpox vaccination required.
DENSITY: Appx. 1015 oz.
FRESH WATER: No restriction, from barge (15 ton/hour) quay (low pressure, max. 8 ton/hour), 11/6 per ton from barge, 8/4 per 1000 gallons from quay.
FUEL: Most standard lubricants available, but bunkers almost impossible as no bunker installations available (only by road-tankers) requirements by 48-hours ETA cable.
GANGWAY/DECK WATCHMEN: Recommended, 2/- per hour.
OPENING/CLOSING HATCHES: Normally by crew.
CUSTOMS ALLOWANCES: 200 cigarettes per man per 7 days. 1 wine or 1 btl spirits per officer per 7 days.
IDENTIFICATION CARDS: Crew to carry passport or seaman's book whilst ashore.
REPAIRS: Only very minor repairs available, no spares.
REPATRIATION: Possible via Lagos.
AIRPORT: 7 miles away, twice daily flights to Lagos, no international flights.
TIME: GMT plus 1 hour, no changes during the year.
HOLIDAYS: New Year (Jan. 1st); Id-El-Kabir (Feb. 16–17th); Good Friday and Easter Monday; National Day (Oct. 1st); Fasting Period (October 31st); Id-El-Fitri (Nov. 29–30th); Christmas Day (Dec. 25th); Boxing Day (Dec. 26th). The Muhamadan holidays are subject to changes. The port does not work on Dec. 25 and Good Friday, other days on overtime.
POLICE/AMBULANCE/FIRE: All can be contacted by tel. 999.
SHORE LEAVE: Allowed provided crew carry passport or seaman's book.

AGENT: Scanship (Nigeria) Limited, PO Box 432, Port Harcourt, tel. 8053. Telex Scanship Lagos 44 attention—Port Harcourt.

SAPELE: (incl. Koko) 05.55 N. 05.42 E.

DOCUMENTS:
Crew List.
Port of Call List.
Passenger List.
List of Arms and Ammunition.

These documents required by following Government Departments: Collector of Customs, Customs Preventive Service, Ports Health Authority, Police Authority/Immigration, Nigerian Produce Marketing Co., Nigerian Ports Authority NPA also require Inward and Outward Masters Declarations and all other documents such as Manifests and Bill of Lading, etc.
PILOTAGE: None.
ANCHORAGES: No laid-down areas.
RESTRICTIONS: None under normal conditions.
MAX. SIZE: Average length 400/450 ft., draft 16½ ft. plus tide for the day, minus Master's underkeel clearance.
HEALTH: Normal International Regulations, but between ports in Nigeria nothing required.
RADIO: No local radio station. ETA and ETD best passed via Lagos Radio to Lagos Agents who in turn advise local Agents.
TUGS: None available.
BERTHING: Berthing/unberthing normally done in daylight hours.
Sapele:

FLORO: 61.31 N. 05.02 E.

DOCUMENTS:
2 Manifests.
Crew List.
Provisions List.
Health Document.
Passenger List.

PILOTAGE: Nearest station Fedje (60′ 51′ N., 04′ 37′ E.). Distance to Florø harbour about 52 nautical miles. Pilotboat a white-painted cruiser-type marked "LOS" on both sides of bow.

Fixed watch on Fedje island covers both Holmengrå and Hellesøy. VHF Channels 8, 12 and 16 on M. wave. Listening first 10 minutes of every hour. ETA 24 hours before arrival. Telegram" Feielos". If bad weather, Pilot to be picked up on Eastern side of Fedje island.
ANCHORAGE: No anchorages close to pilot station. Florø harbour: space of ca. 1 square kilometre, depths from 15 to 30 fathoms.
RESTRICTIONS: Tide difference about 1·5 metres. Max. draft *entering* Florø harbour 36 ft.
MAX. SIZE: Entering Florø harbour: No restrictions in main harbour concerning length and breadth. Max. draft *berthing:* "Ankerløkken Ship Yard" 13 to 25 ft. in a length of 100 metres. "Fugleskjærkaia" 16 to 18 ft. in a length of 150 metres. "Gunhildvågen" (herring-factory) 25 ft. in a length of 120 metres.

NB. – "Gunhildvågen" lies outside main harbour, and has narrow entrance. Weather permitting, ships of 100 metres length and breadth 20 metres can pass.

STEVEDORES: ETA before 4 p.m. for gangs required next morning.
RADAR/VHF: Servicing can be arranged. VHF see "Pilotage".
MEDICAL: Hospital close to harbour, and available any time.
TANKERS: Harbour is only used by small tankers, about 500 to 1,000 reg. tons.
FRESH WATER: Only available alongside berth. Delivery 6 tons per hour at approximate cost of 4 crowns per ton in day-time.
FUEL: Ordinary fuel. Diesel and gas oil delivered by truck. Ships up to about 1,000 reg. tons receive oil-bunkers directly by berthing bunker station.
DEVELOPMENTS: In connection with harbour-works "Fugleskjærkai", to be built deep-sea pier (draft 30 ft.) length of about 105 metres and an area of about 9,000 square metres. Completion, earliest 1975.
GANGWAY/DECK WATCHMEN: Not required.
OPENING/CLOSING HATCHES: Mostly done by crew.
CREW IDENTIFICATION CARDS: Not required.
CONSULS: None.
REPAIRS: Most repairs possible.
DRYDOCKS: None.
AIRPORT: Harbour served by regular air transport (seaplanes twice a day). Airport to be completed 1971.
TIME: GMT plus 1 hour.
HOLIDAYS: Cargo work can be arranged any time, holidays included.
POLICE/AMBULANCE/FIRE: Police 2101; Ambulance 2521; Fire 2600.
TELEPHONES: Can be arranged on board alongside wharf at approximate cost of 300 crowns (kroner).
SHORE LEAVE: Permitted.
SERVICES: Servicing for all kinds of ships navigation instruments can be arranged, except adjusting radio bearings.
AUTHORITY: Harbourmaster's office tel. 2438, priv. 2602.

AGENT: K. Jansen, Shipping Agent, Stevedore, Shipbroker. Telephones: 2580–2303 A.O. 2222. Cable: Shipping. PO Box 15.

AGENT: Sev. Dahl A/S, Storgt 15, PO Box 128, 3101 Tønsberg, Ship and Insurance brokers, Lloyd's Agent, Chartering, sale and purchase of tankers and motor ships. Tel. 14027 – 14028 – 14432 – 14194. Telex 11557, "Sdahl". Telegram: "Severin", Tønsberg.

STAVANGER: 58.58 N. 05.44 E.

DOCUMENTS:
Declaration of Health, one copy.
List of Goods, including stores, one copy.
Crews List of Goods liable to duty, one copy.
List of Goods, two copies for each port of discharge. All bills of lading to be entered with marks, numbers, weight and quantity.
General List of Goods, one copy.
A form for entering ports of call where discharging will take place.

PILOTAGE: Vessels approaching from sea and desiring a Pilot should order at least 24 hours notice in so far as possible and confirm arrival at pilot station at 2 hours notice. Advance order can be sent in following manners:

(*a*) From ships at sea over radio direct to sea pilot watch (calling frequency 2182 kc/s, from two minutes past until ten minutes past each full hour, or over VHF radio-telephone calling, frequency 156.80 mc/s; Channel 16).
(*b*) From ships at sea over coastal radio station to pilot station or pilot office.
(*c*) From broker or shipowner over telephone to sea pilot station or to any pilot office which will immediately convey report to sea pilot station.

Vessels lying in port and desiring Pilot will order Pilot from nearest pilot office during its office hours and if possible at four hours notice.

Vessels approaching from sea as well as vessels lying in port shall when making an advance order state name and destination of vessel and whether one or two Pilots are desired.

Pilot will be despatched to ships in accordance with advance orders, and vessels are therefore requested to comply with foregoing rules as far as possible in order to avoid having to wait for Pilot.

International provisions for summoning Pilots by signal flags or blue lights, etc., are still in force, but should in future be used as a supplement to radio communications or as sole communication in emergencies.

Pilots are taken on board at:

A Feistein Lighthouse, 19 miles South of Stavanger, or in bad weather 6 miles North of lighthouse under the lee of Rott.

B Skudefjorden, 18 miles North-west of Stavanger. In bad weather under the lee of Karmøy or Kvitsøy, as weather permits.

Pilot boats are stationed at Tananger and Kvitsøy. No boats are out cruising.

ANCHORAGE: Found in the Byfjord, 3 nautical miles North of Stavanger. Harbour pilots recommended when anchoring.

MAX. SIZE: Largest depth alongside goods and passenger quays is 30 ft. Depth alongside oil refinery 16, 5 metres. Maximum draft for tankers, 48 ft.

TUGS: Normally not used.

STEVEDORES: No particular ETA advices required.

RADAR/VHF: No radar service for inner harbour. At Kvitsøy pilot station radar service may be obtained over VHF Channel 16.

MEDICAL: Agents should get advance notice to secure speedy service. Hospital facilities available.

TANKERS: Discharge at Sola refinery terminal where there are 3 berths, depth alongside up to 16,5 metres. It is intended to enlarge these facilities to accommodate 200,000 dwt. vessels with restricted draft.

DENSITY: 1.025, no change in relation to state of tide.

FRESH WATER: Delivered from quay or from water boat. Kr. 2,00 per ton.

FUEL: Normal grades available without advance notice.

GANGWAY/DECK WATCHMEN: Not required.

OPENING/CLOSING HATCHES: Usually carried out by crew.

CUSTOMS ALLOWANCE: Tobacco: 20 cigarettes per day. Wine and/or Spirit: Two bottles of wine or one bottle of brandy.

CONSULS: Germany, C. Middelthon, tel. 21.040; Denmark, Leifbuch Hansen, tel. 27.575; U.K. Colin W. Peck, tel. 23.652; Sweden, Charles R. Bergesen, tel. 27.500.

REPAIRS: All kinds of repairs available.

DRY DOCKS: One, 545 by 75 by 24 ft. Marine slipway up to 1,500 tons dw.

AIRPORT: 10 km. from port. Airlines to Continent, U.S.A.

TIMES: GMT plus 1 hour. No alterations during year.

HOLIDAYS: 1st January; Maunday Thursday; Good Friday; Easter Monday; 1st May; 17th May; Whit Monday; Christmas Day and Boxing Day.

POLICE/AMBULANCE/FIRE: Police tel. 31.520; Ambulance 21.500; Fire 22111.

TELEPHONES: There are arrangements for placing telephones on board.

SHORE LEAVE: No restrictions.
PORT AUTHORITY: Stavanger havnevesen, Stavanger. Tel. 32.045.

SUNNDALSORA: 62.41 N. 08.36 E.

REPAIRS: All types of deck and engine repairs are possible.
DRY DOCKS: One available with capacity of 3,600 tons deadweight and a floating dock for vessels of 8,000 DW.
REPATRIATION: Can be arranged.
AIRPORT: 35 km. away from port. Regular airlines.
TIME: GMT plus 1 hour.
HOLIDAYS: Christmas (2 days); Easter, April; 1st, 15th and 17th May; Whitsun 2 days; Sunday, Monday.
POLICE/AMBULANCE/FIRE: Police 27500; Ambulance 21–510; Fire 21–505.
SHORE LEAVE: Allowed.
PORT AUTHORITY: Trondheim Havnekontor, tel. 28015–28016.

VADSO: 70.04 N. 29.45 E.

DOCUMENTS:
Trade Certificate.
Tonnage Certificate.
Certificate of Nationality.
Number of Crew and Passenger Lists.
Customs and Health Documents.
Manifests and Bills of Lading.
PILOTAGE: Vessels approaching from sea and desiring Pilot should order at 24 hours notice and confirm arrival at Pilot Office, Vadso, at 2 hours notice. The advance order can be sent over coastal radio station to Pilot Office, the Harbour Master, Vadso, tel. Vadso 51235 or 51143. Harbour Pilot has to be taken on board in position Lat. 70° 45′ N. Long. 29° 41′ E.
ANCHORAGES: Anchorage for vessels up to 400 tons in basin, with depths varying between 14 and 21 ft. Larger vessels anchor W. of the mole in 16 to 20 m. Outer harbour inside breakwater, inner harbour, further to East. Entrance to inner harbour is by buoyed and lighted channel 1,560 ft. long and 115 ft. wide, this has been extended by the addition of a fishery basin 750 ft. long 800 ft. wide. Outer harbour is 1,000 ft. long, 700 ft. wide, depths 15 to 30 ft.
MAX. SIZE: Maximum length of vessel 300 ft. and breadth 45 ft. Draft 16 ft. Ship about 3,000 gross reg. tons.
HEALTH: Health documents necessary.

RADIO: Call Vardo Coastal Radio Station, through which contact by telephone Agent or Harbour Master or Vadso Harbour.
STEVEDORES: Stevedores arranged. Agent telephone 51395 Vadso.
TANKERS: Only small tankers can discharge. Discharging berth only for 500 gross reg. tons tankers, draft 13 ft.
FUEL: Gas and diesel oil. Water available on all quays.
GANGWAY/DECK WATCHMEN: Watchmen necessary. Master can use ship's crew as gangway and deck watchmen. Not necessary to use watchmen from the Watchmen Service.
CUSTOMS ALLOWANCE: Tobacco: Wine/Spirit: For 10 days, each crew 200 cigarettes, or 200 grams tobacco. ¼ litre spirit, for each crew member.
CONSULS: Finland, tel. 51225 Vadso.
REPAIRS: Only smaller types of deck and engine repairs are possible.
AIRPORT: Distance to airport by sea 24 miles. By bus 160 km. Airport served by regular airlines; SAS two flights per day.
TIME: Local time, GMT plus 1 hour.
POLICE/AMBLANCE/FIRE: Police 51271 or 51593 Vadso; Ambulance 51845 or 51691 Vadso; Fire 51122 or 51554 Vadso.
PORT AUTHORITY: Harbour Authority, Harbour Master, tel. 51235 or 51143.

Ocean Island

OCEAN ISLAND: 00.52 S. 169.35 E.

DOCUMENTS:
Clearance from last overseas port.
2 Crew Lists.
4 Passenger Lists.
Bonded Stores List including Narcotics List (in duplicate).
Crew Store List (sometimes called search list or curio list).
4 Manifests.
1 International Health Declaration.
Documents to be completed when ship arrives Ocean Island:
List of unmanifested cargo; Passenger's Baggage Declaration, if any, 1 copy per passenger.
PILOTAGE: Pilotage available on request without charge and Masters advised avail themselves this service. Necessary that Masters, through Ocean Island Radio, inform telegraphic address "Phoscom Ocean" of ETA 48 hours before arrival, confirming or altering this 12 hours before arrival. Phoscom reply through Ocean Island Radio on receipt of second message giving time for vessel to close in to a half mile West of loading plants, where pilot will board. In case of adverse weather or congestion, Masters notified by radio or by VHF channel 16, 156·8 Mcs, with range of about 40 miles. Vessels handled inwards in daylight only, and should fly G flag when approaching island. A safe and clean pilot ladder should be provided, and a good lee made for pilot to embark.
ANCHORAGES: No anchorages available owing to extreme depths of water. Vessels waiting normally drift off and return at daybreak or when instructed to do so.
RESTRICTIONS: Tide and draft have no bearing on entry but normal not to handle vessels into berth in darkness. However, vessels are unmoored at all hours.
MAX. SIZE: Vessels have been handled up to overall length of 575 ft. Beam should not exceed 75 ft., draft limitations 34 ft. 6 in.
HEALTH: Masters of vessels approaching Ocean Island required to send telegram addressed "Quarantine Officer, Ocean Island" within 24 hours of arrival. Telegrams should state name of last port, date, presence of any infectious disease. On receipt quarantine officer will send reply indicating whether or not pratique granted. It is still necessary to fill out International Declaration of Health and hand to Boarding Officer after berthing.
RADIO: Ocean Island Radio station call sign VQK. Daylight range not great but traffic may be passed through C2N Nauru.
TUGS: No tugs required for berthing.
BERTHING: Such special requirements which relate to berthing are contained in a Letter of Advice to Ship Masters issued by the BPC.
STEVEDORES: As stevedoring is carried out by Phoscom, no separate advice required. Loading rate of bulk phosphate is as high as 1,300 tons per hour.
RADAR/VHF: No radar at Ocean Island. VHF Channel 16 156·8 Mc/s.
MEDICAL: Medical treatment can be given on short notice. Limited hospital facilities available, and emergency surgery can be carried out. Smallpox vaccination required, and cholera if vessel from infected area.
TANKERS: Maximum length 600 ft., no draft restrictions. Eight-inch discharge line to shore storage tanks.
DENSITY: Normal salt water all states of tides.
FRESH WATER: Island water imported, and water will be supplied only in emergency.
FUEL: Island stocks are imported for use in phosphate industry, and only limited quantities of heavy fuel or diesel oil available in extreme urgency.
GANGWAY/DECK WATCHMEN: Not required.
OPENING/CLOSING HATCHES: Carried out by crew.
CERTIFICATES: Deratisation certificate only.
CUSTOMS ALLOWANCES: Tobacco, 200 cigarettes or ½ lb. tobacco or 50 cigars for use on board; 25 cigarettes or 1 oz. of tobacco may be taken ashore for own personal consumption. Wine/Spirit, 1 bottle only for use on board; No bottles may be taken ashore.
CARGO GEAR: Cargo gear should be up to standard demanded in Australian ports.
IDENTIFICATION CARDS: Some form of identification, passport, discharge book, or identity card should be carried by crew members.
CONSULS: None.
REPAIRS: Small repairs such as welding, brazing, lathe work, etc., can be carried out, but only when essential to allow vessel to proceed on voyage. Main engines cannot be immobilised whilst the vessel moored to any section of buoy system.
DRY DOCKS: None.
REPATRIATION: Repatriation can be arranged. No facilities for crew changes.
AIRPORT: No airport at Ocean Island.
TIME: GMT plus 11½ hours.
HOLIDAYS: Christmas Day, New Year's Day, and Good Friday normally closed holidays. Other National holidays occur during year but normally work carries on, on these days.
POLICE/AMBULANCE/FIRE: All emergencies handled by Harbour Masters, one of whom remains aboard vessel throughout time vessel attached to mooring system.
TELEPHONES: Telephones are put aboard for use of island staff working vessel.
GENERAL: Shore labour normally boards vessel with pilot to assist in mooring to buoy system.
SERVICES: No special services available.
SHORE LEAVE: This may be granted at discretion of Master, but should in all cases terminate at 5 p.m.
PORT REGULATIONS: No vessel may immobilise main engines whilst moored to buoy system. Main engines should be on instant readiness, deck power should be available at all times, and vessel must proceed to sea when instructed to do so by Harbour Master.
DELAYS: Normally no delays expected. Vessels could wait a day, or possibly two due to port congestion, but this seldom happens, delays can occur due to adverse weather, duration of which unpredictable.
AUTHORITY: The Harbour Master, appointed by The British Phosphate Commissioners, Ocean Island. Telegraphic address Phoscom Ocean Island.

Oman, (Sultanate of)

MINA-AL-FAHAL: 23.39 N. 58.32 E.

DOCUMENTS:
2 copies Crew Lists.
2 copies Medical Attendance Forms required for ship's crews visiting doctor.
1 copy Arrival Report form (supplied by Berthing Master).
2 copies Maritime Declaration of Health.
3 copies Mail Lists.
PILOTAGE: Pilot boards in vicinity of anchorage. Pilot ladder to be rigged on port side and good lee provided. Port derrick to be rigged ready for taking on board mooring and hose connecting equipment at same time as Pilot boards.
ANCHORAGE: North of prohibited area in position approximately 1 mile E.S.E. of Fahal Island. Prohibited area enclosed by parallels 23° 40′ N. and coastline and meridians 58° 30.8′ E. and 58° 33.2′ E.
RESTRICTIONS: Open sea approaches.
MAX. SIZE: No length limitation. Draft up to 72 ft. Tankers up to 280,000 dwt. can be accommodated.
HEALTH: When advising ETA, include in message whether any sickness on board.
RADIO: ETA messages to be sent to Petro Muscat via Cable & Wireless Muscat Radio.

Operating Periods	*Frequencies*		*Traffic List*
GMT	*Calling*	*Working*	*Sent*
04.00–06.00	500	458	04.00
06.00–06.30	8714	8714	06.00
07.30–08.00	13128	13128	07.30
08.00–10.00	500	458	08.00

Radio-telephone calls by individual arrangements Muscat radio frequencies: Calling 2182 kc/s. Working 2607 or 3745 kc/s.
VHF Communications call sign Fahal Control. Channel 16 calling and safety. Working Channels 12, 13, 14 and 20. 24-hour listening watch maintained. Range approximately 50 miles from Northern approach and 20 miles from Eastern approach.
TUGS: None available and not required.
BERTHS: Single buoy moorings (SBM) with floating hose strings. *SBM No. 1*: 2×810 ft., 20 in. crude oil hoses (reduced to 16 in. at ship's end) and 2×840 ft., 8 in. bunker hoses. No. 1 also for F.O. imports and is VLCC berth. *SBM No. 2*: 2×720 ft., 16 in. crude hoses and 2×750 ft., 8 in. bunker hoses. *SBM No. 3*: 2×720 ft., 5800 tph, No. 2–5200. Bunker rate about 450 tph all buoys.
BERTHING: Vessels berth head on to buoy. Two 12 in. 110 ft. (150 ft. at SBM No. 1) nylon lines from buoy are secured on forecastle head, using equipment provided by Terminal. A suitable messenger rope should be ready for use (provided by the ship). No moorings aft. Berthing Master will advise mooring procedure.
HOSE CONNECTIONS: Amidships. Derrick must plumb over manifold and have minimum SWL 5 tons with equipment in good condition. Any reducers required will be supplied by Terminal.

Connecting and disconnecting by ship's personnel with advice from Berthing Master's Assistant.
MEDICAL: Emergency medical treatment from shore staff. No dentist.
BALLAST: No facilities for reception of dirty ballast.
DENSITY: Approximately 1026.
FRESH WATER: Not available.
FUEL: Fuel oil only available. Lubricants, quantity limited, supplied in drums only.
REPATRIATION: Crew changes and repatriation are not practicable at this port owing to complicated visa formalities.
TIME: GMT plus 4 hours all year round.
SHORE LEAVE: Not possible.
GENERAL: *Liquor.* Trading in liquor strictly prohibited and no alcoholic drink should be offered to Arab nationals.

Cargo Ships. Will anchor in one of following positions: (*a*) Fahal Island bearing 340 degrees (True) distance two miles. Water depth 42 ft. (*b*) Fahal Island bearing 350 degrees (True) distance 1¾ miles. Water depth 42 ft. (*c*) Fahal Island bearing 340 degrees (True) distance 1½ miles. Water depth 57 ft. The Portmaster will allocate an anchorage to incoming vessels.
AUTHORITY: Petroleum Development (Oman) Ltd., PO Box 81, Muscat, Arabian Gulf. Cables "Petro-Muscat". Telex Muscat 214.
AGENT: See "Bahrain".

MUSCAT: 23.37 N. 58.36 E.

DOCUMENTS:
Required on Arrival:
2 Copies Crew List.
1 Copy Maritime Health Declaration form with ports of call from commencement of voyage.
1 Copy Vaccination List.
3 Copies Passenger List.
3 Copies in transit Passenger List.
2 Copies Cargo Manifest.
3 Copies Hatch List.
To be airmailed in advance:
4 Copies Cargo Manifest.
1 Copy Freight Manifest.
1 Stowage Plan.
PILOTAGE: None available.
ANCHORAGE: In Muscat bay with Lighthouse (Fl. every 6 sec.) bearing 90° true.

Leading line is formed by a red light on a flagstaff and a white light, situated at a wall behind this flagstaff. The wall is built in a V shaped opening in the mountain. Both flagstaff and wall can be easily spotted.

It is not advisable for a large ship to proceed further into the bay. Ships, anchored in the above-mentioned position, are well sheltered from all winds, except those from Northerly direction.
RADIO: Muscat Radio keeps a listening watch on the international R/T call frequency of 2182 KHz. This service is available during the period 08.00–14.00 and 15.30–18.00 local time, Saturday/Thursday and 08.00–14.00 on Friday. Range 200 miles.
TUGS: None available.
BERTHING: All the import cargo is discharged at anchorage. Vessels anchor at the entrance of the bay ½ mile off shore.

Immediately next to Muscat, but in a separate bay divided by a high mountain lies the twin town of Muttrah. All export cargo is loaded at Muttrah where vessels also anchor at entrance of the bay ½ mile off shore.
STEVEDORES: The labour position is fair, except in the date-picking season June to August.

Total of 9 barges are available for landing cargo ex vessesl. Landing rates Bagged cargo: 4/600 tons per day; general: 200 tons per day; timber 100/150 tons per day during fair weather provided no congestion on jetty or in the bay and if cargo stowed in more than three hatches.
Working Hours: From sunrise to sunset.
FRESHWATER: Not available.
FUEL: Not available.
REPATRIATION: Crew changes and repatriation not practicable at this port owing to complicated visa formalities.
TIME: GMT plus 4 hours all year round.
AUTHORITY: Director General of Customs, Muscat.

Pakistan

CHALNA (Khulna): 22.35 N. 89.32 E.

DOCUMENTS: See "Karachi".
PILOTAGE: Compulsory. Master should in addition to usual ETA to agents keep in touch with pilot vessels stationed at Hiran Point about 45 miles from the base calling AQFA or AQFI, depending on which vessel is stationed at the time. Pilot vessels are equipped with radio and maintain regular watches on 500 metres from 0600 to 0800. 1000 to 1200, 1400 to 1600 and 1800 to 2000 local time. If a message is not being picked up, by Khulna Radio call sign ASV it should be relayed through Chittagong Radio or the pilot vessel.

Ships over 17 ft. draft are usually piloted on the flood to cross the bar and the pilot vessel, which has been in contact with the incoming ship leaves from Hiran Point, in time to coincide with the arrival of the vessels at the pilotage ground, situated about 7 miles North-west of Fairway "Lighted" buoy where ships can anchor in 9 fathoms of water. The channel from Fairway up to the Anchorage has been marked with lighted buoys and pilotage is done in daylight.

In rough weather and especially during the monsoon, ships are led into calm waters by the pilot vessel, which maintains close radio contact, and Pilots board inside the river.
ANCHORAGE: Chalna port consists of a sheltered deep-water anchorage at Mangla on Pussur River.

Depth of water 19 ft. to 45 ft. at LLWD. Distance from sea 64 miles.
RESTRICTIONS: Entrance to the Pussur river is about 6 miles wide at the mouth and has a bar over about 5 miles where the depth is 3 fathoms.
MAX. SIZE: Ships drawing up to 23 ft. can cross the bar in all seasons. In S.W. monsoons vessels up to 24 ft. 5 in. can be accommodated on spring tide.
HEALTH: On arrival at the mouth of the Pussur River, vessels are required to wireless "Quarantine" Khulna, giving health report, to avoid difficulties with Port Health Authorities.
TUGS: Two powerful tugs available to assist in emergency. Not required for berthing.
BERTHING: Fifteen swinging moorings and unlimited anchor berths. No jetty or wharves available in the harbour.
DENSITY: The density of water at the Outer Bar varies from 1.005 to 1.025 and at Mangla from 1.002 to 1.020.
FRESH WATER: Available by barges.
BUNKERS: Coal and fuel oil can be arranged in emergency cases. Usually 5 days notice required.
WATCHMEN: On orders from the Master, the stevedores will arrange to supply watchmen by day and night.
CARGO GEAR: All loading and discharging is performed by ship's derricks.
HOLIDAYS: Eid-ul-Azha (27th/28th February); Pakistan Day (24th March); Muharram (29th March); Eid e Miland un Nabi (29th May); Independence Day (14th August); Defence Day (6th September); Death of Quaid-e-Azam (11th September); Revolution Day (27th October); Jamat-ul-Wida (5th December); Eid-ul-Fitr (11th/12th December); Christmas Day (25th December).
DEVELOPMENT: East Bank of the Pussur River in the present harbour area has been selected for constructing a permanent port. First phase of the permanent port scheme would provide 8 general cargo berths, one foodgrain terminal, and one bulk cargo terminal with transit sheds, warehouses and cargo handling equipment, and also an oil terminal and one repair berth with slipway and workshop. Work on this project has already been started and it is expected to be completed by 1972.
GENERAL: Since there is no shore accommodation available at the Anchorage a Customs Officer and two Licensed Measurers have to be accommodated on board. Also a cabin or covered deck space has to be provided for the members of the stevedore company's staff.
AUTHORITY: Port Director, Port of Chalna, PO Town Khalishpur, Khulna, East Pakistan.

AGENT: See "Chittagong".

CHITTAGONG: 22.21 N. 19.53 E.

DOCUMENTS: *Before vessel's arrival:*
2 copies Freight Manifest.
2 sets Bill of Lading.
3 copies Stowage Plan.
15 copies Passenger List.
4 copies Cargo Manifest.
3 copies Hatch Lists.
1 copy Exception Lists.
2 copies Passenger Money Manifest.
With vessel:
2 copies Cargo Manifest.
Last Port Clearance.
Passenger Lists, disembarking and transit – 6 copies each.
Crew Lists – 4 copies plus 2 for Immigration Police.
List of favour Parcels 2 copies.
Currency declaration of ship's money, officers and crew.
Ships Stores Lists on local Customs forms. 3 copies.
Cargo Gear Certificates.
Deratisation Exemption Certificate.
International Load Line Certificate.
Radio & Safety Equipment Certificates.
PILOTAGE: Pilotage is compulsory. Pilots board and leave vessels at the Outer Anchorage.
ANCHORAGE: The Anchorage is considered safe and the holding ground is good. The bed of the river is soft mud and is harmless in case of grounding.
RESTRICTIONS: Though a river port, Chittagong is a tidal harbour, and presently ships enter and leave only on the day tides, therefore, ships should endeavour to arrive at least three hours before high water of the day's tide. The channel width for navigation is 800 ft. at its narrowest point. There are no signals or markers for night navigation.

During Spring tides vessels under 7 knots will not be handled. Vessels over 10 knots having efficient steering and bridge control, can be brought in with 9/12 in. more than the predicted draft for the day.

Vessels with a speed of over 10 knots but less than 500 ft. length overall and fitted with VHF radio telephone are entitled to an additional draft of 4 in.
MAX. SIZE: Anticipated safe drafts are predicted three months in advance. The depth of water over the Outer, Inner and Gupta Bars

is maintained at 12 ft. at low water throughout the year. The bars are situated at distances of half, one and 4-3/4 miles from the entrance. In order to calculate the draft for entering and leaving port, the depth of 12 ft. over the bars is added to the height of water in the tide tables for day tides. Tankers: see below.

HEALTH: All vessels must send the standard quarantine messages by radio. Vessels which have touched ports between port Sudan and Durban, on the East Coast of Africa including these two ports, or any other yellow fever port or other port on the continent of Africa, or ports which are declared from time to time as quarantine areas, are suspected vessels on account of yellow fever or jigger, or other infectious disease as the case may be and may not have communication with the shore till declared by the Port Health Officer, who attends only between sunrise and sunset, except in special circumstances. The incubation period for yellow fever is 9 days, but vessels arriving later than 9 days are still not free from quarantine because there is no incubation period for jigger.

TUGS: Available, under direction of Pilot.

BERTHING: Thirteen berths of varying lengths having a continuous jetty face of 7,000 ft. Twelve berths are equipped with cranes and all are rail served. In addition, there are two pontoon jetties, and two light jetties without cranes and rail tracks. These are suitable for 500 ft. vessels.

There are 8 mooring berths, of which 2 have pontoons for supporting pipe lines. The largest can take a 500 ft. vessel.

TANKERS: Crude oil tankers up to draft 34 ft. can be handled at offshore oil terminal. A special Pilot is required to place the tanker alongside the buoy.

FRESH WATER: Available from quays.

FUEL: All grades available at oil berths. Otherwise supplied by barge.

REPAIRS: Facilities for repairs available. No dry docks. Ships' engines may not be dismantled or immobilised whilst at berths or moorings without the prior sanction of the port Authority.

STEVEDORES: Working Hours, Monday to Thursday and Saturday day shift, 0730–1200 and 1330 to 1700. Night shift, 2000–2400 and 0000–0400. Friday, day shift, 0700–1130 and 1400–1700.

HOLIDAYS: Eid-ul-Azha (27/28th February); Pakistan Day (24th March); Muarram (29th March); Eid e Miland un Nabi (29th May); Independence Day (14th August); Defence Day (6th September); Death of Quaid-e-Azam (11th September); Revolution Day (27th October); Jamat-ul-Wida) (5th December); Eid-ul-Fitr (11th/12th December); Christmas Day (25th December).

CARGO GEAR CERTIFICATES: International Cargo Gear Test Certificates not more than twelve months old must be presented to the Dock Labour Inspector before a vessel is allowed to use derricks/winches. Annealing and testing of gear at Chittagong is an expensive process. In certain cases dispensation can be obtained at the discretion of the Dock Labour Inspector.

AIRPORT: Patenga Airport. 5 miles from city.

AUTHORITY: Chittagong Port Trust.

AGENT: Maritime Agencies Ltd., Third floor, Eastern Federal Building, Quaid-e-Azam Road. PO Box 387. Tel. 84029. Cables: "Maritime Chittagong".

KARACHI: 24.52 N. 67.00 E.

DOCUMENTS: *Required before vessel's arrival:*

2 copies Freight Manifest.
2 sets Bills of Loading.
3 copies Stowage Plan.
2 copies Passenger manifests.
3 copies Cargo Manifest.
3 copies Hatch Lists.
1 copy Exception Lists.
6 copies Passenger Lists.

With vessel:

2 copies Cargo manifest.
Last Port Clearance Certificate.
6 copies each Passenger List, disembarking and transit.
4 copies plus 2 for Immigration Police Crew Lists.
2 copies List of favour parcels.
Currency declaration of ship's money, officers and crew.

PILOTAGE: Pilotage is compulsory for ship of 200 nrt and upwards. Pilot boards at the Outer Anchorage.

Vessels are piloted day and night, subject to tides, length and draft, to berths lying on the East and West of the fairway, which is 4·27 miles long. Pilotage distance is about 5 to 6 miles.

ANCHORAGE: Outer Anchorage where ships await berth safe except during the S.W. monsoon from mid-May to September. During monsoon no anchorage is recommended. Vessels should anchor a safe distance outside the breakwater within Lighthouse bearings 045 and 025. Depth of water at the anchorage is about 9 fathoms.

RESTRICTIONS: Datum depth is 27 ft. A draft over 32 ft. is not recommended due to varying depths at berths, and siltation in the ship channel.

Berthing at any time, except vessels with bridge aft which permitted daylight only.

Sailings permitted during flood tide only. Tankers with LOA over 525 ft. Permitted to sail on flood tide during daylight hours only. Vessels with bridge aft permitted to sail on flood tide during daylight hours only.

MAX. SIZE:

	Length	*Draft*
Bulk carriers and general cargo (dry cargo)	945 ft.	32 ft.
Bulk oil tankers, white oil product	525 ft.	32 ft.
Bulk oil tankers, black oils.	650 ft.	32 ft.

HEALTH: All vessels which have touched any port or ports between Port Sudan and Durban, on the East Coast of Africa, including these ports, are considered "suspected" vessels on account of yellow fever and jigger and may not have communication with the shore till cleared at berth by the Port Health Officer, who attends only between sunrise and sunset, except in special circumstances. The incubation period for yellow fever under the rules is given as 9 days, but vessels arriving later than 9 days are still not free from quarantine because there is no incubation period for jigger.

TUGS: Towage is rendered by Port Trust tugs on signal from the Pilot. Towage is not provided outside the breakwater except in very special circumstances at the direction of the Deputy Conservator. There are four diesel tugs, all owned by the Port Trust.

BERTHING: *East Wharf:* Seventeen berths, total quayage 8622 ft. Berth Nos. 5 to 17 are on a concrete quay wall of the latest type. All berths are rail-served. Berth lengths vary from 430 ft. to 550 ft. and depths from 26 ft. to 32 ft.

West Wharf: Four berths on a concrete quay wall with a total length of 2,300 ft. There are three berths of 575 ft. and one of 600 ft. Depths vary from 31 ft. to 32 ft.

Bulk Oil Pier and Extension: Three berths, 403 ft., 664 ft. and 1,000 ft. with depths of 29 ft. 3 in., 31 ft. 0 in., and 36 ft. 0 in. respectively. Berths lie in a North-South direction on the Eastern edge of the channel.

Lighterage Berths: Two new lighterage berths of 600 ft. length each have been constructed. These berths have depths of 24 ft. alongside and can easily accommodate small medium draft sea-going ships.

STEVEDORES: Working Hours: Monday through Thursday and Saturday, day shift: 0730–1130 and 1230–1630. On Fridays day shift: 0730–1230 and 1400–1630. Mondays through Saturday, night shift: 1900–2300 and 2300 to 0330 next day.

Overtime periods: 0330–0630, 1130–1230, 1630–1830.

TANKERS: Mineral oils discharged at the Bulk Oil Pier, three berths, and at West Wharf berth 20. Heavy grades may be discharged at the steamer wharves but dangerous petroleum only at the Oil Pier.

Vegetable oils are handled at both the terminals mentioned above, and at East Wharf berth 9.

Slop reception facilities: Not available.

FRESH WATER: Available. Cost per ton ex wharf Rs 11.00 per 1,000 gallons. Cost per ton ex barge Rs 18.50 per 1,000 gallons.

FUEL: In addition to coal, three grades of petroleum are available-furnace oil, light diesel oil and high speed diesel oil. Furnace oil can be supplied by pipeline at all berths Light diesel only at berths 1 to 4. At other berths supply is made by tank wagons and lorries. Large quantities can be supplied by pipeline at the Bulk Oil Pier only. Oil companies with installations are: Esso Standard Eastern, Burmah Shell Oil Storage & Distributing Co. Ltd., Caltex (Pakistan) Ltd. and Pakistan National Oils Ltd.

REPAIRS: Minor repairs are carried out at the anchorage during non-monsoon. There is only one dry dock length 600 ft., breadth 90 ft.

No vessel may immobilise her engines for repairs or cleaning without the consent of the Deputy Conservator of the Port.

DEVELOPMENTS: 1. Dredging and widening and deepening of channel and reclamation at Keamari. 2. Reconstruction of berths 1–4, East Wharves. 3. Additional berths at West Wharf Nos. 22–24 under construction and expect to be in commission in 1971.

The scheme for the provision of 4 medium draft berths in continuation of the lighterage berth and 4 more berths in line with the Oil Pier is under study.

HOLIDAYS: Eid-ul-Azha (27th/28th February); Pakistan Day (24th March); Muharram (29th March); Eid e Miland un Nabi (29th May); Independence Day (6th September); Defence Day (6th September); Death of Quaid-e-Azam (11th September); Revolution Day (27th October); Jamat-ul-Wida (5th December); Eid-ul-Fitr (11th/12th December); Christmas Day (25th December).

TIME: GMT plus 4½ hours all year round.

AIRPORT: Karachi Airport, seven miles from city. International connections to all parts of the world.

AUTHORITY: Karachi Port Trust, POB 4725. Cables: "Porttrust Karachi".

Panama

BALBOA: 08.58 N. 79.34 W.

(N.B. For items not listed below, see "Panama Canal".)

ANCHORAGES: Between Taboguilla Is. and Canal entrance buoy. Good holding ground.

RESTRICTIONS: Port open throughout 24 hours.

MAX. SIZE: Harbour limitations generally unrestricted as to length and beam. Depth about 40 ft. low water. Vessels in excess of 38 ft. 6 in. draft not handled during period 2·5 hours before and 2 hours after low water.

TUGS: Available and assigned for berthing by Pilot. Tug's lines used at no extra charge.

BERTHING: No specific requirements as to arrival times. Nine berths available.

(Pleasure yachts may be permitted to dock at Panama Canal Yacht Club or Balboa Yacht Club after clearance by boarding officer and after Master has received permission from Port Captain,

Customs authorities and Yacht Club officials concerned. Chief Customs Inspector shall have authority to grant or deny such permission at his discretion.)
STEVEDORES: Endeavour arrange arrival to avoid cost of "stand by" as Agent arranges gangs for 07.00 or 17.00 commencement.
TANKERS: One berth for vessels up to 40 ft. draft.
FRESH WATER: Available. Cost (approx.) 48 cents per 100 c.ft.
FUEL: Bunker "C", diesel, light fuel and light diesel available at Government wharves from commercial companies. Rate of delivery 2,000 bbls. per hour.
REPAIRS: Emergency repairs possible.
DRY DOCK: Length 1044 ft., generally reserved for Canal Company vessels, but arrangements may be made for emergency dry-docking.
POLICE/AMBULANCE/FIRE: Emergency tel. 110; routine Police business 2–1277.
TELEPHONES: May be placed aboard through arrangement with Port Captain.
SHORE LEAVE: Generally permitted.
CUSTOMS: Customs and Immigration Inspection Service available Monday to Saturday from 07.00 to 17.00. Charges for such service after hours and on Sundays and holidays set forth in Panama Canal Tariff. Current charges between 5 p.m. and 9 p.m. and from 5 a.m. to 7 a.m. are $20.00 per inspector. From 9 p.m. to 5 a.m. on week-days and on Sundays and holidays is $32.00 per inspector. Number of inspectors required will be determined by Chief Customs and Immigration Inspector of port.
DELAYS: Delays in berthing, load or discharge or bunkering are minimal and infrequent. Eight hours is considered excessive.
AUTHORITY: Panama Canal Company, Balboa Hts., Canal Zone. Cable "Pancanco". Captain of the Port (Balboa): tel. 2–2631.
AGENT: C. Fernie & Co., Inc. PO Box 212. Cable Address: "Fernie–Balboa". Telephone Nos.: Balboa 1657–1371. After office hours telephone numbers: Panama 64–4310, Panama 64–4313.
All correspondence should be addressed to Cristobal, Canal Zone.

CRISTOBAL: 09.21 N. 79.54 W.

(N.B. For items not listed below, see "Panama Canal".)
PILOTAGE (also see "Panama Canal"): Pilotage into Cristobal not compulsory, although services of Pilot outside breakwater are available on request.
Vessels arriving outside Cristobal Breakwater who have requested an outside Pilot are required to *heave to and make a good lee.*
A pilot ladder rigged with appropriate spreaders and well illuminated at night to be provided by vessel. Accommodation ladders not acceptable for embarking Pilots outside breakwater.
ANCHORAGE: Vessels will ordinarily proceed to anchorage area according to length and draft unless otherwise directed. Arriving vessels expected anchor as far to South and inward from main channel in their anchorage area as is consistent with safety. Vessels anchoring in non-designated areas may be required to move.
Anchorage Area "A". For all ships with a deep salt-water draft of not less than 34 ft. and not in excess of 39 ft. Minimum charted depth is 40 ft.
This area starting at Lat. 9° 23′ 21″ N., Long. 79° 55′ 21″W.,
thence to Lat. 9° 22′ 48″ N., Long. 79° 56′ 15″ W.,
thence to Lat. 9° 22′ 14″ N., Long. 79° 56′ 15″ W.,
thence to Lat. 9° 21′ 56″ N., Long. 79° 55′ 48″ W.,
thence to Lat. 9° 21′ 25″ N., Long. 79° 55′ 48″ W.,
thence to Lat. 9° 21′ 25″ N., Long. 79° 55′ 21″ W.,
thence due North to starting-point. However, restricted area North and East of Buoy 2, as charted, must be observed. Explosive sector charted in this area to be avoided whenever possible.
Anchorage Area "B". For all ships with salt-water draft under 32 ft. Minimum depth is 29 ft. Explosive sector restricted to vessels carrying explosives or specially designated vessels. All ships of such length as to under no circumstances swing into Anchorage Area "A".
This area starting at Lat. 9° 22′ 48″ N., Long. 79° 56′ 15″ W.,
thence to Lat. 9° 22′ 32″ N., Long. 79° 56′ 41″ W.,
thence to Lat. 9° 21′ 42″ N., Long. 79° 56′ 41″ W.,
thence to Lat. 9° 21′ 52″ N., Long. 79° 56′ 00″ W.,
thence to Lat. 9° 21′ 25″ N., Long. 79° 56′ 00″ W.,
thence to Lat. 9° 21′ 25″ N., Long. 79° 55′ 48″ W.,
thence to Lat. 9° 21′ 56″ N., Long. 79° 55′ 48″ W.,
thence to Lat. 9° 22′ 14″ N., Long. 79° 56′ 15″ W.,
thence due North to starting-point.
Anchorage Area "C". Required pilotage waters for inbound vessels.
This area starting at Lat. 9° 21′ 25″ N., Long. 79° 55′ 21″ W.,
thence to Lat. 9° 21′ 25″ N., Long. 79° 56′ 00″ W.,
thence to Lat. 9° 20′ 48″ N., Long. 79° 55′ 57″ W.,
thence to Lat. 9° 20′ 27″ N., Long. 79° 55′ 21″ W.,
thence due North to starting-point. Restricted area East and South of Buoy 2, as charted, must be observed.
Anchorage Area "D". For all ships of over 350 ft. in length and a deep salt-water draft of less than 35 ft. except where minimum charted depth is 32 ft.
This area starting at Lat. 9° 23′ 19″ N., Long. 79° 55′ 15″ W.,
thence to Lat. 9° 22′ 55″ N., Long. 79° 54′ 21″ W.,
thence to Lat. 9° 22′ 22″ N., Long. 79° 54′ 21″ W.,
thence to Lat. 9° 22′ 02″ N., Long. 79° 54′ 55″ W.,
thence to Lat. 9° 22′ 02″ N., Long. 79° 55′ 15″ W.,
thence due North to starting-point.
Anchorage Area "E". For all ships less than 350 ft. and small craft. Minimum charted depth of water is 24 ft.
This area starting at Lat. 9° 22′ 55″ N., Long. 79° 54′ 21″ W.,
thence to Lat. 9° 22′ 27″ N., Long. 79° 53′ 54″ W.,
thence to Lat. 9° 22′ 22″ N., Long. 79° 53′ 54″ W.,
thence to Lat. 9° 22′ 22″ N., Long. 79° 54′ 21″ W.,
thence due North to starting-point.
Anchorage Area "F". For small craft and yachts. Pilotage for this area will be decided by Cristobal Port Captain, based on merit of each individual case. Under no circumstances may a vessel proceed to this area prior to being cleared by Boarding Officials. (Bounded by Channel Buoy "3" by a direct line through Buoys "A," "B," "C," "L4," "L2" and return to Buoy "3".)
Prohibited Anchorage. Eastern side of channel, Canal Zone waters South of Lat. 9° 22′ 02″ N. to Mole Buoy in order to give clear access to Colon Harbor. Also, no vessel or craft may proceed south of Lat. 9° 21′ 25″ N. prior to being cleared by Boarding Officials. No vessel may anchor with any part of the vessel in the main channel or closer than 300 yards to either East or West breakwater lights.
In cases due to harbour congestion, any vessel may be directed to anchor to Westward outside breakwater entrance and given an order as to the time it is to pass through the breakwater entrance.
RESTRICTIONS: Port open throughout 24 hours.
MAX. SIZE: Harbour limitations generally unrestricted as to length and beam. Draft 40 ft.
TUGS: Available and assigned for berthing by Pilot. Tug's lines used at no extra charge.
BERTHING: No specific requirements as to arrival times. Fifteen cargo and bunkering berths.
STEVEDORES: Endeavour arrange arrival to avoid cost of "stand by" as Agent arranges gangs for 07.00 or 17.00 commencement.
TANKERS: Four berths available.
FRESH WATER: Available. Cost (approx.) 48 cents per 100 c. ft.
FUEL: Bunker "C", diesel, light fuel and light diesel available at Government wharves from commercial companies. Rate of delivery 2,000 bbls. per hour.
REPAIRS: Emergency repairs possible.
DRY DOCK: Length 386 ft., breadth 60 ft., depth over blocks 20 ft. 6 in. MLW.
POLICE/AMBULANCE/FIRE: Emergency number 110. Routine Police business 3–2111.
TELEPHONES: May be placed aboard through arrangement with Port Captain.
SHORE LEAVE: Generally permitted.
CUSTOMS: Customs and Immigration Inspection Service available Monday to Saturday from 07.00 to 17.00. Charges for such service after hours and on Sundays and holidays set forth in Panama Canal Tariff. Current charges between 5 p.m. and 9 p.m. and from 5 a.m. to 7 a.m. are $20.00 per inspector. From 9 p.m. to 5 a.m. on week-days and on Sundays and holidays is $32.00 per inspector. Number of inspectors required will be determined by Chief Customs and Immigration Inspector of port.
DELAYS: Delays in berthing, load or discharge or bunkering are minimal and infrequent. Eight hours is considered excessive.
AUTHORITY: Panama Canal Company, Balboa Heights, Canal Zone. Captain of the Port (Cristobal), tel. 3–1639.
AGENT: C. Fernie & Co., Inc. PO Box 5042, Cable address: "Fernie–Cristobal". Telephone Nos.: Cristobal 1772–1295–2914–2128. Telex Nos.: ITT–3482020, TR–9211 "Fernie Pa". After office hours telephone numbers. Cristobal 2468, Cristobal 2568.

PANAMA CANAL (entering Cristobal or Balboa)

BOARDING OFFICER: Arriving vessels will be boarded upon arrival inside the breakwater at the Atlantic entrance or off the seaward end of the dredged channel at the Pacific entrance by a Canal boarding officer in accordance with procedures and boarding hours established for the boarding of vessels at the respective ports by the Canal authorities.
Vessels shall be entered at Canal Zone port of arrival by boarding officer and it is not necessary for masters to come ashore for that purpose. A transiting vessel entered at Balboa is required to clear from Cristobal, and vice versa.
Anchoring to await boarding officer: When a vessel is not boarded immediately on arrival, it shall anchor in the appropriate, designated anchorage area and await the boarding officer. See "Anchorages".
VESSEL'S IDENTIFICATION: Every vessel shall hoist its signal letters when approaching and entering a terminal port, and those arriving at night shall promptly signal their names by flashing light to the signal station. This communication of the vessel's name by signal letters or flashing light is mandatory even though the vessel communicates by voice radio. (Also see "Radio".)
ORDER OF TRANSIT: Canal authorities may dispatch vessels through Canal in any order and at any time they may see fit. Priority of arrival at a terminal does not give any vessel the right to pass through the Canal ahead of another that may arrive later, although order of arrival will be a consideration in determining order of passage.
N.B. A vessel in excess of 150 ft. in length that is not equipped with properly operating rudder-angle and engine-revolution indicators, so located as to be readily visible to a pilot on the bridge, will be subject to delay in transiting to the extent the Canal authorities deem necessary or appropriate in order to minimize, in the light of the type and volume of Canal traffic and of other factors relating to the safety of Canal operations, the increased hazards of navigation resulting from failure of the vessel to be so equipped. (In practice this regulation is thought to require that the indicators should be located on wings of bridge as well as inside wheelhouse for vessels over 80 ft. beam.)

DOCUMENTS: All documents listed below shall be ready for immediate delivery to boarding officer when he boards vessel upon each arrival of vessel in Canal Zone:

Documents required	*From ships which transit Canal but do not take on or discharge passengers or cargo at Canal Zone ports (number of sets)*	*From ships taking on or discharging passengers or cargo at Canal Zone ports (number of sets)*
(1) Ship's information and quarantine declaration (Panama Canal Form 4398)	1	1
(2) Clearance from last port	*1	*1
(3) All certificates of a sanitary nature	*1	*1
(4) Passenger list: Passengers transiting only (on Panama Canal Form 20)	**2	**2
(5) Passenger list: Passengers for discharge (on Panama Canal Form 18–9)	0	**4
(6) Crew list (on Panama Canal Form 1509–10)	2	2
(7) Store list	†1	†1
(8) Cargo declaration (Panama Canal Form 4363)	1	‡1
(9) Manifest of local cargo	0	4
(10) Panama Canal tonnage certificate	1	††1
(11) National register	*1	*1
(12) General arrangement and engine room plans	‡1	††1
(13) Report of structural alterations and of changes in use of tanks or other spaces since last transit	1	††1
(14) Declaration by all vessels except ships of war of all arms and munitions of war aboard other than explosives declared separately	**2	**2
(15) Declaration as to vessel's port(s) of departure, destination, and ports of call, within the last three months, with the corresponding actual or approximate dates	1	1

* For examination and possible retention.
** Not required unless such persons or cargo are carried.
† Required if ship during transit is laid up for repairs, regardless of whether passengers or cargo are taken on or discharged.
†† Not required unless ship transits Canal.
‡ For taking up and subsequent return through Agent or otherwise.

Documents required at ports. In case a vessel takes on or discharges passengers or cargo at only one Canal Zone port and does not transit Canal, documents indicated in column two are required. In case a ship docks or takes on or discharges passengers or cargo at both Cristobal and Balboa, or at a port other then port of entry, all documents in column two are required at first port and, in addition, four copies of document (9) required at second port.

Crew list. For purposes of additional identification of crew members, all copies of crew list shall include for each seaman the serial number of his certificate of identification, continuous discharge book, pass-port or other satisfactory identifying documentation. In addition, the given name and middle initial, as well as family name, shall be shown for all seamen.

Passenger list. All copies of passenger lists shall be accurate and legible and shall be delivered to boarding officer. The list shall show passengers in alphabetical order. Passengers who are to be discharged at Canal Zone ports shall be listed separately from other passengers aboard who are only to transit Canal. In event any passenger listed for discharge fails to disembark, or any passenger listed for transit disembarks, notice shall be given promptly by Master through his ship's agent to Port Captain and a supplementary passenger list (same number of copies as is required for an original list of disembarking passengers) showing required information concerning such passengers shall be furnished promptly to Chief Customs Inspector prior to clearing Canal Zone waters.

(It is understood that "Advance Documents" are no longer required by Authorities. However, Agents request copies of Crew and Passenger Lists in advance, which should, if possible, be airmailed from last Port.)

PILOTAGE: Pilot is mandatory entering either from Balboa or Cristobal and is supplied without special request. Should vessel desire Pilot to meet it outside Atlantic Breakwater, it should remain there and make signal to that effect. Vessels shall furnish a safe, clean, well-lighted pilot ladder, and will be required to make a lee in rough weather. Vessel normally boarded inside breakwater at a point north of the Mole Beacon at the Atlantic Entrance, and in Merchant Vessel Anchorage to seaward of Buoys 1 and 2 at Pacific Entrance.

STEERING LIGHT: All vessels with the bridge more than 250 ft. from the stem must have a steering light at or near the stem. The light may be any colour except white, green or amber, must not be visible forward of the beam, and must be of such an intensity and so fixed as to be clearly visible from the navigation bridge.

ANCHORAGES: No vessel shall anchor within navigable waters of Canal Zone in other than a designated anchorage.

1. *Merchant Vessel Anchorages.* (a) *Atlantic entrance merchant-vessel anchorage.* An area to the west of the Canal channel bounded as follows: Starting at a point "A", located in position 9° 21′ 25″ N., 79° 55′ 31″ W., and marked by gas buoy No. 2, thence 900 yd. 270° true to a point "B" located in position 9° 21′ 25″ N., 79° 55′ 58″ W., thence to lighted buoy "I", thence to lighted buoy "H", thence due North to a point "C" located in position 9° 22′ 07″ N., 79° 56′ 41″ W., thence 2,800 yd. 59° true to a point "D" located in position 9° 22′ 50″ N., 79° 55′ 29″ W., and thence to the starting-point. The line extending due West from the Cristobal Mole through lighted beacon No. 1 and lighted buoy No. 2 (9° 21′ 25″ North) marks the Southern limit of the anchorage area. No vessel shall pass this line without having been passed by the boarding officer and without having a Canal pilot on board.

(*b*) *Gatun Lake anchorage basin.* An area immediately East of the Canal channel line, bounded by a line extending to a point 450 yd., 120° true from the East wing-wall at the South end of Gatun Locks, thence 690 yd., 148° true to flashing white lighted buoy "A" thence 700 yards, 070° true to flashing white lighted buoy "1" thence 1,130 yards, 148° true to quick flashing white lighted buoy "3" thence 2,800 yards, 224° true through fixed white lighted buoy "5" and black can buoy "7" to the Canal channel line at flashing white lighted buoy "9"; the channel prism line being the westerly boundary line of the anchorage area.

(c) *Pacific entrance merchant-vessel anchorage.* An area bounded as follows: beginning at a point in position 8° 51′ 50″ N., 79° 30′ 00″ W., marked by a lighted whistle buoy which is painted with alternating black and white vertical stripes and which shows short-long flashing white light every 8 seconds, i.e. light 0.4 second, eclipse 0.4 second, light 1.6 seconds, eclipse 5.6 seconds; thence due East to longitude 79° 28′ 00″ W.; thence due North to latitude 8° 54′ 31″ N., thence due West toward Flamenco Island Light to a point 8° 54′ 31″ N., 79° 30′ 46″ W.; thence South-westward touching the North-west corner of San Jose Rock to position 8° 53′ 27″ N., 79° 31′ 23″ W., marked by canal-entrance lighted buoy No. 2; thence South-eastward to the point of beginning.

2. *Anchorage areas for ships loaded with hazardous cargoes.* (a) *Atlantic end.* Area included in rectangle 1,000 yd. wide immediately South of West breakwater, starting at a point on West breakwater 1,000 yd. from West Breakwater Light and thence extending westward 2,000 yd. along breakwater.

(b) *Pacific end.* Area South of Naos Island bounded on the East by a line drawn South (true) from entrance gas buoy No. 1; on the South by a line drawn east (true) from Tortolita Island, and on the North and West by the curve of 30-ft. depth.

Vessels carrying explosive cargoes shall anchor in the explosive anchorage areas, on arrival at the Canal Zone, and there await instructions.

MAX. SIZE: N.B. The following paragraphs serve as an approximate guide to permitted size of vessel in transmitting Canal, but Owners and Operators should always seek official clarification and ruling from: The Chief Navigation Division, Panama Canal Company, Box 5012, Balboa, Canal Zone.

1. **General.** Based on experience to date, Panama Canal Company has determined that 106·0 ft. is the widest beam commercial vessel acceptable for regular transit. Wider vessels, not exceeding an extreme beam of 107·0 ft., may be permitted to transit on an experimental basis only. In addition, container vessels and other light draft vessels (not exceeding 37 ft. TFW draft) up to 950 ft. in overall length are accepted.

Principals who are engaged in the operation of bulk carriers and tankers are reminded of the necessity for avoiding arrival at the Canal with maximum drafts in excess of allowances. Allowable drafts, based on Gatun Lake levels, are established for the safety of the vessel, and cannot be exceeded.

Operators of vessels requiring to make initial transit of Canal in excess of 34 ft. Panama Canal fresh water draft should, without delay, contact Agents or Authorities asking to be provided with Marine Director's Memorandum 13 – 70 – Shipping, together with Enclosures nos. 1, and 2. (Also see item no. 6).

Because of increasing need for dispatching large ships as early as possible in the morning, consistent with safe practice, it is important that information provided in advance of initial transit include capacity plans, general arrangement plans, engine-room plans, and whenever possible, photostatic copies of national register, load-line certificates and Panama Canal tonnage certificates. This advance information will minimize the time spent aboard by admeasurers before commencement of initial transit.

2. *Initial transit draft.* Maximum draft (deepest point of immersion) allowed for initial transit of Canal (except for identical sister-ships) will be limited to 37 ft. Panama Canal fresh water. This maximum draft further limited by draft limits established by bilge radius, beam limitations of paragraph 5, and maximum TFW draft allowed for Canal as promulgated periodically by Chief, Navigation Division, because of Gatun Lake level. This will normally be:

Gatun Lake level	*Normal Panama Canal draft restriction*	*Initial maximum Panama Canal fresh water draft*
Over 86′6″	40′0″	37′0″
86′0″ to 86′6″	39′6″	37′0″
85′6″ to 86′0″	39′0″	37′0″
85′0″ to 85′6″	38′6″	37′0″
84′6″ to 85′0″	38′0″	37′0″
84′0″ to 84′6″	37′6″	37′0″
83′6″ to 84′0″	37′0″	37′0″
83′0″ to 83′6″	36′6″	36′6″
82′6″ to 83′0″	36′0″	36′0″

3. *Maximum transit draft.* After initial transit made at, or less than, authorised initial transit draft, maximum draft for succeeding transits

will be maximum allowable Panama Canal fresh water draft for particular vessel, based on all relevant factors. After initial transit, Owners, Operators or Agents will request authorised maximum draft from the Chief, Navigation Division. This request will be returned with approved maximum Panama Canal fresh water draft stamped thereon.

4. *Transit drafts for sister-ships.* Identical sisters are not limited to initial transit draft established in paragraph 2. Transits of such vessels will be permitted at maximum Panama Canal fresh water draft authorised an identical sister, lake level permitting.

5. *Limitations for extreme beams in excess of* 104 *ft.* 0 *in.* Vessels with extreme beam in excess of 104·0 ft., which have previously been qualified and authorised may transit on a regular basis at a *maximum* Panama Canal fresh water draft of 38 ft. 6 in., lake level permitting and provided bilge radius restriction is not exceeded. Such vessels may request experimental transits over 38 ft. 6 in. after a successful transit at or near 38 ft. 6 in. Ordinarily this will be granted in 6 in. increments if handling characteristics and lockage times are satisfactory and bilge radius, lake level, and load-line limits restrictions are not exceeded. A release, as specified in subparagraph 8e, will be required for the initial experimental transit for each 6 in. incremental increase.

6. *Procedure to obtain initial transit draft allowances.* Shipowners, Operators or Agents who desire arrange initial transits in excess of 34 ft. Panama Canal fresh water draft must correspond with the Chief, Navigation Division, Panama Canal Company, Box 5012, Balboa, Canal Zone, not later than two weeks prior to loading vessel in order receive designated initial Panama Canal fresh water transit draft. A completed copy of Enclosure (2) (see item 1) must be furnished with such request.

7. *Increased allowances for vessels with limited bilge radii.* A vessel whose Panama Canal fresh water transit draft allowance is restricted by her bilge radius, may install permanent fendering to keep vessel from touching lock-wall batters when alongside lock walls, providing maximum beam, including fendering, does not exceed 100 ft. The additional draft which may be granted after installation of such fendering is in ratio of 1:3, e.g. 6 in. of permanent fendering (compressed measurement, if rubber) equals 18 in. of additional authorised *maximum* fresh water draft. (Contact Authority for full details).

8. *Release from liability.* Masters of vessels will be required to execute a form, undertaking to release Panama Canal Company from liability in case of accident and to indemnify Company for damages sustained in following instances (because of additional draft allowances granted to transiting vessel, these releases are required, generally, on a one-time basis):

(a) When *maximum* tropical fresh water draft during an initial transit (not to exceed 37 ft.) is within 1 ft. 6 in. of authorised mean tropical fresh water load line of transiting vessel;

(b) when initial transit is being made by an identical sister ship at a maximum draft in excess of 37 ft.;

(c) when transiting vessel is equipped with permanent fenders to breast her off the lock-wall batters, until trial transits have proven permanent fenders satisfactory;

(d) when vessel permitted transit at draft greater than her allowed Panama Canal fresh water draft or her mean authorised TFW load line. Vessels over draft will be subject to denial of transit or delay to extent Panama Canal authorities deem necessary in light of traffic conditions and safety of Canal operations;

(e) when a transiting vessel over 104·0 ft. beam is making an experimental transit over 38 ft. 6 in.; and

(f) when a vessel transits at less than the minimum drafts (as officially specified in Memorandum 6–66 – SHIPPING).

9. *Ballast Transit.* Regulations require that a vessel in ballast shall not be trimmed by the stern in excess of 11 ft. Masters should endeavour arrange trim as follows:

Length	*Fwd.*	*Aft.*
475 to 525 ft.	18–00	25–00
525 to 580 ft.	20–00	22–00
580 to 625 ft.	22–00	24–00
625 and above.	24–00	26–00

HEALTH (also see "Radio"): 1. *Radio pratique.* The quarantine officer in charge may grant pratique by radio to a vessel upon basis of information regarding vessel, its cargo and persons aboard, received prior to arrival, when in his judgment, and in accordance with instructions by the Chief, Division of Preventive Medicine and Quarantine, entry of vessel will not result in introduction, transmission or spread of communicable diseases.

2. *Disease on board.* Master shall report promptly by radio to quarantine officer in charge at port of entry in Canal Zone, and wherever practicable not less than four hours before expected arrival, the occurrence or suspected occurrence of any communicable diseases:

3. *Quarantine declaration.* On arrival the master shall complete a maritime quarantine declaration on Canal Zone Government Quarantine Declaration form. The completed form shall be delivered to quarantine officer at time quarantine inspection is begun. Declaration shall also be signed by ship's surgeon if one is carried.

RADIO: Balboa Naval Radio NBA.

1. *Signal stations.* (a) Visual-signal stations established for communication on arrival Canal approaches by International Code and/or flashing light, at seaward end of Pier 6 Cristobal, and on Flamenco Island at Pacific entrance.

(b) Flamenco Island also contactable on VHF Channel 12 frequency 156·6 Mgs., and R/T 2182, 2638 and 2846 kc/s. – call letters WHC.

(c) Vessels of 85 ft. beam and above awaiting transit at Balboa anchorage should keep VHF radio watch on Channel 12 for transit orders.

(d) Arriving ships may communicate with Port Captain's Office, Cristobal through Cristobal Signal Station Radio communication is maintained on international maritime VHF Channel 12 (156·6 Mc/s.) through "Cristobal Radio".

2. *Advance information required by radio from vessels approaching Canal.* Vessels approaching Canal shall communicate by radio to the Port Captain, through Balboa Radio Station, call letters NBA, at least 48 hours in advance of arrival in Canal Zone, the information required below. If radio communication can be established earlier than 48 hours in advance of arrival, required information should be furnished at time such communication is first practicable.

(*a*) All items of information listed below, unless previously communicated through agents or otherwise to Canal authorities, shall be transmitted to Port Captain using phonetic alphabet letters to identify items, as follows:

ALFA – If Canal transit is desired.
BRAVO – 48-hour advance estimate of time of arrival.
CHARLIE – Fore and aft draft, of vessel. Warships should include displacement.
DELTA – Last port of call.
ECHO – If there is any communicable disease aboard and, if so, identify such disease or diseases.
FOXTROT – Number, kind and origin of animals aboard, if any.
GOLF – Number of landing passengers, if any.
HOTEL – Number and origin of stowaways aboard, if any.
INDIA – If any structural changes, or changes in use of tanks, have been made since the vessel's last transit.
JULIET – Number of smallpox vaccinations required by crew members and passengers.

In addition to the above, tankers shall report:

KILO – The grades of cargo carried, if any. Give name of cargo if other then petroleum products.
LIMA – The grade of cargo last carried in each empty tank that is not gas free. Give name if other than petroleum products.

Vessels carrying explosives of any nature, whether for transit or docking, shall also report:

MIKE – The grades of such explosives.
NOVEMBER – The quantity in tons of each grade of such explosives.

(*b*) Following additional information shall be transmitted via radio to Port Captain from *all* vessels as applicable:

(1) Vessels approaching from Pacific shall report actual time of passing Cape Mala, or latitude of Cape Mala, and vessel's speed.

(2) Vessels approaching from Atlantic shall report 12 hours prior to arrival at Cristobal any change of one hour or more in expected time of arrival.

(3) Any other matters of importance and interest.

(*c*) Timely receipt of above information will facilitate transit or docking of arriving vessels. Failure to comply with these reporting requirements may subject a vessel to delay.

DENSITY: On several occasions vessels arriving for transit have been found to be over authorised draft after entering Gatun Lake. Overdrafts in these instances have been caused, it is believed, by assuming fresh water densities different from what actually exists in Canal.

Using distilled water as 1·000, water densities have been determined to be as follows:

	Density	
Location	*Gm./cc 85°F*	*Lbs./ft³ 85°F*
(*a*) Gatun Lake*	0·9954	62·21
(*b*) Miraflores Lake†	0·9971	62·32
(*c*) Balboa Anchorage‡	1·0219	63·87
(*d*) Cristobal‡	1·0212	63·76

*Fresh water.
†Brackish water.
‡Salt water.

BOILER WATER: May be taken without charge from Gatun Lake subject Pilot's Permission and draft.

FRESH WATER: Available Balboa on Cristobal cost about 48 cents per 100 c.ft.

CERTIFICATES: see "Documents". (*a*) If a valid Deratting Certificate or Deratting Exemption Certificate is not produced with respect to any arriving vessel the quarantine officer shall:

(1) If he is satisfied that vessel is free of rodents or is kept in such a condition that number of rodents on board is negligible, issue a Deratting Exemption Certificate; or

(2) If he is satisfied that a Deratting Exemption Certificate should not be issued with respect to such vessel, require deratting of vessel.

(*b*) When, pursuant to paragraph (*a*) (2) of this section, deratting has been completed to satisfaction of quarantine officer, he shall issue a Deratting Certificate.

CUSTOMS: 1. *Hours.* The regular hours for the customs inspection of baggage of landing passengers and for the customs supervision of landing passengers are from 7 a.m. to 5 p.m. daily, excluding Sundays, and holidays. Such customs services may be furnished during other hours, or on Sundays and holidays, only upon the request of the Master or authorised agent.

2. *Marine Protests.* Marine notes of protest may be made and extended by Masters of American vessels before customs officers without charge.

3. *Allowances.* Tobacco, Wine and/or Spirits at Master's discretion sufficient for immdeiate consumption. Alcohol not permitted to be taken ashore.

CONSULS:

Great Britain: British Consulate, Colon Office 38–7–3075; Residence: 38–7–0156.

Norway: Royal Norwegian Consulate General: Consul General for Panama, R. P., Terence O. Ford, Office: 28–25–2347. Residence: 28–24–1884.
Norwegian Consul, Cristobal, Gilbert Morland, Fenton Bldg. 3–2819.
Norwegian Consul for Pacific Side, Canal Zone, Arne Hauge, Office 2–1965.
Republic of South Africa: Consul for the Republic of South Africa, Henry I. Darlington, Office: 28–23–0834. Residence: 28–23–6779.
Sweden: Royal Swedish Consulate General, Edificio Melinda, Via Argentina, Panama 28–23–9694.
Denmark: Royal Danish Consulate General, Consul General for Panama and Canal Zone, W. Ishoy, Office: 28–25–0524. Residence: 28–24–1537.
Royal Danish Consulate for Colon and Canal Zone, George R. Downing, Office: 38–7–1870. Residence: 3–2361.
Finland: Finnish Vice-Counsel, Cristobal/Colon, Donald Francey, Fenton Bldg. 3–1781.

REPATRIATION: Crew members, of vessels other than vessels of United States registry or enrolment signed on before a shipping commissioner, may be discharged in Canal Zone only with consent of the Immigration Service. Before such consent may be given, the Chief Immigration Inspector at port concerned shall be furnished a memorandum in triplicate showing name, age, nationality, and rating of the crew members proposed to be discharged.

When crew members are signed on a vessel, other than crew members signed on a vessel of United States registry or enrolment by a shipping commissioner in the Canal Zone, a memorandum in triplicate showing name, age, nationality, and rating of crew members signed on shall be furnished to Chief Immigration Inspector at the port concerned.

Arriving crew members and particularly visiting Superintendents should if possible possess Panamanian visas.

AIRPORT: Tocumen International Airport located outside Panama City, 18 miles from Balboa; 48 miles from Cristobal, served by all major scheduled international airlines operating in Southern hemisphere.

HOLIDAYS: Sunday, January 1; February 22, Good Friday; May 30; July 4; First Monday in September; November 3; November 11; Thanksgiving Day; December 25; and such other days as may, pursuant to law, be declared to be holidays.

TIME: EST. No alterations to clocks necessary throughout the year.

LOCKS: Gatun Locks (Atlantic side) raise and lower vessels 85 ft., Miraflores (nearest to Pacific) 54 ft. and Pedro Miguel (Pacific side) 31 ft.

AUTHORITY: The Chief, Navigation Division, Panama Canal Company, Box 5012, Balboa, Canal Zone.

AGENT: See "Cristobal".

PUERTO LAS MINAS (Payardi): 09.24 N. 79.50 W.

Oil Terminal operated by Refineria Panama.

MAX. SIZE: Length 700 ft. LOA, Draft 37 ft. 6 in. Can accommodate tankers up to 60,000 dwt.

FUEL: All grades available subject to advance notice.

AUTHORITY: Refineria Panama S.A.

Papua and New Guinea

KAVIENG: 02.34 S. 150.48 E.

DOCUMENTS: See "Lae".

PILOTAGE: The Administration does not maintain a Pilot at Kavieng. Arrangements may be made with the Harbour Master at Rabaul; and a private Pilot can be contacted by the Agent.

HEALTH: See "Lae".

RADIO: Call through VJZ.

TUGS: None available.

BERTHING: Main Wharf. Length 330 ft.; width 40 ft. Minimum depth at LW 32·5 ft. (N.B. channel restriction 26 ft.)

FRESH WATER: None available.

FUEL: Diesel fuel and distillate are available. Supply is by road tanker.

CUSTOMS ALLOWANCE: Tobacco: 1 lb. per person, 400 cigarettes deemed equivalent to 1 lb. Wine/spirit: Not in excess of three quarts per person.

REPAIRS: No facilities.

AIRPORT: Distance from port 2 miles by road, served by regular airlines.

TIME: GMT plus 10 hours. No change.

AUTHORITY: Collector or Customs, Postal Address: Box 137. Tel. Office 58. Telegraphic address: "Portman, Kavieng".

LAE: 06.48 S. 147.11 E.

DOCUMENTS: First port of call in Papua New Guinea the following inward Customs documents are required to be handed to Customs Department within 24 hours of ship's arrival:
3 copies Inward Passenger List.
7 copies Inward Customs Manifest.
3 copies List of Crew.
3 copies Articles in Private Possession of Officers and Crew – Form 5.
3 copies Stores List.
2 copies Immigration Restriction Ordinance List (Form 6) being complete list of passengers disembarking and in transit.
If other than first port of call:
3 copies Inward Passenger List.
7 copies Inward Customs Manifest.
Outward Customs Clearance from last port of call.

PILOTAGE: No official Pilot available, but with approximately 72 hours notice a qualified Pilot can be brought from the port of Madang. There is also available at Lae a non-qualified local Pilot who has been employed on numerous occasions by overseas vessels. Pilot boards vessel approximately three miles from main berth, by small 18-ft. speed-boat. This speed-boat does not carry Pilot identification flags. Telegrams requesting a Pilot should be addressed to Lyle Lae through Lae Radio on 50 kc/s between 2200 GMT and 0830 GMT any day. There is no VHF station.

ANCHORAGES: Safe anchorage is available about 5 miles from main wharf, in the Huon Gulf area, called Sugarloaf Anchorage, at approximately one and a half miles offshore between beacons: Northern Beacon lat. 6 deg. 47′ 10″ S., long. 146 deg. 57′ 20″ E. Southern Beacon lat. 6 deg. 48′ 20″ S., long. 146 deg. 57′ 6″ E.

Holding ground is good and 11 fathoms is found just South of the line with Northern Beacon bearing West true one and a half miles distant. The depth varies within a fathom or two in seasons on account of the soft bottom.

RESTRICTIONS: Vessels are permitted to berth only between 0600 and 1845 hours (first line on wharf).

MAX. SIZE: One wharf available which is 800 ft. long, 31 ft. depth.

HEALTH: (*a*) Vessels Arriving Directly from Australia. Pratique is given by radio to vessels which voyage directly from Australia to a Territory port. Master of vessel notifies Quarantine Officer at the port of entry to which he is proceeding of ETA, the number of passengers and crew and whether there is any sickness aboard. This notification from Master is sent not longer than 24 hours and not less than 12 hours of the ETA. If there is no sickness aboard a reply is sent stating that pratique is granted, and when a vessel arrives the actual pratique form is delivered to Master of vessel or to Collector of Customs to hand to Master. Full pratique is given.

(*b*) Vessels Arriving from a Foreign Port. All vessels which arrive from a foreign port must anchor in the designated position and await arrival of a Quarantine Officer who boards the vessel by himself – no other person (except a Pilot) is to be allowed on board vessel until pratique has been granted. If a Pilot is on board he must remain on board until pratique is granted.

Smallpox. All passengers and crew are required to be in possession of a valid International Certificate of Vaccination against smallpox on arrival in the Territory. *Cholera.* All passengers and crew are required to be inoculated against cholera if the vessel is expected to arrive at a port in the Territory within seven days of leaving an area where cholera is either endemic or is present.

RADIO: Radio contact is made through Lae Radio on 500 kc/s and station call sign is VIL. Telegraphic address for radio contact is Lyle Lae.

TUGS: None available.

BERTHING: Vessels could berth either port or starboard side to, but portside to would be at discretion of the Master, depending on length of his vessel, as the swinging room on the Western end of the berth may, in certain instances, be too small for length of the berthing vessel.

STEVEDORES: There are three stevedoring companies in port of Lae. Information required by the stevedores is approximately 72 hours' notice of the number of gangs required, hatch tonnages and information of any particular heavy lifts or awkward cargo.

MEDICAL: Maximum possible notice should be given so that full arrangements can be made with regard to hospitalisation, etc. Full hospital facilities are available approximately two and a half miles from the wharf.

TANKERS: Tankers connect on the wharf itself, maximum draft permissible, 31 ft. and only one tanker can berth at a time.

DENSITY: Due to proximity of Markham River, fresh water extending approximately one and a half miles from the wharf.

FRESH WATER: Fresh water is available in limited quantities, delivery rate 20 tons per hour, can be supplied during cargo handling. Cost 60c per 1,000 gallons.

FUEL: Only light grade fuels are available such as dieseline and distillate.

GANGWAY/DECK WATCHMEN: Watchmen are not required.

OPENING/CLOSING HATCHES: Normally carried out by stevedores.

CERTIFICATES: Certificate of Registration and standard Articles. If a ship remains in port over 24 hours, Articles must be stamped by local Collector of Customs who, acts as Harbour Master.

CUSTOMS ALLOWANCES: A duty-free issue of 200 cigarettes or the equivalent weight in tobacco is issued by Customs every ten days. No wines or spirits allowance to crew members.

CARGO GEAR: All cargo gear necessary for discharging and loading is carried by stevedoring company.

IDENTIFICATION CARDS: Not required.

CONSULS: No consular representatives at this port and all immigration and migration matters are handled by the Collector of Customs.

REPAIRS: Only minor repairs can be carried out.

REPATRIATION: Full repatriation facilities are available for effecting any crew changes.

AIRPORT: Situated approximately 25 miles from wharf area, there is a daily connection to Australia with Trans-Australia Airlines and Ansett Airlines of Australia.
TIME: Local time is 10 hours ahead of GMT, and does not vary during the year.
HOLIDAYS: New Year's Day (1st January); Australian Foundation Day (26th January); Good Friday; Easter Saturday; Easter Sunday; Easter Monday; Anzac Day (25th April); Queen's Birthday (June); Commemoration Day (Mid-September); Christmas Day (25th December); Boxing Day (26th December). Cargo work is carried on all through the year with the exception of Christmas Day and Good Friday.
POLICE/AMBULANCE/FIRE: Police 2222; Ambulance 2911; Fire 2255.
TELEPHONES: No facilities available for connection of a telephone to vessels, but there is a public telephone installed in the wharf area.
SHORE LEAVE: Allowed.
DELAYS: Whilst only 800 ft. of overseas wharfage is available there is likely to be berthing delays of up to four days; sometimes port rotation is the answer to this, if feasible.
PORT AUTHORITY: The Port Manager is the Port Authority, and his office is on the Main Wharf. Tel. Lae 2650.

MADANG: 05.12 S. 145.49 E.

DOCUMENTS: See "Lae".
PILOTAGE: Two pilots are normally available on application to Harbour Master. Boarding Station is situated ½ to 1 mile off theCoast Watchers' Light on Kalibobo Point.
RESTRICTIONS: Ships do not normally berth at East Wharf or at the West Wharf after civil sunset.
HEALTH: See "Lae".
RADIO: Call through Lae Radio VIL.
TUGS: No tug is available but a 40-ft. work-boat may assist on application to Harbour Master.
BERTHING: *East Wharf:* Length 300 ft.; width 45 ft. Minimum depth at LW 26 ft.
West Wharf: Length 450 ft.; width 40 ft. Minimum depth at LW 32 ft.
Small Ship's Wharf: Length 90 ft.; width 18 ft. Minimum depth at LW 19 ft. 9 in.
Concrete Quay: Length 100 ft.; width 15 ft. Minimum depth at LW 5 ft. 9 in.
FRESH WATER: Available at wharves but supply is limited. Charge is 70c and 50c per 1,000 gallons for overseas and coastal vessels respectively.
FUEL: Fuel oil and distillate are available. Supply is by road tanker.
CUSTOMS ALLOWANCE: Tobacco: 1 lb per person, 400 cigarettes deemed to be equivalent of 1 lb. tobacco. Wine/spirit: Not in excess of three quarts per person.
CONSULS: None.
REPAIRS: All normal deck and engine repairs available. Slipways available up to 400 tons.
REPATRIATION: Can be arranged.
AIRPORT: Distance from port 4 miles by road, served by regular airlines.
TIME: GMT plus 10 hours throughout the year.
AUTHORITY: Harbour Master, Postal address: Box 273. Tel. Office 3252; Residence 2731. Telegraphic address: "Portman, Madang."

PORT MORESBY: 09.26 S. 147.06 E.

DOCUMENTS:
4 Crew Lists.
4 Passenger Lists.
1 Customs List of Articles in possession of Crew.
3 Customs List showing Stores, fuel, etc. on board.
Normal International Health Papers.
7 Inward Manifest.
1 Copy of Bills of Lading.
PILOTAGE: Apply by radio through Agent or direct to "Harmas" 48 hours before arrival and update as necessary. Pilot vessel is fitted with VHF calling on Channel 16.
Pilotage is compulsory. Pilot vessel is fifty-three ft. long white hull with word Pilot in large block letters each side. White superstructure, small buff colour funnel – green awnings. White over red all-round lights at night. Pilot usually boards 1½/2 miles South-west of Bosilish Light Beacon. In heavy weather, ship may enter on leads and Pilot will board North-east of Bosilish Beacon. Usual safety precautions are expected. Vessels may anchor N. easterly of Bosilish Beacon clear of leads.
ANCHORAGES: If necessary to anchor prior Pilot boarding do so at Kila Leads. Pilot will then direct to suitable anchorage on boarding.
RESTRICTIONS: No restrictions after dark if conditions favourable.
MAX. SIZE: For Berthing 700 ft. length. Draft 27 ft. *Tankers:* 600 ft. length. Draft 40 ft.
HEALTH: Radio "Quarantine Port Moresby" 24 hours prior to arrival. If from Australia or another T.P.N.G. port pratique will be granted by radio or advised by Agent on arrival. In other instances if a ship has been at sea more than 10 days from last port of call and no quarantine disease on board may also be given Radio Pratique, but this is up to Health Authorities.
RADIO: Port Moresby Radio, VIG.
TUGS: One 45 ft. tug of 152 b.h.p. Available by arrangement with Harbour Master direct.
BERTHING: Permission required to berth after dark which is normally automatic. Agent will advise, Draft 28ft. and on inner N.E. arm 320 ft. length and 16 ft. draft. Height of deck above LWOS 14.64 ft.
STEVEDORES: ETA required 24 hours advising no. of gangs required.
MEDICAL: If serious notify any time. Hospital facilities available. Normal International Health Regulations required.
TANKERS: No specific requirements. One tanker berth maximum draft 40 ft.
FRESH WATER: Available at berth 70 cents per 1000 gallons. Rate of delivery 20 tons per hr.
FUEL: Only gasoil and light marine diesel available. By road tanker to wharf. Deliveries normally limited to 100 tons.
DEVELOPMENTS: To lengthen wharf by 150 ft. to 850 ft.
GANGWAY/DECK WATCHMEN: Required: Ships crew.
OPENING/CLOSING HATCHES: Carried out by Stevedores.
CUSTOMS ALLOWANCES: 200 cigarettes each 10 days. No wines/spirits allowance.
CARGO GEAR: Normally supplied by stevedores unless special gear required.
IDENTIFICATION CARDS: Required.
CONSULS: French. Tel. 2033/34.
REPAIRS: Only very minor deck and engine repairs carried out.
REPATRIATION: If necessary crew changes could be effected though not recommended.
AIRPORT: Distance 6 miles from Wharf Area regular daily flights to Australia where overseas connection normally made. Also two flights a week via Manila and Hong Kong to Europe.
TIME: Ten hours ahead of GMT. No change throughout the year.
HOLIDAYS: Only two days vessels do not work. Good Friday and Christmas Day.
POLICE/AMBULANCE/FIRE: Tel. Police 2222; Ambulance 58622; Fire 2255.
TELEPHONES: Can be placed on ship at berth $10.00 A.C. per day local calls only.
GENERAL: If any tankers arrive for water or provisions and wish to berth they have to be gas free and tanks blown.
SERVICES: Very limited, compass adjusting can be done if necessary.
SHORE LEAVE: Crew members normally permitted ashore.
DELAYS: Port very busy, turn-around good, but delays can occur up to 48 hours at times.
AUTHORITY: The Port Manager, PO Box 384, Port Moresby. Telegraphic address "Portman, Port Moresby".
AGENT: Burns, Philp (New Guinea) Ltd., PO Box 75, Port Moresby. Telex 116, Cables "Burphil Port Moresby".

RABAUL: 04.13 S. 152.12 E.

DOCUMENTS: See "Lae".
PILOTAGE: Two Pilots are normally available on application to Harbour Master. Boarding station is off Matupi Point for vessel requiring full pilotage; and between the Beehives and the Wharves for vessels requiring berthing assistance only.
HEALTH: See "Lae".
RADIO: Call sign VJZ.
TUGS: No tug is available. but a 40-ft. work-boat of 165 h.p. may be hired to assist in manoeuvring.
BERTHING: *East Wharf:* Position latitude 4° 12.1′ S.; longitude 152° 10.5′ E. Length: 400 ft.; width 40 ft. Minimum depth at LW 28.5 ft.
Kamaki Wharf: Position latitude 4° 12.1′ S.; longitude 152° 10.6′ E. Length: 300 ft.; width 60 ft. Minimum depth at LW 31 ft.
New Wharf: Length: 500 ft. commissioned July 1970. Minimum depth at LW 31 ft.
Small Ship's Wharf: Length 204 ft.; width 22 ft. Minimum depth at LW 11 ft.
FRESH WATER: Available at the wharves but supply is limited. The rate is 25 tons an hour depending on number of vessels taking water simultaneously. Charge 70c and 50c per 1,000 gallons for overseas and coastal vessels respectively.
FUEL: Diesel and distillate are available, the former by pipeline, the latter by road tanker.
DEVELOPMENTS: Design is being undertaken for expansion of coastal facilities to eastward of the small ships wharf.
CUSTOMS ALLOWANCES: Tobacco: 1 lb per person, 400 cigarettes deemed equivalent to 1 lb. tobacco. Wine/spirit: not in excess of three reputed quarts per person.
CONSULS: None.
REPAIRS: Small repairs undertaken.
DRY DOCKS: None; slipways length 140 ft., one up to 1,300 ft. under construction.
AIRPORT: Distance from port 3 miles by road. Served by regular airlines.
TIME: GMT plus 10 hours. No change throughout the year.
AUTHORITY: Harbour Master. Postal address: Box 592. Tel. Office 2970; Residence 2622. Telegraphic address: "Portman, Rabaul."

SAMARAI: 10.30 S. 151.00 E.

DOCUMENTS: See "Lae".
PILOTAGE: For ships approaching from the Westward, boarding station is situated in the vicinity of Wekunna Light; for ships

approaching from the Eastward, 1 mile South-east of Samarai Island; for ships approaching from the Northward via China Strait, off Isololi Point.
RESTRICTIONS: Ships, except under 50 tons nett, do not normally berth after dark.
HEALTH: See "Lae".
RADIO: Through Port Moresby Radio VIG.
TUGS: None available.
BERTHING: *Main Wharf:* Length 300 ft.; width 40 ft. Minimum depth at LW 25·6 ft.
Small Ship's Wharf: Length 100 ft.; width 15 ft. Minimum depth at LW 12 ft.
FRESH WATER: Available in limited quantities but supply is erratic.
FUEL: Distillate available by road tanker and pipeline; diesel fuel by road tanker only.
CUSTOMS ALLOWANCE: Tobacco: 1 lb. per person, 400 cigarettes deemed to be equivalent to 1 lb. Wine/spirit: not in excess of three reputed quarts per person.
REPAIRS: Normal deck and engine repairs available.
Slipways up two 9-ft. draft.
AIRPORT: Distance from port 35 miles by sea. Served by regular airlines.
TIME: GMT plus 10 hours. No change.
AUTHORITY: Collector of Customs. Tel. Office 92; Telegraphic address: "Portman, Samarai." Postal address: Box 24.

Partitioned Zone (Neutral Zone)

KHOR-el-MUFATTA: (Kuwait) 28.39.17 N. 48.23.26 E.

DOCUMENTS: The only document required for this port is copy of the Cargo Manifest.
PILOTAGE: No pilotage available.
ANCHORAGE: Vessels anchor to seaward side of black and white conical shaped buoy which is situated 2 miles to the East of the Khor. Mufatta is some 55 miles by sea from the port of Kuwait. The flashing lights marked on the charts at the entrance to the Khor have been discontinued.
HEALTH: Before arrival vessels required pass following items to Agent (about three or four days prior to ETA). Name of vessel, Nationality, ETA, Last port of call, tonnage, quarantinable disease on board (if any) infectious disease (if any), sick persons, death, and any requirements.
ETA should be notified again 24 hours before arrival.
RADIO: No separate radio service for this port and all communication to Agent to be made through Kuwait Radio 9 KK.
TUGS: None.
BERTHING: Ship discharged in open roadstead.
STEVEDORES: Sent from Kuwait. At least 48 hours notice required.
MEDICAL: Facilities available only at Kuwait.
DENSITY: Salt water.
FRESH WATER: Not available.
BUNKERS, LUBOIL ETC: Can be arranged at Mena Abdulla. Mena-al-Ahmadi.
FIRE PRECAUTIONS: No equipment for fire-fighting.
WATCHMEN: Can be arranged through Agent.
CERTIFICATES: All usual documents such as Ship's Manifest, Bill of Health, Crew List, Clearance from last port, Store List, Bonded Store List, etc.
CUSTOMS ALLOWANCE: (Tobacco) No restrictions. (Wine and/or Spirits) Alcoholic beverage strictly prohibited to be held out of bond. Master allowed keep limited quantity in cabin.
CARGO GEAR: Ship's gear used for discharging.
IDENTIFICATION CARDS: Not needed.
REPAIRS: None.
REPATRIATION: Can be arranged via Kuwait.
Seamen arriving Kuwait Airport to join vessels at partioned Zone ports can obtain transit visa at airport, if Agents arrange to submit necessary guarantee to Immigration Authorities confirming that they are in transit and joining vessels calling at Kuwait and/or Partitioned Zone. In order to meet the crew at airport and arrange transit visa, cables confirming their arrivals and flight numbers are to be sent to Agents to reach them at least 24 hours before arrival of crew.
Marine Superintendent of Owners, or Owners' representatives and businessmen visiting Kuwait must have valid visas. Such visas can be obtained from Kuwait Government's diplomatic missions abroad.
AIRPORT: Kuwait Airport served by regular airlines.
TIME: GMT plus 3 hours.
HOLIDAYS: New Year's Day; Eid al Fitr; Accession to the Throne; Eid al Haj; 1st Muharram; Prophet's Birthday; Rajab.
TELEPHONE: Cannot be arranged on board.
PROVISIONS: Foodstuffs, beverages, tobaccos, etc., available from ships chandlers in Kuwait in limited kinds and quantities. Prices more expensive than town of Kuwait due to long transportation. Ships Agent should be advised by cable well in advance.
SPECIAL SERVICES: Swedish Welfare for Seamen, Lloyds Surveyor, Butterworth tank cleaning machines and equipement, and under-water cleaning.
SHORE LEAVE: Not limited.
AGENT: See "Kuwait."

MINA SAUD: (Kuwait) 28.45 N. 48.24E

LOCATION: Mina Saud located in Saudi Arabia/Kuwait Partitioned Zone, just South of Ras Az Zaur, approx. 23 miles 244° from Madaira Lt. Vessel. Terminal is connected to Field and Production Centre at Wafra, 31 miles to NW, by 18 in., 16 in., and 10 in. oil pipelines.
The most conspicuous object at the Terminal is the refinery flare, in position 28° 44′ 13″ N. 48° 23′ 19″ E. Other objects conspicuous to the navigator are: Northern Radio Mast lat. 28° 44′ 32″ N., long. 48° 23′ 38″ E., surmounted by a fixed red light at night; Az Zaur Reef Beacon lat. 28° 44′ 41″ N., long. 48° 24′ 16″ E., a short tower structure exhibiting Fl. ev. 5 secs.
OPERATORS: Mina Saud Marine Terminal operated by Getty Oil Company (hereinafter referred to as the Company) seven days a week. Weather and other circumstances permitting, ships will be loaded, moored and unmoored at all hours of the day. Company representatives available at all times to discuss with Master any problems affecting vessel turnaround.
FLAG: All vessels required to fly Kuwait flag at foremast during daylight hours. Flags may be obtained from Agents.
APPROACHES: Vessels on passage direct to Mina Saud up Gulf should pass about one mile South of Madaira Reef light-vessel, thence make good a course of 242° to an anchorage off Mina Saud in 9 fathoms.
DOCUMENTS:
Ship's Manifest.
Bill of Health.
Crew List.
Clearance from Last Port.
Passengers Manifest, if any.
Store List.
Bonded Store List.
Agents are responsible for presentation of oil discharging certificate to Customs authorities as guaranteed by them. All cargo discharge certificates duly attested by Arab Consulate to be sent to the Agents directly.
Cargo documentation carried out by Terminal. Masters will greatly assist Terminal Staff by prompt provision of ship's tank ullages on completion of loading.
PILOTAGE: Vessels boarded by Mooring Master either on approach or at anchorage. Mooring Masters are Licensed Masters Foreign Going. They act in an advisory capacity to Master and have expert knowledge of local conditions.
Mooring Master will pilot the vessel into the berth, supervise the mooring and unmooring, and advise Master with respect to connecting and disconnecting submarine hose. A ship's deck officer must be on the bridge at all times while ship is manoeuvring, and deck officer must direct ship's crew in all hose handling. During loading operations Mooring Master will act as Company's representative.
ANCHORAGE: Centre of anchorage area recommended is in position 090° from Flare 4·3 miles, which has good holding ground with mud and sand bottom.
Prohibited anchorage area defined as follows: beginning at refinery flare 060° 3.5′ thence 180° 1.75′ thence 270° 3.0′ to refinery flare.
WEATHER: In summer months of June, July and August light to moderate Northerly and North-westerly winds are general rule at Mina Saud. Occasional strong N.W. winds of force 5/6 Beaufort scale. Strength and duration governed by strength of S.W. monsoon blowing outside Gulf.
During autumn and early winter months fine weather is generally experienced associated with moderate N.E. monsoon prevailing outside Gulf. Occasional 'Shamals' (N.W. winds) occur.
In late winter period and spring, strong S.E. winds with moderately heavy seas frequently experienced at Mina Saud. These are due to approach of low pressure systems from Atlantic and Mediterranean Sea spreading Eastwards across Levant and Iraq.
TIDES: Tide cycle is combination of diurnal and semi-diurnal tides giving a higher High, Lower High, Higher Low and Lower Low waters during a 24 hour period.
Range of tide is average 9 feet at Springs and 5 feet at Neaps.
Commencement of ebb stream (direction 190°) after Higher High water may be taken as 1 hour and 20 minutes before predicted time of Higher High water at Mina Al Ahmadi published in Admiralty Tide Tables. Chart datum and zero of Predictions at Mina Al Ahmadi has been transferred to Mina Saud Tide Gauge datum.
Main direction of flood and ebb streams 010° and 190° is extremely variable between Lower High Water and Higher Low Water period. Average direction during this period about 045°.
Tides subject to meteorological conditions and may be affected in height by plus or minus 2 feet. Times of High and Low water may be considerably affected.
The Mooring Masters have access to information from the Marine Meterological Station at Mina Saud.
MAX. SIZE: See "Berthing".
HEALTH: Quarantine officer will board vessel at anchorage or berth.
RADIO: Ships' W/T traffic for Terminal routed via Mina Saud Radio. Call sign "HZW". Frequencies and schedules as follows:
500 kc/s. and 464 kc/s., traffic lists on 464 kc/s. after preliminary call on 500 kc/s. at 20 minutes after each *odd* hour.
4253 kc/s. on request; 6455 kc/s. on request.
8506 kc/s. 0400–0600 and 1800–2000 GMT. Keeps watch for 30 minutes after each traffic transmission at 20 minutes past each *even* hour.
12860 kc/s. 0800–1000–1200–1400–1600 GMT. Keeps watch for 30

minutes after each traffic transmission at 20 minutes after each *even* hour.

17002 kc/s. on request; 22461 kc/s. on request.

Radio-telephone service also maintained by HZW from 0400–2000 GMT on following frequencies: (call sign "Mina Saud Radio"), listening watch on 2182 kc/s., working frequency 2582 kc/s. Additional voice communications channels are: 2192, 2638, and 2738 kc/s.

Masters requested advise ETA 72 hours before arrival and to confirm this when 24 hours distant from port.

Radio station HZW owned and operated by the Company. No charge on messages addressed to "Gettymar Mina Saud". Messages to Agents and others outside Partitioned Zone should be routed via Kuwait Radio or similar station.

It will assist if following information is passed direct to Gettymar Mina Saud before vessel's arrival: (1) Bunker fuel and cargo requirements in U.S. Barrels at 60°F. (2) Confirmation that only clean ballast is to be discharged. (3) Details of any cases or suspected cases of infectious diseases on board during the last four weeks.

Contact by radio during last 24 hours is invaluable in passing essential information from and to inward bound vessels.

When berthed at Mina Saud contact with shore is maintained by VHF R/T portable units supplied by the Company. Both battery and mains operated sets provided to meet all emergencies.

TUGS: None.

READINESS: Notice of Readiness will be accepted by Company within terms of Charter Party or Contract when known, otherwise during ordinary business hours, which shall be between 0700 and 1800 local time except on Fridays and Public Holidays.

Laytime to commence six hours after time of acceptance or upon commencement of loading, whichever occurs first, except that when Notice of Readiness received before 1600 local time the six hours shall be continuous, but if received after 1600 then such six hours shall be daylight hours, daylight hours for such purpose being between 0600 and 1800 local time.

If after giving Notice of Readiness, vessel delayed in getting into berth or in loading, such delay shall not count as used laytime unless delay shall be due to default of Company. On completion of loading, laytime shall cease upon disconnecting cargo hoses.

Should Company Mooring Master be handed a Notice of Readiness out of business hours and before commencement of loading he will note it as "Received" at that time, for acceptance by the Company at earliest recommencement of business hours, or at time of commencement of loading, whichever shall be first.

If Notice of Readiness given after latest accepted nominated lifting date, laytime shall not commence before commencement of loading.

BALLAST: Vessels must have enough clean ballast to permit safe manoeuvring under any conditions. No shore tanks for disposal of dirty ballast.

Mooring Master will advise when ballast discharge may commence. Inspection of ship's tanks for suitability to receive cargo carried out by Mooring Master or by qualified petroleum inspectors if required.

GEAR: For handling 12 in. and 10 in. strings of hoses ship's derrick should have a minimum safe working load of at least 5 tons. Outreach overside should be at least 5 ft.

Two lengths of 3 in. or 3.5 in. circumference good quality manilla rope each of 50 fathoms in length should be available for use as guys to lead forward and aft for north and south flexible hoses.

Reducers should be available for connection of 12 in. and 10 in. hoses to ship's manifold and 8 in. flexible hoses to ship's bunker line connection.

Company provides snub lines of manilla and wire rope for hanging off hoses.

In the event that ship's derrick gear is inadequate for loads required, a work barge can be made available. Charge for this barge, including positioning and personnel, is equivalent of 150 U.S. Dollars per hour (approx.).

BERTHING: Two loading berths with conventional sealine moorings which are connected by a common 20 in. submarine line for cargo and a separate 12 in. submarine line for bunker fuel. Each berth has one 12 in. and 10 in. cargo hose, and 8 in. hose for bunkers.

The outer berth, 073° 2.6 miles from refinery flare, is equipped to take vessels of 100,000 tons deadweight and has minimum depth 55 ft. at lowest low water.

Inner berth, 073° 2.0 miles from refinery flare, has minimum depth 45 ft. at lowest low water and can accommodate vessels up to 800 ft. in length.

MOORING: (*a*) Port is an open roadstead and ships must be prepared to use main engines, unmoor and leave at any time.

(*b*) Mooring and unmooring carried out during day or night, as required.

(*c*) Vessels moored to ebb tide stream at both inner and outer berths. In addition, berthing with a flood tide stream may be carried out at outer berth when conditions permit.

(*d*) At outer berth latest resilient type mooring method is employed.

Resilience in mooring achieved by weight of clump anchor and catenary of chain cable. A quick release hook of 65 tons capacity connects ship's ropes to the buoy.

(*e*) Both port and starboard anchors should be lowered clear of hawse pipes and ready for instant letting-go from brakes.

Spar buoys established to mark starboard and port anchor dropping positions.

(*f*) Six good quality natural or synthetic ropes should be flaked ready for running from the stern. After anchoring, as vessel proceeds astern in Berth, quarter lines are run by Company launch and secured to quick release hooks on quarter buoys. 5 in. circumference steel wire rope are run to ship from mooring buoys.

(*g*) When securely moored in correct position for handling hoses, each anchor should have about 8 shackles out and it is advisable that tankers using these submarine berths be provided with not less than ten 15- fathom lengths of cable on each anchor.

(*h*) Masters requested ensure that power to deck machinery and sufficient seamen to operate it are immediately available at all times when in berth.

LOADING: (Oil cannot be pumped from ship to shore under existing arrangements.). Submarine line marked by permanent buoy at each berth, and marker buoys fitted to both 10 in., 12 in. and 8 in. hoses

Recovery of flexible hoses is by fleeting by ship's tackle making use of beckets fitted to recovery chain.

"Ship's Stop" is invariable rule except in an emergency. Ship must give reasonable stand-by time to Mooring Master, 15 to 20 minutes, to alert Terminal staff on shore for closing gauges.

Loading rate at present averages 1,500 tons per hour.

MEDICAL: Medical attention to ship's crew members available from Company Medical Officer. Agent must invariably arrange for landing permit for any crew member visiting doctor on shore. A fee of U.S.$5 (approx.) per examination charged. When Medical Officer required to attend on board, an additional fee of U.S.$5 (approx.) is charged. X-ray facilities available on shore. Charge made for each X-ray U.S.$10 (approx.). Cost of drugs and medicines supplied by the Company is also charged to vessel concerned.

FRESH WATER: Not available but in emergency can be arranged from Kuwait.

FUEL: Bunker fuel type "C" at loading berths through 12 in. submarine line with single 8 in. flexible hose.

FIRE PRECAUTIONS: Masters are responsible for enforcing "No Smoking" regulations for their vessels and Mooring Master will stop loading if he considers them to be inadequate or if they are not being obeyed. Smoking in Company craft in the berths is forbidden.

CUSTOMS: Alcoholic beverages strictly prohibited to be held out of bond. Master allowed to keep limited quantity in his cabin.

Liquor must not be supplied to subjects of Saudi Arabia nor to any unauthorized persons.

It is important to remind owners and Masters that all goods, either landed or embarked, must be cleared by Agent through local Saudi Arabian Government Customs.

Import of firearms and ammunition forbidden.

CONSULS: See "Kuwait."

REPAIRS: No regular repair facilities available. However, a fully qualified diver is available from Terminal. Charge for any service required, including provision of Diving Tender and attendants, is U.S.$50 (approx.) per hour of diving or part thereof. Underwater cutting gear and welding equipment available.

Services of diver who operates this equipment available at rates to be arranged for the job and agreed by Superintendent of Marine and Terminal Operations, Mina Saud.

Repairs to main engines must not be carried out in the berth without permission of Superintendent of Marine and Terminal Operations. Normally vessels requiring to immobilize engines will be anchored well clear of other ships.

REPATRIATION: Crew changes normally effected through the Kuwait directed port of Khor Al Mufatta. Owners and Masters are reminded that it is not necessary to delay ship on account of these transfers. When embarked at Khor Mufatta the launch concerned can effect the changes at or near Terminal berths.

Seamen arriving at Kuwait Airport to join vessels at Partitioned Zone ports can obtain transit visa at the airport, if Agents arrange to submit the necessary guarantee to the immigration authorities confirming that they are in transit and joining vessels calling at Partitioned Zone. In order to meet the crew at airport and arrange transit visa, cables confirming their arrivals and flight numbers are to be sent to Agents to reach them at least 24 hours before the arrival of the crew.

Marine Superintendent of Owners, or Owner's representatives and businessmen visiting Kuwait must have valid visas. Such visas can be obtained from Kuwait Government's diplomatic missions abroad.

TIME: GMT plus 3 hours. Permanent.

STORES: Provisions and stores are available from Kuwait. Requirements should be arranged with Agents through Kuwait Radio prior to arrival at Mina Saud.

SHORE LEAVE: Not permitted.

AUTHORITY: Getty Oil Company, Saudi Arabian Division, Mina Saud, via Dhahran, Saudi Arabia.
Kuwait Office, PO Box 187, Kuwait, Arabian Gulf. Cable Address: "Gettymar – Kuwait".

AGENTS: See "Kuwait."

Communication is by road by personal visit of agency staff. Distance about 50 miles.

Ship's entry and clearance formalities are carried out by the Agents through local Saudi Arabian Government Officials.

RAS-AL-KHAFJI: (Saudi Arabia) 28.25 N. 48.32 E.

OPERATORS: The Arabian Oil Co. Ltd. (Japan).

LOCATION: Port located within Company's Concession Area which covers offshore area of Partioned Zone between Kingdom of Saudi Arabia and State of Kuwait. Onshore base situated in approximately 28° 25′ North, 43° 31′ East, and within a distance of 6 miles (10 km) offshore, the Company has laid two conventional sea-berths and a single-buoy-mooring for loading tankers and also an

anchorage area for cargo ships working cargo. Outside this distance is an anchorage area for tankers.

In addition to exporting crude oil, fuel oil and naptha are also exported.

COURTESY FLAG: As Ras-al-Khafji is in Partitioned Zone where there is dual government by Saudi Arabia and Kuwait, all vessels calling at this port are required to fly national flag of Saudi Arabia while in port limits.

APPROACHES: Approaches to Ras-al-Khafji marked on appropriate U.S.H.O. and British Admiralty Charts, and are deep enough for majority of vessels using the port to proceed with normal caution using the buoys as centreline markers. A single patch with a depth of 56 ft. (17·07 metres) exists North of courseline between Buoys Nos. 2 and 3, and this necessitates caution on the part of large tankers leaving Ras-al-Khafji in loaded condition.

For tankers arriving Ras-al-Khafji without necessary charts, the full information will be given by telegram if request is sent to "Arabiaoil Kuwait" (via "9KK", Kuwait Radio Station) a few days before arrival. Alternatively, if vessel has VHF, the buoy positions will be given to them upon request to "Ras-al-Khafji" as the vessel approaches, but prior notice of requiring this service should be given in vessel's arrival message.

NAVIGATIONAL AIDS: All geographical positions given although approximately correct, are intended for reference purposes only as certain differences are known to exist between these positions and those shown on the U.S.H.O. and British Admiralty Charts of the area.

Conspicuous Marks. Flare stacks in offshore field and ashore normally visible at a great distance, but may occasionally be extinguished.

No. 1 Flare Latitude	28° 28.3′ North Longitude	48° 57.0′ East
No. 2 Flare	28° 27.0′	48° 54.8′
No. 3 Flare	28° 29.8′	48° 56.0′
No. 4 Flare	28° 30.3′	48° 58.0′
Onshore Flare	28° 24.5′	48° 32.4′

DOCUMENTS: (*a*) Clearance. Master should submit following documents to Kuwait Government through Agent (2 copies each):

Maritime Declaration of Health.
Health Condition of Crew.
Details of Air-conditioning.
Crew List.
Vaccination List.
Passenger List (if any).

Note Forms 1–3 are supplied by the Agent.

(*b*) Cargo. All cargo documents and shore figures are usually prepared on shore, and this takes about 1.5 hours with a futher 30 minutes before the documents arrive at the ship. Ship's Statement of Cargo is, however, prepared on board. Wherever necessary Mooring-Master will sign documents on behalf of the Company.

Following cargo documents are to be completed after loading:

Notice of Readiness.
Bill of Lading.
Time Sheet.
Ship's Statement of Cargo*.
Certificate of Delivery‡.

Note: *Ship's Statement of Cargo includes the items for "clean ballast declaration" and "dry inspection" altogether in one form.

‡ Certificate of Delivery should be handed to ship's Agent at port of discharge for certification by Customs Authorities. Agent should then return Certificates to the Company as soon as possible. Non-compliance with this requirement could involve vessel in serious difficulty. Masters therefore advised to ensure that their Agents at each discharging port return the Certificates at the earliest possible moment.

All certificates are to be sent direct to Arabian Oil Company and the Agents should be notified accordingly. It is understood that Arabian Oil Co. do not require legalised certificates and only certificates attested by the Customs at discharging ports will suffice.

READINESS: Master should present Notice of Readiness to load to Company's Mooring Master who will sign it on behalf of the Company. The Notice should be tendered as the time of the vessel's arrival at tanker anchorage area, which is, in principle, understood to be either time of dropping anchor in anchorage, or if vessel does not anchor, the time that Mooring Master boards to commence berthing.

MOORING MASTER: Compulsory for berthing and unberthing at Ras-al-Khafji, and Company's Mooring Masters will board vessels at anchorage area to take them to allocated berths. After berthing, Mooring Master will remain on board vessel until it is unberthed and cargo documents are completed. During this time he will act as the Company's representative in charge of all operations and shore personnel where the Company is concerned.

Notwithstanding presence of Company's Mooring Master on board, the Master of the vessel remains responsible for his vessel at all times and in all respects. In event of any emergency, however, the necessary steps should be taken by joint action between the Master and the Mooring Master.

The Master of each vessel shall give to Mooring Master all information necessary for safe handling and safe operation of vessel while it is in berth.

BALLAST: All vessels required to have on board sufficient clean ballast to give safe draft for manoeuvring purposes. Vessel arriving with too little ballast may be required to increase quantity, should Mooring Master feel that it would not be safe to berth vessel in its arrived condition. Recommended arrival condition is with propeller completely or almost completely immersed and vessel trimmed not more than 10 ft. (3.05 metres) by stern.

In good weather conditions, Mooring Masters will normally permit vessels to start deballasting as they approach the berth in order to save ship's time.

BOARDING: All vessels required to provide safe means of access for personnel boarding and leaving and should have accommodation ladder rigged on port side. In the case of vessels assigned to Berth No. 3, an accommodation ladder which leads down forwards is liable to be blocked by floating hoses, and in such cases the ladder should be rigged on starboard side. A ladder aft is always suitable on the port side.

For the benefit of people boarding at the anchorage area, vessels should provide a safe means of access on the lee side.

ANCHORAGES: (*a*) Tankers. Tanker anchorage within 1 mile radius from 28° 28′ North 48° 38′ East. A light-buoy (No. 4) marks Western limit of this area. Depth of water varies from 67 ft. (20.42 metres) to 77 ft. (23.47 metres) with a good holding ground of clayey mud. Vessels should anchor as close as possible to this buoy to await berthing.

(*b*) Dry-cargo. Anchorage for dry-cargo ships located about 4 miles to West of tanker anchorage, and is centred in position 28° 26.8′ North 48° 33.4′ East at which position a red light-buoy showing a flashing red light every 3 seconds has been laid. Cargo ships should anchor within a half mile radius of this buoy, where depths are between 36 ft. (10.97 metres) to 50 ft. (15.24 metres) in good holding ground of clayey mud.

(*c*) Prohibited Area. An area bounded by straight lines joining following points is prohibited to anchoring and fishing due to presence of well-heads, Flow Stations, Gathering Station, etc. and numerous pipelines and power transmission cables on the sea bed. Additionally, the area bounded by five light-buoys is prohibited to navigation by all vessels or craft except those operating on direct instructions from the Company.

(*k*)	28° 26′ 53″	48° 52′ 00″	
(*l*)	28° 23′ 13″	48° 31′ 48″	

HEALTH: No radio pratique will be given. Vessels must be cleared by quarantine office on arrival. (In the past, tankers were given free pratique at the request of Agents and on the production of the copy of telegrams from vessels confirming that all crew members possess valid cholera and vaccination certificates and that there is no sickness on board. This procedure has changed recently and all vessels are boarded by quarantine officer and pratique is given only after checking the documents concerned.)

RADIO: (Also see "Approaches"). Advise ETA Khafji at least 4 days, and again 1 day, before arrival through normal radio services. As an alternative to the route through Kuwait Radio Station (call sign: 9KK), vessels may send their first message through Singapore, Bombay or Bahrein Radios. Confirmation of ETA should be made a few hours before arrival by calling "Ras-al-Khafji" on Channel 16 VHF. All cables should be addressed to "Arabiaoil Kuwait".

The first message should be sent according to following form, but any items which are the same as a recent previous voyage to this port may be omitted.

(1) ETA Ras-al-Khafji
(2) Last port
(3) Deballasting time
(4) Quantity and type of cargo and bunkers required
(5) Maximum loading rate
(6) Diameter of cargo and bunker connections
(7) Distance from manifold to ship's side
(8) Derrick capacity
(9) Whether Ras-al-Khafji is first or second port (when taking part cargo)

Note: Item (9) should only be answered in cases where vessels are taking part cargo at Ras-al-Khafji. If second port, the first loading port should be mentioned.

Communications between shore and loading berth mainly sent and received by means of FM wireless telephone, which is brought on board tankers at time of arrival.

TUGS: The undermentioned tug-boats are available for mooring and unmooring purposes: "Chiyoda Maru No. 22 200 GRT, 1,320 BHP; "Chiyoda Maru No. 3" 175 GRT, 1,320 BHP; "Chiyoda Maru No. 4" 236 GRT, 2,200 BHP.

One of these tugs stands by near the berths as long as any vessel remains moored. Two mooring boats are used for handling ropes and hoses.

BERTHING: 1. Personnel. After vessel berthed, Company's Loading Operator and Mooring Crew will board. Loading Operators work shifts and there will always be one on board vessel while in berth. This man acts as assistant to Mooring-Master, and should be treated as such at all times. In particular he will carry out Safety Inspections and handle communications between ship and shore, particularly those communications regarding cargo.

Ship's personnel requested to give Loading Operator all required information and necessary assistance to allow him to do his job properly. Any disputes arising from his actions should be referred to Mooring-Master for final decision.

Mooring Crew will connect and disconnect hoses as required,

but may at any time be transferred to another vessel for the same purpose. While they remain on board, vessels are requested to provide them with following: use of Smoking Room, toilet and washing facilities; hot and cold drinking water; utensils for eating and drinking (it is not normally necessary to supply food).

2. Description of berths.

(*a*) *Sea-Berth No. 1*

Position: 28° 26′ 10″ North, 48° 34′ 57″ East.

Depth: 53 ft. (16.15 metres) at Indian Spring Low Water.

Permitted draft: 47 ft. (14.33 metres) maximum.

Type of berth: Conventional four-buoy system where vessel moors to two anchors and one buoy forward and to three buoys aft.

Length: Designed for tankers of 800 ft. (245 metres) length but can be used by tankers of any size, although tankers of less than 650 ft. (200 metres) overall length sometimes experience difficulty in mooring if their lines are less than a full 720 ft. (220 metres).

Submarine Pipelines and Hoses: From the ex-Loading Dock one 26 in. crude oil line and one 18 in. fuel oil line have been laid to the manifold position. Two 10 in. rubber hoses for crude oil and one 12 in. rubber hose for fuel oils are connected to ship's manifold. These hoses approximately 225 ft. (69 metres) long and maximum lifting weight of the two crude oil hoses together is 4.5–5 tons. For bunkering purposes one section of 6 in. hose is attached to the end of the 12 in. fuel oil hose.

(*b*) Sea-Berth No. 2

Position: 28° 25′ 55″ North, 48° 35′ 28″ East.

Depth: 56 ft. (17.07 metres) at Indian Spring Low Water.

Permitted draft: 50 ft. (15.24 metres) maximum.

Type of berth: As Berth No. 1.

Length of berth: As Berth No. 1.

Submarine Pipelines and Hoses: From the ex-Loading Dock one 26 in. crude oil line, one 10 in. bunker line and one 4 in. marine diesel line have been laid to the manifold position. Two 10 in. rubber hoses for crude oil, one 6 in. rubber hose for bunkers and one 4 in. rubber hose for marine diesel oil are connected to ship's manifold. All these hoses approximately 225 ft. (69 metres) in length, and the maximum lifting weight of two crude oil hoses together is 4.5–5 tons.

(*c*) Loading Rates at Berths No. 1 and No. 2

Crude oil rate is 30,000 bbls/hr or 4,000 tons/hr.

Fuel oil loading rate at Berth No. 1 is 7,000 bbls/hr or 1,000 tons/hr.

(*d*) Preparation on Board before Berthing at Berths No. 1 and No. 2

Vessels should have ready:

(i) Both anchors.

(ii) Three ropes forward and nine ropes aft.
Some wires are acceptable in place of equivalent number of ropes. No shore wires used from buoys to ship. All ropes and wires should be in good condition and preferably without splices.

(iii) Port derrick rigged for a minimum lift of 5 tons, using a wire runner and a hook.

(iv) Two 10 in. ASA 150 hose connections for crude oil, and one 12 in. ASA 150 for fuel oil cargo (at Berth No. 1 only), at the ship's port side manifold.
If ASA 150 is not available, the Company should be advised before arrival.

(*e*) Mooring and Unmooring at Berths No. 1 and No. 2

On approaching berth a ship's line is passed to one tug from centre fairlead aft. This line should be of good strength and well made fast on board.

When in position off berth, starboard anchor is let go and slacked away easily to about 9 or 10 shackles on deck. Port anchor is then let go and paid out easily as vessel swings round into berth using tugs and engines as required. At same time, starboard anchor is hove-in to about 6 or 7 shackles on deck and then made ready for slacking away again.

As vessel backs down berth the anchors are slacked away as necessary, and ropes sent to forward (No. 4) buoy. When stern passes close to starboard quarter (No. 1) buoy, ropes are sent away to this buoy, hove in tight and put on bitts ready for slacking if necessary. Ropes then run to port quarter (No. 3) buoy, hove tight, and lateral position in berth adjusted between port and starboard quarter buoys. Lastly, ropes are run to the stern (No. 2) buoy and tug line also passed to this buoy. The fore-and-aft position is then adjusted between the anchors and the sternlines. A second tug is used to assist in lateral positioning of the vessel, and two mooring boats are used for running lines to buoys, normally taking two ropes at a time.

In wintertime three ropes are used to each buoy, but in summer two of these may be dispensed with at Mooring-Master's discretion.

When properly positioned in berth, distance from ship's side to manifold marker buoy should be about 50–66 ft. (15–20 metres).

When hose disconnection completed, vessel unmoors by letting go all lines on buoys No. 3 and No. 4, followed by those on buoy No. 2 and lastly those on buoy No. 1. Vessel then heaves both anchors as necessary until they are up and clear, and vessel can leave berth.

Tugs used as required to keep vessel away from manifold marker and mooring buoys.

Mooring-Master may vary this procedure according to prevailing weather.

(*f*) Hose Connection and Disconnection at Berths No. 1 and No. 2

After completion of mooring, mooring boat will pull hose marker buoys to ship, and connect to ship's port derrick runner. The two crude oil hoses are lifted together from seabed by ship's derrick, and connected directly to manifold by Company's Crew.

Fuel oil hose at Berth No. 1 is lifted separately and connected in similar manner.

Time taken for hose connection about 1–1.5 hours depending on number of hoses connected. Hose disconnection takes about 1 hour, and is done in reverse manner to connection.

(*g*) Loading Restriction at Berths No. 1 and No. 2

Due to there being only one cargo pipeline between ex-Loading Dock and the shore, it is not possible to load vessels in Berths No. 1 and No. 2 simultaneously. Therefore, when these berths both occupied, one vessel will be loading while the other is deballasting; the latter arranging to finish ballast about 1 hour before the other vessel finishes cargo.

(*h*) General Description of Berth No. 3

Position: 28° 27′ 06″ North, 40° 36′ 28″ East.

Depth: 62–64 ft. (18.90–19.51 metres), but 59 ft. (17.98 metres) over pipelines, at Indian Spring Low Water.

Permitted draft: Normally 54 ft. (16.46 metres), but 56 ft. (17.07 metres) permissible using rise of tide.

Type of berth: Single-buoy-mooring system consisting of a buoy 30 ft. (9.14 metres) in diameter, moored to eight pendant legs of 3.5 in. high strength chain shackled to anchor piles at a radius of 575 ft. (175 metres), and having a rotating deck carrying pipeline and mooring connections.

Moorings: Attached to mooring connections on the buoy are two 12 in. nylon ropes (97 mm. dia., breaking strain 150 tons). These ropes are 120 ft. (37 metres) long, and have at their free end a length of stud link chain which includes a "sister-plate" for receiving the shackles used on deck of tanker. From outer end of this chain is connected a 10 in. polypropylene "pick-up" rope about 180 ft. (55 metres) in length. Rope supported by "doughnut" floats, and chain hung by large plastic buoys 5 ft. in diameter, coloured red and green.

Submarine Pipelines and hoses: One 36 in. crude oil line and two 12 in. fuel oil lines have been laid approximately 30,000 ft. (9 km.) from shore to position close under buoy. From underwater manifold the crude oil goes to the buoy through 20 in. underwater hose; fuel oil lines joined at manifold and fuel oil led to buoy through one 10 in. submarine hose. From deck of buoy 20 in. crude oil hose and 10 in. fuel oil hose are supported by floats, and have a length of 660 ft. (201 metres) to a hose raft, at which position the 20 in. hose is divided into three strings of 12 in. floating hose. These, together with the 10 in. fuel oil hose, extended for a further 120 ft. (37 metres) making a total length of 780 ft. (238 metres) including the raft. At their free end the hoses are paired and connected to two large plastic buoys each 4 ft. in diameter.

Loading Rate: Maximum loading rate of crude oil is 45,000 bbls/hr or 6,200 tons/hr. The fuel oil loading rate is 5,000 bbls/hr or 700 tons/hr.

(*i*) Preparation on Board before Berthing at Berth No. 3

Before arriving at anchorage, vessels assigned to Berth No. 3 should have ready:

(*a*) Two mooring ropes forward, together with rope stoppers, and also one or two steel crowbars.

(*b*) Port derrick rigged for 10 tons, or maximum lift if 7–10 tons.

(*c*) Three 12 in ASA 150 hose connections for crude oil, and one 10 in ASA 150 for fuel oil cargo, at the port side manifold. If ASA 150 is not available, the Company should be advised before arrival.

(*j*) Mooring at Berth No. 3

Mooring-Master will board from tug which carries mooring and hose connection materials. Vessels should have crew standing-by ready to receive these materials, and should maintain a lee until this is completed.

Mooring-Master will instruct crew in setting-up of forward moorings, where two 12 in. nylon ropes are made fast round port and starboard bitts with their attached shackles about 12 ft. (3.66 metres) inboard from the fairleads of panama leads as far forward as possible Size of fairlead opening should be at least 12 in. to prevent chain jamming in fairleads.

Approaching berth, tanker should lower a mooring rope from each bow as a messenger. Mooring boat will take port rope first, and connect it to the port "pick-up" rope which should then be hove-in while the boat returns to take the starboard rope for connection to its "pick-up" rope. These two ropes are then hove in until the chains come into the fairleads, and the shackles can be made fast in the "sister-plates". The "pick-up" ropes are then slacked back until the nylon ropes have the weight.

Usual time from sending away first line until all fast is about 20 minutes.

(*k*) Unmooring from Berth No. 3

After hose disconnection completed, the weight is taken on "pick-up" ropes, nylon ropes are unshackled, and as vessel backs off berth the "pick-up" ropes are slacked off and then dropped into the water. The tug will come alongside either before or after vessel backs off berth, whichever is convenient, and the nylon ropes and the two big shackles are passed to the tug. Unmooring time usually 10 minutes.

(*l*) Hose Connection and Disconnection at Berth No. 3

After completion of mooring, the mooring boat which has been holding the hoses clear during berthing, will bring the hoses to the ship and connect the derrick runner to the buoy having two 12 in. crude oil hoses. These are usually lifted aboard together and connected directly to ship's manifold, making any necessary separation of hoses as may be required according to lifting capacity of ship's derrick

The hoses are hung off on 2 in. diameter nylon ropes and lashed

to the rail to prevent shock loads due to wave action being transmitted to manifold flanges.

After the first pair of hoses have been connected, the second buoy is lifted and the remaining crude oil hose and the fuel oil hose connected in similar manner to the first two hoses. If a vessel requires a loading rate of 5,000 tons/hr or less, only two crude oil hoses are connected. According to the number of hoses to be connected, connection takes 1.5–2.5 hours.

Hose disconnection is done in a reverse manner to connection, and takes about 1–1.5 hours.

LOADING: Loading crude cargo on top of oily residue is acceptable.

(*a*) Dry Inspection

Upon completion of deballasting the Mooring-Master will inspect the tanks.

If the tanks are not satisfactory, he may require further pumping until such time as they reach the required standard.

(*b*) Loading Operations

When ship is ready for loading, ship's officer must inform Loading Operator who will transmit necessary orders to Control Room on shore.

Loading is started by booster pump, and after everything has been checked and found satisfactory on board loading rate will be gradually increased by starting further booster pumps and then main pumps in sequence until the required loading rate is reached; provided always that required loading rate is within capacity of the pumps.

Loading rates can be varied at any time during loading upon 5–10 minutes notice to the Mooring-Master or Loading Operator on board.

In case of emergency, the immediate stopping of all loading can be accomplished.

When loading is completing, the rate is gradually reduced first by stopping the main pumps and latterly the booster pumps, one by one according to the request of the ship's officer. At the final stage of loading only booster pumps should be on the line, and the ship's officer should tell the Loading Operator to "Stand-by" at least 5–10 minutes before finishing cargo.

Shore pumps will stop about 15 seconds after their control buttons are pressed, but the oil will continue to flow for several minutes, depending on amount of time since main pumps were stopped.

All stops for cargo completion must be given by the ship, as "shore-stop" is *NOT* practised at this port.

(*c*) Overflows and Spillage

In the event of overflow or spillage during loading, cargo will be stopped immediately and will remain stopped until such time as Mooring-Master considers it safe to resume loading. This will normally be when all the overflowed oil has been cleared off the deck and there is no longer any unusual danger involved. It is ship's responsibility to clear oil away as soon as possible after occurence.

(*d*) Ullaging and Gauging

After loading completed, Mooring Master will witness final ullaging on board so that ship's figures can be calculated.

Onshore a group of Government and Company gaugers will take manual gauges of the shore tanks before and after loading, and from these gauges the Bill of Lading figures will be calculated.

(*e*) Saybolt Inspection

The oil inspectors of E.W. Saybolt & Co., S.A., based in Mina Abdullah, Kuwait, are available at this port upon consignee's special request. They will carry out or witness gauging of the shore tanks, dry inspection and ullaging of the ship's tanks, calculation of shore and ship's figures, analysis of oils, etc., issuing the necessary certificates according to consignee's requirements.

STEVEDORES: Dry-cargo vessels calling Ras-al-Khafji to give at least 72 hours notice to Agents to arrange labourers. Stevedores will be arranged from Kuwait. Ship's gear used for discharging, which takes place at anchorage into barges.

V.H.F. (Also see "Approaches" and "Radio"): Short-range communication can be made with Terminal Office by calling "Ras-al-Khafji" on VHF Channel 16. Working channels are 9, 11, 12, 13 and 14. Vessels should call Ras-al-Khafji several hours before arrival to confirm ETA and receive berthing instructions. After anchoring they should advise their anchoring time and then maintain watch on Channel 16 until the Mooring-Master boards. Terminal VHF normally operative between 0400–1400 GMT, and is used outside these hours by special arrangements with individual ships.

MEDICAL: Company operates a clinic and a hospital at Ras-al-Khafji. Medical and dental treatment can be given in cases of emergency or serious illness or injury. Epidemic diseases or cases of serious injury or disease requiring operations, etc. are normally transferred to State hospitals in Kuwait. Company's doctor will not normally attend on board unless patient is incapable of attending clinic. Requests for medical attention should be given to ship's Agent as early as possible before arrival.

TIDES & CURRENTS: Maximum tidal range is 6 ft. average tidal range at spring tide 3.7 ft., and the I.S.L.W. 4 ft. below mean sea level. Heights of high and low water considerably affected by prevailing weather conditions. Northerly winds tend to reduce heights of tides and retard them, and southerly winds increase heights slightly.

Near sea-berths current flows roughly parallel with shore, and reverses its direction about 1 hour earlier than time of high or low water inshore at Ras-al-Khafji. Current approximately 1.5–2 knots maximum. Direction and velocity of tidal current are much affected by prevailing weather conditions.

Tidal data for Ras-al-Khafji compared with Mina-al-Ahmadi is as follows:

Flood tide: Occurs approximately 30 minutes later than Mina-al-Ahmadi. Height approximately 0.73 times that of Mina-al-Ahmadi.

Ebb tide: Occurs approximately 20 minutes later than Mina-al-Ahmadi. Height approximately 1,04 times that of Mina-al-Ahmadi.

"Tide and Current Table" published annually is available from the Company upon request.

WEATHER: Hot and dry with little cloud during summer from May to September and considerably colder in December and January.

Prevailing wind North-westerly, however winds of varying strength may come from any direction. In summer, diurnal sea breeze is light Easterly at about 5–7 metres per second (10–14 knots), and only rarely increases to 12 metres per second (23 knots). In winter South-south-easterly winds of up to 20 metres per second (39 knots) may last one or two days and then veer suddenly to North-west, often accompanied by gusts or squalls in excess of 20 metres per second. Occasionally a line squall passes over and winds up to 30 metres per second (58 knots) may be experienced for a short while before settling to blow for longer periods at 20 metres per second. Little or no warning of these strong squalls is given; they appear suddenly, often accompanied by thick sand and dust.

In area of sea-berths, waves prevented from forming by short fetch of North-westerly wind, but waves up to 5–6 ft. do occur from this direction. South-easterly winds raise a short steep sea which quickly reaches 7–8 ft. hight. This lengthens and increases as wind freshens and has been known to reach 14–15 ft. in area of sea-berths. When South-easterly wind veers, swell rapidly decreases but persists for about 24 hours thereafter.

Visibility generally good, but North-westerly winds cause rising dust and sand which may reduce visibility to almost zero at times. Haze is common, and on calm hot days mirages are frequent. "Steam fog" may occur at times in early morning hours resulting in very poor visibility.

FRESH WATER: Not available except in cases of extreme emergency.

FUEL: (Also see "Berthing")

(*a*) Grades. Marine diesel oil (MDO), light bunker oil (LBO) and heavy bunker oil (HBO) are supplied. Each loading berth has pipeline which can deliver light and heavy bunker oils, but only berth No. 2 has marine diesel line. At Berths No. 1 and No. 3, marine diesel oil supplied from barge for which no extra charge made.

"Bunkering Information" booklet, which gives full details of bunkering services at this port, is available from the Company upon request.

(*b*) Bunker Nomination. Owners, Operators or Charterers should nominate their vessels' bunker requirements *to the Company's Head Office in Tokyo.*

Vessels requested confirm grade and quantity of bunkers required *direct to "Arabiaoil Kuwait"* (via "9KK") through normal radio services at least 4 days before arrival; or in cases where vessels receive instructions less than 4 days away, they should advise bunker requirements as soon as possible.

(*c*) Bunkering Operation, Bunkers normally supplied to vessels in berths while they are discharging ballast or loading crude oil. At Berths No. 1 and No. 3 MDO supply from a barge will be done usually before loading cargo.

Except in special circumstances when previously agreed, bunker supply is Stopped Onshore when requested quantity has been pumped according to shore tank gauging.

Berth	*Marine diesel oil*	*Light and heavy bunker oils*
No. 1	4″ 80 t/hr*	6″ 400/300 t/hr
No. 2	4″ 40	6″ 400/300
No. 3	4″ 80*	10″ 400/300

Note: (*a*) * Supply from a barge with 4″ rubber hose.

(*b*) In winter time the rates for light and heavy bunker oils decrease due to the low sea-water temperature increasing the viscosity of these oils.

Bunkering for Cargo Vessels

Bunker supply to cargo ships from a barge or a coastal tanker is available.

CUSTOMS: Upon arrival Master required submit to Customs a manifest of any cargo to be landed at Ras-al-Khafji and to sign a declaration that no intoxicating liquors or drugs will be landed. After loading completed, Customs will sign an Outward Manifest and issue Port Clearance. These will be handed to Master by Agent.

In normal circumstances Customs Officers do not board tankers, but board cargo ships and leave a Customs Guard on board throughout vessel's stay.

Import of following articles forbidden:

Alcoholic beverages.
Pornographic literature, photographs, pictures and films.
Explosives.
Fire arms or implements of war of any kind.
Religious matters not pertaining to the Moslem faith.
Playing cards and other gambling devices.

REPAIRS: Some minor repairs may be made on board using shore assistance in case of extreme emergency, but such repairs must be made only with prior permission of Company's Terminal Office should it be required to do them in berth. Preferably all repairs should be carried out at anchorage. In all cases when shore assistance is required Master should notify ship's Agent well in advance.

DRY DOCKS: None.

REPATRIATION: May be accomplished by making special arrangement through the ship's Agent, well in advance of vessels arrival.

Seamen arriving at Kuwait Airport to join vessels at Kuwait and

Partitioned Zone ports can obtain transit visa at the Airport, if Agents arrange to submit necessary guarantee to Immigration Authorities confirming that they are in transit and joining vessels calling at Kuwait and/or Partitioned Zone. In order to meet crew at Airport and arrange transit visa, cables confirming their arrivals and flight numbers are to be sent to Agents to reach them at least 24 hours before the arrival of the crew.

Marine Superintendent of Owners, or Owners Representatives and businessmen visiting Kuwait must have valid visas. Such visas can be obtained from Kuwait Government's diplomatic missions abroad.

AIRPORT: Kuwait. Served by International Airlines.

TIME: GMT plus 3 hours throughout year.

TELEPHONES: No facilities for placing on board.

SERVICES: Swedish Welfare for Seamen, Lloyd's Surveyor, Butterworth Tank Cleaning Machines and Equipment and Underwater cleaning.

Provisions and deck stores are available from ship chandlers in Kuwait in limited kinds and quantities. Prices at Khafji may be a little more expensive than in Kuwait due to the transportation charges made. In all cases the ship's Agent should be advised of the requests at the earliest possible time before arrival.

SHORE LEAVE: Not normally permitted by Authorities except by arrangement through the ship's Agent.

REGULATIONS: As far as these regulations concern vessels using the outer port, the following are relevant:

(*a*) No vessel shall discharge dirty ballast, ashes, refuse or other objectionable matter into the water.
Vessels arriving with dirty ballast will be required to proceed to sea to clean tanks again. A new notice of readiness to load must be given.

(*b*) All vessels shall navigate with care and caution and at such speed so as not to jeopardize the safety of other vessels.

(*c*) All vessels shall show the various lights required by International Law, and shall avoid the use of unnecessary brilliant lights which may confuse other craft.

(*d*) All vessels loaded with explosives, inflammables, combustibles or other dangerous cargoes shall show the required lights and signals, and any intention to land such cargoes should be previously notified to the Port Officer.

(*e*) No smoking is permitted on any craft within 1,000 ft. (300 metres) of the tanker loading berths, except in such places on board the said craft as have been previously agreed as smoking places.

(*f*) No naked lights or fires are permitted on board any craft within 1,000 ft. (300 metres) of the tanker loading berths.

(*g*) No boiler cleaning, chipping, scaling or scraping of steelwork, or any repair work or maintenance work likely to cause sparks or flames is permitted within 1,000 ft (300 metres) of the tanker loading berths without previous permission from the Port Officer.

(*h*) Any action deemed to be dangerous to the Company's submarine pipelines and other facilities under or above water, or any action liable to create an obstruction of the Company's operations is prohibited.

AUTHORITY: *Arabian Oil Company Offices.* Head Office Chiyoda Denden Building, 1–6, Otemachi, Chiyoda-ku, Tokyo, Japan. Tel. (201) 6821. Central PO Vox 1679, Tokyo, Japan. Cable "Arabiaoil Tokyo" or Telex TK 2416 (Araboil).
Field Office (Partitioned Zone Office): Ras-al-Khafji, Saudi Arabia-Kuwait Zone, (There is no direct telephone connection between Field Office and the Kuwait telephone system.) Ras-al-Khafji, Partitioned Zone, Kuwait. Cable "Arabiaoil Kuwait".

AGENT: See "Kuwait".

Peru

CALLAO: 12.03 S. 77.10 W.

DOCUMENTS: 9 copies Peruvian "Declaracion de Entrada/Rol de Tripulación" from last port, (forms available at Consulate), 8 Crew Lists, 7 Peruvian Cargo Manifests from each port where cargo loaded (forms available from Consulate), 3 Personal Effects Lists, 6 Stores Lists, 5 copies of each Bill of Lading, 1 Tonnage Certificate from First and Last port, 1 International Maritime Health Certificate from last port, 13 copies each Passenger List: disembarking, in transit and/or "no passengers", 1 Clearance from last port, plus sealed envelopes from Peruvian Consulates addressed to Customs. Documents should be visaed by Peruvian Consulates.

PILOTAGE: Pilots must be requested by Agents and board ships outside of mole at anchorage. Various Pilot Launches painted white, black and red. Pilots will only board after Free Pratique granted by Port Captain and Doctor, each arriving in separate launch who complain if vessel anchored too far out. If no berth inside (quite often), vessels remain at anchorage.

ANCHORAGE: Very large area West of entrance buoys north of Naval anchorage.

ENTRY RESTRICTIONS: Vessels drawing 29 ft. or less, enter any hour from 0600 to 2400; drawing over 29 ft., at high tide any time. Vessels depart any time. No incoming pilotage between 0000–0600 unless over 29 ft. as Port Authority, who employ all Pilots, consider pilotage at these hours too expensive.

MAX. SIZE: Length and breadth practically unlimited, draught restriction 31 ft.

HEALTH: Master may request Free Pratique by cabling Agent, but this is at Doctor's discretion and usually not given. If disease on board or suspected, cable Agent.

RADIO: "Habla Naves", OAA, 500, 8605, 6430, 1300, 468 Kcs.

TUGS: Port Authority Tugs join vessel once inside mole, one or two as required, using vessel's lines, later passed to pier.

BERTHING: Port has 6 piers and 3 quays with a total of 20 berths for larger vessels and 5 berths for coaster type vessels. One pier with 2 berths for petroleum products discharge. One quay with 3 berths normally reserved for one loading, also used for general cargo. Ore also loaded at other berths. One quay berth equipped with suckers and silos for grain discharge where discharge is 24 hours if other grain vessel awaiting berth. One quay berth equipped for loading Fishoil; discharge of fats and oils from tankers which have preference at this berth. Inside anchorage for 2 vessels normally used for cattle discharge, occasionally for general cargo when port congested. Ample facilities ashore and afloat to work cargo.

STEVEDORES: No particular advice necessary but Agent must receive Stowage Plan beforehand to advise Port Authority of planned operation.

MEDICAL: Advance information as to sick crew members not required but helpful. Ample first class facilities in Lima area. Smallpox vaccination cards required but seldom inspected.

TANKERS: 10 in. and 12 in. discharge lines at two berths for petroleum products discharge. Discharge of ballast or slops inside mole prohibited. Tankers loading Fishoil must arrive free of ballast.

DENSITY: Sea water.

FRESH WATER: Delivered from barges at about 50 tons per hour at +US$1.00 per ton, overtime extra.

FUEL: Marine No. 2 Gas oil; Bunker C. Premium Intermediary Oil No. 4 available from International Petroleum Co.

PORT FIRE PRECAUTIONS: Use of Port Authority Fire Equipment mandatory during discharge of petroleum products with charge for service.

DEVELOPMENT: 3 berths under construction.

GANGWAY/DECK WATCHMAN: Recommendable.

SHIPS CERTIFICATES: All may be required but normally only Deratisation. If Rat Guards are not used on all lines, vessel liable to fines.

CUSTOMS ALLOWANCES: Any amount over normal consumption usually cause difficulties including searching.

CARGO GEAR: No additional requirements.

IDENTIFICATION CARDS: Supplied by Agent and stamped by Immigration Authority required for all crewmembers.

CONSULS:

Argentina	Ecuador	Mexico
Australia	Finland	Norway
Austria	France	Portugal
Belgium	Germany	Spain
Bolivia	Greece	Sweden
Brazil	Haiti	Switzerland
Canada	Holland	U.A.R.
Chile	Israel	Great Britain
China	Italy	Uruguay
Colombia	Japan	U.S.A.
Denmark	Jordania	Venezuela
	Lebanon	

REPAIRS: Normal Deck and Engine repair facilities.

DRYDOCK: Peruvian Nave within port area, extreme length, 600 ft., breadth 76 ft., depth 27 ft. 120 ton crane, fully equipped workshop.

REPATRIATION: All foreign crewmembers who do not have Peruvian Visas which only obtainable abroad, must be repatriated by quickest means (Air) by Agent, paying all detention expenses. Peruvian and foreign crewmembers available.

AIRPORT: Lima/Callao within city limits has regular direct international service to North and South America, Europe and Far East.

HOLIDAYS: 1st January, Good Thursday afternoon and Good Friday, 1st May, 29th June, 28th and 29th July, 30th August, 1st November, 8th and 25th December. Overtime workable except 1st May.

AGENTS: Naviera Peruana del Pacifico, S.A., Steamship Owners Agents & Brokers, Cargo Surveyors, Alberto Secada No. 399, P.O. Box 66. Tel. 294009, 297724. Telex: I.T.T. 3540236. Cables: Napepa.

CHIMBOTE: 09.05 S. 78.35 W.

DOCUMENTS:

For Entry
2 Entry Declarations (Form No. 1).
1 Departure License of the last foreign port en route.
1 Maritime Health Declaration (Form No. 2).
2 Passenger Lists with entry baggage (Form No. 3).
1 Consular Roll of the last foreign port en route.
1 Consular Passenger List of the last foreign port.

Customs Administration
1 Original Cargo Manifest(s) with the Consular stamp. (Form No. 4).
The envelopes(s) from the Consul, enclosing copies of the Consular invoices, bill of lading and cargo manifest for the port with the consular stamp.
1 Cargo Manifest (Form No. 4).
1 Cargo Manifest of cargo, but with further destination for another national or foreign port (Form No. 4).
1 Cargo Manifest in transit.
1 Gross or Net Tonnage Certificate, with Consular visa.
1 Not Accompany Baggage List (Form No. 5).

Customs
1 Entry Declaration (Form No. 1).
1 Cargo Manifest(s) for port without Consular visa (Form No. 4).
1 Manifest of Cargo for port, but with further destination for another national or foreign port, without Consular visa (Form No. 4).
2 Passenger Lists with entry baggage (Form No. 3).
2 Not Accompany Baggage Lists (Form No. 5).
1 Crew Personal Effect List.
1 Store List, food and spirits.
1 Mail List.

Port Administration
1 Entry Declaration (Form No. 1).
1 Passenger List with entry baggage (Form No. 3).
1 Not Accompany Baggage List (Form No. 5).
3 Cargo Manifests for the port, without the Consular visa (Form No. 4).
3 Manifests of Cargo for port, but with further destination for another national or foreign port, without Consular visa (Form No. 4).
3 Sets of Bills of Lading.
Refer to "San Juan" for further information on Consular endorsement.

PILOTAGE: Compulsory. Official Pilot boards vessels at entrance to bay and leads ship to appropriate anchorage according to draft. Private Pilot to moor to the quays of the "Corporacion Peruana del Santa" and to "Sogesa". Vessels enter the inner roadstead, through southern side of each channel. Depart through Northern side of channel.
ANCHORAGE: Good anchorages in bay according to draught. Anchorages are of mud and sand. Best place to anchor ship of medium draught is inner side of Paso del Norte, 6 fathoms deep, near port and safe. Another good anchorage for ship of medium draught is with Island bearing 170° and Rosas Blancas bearing 275°, 6 fathoms deep.
MAX. SIZE: According to depth of anchorage.
HEALTH: Masters apply according to International Regulations through Agents to Maritime Health Department in the first Peruvian port of call for free pratique by radio, in which case it will not be necessary for Sanitary Doctor to board on arrival. Pratique only essential at first port of call unless requested by Captain, in case of suspected illness on board.
RADIO: "Hablanaves" Station del Callao a Talara.
TUGS: No sea-going tugs. Only small boats, called "Remolcadores del Bahia" (bay tugs), which are used to tow boats that carry cargo to anchored ships.
BERTHING: Operated on "First come, first served" basis.
STEVEDORES: Agent arranges stevedores. Normally done when ship has arrived.
MEDICAL: Agent arranges emergency attention. Hospital and private clinic available.
TANKERS: Three zones for load/discharge of fish-oil and lubricants. Ship loads fish-oil by barges being anchored. Discharge of fuel when ship anchored to buoys by means of submarine lines.
FRESH WATER: Two barges to supply fresh water to ships, one of 40 metric tons and the other one of 25 metric tons.
FUEL: None available.
DEVELOPMENTS: New quays to be built.
GANGWAY/DECK WATCHMEN: The services of watchmen are necessary.
OPENING/CLOSING HATCHES: This job is carried out by stevedores.
CUSTOMS ALLOWANCES: Tobacco: 10 packets per person per week. Wine and/or Spirits: With approval of customs, within normal consumption.
CARGO GEAR: Vessel's derricks used, the quay has fixed crane for 50 metric tons and three mobile cranes for 15 tons.
IDENTIFICATION CARDS: Needed for both crew and passengers.
CONSULS: Only the Vice-Consul of Spain and Panama.
REPAIRS: Only minor repairs are possible.
REPATRIATION: Facilities for crew changes and arranging any necessary repatriation.
AIRPORT: Port has landing place for planes, but it is only for national use, not for international flights.
TIME: GMT minus 5 hours, all year round.
HOLIDAYS: Cargo work can be arranged on holidays with an extra 100% charge over basic pay. The only exception is 1st of May, on which cargo work cannot be arranged.
TELEPHONES: No arrangements for placing telephones on board. They are about 50 metres from ship.
SHORE LEAVE: Crew members allowed ashore.
PORT REGULATIONS: Not allowed to use wireless when ship is in port. Not allowed to put any boat on the water without permission of Capitania del Puerto. Not allowed to throw any waste or litter into bay. Not allowed to make unnecessary sound signals.
AUTHORITY: The Port Authority is Capitan de Puerto – Direccion Capitania de Puerto Chimbote. Tel. 2301–2331.
AGENT: See Callao.

CONCHAN: 12.10 S. 77.00 W.

Tanker Buoy berth about 30 miles South of Callao.
DOCUMENTS: Tankers calling at Conchan must first call at Callao anchorage to be received and cleared by Authorities. Not necessary to call at Callao after discharge as clearance is simultaneous with reception. Pilot boards vessel at Callao anchorage and either remains on board or returns to take vessel out, as required by Master.
BERTHING: Vessels moor to buoys. One submarine line of 16 in. reducing to 12 in. at vessel's connection, running 1,000 metres from shore opposite Conchan refinery.
LAUNCH: Launch service between Conchan and Callao during vessel's stay in port.
GENERAL: Two customs police and two refinery employees board at Callao and remain in vessel during discharge.
AGENT: Naviere Peruana Del Pacifico SA., Alberto Secada 399, POB 66, Callao.

ILO: 17.39 S. 71.22 W.

DOCUMENTS:
6 Entry Declarations.
4 Passenger Lists (disembarking).
4 Passenger Lists (in transit).
3 Personal Effects Lists.
3 Store Lists.
1 Maritime Health Declaration.
3 Sets Cargo Manifest.
10 Cargo Manifest.
Refer to "San Juan" for further information on Consular endorsement.

PILOTAGE: No pilot station; there is a Pilot in the Capitania del Puerto, who should be notified in advance by Agents. Two hours notice of ETA required. Pilot boards at anchorage 800 metres from extension of the SPCC quay.
ANCHORAGES: 400 metres to the North of the end of the SPCC quay, in 15 fathoms depth.
MAX. SIZE: The anchorage is deep and ships of any length and draft can anchor. Vessel 600 ft. long and 42 ft. draft can berth. At the quay of the SPCC vessel 500 ft. long and 30 ft. draft can moor. Outside of the area of Ilo, 8 miles to the North, there is Punta Tablones, where ships of 750 ft. can moor, depth 40 ft.
HEALTH: Pratique given by captain of port. In cases of suspected illness a doctor should be requested in advance. When the ship arrives from another Peruvian port free pratique is automatic.
RADIO: Cables connect with National Communications network. ETA sent to Port Authority and to Agencies.
TUGS: No large tugs; some small tugs operated by Agencies.
BERTHING: Berthing any time.
STEVEDORES: Stevedores come under the Capitania del Puerto and are ordered by Agents. *Loading Rates:* Copper sheets loaded 65 metric ton per hour. Fish-flour loaded at 100 metric tons per hour in an 8-hour shift.
MEDICAL: Medical assistance ordered by Agents. Hospital "El Centro de la Salud", and the Saint Geronimo Hospital.
TANKERS: *At Ilo:* Discharge line diameter 10 in, 2 lines, connection to the ship's manifold 8 in., connection and flexible line, working pressure 100 lb. A buoy mooring berth.
Punta Tablones: Discharge line diameter 12 in., connection to the ship manifold 8 in. Flexible connection line, working pressure 100 lb. or 400 barrels per hour. A buoy mooring berth.
DENSITY: Salt water.
FRESH WATER: In small quantities and only in emergencies.
FUEL: None available.
DEVELOPMENTS: Terminal quay of 900 ft. long is now being built.
GANGWAY/DECK WATCHMEN: Watchmen provided by Agents when necessary.
OPENING/CLOSING HATCHES: Strictly forbidden for the crew; must be done by stevedores.
CERTIFICATES: When the ship comes from foreign port it is compulsory to produce Certificate of Gross Tonnage.
CUSTOMS ALLOWANCE: Tobacco: 10 packets per person. Wine and/or Spirits: Sufficient for meal times. Normal crew consumption only.
IDENTIFICATION CARDS: Agents arrange for cards to be signed by Port Authority for each crew member.
CONSULS: None.
REPAIRS: Some minor repairs.
REPATRIATION: There are facilities for effecting crew changes and arranging any necessary repatriation. Those who are going to be repatriated must have a permit from the Port Authority to be allowed ashore.
AIRPORT: Ilo Airport, 8 kms. Scheduled flights twice a week on Tuesdays and Saturdays and regular airport in Tacna at 1½ hours by taxi, scheduled flights twice daily to Lima.
TIME: GMT plus 5 hours. No alterations during the year.
HOLIDAYS: 1st January (New Year); Maunday Thursday and Good Friday (change every year); 1st May (Labour Day); 29th June (Saint Peter and Saint Paul); 28th and 29th July (Motherland Days); 30th August (Saint Rosa of Lima); 1st November (All Saints Day); 8th December (Our Lady); 25th December (Christmas).
Holidays which are not in the Calendar but are considered Holidays with reference to payments to the workers: 6th January (King's Day); 19th March (Saint Joseph); Corpus Christi (it varies every year); The evening of the 24th June (India man day); 30th July (Motherland Day); 15th August (Feast of the Assumption); 24th September (Las Mercedes); 12th October (Race Day); 27th November (Tarapaca Battle); 9th December (Ayacucho Battle).
POLICE/AMBULANCE/FIRE: Southern Copper Corporation operate fire service. Police, tel. No. 3; Ambulance, tel. No. 3.
TELEPHONES: No arrangements for placing telephones on board.

SHORE LEAVE: Crew members allowed ashore and identify themselves with cards signed by Capitania del Puerto given through ship's Agents.
GENERAL: Tank cleaning and well cleaning must be done 5 miles leeward of the port. Not allowed to unload explosive cargo.
DELAYS: Only delays when quay is occupied by two ships. In the load/unload operations the port can attend to 4 ships simultaneously and 4 more when new quay (that is now being built) is finished.
AUTHORITY: The Port Authority is Capitan del Puerto, who is a Navy Officer. Cable address: Capitania de Puerto. Tel. 79.
AGENT: See Callao.

LA PAMPILLA

Tanker Buoy Berth about 30 miles North of Callao.
DOCUMENTS, ETC.: As for Callao.
PILOTAGE: Tankers calling at La Pampilla must first call Callao anchorage to be received and cleared by Authorities. Not necessary to call Callao after discharge as clearance simultaneous with reception. Pilot boards vessel at Callao anchorage and either remains on board or returns by launch to take vessel out, as required by Master.
BERTHING: Vessels moor to buoys. One submarine line of 18 in. reduced to 10 in. at vessel's connection running 1,500 m. from shore opposite La Pampilla refinery.
LAUNCH: Launch service between La Pampilla and Callao during vessel's stay in berth.
GENERAL: Two customs police and two refinery employees board at Callao and remain in vessel during discharge.
AGENT: Naviera Peruana Del Pacifico SA., Alberto Secada 399, POB 66, Callao.

PACASMAYO: 07.24 S. 79.33 W.

DOCUMENTS:
3 copies Voyage Log Extract.
2 originals and 5 copies of Entry/Exit Declaration, endorsed by Consul.
8 copies of Passenger Lists for the Port.
8 copies of Transit Passengers List.
4 copies of Store List.
4 copies of Personal Belongings Manifest.
13 copies of Cargo Manifest.
1 Maritime Health Declaration.
2 Crew Lists.
1 Vaccination List.
When this is the first Peruvian port, Gross Tonnage Certificates.
When having cargo for the port, Statement of Cargo, endorsed by Consul.
When Pacasmayo is the first or last port called, Lists or Manifests of cargo in transit (2 copies each).
Refer to "San Juan" for further information on Consular endorsement.
PILOTAGE: The port has no Pilots because it is an open bay. Vessels have free pratique after boarding by port officials.
ANCHORAGE: The most usual anchorage area is in position 7° 23′ 50″ S. 79° 35′ 10″ W. Bottom from 3¼ to 4½ fathoms deep.
APPROACHES: Reference points are the lighthouse of Cruz Punta Pacasmayo with a range of 12 miles, and during the day the cylindrical tower of cement factory with a height of 50 metres situated in the S.E. of the bay. On the head of the quay there is also a small iron tower of 9 metres height with a permanent red light of 2 miles visibility. The quay is very old and only flat boats can moor.
MAX. SIZE: Wide anchorage without problems concerning length or breadth. Recommended draught 4 fathoms, but it is possible to find 6, 8 or 10 fathoms towards the West. Current from South to North at an average of 6 knots.
HEALTH: Sanitary control is carried out by the health doctor who comes on board with port officials. Normally, captains notify any suspected illness or any other information by telegraph.
RADIO: There is only one radio station. It operates in the premises of the Agency Juan Dalmau, call sign OC155 and frequency 40.400 kc/s.
TUGS: They only operate to bring or take out flat bottomed barges once the vessel is moored.
BERTHING: Vessels anchor in open bay.
STEVEDORES: Agents order the number of gangs required. These gangs work at a tariff hour/ton and the amount is controlled by the Port Captain. The number of gangs (9 men each) depends on loading/discharging speed required and on the number of holds and winches available.
MEDICAL ATTENTION: Can be provided by Centro Preventivo del Area de Salud or by Hospital Regional de Chepen, 35 km. from port (150 beds).
DENSITY: Salt water.
FRESH WATER: Not available.
FUEL: Not available.
FUTURE PORT DEVELOPMENTS: When the mines of Michiquillay (copper) start working, the embarking capacity of the port has to be 100,000 tons per month, consequently it is planned to build a quay for minerals or otherwise a floating island 6 miles from the port for embarking in gross raw materials by pipelines.
OPENING/CLOSING HATCHES: These operations are carried out by the stevedores.
SHIP CERTIFICATES: Deratisation or Fumigation Certificate; Vaccination Certificate for Crew and Passengers; Tonnage Certificate when coming from abroad.
CUSTOMS ALLOWANCES: Only tobacco, wines, spirits required for normal consumption, which must be included in vessel's stores list.
CARGO GEAR: Ships gear used.
IDENTIFICATION CARDS: Not required unless leaving the vessel.
CONSULS: There are no Consuls in the port.
REPAIRS: There is a small workshop in the port for minor repairs such as soldering, etc. There is no foundry.
DRY DOCKS: Nearest at Callao.
REPATRIATION: Members of crew or passengers can be repatriated subject to Port Authorities permission and passport control.
AIRPORT: There is a small emergency airport at 2 km. from the port where biplanes can land.
TIME: GMT minus 5 hours. During the 3 months of summer clocks advance 1 hour.
HOLIDAYS: Holidays have been restricted. The national official holidays are: 27th and 28th July (National Independence Days); 1st January (New Year); 25th December (Religious Fete); Maundy Thursday and Good Friday; variable days and 1st May (Workers' Day).
POLICE/AMBULANCE/FIRE: Police 2126; Ambulance 2225; Fire 2081.
TELEPHONES: It is not possible to instal telephones on board. Communication by walkie-talkie radio.
GENERAL: Fresh and dry provisions can be supplied, such as meat, poultry, vegetables and fruits.
SERVICES: There is no tank-cleaning equipment and the discharge of tank washing and any other kind of garbage is forbidden, for the bay is a bathing area.
SHORE LEAVE: Allowed.
DELAYS: The vessel is moored on arrival. Delays can occur due to heavy sea or rain in case of cement loading.
AUTHORITY: Captain of the Port: Captain de Fragata, Rafael Diaz Zumaeta, Tel. 2202.
AGENT: See Callao.

SAN JUAN: 15.21 S. 75.11 W.
SAN NICOLAS: 15.14 S. 75.14 W.

DOCUMENTS:
1 copy Clearance from previous port.
2 copies Health Declaration.
10 copies Entrance Declaration, Form 1. Original visaed by Consul.
8 copies Passenger List, Form 3. Original visaed by Consul.
5 copies Passengers in Transit. Original visaed by Consul.
6 copies Cargo Manifests. Original visaed by Consul.
2 copies Cargo in Transit Manifest.
1 copy Tonnage Certificate, issued by Peruvian Consul.
3 copies Ballast Certificate. Original visaed by Consul.
8 copies Stores List.
4 copies Personal Effects Declaration.
8 copies Passengers Baggage Declaration.
1 copy Vessels Information Sheet, supplied by Agent.
Note 1. If no Peruvian Consul exists at port of departure or within 50 km/s. radius, then the documents which require Consular visa should be signed by a Consul of a friendly nation stating that there is no Peruvian Consul. If no Consul of any nation exists at the port of departure, the documents above mentioned must bear a certificate signed by an official of the port stating that no Consul of any nation exists at the port of departure or within 50 km/s. radius.
Note 2. In the case of a vessel merely transiting the Panama Canal, no new Peruvian Consular clearance is required. The Consular despatch from port of departure will be accepted provided it is correct and no changes have taken place. If, however, vessel stops for any business during the Canal passage, embarking or disembarking passengers, crew changes, loading or discharging cargo or the conduct of any business which causes a change in the Peruvian Consular documents, New Consular Dispatch must be obtained. Panama or Balboa, which ever applies, becomes the port of departure for Peru.
The following documents should be available for inspection:
Ship's Papers.
Valid Fumigation or Exemption Certificate.
Crew's Identity Documents.
International Vaccination Certificates of all persons aboard.
List with following data: date and port of issue of ship's register, date and port of issue of Health Certificate, date of vessel's building and yard, list of ports of call with dates during previous four months.
PILOTAGE: Pilotage is compulsory for berthing. No vessel may proceed to pier until permission to berth has been granted. No vessel is permitted to berth alongside Marcona Mining Company's pier without an authorised Docking Pilot on board. While loading, during periods of heavy swells and surge a Marcona Pilot will be on board permanently. Masters are requested to make arrangements and facilities available.
Upon arrival in port, vessels must anchor and wait for reception. The starboard accommodation ladder must be rigged for port Officials and Marcona representatives. Ships approaching San Nicholas must fly their national and quarantine flags. Vessels proceeding to San Nicholas to load iron ore will radio Marcona Mining Company, Lima, Peru, cable address Mariminco Lima, their ETA five days – forty-eight hours and again at twenty-four hours prior to arrival; when vessels have direct contact with station "OAS", a

prestowage hatch list must be radioed to Agent, giving tonnage per hatch and loading sequence. The coast radio station "OAS" located in San Juan Bay should be contacted as soon as vessel is within range. Berthing instructions and other messages from Agent at San Nicolas will be transmitted via this station. Radio contact must be made 48 hours prior to arrival, specially on week-ends and holidays.

ANCHORAGE: The anchorage recommended for vessels waiting for berth is in inner portion of the bay, East of parallel through San Nicolas point in depths of 15 to 20 fathoms. When anchoring, it is essential to leave sufficient sea room, about ¾ of a mile for ships to manouevre in and about the berth.

Wreck of M/S *Templar* lies in position: Lat. 15° 13′ 53″ S., Long. 75° 09′ 48″ W. The obstruction lies in approximately 150 ft. of water. Clearance above the obstruction is 60 ft. Do not anchor in the vicinity of the wreck.

RADIO: Coast Radio Station "OAS" is located in port of San Juan and serves both San Juan and San Nicolas. Transmitter antenna is located in Lat. 15° 15′ 11″ S., Long. 75° 15′ 20″ W. This station listens on 500 kc/s 0700 hrs. to 2300 hrs. local time (1200 to 0300 GMT) each day. It handles traffic on 410, 425, 444, 448, 454, 468, and 480 kc/s. Antenna output is 300 w.

TUGS: None available.

BERTHING: Vessels calling San Nicolas for discharging general cargo berth on east side of pier, starboard side to pier. Ore vessels berth at West side of pier, port side to pier. In addition to vessels' own mooring lines, heavy surge lines are compulsory for vessels loading iron ore. Wires not permitted except when attached to tension winches. While vessels are alongside pier, engines must be ready for immediate use. Sufficient crew must be on deck at all times to tend mooring lines. Failure to do so may result in a discontinuance of loading and the vessel being moved out from the berth. Pier is located at South side of bay and is built on a north-south direction. It is constructed entirely of prestressed concrete with deck 1,000 ft. long and 50 ft. wide. The deck is 11 ft. 3 in. above mean low water.

MEDICAL: All medical attention may be arranged.

STEVEDORES: Available.

TANKERS: On west side of pier are three raisers to which three 8-in. diameter hoses can be connected to a main pipe line of 16 in. diameter for discharging of bunker C. Flanges are U.S. Standard (ASA). Location on pier is for midship connection on vessels. Maximum pressure permissible is 125 lb. p.s.i. and maximum temperature 150° F. Also possible to connect to pipeline from east side of pier, midship connection on vessel. Diesel oil is discharged on east side of pier, using one hose to 8 in. diameter pipeline. Flanges are U.S. Standard (ASA) with 8 bolt holes. Vessel's crew is required to connect hoses to vessel's manifold.

FRESH WATER: None available.

FUEL: None available.

GANGWAY/DECK WATCHMEN: Recommended by crewmen to prevent stowaways.

OPENING/CLOSING HATCHES: Stevedores/Crew.

CARGO GEAR: Ore-loading boom extends 60 ft. from face of pier fender, and can be retracted from this position to a minimum length of 29 ft. Gantry with loading boom is mobile. Range of its mobility is 900 ft. starting at a point 76 ft. from the head of the pier. Shifting of vessels during loading is therefore not required. Height from water to underside of boom is 41 ft. Vessels must be ballasted so that height of any coaming or any other objects in the vicinity of the hatch where loading is to start will not exceed 39 ft. above waterline.

IDENTIFICATION CARDS: Required.

CONSULS: At Lima.

REPAIRS: Except in extreme emergency, repairs cannot be effected at this port.

TELEPHONES: None available.

REPATRIATION: In cases where crew changes are to take place in San Nicolas, at least seven days advanced cable notice is required to obtain the necessary immigration authorities permission. The advanced cable must set forth name, nationality and passport number.

HOLIDAYS: See "Ilo".

GENERAL: Official hours for port officials are from 0700 to 1100 and 1300 to 1800 hours. Upon request, port officials will board vessels at any time day or night, Sundays and holidays included. Overtime for such service is for account of vessels.

SHORE LEAVE: Allowed. Crew members are not permitted to travel outside of the San Nicolas/San Juan port areas without written authorisation or pass from the Master approved by Immigration authorities.

PORT REGULATIONS: Cargo holds must be properly cleaned. In this respect special care must be taken where vessels prior to their arrival at San Nicolas have carried the following cargoes: Gypsum, Phosphate, Pyrite, Coal, Sulfur, Silica, Aluminium, Sand, Gravel, or Quartz, or any other ore containing Arsenic, Phosphorus, Sulfur, Silica, Aluminium, or Copper. Prior to commencement of loading cargo holds, will be inspected by a representative of the shippers. It is recommended that the Master or a ship's officer accompany the cargo hold inspector during the inspection.

AGENT: Agentes Navieros San Nicolas, S.A. P.O. Box 1229 Lima. Cables: "Agnav Sannicolas".

Philippines

BATAAN, Limay: 14.32 N. 120.36 E.

Esso Tanker Terminal.

DOCUMENTS:
Maritime Declaration of Health.
Crew List.
7 copies Cargo Manifest.
3 Stores Lists.
3 Personal Effects Lists.

PILOTAGE: Not compulsory but recommended. Pilot boards vessel just off the berth.

RESTRICTIONS: Approaches are open deep water. Vessels may berth and unberth at any hour and any stage of the tide. Keel clearance of 10 ft. required.

MAX. SIZE: LOA 1,000 ft. Maximum draft 50 ft.

RADIO: Manila Radio. At the berth, shore communication with vocaline JRC 475 transceivers on 465 Mc/s.

HEALTH: Port health officials board with the Pilot. Radio request for free pratique can be made prior arrival.

TUGS: Available.

BERTHING: *Crude berth:* Conventional buoy mooring, tankers moor to eight buoys, in depth of 60 ft. Hoses may be connected on either side. Four 12-inch hoses for crude oil discharge.

Products Pier: Inner berth depth 13 ft. Outer berth depth 32 ft. Can accommodate vessel up to 530 ft. length. No slop discharge facilities available.

DENSITY: 1025.

MEDICAL: Doctor and hospital facilities available. Advance notice required of any medical attention needed.

FRESH WATER: Not available at berth. Can be supplied by barge.

FUEL: Bunkers, fuel and diesel, obtainable from berth, advance notice required.

REPAIRS: No facilities available.

CERTIFICATES: Those required are.
Certificate of Registration.
Certificate to Operate.
Certificate of Officers and Engineers (Licenses).
Officers and Crew-Seaman's book.

CUSTOMS ALLOWANCES: 200 cigarettes for each crew member, and one bottle of liquor for each crew member.

IDENTIFICATION CARDS: Essential.

REPATRIATION: Effecting crew changes and arranging necessary repatriation are carried out by the Immigration Office in the port with the assistance of the ship Agent and the Foreign Embassy concerned.

TIME: Local Civil Time is 8 hours ahead of GMT. This time reckoning is constant throughout the year.

HOLIDAYS: New Year's Day (1st January); Bataan Day (9th April); Holy Thursday (variable); Good Friday (variable); Labour Day (1st May); Independence Day (12th June); Republic Day (4th July); All Saints' Day (1st November); National Heroes Day (30th November); Christmas Day (25th December); Rizal Day (30th December). When any holiday falls on a Sunday, the following day (Monday) is by law considered a public legal holiday. As a general rule, employees of the government in the Philippines do not work on Saturdays. Cargo work on board vessels on these holidays can be arranged.

SHORE LEAVE: Crew of vessels who are nationals of countries with whom the Philippines maintains diplomatic relations can be allowed ashore after securing a pass from the Immigration Officer in the port. Restricted aliens (citizens or nationals of Iron and Bamboo Curtain countries) are not allowed on shore as a matter of policy.

GENERAL: Customs Inspector and two guards accommodated on board during vessels stay.

AUTHORITY: Private oil company terminal.

BATANGAS, Luzon (including Tabangao): 13.43 N. 121.03 E.

DOCUMENTS: Upon arrival of the vessel, the following papers must be submitted to the boarding authorities:
Original and 1 copy Visaed Crew List.
Original and 2 copies List of Stores: Deck, Engine, Steward Dept.
Original and 2 copies List of Stores: Firearms, Medicines, including opium and the like, if any.
Original and 2 copies Personal Effects Declaration of Officers and Crew (include cigarettes, whiskey, etc.).
Original and 5 copies Inward Foreign Cargo Manifest.
8 copies Ordinary Crew List.
1 copy Clearance from previous port of call.

PILOTAGE: Pilotage for docking and undocking at government wharves and privately owned wharves in the Port of Batangas is compulsory for all vessels engaged in foreign trade. The vessel is met by the harbour Pilot approximately 2 miles South of the wharf. Pilotage for entering the Batangas Harbour and anchoring in the quarantine anchorage is optional but pilotage for shifting therefrom or changing in the stream is compulsory for vessel engaged in foreign trade.

ANCHORAGES: Bureau of Customs Administrative Order No. 191, dated January 13, 1955, defines the limits of Batangas Harbour for navigational and mooring purposes as follows:

"... a navigational and mooring area a depth of 1 mile measured from Hagony River (near West boundary of refinery compound) Eastward along the coast by ¾ mile seaward running perpendicularly from both points ..."

Within this navigational and mooring area a depth of 12 to 14 fathoms with good holding ground will be found at less than 400 yards from the beach. The bottom close to the beach is mainly sand and gravel. In the event of a strong South-west monsoon, vessels may resort to the protection afforded by the mountains of Maricaban Island by anchoring on the Northern side of the island along Maricaban Straight.

MAX. SIZE: Caltex Refinery: LOA 755 ft., draft 41 ft. Jetty designed for 45,000 DWT.

Tabangao Shell Refinery: LOA 900 ft., draft 48 ft.

HEALTH: Ships will clear for quarantine on arrival at the Batangas Harbour. Quarantine officers will normally board the vessel 2 miles South of the oil wharf.

TUGS: Tug service is not furnished by the two oil refineries. The use of a tug for berthing and unberthing is required. Although a tug is normally available at Batangas it may be necessary to dispatch a tug from Manila. Accordingly, it is important for Masters of vessels to provide at least 48 hours advance notice of ETA to ensure the availability of the tug boat.

The usual charge for tug service is P500.00 covering both berthing and unberthing. This rate is on the basis of a tug available at Batangas. If it is on the basis of straight tug rental at a fee of P500.00/day computed from time of departure from Manila to return time. Tug rental charges for fractional parts of a day shall be prepared on an hourly basis.

BERTHING: Berthing may be done any time during the day or at night and Masters should exercise their own judgement in this respect. Vessels moor either port or starboard side to, depending on prevailing conditions.

STEVEDORES: All vessels proceeding to Batangas should radio either Caltex or Shell, whichever is their destination, their estimated time arrival at Batangas as early as possible, but not less than 96 hours before arrival, amending this ETA subsequently if it varies more than two hours from the original estimate in order to arrange towing gangs with the Luzon Stevedoring Corporation. Stevedoring is usually handled by Luzon Stevedoring Corporation.

MEDICAL: Both refineries have a small hospital for handling emergency cases. Should any ship's personnel need prolonged hospitalisation, arrangement will have to be made to transfer the patient to Manila or to the Provincial Hospital of Batangas where suitable medical attention is available. Dental treatment can be obtained from local dentists in the town of Batangas.

TANKERS: *Shell Refinery, Tabangao.* Jetty 1, two hoses of 10-in. diameter. Jetty 2, four arms of 12-in. diameter. Two berths of 50 ft. depth alongside. Slops acceptable at 500 t.p.h. up to limit of 3,000 tons.

Caltex Refinery: a T-head jetty. Berth No. 1 (depth alongside), 15 ft., No. 2, (depth alongside), 35 ft.; No. 3, (depth alongside), 42·4 ft.; No. 4, (depth alongside), 35 ft. Maximum distance between head and stern mooring buoys 1,040 ft.

DENSITY: 1.0261.

FRESH WATER: Fresh water is available to vessels loading, unloading or bunkering at Batangas Port at a price of one peso per short ton. It is delivered to the vessel through hose connections. The water satisfies the physical and chemical requirements for drinking water.

FUEL: Bunkers are available from the two refineries. Prior advice should be given through the ship's Agent.

FIRE PRECAUTIONS: At both refineries smoking or open fires are prohibited on the wharves or on vessels alongside or within 100 yards of either wharf. Furthermore, each vessel's personnel is responsible for the safety of its own ships at all times.

DEVELOPMENT: The Government pier at present is under construction, with plans of constructing two other piers which will enable this port to accommodate more foreign vessels. The Caltex Refinery has also plans of pier improvements.

GANGWAY/DECK WATCHMEN: Not needed. The security guards in the gates of the two refineries serve the purpose.

OPENING/CLOSING HATCHES: This work is normally carried out by crew members of the vessel at the 2 refineries; off loading hoses will be connected and disconnected on board by the vessel personnel under the direct supervision of a ship's officer with the assistance and advice of wharf personnel.

CUSTOMS ALLOWANCES: Sufficient amount for crew's consumption while in port.

CARGO GEAR: During berthing and unberthing, it is required that ship's engines, tackle and all other gear must be in operative condition and in a state of readiness for use at a moment's notice, as required.

After clearing with the Customs' representative, off-loading hoses will be connected and disconnected on board by the vessel personnel under the direct supervision of a ship's officer with the assistance and advice of wharf personnel. Wharf equipment will normally be used for handling hoses although vessel's gear may at times be required and must be made available for this purpose. A ship's officer must approve the hose connections on board before off-loading commences.

IDENTIFICATION CARDS: Not required in the Port of Batangas.

CONSULS: Consulates are stationed in Manila.

REPATRIATION: To expedite disembarkation and in order that proper arrangements can be made in case of repatriation, the Master should radio this matter to Caltex or Shell refineries or his Agents within 48 hours before arrival. The message should give the names of the crew to be repatriated and their destination.

AIRPORT: At Manila.

TIME: GMT plus 8 hours.

HOLIDAYS: New Year's Day (January 1st); Holy Thursday; Good Friday; Labour Day (May 1st); Independence Day (June 12th); P.I.U.S. Friendship Day (July 4th); Bonifacio Day (November 30th); Special holidays declared by the President of the Philippines are also included. If any other legal holiday falls on Sunday the following day is observed as a holiday. Cargo work can be arranged on any or all holidays with the vessel's agent.

POLICE/AMBULANCE/FIRE: Police, tel. 125–J; Ambulance, tel. 7–J; Fire Department, tel. 261.

TELEPHONES: At present placing telephones on board foreign vessels is not available; however, telephone service is available on the jetty of both refineries.

GENERAL: Discharge of ballast: No dirty ballast may be dumped into the territorial waters of the Republic of the Philippines. The refineries have provisions for off-loading a limited amount of oil water ballast. Rat Guards: Rat guards shall be placed on all mooring lines to the wharf.

AUTHORITY: Collector of Customs, Port of Batangas, Sta. Clara, Batangas, Batangas. Tel. 162 R.

BISLIG, Mindanao: 08.12 N. 126.19 E.

DOCUMENTS:

The original Manifest of all Cargo destined for the port, to be returned with the endorsement of the boarding official.

4 copies of the same Manifest, one of which, upon certification boarding official as to the correctness of the copy, shall be returned to the Master.

4 copies of Stores List.

4 copies of Passenger List.

4 copies of the Crew List.

The original of all through Cargo Manifest, for deposit, while in port, with Customs official in charge of the vessel.

A Passenger Manifest of all aliens.

PILOTAGE: Vessel should send direct advice to the Pilot or through its Agents 48 hours prior or at the very least 24 hours before ETA by commercial telegraphy.

There is no VHF operated by the Pilot.

Pilot boat is painted black (hull) and white (bridge and mast). International Code Signals used to call Pilot.

Pilot Station is located at Lat. 8 deg. 11.4 min. N., Long. 126 deg. 21.2 min. E.

Pilot boat will be located (if by prior advice/arrangement by Master requiring specific service of meeting vessel outside of entrance and conducting vessel through channel to inner harbour) at Lat. 8 deg. 16.85 min. N., Long. 126 deg. 26.50 min. E. or 340 degrees, 2·35 miles off Sanco Pt. lighthouse.

Pilot will always board a vessel (outside of entrance) via the pilot's or Jacob's ladder on the leeward side of the vessel.

ANCHORAGE: While waiting for a Pilot, the recommended anchorage (at entrance) is at Lat. 8 deg. 16.1 min. N., Long. 126 deg. 26.1 min. E. on or about this position and/or within an area of 5 mile radius from this point.

Quarantine anchorage or inner harbour is based on the point Lat. 8 deg. 12.9 N., Long. 126 deg. 22.0 E. to within a 5 mile radius from this point as centre, otherwise 1 mile north of BBLCI Pier's end.

Working anchorage at stream. When vessel is through with all the port formalities, she has to go to a working area for loading/unloading operations, thus:

BBLCI. Vessels will anchor at least within a 5 mile radius from the tip of BBLCI pier.

PICOP. Is especially prefered during North-west monsoon at least within a 5 mile radius from the foot/base of PICOP breakwater.

Bisling Bay. In general is bounded by a line from (*a*) Sanco Pt. to (*b*) Mawes I. to the North-west, thence to (*c*) the town of Bislig to the South-west, thence to (*d*) the village of Mangagoy to the South-west, and back to (*a*) Sanco Pt.

MAX. SIZE: At BBLCI Pier, at low water: Draft, forward 21 ft., aft 32 ft. Better prospect at high water.

HEALTH: Any vessel can be given free pratique if upon inspection everybody is healthy, vessel is clean and all certificates of vaccination are complete. However, if there is a suspicious quarantineable disease, a probationary pratique should be issued and after six days, if it was found out that there was no quarantineable disease at all, free pratique will be issued.

RADIO: RCPI, Clavecella and CRC.

TUGS: Tugs normally meet vessel with Pilot at the five miles limit and assist Pilot in docking, using ship's lines.

BERTHING: Berthing is on a first-come first serve basis. During the North-east monsoon berthing is in daylight only for precautionary measures.

STEVEDORES: ETA should be advised two days before ship's arrival stating workable hatches and gang requirement for berthing and gang arrangement.

MEDICAL: It is necessary for the Agent to receive advance notice if there is serious medical attendance and hospitalisation. However, less serious medical attendance does not need notification. Port of Bislig has hospital facilities with complete smallpox, cholera, El Tor and typhoid vaccine available.

DENSITY: About 1.025 with tendency to become heavier during dry season and on flood tide.

FRESH WATER: There is no available water supply. Water facilities may be installed with completion of additional pier.

FUEL: There is no available fuel supply.

DEVELOPMENTS: More berthing facilities are on the programme for the next three to five years when the pulp and paper mill is in operation. Installation of more log-processing plants to increase shipments.

GANGWAY/DECK WATCHMEN: P1.00 per hour for at least 3 men.
OPENING/CLOSING HATCHES: Rigging of booms is done by ship's crew, while opening and closing of hatches is carried out by stevedores.
CUSTOMS ALLOWANCES: 200 cigarettes and one bottle liquor for each man.
IDENTIFICATION CARDS: Needed.
REPAIRS: Very limited.
AIRPORT: 3 kilometres distant; daily flights except Sunday.
TIME: Local Standard Time is 8 hours ahead of GMT.
HOLIDAYS: On Christmas Day; New Year's Day and Good Friday. Cargo work may be arranged.
AUTHORITY: Collector of Customs, Port of Bislig.

CEBU, Cebu Island: 10.18 N. 123.54 E.

DOCUMENTS:
1 copy Letter to the Quarantine Officer.
1 copy Free Pratique issued by Quarantine Officer.
1 copy Oath of Master (ship coming from foreign port).
1 copy Oath of Master (ship coming from local port).
1 copy Clearance from last port.
6 copies List of Ports of call.
6 copies List of Passengers Manifest.
5 copies Baggage Declaration of disembarking passengers.
6 copies Crew's Manifest.
5 copies Personal Effects List of crews.
5 copies Bonded Store List/Ship's Store List, etc.
5 copies Parcel List.
1 copy Narcotics List.
1 copy Firearms and Ammo List.
1 copy Foreign Currency List.
6 copies Inward Foreign Cargo Manifest.
PILOTAGE: Advance notice 24 hours before arrival, giving draft, ETA pilot station, whether coming via North or South Entrance. Pilotage compulsory. Pilot boarding South Entrance at Lauis Ledge of Black Buoy No. 1; Pilot boarding North Entrance between Bagacay and Bontolinao lights.
ANCHORAGE: North Entrance between Pier No. 2 and Caltex Bunkering Station. South Entrance between Shell Island and Kawit Island, in front of Lu Do & Luym's private wharf.
ENTRY RESTRICTIONS: No restriction on night entry. If draft above, North 26 ft. and South 30 ft. vessel cannot go alongside.
MAX. SIZE: Length 550 ft.; draft Shell Island 30 ft., Caltex 25 ft., General Milling Corp. 28 ft., and Mobil 28 ft.
HEALTH: Pratique obtained after Quarantine personnel have boarded, mustered crew and passengers, and examined ship's health documents. Pratique automatic if vessel coming from another Philippine port.
RADIO: Globe Mackay Cable & Radio Corp.

Call letters: DZG.
Working frequencies: 483 kc, 4308 kc, 6462 kc, 8616 kc, 1292 kc, 17232 kc.
Listening frequencies: 425 kc, 432 kc and 500 kc; 6265·5–6280·5 kc; 8354–8374 kc; 12531–12461 kc; 16708–16748 kc.
TUGS: Tugs: 300 h.p. and 600 h.p. Tugs will assist berthing. Ship's lines always used.
BERTHING: anytime except when current strong at a certain time on North side of Piers 1 and 2.
BRIDGES: Bridge crossing North Channel, clearance 70 ft. under construction. Channel meanwhile closed to navigation.
STEVEDORES: Ordered by Agents, no ETA to stevedores necessary from Master.
RADAR/VHF: No existing radar service. Master may contact Cebu Stevedoring Company through Channel 1 (156·7 Megacycle) and Channel 2 (157·8 Megacycle) VHF.
MEDICAL: No advance notice to Agents needed. Hospital facilities available anytime.
TANKERS: See "Max Size".
FRESH WATER: Most berths supply by shore installation, otherwise by barge or trucks.
FUEL: All grades available.
FIRE PRECAUTIONS: Tankers discharging: smoking only allowed in saloon (officers), crew in the messroom.
DEVELOPMENTS: Reclamation project at the North side of Cebu.
GANGWAY/DECK WATCHMEN: Services of watchmen necessary subject Master's recommendation. Cost Pl.50/hour (approx.).
OPENING/CLOSING HATCHES: Stevedores, with aid of ship's crew.
CUSTOMS ALLOWANCES: (Tobacco) One carton a week for each crew member. (Wine and/or Spirits) One bottle a week for each crew member.
IDENTIFICATION CARDS: Required by Immigration Authorities.
CONSULS: British tel. 7–22–68; Norwegian 9–77–20; Chinese 7–45–85; American 7–31–51.
REPAIRS: Minor repairs possible.
DRY DOCK: Cebu Shipyard – maximum 1,000 dwt only.
REPATRIATION: Facilities available.
AIRPORT: Distance 7 miles from port and regularly served by all domestic airlines.
TIME: Local time based on the 120 East meridian. GMT plus 8 hours.
HOLIDAYS: Cargo can be arranged during holidays, which are the following: New Year (January 1st); Maunday Thursday; Good Friday; Bataan Day (April 9th); Labour Day (May 1st); Independence Day (June 12th); Republic Day (July 4th); Bonifacio Day (November 30th); Christmas Day (December 25th); Rizal Day (December 30th).
SHORE LEAVE: Crew members allowed ashore any time, except Chinese nationals.
DELAYS: Berthing on North side of piers depends upon tide and current. South side of piers, vessel can dock any time.
AGENT: Smith, Bell & Co. (Phil.) Inc., Corner M.C. Briones and P. Burgos Sts., Cebu City. Tel. 7–52–98, after office hours 72630, 9–70–14. Lloyds Agents. Cables: "Bell Cebu".

CLAVERIA, Luzon: 18.37 N. 121.02 E.

DOCUMENTS: Required by Customs officers'.
2 copies Crew List.
2 copies Crew Manifest.
2 copies Bonded Store List.
2 Passenger List.
7 Inward Manifest.
2 Narcotic List.
2 copies Money List.
Clearance from Last Port.
PILOTAGE: There are no telegraphic addresses of pilot stations although Pilots could be contacted in the Port of Manila with at least 3 days advance notice.
ANCHORAGE: Very deep and wide, safe enough to accommodate 6 ships at a time.
RESTRICTION: No restriction whatsoever is imposed upon entry day or night time.
MAX. SIZE: Maximum length permissible is around 300 metres.
HEALTH: Pratique is granted as soon as the ship's Master has presented all his crew for vaccination in case same has expired and/or verification of its crew's health record and the submission of the Maritime Declaration of Health of the ship duly signed by the Master.
RADIO: Cables could be routed through RCA or DZN Manila for ship's Agents.
TUGS: Only required for lighters. Upon anchorage tugs could be called by blowing the ship's whistle twice.
STEVEDORES: No particular ETA advice in order to arrange gangs.
MEDICAL: Not necessary for ship's Agents to receive advance notice of required medical attendance. Doctors available.
FRESH WATER: No fresh water available for ships in this port.
FUEL: Not available in this port.
DEVELOPMENT: The construction of a breakwater.
GANGWAY/DECK WATCHMEN: It is recommended that ships that call at this port employ watchmen.
OPENING/CLOSING HATCHES: Is carried out jointly by ship's crew and stevedores.
CUSTOMS ALLOWANCES: 200 cigarettes for each man a week, and one bottle wine/spirits.
IDENTIFICATION CARDS: Not needed in this port.
CONSULS: No Consuls could be contacted in this port, although they could be contacted in the City of Manila.
REPAIRS: Major repairs not advisable in this port.
REPATRIATION: Changing of crew can be carried out by ship's Agent in Manila, Cebu or in any other big ports in the Philippines.
AIRPORT: No government airport in this port, although there is one private but no regular flights.
TIME: GMT plus eight hours.
GENERAL: See "Manila" for general information.
AUTHORITY: Collector of Customs, Claveria.

JOLO: (Jolo Island) 06.03 N. 121.00 E.

DOCUMENTS:
1 copy of Clearance issued by the last Port of Call.
1 copy of Quarantine Clearance.
2 copies of Crew List.
2 copies of Crew Possessions' List.
2 copies of Stores List.
2 copies each of Narcotic, Firearm, Passenger, Mail, Parcel and Money Lists.
5 copies of Inward Foreign Manifest.
PILOTAGE: Telegraphic advice to pilot station required 48 hours in advance. Pilot boards in quarantine anchorage.
ANCHORAGES: 4 miles North-west of Piers I and II.
RESTRICTIONS: Entry permitted only before sunset and after sunrise. Vessel should wait 4 miles off Piers for quarantine or Pilot service.
MAX. SIZE: Up to 8,000 tons dwt.
HEALTH: Wait for quarantine doctor at quarantine anchorage. To obtain pratique, the ship's Master must advise the ship's Agent vessel's ETA in advance. The ship Agent must in turn advise the quarantine officer of the arrival of the vessel 2 to 3 hours before the vessel sails into port. When the vessel arrives at the quarantine anchorage, the quarantine officer boards and inspects the same and if the vessel is found to be free from all quarantinable diseases, pratique is granted.
Automatic pratique is granted only to naval vessels.
Pratique is no longer necessary when the vessel entering the port has called at another port in the Philippines immediately before.
RADIO: Radio Corporation of America or Mackay Radio.
TUGS: None available.

BERTHING: As may be directed by Wharfinger.
STEVEDORES: ETA advices required in order to arrange gangs.
MEDICAL: It is always necessary for ship Masters to notify their Agents of required medical attention at least two to three hours before arrival. Hospital facilities are available. Vaccination/Fever Certificates required, especially those against cholera, smallpox and yellow fever.
DENSITY: 1025.
FRESH WATER: Available, direct line to ship from all berths.
FUEL: Available. Delivery direct line to ship from pier.
GANGWAY/DECK WATCHMEN: Services of watchmen necessary at a cost of P2.00 per hour.
OPENING/CLOSING HATCHES: This work is normally carried out by stevedores.
CUSTOMS ALLOWANCES: 200 cigarettes for each crew member, and one bottle of liquor for each crew member.
IDENTIFICATION CARDS: Essential.
REPATRIATION: Effecting crew changes and arranging necessary repatriation are carried out by the Immigration Office in the port with the assistance of the ship Agent and the Foreign Embassy concerned.
CONSULS: None.
REPAIRS: No facilities.
AIRPORT: Plane flight twice a day to Manila for international connections.
TIME: Local Civil Time is 8 hours ahead of GMT. This time reckoning is constant throughout the year.
HOLIDAYS: New Year's Day (1st January); Bataan Day (9th April); Holy Thursday (variable); Good Friday (variable); Labour Day (1st May); Independence Day (12th June); Republic Day (4th July); All Saints' Day (1st November); National Heroes Day (30th November); Christmas Day (25th December); Rizal Day (30th December). When any holiday falls on a Sunday, the following day (Monday) is by law considered a legal public holiday. As a general rule, employees of the government in the Phillippines do not work on Saturdays. Cargo work on board vessels on these holidays can be arranged.
POLICE/AMBULANCE/FIRE: Telephone numbers can be supplied by Agent.
TELEPHONES: Cannot be connected on board vessels.
SHORE LEAVE: Crew of vessels who are nationals of countries with whom the Philippines maintains diplomatic relations can be allowed ashore after securing a pass from the Immigration Officer in the port. Restricted aliens (citizens or nationals of Iron and Bamboo Curtain countries) are not allowed on shore as a matter of policy.
DELAYS: Availability of berthing space.
PORT AUTHORITY: Collector of Customs, Jolo, Sulu.

JOSE PANGANIBAN, Luzon: 14.17 N. 122.42 E.

DOCUMENTS:
5 copies Crew List.
3 copies Passenger List.
4 copies Inward Manifest.
4 copies Outward Manifest.
5 copies Stores List.
3 copies Personnel Effects List.
3 copies Narcotics List.
3 copies Tobacco List.
3 copies Ship's Particulars.
Ship's Registry and Quarantine Papers from last Port of Call.

PILOTAGE: Compulsory for entrance and for clearance. ETA must be forwarded to the Agency in Manila; the last telegram from the Master w/ETA will be transmitted by radio to Pilots at Jose Panganiban (mentioning Larap if the vessel goes direct to Larap, J.P., and also to the loader in Daet. (Daet is the Capital of North Camarines.) In case of change of time, the hour of expected arrival may be forwarded directly to the Harbour Pilot. Master to pilot his vessel 1·5 miles South of Tanao Island lighthouse and steer 180° at moderate speed to meet the Pilot.
ANCHORAGE: About 1 to 2 miles W. of Pinandugan Point; advisable to await Pilot; in 8 to 11 fathoms or proceed Southward at slow speed to meet Pilot.
RESTRICTIONS: Entrance can be at any time day or night, but during Northern monsoon advance notice should be given to consider the use of a motor-boat instead of small-motored *banea;* in case of meeting outside harbour limits the request should be made to Pilot by the Master of vessel entering.
MAX. SIZE: Maximum draft not to exceed 30 ft.
HEALTH: To obtain pratique, the ship Master must advise Agent vessel's ETA in advance. The foregoing advice is very important because the ship Agent must in turn advise the quarantine officer of the arrival of the vessel 2 to 3 hours before the vessel sails into port. When the vessel arrives at the quarantine anchorage, the quarantine officer boards and inspects the same, and if the vessel is found to be free from all quarantinable diseases, pratique is granted. Automatic pratique is granted only to naval vessels. Pratique is no longer necessary when the vessel entering the port has called at another port in the Philippines.
RADIO: RCPI (Radio Communications of the Philippines, Inc.).
TUGS: A motor-boat is used by the PIM (Phil. Iron Mines) in Larap for vessels to load for them in that bay, but it is not needed for Panganiban Bay.
MEDICAL: Good hospital facilities in Larap and in Daet. There is also rural Medical Officer in this locality.
FRESH WATER: Insufficient fresh water on the pier to supply ships.
WATCHMEN: There is watchmen service in this port; number of watchmen at ship's convenience, charging P1.50 per hour for gangway watchmen and P1.00 for the patrol watchman.
OPENING/CLOSING HATCHES: An additional charge for this job is imposed if carried out by stevedores. The crew can, however, do the job.
CUSTOMS ALLOWANCES: 200 cigarettes for each member of the crew.
IDENTIFICATION CARDS: Only those which have to be shown to Immigration Officer with booklet are necessary. Immigration Officer will board vessel after the doctor's clearance.
REPATRIATION: Effecting crew changes and arranging necessary repatriation are carried out by the Immigration Office in the port with the assistance of the ship Agent and the Foreign Embassy concerned.
AIRPORT: In Larap and in Daet. Daily trips to Manila.
TIME: Local Civil Time is 8 hours ahead of GMT. This time reckoning is constant throughout the year.
HOLIDAYS: New Year's Day (1st January); Bataan Day (9th April); Holy Thursday (variable); Good Friday (variable); Labour Day (1st May); Independence Day (12th June); Republic Day (4th July); All Saints' Day (1st November); National Heroes Day (30th November); Christmas Day (25th December); Rizal Day (30th December).
SHORE LEAVE: Crew of vessels who are nationals of countries with whom the Philippines maintains diplomatic relations can be allowed ashore after securing a pass from the Immigration Officer in the port. Restricted aliens (citizens or nationals of Iron and Bamboo Curtain countries) are not allowed on shore as a matter of policy.
PORT AUTHORITY: The Collector of Customs, J. Panganiban, Bureau of Customs.

ILOILO Panay: 10.42 N. 122.35 E.

PORT LIMITS: Iloilo Harbour is defined as that portion of Iloilo Strait within the following boundaries: an imaginary line extending from the Northern bank of Dumangas River, Island of Panay, across Iloilo Strait to Navalas Point on the Northern coast of Guimaras Island; thence along the North-west and West shore of Guimaras Island to Lusaran Point, thence along an imaginary line extending from Lusaran Point to the South bank at the mouth of Siuaragan River in the municipality of San Joaquin, Province of Iloilo, Island of Panay, to the North bank of Dumangas River.
DOCUMENTS:
6 Crew Lists.
1 Visaed Crew List.
2 Crew Personal Effects Lists.
3 Passenger Lists.
1 Health Declaration.
10 Cargo Manifests.
3 Cargo Stowage Plans.
1 Bill of Lading.
2 copies of Customs Documents.

PILOTAGE: All foreign-going vessels required advise ETA 24 hours before arrival. Telegraphic address Iloilo Pilots. Pilot station: South entrance at Sinapsan Point; North entrance at Navalas Point. Pilot boat painted white with name "Pilot" on top, carries flag "H". Sound signals for calling Pilot, two long blasts and one short.
Northern entrance: Pilot boards vessels at Northern entrance to Iloilo Strait 2 miles East of Navalas Point. Maximum draft 24 ft. Entry and departure in daytime only.
Southern entrance: Pilots board vessel 1 mile West of Sinapsan Point. Vessels can be brought in and out of the harbour at any time, maximum draft 30 ft. Vessels with more than 30 ft. draft must wait for high tide.
RESTRICTIONS: Iloilo Strait, separating Panay and Guimaras Islands, has a width of about 0·9 mile at its narrowest part. This important thoroughfare leads to the port of Iloilo. Its shorelines are very irregular, and the navigable channels are narrowed by Iguana bank and Siete Pecados Islands on the Northern entrance and by Oton bank on the Southern entrance. Ocean vessels use only the South entrance when entering Iloilo Strait. Incoming vessels are met and boarded by Iloilo Pilot at Sinapsapan Point. Pilotage is compulsory. Oton bank is of soft muddy sand, about 0·1 mile West South-west of the Southern extremity of the flat on which Iloilo City stands and extends about 8 miles in a West South-westerly direction. It is composed of shifting sand and said to be extending Westward; vessels should not attempt to cross it. There is a narrow channel between it and the Panay shore, used by coast-wise vessels, but the main channel into Iloilo is between the bank and Guimaras Island. It is the sand bar along this channel that limits the draft of ocean vessels, entering or leaving Iloilo Strait, to a maximum of 33 ft. on a 5.0 ft. tide.
ANCHORAGE: Vessels waiting for Pilot may anchor in vicinity of pilot boarding station. No specified quarantine or Customs anchorages. Ships may anchor at any place North or South of the mouth of the Iloilo River provided that they do not obstruct navigation.
MAX. SIZE: No restrictions on length and breadth. Vessels over 30 ft. draft dependent on height of tide.
HEALTH: All overseas vessels calling first port of entry are subject to quarantine until free pratique granted. Quarantine doctor boards on arrival and issues Bill of Health subject to Master's Health Declaration and clearance from last port. Agents must be advised by radio in advance if suspected disease or fever on board. Pratique automatic for vessels coming from another port in the Philippines.
RADIO: Sarmiento Radio via Phimacomi, call sign DZZ. Frequencies 6 and 8 mhz.

TUGS: Berthing assistance by tugs available if requested. Ship's lines used. Pilot boats normally assist berthing.
BERTHING: Limited berthing space at pier berths, accommodation for two vessels only. Advance information required for vessels loading bulk sugar or molasses, since only one vessel may berth at a time.

Guimaras Island: Molasses installation, the molasses loading pier, owned and operated by the Luzon Stevedoring Co., is easily picked out and distinguished by the three steel tanks and one concrete tank situated on a hill just above the pier and should not be confused with the Jordan municipal pier laying just south of it. The pier is T-shaped, being 25 ft. at the face with a row of four pile clusters in line with the face, with a total span of about 300 ft. and with ample mooring facilities. It is recommended that berthing be done at flood tide, with the assistance of a Pilot obtainable at Iloilo. Unberthing can be done at any time. The three steel and one concrete tanks has an aggregate capacity to store 52,400 tons of molasses. Three of these four tanks are provided with pneumercator scales. The molasses outloading berth is located about 800 ft. North of the bulk sugar outloading berth and its outloading capacity is about 5,500 tons of molasses per day. Tankers with as much as 12,000 tons deadweight capacity have been handled here.

Bulk sugar installation. The berth has an average depth of water alongside of 40 ft., the shallowest portion being 33 ft. at the Southernmost part of the breakwater extending down to the inloading berth. Maximum length of vessel so far accommodated is 633 ft. (without utilising hatches 1 and 7). The outloading capacity for bulk sugar is from 7,000 to 8,000 tons per day, while the capacity to inload from barges into its three warehouses is about 4,000 tons per day. The three warehouses have a total capacity of 60,000 tons. Outloading of bulk sugar to ocean vessels is affected by means of conveyor system running from the warehouses to the outloading tower which has two retractable boom bridges fitted with ship trimmers. Height of boom bridge down to its base is 31 ft. with the water level during high tide being one foot below this base. Carrier vessels coming alongside to load therefore should not exceed the height of 32 ft. from waterline to hatch coaming in order to allow boom bridge of the outloadng tower clearance over the hatch opening.
STEVEDORES: Advise Agent before arrival details of cargo and number of gangs required.
MEDICAL: Agent should be advised 24 hours in advance of any medical requirements. Hospital facilities available. All crew require valid vaccination certificates.
FRESH WATER: Delivered by barge, minimum charge for 40 metric tons. Available from Guimaras Shore Installation, minimum charge for 40 metric tons
FUEL: Bunker "C" available, subject to three days advance notice.
WATCHMEN: Services of shore watchmen recommended.
HATCHES: Opening and closing hatches is normally done by stevedores except for McGregor or other automatic hatch covers which are operated by the crew.
CUSTOMS ALLOWANCES: 200 cigarettes in an open carton allowed each man. No allowance for wine or spirits.
CARGO GEAR: Details of any heavy lifts should be advised to avoid delay.
IDENTIFICATION CARDS: Required for shore leave. Seamen's books or passports usually deposited with Immigration.
CONSULS: Great Britain, telephone 5086. All other Consuls at Manila.
REPAIRS: Minor repairs can be effected. Dry docks for local barges and launches only.
REPATRIATION: Can be arranged subject to Immigration approval.
AIRPORT: Situated about 4 miles from the port with regular local services.
TIME: GMT plus 8 hours all the year round.
HOLIDAYS: 1st January, Holy Thursday, Good Friday, 9th April, 1st May, 12th June, 4th July, 25th December, 30th December. Cargo work may be arranged on these days.
POLICE/FIRE/AMBULANCE: Police, tel. 55–21; Fire, tel. 30–11; Ambulance, tel. 26–12 or 25–61.
TELEPHONES: No facilities for placing telephones on board.
SHORE LEAVE: Crew members are allowed ashore subject to Immigration control.

AGENTS: Smith Bell & Co. (Philippines) Inc., tel. 28–51. Telegraphic Address: Bell Iloilo.

MANILA, Luzon: 14.40 N. 121.00 E.

7 copies in Transit Passengers Lists.
2 copies Customs Marine Division.
2 copies Immigration Officer.
1 copy Customs Inspector in charge of vessel.
1 copy Manila Police Department representative.
1 copy Customs Secret Service Division.
Baggage Declarations:
1 copy per Landing Passenger of per Head of family.
Other Papers:
Quarantine Pratique.
Ship's Register and clearance from Last Port called should also be handed to the Boarding Officer.

PILOTAGE: The Pilot will board vessels in the quarantine anchorage at the completion of the quarantine inspection if vessels are proceeding to one of the 26 anchorages within the breakwater or to one of the piers.

Pilotage for anchoring or leaving anchorage within the breakwater is compulsory, as well as when docking and undocking at any of the piers.
ANCHORAGE: The position and bounds of the quarantine anchorage may be determined as follows: From the Manila Outer Harbour light buoy No. 1, approximate position, Lat. 14° 33′ 09″ N., Long. 120° 54′ 00″ E., thence on a range of 76° 24′ true, Custom House City Hall Towers 4,000 yards to approximate position Lat. 14° 34′ 50″ N., Long. 120° 56′ 00″ E., thence 180° true 119 yards to approximate position Lat. 14° 34′ 14″ N., Long. 120° 50′ 00″ E., thence 242° 30′ true 4,440 yards to the Manila Outer Harbour lighted buoy No. 1 at point of commencement.

When approaching the quarantine anchorage during daytime, the ship should fly her registered signal letters. When the vessel arrives during night at the quarantine anchorage, vessel's call letters should be hoisted at daylight as well as the "Q" flag. If vessel is carrying mail also the "Y" flag should be hoisted until delivery is effected.
RESTRICTIONS: Vessels entering Manila Bay through the North channel shall pass midway between La Monja Island and Guardia Shoal and shall proceed directly through the middle of the channel between Corregidor Island and the mainland, steering 070° until 1 mile distance from the shore is cleared. The same route shall be followed by vessels when leaving Manila Bay through the North channel.

Vessels entering Manila Bay through the South channel should not approach any shore closer than 1 mile and shall keep South of the restricted area, South of La Monja, Corregidor and Caballo Islands, which is embraced within the North sector of the following two bearings: 296° from El Fraile Island and 236° from Caballo Island lighthouse; furthermore on the Southern side of the channel, they shall not approach the line joining El Fraile and the North-west point of Limbones Island closer than 1 mile. The same restrictions apply to vessels leaving Manila Bay through the South channel.

There are no uncharted obstructions between the entrance to Manila Bay and the quarantine anchorage and vessels should have no difficulty proceeding over this route. Frequent difficulty is experienced in picking up Sangley point light because of its low visibility and the background of shore lights.
MAX. SIZE: Pier 9, length 250 m., draft 20 ft. Pier 13, length 400 m., draft 32 ft. Pier 15, length 380 m., draft 35 ft. Tankers: Up to 40 ft. draft at Rosario Sea Berth.
RADIO: Weather information and Notices to Mariners are broadcast daily from the following local radio stations:

Station DUS of the Coast and Geodetic Survey may be contacted for urgent nautical information at 0820 and 1350 hours weekdays and 0820 and 1220 on Saturdays. DUS transmits on 8690 kc (CW) and receives on 8412 kc (CW).
BERTHING: Vessels having 100 tons or more of general cargo for discharge (except those granted ship-side delivery permits) must berth at piers for such discharge. Ship-side delivery permits

are issued by the Bureau of Customs on certain merchandise considered as bulk cargo.

There are piers available for ocean going vessels with a total of 14 berths and a total area covered of 376,955 sq. ft.

	Controlling Depths Alongside Piers	*No. of Sheds per Pier*	*Total Covered Area per Pier*

Outer ,, ,, ,,	25 ft.		

STEVEDORES: Stevedoring is handled by Luzon Stevedoring Co. and the Delgado Stevedoring Co., supply ample labour, lighters and tugs. Cargo averages about 10 tons per hour and for the following bulk cargo: Copra, in bulk, 10/12 tons per gang hour. Copra cake and meal, 15/20 tons per gang hour. Desiccated coconut, 250–300 bags per hours. Hemp, 80/100 bales per gang hour. Sugar, 25 tons per gang hour. For the discharging of coal or gypsum, the rate is about 25 tons per hour.

TANKERS: Filoil Refinery Corporation Terminal. Rosario. The mooring place is a conventional sea berth located in position Latitude 14° 26′ 30″ N., Longitude 120° 49′ 24″ E., that is 1·5 miles offshore from Rosario, Cavite. Depth of water 45 ft. Usual method of mooring for conventional sea berths. Both anchors required to be ready but normally only the starboard anchor is used. Mooring is only effected day time, but unmooring can be carried out at any time. Normal number of lines required, 10 aft and 2 forward. After the mooring the vessel is heading in a W.S.W. direction parallel with the tide current flow. The port derrick is required for cargo hose handling, with a SWL of 5 tons. Three tug-boats are normally used for mooring but two for unmooring.

Two submarine hoses 10 in. and 255 ft. in length are available connected to 24 in. submarine line which is 2·5 miles in length. Maximum discharge pressure allowed at ship's manifold is 120 lb./sq. in. and not less than 60 lb./sq. in. Hose connecting/disconnecting gang is available under contract with Filoil Refinery Corporation.

FUEL: Fuel oil can be obtained from the Esso, Mobil, Caltex and Shell Oil Companies. Delivery by barge is made either at one of the anchorages within the breakwater or at the piers. Where possible, prior notice of 72 hours should be given the oil companies. Maximum rate of loading is 100 tons of bunker fuel and 125 tons of diesel fuel per hour.

MEDICAL: Complete hospital facilities are available in Manila.

REPAIRS: The Mariveles shipyard operated by the National Shipyard and Steel Corporation located at Mariveles Harbour have facilities for the dry docking and repairs of vessels up to 10,000 gross tons and of length and draft up to 500 ft. and 25 ft.. respectively.

SERVICES: The Atlantic Gulf and Pacific Co. is equipped to undertake cleaning of tanks for receipt of coconut and vegetable oils. Where the tanks have contained coconut or vegetable oils previously, the time required for cleaning is from 18 to 30 hours; where tanks have previously held wood oils or fuel oils, the time required to prepare them is from 48 to 60 hours.

Vessel requiring the services of a launch at any time of the night should use the following signal to which the harbour transport launches will answer: Searchlight, signal lamp or open blinker light pointed straight up slightly inclined shoreward and left on until launch arrives alongside.

AGENTS: Wallem and Company (Philippines) Ltd., 540 T. M. Kalaw, Ermita, Manila. Tel. 48071. Telex. MN3328. Cables: Wallem Manila.

MASAO: 09.00 N. 125.29 E.

DOCUMENTS:

7 copies of Inward Foreign Manifest.
2 copies of Crew List.
Passenger List.
Narcotics List.
Curio or Personal Effects List.
Stores List.
Vessels General Information List.
Money List.
Firearms List.

PILOTAGE: Pilotage is compulsory and appropriate notice should be sent to the Masao Pilots' Association at least 24 hours before the arrival of the vessel.

ANCHORAGE: The anchorage is wide and deep enough to accommodate as many as twenty vessels at one time.

RADIO: Any commercial radio systems would be sufficient, such as Globe, or Mackay or RCA.

TUGS: At Magallanes Bay, where majority of foreign vessels discharge, tugs are not needed, as anchorage is done along the stream. But at Nasipit, the pilot launch will handle the lines for mooring.

BERTHING: Vessels work cargo to lighters in Magellanes Bay. At Nasipit: Copra loading.

STEVEDORES: No particular ETA advices necessary; exporters will handle the advice of their stevedores.

MEDICAL: Necessary for Agents to receive advance notices for medical attention required; hospitals to handle major medical cases.

FRESH WATER: This is available at Nasipit, but notice should be given to the Agent who in turn will serve notice to Messrs. Nasipit Lumber Co. Water is delivered by truck at a cost of P3.00 per ton.

GANGWAY/DECK WATCHMEN: Available and recommended. Deck watchmen get P1.00 per hour and gangway watchmen get P1.50 per hour.

OPENING/CLOSING HATCHES: This is normally carried out by members of the crew, but at Nasipit, in the case of American vessels, this is done by the stevedores, chargeable to the exporters.

CUSTOMS ALLOWANCES: 200 cigarettes and a bottle of wine for each crew member would be allowed during the duration of the vessel's stay in port. Request for additional needs could be arranged by the Master through the Customs Inspector on board.

IDENTIFICATION CARDS: Necessary.

CONSULS: None. Nearest at Cebu, and Manila.

REPAIRS: All types of repairs on deck require the permission of the Collector of Customs.

REPATRIATION: Can be arranged.

AIRPORT: Distance to the airport is about 4 kilometres and flights are daily to Manila. Philippine Airlines, Filipinas Orient Airways have their regular flights for Manila, Cebu, Cagayan de Oro, and Davao.

HOLIDAYS: Cargo can be worked on any day except New Year, and Independence Day, 12th June.

SHORE LEAVE: Allowed.

AUTHORITY: The Collector of Customs, Port of Masao, Butuan City.

SAN FERNANDO, Luzon: 16.37 N. 120.17 E.

DOCUMENTS:

1 copy of Clearance issued by the last Port of Call.
1 copy of Quarantine Clearance.
2 copies of Crew List.
2 copies of Crew Possessions' List.
2 copies of Stores List.
2 copies each of Narcotic, Firearm, Passenger, Mail, Parcel, and Money Lists.
5 copies of Inward Foreign Manifest.

PILOTAGE: Send telegraphic message (through the ship Agent) addressed to Port Pilot, San Fernando, La Union, Philippines, at least 24 hours before expected time of arrival. This is the only means by which the Pilot can be contacted.

The moment the Pilot receives the 24-hour advance notice of ETA, he is under constant watch for the vessel to appear outside the Harbour. When vessel appears, he meets the same in an ordinary outboard motot-boat, which is painted white and bearing International Flag "H".

The vessel, when calling the Pilot, flies the International Flag "G" or sounds a signal of two long and one short blasts.

The Pilot boards within 3 miles of the lower beacon. In case of bad weather or when pilot boat cannot be seen, the vessel can proceed to the quarantine anchorage as there is no specific anchorage for vessels awaiting a Pilot. The Pilot does not go out during stormy weather. He requires a rope ladder for boarding or disembarking when the sea is rough.

ANCHORAGES: The Port of San Fernando is one of the deepest in the Philippines, and the quarantine anchorage as well as the anchorage for vessels waiting to dock at the piers can accommodate vessels up to 30,000 dead weight tons.

MAX. SIZE: The maximum permissible tonnage of a vessel which can be ordinarily accommodated at the piers is 10,000 tons irrespective of the length, breadth, draft, and kind of the vessel. The state of tide does not affect the dimensions of the vessels. However, vessels with a tonnage of more than 10,000 tons up to 30,000 tons need the aid of tug-boats so that they can be manoeuvered into the pier area.

HEALTH: To obtain pratique, the ship Master must advise the ship Agent vessel's ETA in advance. The foregoing advice is very important because the ship Agent must in turn advise the quarantine officer of the arrival of the vessel 2 to 3 hours before the vessel sails into port. When the vessel arrives at the quarantine anchorage, the quarantine officer boards and inspects the same, and if the vessel is found to be free from all quarantinable diseases, pratique is granted. Automatic pratique is granted only to naval vessels. Pratique is no longer necessary when the vessel entering the port has called at another port in the Philippines immediately before proceeding to San Fernando.

TUGS: It is the ship Agent of the vessel who furnishes tugs. Whenever needed, the tug-boat normally joins the vessel near the pier while the vessel is docking and at the pier when the vessel is undocking.

BERTHING: All berths are alongside piers.

STEVEDORES: ETA advices are useful but gangs can be easily arranged even at short notice. The average load rate per gang (12 men) per hour is 20 tons, while the average discharge rate is 25 tons.

MEDICAL: It is always necessary for ship Masters to notify their

Agents of required medical attention at least 2 to 3 hours before arrival. Hospital facilities are available. There are three hospitals in the town of San Fernando. Vaccination/Fever Certificates are required, especially those against cholera, smallpox, and yellow fever.
TANKERS: There are no berths available for the exclusive use of tankers. Existing facilities for unloading oil have been installed alongside the piers by private oil companies for their own use.
FRESH WATER: Supply of fresh water is available at the government pier by pumping from shore-side to vessel at the rate of 15 tons per hour. The cost per ton is P5.00 if the purchase is less than 100 tons, but slightly lower (P4.500 per ton) when it is 100 tons or more.
FUEL: All grades can be readily supplied by any of the oil companies with oil depots in the port area.
DEVELOPMENTS: There is an ambitious programme to improve the marine terminal of the port which, among other things, includes reclamation and construction of additional storage facilities. Works on the breakwater, marginal wharf for fishing boats, and an industrial estate complete with a new pier, as well as the removal of wrecks (parts of sunken ships) inside the harbour are expected.
GANGWAY/DECK WATCHMEN: The employment of gangway/deck watchmen though not compulsory is recommended. Cost is P1.75 per hour on the gangway and P1.50 per hour on the deck.
OPENING/CLOSING HATCHES: An additional charge for this job is imposed if carried out by stevedores. The crew can, however, do the job.
CERTIFICATES: Those required are:
Certificate of Registration.
Certificate to Operate.
Certificate of Officers and Engineers (Licenses).
Officers and Crew-Seaman's Book.
CUSTOMS ALLOWANCES: 200 cigarettes for each crew member, and one bottle of liquor for each crew member.
IDENTIFICATION CARDS: Absolutely needed.
CONSULS: None at San Fernando.
REPAIRS: Deck and engine repairs are limited only to re-winding, welding, fixing electrical devices and connections, patching, and repainting.
DRY DOCKS: Except for the dry dock maintained and operated by the Atlantic Gulf and Pacific Company for the exclusive repair of U.S. Navy LCMs, no facilities of this nature in the port at present.
REPATRIATION: Effecting crew changes and arranging necessary repatriation are carried out by the Immigration Office in the port with the assistance of the ship Agent and the Foreign Embassy concerned.
AIRPORT: An airport, which is served by the Philippine Air Lines on a daily schedule to and from Manila and other points in Northern Luzon, is located about 1 kilometre from the pier area.
TIME: Local Civil Time is 8 hours ahead of GMT. This time reckoning is constant throughout the year.
HOLIDAYS: New Year's Day (January 1st); Bataan Day (April 9th); Holy Thursday (variable); Good Friday (variable); Labour Day (May 1st); Independence Day (June 12th); Republic Day (July 4th); All Saints' Day (November 1st); National Heroes Day (November 30th); Christmas Day (December 25th); Rizal Day (December 30th). When any holiday falls on a Sunday, the following day (Monday) is by law considered a legal public holiday. As a general rule, employees of the government in the Philippines do not work on Saturdays.
POLICE/AMBULANCE/FIRE: For Police and Fire, either call No. 99 (Phil. long distance tel.) or No. 0 (Gov't tel. System). For Ambulance, call directly for Lorma Hospital, Bethany Hospital or La Union Provincial Hospital on any of the two telephone systems above said.
TELEPHONE: Facilities for placing telephones on board vessels are not available at present.
SHORE LEAVE: Crew of vessels who are nationals of countries with whom the Philippines maintains diplomatic relations can be allowed ashore after securing a pass from the Immigration Officer in the port. Restricted aliens (citizens or nationals of Iron and Bamboo Curtain countries) are not allowed on shore as a matter of policy.
AUTHORITY: San Fernando Port Authority, San Fernando, La Union, Philippines. Tel. 90-R (Phil. Long Distance Tel. Co.). Cable Address, Poroport.

TACLOBAN: 11.15 N. 125.00 E.

DOCUMENTS: 3 copies of the following required:
Number of Crew Lists.
Passenger Lists.
Customs Documents.
Health Documents.
Manifests.
Bills of Lading.
Ship's Papers, etc.
PILOTAGE: Notice of ETA of vessel must be given at least 24 hours in advance and must be sent through cablegram direct to Harbour Pilot, Tacloban City.
ANCHORAGES: Safe anchorage: low tide, 17 ft. draft; high tide, 19 ft. draft; area for anchorage, 300 ft. length.
ENTRY RESTRICTIONS: At the discretion of the Harbour Pilot.
MAX. SIZE: Permissible length 300 ft. Draft low tide, 17 ft.; high tide, 19 ft.
HEALTH: Pratique is only necessary and required in the first port of entry; it is automatic when entering ports in the same country or state.
RADIO: Radio communication of the Philippines, Inc., Manila.
TUGS: Ship's Agent arranges tug's lines with watchmen.
BERTHING: Inform Customs Collector at least 24 hours before ETA of vessel so that berthing space can be reserved.
STEVEDORES: ETA advices should be furnished to stevedores through ship's Agent.
MEDICAL: Advance notice of required medical attention to ship's Agent essential.
FRESH WATER: Fresh water available delivered by water-tank truck at P3.00 per ton of fresh water.
FUEL: Not available.
GANGWAY/DECK WATCHMEN: Necessary for safety of vessel. Ship's Agent makes all necessary arrangements.
OPENING/CLOSING HATCHES: Normally carried out by stevedores.
SHIP CERTIFICATES: All documents required by International Shipping Rules and Regulations.
CUSTOMS ALLOWANCES: One carton cigarettes per week for each man. Wines/spirits at the discretion of the Collector of Customs.
IDENTIFICATION CARDS: Needed for inspection by Immigration Officer.
REPAIRS: Not possible.
REPATRIATION: Immigration Officer effects crew exchanges and arranging necessary repatriations.
AIRPORT: Distance from airport, 9 kilometres, and is regularly served by airlines.
TIME: GMT plus 8 hours. No alterations during the year.
HOLIDAYS: Depending upon agreement with stevedores, work may be performed during holidays.
POLICE/AMBULANCE/FIRE: All departments are within one minute's call from the harbour.
TELEPHONES: Can be connected on board if required.
SHORE LEAVE: Allowed.
AUTHORITY: Collector of Customs, Port of Tacloban, Philippines.

ZAMBOANGA: 06.54 N. 122.04 E.

DOCUMENTS:
1 copy of Clearance issued by the last Port of Call.
1 copy of Quarantine Clearance.
2 copies of Crew List.
2 copies of Crew Possessions' List.
2 copies of Stores List.
2 copies each of Narcotic, Firearm, Passenger, Mail, Parcel and Money lists.
5 copies of Inward Foreign Manifest.
PILOTAGE: Vessels approaching the port use International Code Signals for calling Pilot.
Pilot Station: Telegraphic address is Zamboanga Pilots, Zamboanga City. Estimate time of arrival (ETA) must be radioed 24 hours in advance. Pilots always on duty. Pilot boat is wooden launch painted white with red trimmings and displaying the pilot flag. The exact area where a Pilot will board vessel is in the vicinity of Little Sta., Cruz Island, for vessels coming from West, and near the vicinity of Rio Hondo for vessels coming from East. Alternative area in the event of bad weather is in the vicinity of Zamboanga Pier at a distance of at least 1 mile either way. Vessels awaiting Pilot should not necessarily drop anchor, provided 24 hours notice of their ETA is given by local Agents or the Master, to the Zamboanga Pilots, for a Pilot is *always* on duty.
ANCHORAGES: Owing to the steep bank, strong currents and hard, uneven bottom, there are no good anchorages off Zamboanga. However, anchorage may be made anywhere Southward of the wharf at a distance of about 3 cables from shore Eastward of an imaginary line from the Tide Indicator, at a depth of between 25 and 30 fathoms and giving 7 shackles of chain in the water. This will hold vessel even at strongest current of 6 knots. In the event of very bad weather the vessel should transfer her anchorage to Lamitan, a town 16 miles South-east of Zamboanga on the North coast of Basilan Island.
MAX. SIZE: No limits for anchoring. For berthing, up to 32 ft. draft.
HEALTH: Quarantine Officer will board the vessel for the necessary inspection of all crew on board. Thereafter he issues pratique, if and when he finds that there are no disease or fever on board. The pratique is valid until after the vessel departs to a foreign port.
RADIO: Universal Telecommunication Service, the Capitol Radio Telecommunication, the Telefast Radio Communication, the Radio Communications of the Philippines and the Telecom, operated by the National Government for receiving and transmitting radio messages night and day services.
TUGS: The position where tugs normally join the vessel is in the stream and the usual ship's lines or tug's lines are used. There is no charge collected for the use of the tug's lines.
BERTHING: The Zamboanga Government wharf is about 800 ft. long with a depth at the latest survey of the following: East end 30 ft.; mid-section 25 ft. and West end 21 ft. There is a private wharf at Baliwasan and vessels of 15,000 gross tons can dock there with the following limitations: Draft forward must not exceed 32 ft.; draft aft must not exceed 36 ft., upon completion of loading. Vessels docking at this wharf can only be docked at *flood* tide (current running East to West) and can only be undocked in the same manner. Two anchors must be used in this process and the vessel shall lay alongside the wooden pier always *port* side to. This wharf in Baliwasan is for loading coconut oil only.
TANKERS: There are four oil depots at Gavilan Pt. and at Bali-

wasan. (Shell, Mobil, Esso and Caltex.) Max. tonnage of 4,000 gross with a draft of not more than 18 ft. can be moored for discharge.
STEVEDORES: The Master of the vessel shall wire to the local Agents of the vessel so that a contract could be made with the shipper to arrange gangs.
MEDICAL: It is necessary for Agents to receive advance notice of required medical attention. Hospital facilities are available at all times. Inoculations are also required by the Quarantine Officer upon boarding a vessel.
FRESH WATER: Fresh water can be obtained only at night time due to low pressure. The approximate cost are as follows: from 1 ton to 50 tons, P2.00; from 51 tons to 75, P1.50; from 76 tons to 100, P1.00; from 191 tons to 150, P1.00; from 151 tons to 200, P0,80; and from 201 tons above, P0.60. If there is no available space at the Zamboanga Pier the vessel has to wait at the anchorage for a berthing space to get water supply.
FUEL: Fuel is available.
FIRE PRECAUTIONS: Smoking is entirely prohibited on board a tanker entering this port. The Master must advise all persons boarding his vessel.
DEVELOPMENTS: Dredging of the Zamboanga Pier is being done for draft increases. The National Government is setting every year the necessary amount to extend and improve the local wharf. It may take 10 to 15 years to make new installations and berths.
GANGWAY/DECK WATCHMEN: The services of watchmen are necessary to foil looters from boarding the vessel. Watchmen in this port are charging P1.00 per hour for patrolling on board and for watching the gangway P1.50 per hour.
OPENING/CLOSING HATCHES: Normally opening and closing of the hatches are done by the crew, and if the job is done by stevedores the vessel has to pay P15.00 minimum.
CUSTOMS ALLOWANCES: 200 cigarettes per man. Upon arrival in port the cigarettes are sealed in a bonded store by the Customs authorities, and can be opened only upon permission granted by the Collector of Customs.
IDENTIFICATION CARDS: All crew members to have identification cards for immediate identification in case of trouble while the crews are on shore.
CONSULS: Panamanian Consul represented by Mr. Abelardo Cabrera, with telephone numbers 1088 and 1435.
REPATRIATION: Effecting crew changes and arranging necessary repatriation are carried out by the Immigration Office in the port with the assistance of the ship Agent and the Foreign Embassy concerned.
AIRPORT: Distance from Zamboanga Pier to the airport is three kilometres. Served by regular airlines. There is a daily flight from Zamboanga to Manila by Philippine airlines.
TIME: Local Civil Time is 8 hours ahead of GMT. This time reckoning is constant throughout the year.
HOLIDAYS: Cargo work can be arranged with the Stevedoring Company through the shipper to work during holidays, including Sundays.
POLICE/AMBULANCE/FIRE: Police Department, tel. 06; Ambulance, Zamboanga General Hospita, tel. 08; and Fire Department, tel. 00.
TELEPHONES: Telephones cannot be installed on board when docked at the pier as is not allowed by the City Government.
SERVICES: Special services may be available, e.g. tank-cleaning equipment, facilities for discharge of tank-washings, compass adjusting, through representations to be made with the shipper or local Agent of the vessel.
SHORE LEAVE: Crew members are allowed ashore upon permission granted by the local Immigration Officer.
AUTHORITY: The Collector of Customs, Port of Zamboanga, Zamboanga City, tel. 1103.

Poland

GDAŃSK (Danzig): 54.20 N. 18.40 E.

DOCUMENTS:
12 copies Cargo Manifest.
2 copies Bills of Lading.
Discharge Books to be collected for presentation.
Ship's Register.
Maritime Declaration of Health.
Ship's Articles/Crew List.
Deratisation Certificate or exemption from Sanitary Certificates, covering food cargoes and/or of animal origin, destined for discharge here.
Specification of Dangerous Cargo even if in transit.
2 Stowage Plans.
PILOTAGE: Compulsory. Boarding in Gdańsk road. Gdańsk pilot station available on VHF, Channel No. 14.
ANCHORAGE: Gdańsk roads up to buoys NP1, NP2. No tides.
RESTRICTIONS: Approaches 36 to 40 ft. depth.
MAX. SIZE: Maximum size of vessels permitted to enter: draft, 33 ft. 6 in. brackish water; length, about 650 ft.
HEALTH: Maritime Declaration of Health to be presented on arrival. In the event of suspected disease, the vessel should wire to "Quarantine Gdańsk," or via Agents.
RADIO: Messages should be sent via Gdynia Radio.
TUGS: Join in Gdańsk roads. Vessel's lines must be used.
STEVEDORES: As gangs for the following day must be ordered before 11 a.m., vessel's ETA should reach the Agents relevantly in advance.
RADAR/VHF: Port Radar Service acting with pilot station, contactable on VHF Channel No. 14.
MEDICAL: No special notice required. Full hospital facilities available.
DENSITY: Salt contents: 0.54%.
FRESH WATER: Available at hydrants. Cost $0.67 per ton.
FUEL: Heavy, intermediate and thin fuels, marine diesel oils and gas oils available ex-shore installation or lighter. 48 hours notice required.
DEVELOPMENTS: Dredging along various quays in progress to increase draft allowed.
GANGWAY/DECK WATCHMEN: Recommended. Cost per man $1.20 per hour.
OPENING/CLOSING HATCHES: Normally carried out by stevedores, crew allowed to handle.
CERTIFICATES:
Load Line Certificate.
Cargo Gear Certificates.
CUSTOMS ALLOWANCES: For 3 days – 160 cigarettes or 30 cigarettes or 30 cigars or 150 gm. tobacco per crew member. Master is allowed double ration. 1 bottle wine and one bottle of spirits per crew member for each three days. Master is allowed double ration.
IDENTIFICATION CARDS: Each member must be in possession of a valid Discharge Book/Sailors Book, and will receive a separate shore permit issued by the Immigration Authorities, entitling him to go ashore within the area of Gdynia/Sopot/Gdańsk.

SZCZECIN (Stettin) including Swinoujscie: 53.26 N. 14.34 E.

DOCUMENTS:
Health Certificate.
4 Crew Lists.
Passenger List.
Dangerous Cargo Lists.
Tonnage Certificate.
List of New Articles for customs – cameras, binoculars, radios, cigarettes, spirits, etc.
PILOTAGE: Contact pilot station, VHF Channel 12, Working. Channel 26 or 27, call sign Polbroker. Light and sound signals used according to international rules. The Pilot is taken on board at the anchorage. Pilot compulsory.
MAX. SIZE: Max. draft at Swinoujscie, 36 ft.; max. draft at Szczecin, 28 ft.; max. length at Swinoujscie, 210 m.; max. length at Szczecin, 170 m.
HEALTH: All ships arriving Szczecin from South of Cap Finister are subject to sanitary inspection.
RADIO: Szczecin Radio, SPE 2182 Hc/s. Medium frequencies.
TUGS: For ships over 1,500 GRT, one tug compulsory. Over 3,000 GRT, two tuga compulsory. Normally tugs join the vessel at the limits of the port of Szczecin to Kra quay.
BERTHING: Petroleum harbour situated at Swinoujscie at mouth of the entrance channel.
STEVEDORES: 24 hours ETA required to arrange gangs.
MEDICAL: Doctors and hospital facilities available.
TANKERS: Max. draft at Swinoujscie, 34 ft.; max. draft at Szczecin, 21 ft. All empty tankers have to give 24 hour ETA advice whether they are gasfree and name of last cargo carried. No residue discharge facilities.
DENSITY: 1.000.
FRESH WATER: Available from water boat, or directly from a quay hydrant. For deliveries of less than 5 tons, the minimum charge is as for 5 tons of water. For the supply of water on Sundays and holidays a surcharge of 25% to be levied.
FUEL: All grades of Shell fuel oil and Castrol marine lubricants.
GANGWAY/DECK WATCHMEN: Available but not compulsory.
OPENING/CLOSING HATCHES: Normally opened by crew.
SHIP'S CERTIFICATES:
Health Certificate.
Tonnage Certificate.
Trimming Certificate (Polish form) – if vessel loads coal/coke.
CUSTOMS ALLOWANCES: Each man – 160 cigarettes and one bottle of spirit. Captain allowed double.
CARGO GEAR: No additional requirements; all gear supplied by stevedores except rain tents.
IDENTIFICATION CARDS: Not required.
CONSULS: Swedish Consulate, Soviet Union V. Consulate, Czechoslovak Consulate.
REPAIRS: All types of deck and engine repairs. Two ship repair yards.
DRY DOCKS: Floating docks with lifting capacity of 8,200 tons, 5,500 tons 3×1700 tons, 900 tons, 650 tons.
REPATRIATION: Crew changes and arranging repatriation can be done.
AIRPORT: 45 km. from Szczecin. Regular lines to Warsaw, Gdańsk, and Kraków twice a day. From Warsaw communication between almost every main airport in Europe.
TIME: GMT; no alterations.
HOLIDAYS: New Year (1st January); Easter (Two days); Labour Day (1st May); Corpus Christi; Independence Day (22nd July); All Saints' Day (1st November); Christmas (25th–26th December).
POLICE/FIRE/AMBULANCE: Police, 997; Port Police, 8068; Ambulance, 999; Fire Brigade, 998.
SHORE LEAVE: Allowed.
AUTHORITY: Harbour Master.

AGENT: Morska Agencja w Szczecinic, Plac Batorego 4. Cables: Polbroker Szczecin.

GUANICA: 17.57 N. 66.54 W.

DOCUMENTS/GENERAL INFORMATION: Refer to "Ponce".
PILOTAGE: Port operations are under the control of the Captain of the port. Pilot services are available day and night.
ANCHORAGE: Harbour is located 8 miles Westward of Guayanilla Bay. Though small, it is one of the best hurricane harbours in Puerto Rico.
TUGS: Available and compulsory for docking.
BERTHING: Pier facilities are owned by the Guanica Central and used for bulk sugar shipments and limited general cargo operations. On the East side of the harbour entrance there is a reinforced concrete bulkhead wharf 440 ft. long with depths of 25 ft. alongside

for the handling of bulk fertilisers. Small craft landings and facilities are along the boulevard fronting the beach.
FRESH WATER: Available in limited quantities for emergencies only.
FUEL: Available by trucks from Ponce.
MEDICAL: Medical assistance is available; if hospitalisation is required for any crew member, it will probably be necessary to arrange for admittance to a Ponce hospital.
CONSULS: None available locally, nearest at Ponce, Puerto Rico.
AUTHORITY: Puerto Rico Ports Authority.

GUAYANILLA: 18.00 N. 66.47 W.

Oil Terminal owned by Commonwealth Oil Refining Co.
DOCUMENTS/GENERAL INFORMATION: Refer to "San Juan".
PILOTAGE: Port operations are under the control of the Captain of the port and pilot services are available day and night.
ANCHORAGE: It is the largest hurricane harbour and one of the best in Puerto Rico. Available for vessels of any draft. The harbour is protected at its entrance by extensive reefs which extend a mile or more offshore. The entrance channel between these reefs is about 1·5 miles long and about 0·4 mile wide.
MAX. SIZE: Tankers up to 680 ft. LOA, with maximum draft 35 ft. 6 in. forward and 38 ft. aft.
TUGS: Available 24 hrs. daily, as requested by vessel.
BERTHING: Fuel dock. Two 680 ft. berths with 365 ft. depth alongside. Mooring buoys placed to assist in clearing dock and mooring dolphins. No slop disposal facilities. The Union Carbide Company has berthing facilities for barge operations.
FRESH WATER: Available whenever requested by the vessel.
FUEL: Available only whenever arranged by owners of the vessel and/or characters prior to arrival.
MEDICAL: Medical service is available; hospitalisation at Ponce, which is only 15 minutes distance.
CONSULS: None available locally; nearest at Ponce, Puerto Rico.
AUTHORITY: Commonwealth of Puerto Rico – Harbour Master. Port facilities are operated and owned by the oil refinery.

JOBOS (Aguirre): 17.58 N. 66.39 W.

DOCUMENTS/GENERAL INFORMATION: Refer to "Ponce".
PILOTAGE: The Port of Jobos is served by the Pilots of Port Ponce. Services must be arranged in advance.
ANCHORAGE: A fine land-locked harbour, located on the South coast, approximately 42 nautical miles Eastward of Ponce and 20 miles West of Point Tuna. Anchorage inside the bay is Southward of the pier in depths of 19 to 24 ft. soft mud bottom.
RESTRICTIONS: The principal entrance is from Westward between Morrillo Cay and Ratones Cay, thence through buoyed channel to the bulk sugar-loading pier at Central Aguirre. Private range lights mark the dredged cuts. Controlling depth is 28.5 ft.
TUGS: No tug-boats available.
BERTHING: A 1,000 ft. finger pier at Central Aguirre, 29 ft. depth alongside. Pipe-lines for water and molasses, a conveyor belt for bulk sugar and a gantry crane are on the pier.
FRESH WATER: Fresh water is available at this dock.
FUEL: No bunkers are available at this dock.
MEDICAL: Medical assistance is available; if hospitalisation is required for any crew member, it will probably be necessary to arrange for admittance to a Ponce hospital.
CONSULS: None available locally; nearest available at Ponce.
AUTHORITY: Commonwealth of Puerto Rico – Harbour Master, port facilities owned and operated by Central Aguirre Sugar Company.

LAS MAREAS: 17.54 N. 66.11 W.

DOCUMENTS/GENERAL INFORMATION: Refer to "Ponce".
PILOTAGE: Pilot service available day and night. Entrance buoys, lt. buoy "LM", Fl. w. 3 sec., ecl. 7 sec. Radar reflector. Black and white vertical stripes.
BERTHING: Port serves Phillips Petroleum Company, a petrochemical complex, on the South coast, close Easterly to Jobos. 1,000 ft. long pier for the receipt and shipment of fuel oils and other liquid chemicals.
FRESH WATER: Fresh water, in limited quantities, is available at the dock; must be ordered 48 hours prior to the arrival of the vessel at the dock.
FUEL: No bunkers are available at Port of Las Mareas, lubricants may be obtained from Ponce.
MEDICAL: Medical assistance is available at Port of Las Mareas; if hospitalisation is required for any crew member, it will probably be necessary to arrange for admittance to a Ponce hospital.
CONSULS: None available locally; nearest available at Ponce.
AUTHORITY: Commonwealth of P.R., Harbour Master; port facilities operated by Phillips, P.R. Core, Inc.

MAYAGUEZ: 18.12 N. 67.09 W.

DOCUMENTS: If vessel staying less than 24 hours:
Crew List.
Stores List.
Cargo Manifest.
Crew Purchase List.
Valid Load-line Certificate.
Ship's Register.
Clearance from Previous Port.
Vessels working cargo. Two sets of documents to be prepared as follows:
Original:
1 copy of Inward Foreign Manifest (U.S. Customs Form 5727–A), Cargo for San Juan.
1 Stores List.
1 Crew Purchase List.
1 Passenger List (if any).
1 Crew List (U.S. Form I–418).
1 copy of Ship's in Transit Cargo Manifest.
Clearance from Last Port.
Duplicate:
Same as original except the in-transit Cargo Manifest.
If vessel has on board cargo for another American port, an extra copy of the original Cargo Manifest is required.
Crew members to declare individually all articles such as souvenirs, etc.
Agents require:
3 sets of Bills of Lading.
2 copies of Manifest (for San Juan only).
1 copy of Crew List.
1 copy of Stores List.
1 copy of Crew Purchases List.
1 copy of Narcotics List.
1 copy of Passengers List.
Certificates:
Valid Load-line Certificate.
Ship's Register.
U.S. Tonnage Tax Certificates (if any).
PILOTAGE: Ships Agents must make arrangements with Captain of the Port Office at Mayaguez Pier well in advance, not less than 24 hours, of arrival of vessel at harbour entrance. Pilot boats are painted black (hull) and white (topside) as required, showing the letter "P" on each bow. Pilots board 1 to 2 miles offshore of sea buoy depending on weather conditions.
ANCHORAGES: Close to the channel of entrance and boundaries enough depths for large vessels.
RESTRICTIONS: The bay is easily entered day or night and is a good harbour in any weather, except in a hurricane. The harbour is 3·8 miles wide, and offshore is protected by shoals which extend across the harbour entrance in a general North by West direction.
The principal channel is about 0·4 mile wide, with depths at the entrance of about 47 to 120 ft. and it is marked by lighted buoys and the range. Depth in the inner channel is approximately 30 ft. and close alongside the pier from 28 to 29 ft.
MAX. SIZE: Cargo vessels 60 0ft. or more in length call at the port. Safe draft for operations at the wharf is 27 ft.
RADIO: Communication to all points, including ships at sea, is available through commercial systems. Cables–Telex via RCA Communications, Inc., a global service of Radio Corporation of America. ITT World Communications, Inc., tel. 830–3316. Puerto Rico Telephone Company, local and overseas communications services, 129 and 128.
TUGS: Not used at Mayaguez Port.
BERTHING: Berthing permit required from the Ports Authority. The Puerto Rico Ports Authority operates the terminal facilities which consist of a bulkhead wharf approximately 1,200 ft. long, apron width, 30 ft., and transit sheds. There are other berthing facilities in the port which are owned by the tuna packing plants.
STEVEDORES: Arrangements are made by the ship's Agents or representatives.
MEDICAL: The Agent should know in advance any medical needs so that he can make the necessary arrangements with the U.S. Public Health Service. Good medical and hospital services available.
TANKERS: See "Port of Guayanilla". Regular calls from Esso and Texaco to unload fuel by means of barges in order to supply tanks on land by means of pipes located at berthing facilities.
FRESH WATER: Available at pier facilities alongside the berth in four outlets to supply any amount required at any time. Hose connections of 2½ in. or less, maximum pressure.
FUEL: All grades available.
FIRE PRECAUTIONS: Standard fire and safety precautions throughout. U.S. Coast Guard regulations.
DEVELOPMENTS: It is planned to locate a heavy lift crane on the berth facility.
GANGWAY/DECK WATCHMEN: Ship provides own gangway watchmen.
OPENING/CLOSING HATCHES: By stevedores.
IDENTIFICATION CARDS: Required to go ashore.
CONSULS: Dominican Republic, France, tel. 832–4322. Others at San Juan.
REPAIRS: Call San Juan facilities where complete salvage equipment is available. Service to other ports of the island.
REPATRIATION: Arranged by ship's Agents.
AIRPORT: Maní Airport, 15 minutes from pier, served by regular airlines daily from Mayaguez to San Juan.
TIME: GMT minus 4 hours all year round.
HOLIDAYS: *New Year's Day (January 1st); Three Kings' Day (January 6th); De Hostos Birthday (January 11th); Washington's Birthday (February 22nd); Emancipation Day (March 22nd); *Good Friday; De Diego's Birthday (April 16th); Memorial Day (May 30th); *Independence Day (July 4th); Muñoz Rivera's Birthday (July 17th); *Constitution Day (July 25th); Barbosa's Birthday (July 27th); *Labour Day (September, first Monday); Columbus Day (October 12th); Veterans' Day (November 11th); Discovery of Puerto Rico (Novem-

ber 19th); *Thanksgiving Day (November, last Thursday); Elections Day (November, every 4 years); *Christmas Day (December 25th). Any holiday falling on Sunday is observed on the following Monday.
* No cargo operations on these dates.

POLICE/AMBULANCE/FIRE: Telephone numbers: Police, 343–2020, 832–2300; Ambulance, 832–0496, 832–3212; Fire, 343–2330, 832–2330.

TELEPHONES: Can be arranged by Puerto Rico Telephone Company.

SHORE LEAVE: Allowed.

AUTHORITY: Puerto Rico Ports Authority, Post Office Box 3272, Mayaguez, Puerto Rico 00708. Autorip, Mayaguez, P.R. Tel. 832–3590, 832–3375.

PONCE: 17.58 N. 66.39 W.

DOCUMENTS: If vessel staying less than 24 hours:
Crew List.
Stores List.
Cargo Manifests.
Crew Purchase List.
Valid Load-line Certificate.
Ship's Register.
Clearance from Previous Port.

Vessels working cargo: Two sets of documents to be prepared as follows:

Original:
1 copy of Inward Foreign Manifest (U.S. Customs Form 5727–A), Cargo for San Juan.
1 Stores List.
1 Crew Purchase List.
1 Passenger List (if any).
1 Crew List (U.S. Form I–418).
1 copy of Ship's in Transit Cargo Manifest.
Clearance from Last Port.

Duplicate:
Same as original except the in-transit Cargo Manifest.
If vessel has on board cargo for another American port, an extra copy of the original Cargo Manifest is required.
Crew members to declare individually all articles such as souvenirs, etc.

Agents require:
3 sets of Bills of Lading.
2 copies of Manifest (for San Juan only).
1 copy of Crew List.
1 copy of Stores List.
1 copy of Crew Purchases List.
1 copy of Narcotics List.
1 copy of Passengers List.

Certificates:
Valid Load-line Certificate.
Ship's Register.
U.S. Tonnage Tax Certificates (if any).

PILOTAGE: Port operations are under the supervision of the Captain of the Port and pilot services are available day and night.

ANCHORAGE: Harbour is protected from the prevailing Easterly trade winds by enclosing reefs. To the Southward the harbour is exposed and for this reason is not safe in a hurricane.

RESTRICTIONS: Depths: Entrance channel 36 ft.; turning basin, 31 ft.; anchorage, 40 ft.

BERTHING: The municipal pier is a concrete and steel construction 430 ft. long by 100 ft. wide, with a steel and cement transit shed The municipality has also built a concrete bulkhead wharf extending Easterly from the pier. To the North of the bulkhead wharf there is a manoeuvring basin 30 ft. deep. Depth alongside: Pier 1A, 30 ft.; Pier 2, 29 ft. 6 in.; Pier 3, 30 ft.; Pier 4, 30 ft.; Pier 5, East-side, 33 ft.; Pier 5, West side, 32 ft.

FRESH WATER: Water is available whenever ordered in advance for 24 hour daily service or at request during office hours.

FUEL: Available by pipe-line: (Texaco only) diesel, gas oil, No. 6 fuel oil. By trucks (Chevron, Shell, Esso).

MEDICAL: Ambulance permanently available at dock area, hospital and doctors service available as requested to the Agent.

CONSULS:

Columbia	Holland
Denmark	Panama
Dominican Republic	Spain
France	Sweden
Honduras	Switzerland

REPATRIATION: Arranged by ship's Agents.

TIME: GMT minus 4 hours.

HOLIDAYS: *New Year's Day (January 1st); Three Kings' Day (January 6th); De Hostos Birthday (January 11th); Washington's Birthday (February 22nd); Emancipation Day (March 22nd); *Good Friday; De Diego's Birthday (April 16th); Memorial Day (May 30th); *Independence Day (July 4th); Muñoz Rivera's Birthday (July 17th); *Constitution Day (July 25th); Barbosa's Birthday (July 27th); *Labour Day (September, first Monday); Columbus Day (October 12th); Veteran's Day (November 11th); Discovery of Puerto Rico (November 19th); *Thanksgiving Day (November, last Thursday); Elections Day (November, every 4 years); *Christmas Day (December 25th). Any holiday falling on Sunday is observed on the following Monday.
* No cargo operations on these dates.

AUTHORITY: Puerto Rico Ports Authority.

SAN JUAN: 18.28 N. 66.07 W.

DOCUMENTS: If vessel staying less than 24 hours:
Crew List.
Stores List.
Cargo Manifests.
Crew Purchase List.
Valid Load-line Certificate.
Ship's Register.
Clearance from Previous Port.

Vessels working cargo. Two sets of documents to be prepared as follows:

Original:
1 copy of Inward Foreign Manifest (U.S. Customs Form 5727–A), Cargo for San Juan.
1 Stores List.
1 Crew Purchase List.
1 Passenger List (if any).
1 Crew List (U.S. Form I–418).
1 copy of Ship's in Transit Cargo Manifest.
Clearance from Last Port.

Duplicate:
Same as original except the in-transit Cargo Manifest.
If vessel has on board cargo for another American port, an extra copy of the original Cargo Manifest is required.
Crew members to declare individually all articles such as souvenirs, etc.

Agents require:
3 sets of Bills of Lading.
2 copies of Manifest (for San Juan only).
1 copy of Crew List.
1 copy of Stores List.
1 copy of Crew Purchases List.
1 copy of Narcotics List.
1 copy of Passengers List.

Certificates:
Valid Load-line Certificate.
Ship's Register.
U.S. Tonnage Tax Certificates (if any).

PILOTAGE: Compulsory. Ships Agents must make arrangements with pilot station well in advance – not less than 24 hours – of arrival of vessel at harbour entrance. Pilot boats are painted black (hull) and white (topside). Show the letter "P" on each bow. Pilots board three miles offshore of sea buoy. Call pilot station on Channel 16 VHF. There is no inner anchorage for incoming vessels to wait for the Pilot.

ANCHORAGES: Deep draft anchorage "E", on the South-west shore of Isla Grande, is for vessels awaiting Customs or quarantine, and no vessel shall remain more than 24 hours without a permit from the Commonwealth and U.S. Coast Guard Captains of the Port. Restricted Anchorage "F" (Fox), shoreward of the West margin of Anegado Channel, is for vessels discharging explosives. No vessel shall anchor without a permit from the Captain of the Port. Anchorage "D", East end of San Antonio Channel, is for yachts, schooners and small craft.

RESTRICTIONS: Besides the harbour entrance channel (Bar Channel) and the main ship channel (Anegado Channel) with depths of 42 ft. and 36 ft., respectively, there are three other navigable channels in the inner harbour:

The Army Terminal Channel is approximately 1 mile long and 300 ft. wide, with an average depth of 36 ft.

The Puerto Nuebo Channel, approximately 1 mile long and 300 ft. wide. with an average depth of 32 ft.

The Graving Dock Channel, approximately 1 mile long, 300 ft. wide, an average depth of 30 ft.

MAX. SIZE: Cargo vessels 750 ft. in length call regularly at the Port of San Juan. Channel to tanker's berth, 36 ft.

RADIO: Radio communication to all points, including ships at sea, is available through commercial systems. Cables-Telex via RCA Communications, Inc., a global service of Radio Corporation of America, tel. 723–6170, San Juan, Puerto Rico.

TUGS: The Puerto Rico Lighterage Company, tel. 723–6164, and Port San Juan Towing Company, tel. 724–2350, operate a fleet of tug-boats. Tugs join vessel just inside harbour entrance.

BERTHING: All vessels must request and obtain well in advance before arrival a berthing permit from the Ports Authority.

Pier 1. Finger pier, two berths; 500 ft. long, 100 ft. wide; general cargo pier.

Pier 3. East of Pier 1. Tourist ships terminal. Double deck finger pier, 630 ft. long, 90 ft. wide; 35 ft. depth alongside.

Piers 6 to 15. General cargo berths.

Isla Grande Terminal. 1,500 ft. wharf, 30 ft. depth alongside.

Seatrain Lines Terminal. 600 ft. berth, 30 ft. depth alongside.

Puerto Nuevo Docks. Two 500 ft. berths, 30 ft. depth alongside.

Trailership Terminals. Four berths, 30 ft. depth alongside.

STEVEDORES: Arranged by the ship's Agents.

MEDICAL: Medical attendance and services are available for seamen at the United States Marine Hospital in San Juan (outpatients). The Presbyterian Hospital handles internal cases.

TANKERS: Caribbean Oil Refinery pile clusters berth, maximum permitted draft, 35 ft.; Navy Oil Pier, maximum permitted draft, 29 ft.

FUEL: Served in barges either alongside the vessel at the pier or at anchor. Other combustible liquids are delivered in tank trucks by Shell, Esso and Texaco.

FRESH WATER: Most of the piers have adequate installations to supply water.

REPAIRS: Abarca Dry Dock and Marine Terminals handles dry docking and major vessel's repairs. Stateside Shipyard and Marina, at Isla Grande, and Vaello Shipyard at La Puntilla, Catano, operate marine railways for dry-docking and repairs of small vessels. The Puerto Rico Lighterage Company handles minor ship repairs.
DEVELOPMENTS: Two additional trailership berths are under construction at the Puerto Nuevo port sector.
GANGWAY/DECK WATCHMEN: Ship provides own gangway watchmen.
OPENING/CLOSING HATCHES: By stevedores.
IDENTIFICATION CARDS: Required to go ashore.

Qatar

HALUL ISLAND: 25.38.55 N. 52.25.33 E.

Halul Terminal S.B.M.

Qatar national flag should be flown during hours of daylight.
DOCUMENTS: Master required provide 2 copies of crew list and show Light Dues receipt. All other necessary papers will be supplied on arrival, by Berthing Master.
PILOTAGE: Berthing Master will board incoming vessels about 1 mile Westward or Eastward of the S.B.M. depending on weather conditions. Masters requested provide a good lee for the launch to facilitate boarding of Berthing Master and the lifting on board of equipment.
The regulation pilot ladder should be rigged well aft on port side. Tankers of 70,000 tons dead weight class and above that are not equipped with an overside pilot hoist should rig a combination of pilot and accommodation ladder.
ANCHORAGE: To Westward of Halul Island centred in a position with Halul Lighthouse bearing 090°×1·5 miles. Depth about 70 ft. and bottom is sand.
MAX. SIZE: Depth of water over 60 ft.
HEALTH: If sickness on board, details should be included in ETA message. No Doctor on Halul. In emergencies the services or advice of Company's Medical Officer based in Doha may be obtained. If Medical Officer or patient has to be flown to or from Doha, the tanker concerned will be charged for helicopter hire. Round trip is approx. £80.
RADIO: Vessels should establish communications with Shell Company of Qatar Ltd., Doha, at least 48 hours before arrival Halul Terminal, giving ETA local time and quantity of cargo required in long tons. Message to "Shell Qatar Doha" via Bahrein Radio. Any changes in ETA should be passed via Bahrain Radio, or if within range, through station 2AA (see below).
A private radio station, call sign "2AA", operated by Shell Company of Qatar Ltd., situated in position 25° 17′ 12″ N. 51° 34′ 39″ E. A continuous listening watch maintained on 500 kHz. Incoming tankers should listen for the 2AA traffic list which is transmitted on 438 kHz at 0400, 0800, 1200 and 1600 hours GMT after first calling on 500 kHz. Other details shown in Admiralty List of Radio Stations Volume 1.
A standard information cable is passed to all incoming tankers by station 2AA.
Ship's radio station must not be used while tanker moored to SBM.
VHF: A VHF station on Halul Island, call sign "Halul Control", maintains a continuous watch on the International Marine Band, Channel 6. The station has a range of approximately 50 miles and incoming tankers should establish communications with this station as soon as possible. Ship-to-shore communication during loading is by portable VHF Radio telephone provide by the terminal.
TUGS: Not available.
BERTHING: Approach is from the open sea, usually passing to Northward of the island. There is 1 single buoy mooring with two 810 ft. floating hose strings. Vessels berth head on the buoy. Two 12 in. 150 ft. nylon lines from buoy are secured on forecastle head, using equipment provided by terminal. A suitable messenger rope should be ready for use. No moorings are used aft. The Berthing Master will advise in detail the mooring procedure.
Hose connections amidships 2×16 in. hoses. Hose derrick should be rigged to lift at least five tons and 2×16 in. reducers fitted on port side only. Hose connection carried out by ship's personnel with advice from Berthing Master.
Shore line is 1×30 in. submarine pipe-line, 2×16 in. floating hose strings for direct connection to ship's manifold.
Tankers not permitted to immobilise main engines or auxiliaries whilst moored to the SBM.
DENSITY: At berth, 1028/1030 (approx.).
CARGO: Flash point: Flash point of Qatar crude is below 32 degrees Fahrenheit.
H_2S content: Qatar marine crude contains concentrations of H_2S (sulphuretted hydrogen). This is an evil-smelling poisonous gas which can be lethal depending on concentration of gas in the air inhaled. It can be detected normally by smell, but unfortunately a high concentration of the gas rapidly paralyses sense of smell and may lead to a false sense of security. It is, therefore, important that when the presence of the gas is detected the area or compartment concerned must be left with all possible despatch until adequate ventilation can be carried out. *The explosimeter will not detect this type of gas.* The under-noted precautions have been evolved as necessary to provide against a possible accident.
(*a*) During loading gas should only be allowed to escape via the agreed venting arrangements.
(*b*) When ullaging tanks, personnel should keep to windward of the tank opening and avoid breathing fumes as much as possible. If H_2S is inadvertently inhaled the man should leave the area and not return until his sense of smell has been restored.
(*c*) No one should enter any pump room or any compartment where gas could collect unless another person is standing by.
(*d*) Lifelines, breathing apparatus and resuscitator should be readily available.
(*e*) As a precautionary measure, the gas ejector for the pump room should be put into operation at any time entry is made into this space whilst the possibility of H_2S gas entering pump room from cargo or empty tanks exists.
FRESH WATER: Not available.
FUEL: Not available.
REPAIRS/STORES/LAUNDRY: Not available.
TANK CLEANING: No facilities available and ships must arrive with clean ballast, lines and pumps.
CUSTOMS: Trading in liquor is *strictly* prohibited and no alcoholic drink should be offered to Arab nationals.
TIME: Local time GMT plus 4 hours.
SHORE LEAVE: Not Permitted.
AGENT: The Shell Company of Qatar Ltd., PO Box 47, Doha, Qatar, Arabian Gulf. Telegraphic address: "Shell Qatar Doha".

UMM SAID: 24.54 N. 51.34 E.

When vessel enters port waters in ballast, the ballast water for overside discharge must be clean and a declaration signed by Master and delivered to representative of the terminal. Ashes, oil, oily water or other refuse must not be discharged overboard in port waters. Vessel's scuppers must be effectively plugged and leakage or spillage of oil aboard ship must not be swept or washed overboard whilst in port waters.
DOCUMENTS:
Health Declaration.
Crew Lists,
Light Dues Receipt.
Other necessary papers supplied on arrival.
APPROACHES:
Depths. In Outer Channel there are at least depths of 37 ft. in vicinity of Nos. 1 and 2 buoys, 3 and 4 buoys and Nos. 9 and 10 buoys. Between Outer and Inner Channel, depth varies from 40 ft. at Nos. 11 and 12 Outer Channel buoys through 72 and 78 ft. between S.E. Arrif and S. Arrif buoys to 47 ft. close to No. 1 Inner Channel buoy. In Inner Channel, least depth is 38 ft. between Nos. 3 and 4 Inner Channel buoys.
From Inner Channel to anchorage, depths vary from 43 ft. between Channel and Turning buoy to 48 ft. at anchorage.
Tides. Tides in this area have large diurnal component and at times there is only one high water and one low water in twenty-four hours. This irregularity is more pronounced at Umm Said than at Outer Channel entrance for which predictions are made.
In December the higher high water, or the only high water during periods of single day tides, occurs between 5 a.m. and 2 p.m.; in March between 10 p.m. and 9 a.m.; on June between 6 p.m. and 1 a.m. and in September between 9 a.m. and 9 p.m.
At Umm Said there are a few days in the year when tide does not rise above 5 ft. and there are considerable periods each day when predicted height of tide is greater than 3 ft. In vicinity of Nos. 3 and 4 Inner Channel buoys, high water occurs about 1 hour after high water at Outer Channel entrance and rise of tide is slightly more than at Outer Channel entrance. Higher high water is normally 5 ft. or better, rising to 8 ft. at exceptional Springs.

Meteorological conditions may affect all the above tides by +2 ft.

Tidal Streams. In general, flood stream sets to South south west and ebb stream to North north-east, the rate being up to two knots at Springs.

Cross sets will consequently be experienced in the channel, more particularly in Northern part of Outer Channel, between Outer Channel and S.E. Arrif buoy and between S. Arrif buoy and the Turning buoy. Outer Channel entrance stream continues to set to Southward for some time after tide has started to fall.

PILOTAGE:

Inward: Except on special request Pilots are not provided for the inward passage. Vessels should proceed to Eastern Anchorage, having first received clearance from Umm Said Terminal to enter channel. This is to ensure that all outward bound vessels are aware of traffic movements in channel.

Outward: Pilots will be disembarked off Wakrah light buoy.

N.B. It is requested that tankers of 40,000 dwt and over should have rigged, when in light condition, an accommodation ladder lowered to about 12 ft. above the water. This can be adjusted to suit conditions. A pilot ladder should be rigged immediately abaft the accommodation ladder, to within 2 ft. above the water. This will enable Pilot to ascend pilot ladder clear of launch, and then step on to lower platform of accommodation ladder.

ANCHORAGE: Eastern Anchorage. Depth 48 ft.

MAX. SIZE: Draft of laden tankers leaving Umm Said controlled by depth at outer end of Outer Channel. This is 37 ft. below Chart Datum and Zero of Predictions. Tide rarely falls below 1 ft. above datum, so that there is always 38 ft. or more in the channel.

Even under worst weather conditions there is no appreciable movement on larger ships in Outer Channel. As deep-draft vessels always reduce speed between Nos. 3 and 4 Inner Buoys and in Outer Channel, there is very little "draw down" and an allowance of 3 ft. under the keel for safety is considered adequate. Deep-draft vessels should endeavour to pass between Nos. 1 and 2 Outer buoys at higher high water for the Outer Channel entrance.

In general, limitations are as follows:

(*a*) Ships drawing 35 ft. or less can sail at any time on any day.
(*b*) Ships drawing 36 ft. will rarely have to use tides.
(*c*) Ships drawing 37 ft. will usually have to use tides.
(*d*) Ships drawing 38 ft. always have to use tides.
(*e*) Ships drawing 39 ft. will occasionally be neaped.
(*f*) Ships drawing 40 ft. will be neaped 120 days+a year. The best months are April to August.
(*g*) Ships drawing 41 ft. can sail occasionally. The best months are June and July.
(*h*) Ships drawing 42 ft. are not worth programming as on the few days when predictions indicate they could sail, meteorological conditions may well cut the tides.

HEALTH: (Quarantine and Medical Clearance). The Medical Officer of Qatar Petroleum Company Ltd. will carry out these duties. No fees are payable. Medical attention to Masters and crews of ships arranged by Qatar Petroleum Company's Medical Officer when asked for by Master.

RADIO: Vessels are requested to inform QPC Limited by cable of ETA Hul light buoy 48 hours prior to arrival. It should be clearly indicated whether times quoted are Greenwich Mean Time or Local Time. Also state quantity of cargo, in long tons, and maximum loading rate required. Cables should be addressed "Petroqat, Doha", and passed via Bahrain Coast Radio Station.

When advising ETA ships must state last port of call and if there is any sickness on board. If last port of call Bahrain or Ras Tanura, the port previous to them must be stated.

VHF: Tanker VHF Radio Communications. Terminal equipped operate on six channels of International Maritime Mobile Radio Telephone Service as follows:

Channel No.	*Transmit frequency mc/s.*	*Receive frequency mc/s.*
1	156·05	156·05
9	156·45	156·45
11	156·55	156·55
12	156·60	156·60
14	156·70	156·70
16	156·80	156·80

Continuous listening maintained on Channels 16 and 14, call sign being "Umm Said" and range of station approximately 50 miles.

TUGS: No tug available.

BERTHING: Pilots act in same capacity as Mooring Masters in the berthing, after which they supervise raising of flexible hoses and connection to ship's manifold. During loading operation they act as company's representatives.

Mooring, loading and unmooring carried out night and day and necessary standards of safety can only be maintained if vessels have equipment suited to terminal requirements.

Vessels moored at sea-line berths by ship's anchors and mooring buoys. Following equipment should be carried:

(*a*) Port and starboard anchors to be fitted with marker buoys and sufficient line.
(*b*) Two good boat ropes 4½ in. circ., at least 200 ft. long.
(*c*) A good line by the pilot ladder for hauling on board equipment such as hose clamps, wrenches, reducers and elbows.
(*d*) Four good mooring lines aft of a suitable size for the vessel on which they are used. Each line should consist of 120 fathom hawser, tailed by a similar hawser and ready to run out if required.
(*e*) Two good mooring lines forward similar to the after lines for use on breast buoy if necessary.
(*f*) Two good rope stoppers to be available forward. Four good rope stoppers to be available aft.
(*g*) Derricks or cranes reaching over hose connection should be capable of lifting flexible hose from sea-bed to a height of up to 30 ft. above deck.
Derricks should have a safe working load of 10 tons in order to lift 12 in. hose strings.
(*h*) Reducers or adaptors to be bolted to ship's flanges, so as to take 12 in. hose.

Note. Where a vessel has two or more loading connections, the ship's flanges should not be less than 4 ft. apart.

Sea-Line Berths.

Berth	*Maximum tph*	*Fixed sea-line*		*Strings of flexible hoses*	
North	4,100	Two	16″	Two	12″
South	4,300	One	24″	Two	12″

Depth of Water at Berth. Available depth of water at seaward end of sea line is as follows: North Berth 41 ft. South Berth 44 ft.

An allowance of 3 ft. for North Berth and 8 ft. for South Berth has been made for height of the sea-line end cradle above the sea bed.

CARGO:

1. Flash Point. Flash point of Qatar crude is below 32 degrees Fahrenheit.

2. H_2S Content. Qatar crude contains concentrations of H_2S (sulphuretted hydrogen). This is an evil-smelling poisonous gas which can be lethal depending on concentration of gas in the air inhaled. It can be detected normally by smell, but unfortunately a high concentration of the gas rapidly paralyses sense of smell and may lead to a false sense of security. It is, therefore, important that when the presence of the gas is detected the area or compartment concerned must be left with all possible despatch until adequate ventilation can be carried out. *The explosimeter will not detect this type of gas.* The under-noted precautions have been evolved as necessary to provide against a possible accident.

(*a*) During loading gas should only be allowed to escape via the agreed venting arrangements.
(*b*) When ullaging tanks, personnel should keep to windward of the tank opening and avoid breathing fumes as much as possible. If H_2S is inadvertently inhaled the man should leave the area and not return until his sense of smell has been restored.
(*c*) No one should enter any pump room or any compartment when gas could collect unless another person is standing by.
(*d*) Lifelines, breathing apparatus and resuscitator should be readily available.
(*e*) As a precautionary measure, the gas ejector for the pump room should be put into operation at any time entry is made into this space whilst the possibility of H_2S gas entering pump room from cargo or empty tanks exists.

LOADING:

(*a*) *Readiness.* Notice of Readiness will be received by Company Representative provided vessel ready to load. Lay time will commence six hours after receipt of Notice of Readiness, berth or no berth. The Company will make every effort to load tanker on arrival provided berth available and weather permitting.

Advice from vessel which states she is ready to receive cargo is considered as final, and as indicating that every operation necessary aboard vessel has been completed. As soon a possible after such a signal has been received, and without further advice, loading will commence. Damage to hoses can occur if ship's valves are not open at the start of loading.

(*b*) *Pipelines.* Each berth connected to shore installation by one or two submarine pipelines. The seaward ends of pipelines terminate in 12 in. flexible hoses, there being two such strings of hoses at each berth.

A mooring barge is available to assist ships to raise hoses from sea bed and connect up.

(*c*) *Tank Dips.* When loading, dips shall be taken frequently of vessel's tanks, thereby preventing loss of oil through a leaking hose. This particularly applies at night, as seepage of oil is practically invisible on the water during darkness. Inspection of vessel's tanks will be made before loading commences by a ship's officer and a representative of the Terminal. Opening dips and closing ullages will be taken and the quantity of cargo calculated. Particular care must be exercised by ship's personnel, towards completion of loading, in the "topping-off" of tanks to ensure that Terminal given timely advice of any decrease in pumping rate required. Adequate "Stand-by" notice should be given before the final "Stop".

(*d*) *Loading Pumps.* Cargo is loaded with two 1,200 h.p. pumps. Sudden shutting of valves or asking for pumps to be stopped whilst loading at full speed can cause pressure surges throughout pipe system. This has caused breakage in the lines and consequent loss of large quantities of oil with the serious risk of fire. Should a pressure surge occur causing damage to flexible hoses connected to vessel you can imagine the risk with large quantities of crude oil on the decks and in the surrounding sea. In order to avoid any possibility of this, please ensure that 15 minutes notice of requiring to stop pumping be given and that *slow speed* be asked for at this time.

(*e*) *Ballast.*
(*a*) Essential that vessel is adequately ballasted to ensure safe handling and manoeuvring. Please comply with Mooring Master's requests as to ballast quantity and disposition.
(*b*) Umm Said is an open roadstead and subject to sudden changes in weather. On occasions it is of great advantage to commence loading whilst discharging ballast or prior to completely deballasting to avoid having the vessel in a flying light condition.
(*c*) No cleaning of boiler tubes whilst ship is in port.

(*d*) All pump-room seacocks must be closed before commencement of loading.

FUEL: Bunkers not available. A vessel proceeding to a nearby bunkering port should repeat ETA to Qatar Petroleum Company Ltd. for information. If Qatar Petroleum Company Ltd. have sufficient information concerning expected arrivals, taking into consideration time taken to bunker, they will advise Masters when they consider that probable delay at Umm Said can be avoided by the vessel loading cargo before proceeding to the bunkering port. A similar request may be made in exceptional circumstances when there is a possibility that unduly large stocks of oil may necessitate shutting down the field.

WATER STORES: Not available.

LIQUOR: The State Laws of Qatar are very strict about import of liquor and its consumption both on mainland and on vessels in harbour. No employee, whether senior or junior, is permitted to import any liquor direct or to bring any liquor ashore from vessels, and under no circumstances should liquor be offered for consumption on vessel to any company employee unless he is of staff status. At the present time vessels enjoy the privilege of not having to seal liquor stocks whilst in port, but this privilege would be withdrawn if above rules not strictly observed.

DERATISATION: No facilities.

DISCHARGE CERTIFICATE: The Master of every vessel loading at Umm Said is handed a Discharge Certificate for completion by the Customs or Port Authority at port of discharge and return by air mail to the Director of Customs Government of Qatar. Doha, within *three* months of sailing from Umm Said. It must be emphasised that failure to comply with this requirement may result in delay or even boycott of the vessel upon return to Qatar. It is therefore in best interest to ensure that Agent at port of discharge attends to despatch of this certificate with least possible delay and by *airmail.*

OUTWARD PASSAGE: Same track is followed as for inward passage. Speed must be reduced before rounding the Turning buoy and passage of Inner Channel must be made at slow speed to avoid increase of draft due to "draw down" or heel under helm". Outer Channel should also be taken at moderate speed to avoid "draw down" and "canal action" when passing close to shoal patches.

AGENT: Agency carried out by Qatar Petroleum Company Ltd. Telegraphic address, "Petroqat" Doha. Postal address, Qatar Petroleum Company Ltd., PO Umm Said, Qatar, Arabian Gulf.

Reunion Island

POINTE DES GALETS: 20.55 S. 55.18 E.

PILOTAGE: Pilot is normally ordered by the ship's Agent, or in particular cases by the Harbour Master if contacted by VHF beforehand. Pilot launch carries regulation pilot signals. Pilot boards at the entrance to the port about 1 mile from the breakwaters.

ANCHORAGE: There are 3 anchorages in the roads near the port.

(*a*) In Baie de St. Paul in depths of about 40 metres, well marked and safe except in very strong swell.

(*b*) South of the port entrance in the immediate approaches, depths of 40 metres, only used in fine weather and calm sea.

(*c*) In roads of La Possession unmarked anchorage and little used.

If vessel requires a Pilot for anchoring, then anchorage dues are incurred. Vessels anchoring by their own means do not incur charges.

RESTRICTIONS: Entering port in daylight only. Before berthing vessels swing in the outer port using starboard anchor.

MAX. SIZE: Length, 160 metres; draft, 9 metres. After July, 1971, port will be able to accept vessels up to 175 metres length.

RADIO: Saint Denis Radio. Harbour Master's Office equipped with VHF.

TUGS: Only used to assist vessel manoeuvring in the port. Tugs join vessel in outer harbour. Ship's lines always used.

BERTHING: Berth assigned by Harbour Master, basis vessel's length and draft. Tankers berth in the outer harbour at dolphin berth. No slop facilities.

DENSITY: 1025.

FRESH WATER: Available by pipe-line at the quays. Rate 10 tons per hour. Cost 2.50 F.F. per ton. Not available at tanker berth.

FUEL: Bunkers expected to be available after July 1971.

MEDICAL: Doctor and hospital facilities available.

WATCHMEN: Not necessary.

OPENING/CLOSING HATCHES: Normally performed by ship's crew.

REPAIRS: Only minor repairs can be effected.

REPATRIATION: All facilities available for crew change and repatriation.

AIRPORT: 30 kilometres away, daily connections to Africa and Europe.

TIME: GMT plus 4 hours. No alterations during the year.

HOLIDAYS: Same as for "France".

SHORE LEAVE: Crew are allowed to go ashore.

AUTHORITY: Capitain du Port.

Romania

CONSTANTZA: 44.12 N. 28.41 E.

DOCUMENTS: As soon as vessel is boarded by the border control commission, the Master fills in a form of declaration in 4 copies, which together with Stowage Plan, Cargo Manifests, Sanitary Certificates, is handed to representative of the Agency. Also following documents are to be handed over at Harbour Master's Office:

Derating Certificate.
Certificate of Nationality.
Tonnage Certificate.
Safety Equipment Certificate.
Load-line Certificate.
Safety Radio-telegraph Equipment Certificate.

Crew Lists and Passengers Lists must be typed in several copies (up to 7).

PILOTAGE: Upon arrival in roads, a cable must be sent through radio coast station to Agent, stating hour of arrival and asking for Pilot. If entrance is not possible immediately due congestion Agent will call back the vessel advising when Pilot may board near the port entrance in order to berth vessel.

MINEFIELDS: Danger Area Nr. 3B (Constantza South). The area enclosed by the coast and by lines joining the following positions:

(*a*) 44° 09′ 81″ N. 28° 38′ 25″ E. (*b*) 44° 08′ 99″ N. 28° 39′ 96″ E.
(*c*) 44° 08′ 50″ N. 28° 39′ 96″ E. (*d*) 44° 08′ 50″ N. 28° 54′ 01″ E.
(*e*) 44° 00′ 17″ N. 28° 54′ 01″ E. (*f*) 44° 00′ 17″ N. 28° 39′ 88″ E.

Danger Area Nr. 3A (Constantza North). The area enclosed by the coast and by lines joining the following positions:

(*a*) 44° 21′ 79″ N. 28° 41′ 10″ E. (*b*) 44° 21′ 79″ N. 28° 52′ 69″ E.
(*c*) 44° 21′ 14″ N. 28° 54′ 01″ E. (*d*) 44° 10′ 19″ N. 28° 54′ 01″ E.
(*e*) 44° 10′ 19″ N. 28° 42′ 18″ E. (*f*) 44° 10′ 48″ N. 28° 42′ 16″ E.
(*g*) 44° 10′ 99″ N. 28° 40′ 76″ E. (*h*) 44° 09′ 77″ N. 28° 39′ 55″ E.

ANCHORAGE: Anchorage areas in Constantza roads are just near the new port works in an area up to 44 ft. depth. Length and breadth have no special restrictions. Actual official permitted draft for tankers 30·6 ft. will be soon improved in new tanker berths. Constantza anchorage – East approach Nr. 2. Approach is between limits of Danger Areas Nos. 3B and 3A. Width 1·7 miles, length 15·3 miles, direction 270°–90°. Centre line joins following positions.

C1: 44° 09′ 35″ N. 29° 02′ 20″ E. At 17·5 miles on bearing 91° 12′ from Constantza main lighthouse (nr. 1·5).

C2: 44° 09′ 35″ N. 28° 41′ 00″ E. At 2·25 miles on bearing 99° 12′ from Constantza main lighthouse (nr. 1·5).

On this approach non-degaussed vessels with max. draft 12 metres may navigate.

TUGS: Tugs normally join vessel near port entrance assisting them until berthing.

RADIO: Constantza coast radio station, call sign YQ1, frequency 462 kc/s. Operation – daily starting at 0650, 1250 and 1850 GMT.

MEDICAL: Crew members are offered medical assistance on Monday, Wednesday and Friday between 0900 and 1200 a.m., and on Tuesday, Thursday and Saturday between 1300 and 1700 hours.

WATCHMEN: Watchmen recommended for special general cargoes. Cost will be arranged through Agent.

CUSTOMS ALLOWANCES: Small quantity permitted for each crew member out of bond but may be renewed if vessel stays longer in port.

REPAIRS: Largest dry dock in Constantza has 15,000 tons lifting capacity, second dock up to 8,000 tons.

TIME: Local time is GMT plus 2 hours.

HOLIDAYS: Official holidays in Romania: New Year's Days (1st and 2nd January); Easter Orthodox Monday (April); Labourer's Days (1st and 2nd May); Liberation Days (23rd and 24th August); Anniversary of Socialist Revolution (7th and 8th November); Christmas (25th and 26th December); Proclamation of the Republic (30th December).

STEVEDORES: Working hours 0800–1700 and 2000–0500. Saturday afternoons, afternoon of days before holidays, Monday mornings and days after holidays until 0800 usually exempted in C/P although work may be effected. Loading and discharging are generally effected by shippers and receivers, respectively at their own expense and they may work also on holidays, Sunday and Saturday afternoons, no overtime expenses being charged to the vessel for shore labourers but without payment of overtime to vessel's crew and without counting the time.

SHORE LEAVE: On completion of border inspection, crew can go ashore taking their Seaman's Books (or Passports) and the permits they receive from the soldier at the gangway. The permits must be returned to soldier upon coming back on board. In the event that crew members desire to visit another place outside Constantza they shall inform Agent.

GENERAL: From the time a vessel enters the territorial waters of Romania until she leaves the respective zone, i.e. 12 miles, it is compulsory to fly the Romanian flag. Ships that call at Constantza for the first time and have not got the Romanian flag on board must have it ordered through the Agent immediately upon berthing.

AGENT: Navlomar Shipping Agencies, Telex 014–259. Cables "Navlomar Constantza".

SULINA (including Galatz and Braila): 45.09 N. 29.39 E.

DOCUMENTS: Within maximum 1 hr. from fulfilment of arrival formalities the Master or Chief Mate reports at the Harbour Master's Office where he hands the following documents:

Certificate of Nationality.
Tonnage Certificate.
Safety Equipment Certificate.
Load-line Certificate.
Safety Radio-telegraphy Equipment Certificate.
Safety Construction Certificate.
Cargo Gear Certificate.

The above certificates are to be valid and not to expire before ship's sailing the port, Load-line Certificate and Cargo Gear Certificate not to be older than 12 months, and same remain with the Harbour Master until ship's departure when returned through the representative of the Agency that accompanies the Control Commission on departure.

PILOTAGE: Notice of arrival to pilot station at Sulina is to be sent in due time through Navlomar Sulina.

Sulina – South-east approach nr. 5. Width 1·6 miles. Length 7 miles. Direction 146°–326°. Centre line joins the following positions:

S1: 45° 03′ 01″ N., 29° 53′ 4″ E. At 11·5 miles on bearing 124° 24′ from Sulina Lighthouse (nr. 1.20).

S2: 45° 08′ 9″ N., 29° 47′ 9″ E. At 5·75 miles on bearing 95° 42′ from Sulina lighthouse (nr. 1.20).

Thence on the Nr. 01 Sulina black light and whistle buoy, and afterwards on the line of Sulina Entrance leading lights (301° 12′) into Sulina Channel and so to harbour. On this approach non-degaussed vessels with maximum draft 7 metres may navigate.

The port of Galatz is situated on the left side of the Danube 79 miles from the Black Sea.

RESTRICTIONS: Vessels calling at Danube ports are obliged to wait in roadstead of Sulina, at least one mile away from the black buoy (a black floating cylinder marked 01 in white, which is lighted at night by green flashing light). All vessels both entering and going out of Sulina channel as well as during navigation in the channel and Danube, are obliged to have on board a Danube Administration Pilot. As a rule, entering and leaving the Sulina channel, as well as navigation in the channel, is prohibited after night-fall.

MAX. SIZE: The draft at Sulina bar is 23 ft. passable. Any other changes of official draft are broadcast daily, at 11.50 hours on 1935 metres, long wave.

MINEFIELD: Danger Area nr. 7 A (Sulina). The area enclosed by the coast and by lines joining the following positions:

(*a*) 45° 13′ 27″ N. 29° 40′ 42″ E. (*b*) 45° 11′ 77″ N. 29° 41′ 42″ E.
(*c*) 45° 09′ 17″ N. 29° 57′ 22″ E. (*d*) 45° 07′ 37″ N. 29° 57′ 22″ E.
(*e*) 40° 03′ 07″ N. 29° 54′ 82″ E. (*f*) 45° 03′ 07″ N. 29° 39′ 34″ E.

CLEARANCE: On arrival in Sulina harbour vessel has to stop to complete border and sanitary formalities and after vessel has completed same, with Danube Administration Pilot on board, proceed to destination. After the vessel has completed manoeuvring to come alongside berth, she is boarded by the sanitary commission. If the vessel has passed the sanitary inspection she is boarded by border control commission which includes a representative of the Agency, the latter assisting the Master in fulfilling arrival formalities and facilitating meeting of any requirements on ship's part. The Master fills in a form of declaration in 3 copies which together with the Stowage, Plan, Cargo Manifest, etc., are handed to representative of the Agency upon his leaving ship. A supplementary declaration is to be completed by the Master, stating: 1. Who supports disbursements expenses (name, mail address, telegraphic address, number of telex). 2. Who supports the supplies of bunkers, provisions other services, etc. (name, mail address, telegraphic address, number of telex).

RADIO: Constantza – coast radio station. Call signal YQ1, frequency 462 kc/s. Operation daily, starting with 0650, 1250 and 1850 GMT. Contents of transmission: meteorological and navigation notices. Weather forecasts are broadcast in clear English or codified; radio notices to mariners and navigation warnings are broadcast in Romanian, Russian, and English.

BERTHING: After arrival in Galatz roads and port Pilot boarded, the berthing of the vessel is done as ordered by the Port Authorities according to the possibilities of operation (loading/discharging) and to the availability of berths.

MEDICAL: Crew members are offered medical assistance if necessary when the Master requests, and they have to come at the Agency Office between 08.00 and 09.00 a.m. every day, except Sundays and holidays.

STEVEDORES: Working hours: 0700–1500 and 1500–2300 hours.

CUSTOMS ALLOWANCES: For releasing cigarettes from Customs seal it is necessary to notify the Agent who, in turn, will arrange with the Customs House. Attention is drawn to the fact that bringing into or taking Romanian currency out of the country is prohibited. According to requirements of crew, the Master gets from Agent any sum of Romanian currency. The respective sum is charged in the disbursements account at lei 18 = U.S. $1. (official exchange rate+200% premium granted to seamen). Before departure from port the Master is obliged to return to Agent the sums of Romanian currency unspent against receipt. The sums are returned in front of the representative of the Customs during the control for departure.

HATCHES: Opening and closing of the hatches is to be performed by crew whenever requested due to weather conditions.

CARGO GEAR: Rigging of derricks, the good working condition of the winches and derricks, are permanent obligations of the vessel according to requirements of working gangs, The hatch ways must be opened or closed to their full size. The removable beams or covers shall always be stowed on deck on the side where work is not being carried on, so that they may not hinder working gangs or cause accidents. During operations, the vessel is recommended to close the hatches with rain tents, ship's property, if bad weather. If cargo handling gear gets out of order during operations, the waiting time of workers is charged against vessel and such time lost for breakdown of winches not to count as laytime.

SHORE LEAVE: On completion of border inspection crew can go ashore taking their Seaman's Books (or Passports) and the permits they receive from the soldier at the gangway. The permits must be returned to the soldier upon coming back on board. In the event that crew members desire to visit another place out of Galatz they shall inform the Agent.

GENERAL: From the time a vessel enters the territorial waters of Romania until she leaves the respective zone, i.e. 12 miles, it is compulsory to fly the Romanian flag. Ships that call at Galatz for the first time and have not got the Romanian flag on board must have it ordered through the Agent immediately upon berthing at Sulina Harbour. Throwing garbage overboard or pumping out dirty ballast or bilge water is allowed only beyond the territorial waters of Romania. Non-observance of these rules may result in fines varying between 3,000 and 10,000 lei imposed by the Harbour Master.

AGENT: Navlomar Shipping Agency.
Galatz: 20, 13 Junie. Telex 225. Cables "Navlomar Galatz".
Braila: 2 Imparatul Traian. Telex 10. Cables "Navlomar Braila".

St. Lawrence Seaway

ST. LAWRENCE SEAWAY

DOCUMENTS: For Agent in Montreal, three unfreighted copies of Complete Manifest for Seaway Toll purposes covering all cargo to be discharged in the Great Lakes.

In first U.S. port, a "Traveller" is made up by the Customs Inspector with the following documents:

2 complete sets of U.S. Cargo Manifests, plus 6 copies for Agents.
1 set Manifest of Cargo for first U.S. port.
4 Stores Lists.
4 Personal Effects Lists.
4 Firearms and Ammunition Lists.
4 Crew Lists, Form I–418.
4 Narcotics Lists.
4 Vessel's Itinerary Lists.
Vessel's Registry and copies of Paid Tonnage Tax Certificates.
Health Pratique.
Clearance from previous port.
2 sets Bills of Lading.
3 copies Stowage Plan.

In subsequent U.S. ports the following are required:

5 sets Manifest of Cargo for that port.
The Traveller and Permit to Proceed issued in previous port.
2 Stores Lists.
2 Personal Effects Lists.
2 Firearms and Ammunition Lists.
2 Crew Lists.
2 Narcotics Lists.
2 sets Bills of Lading.
3 copies Stowage Plan.

PILOTAGE: The first pilot station when entering the St. Lawrence River is at Les Escoumins, 80 miles West of Father Point. This Pilot will take the ship to the Quebec pilot station 121 miles to the West. Off Quebec a new Pilot boards to take the ship to Trois Rivières, where there is another change of Pilot for the remaining trip to Montreal.

RESTRICTIONS: The average navigation season in the St. Lawrence River is from April 1st to December 20th.

Locks Nos. 1 to 7: length, 860 ft.; width, 80 ft.; depth, 30 ft.; channel depth, 27 ft.

Welland Canal Locks: No. 1: length, 865 ft.; width, 80 ft. Nos. 2 to 7: length 859 ft.; width, 80 ft. No. 8: length, 1,380 ft.; width, 80 ft.; channel depth, 27 ft.

St. Mary's River Locks: MacArthur: length, 800 ft.; width, 80 ft. Poe: length, 1,000 ft.; width, 100 ft. Davis: length, 1,350 ft.; width, 80 ft. Sabin: length, 1,350 ft.; width, 80 ft. Canadian: length, 900 ft.; width, 59 ft. Channel depth 27 ft.

Special Limits: Vessels maximum speed is limited in certain areas as follows: Locks Nos. 1 to 7, 7 knots; Welland Canal, 7 knots; Lower Detroit River, 12 knots; St. Clair River, 9 knots; St. Mary's River, 10 knots.

MAX. SIZE: Length, 730 ft.; beam, 75 ft. 6 in.; draft, 25 ft. 9 in. Masts must not exceed 117 ft. above water level.

HEALTH: All ocean-going vessels must obtain a free pratique before entering the Seaway. Vessels entering the Seaway direct may receive quarantine inspection and clearance from the Canadian authorities at Montreal while at anchor awaiting entrance to the Seaway.

RADIO: *Notice of Arrival.* Master must give at least 24 hours notice to Commander, 9th Coast Guard District, Cleveland, Ohio, of the vessel's ETA at Snell Lock. Also at least 24 hours notice of ETA at first U.S. discharge port is required.

Welland Canal: A vessel arriving at either calling- in point will call the Welland Canal Traffic Control Centre on Channel 16 (156·8 Mc/s) giving (*a*) name of vessel, and (*b*) position. Seaway Welland will acknowledge the call and request the vessel to shift to Channel 14 (156·7 Mc/s). The vessel will then shift to Channel 14 and give: (*c*) destination, (*d*) draft, fore and aft, and (*e*) cargo. If the vessel is called directly into the canal, she will be told to remain on Channel 14. If the vessel is not to come into the canal, she will be ordered to

anchor and instructed to guard Channel 16 until called in. Unless instructed otherwise, vessels will guard Channel 14 during their entire transit from calling-in point 15 to calling-in point 16, or vice versa, and all transmissions will take place on Channel 14.

Great Lakes: It is recommended that vessels within a radius of 35 miles of a shore station use their FM transmitting and receiving equipment to ensure better connections. This pertains especially to vessels at anchor or in the proximity of a port or berth.

Radio Stations: Buffalo, New York, marine operator. Port Burwell, Ontario, marine operator. Geneva, Ontario, marine operator. Loraine, Ohio, marine operator. Rogers City, Michigan, marine operator.

IDENTIFICATION CARDS: In the first U.S. port, the immigration officer requires an alphabetical crew list made up on Form I–418 and visaed by the American Consul in the last overseas port. This crew list should contain the name of every crew member on board. Also needed are three copies of this crew list on the same form. The Immigration Officer will require all seamen's books and passports, to issue the completed crew landing permits made out on Form I–95A. The Master will be given a crew list receipt which will indicate the names of crew members detained on board, if any. In case a crew member is detained on board, he cannot go ashore, and at irregular times an officer of the Immigration Service will check if the crew member is on board. A fine of $1,000.00 will be imposed on the vessel for each detained crew member who is not on board.

TUGS: Whistle signals differ from those in international usage and are as follows:

1. Ship to Tug: One Long and One Short (— .) = ship ready to proceed, O.K. or all right. One Long and Two Short (— . .) = let go the bow tow-line. One Long and Three Short (— . . .) = let go the stern tow-line.
2. Both Ship to Tug and Tug to Ship: One Short (.) = work propeller ahead when stopped, *or*, stop propeller when working, either ahead or astern. Two Short (. .) = work propeller astern. Three Short (. . .) = slow down or check. Four Short (. . . .) = work propeller strong in the same direction it is working at the time the signal is blown. Five or more Short Blasts (. . . . .) = the standard danger signal.

SEAWAY EQUIPMENT: *Radio-telephone Equipment:* All vessels, other than pleasure craft of less than 65 ft. in overall length, must be equipped with VHF radio-telephone equipment, in addition to the FM equipment otherwise required. The radio transmitters must have sufficient power output to enable the vessel to communicate with authority stations from a distance of 25 miles and must be fitted to operate from the wheelhouse and to communicate on 156·6, 156·7 and 156·8 Mc/s.

Stern Anchors: It is strongly recommended that vessels in excess of 350 ft. in overall length be equipped with a stern anchor rigged and ready for immediate use.

Propeller Direction Alarms: Vessels in excess of 260 ft. in overall length shall be equipped with propeller direction and shaft r.p.m. indicators or visible and audible wrong-way propeller direction alarms located in the wheelhouse and in the engine-room.

Sewage and Galley Waste Disposal Systems: Sewage retention tanks and galley waste grease traps are required for vessels not otherwise equipped with containers for ordures. At Montreal, or at Port Colborne, vessels without retention tanks intending to call at Chicago must put on board portable chemical toilets which are offered for rental by two chemical companies. Two to ten chemical toilets are required for each ship at $30.00 each per week rental charge.

Oily water separators: It is strongly recommended that vessels, which cannot contain waste oil products and bilge water containing waste oil products, shall be equipped with oily-water separators or other such equipment for the extraction of oil products from waste water before discharge.

Rudder Angle Indicators: Vessels in excess of 260 ft. in overall length shall be equipped with rudder angle indicators located in the wheelhouse.

Gyro Compass: It is recommended that vessels be equipped with a gyro compass.

Radar Equipment: It is recommended that vessels be equipped with radar.

Vessels not fitted for the Seaway as prescribed above, will incur expenses for the rental, installation and removal of compulsory fittings.

AUTHORITY: The St. Lawrence Seaway Authority.

St. Pierre and Miquelon

ST. PIERRE: 46.47 N. 56.10 W.

DOCUMENTS: Formalities completed on arrival. Advise Port Service beforehand of vessels ETA, length, tonnage and draft.

PILOTAGE: Contact Pilot one hour before arrival via St. Pierre Radio. Pilot Launch named *Radar* meets vessel at entrance to N.E. channel, in approximate position 46° 48′ N. 56° 08′ W.

ANCHORAGE: In the roads, depth 13 metres, not secure in strong East winds.

MAX. SIZE: New Port: maximum length 110 metres. Old Port: maximum length 70 metres. Channel depth 5 metres below chart datum.

HEALTH: If suspected disease on board contact St. Pierre Health Service, tel. 279.

RADIO: St. Pierre Radio, call sign IXU, receiving on 2,182 kc/s, transmitting on 2,410 kc/s.

BERTHING: Mole de Commerce: length, 160 metres; depth alongside, 8 metres. Mole du Frigorifique: three berths, depth alongside, 6 to 7 metres.

MEDICAL: All facilities available.

FRESH WATER: Available at berths.

FUEL: Available from Esso and Shell.

IDENTIFICATION CARDS: Each man to carry passport or seamen's book.

CONSULS: Local representatives for Canada, Netherlands, Norway, Portugal and Spain.

REPAIRS: Small repairs can be effected. Floating dock, capacity 750 tons.

REPATRIATION: Can be arranged.

TIME: GMT minus 3 hours all the year round.

AMBULANCE: Telephone: 279.

AUTHORITY: Officier de Port, tel. 8.

Samoa

APIA, Western Samoa: 13.50S. 171.45 W.

DOCUMENTS:
1 Clearance from previous port of call.
3 Crew Lists.
3 Passenger Lists.
Customs Documents.
2 Health Documents.
1 Manifest.
Bills of Lading.
Ship's Papers (stores and poisons).

PILOTAGE: 24 hours ETA is required. Pilotage is compulsory for merchant vessels and advisable for naval vessels. Pilot boards 1½ miles outside harbour on line of leading beacons. Pilot boat painted white with red upper structure and deck on which painted in white lettering the words "Pilot-Apia". Also has black rubbing band and word "Pilot" on bows.

By night, in addition to usual navigation lights, pilot boat carries standard identification, i.e. a red light on foremast with all-round visibility. Exemption from pilotage may be granted to Masters of vessels trading regularly to Apia, but pilotage dues are still payable.

Pilotage District: This is defined as being all navigable waters contained within the segment of a circle of 3·5 nautical miles radius having as its centre Vaea beacon and having as its Western and Eastern limits radii bearing 348° and 030° respectively from its centre.

ANCHORAGES: In 20 fathoms outside a line drawn between the two reefs and preferably on line of leading beacons. Bottom is coral.

RESTRICTIONS: No night-time or tide restrictions and turning basin dredged to 35 ft. Arrivals preferred either early morning or late afternoon owing trade winds.

MAX. SIZE: Shore bollards have now been completed to take stern and bow lines for vessels up to 800 ft. in length. Maximum draft 35 ft. Maximum length 600 ft. if moored to buoy. No limit to beam.

HEALTH: Doctor boards vessel on arrival.

RADIO: Signals to incoming ships by radio or radio-telephone from Apia radio station 5WA. For radio, ships should call on 500 kc/s and operate on 483 kc/s. For radio telephone, ships should call on 2182 and operate on 2162 or other available frequency as may be arranged once contact has been established. Apia maintains continuous service.

TUGS: Four tugs, 150 h.p. to 400 h.p. Powerful tug on order from Australia, delivered September 1970, 60 ft. long.

BERTHING: Small charge made for use of hawsers and moorings. Export Wharf – reinforced concrete wharf 604 ft. in length on the East side of inner harbour. Maximum draft alongside 35 ft. All loading and discharging is carried out with ship's gear. No wharf cranes available. This wharf and all surrounding areas enclosed by fence is Customs area and all vessels trading to or from places outside Western Samoa must depart from or arrive at this wharf.

Buoy – one mooring buoy (black with white top) for use by tankers and other vessels which may be unable berth at wharf. Usual to moor to buoy by the stern, using two wires and two ropes. Length of moorings will be advised by the Pilot or by the Harbour Master having regard to sea conditions and interval between swells.

STEVEDORES: Arranged by ship's Agents.

MEDICAL: Advance notice to Agents prefereble. No private doctors but good general hospital where seamen may be admitted.

TANKERS: Shell and Mobil only companies operating in Samoa, and have own discharging facilities. Tanker terminal – situated on West reef. Vessel's stern moored halfway between reef and buoy. Discharge line is 6 in. diameter. Launch service may be provided between ship and shore at a small charge.

TIDES: Mean high water intervals 6 hrs. 27 mins., spring range 3.2 ft., mean range 2.6 ft. Tidal stern normally slight, but after heavy rain outflow from rivers and streams can cause it to become quite strong.

FRESH WATER: Available at wharf from shore installation at 5s. per 1,000 gallons.

FUEL: Only light diesel fuel available.

FIRE PRECAUTIONS: Fire services available on wharf and new tug will have fire pumps fitted.

DEVELOPMENTS: Extending turning basins and adding 200 ft. to existing wharf length. New wharf 604 ft. long, and in future, when sufficient mooring facilities provided, ships up to 800 ft. length may be berthed.
WATCHMEN: Recommended and available at £2 per day.
HATCHES: Opened and closed by stevedores.
CUSTOMS ALLOWANCES: No enforcements.
IDENTIFICATION CARDS: Not needed.
CONSULS: The New Zealand High Commissioner represents all British subjects; French Consul, tel. 156.
REPAIRS: Minor repairs only.
AIRPORT: 25 miles from Apia on Western side of Island. Regular and frequent mail and passenger services.
TIME: GMT minus 11 hours. No alteration to clocks.
HOLIDAYS: No cargo on Sundays between 0300 and 2100. The recognised holidays are Christmas, New Year, Boxing Day, Good Friday, Easter Monday, Whit Monday, Anzac Day and Independence holidays from 1st June to 3rd June.
TELEPHONES: Police and public telephones at wharf and provision being made to enable telephone connection to vessels berthed at wharf. Hospital, 364; Police, 390; Fire Brigade, 200.
AUTHORITY: Port Administrator and Harbour Master, PO Box 474, Apia, Western Samoa.

Saudi Arabia

DAMMAM: 26.30 N. 50.12 E.

LOCATION: Situated on the Eastern coast of Saudi Arabia, in the Arabian Gulf, is owned by the Saudi Arabian Government and operated by the Saudi Government Railroad.
FLAG: In addition to the quarantine signals which are to be shown until pratique is granted, the Saudi Arabian Flag must be flown from vessel's foremast while in port of Dammam.
DOCUMENTS: In order to cope with Port, Customs and Agent's requirements, following documents should be airmailed to Agents prior to arrival of vessel at Dammam port:
12 copies of Cargo Manifest for each port of loading, all typed, stamped and signed.
2 copies of Freight Manifest.
3 copies of Hatch List.
3 copies of Stowage Plan.
1 copy of each non-negotiable Bill of Lading.
List of Dangerous Cargo on board, if any.
PILOTAGE: Pilotage at Dammam Port is compulsory. Manoeuvring of vessels in the vicinity of pier or in anchorage will always be performed under supervision of a Dammam port Pilot.
The Dammam port Pilot and/or the Mooring Master will board vessels at anchor off approaches to port or when they are abeam of Dammam Beacon No. 2 (approximate position 26° 33′ N., 50° 11′ E.), and will then pilot vessels to anchorage or berth at pier.
ANCHORAGE: The approach anchorage area is situated South of parallel 26° 34′ 00″ N., and may be demarcated on the East by the 6 fathoms contour starting in proximity of Beacon No. 1 coming up to Beacon No. 3, and thereafter remaining West of line drawn from Beacon No. 3 to Beacon No. 6. On the West, the approach anchorage area extends within the 6 fathom contour starting from Beacon No. 2 up to Beacon No. 4 and thence remaining North of line joining Beacon No. 4 and Beacon No. 6.
The vessels anchored in approach anchorage are required to keep fairway clear for access to and from port.
WEATHER: The peninsula of Saudi Arabia is almost of an equatorial climate. In winter the temperature is rather low but in summertime it rises over 50 degrees Centigrade. Rain is generally scarce. During major part of year, but especially during summer, the relative humidity is high. From July to September it frequently exceeds 85%.
Winds in this area are not predictable for more than a few hours. They vary in strength and direction, although prevailing winds are from North-west.
Visibility is generally good. There are times, however, when it is reduced to a very short distance due to fog or dust held in suspension in the atmosphere.
TIDE: The diurnal tide rise at port of Dammam is approximately 8 ft. at spring (shortly after new and full moon in each month) and approx. 5 ft. at neap (soon after moon's first and third quarter). Currents generally drift with tide, and run in or out of the port in counter-clockwise rotation. Depending upon weather conditions and other contributing factors, these currents move, at times, with considerable speed (up to 12 m.p.h.) or strength. Since no breakwater or other protective barrier exists against the open sea, currents are moving at all times.
MAX. SIZE: See "Berthing".
HEALTH: In accordance with international practice, quarantine signals must be displayed by all vessels approaching Dammam port. These signals shall be displayed continuously until pratique granted. Such signals are the following: Sunrise to sunset – Quarantine Flag; Sunset to sunrise – Signal Lights – red over white.
The Port Doctor or Quarantine Officer will board the vessel either at anchorage or at pier. Documents required for immediate inspection are the following:
Maritime International Health Certificate (from the last port).
Valid Deratisation or Deratisation Exemption Certificate.
Crew List (3 copies).
Passenger List, if any.
Valid Smallpox Vaccination Certificates (of a date not exceeding three years) for all crew members and passengers.
Valid Cholera Vaccination Certificates (of a date not exceeding six months) for all crew members and passengers.
Valid Yellow Fever Vaccination Certificates for all crew members and passengers.
Certificates of inoculation against any communicable diseases prevailing at the ports of departure.
Ship's Log Books.
RADIO: (Also see "Agents"). Vessels bound to Dammam are required to notify their Agents 72 hours steaming-time prior to arrival, giving ETA in GMT, total weight tons of cargo for discharge at Dammam, number of workable hatches, maximum arrival draft and overall length of the ship. ETA notice should then be confirmed 48 hours and again 24 hours before arrival.
Vessels' messages to Agents can be given either by contacting via wireless Aramco Radio Station "HZY" on 500 kc/s, which station provides free of charges service, or through Bahrain Radio Station, operated by Cables & Wireless Ltd., Manama, Bahrain. Due, however, to considerable delays often experienced in receiving messages relayed to Bahrain Radio Station, vessels are recommended to make preferable use of Aramco Radio Station services.
TUGS: A small fleet of tug-boats is available to assist vessels in mooring or unmooring. Whenever such assistance is provided, Master and crew of tug shall, in the performance of such services as they render to the vessel, become and be deemed to be the Agents and servants of the Owners and/or charterers of the vessel assisted.
BERTHING: There are three piers at Dammam commonly referred to as North Pier, South Pier and Small Craft Pier.
(*a*) *North Pier* Consists of steel and wood structure connected with mainland by means of 4·86 miles of railroad causeway and 1·8 miles of railroad trestle. The main wharf, located at outer end of the trestle, is 744 ft. long and 86 ft. wide. The heading of main wharf is 346 degrees true. It provides berths for two ocean-going vessels, one on each side, with approx 36 ft. of water at low tide.
(*b*) *South Pier.* This is a new-built steel and cement pier consisting of a man-made island built half-way between North Pier terminal described above and Small Craft Pier. This new pier is 2,000 ft. long and 700 ft. wide. It provides berths for four vessels in a depth of water of about 30 ft. at low tide.
The South Pier has lately been lengthened with the construction of a new berth mainly designed to accommodate vessels loading fertiliser in bags, but it may occasionally be also utilised for discharging ships. There are no cranes at this new berth however, and cargo-handling operations will have therefore to be performed by use of ship's gear. Except for fertiliser berth mentioned above, there are 15 electric-driven portal cranes (12 of 3 tons lifting capacity and 3 of 6 tons lifting capacity) at South Pier, mounted on rail track. Cargo operations from/to ships alongside berths 1, 2, 3 and 4 are performed by the use of these cranes.
Four large storehouses, located each opposite to each berth, are available at South Pier, for storage of a variety of general cargo as discharged from ships, provided however the individual weight of each piece or package does not exceed 3 tons; units in excess of 3 tons in weight, as well as such homogeneous cargo as timber, iron and steel bars or plates, bagged cargo, etc., are off-loaded directly from ships to railway cars.
(*c*) *Small Craft Pier.* It is a steel and cement pier, located 575 ft. from North end of causeway, and protruding 342 ft. into the bay, Eastward. It is mainly designed for accommodating small coasters, barges, dhows, tugs, etc. This pier is 61·6 ft. wide and equipped with cranes for handling cargo to/from barges or crafts. The depth of water is about 11 ft. Two large storehouses are also available.
(*d*) *Other port facilities* (*tugs – lighters – railway cars*). 4 tug boats, 12 lighters of from 150 to 250 tons capacity each, 10 reefer railroad cars of 1300 cu. ft. capacity, 1 railroad flat car of 80 tons capacity, A large stock of railroad cars of any type of 45 tons capacity each.
No heavy lifts equipment, no floating cranes, no water or oil barges, no repairs facilities, no transhipment facilities.
(*e*) *Priority.* There is no berthing priority at Dammam port for any ship or type of cargo carried whatsoever. However, vessels carrying small quantities of cargo, may be berthed, irrespective of turn, at the South Pier No. 4 berth, immediately on arrival if such a berth is available and provided that there are no other vessels in port within such category.
(*f*) *Registration.* Incoming vessels are assigned berth on a "first in, first out" basis. Every possible effort is made to berth vessels immediately upon arrival. If no berth available, vessels will be listed "in turn" in accordance with time of arrival at prescribed anchorage area (South of Beacon No. 2), pratique granted and presentation of cargo documents to the Port Authorities.
In the event of long delay in berthing due to port congestion or otherwise, vessels once "in turn", may be allowed to take up registration and proceed for any other Gulf port for any intended purpose, and return thereafter to Dammam still keeping their position "in turn". In order, however, that a registered vessel may be still considered in turn, is necessary that she return to Dammam within the time limit intimated to the Master at time the ship was cleared out. Failure to return to Dammam within such time limit, will automatically result in loss of ship's turn and her drop to bottom of waiting list.
STEVEDORES: All stevedoring operations at Dammam Port are performed by Saudi Stevedoring Company, established in Dammam. This is the sole Stevedoring Company available. Charges are levied on weight/measurement basis, in accordance with current tariff.
A limited amount of stevedoring gear and equipment can be made available by Saudi Government Railroad on request of Master or Agents. A charge is levied for rental of this equipment.

MEDICAL: Masters may obtain medical attention for ship's personnel from port doctor who may in case of serious illness or injury recommend treatment to local hospitals. The port doctor ordinarily will treat minor illness or injuries on board ship.

Masters of vessels at sea may use services of Aramco Radio Station "HZY" without charge to obtain medical advice at any time.

WATER: Well water is obtainable at all Dammam piers at the rate of 4/5 tons per hour and at the cost of Saudi Riyals 5.00 per ton (approx.).

Both well water and distilled water, though in limited quantities, may be also obtainable in Ras Tanura but only in conjunction with and during bunkering operations. Fresh water is charged at SR: 5.00 per ton and distilled water at SR: 18.00 per ton. The maximum quantity of distilled water obtainable is 15 tons per vessel.

FUEL: There are no bunker facilities at Dammam. Vessels requiring bunkers have to call at nearby port of Ras Tanura where bunkers facilities are operated by Aramco. No bunkers supplied however unless a nomination is made available at Ras Tanura through Aramco New York. To obtain such nomination, Owners/Charterers/Operators are required to handle the necessary arrangements in advance of time directly with Aramco New York or one of its offtakers.

CUSTOMS: All materials to be either exported from or imported into Saudi Arabia are subject to examination by Customs Authorities. The importation of certain articles, such as the following, is strictly prohibited:

Alcoholic beverages, including beer and wines.
Explosives.
Firearms.
Implements of war of any kind, including antiques.
Religious matter not pertaining to the Moslem faith.
Playing cards and gambling devices.
Narcotics.

Trafficking in these items between ships or between ships and shore is strictly prohibited, regardless of whether they are alongside the piers or at anchor.

CONSULS: Except for the U.S. Consulate-General residing in Dhahran, no other foreign consulates are available.

REPAIRS: Relatively limited repair service is available from local business concerns and replacement parts are practically unavailable.

Deep-sea divers, operating from modern and well-equipped diving boats, are available at Dammam.

A Lloyds representative is available in Dammam.

AIRPORT: Very good airline facilities available. Daily departures for any part of the world.

TIME: GMT plus 3 hours all year round.

POLICE/AMBULANCE/FIRE: Ambulance 3182; SGRR Police 3771; SGRR Fire House 2211.

SHORE LEAVE: Ship's personnel and passengers are not permitted ashore for any purpose whatsoever until pratique has been granted. All shore leave is contingent upon compliance with quarantine regulations and subject to proper permission granted by Immigration Authorities. The necessary arrangements can be made by ship's Agent on Master's request. While in port, the vessel's personnel is under jurisdiction of the Law of Saudi Arabia.

GENERAL:

(*a*) *General Port Charges.* Vessels arriving at Dammam port are required to pay for: Pilotage in and out; Handling of mooring lines; Harbour dues; Quarantine fees; Dockage charges; Stevedoring; Tallying; Car and launch hire; Supplies and services as otherwise required; Agency fee and commission.

(*b*) *Port working hours.* Work at Dammam port is performed 6 days a week, from Saturdays to Thursdays, Friday being the regular week holiday. Two shifts are normally worked each day: from 0700 to 1500 and from 1500 to 2300. On request, overtime work can be arranged from 2300 to 0700 hours.

(*c*) *Dangerous cargo.* Vessels carrying explosives, ammunition, highly inflammable liquids and/or any other cargo of dangerous natures, will not be berthed alongside piers. All discharging operations will have to be performed in anchorage into barges as available and weather permitting. Only daylight work is permitted.

(*d*) *Lubricating oils.* Lubricating oils are available in limited drum quantities if ordered in advance by letter or cable through Agent.

(*e*) *Provisions.* A large variety of frozen, fresh and canned goods is available in the local market. Supplies can be arranged through recommended ship chandlers upon Master's request.

(*f*) *Laundry.* Modern washing and dry cleaning facilities are available at Dammam and Al-Khobar. Deliveries can be arranged within 24 hours.

AGENT: Gulf Agency Co. (Saudi Arabia) Ltd., Pob Airport Post Office, Dhahran, Saudi Arabia, Cables "Confidence Dammam". Vessels equipped with VHF, can communicate, when within range, with Agent on stand-by Channel 16 by calling "Confidence Dammam". Voice contacts may be also established via VHF, on the same channel as above, with Ras Tanura office, by calling "Confidence Ras Tanura". Once contact is established on Channel 16, communication will continue by switching on available working channels as directed.

Telephone: Normal working hours 2441, 23425, 23426 and 23427; After office hours 22861 and 41742.

JEDDAH: 21.28 N. 39.11 E.

DESCRIPTION: The port stands to South-west of the city, on island called Jazirat al Mafsaka approximately 600 acres in area. The island is connected with mainland by a causeway.

The harbour is sheltered by several long lines of coral reefs and islands. The access is through two narrow channels.

PORT LIMITS: The limits encompass all waters, islands, channels, passages, piers, wharves, jetties, landing-places, sheds, warehouses workshops, basins, slipways and bridges, etc., contained within the parallels extending from shore seaward to 39° 06′ East longitude and between 21° 27′ and 21° 31′ North latitude including Qaham and the approach beacons, Mismari and Shib el Kabir.

CLIMATE: Tropical desert, hot climate. Humidity very high during summer months, but winter is mild and pleasant. Rainfall is negligible and does not exceed more than 3 to 4 inches per annum.

General direction of wind is mostly North-westerly, mild in intensity. Winds of gale force occur very rarely. The effect of high winds when they do occur in the harbour is not felt due to barrier reefs breaking force of waves. Waves inside harbour not generally above 1 to 2 metres, although waves up to 6 metres may sometimes occur beyond outer reef.

Tides of Indian Ocean do not affect Red Sea due to construction of the Bab-el-Mandab. There is, however, a local semi-diurnal tidal oscillatory motion of the sea along its length, giving a high tide at one end and at the same time a low tide at the other. Jeddah Port is hardly affected by these tides and there are almost no currents produced by these movements.

The variation between the summer and winter water levels is approximately 50/60 cm. only.

Visibility in the port area is generally good, occasionally obstruction to vision occurs due to dust, but such occurrences are seldom of long duration.

DOCUMENTS:

2 Crew Lists.
2 Passenger Lists.
Last Port Clearance.
Vaccination Certificates.
Stores List.

PILOTAGE: Necessary and compulsory. Pilot boards 1½ miles N.W. of Kaham Beacon for vessels coming from the North, and 2 miles S.W. for vessels coming from the South.

RESTRICTIONS: No navigational aids marking approaches to port, and therefore there is no night navigation. A lighthouse and lighted marker buoys are scheduled for positioning in the development of the new port.

ANCHORAGE: If vessel arrives pilot station too late for entry, anchorage may be made ½ mile North or South of the Kaham Beacon.

Arriving vessels will remain at Outer anchorage until turn for berthing, or proceeding into Inner Anchorage for discharge into lighters.

HEALTH: (*a*) *Cholera:* All arrivals from infected or endemic areas are required to possess a certificate showing two injections made not less than 7 days and not more than 30 days before arrival. For re-vaccination carried out within six months of a recorded vaccination or re-vaccination, a single injection renders the certificate valid for a further six months.

In addition, arrivals must submit a certificate dated not more than 7 days before their departure recording the negative results of stool culture. This certificate must be delivered by a licensed laboratory and attested by the Health Authority.

(*b*) *Smallpox:* All arrivals are required to submit a valid vaccination certificate in accordance with international sanitary regulations.

(*c*) *Yellow Fever:* All arrivals from infected or endemic areas are required to submit a valid vaccination certificate in accordance with International Sanitary Regulations.

(*d*) *Mecca:* All Muslim crew members who wish to visit Mecca and Medina should have in their possession two recent passport size photos. These should bear the crew member's name and C.D.C. number to enable Agent to obtain permission for the pilgrimage. Crew members must also have in their possession the above-mentioned medical certificates, otherwise permission may not be granted to them to visit Mecca and Medina.

RADIO: Jeddah Radio – HZH 500 kc/s.

TUGS: Two tugs "Riyadh" of 600 h.p. and "Al Aman" of 1100 h.p. available for berthing and unberthing.

BERTHING: 1. Berthing Priority. Generally priority in order of arrival, but also following priorities:

(*a*) Vessels in distress.
(*b*) Vessels carrying pilgrims and passengers.
(*c*) Vessels carrying army stores and equipment.
(*d*) Vessels instructed to have a special priority by the Ministry of Communications.
(*e*) Vessels carrying livestock.
(*f*) Vessels carrying explosives and other dangerous goods.
(*g*) Vessels carrying freezer cargo, fruit, vegetables and perishable goods, foodgrains and flour.
(*h*) Vessels carrying less than 100 tons of cargo.
(*i*) Regular mail vessels.

2. New berths. Four new berths at the new pier, which have a maximum depth of 35 ft. These berths are in addition to two available at the old pier.

3. Old berths. (*a*) The pier was constructed in 1949. It is a projecting jetty 170 metres long and 30 metres wide connected with island by approach road on trestles 390 metres long and 8 metres wide. The berth is capable of taking two vessels up to 30 ft. draft. There is a derrick of 50 tons capacity on Western edge of pier.

(*b*) The Marginal wharf of 158 metres in length with 19 ft. of water alongside can accommodate vessels of low draft which is mostly used for direct delivery cargo or vessels carrying livestock. There is a large asphalt surface area in front of the wharf which facilitates the road delivery.

(*c*) There is a wharf of about 1,200 ft. for handling cargo ex barges where goods are handled by a fleet of mobile cranes. The depth of water alongside is approximately 15 ft.

STEVEDORES: For vessels discharging alongside the working hours are from 07.00 to 12.00 hours. Workers take rest for lunch from 12.00 to 13.30 hours. Work resumes until 15.30 hours. Work continues for two hours on overtime until 17.30 hours. When vessel discharging into lighters at anchorage berth, she can continue working overtime as required. Friday is a holiday, but for vessels discharging alongside, work is possible on overtime from 06.00 to 11.00 hours and sometimes this is compulsory.

LIGHTERAGE: About 50 port lighters available for discharge at Inner Anchorage, with individual capacities up to about 400 tons. Total capacity about 10,000 tons. Privately owned lighters also available.

FRESH WATER: (*a*) New berths: there is a 2 in. fresh-water pipe available at the new berths. Upon completion of fresh water tower and pipelines, a 9 in. pipe for the supply of fresh water to ships at berth, will be available.

(*b*) Old berths: Fresh water can be supplied to ships at the pier and the marginal wharf by hydrants located at these berths.

FUEL: Privately owned bulk storage for petroleum and fuel oil is available, which is connected with a pipeline to the oil mooring in the port. Fuel oil can also be supplied to vessels by barges.

FIRE PRECAUTIONS: A fire-float is available.

DEVELOPMENTS: Port development programme still under construction. Completion expected end 1971 when there will be about 12 berths available for large tonnage. With completion of the programme, cargo handling facilities and rate of discharge will be considerably improved.

CUSTOMS: All alcoholic beverages will be placed under seal.

CARGO GEAR: No cranes available at either Old or New Piers. Cranes are to be installed at New Pier under development programme.

Discharging gear is obtainable on a hire-basis from ashore, but is expensive. Bagged cargo requires canvas slings, and six slings are needed for each gang.

Vessels carrying explosives for discharge Jeddah or any other port are not permitted to berth inside harbour. Such vessels will be discharged at the Outer Anchorage and must be capable of discharging all cargo with ship's gear.

DELAYS: Since the availability of the four new berths, no waiting time has been experienced, and even though waiting time would normally be expected during the Pilgrim season to Mecca, by the 1971 season there should be another three berths available under the development scheme, and therefore delays are not anticipated.

AGENT: Gulf Agency Co. (Saudi Arabia) Ltd., King Abdulaziz Street, POB 2038, Jeddah, Saudi Arabia. Cables: "Gulfagency", Jeddah. Tel. 2690.
Copies of correspondence to Jeddah office should be sent to Ras Tanura office.

RAS TANURA: 26.38 N. 50.10 E.

OPERATORS: Arabian American Oil Co. ("Aramco").

FLAG: Saudi Arabian flag must be flown from vessel's foremast while in port. Vessels should provide themselves with this flag before arrival but, if circumstances render this impossible, such flag may be purchased from the vessel's Agent. Saudi Arabian flag is properly displayed when writing appears on top and sword or swords on the bottom.

IMPORTANT FEATURES:

1. There are two piers and a Sea Island having a total of sixteen oil-loading berths. In addition, a small oil-loading pier is located on West side of Ras Tanura peninsula.
2. Aramco Harbour Pilots moor, unmoor and supervise movement of all vessels in vicinity of piers except coastal tankers loading at West Oil Pier. Normally no charge made for this service.
3. Safety rules strictly enforced. Receipt of instructions must be acknowledged before vessel will be berthed.
4. Aramco maintains radio station (call letters HZY) for exchange of messages with ships. All incoming tankers should establish early contact with this station order transmit ETA data, etc.
5. Vessels should arrive with minimum clean ballast water to enable manoeuvring under prevailing weather conditions. Masters urged to maintain radio contact with HZY or ship-to-shore communication by VHF voice radio order obtain latest weather information.
6. Consumption of alcoholic beverages prohibited within Kingdom of Saudi Arabia. Local officials carry out inspection to confirm that all alcoholic beverages under lock and key during vessel's stay. Vessels moored at loading piers or anchored in harbour considered to be in Kingdom of Saudi Arabia.
7. Display of quarantine signals on approach to Ras Tanura must be maintained until pratique is granted. The flag of Saudi Arabia must be flown throughout the vessel's stay in port. Ships cannot be berthed until the quarantine message has been received (see "Radio").
8. To permit more rapid ship turnaround, an "Early Departure Procedure" is available. This service provides for a quick departure of the vessel after loading, without necessity of waiting for delivery of documents at anchorage. This special service should be requested and arranged with Agent at earliest opportunity.

LOCATION: Aramco's shipping and refining facilities situated on Saudi Arabian coast of Arabian Gulf on peninsula known as Ras Tanura. The peninsula, which has a total length of 13 statute miles, has as Southern extremity a 5 mile-long sandspit with maximum width about 5 mile. Near its tip are Company's piers, shipping tanks, and terminal offices. Refinery and its storage tanks located about 5 miles to the North. There is a survey reference point located at Southern tip of peninsula, over which a beacon tower has been erected. Exact position of this beacon is Latitude 26° 37′ 25″ North, Longitude 50° 09′ 50″ East. All bearings are referenced to this point, which is officially known as Ra's at Tannurah. The name "Ra's-at-Tannura" (variously spelled) appears on most charts and publications.

Port of Ras Tanura is a roadstead and there are only open anchorage areas for oil tankers and other vessels. Some protection is afforded by land on the West and shoals to the North, East and South. These shoals tend to keep the sea down to such an extent that vessels do not ordinarily register heavy movement.

APPROACHES: (Typical low tide is about 2 ft. above ISLW and average depth is 4.5 ft. above ISLW.) All ships approaching or departing from Ras Tanura must pass to the East of the Sea Island. There are two recognised ship channels crossing the shoals of the Great Pearl Bank, and no ship should attempt to navigate in either of these channels without access to the relevant charts. All of the turning points in the channels are well marked by lighted beacons or buoys. Beacons are of skeleton steel construction, approximately 30 ft. high; buoys are the large deep-sea type. All beacons and buoys are fitted with radar reflectors.

(*a*) The "Middle Channel" generally is used by laden, outbound ships and has an approximate depth of 47 ft. ISLW, except for a few shoals which have lesser depths.

(*b*) The "North Channel" is used by deep draft vessels or by vessels bound to or from ports in the Northern part of the Gulf. The channel has a clear depth of 71 ft. except for a shoal area about 6,500 ft. long that has a clear swept depth of 63 ft. at ISLW. Further dredging and sweeping has been in progress to provide a departure channel having a minimum depth of 69 ft. at ISLW scheduled end 1970. Vessels are requested to contact the Pilot's Office to obtain the latest information regarding the location of swept temporary departure channels.

DOCUMENTS:

(*a*) Following documents required for immediate inspection by boarding officials:

- Maritime International Declaration of Health. (1 copy from last loading port to be surrendered).
- Valid Deratisation or Deratisation Exemption Certificate.
- Crew List.
- Passenger List.
- Smallpox Vaccination Certificate, of a date not exceeding three years, for all passengers and crew members.
- Certificates of Inoculation against any communicable diseases prevailing at the ports of departure.
- A complete set of Log Books covering the period since the vessel's last call at Ras Tanura. In the case of a first visit, log books must cover the period from the date of a vessel's first sailing or from April 25, 1952, whichever date is most recent.

(*b*) "Early Departure Procedure." To permit more rapid ship turnaround, an "Early Departure Procedure" is available. This service provides for a quick departure of the vessel after loading, without the necessity of waiting for delivery of documents at anchorage. This special service should be required and arranged with Agent at ship's earliest opportunity. When vessel is ready to leave port, a Ministry of Health permit and port clearance will be given to Master by ship's Agent.

(*c*) Export Goods Manifest. Masters will receive from Agents, Export Goods Manifest forms covering each consignment of cargo loaded. A letter addressed to the consignee will accompany these forms. This letter provides detailed instructions as to requirements and disposition of the Export Goods Manifest forms. It is imperative that Master delivers these papers to consignee upon arrival at the discharge port(s).

(*d*) Discharge Certificates. According to local procedure, certificates showing details of cargo loaded at this port on any tanker, are airmailed by Agents to the receivers of cargo at the port of discharge along with a self-addressed envelope, and returned to the Arabian American Oil Company in Ras Tanura signed by the recipient Customs Authorities.

PILOTAGE:

(*a*) Channel Pilots. Approach channels well marked by lighted, radar-reflecting beacons and buoys. For these reasons, Channel Pilots not provided.

(*b*) Harbour Pilots. Harbour Pilots provided for assistance to Masters of vessels using the Port. Aramco Pilots are on duty continuously. If a berth is available and the ship's radioed quarantine message and notice of arrival and readiness have been received, an Aramco Harbour Pilot will board the incoming vessel while it is underway. The point of boarding will be South of beacon No. 15A and East of the Sea Island. Aramco Harbour Pilots will pilot vessels to berth at all piers. All manoeuvring of vessels in vicinity of or at the piers will be under supervision of an Aramco Harbour Pilot. VHF radio contact may be made between ships and the Port Control and the Pilot's Office at frequencies listed under "Radio".

ANCHORAGES: There is ample anchorage and manoeuvring area East of the peninsula. The anchorage area ranges in depth from 5 to 12 fathoms. Holding ground is only fair, as bottom is varied in character, it is recommended that anchored vessels lie to a long scope of chain whenever weather is unfavourable. Any vessel having anchored should immediately advise Aramco, via Radio HZY, following information: (*a*) Time of arrival in anchorage area (in GMT); (*b*) Approximate position in anchorage area in relation to

North Pier; (*c*) Contact Ras Tanura Port Control Office by VHF Radio, Channel 14 or 16 if vessel is so equipped.

METEOROLOGICAL DATA:

(*a*) Tides and Currents. Depths quoted in "Sailing Directions" as well as those shown on charts for the Arabian Gulf are based on Indian Spring Low Water (ISLW). Locally the diurnal tidal rise is approximately 8 ft. in springs and 5 ft. at neaps. (The "Sailing Directions" present a more detailed description of tides and currents of the locality, and of Ras Tanura in particular.) Typical low tide is about 2 ft. above ISLW and average depth is 4.5 ft. above ISLW. Due to peculiar configuration of coastline of the peninsula a local system of tidal currents prevails in vicinity of piers.

(*b*) Winds. The winds in this area are not predictable for more than a very few hours. Winds of varying strength may come from any quarter. The prevailing wind, however, is from N.N.W. Winds of any strength tend to create a sharp but short, choppy sea, coming up very quickly and calming down just as rapidly. Easterly winds, however, may cause heavy seas and swells lasting for a considerable period. For a more complete description of the winds in Gulf, refer to the "Sailing Directions". It is anticipated that loading operations can be conducted at wind velocities up to 60 m.p.h. with corresponding wave height of 10 ft. – 190 ft. wave length and 6 second interval between waves.

(*c*) Visibility. Generally fair to excellent, but at times fine dust is held in suspension in the atmosphere and visibility is reduced to a very short distance. These phenomena are more deceptive than fog in that mariners are apt to believe visibility to be greater than it actually is. Fogs, without sand or dust, may occur in morning hours.

(*d*) Weather. The exposed position of the port permits winds to mitigate heat of the summer. Temperatures usually range from a low of 45° F. in February to a high of 110° F. in August. During most of year relative humidity is high and during late summer and fall it frequently exceeds 85%. Proper precautions should be taken to avoid sunstroke and heat prostration, particularly during summer and early fall months.

MAX. SIZE: Vessels up to 250,000 dwt. (part-cargo) have been handled. Departure channel 69 ft. ISLW – see "Approaches". Water depth at Sea Island berths is a minimum of 85 ft. at ISLW, but depth of water in departure channel and not depth of Sea Island berths limits the draft of vessels calling at Ras Tanura.

HEALTH: A modified Radio Pratique procedure is in use. Vessels supplying requested quarantine information can be berthed on arrival and proceed with normal loading operations prior to arrival on board of quarantine officer. Vessels failing to supply information will be delayed at anchorage until cleared by quarantine officer. Extensive delay can be incurred by vessels failing to supply requested information promptly. Quarantine information (see "Radio") must be received prior to berthing. In accordance with international practice, quarantine signals must be displayed by all vessels when approaching Ras Tanura. These signals shall be displayed continuously until pratique granted. These signals are: Sunrise to sunset, quarantine flag. Sunset to sunrise, Signal lights, red over white.

Quarantine officer may board vessels awaiting berth in prescribed anchorage area; however, vessels proceeding directly to a berth at one of the piers will be boarded at the pier after being tied up. Pier personnel are normally allowed on board prior to arrival of quarantine official. Vessels at anchor awaiting berth should not rig an accommodation ladder, but instead should provide a safe pilot ladder in good repair, properly secured. At night, the pilot ladder must be adequately lighted.

RADIO:

(*a*) Station. Aramco owns and operates marine radio station call letters HZY, maintained for transacting company business with "in-or-outbound vessels" and is open 24 hours daily. Station HZY will also accept and forward messages concerning ship's agency matters to Agents. However, agency messages to Masters are not permitted. No charge for either incoming or outgoing messages. Marine transmitting antenna of HZY located at Latitude 26° 18′ 36″ North, Longitude 50° 07′ 12″ East.

Due to its inland location Masters strongly advised *not* to use this antenna for radio direction-finding purposes since inaccurate bearings will be obtained due to coastal refraction.

(*b*) Messages. All vessels must endeavour keep HZY fully advised regarding estimated times of arrival at Ras Tanura, as well as times of actual arrival and position in anchorage. It is required that vessels provide HZY with a minimum of three notices of ETA information at about 72, 48 and 24 hours "steaming time" from Ras Tanura. Shorter notices may result in berthing delay. If loading part cargoes at other Arabian Gulf ports prevents a vessel from furnishing an accurate ETA, steps should be taken to dispatch a message either direct or through ship's Agent giving best estimate possible at the time. This message should then be followed by an accurate ETA immediately upon departure for Ras Tanura. Failure to give at least 24 hours notice will result in an addition to allowable laytime in the event a demurrage claims is filed against Aramco.

Upon first contact with an inbound tanker, HZY will transmit the following two standard messages of 180, and 40 words:

180 Word Message

Master——————————————————HZY

Contact HZY soonest advise ETA GMT Ras Tanura and later changes stop agents name and requirements stop arrival and sailing draft stop if vessel equipped with VHF start calling Rastanura Port Control for berthing instructions on 156.8 Channel 16 or 156.7 Channel 14 when 100 miles out stop if no VHF aboard contact HZY 500 kc and also copy traffic lists on odd hours for possible berthing instructions stop on arrival anchorage advise HZY giving official arrival readiness time and position relative North Oil Pier stop all Radio messages without charge stop suggest copy HZY traffic lists several days after departure stop Pilots require sufficient clean ballast for safe manoeuvring and Pilot will board in anchorage for mooring stop please have gangway ready for use fullstop vessels loading cargo advise previous cargo carried stop all tanks and loading lines must be washed and gas free prior to loading kerosene, kerosene type jet fuels, white diesel and black diesel products stop advise if cargo or residue aboard to be commingled with cargo to be loaded here stop advise hours ballast and maximum loading rate per hour. Aramco

40 Word Message

Master——————————————————HZY

Advise any epidemic diseases or illness on board stop status of crews international certificates of immunization stop All ports of call past thirty days stop destination stop Agent stop flag stop net registered tonnage stop vessel will not be allowed to berth until this information is received Aramco

It is important that Master send a reply to the above two messages soonest after receipt. The quarantine signal shall remain until quarantine officer grants pratique (also see "Health").

(*c*) Traffic. Traffic list transmitting times and frequencies of HZY as follows:

Transmits on 12,814 kilocycles (kc) on even-hours GMT from 0600 to 1600 GMT. Duals 12,814 kc transmission with 16,960 kc at 0800, 1000, 1200 GMT. HZY will transmit on 16,960 kc at other times on request.

Listens on 12 megacycle (mc) band until 15 minutes after above traffic list transmission, and also on 16 mc band at approximately 0815, 1015, and 1215 GMT after 12 mc calls have been cleared.

Transmits on 8,480 kc on even hour GMT from 1800 to 0400 GMT.

Listens on 8 mc band for 15 minutes after traffic list transmissions.

Transmits on 430 kc on all odd hours GMT after call up is made on 500 kc.

N.B.—To faciliate contacting a vessel after departure, it is suggested that vessels copy HZY traffic lists for several days after leaving Ras Tanura.

(*d*) Weather. Weather advice, hydrographic notices and traffic lists are "dualed" on 430 kc and 8,480 kc at 0430 GMT and again on 430 kc and 12,814 kc at 1630 GMT. It is requested that all vessels forward their local weather observations to this station, either in code or plain language, to assist in preparation of the Arabian Gulf forecasts. No charge for the incoming traffic or the forecast.

(*e*) Agents. Messages to ship's Agents are handled by HZY, free of charge. However, the shipping Agents are not permitted to use HZY for outgoing traffic. Address message to Aramco and indicate Agent's name as the first words of text.

(*f*) Beacon. An aircraft radio beacon, call sign RT, which transmits on 335 kc is located at Latitude 26° 37′ 36″ North, Longitude 50° 09′ 47″ East.

(*g*) VHF/RT. VHF radio-telephone Channels 9, 10, 11, 13, 14, and 16 are available for ship-to-shore communication. Channels 13, 14, and 16 are monitored 24 hours a day in Port Control Office. Harbour Pilots can be contacted on Channels 13 and 16. VHF equipped vessels should try to contact Ras Tanura Port Control when within 100 mile range of port, and while at anchor. HZY will, on request via CW, utilise voice radio, transmitting on 4,372.4 and 8,780 kc and receiving in the 2, 4, 8, and 12 mc bands.

(*h*) Radio Silence. The main wireless equipment of any ship must not be operated while the vessel is alongside oil piers. Use of VHF while alongside the oil piers to contact Port Control, Pilots, or Agents is permitted.

TUGS: Under normal operating conditions, no tow-boat or other craft is to come alongside any vessel before Harbour Pilot boards vessel. Should Harbour Pilot deem assistance of a tug to be necessary, he will give proper signal. Ship's personnel must not signal for tugs or boats to come alongside except as directed to do so by the Pilot. Mooring and unmooring assistance is provided by diesel tugs, which are regularly stationed in immediate vicinity of piers. At present no charge is made for these tugs when employed in normal mooring and unmooring operations, but a charge is made for additional or unusual services. Tugs are fitted with fire pumps and water/foam monitors to assist in fighting fires.

BERTHING: Harbour Pilot will direct the manoeuvring of the vessel to the assigned berth. Berthing draft should be sufficient to immerse or almost immerse the propeller, with a maximum of 10 ft. stern trim. Full power and manoeuvrability should be available.

(*a*) Turn. Incoming ships are assigned berths in accordance with time of arrival, product to be loaded, size of vessel, and loaded draft. Vessels loading crude oil or crude blends will normally be assigned berths as follows: Below 60,000 dwt. Usually assigned to North Pier (or South Pier in case of some refined products). 60,000 to 100,000 dwt. May be assigned either to North Pier or Sea Island depending on berth availability. Above 100,000 dwt. Usually assigned to Sea Island. Endeavour is made to berth vessels immediately upon arrival and Master should maintain radio contact with station HZY. If no berth available, vessels to anchor in prescribed anchorage and maintain radio contact with station HZY or Ras Tanura Port Control office by VHF radio frequencies listed under "Radio".

(*b*) Ballast. Storage space is extremely small for dirty ballast and residue. Prior clearance must be arranged for discharge of reclaimed oil or dirty ballast ashore. The Sea Island does not have facilities for handling this material. Aramco strongly recommend the "Load on Top" procedure wherein such residues are commingled with crude cargo whenever possible and that new vessels be built with ballast system independent of cargo tanks. A separate ballast system shortens time in port by about 5 hours. Vessels should arrive with minimum clean ballast to enable manoeuvring under prevailing

weather conditions. Masters are encouraged to take advantage of the favourable weather which prevails much of the time, particularly during summer and fall months, to minimise ballast in order to reduce turn-around time. Masters should maintain radio contact with HZY or ship-to-shore communication by voice radio in order to obtain latest weather information and advice on appropriate ballast. Aramco particularly interested in having vessels complete deballasting promptly after berthing order minimise time at berth. Simultaneous loading and deballasting is encouraged on properly equipped vessels. Vessels requiring excessive time to complete deballasting will be given Letters of Deficiency. To avoid any possible pollution of local waters, all tankers calling at Ras Tanura to load must do necessary tank cleaning prior to arrival. Prior to arriving at a loading berth Masters must assure themselves that all tanks, pipe-lines, and pumps are free of oil. All tank cleaning must be done East of 52nd meridian. Regulations in this regard strictly enforced to protect local fishing and pearling and reduce fire hazards. If, after arriving alongside, a vessel is found to have oil ballast water on board, it will be sent to sea to accomplish necessary tank cleaning. A new notice of readiness to load must then be given.

(*c*) Gangway. All vessels required to furnish their own gangway which should be made "ready" prior to berthing at North or South Pier. At the Sea Island, Aramco will normally furnish ladder-type aluminium gangway with range of reach varying from a maximum of 65 ft. in Berth 14 to a maximum of 93 ft. in Berth 18. These ranges are above the deck elevation of the Sea Island loading platform.

OIL LOADING PIERS: There are two "T" head piers (piers project from Eastern face of peninsula and are commonly referred to as South Pier and North Pier) and a Sea Island.

(*a*) South Pier. Designed to handle T-2 class tankers. Ships up to 25–30000 dwt, are efficiently handled. An 8 ft. tide permits some flexibility in loading. Ships up to 35000 dwt. will be topped off and unberthed on rising tide. The pier is mainly used to load refined products and has one 15,000 b.p.h. crude loading system to service small crude ships. South Pier connected to peninsula by causeway and trestle, 2,300 ft. in length. Pier has four berths and is 1,200 ft. long and 105 ft. wide. Depths South Pier as follows: Berth 1, 33 ft. at ISLW; Berth 2, 33 ft. at ISLW; Berth 3, 33 ft. at ISLW; Berth 4, 32½ ft. at ISLW.

(*b*) North Pier. This pier handles mainly crude shipments with loading rates up to 60,000 barrels per hour. Some refined products as well as refrigerated propane and butane are also available. The berths were designed for 45,000 dwt. tankers; however, vessels in excess of 100,000 dwt. have been safely handled, berthed and loaded with sufficient attention given to approach velocities and tidal conditions. North Pier located about 3/4 mile to North of South Pier, and has causeway and trestle that extends some 3,600 ft. from the peninsula. Pier is 2,200 ft. long and 110 ft. wide, and comprises six berths. Depths North Pier as follows: Berth 6, 48 ft. at ISLW; Berth 7, 42 ft. at ISLW; Berth 8, 50 ft. at ISLW; Berth 9, 48 ft. at ISLW; Berth 10, 50 ft. at ISLW; Berth 11, 50 ft. at ISLW.

(*c*) Sea Island. Located about 5,600 ft. North-east of the North Pier. The Sea Island has six berths in service. Berths 12–17 are capable of routinely handling vessels up to 200,000 dwt. Berth 18 is designed to handle vessels between 65 and 400,000 dwt. Larger vessels can be berthed under special conditions. Depths Sea Island as follows: Berth 12, 85 ft. at ISLW; Berth 14, 85 ft. at ISLW; Berth 15, 85 ft. at ISLW; Berth 16, 85 ft. at ISLW; Berth 17, 85 ft. at ISLW; Berth 18, 85 ft. at ISLW. Each island, or pair of berths, consists of four mooring dolphins and a platform with four breasting dolphins on each side. Length of Sea Island No. 1 (Berths 12 and 14) is 1,250 ft. whereas length of Sea Islands No. 2 and 3 (berths 15 ,16, 17, and 18) is 1,400 ft. each between outer mooring dolphins. Sea Island facility equipped with four submarine crude loading lines having a combined capacity of 166,000 b.p.h. and one bunker fuel line having a capacity of 10,000 b.p.h. Prevailing wind is from a N.N.W. quarter. Sea Island design is for berthing of ships at wind velocities up to 30 m.p.h. and wind pressure of 5 pounds per square foot on pier structure, and 3 pounds per square foot on vessel.

(*d*) West Oil Pier. A small oil-loading pier with maximum water depth 12 ft. Located on West side of peninsula. Pier is used for fueling small craft and loading coastal tankers. Vessels taking cargo subject to same safety regulations applicable to other piers.

MOORING:

1. Full power must be available for manoeuvring to and from wharves.
2. An Aramco Pilot will pilot vessel to berth assigned.
3. All manoeuvring in vicinity of, or at piers, will be under supervision of an Aramco Pilot.
4. Aramco tugs will assist in mooring and unmooring.
5. All tank tops, ullage plugs and sighting ports will be closed before berthing.
6. Vessel's Master must notify the Pilot of any special conditions, difficulties or peculiarities such as defective equipment, lines or gear which might impose special hazards in connection with handling mooring or loading of vessels.
7. Steering gear, engine-room telegraph, whistle and all navigational equipment must be tested before any manoeuvring to or from piers is started.
8. Pilot will decline to moor vessel with unsatisfactory equipment, lines, gear, etc.
9. Aramco will loan additional mooring lines if Pilot deems them necessary.
10. Vessels must be moored to entire satisfaction of Pilot.
11. Vessels must be ready to put out more lines as required by weather changes or at request of Pilot or oil-loading personnel.
12. Winches must be ready at all times for immediate use.
13. Except in emergency, no mooring lines will be let go without permission of the Pilot.
14. While alongside wharves, maintain engines and propulsive machinery ready at all times to leave wharf on short notice under full power.
15. No repairs are permitted that will delay or interfere with this manoeuvring.
16. Non-compliance with 13 and 14 constitutes a serious safety hazard. Any towage and delay resulting from non-compliance will be for vessel's account.
17. If fire or other grave emergency occurs or danger appears imminent on either the vessel or pier, do not await arrival of Pilot–immediately let go mooring lines and personally remove vessels from pier in such manner as to best avoid damage to pier or other vessels.
18. Upon completion of loading and/or bunkering and immediately after disconnection of hoses, vessel must leave berth and await clearance in stream.

Note: Most vessels will be loaded using all-metal Chiksan arms. The use of nylon or other highly elastic line is prohibited. Mooring lines should be checked frequently and kept tight to prevent excessive movement of vessel in berth. All vessels moored with automatic tension winches shall set manual brakes on these winches. Pier crews on duty continuously to handle oil hoses/arms and mooring lines. Mooring lines on board vessels will not be handled by Aramco personnel. All loading connections equipped with electrical insulating flanges. Therefore ship-to-shore bonding cables are not used.

LOADING: A commonly-used design criterion for tanker loading rates is as follows:

Loading rate in barrels per hour equals dead weight tonnage of vessel (bph. equals dwt.). This rate results in loading a vessel in 7 to 8 hours.

This criterion can be achieved for vessels up to 60,000 dwt. at the North Pier, for vessels up to 90,000 dwt. at Sea Island berths 12, 14, 15 and 16 and for vessels up to 120,000 dwt. at Sea Island berths 17 and 18. With the installation of the fourth 16 in. loading arms in berths 15 and 16, the maximum loading rate at these berths will also increase to about 120,000 bph. Achieving these loading rates will depend upon availability of loading systems, whether vessel's manifold permits connecting all the arms at a berth, and the loading rate at which excessive arm vibration begins to occur.

Note: Diurnal tidal rise approximately 8 ft. at spring and 5 ft. at neaps. If at any time a ship's draft approaches to within about 3 ft. of the depth of water at the berth, loading will be suspended until an incoming tide increases the depth to permit resumption of loading and provide for safe draft of the fully loaded ship on departure.

(*a*) Loading Rates. Following table shows products available at each berth and nominal loading rates:

Cargo	*Available at Berths*	*Barrels per Hour*
Crude Oil	12, 14, 15, 16, 17, 18	40,000 to 120,000
Crude Oil	6, 7, 8, 9, 10, 11	15,000 to 60,000
Crude Oil	1, 2, 3, 4	12,000
Fuel Oil	6, 7, 8, 9, 10, 11	12,000 to 22,000
Fuel Oil	1, 2, 3, 4	12,000 to 18,000
Black Diesel	1, 2, 3, 4	5,000
White Diesel	6, 7, 8, 9	15,000
White Diesel	1, 2, 3, 4	8,500
Gasoline	1, 2, 3, 4	6,000
Aviation Gasoline	2, 3, 4	800
Kerosene (See X-2-34)	1, 2, 3, 4	6,500
Jet Fuel (See X-2-34)	1, 2, 3, 4, 8, 9	10,000
Bunker Fuel Oil	1, 2, 3, 4	5,000
Bunker Fuel Oil	6, 7, 8, 9, 10, 11	5,000
Bunker Fuel Oil	12, 14, 15, 16, 17, 18	10,000
Bunker Diesel	1, 2, 3, 4	1,400
Bunker Diesel	6, 7, 8, 9, 10, 11	1,200
Refrigerated LPG	6	8,000 to 28,000
Naphtha	8, 9	15,000

Products can be loaded simultaneously at the respective berths if shown above as being available. It is expected that most ships will be able to receive any cargo, except crude oil, as fast as it can be delivered. Officers in charge of loading must have due regard for all safety precautions as well as for individual ship hazards. If loading is too slow, Aramco reserves the right to register protests and an addition to allowed lay-time will be made in the event a demurrage claim is filed against Aramco.

(*b*) Responsibility. All operations in connection with starting of loading, discharging, switching tanks and topping off must be directly and personally supervised by a ship's officer. Upon completion of loading vessel will normally be required to leave berth immediately after disconnecting hoses/arms to await clearance in tanker anchorage.

(*c*) Manifold Connections. Since most tankers have manifolds located near midships, the berths at Ras Tanura are designed accordingly. Aramco recommend midship manifolds for all vessels loading at Ras Tanura. Cargo loading arms at the North Pier have 12 in. standard 150 lb. ASA raised face flanges. The two refrigerated LPG loading arms at North Pier Berth 6 have 12 in and 8 in. standard 150 lb. ASA raised-face flanges. Cargo loading arms at the Sea Island have 16 in. standard 150 lb. ASA flanges. Cargo loading hoses/arms at the South Pier have 8 in. standard 150 lb. ASA raised face flanges. All vessels calling at Ras Tanura should be equipped with reducing spools to fit these loading connections. These fittings should be in place prior to berthing to help expedite ship turnaround time.

NOTE: Recommendations for layout of ship's manifold.

The size and configuration of the outboard swivel joints of 12-in. arms is such that absolute minimum distance between loading connections to which these arms can be directly connected side by side is 42 in., centre to centre. To allow for some movement of the ship and the arms, this spacing should be no less than 48 in.

The size and configuration of the 16-in. arms is such that the minimum distance between connections to which 16-in. arms can be directly connected side by side is 54 in., centre to centre for all Sea Island berths except Berth 18 which will require a minimum spacing of 66 in. The manufacturer of the arms has recommended that the ship's connections be spaced 7 ft. (84 in.) apart in order to give adequate freedom of movement of arms and vessel. 12-in. arms could be readily connected to ship's connection with the 7 ft. spacing also.

Vessels larger than 60,000 dwt. should be equipped to accept either four 12-in. arms at the North Pier and/or four 16-in. arms at the Sea Island for loading cargo. This flexibility can be achieved either through permanently installed connections which present both 12-in. and 16-in. flanges or by means of 16-in. by 12-in. reducing spool pieces which can be connected to permanently installed 16-in. flanges on the vessel whenever the vessel is to load at the North Pier. These reducing spools should be carried by the vessel and fitted in place by ship's crew by the time the vessel has berthed in order to achieve fast turn around. Cast-iron reducing spools should never be used. Use of reducers from shore requires use of ship's hoisting gear, and results in increased hazard to personnel, extra work, and increased ship turn around time.

Ship's manifold and piping should be designed to allow simultaneous loading of two parcels, as this type of cargo is increasing at Ras Tanura.

Ship's loading manifold flanges should be approximately 12–15 ft. from the side of the ship. A greater distance tends to over-extend the arms and reduces the allowable distance the ship may move. When flanges are too far inboard of the ship's rail (more than 20 ft.), extension spool pieces may be required, in which case support jacks are required and loading rate is reduced because of excessive vibration.

The ship's loading manifold should be rigidly restrained. Capacity of the Chiksan arms is limited to the loading rate at which vibration starts to become excessive. Poorly restrained loading connections tend to permit design which rigidly restrains each loading connection about 12 in. from the flange results in least vibration or highest loading rate. Space must be left to permit easy installation of the bolts in the flange.

Flanges on vessels loading manifold should be appropriately sized 150 lb. USAS *raised face* to mate with flanges on most Aramco loading arms.

(*d*) Refrigerated LPG.Facilities for loading Refrigerated LPG located in Berth 6. LPG loaded at approximately -40°F. for propane and 30°F. for butane. Maximum loading rate 8,000 bhp. for butane and 20,000 bph. for propane. Ships arriving for Refrigerated LPG cargo should have cargo tanks chilled to desired temperature upon arrival. RLPG loading facilities consist of following:

(i) Two 22-in. insulated loading lines each with a 6-in. liquid return line from pier to storage tanks. 4,800 ft. lines manifolded to permit loading propane in one, and butane in the other simultaneously.

(ii) Two PCMA Chiksan loading arms, one 8-in. and one 12-in. The arms are 9 ft. 5 in. centre to centre and are located about 11 ft. 6 in. from ship's rail (12-in. arm is on the North side). The 48-ft. long arms designed for maximum operating elevation of 61·5 ft. above ISLW. Arms equipped with 150 lb. USAW raised face flanges. The 8-in. and the 12-in. arms manifolded to permit propane or butane loading through either arm. Using 12-in. arm propane can be loaded at rates up to 17,500 bhp. of —40°F. (20,000 bhp. equivalent 60°F. liquid). Alternatively butane can be loaded through same arm at rates up to 10,000 bhp. of +24°F. liquid (10,000 bhp. equivalent 60°F. liquid). Using 8-in. arm propane or butane can be loaded at rates up to 8,000 bhp. of —40°F. C_3 or +24°F. C_3.

(iii) One 20-in. ship-to-shore LPG vapour return line with 12-in. hose connection to ship's vapour manifold. The 12-in. vapour return riser is located 9 ft. North of 12-in. LPG loading arm.

(*e*) Blended Cargoes.

(i) Fuel/Crude. If vessel's draft permits, a full cargo of fuel or a split cargo of fuel and crude can be loaded at the North Pier. In the latter case vessel design should permit simultaneous loading of both fuel oil and crude. The maximum fuel oil loading rate on the North Pier is 25,000 bhp. No facilities to load fuel oil cargoes at Sea Island. However, fuel portion of split cargo could be loaded at North Pier after which vessel would be shifted to Sea Island to load crude portion. Bunker "C" fuel oil is available at Sea Island at rates up to 7,500 bph, metered.

(ii) Crude/Crude Blends. Many large vessels calling at Sea Island load two or more segregated parcels of crude and/or crude blends. Order assure satisfactory loading rates under these conditions, the piping arrangements aboard vessels should be such as to permit loading each parcel consecutively, at rates of 60 mbph., through two or three 16-in. Chiksan arms, Simultaneous loading of another non-blended crude is possible if ship's manifolding allows this.

(iii) Co-mingled. A 60 mbh. blender is used to supply blends of crude oil/products/LPG to both North Pier and Sea Island. A 30 mbh. blender is used to load blends at North Pier only. Both blenders required full time to load blends containing LPG where homogeneity is critical. Blends that do not contain LPG not required to be homogeneous during loading. Therefore whenever possible Aramco use "batch blend" method, sometimes referred to as "commingling" or "ship board blending". Blenders used to supply Sea Island with blends containing naptha.

(iv) Spiked Crude. Blends of Arab Light and Arab Medium crudes and LPG are commonly referred to as spiked crude. Order assure that boiling mixtures are not delivered to a ship at any time, blend vapour pressure calculations are made prior to each loading taking into consideration such factors as crude vapour pressure, LPG vapour pressure, and blend temperature. LPG and crude stream rates carefully controlled in Inline Blender and spiked crude blend continuously monitored by a Hallikainen Vapour Pressure Analyser so as to at no time exceed a Reid Vapour Pressure of 13 lb. or a True Vapour Pressure of 14.7 psia. For the amount of vapour to be vented, a non-boiling mixture with a True Vapour Pressure equal to atmospheric pressures will have only about 10–20 per cent more than for a stabilised crude of 4–5 lb. RVP.

(*f*) Loading Arms/Pressure.

(i) Piers. Chiksan loading arms used extensively for loading crude, crude blends, bunkers, and refrigerated LPG at Ras Tanura over North Pier. Hoses used at South Pier and for occasional product and bunker loading at North Pier. North Pier has six berths handling vessels up to 150,000 dwt., equipment as follows: Type of Arms: Chiksan HMLA* arms for crude oil, crude blends, and bunkers; Chiksan PCMA** arms for refrigerated LPG (one 8-in. arm and one 12-in. arm – both at North Pier berth 6). Number and Size: Most North Pier berths have four 12-in. arms per berth for cargo with an additional 8-in. or 12-in. arm for bunkers. The bunker arm is located South (aft) of cargo arms (except for 11 berths where arm located North of cargo arms). One berth (Mo. 8) has 12in.- arm for loading white products (located North of cargo arms) and three berths (Nos. 6, 8, and 9) each have a 12-in. arm in dual service for fuel oil cargoes or bunkers. Berths 8, 9, 10 and 11 each have two 12-in. arms through which fuel oil cargo can be loaded. Spacing of Arms: All arms on North Pier with exception of LPG loading arms are spaced 66 in. apart, centre to centre. Capacity: Each 12-in. arm has a capacity of 15.000 barrels per hour. The point at which vibration of arm and ship's manifold becomes excessive limits loading capacity. Flanges: All 12-in. arms have 12-in., 150 lb. USAS raised face flanges. All 8-in. arms have 8-in. 150 lb. USAS rasised face flanges.
* HMLA – Hydraulic Marine Loading Arm.
** PCMA – Pantograph-Counterweighted Marine Arm.

(ii) Sea Island. Double Counterweighted Marine Arms. Number of Arms: Sea Island berths 12 and 14 have three 16-in. arms for cargo and on 10-in. arm for bunkers in each berth. Bunker arm located South (aft) of cargo arm in each berth. A hose length is used if vessel bunker connection is forward of manifold. Sea Island berths 15 and 16 have three 16-in. Chiksan cargo loading arms. Space provided for future installation of fourth 16-in. cargo arm when demand for higher loading rate justifies installation. Berths 17 and 18 have four 16-in. cargo loading arms. Two loading arms in berth 18 are 72 ft. long. All other loading arms 60 ft. long. Two 10-in. bunker arms (one on each side of the cargo arms) provided in each of these four berths. Spacing of Arms: All arms on Sea Island spaced on 11 ft. centres. This large space required to permit rotating travel of counterweights. Elevation of Arms: Sixty-foot arms designed for maximum operating elevation of 72 ft. above ISLW whereas 72-ft. arms operate 97 ft. above ISLW. Capacity: Capacity of each of 16-in. arms is 30,000 barrels per hour. Actual capacity limited by vibration – thus ship's manifold design should be adequate and well supported. Flanges: Flanges on 16-in. arms of Sea Island berths 12 and 14 are 16-in., 150 lb. USAS *flat* faced. Flanges on 10-in. arms of Sea Island berths 12 and 14 are 10-in., 150 lb. USAS *flat* faced. Flanges on 16-in. and 10-in. arms of Sea Island berths 15–18 same as above except that they are *raised* face. An alarm sounds when pressure in loading arm reaches 100 psig and pier operator shuts down loading. A motor-operated valve upstream of loading arms is throttled during "topping-off" operations to prevent over-pressuring. In addition to alarm which sounds when loading system pressure reaches 100 psig. at Sea Island, loading pumps shut down automatically when pressure reaches 125 psig. This feature does not protect against high surge pressures associated with sudden shut-off against a high loading rate. Loading rate control is by means of a hydraulic coupling between pump and motor of each loading system. Speed of pump (and thus loading rate) is remotely controlled from Sea Island. Push button controls at loading arms and in control room shuts down loading pumps and closes a motor-operated valve in loading line. Pump discharge pressure on shore is 150 psig. Pressure at ship's manifold depends on size and number of ship's lines, number of tanks being loaded, loading rates, etc. Aramco design basis is for pressure of 30 psig. at ship's manifold when loading at 75,000 barrels per hour through Chiksan arms. Aramco recommend this same ship's manifold pressure for higher rates, also.

(*g*) Valves. Calculations indicate valves closing in *less than 30 seconds* when loading at high rates will cause excessive surge pressure and will possibly damage Chiksan arms and ship's loading manifold. Aramco strongly recommend that hydraulically controlled valves be adjusted to close in no less than 30–40 seconds. Several ships which have called at Ras Tanura have hydraulically operated

valves in their cargo handling syatems which close in 5 to 10 seconds. Closure of valves in 5 to 10 seconds while loading at high rates will result in momentary surge pressures well above pressure rating of ship's loading system fittings and maximum pressure rating of Chiksan arms. Aramco presently limits loading rate of ships equipped with fast closing hydraulic valves. As an example, ships with valves capable of closing in 10 seconds would be limited to loading rates of 22,000 bph. per system.

MEDICAL: When necessary, Master may obtain medical attention for ship's personnel from port doctor (quarantine officer), who may in the case of serious illness or injury recommend treatment at Dammam Government Hospital, Government or private clinics in Ras Tanura, or Al-Sharq hospital in Al-Khobar. Port doctor ordinarily will treat minor illness or injuries on board ship. A charge is made for medical attention or supplies furnished by port doctor or other private sources. Medical facilities of Aramco made available in emergency only when referral is warranted medically. A charge is made for medical attention or supplies furnished by the Company. Aramco radio station, HZY, may be used without charge by vessels at sea to obtain medical advice at any time.

WATER: The natural well water obtainable in Ras Tanura is quite brackish and is used mainly for washing. Well water obtainable at all berths on North and South Piers at a rate of 50 tons per hour. Water is not available at Sea Island. Vessels will be supplied with well water usually up to a limit of 100 tons at a cost of approximately $1.25 per ton. Distilled water also obtainable at all berths on North and South Piers, at a rate of 20 tons per hour, but supply usually limited to 25 tons per vessel. The cost is $4.00 per ton. No water or bunkering barges in port of Ras Tanura.

FUEL: The maximum viscosity of fuel oil bunker is 60 SF at 122°F. The maximum viscosity of black diesel bunker is 55 SU at 100°F. About 72 hours advance notice is needed for large lifting of these fuel grades.

It is recommended that vessels taking bunkers only, call at Ras Tanura prior to loading cargo elsewhere. By following this recommendation vessel will avoid delays caused by draft and berth assignment problems.

Bunkering facilities are operated by Aramco. Failure of a ship to provide advance notice of bunker requirements could result in vessel delays. Majority of bunkering effected through temperature-compensated positive displacement meters which record on print-out forms the net barrels at 60°F. delivered. Galley fuel is available at all berths at the North and South Piers at approximately U.S. $28.00 per ton. Not available at Sea Island. Lubricating oils available in limited drum quantities if ordered in advance by letter or radio through ship's Agent.

Sea Island. One 20/22 in. line supplying bunker "C" bunkers up to a maximum of 7,500 barrels per hour. Bunkering is simultaneous with cargo loading. A diesel supply line (black diesel) has been extended to berths 15 and 16 of Sea Island for bunkering vessels when alongside to either one of such berths.

SAFETY: Master should acquaint himself with Aramco's safety regulations, and obtain copy of regulations from terminal representative. Port of Ras Tanura maintains vigorous tanker loading safety programme. Arabian American Oil Company is a member of International Oil Tanker Terminal Safety Group (IOTTSG) and as such follows procedures recommended by this international organisation. Each ship's Master is presented a "Declaration by Master" by pier safety representative who discusses each item in detail with Master. Prior to start of loading cargo and at several times during loading, pier safety inspectors will personally visit vessel and, in company with one of ship's officers, will check to ensure that safe loading practices being observed by both ship and shore.

Hydrogen Sulphide Hazards: Aramco crudes may contain dissolved hydrogen sulphide in concentrations which would cause the gases vented during tanker loading to be hazardous if inhaled. Aramco recommend that Masters review instructions issued by Owners/Charterers about hydrogen sulphide hazards. If loading of H_2S bearing crude oil is not covered by such instructions, Aramco has available, upon request, a list of recommendations to aid Masters.

Signals for Emergency: (*a*) Ship should sound an "Emergency Stations" signal consisting of a continuous ringing of ship's alarm bells supplemented by a series of short blasts of ship's whistle or siren. (*b*) Telephone is fitted on jetty. Normally, Aramco personnel will telephone for assistance. If no Aramco personnel available, ship's personnel may call for emergency assistance by dialing telephone number 3100 from any berth. (*c*) Assistance can be summoned on VHF radio if necessary. Use International Channel 16 on VHF. Give location and extent of assistance required. (*d*) Shore signal in event of an emergency is either a fire siren or a series of short blasts on an alarm or horn.

CUSTOMS: All materials to be either exported from or imported into Saudi Arabia subject to examination by Customs authorities. Importation of certain articles is strictly prohibited. Such articles include: alchoholic beverages, including beer and wines; explosives; firearms; implements of war of any kind, including antiques; religious matter not pertaining to the Moslem faith; playing cards and gambling devices; narcotics. Trafficking in these items between ships also is strictly prohibited. This applies to ships at anchor as well as to ships at piers. Almost without exception, all other commodities subject to close examination and to Customs Duty if imported. Saudi Arab Government discourages trafficking between members of ship's crews and shore personnel.

CONSULS: United States Consulate General established at Dhahran, about 50 miles by road from Ras Tanura. British Political Agent established on Bahrain Island. It is very difficult, however, to contact Bahrain Island from Ras Tanura, and Masters having business there usually arrange to call at port of Sitra.

REPAIRS: Relatively limited repair service available from local business concerns. Aramco will assist in making emergency repairs on vessels only if approved by Aramco Marine Superintendent of Chief Harbour Pilot. Suggested that Master discuss repair charges with ship's Agent prior to authorizing or requesting any repair work. Deep sea divers, operating from modern and well-equipped diving boats, available under same conditions as repair services. When alongside Aramco piers, vessels must maintain engines and propulsion machinery in readiness to leave the pier under full power on short notice. No repairs permitted which would interfere with this requirement. Violation of this rule will entail towage from the berth at the vessel's expense and Aramco will not accept responsibility for the resulting delay to the vessel.

REPATRIATION: Arrangements can be made through ship's Agent. The following countries are considered cholera infected areas: Burma, Cambodia, India, Indonesia, Laos, Nepal, East and West Pakistan, Philippines, Singapore, Thailand, Vietnam. All concerned persons, including regular passengers and crew members, must bring in a stool culture Certificate and five-day stay in a cholera-free area Certificate, in addition to the usual Health Certificate, for entry into Saudi Arabia. Persons not possessing the above mentioned certificates will be denied entry by SAC. Immigration Authorities and returned to the place of their embarkation.

AIRPORT: Ras Tanura terminal about 50 miles from Dhahran Airport, This airport is serviced by many international airlines.

TIME: Company generally bases local time on 45th meridian (3 hours East of Greenwich). In order to avoid any confusion all communications should be quoted in Greenwich Mean Time.

HOLIDAYS: Ras Tanura port operates 24 hours a day, 365 days a year, irrespective of holidays.

EMERGENCY TELEPHONES: Emergency (fire, serious injury), 3100; Port Control, 3101; Pilots' Office, 7195; Pier Foreman: North Pier, 7140; South Pier, 7161; Sea Island, 7152.

SERVICES: (*a*) Recreation Centre. Seaman's Recreation Centre located at shore end of South Pier causeway. The route to the centre and area itself is prescribed and no one should attempt to violate these limits, as Coast Guard personnel guard the route. Violators subject to arrest. Arrangements may be made through ship's Agent for launch transportation from North Pier. During limited hours, soft drinks and ice cream available at nominal cost. Motion pictures, games, and a barber shop also located at this facility. (*b*) Provisions. Ship's chandlers available through ship's Agent at piers, but are not allowed to board vessel. (*c*) Oil Inspectors. Oil inspection service maintained by following independent agencies: Charles Martin Inspectors of Petroleum Inc., 61 Broadway, New York, New York 10006; E. W. Saybolt & Co., S.A., 400 Swenson Drive, Kenilworth, New Jersey 07033; U. S. Navy. (*d*) Surveyors. American Bureau of Shipping and Lloyds of London maintain a marine surveyor at nearby Manama on Bahrain Island.

SHORE LEAVE: Ship's personnel and passengers not permitted ashore for any purpose whatsoever until pratique granted. This regulation includes going to pier to read arrival draft. Personnel may go to pier if actually engaged in duties connected with discharging of ballast, loading, etc., but only after pratique granted. All shore leave contingent upon compliance with quarantine regulations. Direct transit to or from Seamen's Recreation Centre requires no special government approval. Centre is open to seamen usually between the hours of 1430 and 2230 local time each day (during summer months of May through September, Centre is open between hours of 1330 and 2130 local time.) Saudi Arab Government regulations strictly enforced, and if Masters have any doubts with regard to these regulations they are urged to consult their Agent. While in port, vessel's personnel under jurisdiction of Saudi Arab laws.

AUTHORITIES: The Arabian American Oil Company, Dhahran, Saudi Arabia. Cable Address, Aramco, Dammam.Port Officials: Saudi Arab Government port authorities located in Customs House, Port Office, and Quarantine Office at Ras Tanura.

AGENTS: Mail Address: Gulf Agency Co. (Saudi Arabia) Ltd., Aramco Mail Box 621, Ras Tanura, Via Dhahran, Saudi Arabia. Telephones: 7118, 7190. Cables: "Confidence", Dammam. Due to slow cable communication, messages of any urgency should be sent via the telex of Bahrain office, telex: 211 Bahrain, Answer back: "Gacship 211", stating "For Ras Tanura". Radio: Vessels can communicate with SSB radio station, frequencies 3539 and 6910, call "Confidence Ras Tanura". For ship to shore communication Ras Tanura office is also equipped with VHF radio, call "Confidence Ras Tanura", on Channel 16, and switch to Channels 13, 6, 9, or 14 for communication.

YEMBO (Yenbo): 24.05 N. 38.03 E.

FLAG: Saudi Arabian flag must be hoisted.

LOCATION: On Red Sea coast, about 218 nautical miles North of Jeddah.

CHANNEL: Ships entering port pass a channel of the following measurement: Length 1647 metres, width varying between 70 to 130 metres, width at entrance between beacons 310 metres.

BEACONS: 11 miles outside port, beacon at Al-Sharm. Height 23 ft. White flash every ten seconds. At entrance of port channel two beacons, height 15 ft. Starboard-hand beacon (black), green flash every second. Port-hand beacon (red), red flash every second.

795 metres from channel entrance on port hand is another beacon height 15 metres (black and white squares), white flash every second

BUOYS: Channel is buoyed with red and green port and starboard-hand buoys.
PILOTAGE: Compulsory. Vessels requiring Pilot should exhibit code flag or International light signal.
DOCUMENTS: All vessels calling Yembo should provide the authorities with the following:
Passenger Vessels
Certificate of Registry.
International Safety Certificate (issued and validated from one of the signatory states of the pact).
Radio-telegraphy Safety Certificate.
Cargo Vessels
Certificate of Registry.
Load-line Certificate.
Safety Construction Certificate.
Safety Equipment Certificate.
Safety Wireless Certificate for vessel of 1,600 tons dwt. or more
Safety Wireless and Telephone Certificate for vessels of 300 tons to 1,600 tons dwt.
Requirements of Cargo and/or Pilgrim Documents:
For Doctor
2 copies Passenger List – landing.
2 copies Passenger List – transit.
2 copies Crew List.
2 copies Declaration of Health.
For Customs
2 copies Passenger List – Landing.
2 copies Passenger List – Transit.
2 copies Crew List.
2 copies Ship's Bond (tobacco, spirit, wine and beer).
For Immigration
6 copies Passenger List – Landing.
For Agents
6 copies Passenger List – Landing.
1 copy Crew List.
HEALTH: All incoming vessels should abide by health regulations and present necessary documents to the authorities in accordance with international laws, i.e. as under: Q if the health condition is clean. QQ if there is a suspicious case in the vessel. QL if there is an infection or epidemic case on board.
RADIO: Until the implementation of a Beacon Station for navigation, all ships entering port before passing the channel should contact Port Department by radio/telephone during following times: 0500 to 0600 GMT; 100 to 1100 GMT; 1400 to 1500 GMT.
These are the decided times during normal days, but during the Hajj Season a new publication is issued to cover additional times.
BERTHING: The port has two quays built at right-angles. The Northerly berth is 170 metres long and the Easterly berth is 210 metres long. The depth is 31–32½ ft. The port can accommodate 2 big and 1 small ship or 4 small ships. Turning circle is 350 metres.
Mobile cranes with a capacity of between 1 and 5 tons are available. There is also a supply of fork-lifts to meet with present port requirements. Discharge is mostly carried out by ship's own gear.
There are no barges at Yembo, but 70 native lighters (sambouks) with a capacity of between 5 to 80 tons are available. The total capacity of these native lighters is 1,034 tons.
STEVEDORES: Like Jeddah, stevedoring at Yembo, is based on daily paid basis. There are no stevedoring companies and labour is engaged on day to day basis.
There is one custom warehouse at the moment (at Easterly berth) which can accommodate about 10,000 tons of cargo. This shed is near quay and can receive cargo direct into shed from vessel.
FRESH WATER: Ships receive fresh water alongside quay and a 24 hours advance notice by the Master should be given. There are no facilities to supply water at anchorage.
CUSTOMS: Each crew member may have 200 cigarettes or ½ lb. tobacco, but all alcohol and wine, beer, etc., must be sealed. This applies to all persons on board. For each flask/glass/bottle containing alcohol found by the customs, there is a penalty of £100 sterling.
SHORE LEAVE: Passengers may only go ashore if they have a valid visa. Crew may go ashore if they have written permission from Master and leave their passports with passport office at the port.
AGENT: Head Office. Gulf Agency Co. (Saudi Arabia) Ltd., Shipsbrokers and Agents, POB. Airport Post Office, Dhahran, Saudi Arabia. Cables: "Confidence Dammam". Tel. 2441, 23425/26/27. After office hours. 22861–41742.

Senegal

DAKAR: 14.40 N. 17.26 W.

DOCUMENTS:
5 Crew Lists.
2 Lists of Vaccinations.
6 Lists of Passengers in Transit.
6 Lists of Passengers Disembarking.
4 Lists of Crew Personal Effects.
4 Lists of Ship's Stores.
PILOTAGE: Pilots meet vessels off the island of Gorée in a naturally sheltered area.
RESTRICTIONS: During the rainy season, all vessels with a draft of more than 32 ft. 6 in. could be delayed due to the effects of swell to stay at anchorage in outer-roads and await meteorological conditions permitting their entry into the harbour.
Use of whistle signals to call Pilot is forbidden between 2200 and 0600 hours. The harbour area is dredged to a depth of 10 to 11 metres.
MAX. SIZE: Ships of 33 ft. draft are able to enter at all stages of the tide by day and night. Vessels up to 36 ft. draft may enter at high tide except possibly during the stormy season, between mid August and Mid October.
HEALTH: Health Officials board vessel immediately after berthing alongside. For passenger vessels, these formalities are effected before berthing to avoid delays. Vessels at sea may obtain medical advice by VHF via Dakar Radio.
VHF: The Port Captain's Office, pilot station and tugs are equipped with VHF, with the following channels: Channel 16 used by vessels approaching to contact pilot station or Port Captain's Office; Channel 12 used during manoeuvres for communications between Pilots and tugs; Channel 6 used only by the tug station.
TUGS: Operated by a private company, 4 tugs available up to 2,000 h.p.
BERTHING: 9,000 metres of quay length available of which more than half has depths of 8 to 12 metres alongside.
Mole D'Escale: 6 berths, depth alongside 10 metres, can be used for vessels refuelling simultaneously with cargo operations.
Pier 718 Phosphate quay (Pechiny). 215 metres long, max. draft of 25 ft. 7 in., loading average of 200 T/hour.
Pier 52 Phosphate quay (TA IBA). 170 metres long, max. draft of 36 loading average of 1,000 T/hour.
The South area has three wharves with a depth of 26–33 ft.
Dock I is 460 metres long.

Berth No.	12	Draft	26 ft. 3 in.
,, ,,	13	,,	28 ft. 7 in.
,, ,,	14	,,	28 ft. 7 in.
,, ,,	15	,,	33 ft.
,, ,,	17	,,	33 ft.

Dock II

Berth No.	21	Draft	27 ft. 3 in.
,, ,,	22	,,	26 ft. 11 in.
,, ,,	24	,,	26 ft. 3 in.
,, ,,	25	,,	25 ft. 11 in.

Dock III
360 metres long. Max. draft of 32 ft. 10 in.
TANKERS: The Petroleum Basin is dredged to a depth of 10 to 11 metres. Two jetty berths can receive tankers up to 200 metres length, max. draft 32 ft. 6 in. Petroleum Wharf: 4 berths, depth alongside 12 metres (depth in approaches 11 metres) can receive tankers up to 250 metres length with a draft of 36 ft.
STEVEDORES: Normal working hours, weekdays from 08.00 to 12.00 and from 14.00 to 18.00. Saturdays from 08.00 to 12.00. Overtime, week-days from 05.00 to 08.00; from 12.00 to 14.00; from 18.00 to 22.00; from 22.00 to 05.00. Holidays and Sundays from 00.00 to 05.00; from 22.00 to 24.00.
MEDICAL: *Vaccinations:* Possibilities from 08.00 to 12.00 and 15.00 to 17.00. Sunday and holidays excluded. *Doctors:* All kinds of specialists available. *Hospitals:* With qualified European doctors and good equipment.
FRESH WATER: All quays are fitted with water hydrants. Water supplied by 3 hoses simultaneously, with a rate from 60 to 100 cubic metres per hour. Can also be supplied by barge up to 400 tons capacity.
FUEL: All grades can be supplied from the quays up to 1,000 tons per hour. Fuel can also be supplied by barge.
REPAIRS: All types of repair can be effected by the Naval Arsenal or by private companies.
DRY DOCK: At the Naval Arsenal, one dry dock length 189 metres, width 23 metres, depth up to 9.50 metres.
REPATRIATION: Seamen can be repatriated to Europe without delay by air.
AIRPORT: International airport with regular services to Europe.
TELEPHONES: All berths are equipped with telephone apparatus which is placed on board vessels without charge.
HOLIDAYS: New Year (1st January); Tabaski (Variable Date); National Day (4th April); Easter (Variable Date); Labour Day (1st May); Ascension Day (7th May); Whit Monday (Variable Date); Maouloud (Variable Date); National Day (14th July); Assumption (15th August); All Saints' Day (1st November); Korite (Variable Date); Christmas (25th December);
AUTHORITY: Port Autonome de Dakar.
AGENT: Socopao Senegal, 47 Avenue Albert Sararult, B.P. 233. Tel. 26600/7. Telex 521. Cables "Freight Dakar"

KAOLACK: 14.09 N. 16.06 W.

DOCUMENTS:
2 Crew Lists.
2 Store Lists.
2 Manifest pacotille (tobacco, wine, etc.). Agents deposit to Customs office.
PILOTAGE: Pilot taken on board, and lands in Dakar. When vessels do not require tank-washing, the Pilot disembarks in roadstead.
ANCHORAGES: Sufficient for three vessels only. About six metres deep.
RESTRICTIONS: Night navigation forbidden in river Saloum.
MAX. SIZE: Length 105 metres (because of river Valor).
HEALTH: Agent signals to Harbour Master. Provisionally vessels quarantine in Dakar. No hospital.
TUGS: No tugs. (Only from Dakar.)

BERTHING: Signalled by flag when berth available. Vessels enter at flood tide so that they can turn at anchorage to be ready for sailing.
MEDICAL: Yellow fever vaccinations only at Dakar. No hospital facilities.
DENSITY: August to December: sea water. January to July: 1·55.
FRESH WATER: Cost frs. CFA. 55. Ten tons/hour.
FUEL: None available.
GANGWAY/DECK WATCHMEN: Arranged by Agent.
OPENING/CLOSING HATCHES: By stevedores.
CUSTOMS ALLOWANCES: Tobacco, No restrictions, but Customs control on board (declaration on manifest). Crew going ashore only allowed cigarettes marked "Vente au Senegal". Wine and/or Spirit, Not limited, Customs controlled.
IDENTIFICATION CARDS: Not necessary.
CONSULS: None (Dakar only). French Consulate Agent: Mr Jean Guillemot. UTRAM. Tel. 87. Telex Mafic 781 SG.
REPAIRS: None (only Dakar).
REPATRIATION: Not possible (Dakar only).
AIRPORT: None.
TIME: GMT Permanent.
HOLIDAYS: Independence Day (4th April) no loading. Tabasky (dependent on moon phase).
FIRE: Fire Tel. 324.
TELEPHONES: Not possible to place on board.
SHORE LEAVE: Crew members allowed ashore.
PORT REGULATIONS: Vessels must hoist Senegalese flag and notify agent before entering port.
PORT AUTHORITY: Harbour Master Tel. 92.

AGENT: See Dakar.

Seychelles

PORT VICTORIA, Mahe: 04.37 S. 55.28 E.

DOCUMENTS:
Health Certificate – forms obtainable from Medical Officer.
Deratisation Certificate.
5 Crew Lists and Passengers' Lists.
Dangerous Cargo List.
Ship's Register.
PILOTAGE: 24 hours notice, giving draft and length, Telegraphic address "Port Officer" through Cable and Wireless on CW schedule 500 kc/s. and 8714 megs. schedule published in Radio List, no VHF station, no direct contact with pilot. Pilot boat: white hull with blue cabin, flies "H" flag. Signals for Pilot: "G" by flag and/or whistle and by night "G" by morse. Pilot boat stationed ashore and proceeds to sea to meet approaching vessels 3 cables Northward of outermost buoys in North Entrance Channel. Pilot can board in any weather. While awaiting Pilot, Vessel can anchor in any suitable anchorage in approaches to harbour. Pilotage compulsory for vessels over 150 tons net.
ANCHORAGES: (1) Anchorage A. In depth of 66 to 72 ft., fine sand and shells. Good holding, 9·75 cables, 058 degrees from Victoria Lighthouse.
(2) Anchorage B. In depth of about 64 ft., sand and coral. Good holding, 8·25 cables, 074 degrees from Victoria Lighthouse.
(3) Anchorage D. In depth of 78 ft. coral and sand. Good holding, 3 cables, 048 degrees from Victoria Lighthouse.
(4) Anchorage E. In depth of about 60 ft., sand and shells. Good holding, 1·25 miles, 089½ degrees from Victoria Lighthouse. Super tankers and large vessels anchor outside the Fairway Buoy in any suitable anchorage. The Master should always contact Port Officer for anchorage instructions if not familiar with harbour.
RESTRICTIONS: All shipping movement in Inner Harbour to take place during daylight hours only. Ships limited to 250 ft. in length. In Outer Harbour, night movement at discretion of Master. (Night facilities will soon be in operation.) No tide or draft restrictions.
HEALTH: "Q" Flag or international red over white. Medical Officer boards vessels at anchor and before entering Inner Harbour. Crew Lists with vaccination dates against smallpox, yellow fever and cholera if vessel from infected places. Health clearance given at Port Victoria only. Hospital facilities available.
RADIO: Cable and Wireless, Port Victoria, Mahe. Call sign ZCQ. No. VHF.
TUGS: Join vessels in Inner Harbour. Ship's lines must be used.
BERTHING: Due to limited space no berth can be reserved either alongside or at anchorage. All assistance given to position every ship in best available place.
STEVEDORES: ETA advice required two to three days before ship's arrival in port. Loading and Discharging: General Cargo: average 8 to 10 tons per hour per gang (subject weather condition). Bagged Cargo: average 10 to 15 tons per hour per gang (subject weather conditions).
TANKERS: No specific requirements. No restrictions in draft. Maximum length to 250 ft. No night discharge. Discharge line 4 in.
DENSITY: Average 1025 at all states of tide.
FRESH WATER: In good supply. By mains when alongside and steel barges when at anchor. All water supplied is chlorinated. Two special steel water barges with capacity of 100 and 80 tons each with pumping capacity of 40 tons an hour per barge. *Rates at anchor:* If supplied uring normal working hours i.e. from 7 a.m. to 4 p.m. on week days Rs. 8/- per ton. If supplied after normal working hours i.e. from 4 p.m. to 7 a.m. and Sundays and public holidays Rs. 9/- per ton. *Rates alongside:* Rs. 4.02 per ton.
FUEL: Marine diesel, viscosity 4·5/5·5 secs. at 100°F. Gas oil, viscosity 3·4/3·9 secs. at 100° F. Due to limited stock, it is advisable to give one week's notice.
DEVELOPMENTS: New harbour planned. Night navigational facilities available soon and more lighthouses for other islands.
GANGWAY/DECK WATCHMEN: Customs Officer on duty at all times if vessel carries cargo or passengers.
OPENING/CLOSING HATCHES: Normally carried out by Stevedores.
CUSTOMS ALLOWANCE: At Custom Officer's discretion. No fixed allowance.
CARGO GEAR: No local safety regulations required for cargo gear. All cargo slings and gears supplied by ship.
IDENTIFICATION CARDS: Not required.
CONSULS: French, Mr Andre Delhomme, Le Chantier, PO Box 69, Victoria, Mahe. Tel. 253.
Netherlands, Norway, Sweden, Denmark, Finland and Iceland, Mr. Harold Hunt, Port Victoria, PO Box 83, Mahe. Tel. 353.
REPAIRS: Only minor repairs to deck: gas welding, pipe bending, etc.
DRY DOCKS: None.
REPATRIATION: Crew changes for British ships and nationalities represented. Repatriations for same by Agents.
AIRPORT: Under construction.
TIME: GMT plus four hours, throughout year.
HOLIDAYS: *Public and Estate:* New Year (1st and 2nd); Good Friday; Easter Monday; Official Anniversary of the Birth of the Sovereign (8th June); Corpus Christi (15th August); Saints day (November 1st)); Immaculate Conception (December 8th); Christmas Day (December 25th).
TELEPHONE NUMBERS: Police 851–853; Fire 333; Ambulance 333.
A telephone is placed on board ships alongside for a fee of Rs. 25/- and a daily rate of Rs. 5/-.
SERVICES: No tank-cleaning equipment, no facilities for discharge of tank washing, no compass adjusting, no radar or radio engineer available.
SHORE LEAVE: All members of the crew are allowed ashore. No limit to shore leave.
DELAYS: Berthing: limited berth, adverse weather conditions. Loading or discharging: weather conditions. Bunkering: space alongside and weather conditions.
AUTHORITY: Port Officer, Port & Marine Department, Victoria, Mahe.

Sierra Leone

FREETOWN: 08.30 N. 13.14 W.

DOCUMENTS:
5 Crew Lists.
5 Ports of Call Lists.
5 Passengers in Transit Lists.
5 Passengers Landing Lists.
1 Crew Declaration (signed by Crew Members).
1 Store List.
1 Arms Ammunition List.
1 Port Health Declaration.
1 Vaccination List (smallpox, cholera and yellow fever).
Port Health Declaration, Crew Declaration Form and Arms and Ammunition List, all special forms, which obtained from boarding party or, if required, mailed in advance to ship's owners.
1. *For vessels working cargo (discharging):*
(*a*) From each port of loading, by air mail to vessels Agent: 6 copies of Cargo Manifest, 1 copy of Freighted Manifest.
(*b*) On arrival: 4 copies of Cargo Manifests, 1 copy each Bill of Lading (non-negotiable).
Note: Customs and Port Authority insists on documents in English, and that Manifests should show weights and measurements. Non-compliance with these instructions places vessel's Agent in difficult position, and vessel may not discharge without payment of fine.
2. *Required by Port & Stevedores for vessels working cargo:* 4 copies Stowage Plan, 4 copies Hatch Lists.
PILOTAGE: Vessels can enter and leave port anchorage without Pilot. Pilotage only compulsory for vessels berthing alongside Queen Elizabeth 2nd Quay or Kissy Oil Jetty. Upon Master's request, Pilot available at Fairway Buoy with 24 hours notice. Normally only at daylight hours. Port entrance is between Cape Sierra Leone to South and Fairway Buoy to North. Is approximately 1 mile wide and minimum draft 36 ft. To West harbour is protected by sand shoals, nearest to entrance is O'Farrell Shoal about 1½ mile North of Cape Sierra Leone.
ANCHORAGE: With Falconbridge Point Beacon bearing as follows (all bearings true): Note: Falconbridge Point Beacon circular steel tower 8 ft. high, painted white with two horizontal black bands; F1. white every 2 seconds.

1700–1730	8710	8354 to 8374 kc/s

Traffic lists broadcast at commencement of every HF schedule, and repeated at intervals during schedule.

Ships' Radiotelephone and Harbour Service: Watch kept on 2182 kc/s for casual R/T traffic from 0730 to 2000 hours GMT on week-days and 0800 to 1730 hours GMT on Sundays and holidays. Ships advised arrange calls in advance by W/T where possible order ensure called party available take call. Calls can be connected to or from any number on Freetown telephone exchange. Longer range contacts should be in 8 mc/s maritime band, frequency of VPU in this band being 8768·9 kc/s.

Other Services: Navigational warnings broadcast on W/T. GTC beacon signals transmitted upon request. Spoken telegrams accepted at ordinary W/T rates on R/T.

AGENTS CABLE REQUIREMENTS: Masters requested cable ETA as early as possible. Following information required:

(*a*) For vessels working cargo: 1 Discharge or Loading Hatch distribution. 2 Gangs required. 3 If Explosives on board for Freetown or in transit.

(*b*) For vessels bunkering: 1 Bunkers and water required.

(*c*) For Tankers discharging: 1 Total Displacement. 2 Draft. 3 Cargo particulars (quantity and grade).

(*d*) For vessels embarking/disembarking krooboys: 1 If Krooboys provisions required and for how long. 2 Cash requirements. 3 If service on arrival if arriving between 10 p.m. and 7 a.m., bearing in mind the high costs for Customs overtime and port service.

(*e*) In general: 1 Cash requirements. 2 Water requirements. 3 Medical attendance, if required on arrival.

When ETA received and confirmed agent will cable vessel informing despatch prospects and if not berthing on arrival, anchor berth.

Note: For vessels returning to Freetown from round trip to coast, information should be cabled if any over-carried cargo, etc., to be discharged.

TUGS: Two tugs "Farren" and "Fourah" which twin screw, diesel engined, and develop 1,000 h.p. each. "Fourah" only equipped for salvage having fire-fighting equipment and a 10-ton derrick. Normally one tug used for berthing and unberthing operations, but if necessary two. Charges for berthing and unberthing include use of one tug, whether required or not. Tugs' lines £3.

BERTHING: (See "Developments".) All alongside berths: between hours of 0630 and 2330. Kissy Oil Jetty: vessels of 15,000 tons and upwards, berthing flood-tide only.

Queen Elizabeth 2nd Quay No. 1: Berthing length: no restriction; breadth: no restriction; maximum draft 31 ft. 6 in. At this draft vessels must be 180 ft. from steps East end of quay. Vessels up to draft not exceeding 24 ft. may berth as far east as steps. Unberthing not permitted from 1 hour after high water until 1 hour after low water. Pilots may at their discretion, under favourable conditions, extend these times.

Berth No. 2: As for Berth No. 1, maximum draft 31 ft. 6 in.

Berth No. 3: Berthing and unberthing, length and breadth no restrictions. Maximum draft 31 ft. 6 in. No tidal restrictions.

Berths 4, 5, and 6, Maximum draft 33 ft.

Quay is equipped with 3 electric travelling cranes, the maximum lift being 5 tons. The port is not equipped with any heavy-lift equipment. Produce is loaded from both berths and transported by trailers to ship's side from shipper's shed, close to port area. Facilities for loading Palmkernel Oil available only at Berth No. 1.

Grain discharge facilities also only at Berth No. 1.

Kissy Oil Jetty: Berthing and unberthing restricted as follows: length 600 ft. Pilots at discretion extend this length, taking into account mooring facilities on vessel being available. Breadth no restriction. Maximum draft 32 ft. Jetty restricted to 30,000 tons displacement. Regulations: 18,000 tons to 30,000 tons displacement must berth bows West at slack water or when flood tides does not exceed 2 knots at approach route and alongside jetty. 15,000 tons to 18,000 tons displacement berth slack water or anytime during flood tide, must berth bow West. 15,000 tons displacement or less anytime during flood or ebb tide, bows East or West. Ship's anchor must be used for all vessels.

Pilotage also undertaken to and from Kissy Cold Store Jetty, a private jetty, but pilotage not compulsory.

Kissy Cold Store Jetty: Berthing or unberthing (daylight hours only) maximum length 270 ft. breadth no restriction. Weather must be calm, no swell in harbour, no wind of more than force 2 to 3. Maximum draft 14 ft. 6 in. These vessels can be berthed under less favourable conditions at Pilot's discretion. Berthing and unberthing only 1 hour after high water.

During discharging and/or loading, Customs Officers, normally 2, as well as 2 Port Authority Discrepancy Clerks (only when discharging) will be on board. In accordance with regulations same should be provided with food during normal meal hours. Recommended that vessels provide food in order not to encounter unnecessary delays.

Loading of Transhipment Cargo: Due extremely lengthy procedure and consequently high cost in having transhipment cargo released and brought alongside ready for shipment, officers requested accept this cargo (when consisting of a small number of packages) immediately upon its release from Custom's Warehouse order minimise transhipment expenses.

DANGEROUS CARGO: Dangerous cargo, explosives, small arms, ammunition, *must not* be unloaded either alongside or into lighters unless Port Authority has been notified on approved form, and has given permission for cargo to be discharged. Vessels should cable prior arrival if dangerous cargo for discharge on board.

TRANSHIPMENT CARGO: Port Authority will accept transhipment cargo, but ample advance notice necessary and owners should not make arrangement for transhipping cargo at Freetown, without receiving confirmation from Port Authority through their agent.

LIGHTERAGE: Sierra Leone Ports Authority operates lighter fleet, presently 14 lighters and 2 tugs for handling. Lighters mostly used order minimise berthing delays and generally only bulk cargo such as sugar in bags, etc., discharged by lighters. Lighterage effected 24 hours a day at anchorage, and capacity each lighter about 100 tons/5000 bale. Lighterage fleet operated from former lighterage quay east of Queen Elizabeth 2nd Quay. Lighterage will take place only at discretion of Port Manager, and condition of the lighterage fleet is rather poor.

STEVEDORES: (See "Agents Cable Requirements") ETA as soon as possible. Discharge/loading hatch distribution. Gangs required. Bunkers and water requirements information re explosives. For tankers discharging – total displacement and draught. Work ashore undertaken by Sierra Leone Ports Authority on cargo quay, Queen Elizabeth 2nd Quay, whilst work on board as well as discharging and/or loading to or from lighters at stream undertaken by private stevedoring companies, generally same as vessels' agent.

Working hours alongside quay: Total hours: from 0800 to 2200 hours. Normal working hours from 0800 to 1200 hours, from 1300 to 1700 hours, Saturdays: from 0800 to 1200 hours.

No meal-break but the hour 1200 to 1300 counts overtime.

Working at Stream: Discharging and/or loading to or from lighters effected 24 hours a day. Gangs can be arranged at anytime between 0730 hours and 1800 hours week-days as well as Sundays, etc.

RADAR/VHF: No radar service. VHF Channel 16. A Marconi technician is stationed in Freetown, tel. 4828. Watch is kept 24 hours on Channel 16, switching to Channel 26 for communication. Calls can be connected to Freetown telephone exchange. Masters advised that fullest use should be taken of this service, particularly after office hours and during early hours of morning or late at night when no cable service available.

MEDICAL: Hospital facilities available.

TANKERS: No special requirements. One berth, maximum length 600 ft. (may be extended by arrangement with Pilot). Maximum draft 32 ft. Maximum disp. tonnage 30,000.

DENSITY: 1018 to 1025.

TIDAL INFORMATION: High water at full and change at 7 hours 21 minutes. Mean high water springs 10·1 ft.; Mean high water neaps 7·6 ft.

Level of zero of prediction: 20·43 ft. below surface of base of Government Wharf light beacon (now closed). Heights refer to datum of Admiralty charts, and should be added to depth given on chart. In dry season stream on flood at anchorage runs from 1 to 1½ knots at springs, and from 2 to 2½ knots on ebb. At neaps stream on flood

runs about half a knot, and on ebb about 1 knot. Duration of flood stream about 5 hours, and ebb stream about 7 hours. In rainy season stream on ebb runs with great strength, sometimes 5 knots.

Mariners warned that tides set across harbour entrance and caution should be exercised when approaching Fairway Buoy. When tide falling at Freetown, tidal stream sets in a South-westerly direction at harbour entrance, and in a North-easterly direction when tide rising.

FRESH WATER: Queen Elizabeth Quay 30 tons per hour; Water barge 30 tons per hour; Kissy Oil Jetty 12/15 tons per hour.

FUEL: Most grades 12 hours.

BUNKERS AND FRESH WATER FACILITIES: Each berth (Queen Elizabeth 2nd Quay) gives opportunity for bunkering, suppliers Shell and Mobil, and also supplies fresh water. Vessels can also take bunkers and water at Kissy Oil Jetty as well as ex. barge. Fresh water ex. barge and on quay supplied by Ports Authority and 3 barges of 110/130 tons capacity available. Bunkers barge supplied by Texaco/Caltex/BP, by two barges, each with capacity about 700 tons d.w. Delivery rate for bunkers about 150/200 tons an hour, for water between 20/35 tons.

GANGWAY/DECK WATCHMEN: Strongly recommended, available through Agent.

OPENING/CLOSING HATCHES: Stevedores.

CERTIFICATES:
Ship's Register.
Deratisation Certificate.
Deck Passengers Certificate.
Radio Certificate.

CUSTOMS ALLOWANCES: Tobacco, 40 cigarettes *or* ¼ lb tobacco. Wine and/or Spirits, ¼ bottle of spirits. Master – 200 cigaettes and one opened bottle of spirit.

IDENTIFICATION CARDS: Not required.

CONSULS:

REPAIRS: All repairs if spares supplied.

DRY DOCKS: No dry docks in Freetown. Slipway of 500 tons capacity.

REPATRIATION: Can be arranged.

AIRPORT: By bus and ferry to Lungi Airport, one hour journey. Served by regular airlines.

TIME: GMT throughout year.

HOLIDAYS: Several religious and anniversary holidays. Port works every day except Good Friday and Christmas Day.

POLICE/AMBULANCE/FIRE: Police 3001; Ambulance 2001; Fire 2001; Emergency for all above No. 009.

TELEPHONES: Not available for placing on board.

GENERAL: Always confirm time of entering harbour with the Aberdeen Hill Signal Station to ensure turn for berthing. Draught should be indicated.

SERVICES: Tank cleaning. Tank and hull scaling.

SHORE LEAVE: Allowed.

DELAYS: Berthing, loading or discharging – up to 2 days. Bunkering – up to 12 hours.

AUTHORITY: Sierra Leone Ports Authority, Queen Elizabeth II Quay, Cline Town, Freetown, Sierra Leone. Tel. Freetown 5111. Cables "Portman, Freetown."

AGENT: Scanship (Sierra Leone) Ltd., 1 College Road, Cline Town, PO Box 130, Freetown. Sierra Leone. Tel. 2071 (night connection). Telex. 212, A/B "Scanship Ftn". Cables "Scanship Freetown".

PEPEL 08.34 N. 13.04 W.

On Sierra Leone River, 15 miles upstream from Freetown. Approach Channel between Freetown anchorage and Pepel is fully buoyed for night navigation.

DOCUMENTS: See Freetown.

PILOTAGE: Private pilotage undertaken by mining Company's Pilots who board Freetown anchorage, 48 hours ETA required, cable "Mags Freetown Sierra Leone", giving ETA Fairway buoy, quantity water/fuel required, asking free pratique, and if Pilot required to Freetown anchorage.

ANCHORAGE: See Freetown.

RESTRICTIONS: Draft only, decided at discretion of berthing master. Entry daylight hours only. Channel between Pepel and Freetown is now deepened so that depth in channel is 39 ft. plus height of tide According official tide tables, range of high tides is from approximately 7 ft. to 11 ft. above Admiralty Chart Datum.

MAXIMUM SIZE: Length 840 ft., beam 128, depth water 39 ft. plus height of tide which ranges from 7 to 11 ft. above Chart Datum. September to December additional draft restrictions due Channel Silting.

HEALTH: See Freetown. 48 hours advance warning for free pratique.

TUGS: Not used.

BERTHING: Milton Margai Pier only. 4,000 tons to 10,000 per day according to size of vessel.

New dolphin mooring system installed to permit handling larger ships. Depth alongside 45 ft.

Shiploaders maximum boom height when in horizontal position is 71 ft. above Chart Datum, with maximum outreach 87 ft. from berthing line. Loading rate now increased to 4,000 tons per hour.

Under the new conditions, limiting dimensions for ships (which must be equipped with satisfactory mooring equipment): Length overall 840 ft. Moulded breadth 128 ft.

Allowance must be made for safe navigation, permissible sailing draft of all ships will, as at present, remain absolutely at discretion of Berthing Master at Pepel or his deputy. It is possible that yearly during the months of September to December an additional draft allowance will have to be imposed by reason of seasonal silting of the channel, but it is intended to carry out annual maintenance dredging.

Company will be prepared to consider acceptance of ships having dimensions in excess of those above but only after specific approval of fully detailed plans of each ship concerned and, in any event, not in excess of dimensions Length overall 870 ft. Moulded breadth 136 ft. Moulded depth 73 ft.

Berthing displacement 63,000 tons on an even keel ballast draft of 23 ft. forward and aft on berthing.

STEVEDORES: Available.

FRESH WATER: Available, 48 hours notice required.

FUEL: Limited supplies available, 48 hours notice required.

GENERAL: See Freetown for all general information.

TIME: GMT plus 1 hour.

TELEPHONES: None available.

SHORE LEAVE: Not allowed. Customs and Immigration regulations prohibit any member of crew from disembarking at jetty or other works.

DELAYS: First come first served.

AUTHORITY/AGENTS: Mining & General Services Ltd., PO Box 68, Freetown. Tel. Freetown 4427; Telex Freetown 226. Cables "Mags". Lloyds Agents.

Singapore

SINGAPORE: (incl. Pulau Bukom, Pulau Sebarok and Tanjong Penjuru) 01.16 N. 103.50 E.

DOCUMENTS:
4 Ships Passenger Lists.
10 Crew Lists.
5 Cargo Manifests.
Customs Declaration of duty free liquor and tobacco Form (C and E 117) to be furnished by Master to Customs boarding officers. Master, mate, or authorised officer required to furnish information asked for by Officer i/c of Customs Boarding Party for Boarding Officer's Report (this only required if ship is to be searched).
Immigration: Four copies Crew List and two copies each of Disembarking and Through-passenger Lists on arrival. At departure, two copies Crew List and two copies Passenger List.

Declaration regarding presence on board of any stowaway, unauthorised person and/or repatriate.
Marine: All vessels: General Declaration on arrival or departure.
Port Health: Entry Declaration. Deratisation or Exemption Certificate. Vaccination Certificate requirements – Cholera: from infected local areas, except children under 1 year of age. Smallpox: from all countries, except children under 1 year of age if they arrive from a non-infected area or under 6 months of age if they arrive from an infected area.

Note: Additional measures may be applied to unberthed passengers if ship comes from infected port or a port in free communication with infected areas.

Crew Lists. Passenger List.
PSA (The Port of Singapore Authority): Arms and Explosives, and Dangerous Goods and Petroleum Declaration.

TRAFFIC LANES:

1. *The Sisters Channel* defined as the navigable water contained between Sisters Island and west St. John's Island, extending from a line joining Beacon 15 (Terumbu Selegi) to the northern end of Pulau Tekukor, and along the navigable channel margins projected tangential to the eastern side of the Southern Sisters Island and the western side of west St. John's Island until they meet a line joining the Southern extremity of west St. John's Island to Beacon No. 45, is designated an *Inwards Channel Only*.

2. *The Middle Channel* defined as the navigable water contained eastwards of a line projected in a 131° direction from the charted position of the Sisters Buoy, to where it meets a line joining the southern extremity of west St. John's Island to Beacon No. 45, thence along that line eastwards, to where it intersects a line lying in a 131°–311° direction drawn through the charted position of a channel buoy laid in position bearing 266° at one mile from S.W. extremity of Southern Sisters Island. Thence 311° to the southern limit of the Alternative Quarantine & Immigration Anchorage, thence along that limit to the charted position of the Sisters Buoy, is designated an *Inwards Channel Only*.

3. *The Sebarok Channel* defined as the navigable water contained westwards of a line projected in a 131° direction from the charted position of the Sisters Buoy to where it meets a line joining the southern extremity of west St. John's Island to Beacon No. 45, thence westwards along that line to where it meets a line joining Pulau Jong Trig. Station to Beacon No. 45, thence 313° to Pulau Jong, thence along a line extending from Pulau John Trig. Station to the charted position of the Sisters Buoy is designated an *Outwards*

Channel Only, except for those inward bound ships of such draught as precludes their safe use of the aforementioned Middle Channel.

4. *The Southern Fairway* defined as the navigable water contained between lines joining Beacon No. 45 to the Southern extremity of West St. John's Island, thence to Peak Island Light Beacon, thence with Beacon No. 39 in transit with Peak Island Light Beacon to the Southern port limit, thence Westwards along the Port Limit until Beacon No. 45 bears 313°, thence along that line to Beacon No. 45 is designated a fairway for vessels intending to enter or leave the port via the Sisters Channel, Middle Channel, or Sebarok Channel, whether from or to sea, or from or to the Eastern sector of the port. The Southern Fairway is to be considered sub-divided by a median line extending from the Western limit to the Eastern limit of the fairway. All westbound vessels are to keep Northwards of the median line, all eastbound vessels are to keep Southwards of the median line.

PILOTAGE: Compulsory only in Western Anchorage and when berthing alongside. Telegraphic address "Pilots". Preferably not less than 2 hours notice. Vessels requested to report ETA when within 20 miles of port. VHF calling and safety channel 16; Port Information Channel 12; Pilots Channel 22 or 157·1 or 161·7 mc/s.

Vessels approaching from West pick up Pilot in approx. position 01° 12′ 24″ N., 103° 51′ 30″ E., and from East at approx 01° 13′ 4″ N., 103° 51′ 8″ E. Vessels bound for Jurong can obtain Pilot at West Jurong Anchorage by calling "Jurong Control" on Channel 21. Pilot ladder required.

ANCHORAGES: As indicated on BA Charts of port area. Note: Revision and realignment of anchorages is due; these will appear on the appropriate charts. Anchorage prohibited in vicinity of SBM moorings.

MAX SIZE: Length, no restriction. Breadth, no restriction. Draft, Keppel Harbour – 33 ft. at zero tide. Jurong Wharves – Being dredged to 38 ft. at zero tide. Empire Dock – 27 ft. at zero tide.

Shell

Pulau Bukom – 10 berths and conventional buoy mooring.

Berth	*Length*	*Depth LWS*	*Displacement*
1A	200 ft.	10 ft.	670 tons
1	700 ft.	33 ft.	33,000 tons
2	700 ft.	33 ft.	33,000 tons
3	700 ft.	34 ft.	33,000 tons
4	700 ft.	34 ft.	43,000 tons
5	650 ft.	41 ft.	45,000 tons
6	800 ft.	45 ft.	92,000 tons
7	700 ft.	37 ft.	65,000 tons
8	800 ft.	41 ft.	65,000 tons
9	600 ft.	41 ft.	33,000 tons
CBM	1,200 ft.	65 ft.	250,000 tons

Esso

S.B.M.—A large orange coloured Single Buoy Mooring for discharging VLCC's has been established at the western entrance to Selat Sinki, exhibiting a quick flashing orange light in position Lat. 1° 13′ 51″ N., Long. 103° 41′ 29″ E., B. A. Chart No. 2165 and H. O. 3748. On the sea bed, a submarine oil pipeline extends from the SBM to the southern shore of Pulau Ayer Chawan. A floating pipeline extends from the SBM for several hundred feet into the surrounding area. The floating pipeline revolves around the buoy, and its direction from the buoy at any time will depend on wind and tide. The floating line will be marked with a flashing blue light at its outer end from sunset to sunrise. Mariners are advised to give the SBM a wide berth at all times, and on no account to attempt to pass between the flashing orange coloured light and the flashing blue light.

Pulau Ayer Chawan

Berth No. 1 length 270 ft., draft 42 ft.
Berth No. 2 length 620 ft., draft 42 ft.
Berth No. 3 length 740 ft., draft 42 ft.
Berth No. 4 length* 820 ft., draft 52 ft.
* Vessels up to 1000 ft. acceptable in ballast.

Pulau Sebarok – Berth No. 1: Maximum LOA 700 ft., maximum draft 41 ft.

Berth No. 2: Maximum LOA 700 ft., maximum draft 31 ft.

Caltex

Tanjong Penjuru – Two berths (No. 1 and No. 2) accommodate vessels alongside up to 45 ft. maximum draft.

Mobil Jurong – Maximum drafts alongside –

Berth	*Draft LWOST*
No. 1	46 ft.
No. 2	42 ft.
No. 3	22 ft.

B.P. Refinery

Pasir Panjang – Three berths at refinery. Small jetty inside harbour known as Jetty No. 2 and can receive small vessels up to 1,000 tons as water depth only 13 ft. below ACD.

No. 1 Jetty at South-west side of Tanjong Berlayer can accommodate vessels up to 33,000 tons at offshore mooring where dredged channel 35 ft. below ACD. Berthing cannot be effected for 43 days of year due strong tidal currents.

At Jetty No. 1A which is Northwards extension from Jetty No. 1 trunkway, vessels up to 5,000 tons can be berthed; water depth 30 ft. below ACD. Simultaneous mooring of vessels at Jetties Nos. 1 and 1A not allowed as floating hose used to connect Jetty No. 1 to ship at mooring buoys.

HEALTH: All ships other than gazetted mail ships, arriving within 5 days of departure from a cholera infected port, or within 14 days of departure from a smallpox infected port, or from a Vietnam port, should await health clearance at Quarantine Anchorage displaying appropriate signals.

All ships with suspected infectious disease on board should radio information to Port Health Officer and await clearance at Quarantine Anchorages. Health and Immigration. All vessels upon arrival required to anchor in Eastern Principal Anchorage (alternatively Western Principal Anchorage during the N.E. monsoon, approx. December to March), unless Health and Immigration exemption has previously been granted for a vessel calling for a maximum of 4 hours only for bunkering, storing, etc. Vessels from non-infected ports can obtain free pratique. Vessels from infected ports must fly "Q" flag for Port Health. Vessels must also fly pennants 2 over 5 (alternatively 3 over 4 when there are passengers aboard) for immigration.

Corresponding night lights red over white for Port Health and two green for Immigration. Once vessel has been cleared by Port Health and/or Immigration she must proceed to allotted berth/anchorage. On sailing, unless exemption granted, vessels must return to Principal Anchorage for Immigration Clearance; 2 hours notice required of departure.

RADIO: Singapore Radio. Frequency 156·8 m/cs. R/T call frequency 2182 kc/s. VHF Hague Plan Channel 16. ETA should be reported 20 miles out to "Faber Operations" Channel 12.

TUGS: PSA operates 7 tugs – 6 of 1,100 bhp and 1 of 500 bhp. One private company operates two 2,000 bhp. Shell operates 2 tugs approximately 1,500 bhp. A number of privately owned salvage tugs make the port their base.

Tugs join anywhere in port limits by pre-arrangement with Pilots. Normally ship's line used. All PSA and Shell tugs carry tow ropes for use if required. PSA charge for use of tow rope $24.00 (Singapore).

BERTHING: Vessel's Agents should submit to Authority a Schedule "A" (Application for Berth) giving overall length, maximum draft alongside, ETA and ETD of, and list of dangerous cargo on board vessel at least 24 hours before berth required. No berthing during darkness at Pulo Sebarok.

STEVEDORES: Labour should be ordered by 0900 hours for 2nd shift (1500 to 2300) on same day and by 1300 hours for 1st shift (0700 to 1500 hours) for next day. Vessels may work 3rd shift (2300 to 0500 hours) by arrangement. Minimum 24 hours notice to Agent of gangs required.

RADAR/VHF: RDF Beacons at Horseburgh Light (01° 19′ 8″ N.; 104° 24′ 5″ E.) frequency 301·5 kc/s signal PB; St. John's Island (01° 12′ 51″ N., 103° 51′ 10″ E.) frequency 265 kc/s signal SJ. Aero Beacons at Bukit Timah (01° 21′ 0″ N., 103° 46′ 0″ E.) frequency 288 kc/s signal BU; Paya Lebar airport North (01° 20′ 0″ N., 103° 55′ 0″ E.) frequency 294 kc/s signal NN; Paya Lebar airport South (01° 20′ 0″ N., 103° 54′ 0″ E.) frequency 335 kc/s signal SS. All operational 24 hours. For VHF see "Pilotage."

MEDICAL: When infectious disease not suspected, permission will be granted by Port Health Officer to Agent to take doctor on board and remove the case, if necessary, to hospital. Preferably as much notice as possible. Several hospitals, General Hospital, Gleneagles, Mt. Alvernia. Cholera, smallpox, plague, etc., are not endemic in Singapore.

TANKERS: Eastern and Western Petroleum anchorages or installations. No slop (residue) discharge facilities except at Shell, Pulo Bukom and Mobil, Jurong. Maximum i/d of discharge hose: 8 in. Smoking not permitted during period tanker alongside PSA wharves. Grades permitted for discharge along PSA wharves: (*a*) marine diesel oil, (*b*) fuel oil. See "Maximum size".

DENSITY: Usually between 1019 and 1022 unaffected by tide or temperature variations. Variation due to periodic heavy run-off of rain water.

FRESH WATER: Good pure water available at wharves Keppel, Jurong, Pulau Bukom and Mobil Jurong. Also by PSA Waterboats. Shore supply through hoses (2½ in. dia., approx. 20 to 25 tons per hour outlet.

FUEL: All grades available alongside PSA wharves and ex installation, otherwise by barge. Marine diesel oil 40 sec. to 100 sec. Heavy fuel oil 700 sec. to 1,000 sec. Thinned fuel 433 sec. to 450 sec. Blended fuel 200 sec. to 430 sec.

FIRE PRECAUTIONS: Normal precautions with respect to cargo vessels, vessels under repair, etc. Fire boats available. Oil companies apply own regulations at installations.

DEVELOPMENTS: East Lagoon, 2 container berths; depth 44 ft. below ACD (PSA); completion end 1972. Refinery at Pulau Ayer Chawan (Esso) 1971. Extension of Wharves at Jurong (JTC) 1971.

GANGWAY/DECK WATCHMEN: Recommended, particularly in Roads. Agents normally arrange. Cost varies.

OPENING/CLOSING HATCHES: Conventional hatches by stevedores. Mechanical hatches usually by ship's crew.

CERTIFICATES: If dangerous drugs on board, an export authorisation from country of origin and an import authorisation from country to which drugs being conveyed should be available for sighting and endorsement.

All vessels	Certificate of Registry or Tonnage Certificate. International Load-line Certificate or equivalent.
Passenger ships	Passenger Safety Certificate issued under International Convention for Safety of Life at Sea 1960 or the Simla Rules 1931.
Cargo ships	Safety Equipment Certificate (if over 500 tons gross) or equivalent. Radiotelegraphy Certificate or Radiotelephony Certificate whichever is applicable.

CUSTOMS ALLOWANCE: Tobacco: for crew and transit adult passengers. First day of arrival 50 cigarettes or 15 cigars or other tobacco 2 oz.; and for each subsequent day to the maximum of 7 days. 25 cigarettes or 7 cigars or other tobacco 1 oz.

Wine and/or Spirit: Wine allowance, one quart bottle per day to

maximum of 8 days. Spirit allowance, $\frac{7}{8}$ reputed quart (in opened bottles) on first day of arrival and $\frac{1}{8}$ reputed quart per day for rest of 7 days.

CARGO GEAR: Possession of valid test certificates. At PSA wharves, if gear appears faulty, an inspection by competent Port Officer may be required.

IDENTIFICATION CARDS: Sect. 22 (1) (c) of Ordinance provides for issue of Seamen's Identification Card as set out in First Schedule to the Immigration Regs. 1966, but rarely issued nowadays. Normally accept passports, discharge books or any identification cards issued by masters of vessels for purpose of granting shore leave to crew members, provided these documents sufficiently identify person concerned.

Gate Passes issued against crew list at wharves and installations. No passes required from roads, although some form of identification advisable.

CONSULS: Consuls, Embassies and High Commissions. America, Argentina, Australia, Belgium, Bulgaria, Burma, Cambodia, China, Denmark, France, Germany, Greece, India, Indonesia, Israel, Italy, Japan, Malaysia, Netherlands, New Zealand, Norway, Pakistan, Panama, Philippines, Poland, Portugal, Romania, Saudi Arabia, Sweden, Switzerland, Thailand, Russia, U.A.R., U.K., Vietnam.

REPAIRS: All types of repairs (hull, engine and electrical including navigational aids) carried out. Facilities also available for repairs out afloat while vessel in anchorages.

DRY DOCKS: Largest dock at Jurong shipyard, 260 metres long, 56 m. wide, depth 12 m. for vessels up to 100,000 dwt. 8 Graving Docks and 7 floating docks available at 3 shipyards.

Keppel shipyard, sizes as follows:

	Length	*Beam*	*Depth*
Kings' Dock	885′ 0″	92′ 6″	33′ 0″
Queen's Dock	620′ 0″	84′ 0″	25′ 0″
No. 1 Dock	400′ 0″	44′ 0″	14′ 6″
No. 2 Dock	450′ 0″	49′ 0″	16′ 6″
Victoria Dock	480′ 0″	55′ 0″	19′ 0″
Albert Dock	490′ 0″	54′ 6″	20′ 0″

REPATRIATION: Ships' Agents responsible for repatriating seamen. Mercantile Marine Office undertakes repatriation of distressed British seamen on behalf of Board of Trade, United Kingdom, whenever necessary. Seamen who hold proper documents which ensure entry into their countries of origin, citizenship and destination are normally granted Special Passes after discharge for purpose of repatriation.

AIRPORT: Six miles from city. Regular and frequent services to all parts of the world.

TIME: Singapore time, GMT plus 7½ hours. No seasonal change.

HOLIDAYS: Work can be arranged on all eleven Public Holidays. New Year's Day; Chinese New Year; Hari Raya Haji; Good Friday; Labour Day (1st May); Vesak Day; National Day (9th August); Deepavali; Hari Raya Puasa; Christmas Day.

POLICE/AMBULANCE/FIRE: City Police 999; Fire/Ambulance only, 28111; Flag signal: S over T. VHF channels 12 or 16. PSA Police 222; Fire 209 or 333; Ambulance 76021.

TELEPHONES: Available on board vessel at PSA wharves only, at a rate of $15 per day (24 hours) or any part thereof.

GENERAL: Master of any vessel in territorial waters of Singapore shall obey any signal from a preventive vessel and any instruction from officers of Customs. Customs officers shall have free access to any part of vessel and have powers to mark, lock or seal any dutiable goods on import including sea stores.

SERVICES: Following additional services available: Cleaning and preparing ship's tanks. Cleaning, scaling and painting. Insulation. Interior decorating and furnishing. Refrigeration and air-conditioning. Chemical cleaning of boilers, etc.

Services of following Classification Societies available: Lloyds Register of Shipping. Det Norske Veritas. American Bureau of Shipping. Bureau Veritas. Nippon Kaiji Kyokai. Germanischer Lloyd. Polski Register Stratkow. China Corporation Register of Shipping.

Compass adjusting – Director of Marine. DF Calibration. Radar and Radio servicing depots.

SHORE LEAVE: No restriction on crews landing after Immigration and Health formalities have been satisfactorily completed. With rare exception (e.g. CPG Crew), all *bona fide* crew of a vessel allowed shore leave on strength of their passports, discharge books or identification cards.

DELAYS: Normally none. Occasional congestion due to prolonged rainy weather or other abnormal conditions.

PORT AUTHORITY: Port of Singapore Authority (PSA), Marine Dept. P.O. Box 300, Singapore. Tel. 76021. Telegraphic address: "Tanjong" Singapore.

For Customs purposes: Comptroller of Customs & Excise, PO Box 750, Custom House, Singapore 2. Tel. 77576. Telegraphic address: "Comcust" Singapore.

AGENTS: Wallem & Co. (Singapore) Pte. Ltd., PO Box 761, Hongkong Bank Chambers, Collyer Quay, Singapore, 1. Tel. 97546/8. Telegraphic address: "Wallem". Telex SE 338.

Society Islands

BORA BORA (Vaitape): 16.31 S. 151.45 W.

DOCUMENTS: All vessels arriving in French Polynesia must first call for clearance at Papeete, or at Uturoa, or at Taiohae. See "Papeete" for documents required.

PILOTAGE: There is no pilotage station at Bora Bora; a Pilot will be provided at Papeete. Vessels are requested to advise their Agents at least 15 days before arrival of their ETA, length and draft of ship. In addition, Masters should confirm their ETA to the Port Captain of Papeete at least 3 days before arrival. Telegraphic address is Capitaine de Port, Papeete.

ANCHORAGE: Vessels may anchor in the port roads in depths of 34–21 metres. Good holding ground in sand and coral.

RESTRICTIONS: Night pilotage is impracticable due to the absence of lighted navigation marks.

MAX. SIZE: Lengths 220 metres, beam 30 metres, draft 9·60 metres.

HEALTH: Vessel should ask for free pratique by radio message to Santé Maritime Papeete, via coast station Mahina. This message to be sent 24 hours before arrival.

RADIO: Mahina Radio, call sign FJA, operating 24 hours per day on 500, 2,182 and 8,230 khz.

TUGS: No tugs available at Bora Bora.

BERTHING: One quay, 132 metres length, situated in Faanui Bay. Depth alongside 7·30 metres. This quay was constructed during the 2nd World War and is in poor condition, only used by small warships and yachts. One other quay 25 metres long and with depth alongside 4 metres. Situated at Vaitape. Used by barges.

MEDICAL: No doctor available, but there is a local infirmary.

FRESH WATER: Not available.

FUEL: Not available.

CUSTOMS ALLOWANCES: No restrictions for crew members, but all tobacco and alcohol must be declared. Crew men going ashore may not take more than 2 packets of cigarettes.

AIRPORT: Situated 7 kms. from Vaitape, only inter-island services.

TIME: GMT minus 10 hours. No change during the year.

HOLIDAYS: See "Papeete".

SHORE LEAVE: Allowed.

AUTHORITY: Chef de Post, Bora Bora.

PAPEETE: 17.33 S. 149.34 W.

DOCUMENTS:

Required by Port Health:
- Maritime Declaration of Health (form provided by the Pilot).

Required by Police:
- Crew List.
- List of Passengers Disembarking.
- List of Passengers in Transit.

Required by Customs (2 copies of each):
- Manifest of Cargo for Discharge.
- Provisions List.
- Mail List.
- Crew Personal Effect List.
- Bonded Stores List.
- Ship's Spares List.
- Crew List.
- List of Passengers Disembarking.
- List of Passengers in Transit.
- List of Animals Disembarking.
- List of Animals in Transit.
- Complete Cargo Manifest.

Required by Port Captain:
- Entry Declaration (from supplied on arrival).
- Crew List.
- List of Passengers Disembarking.
- List of Passengers in Transit.

PILOTAGE: Vessels are requested to advise their Agents ar least 3 days before arrival giving their ETA, length and draft of the ship, amount of cargo for discharge and any other requirements. In addition, Masters must give their ETA 24 hours before arrival to Captaine de Port, Papeete. Pilot station and pilot launches are equipped with VHF and may be contacted on Channel 16 when within 30 miles. Pilot launches have grey painted hull with a white band, with wheelhouse on the fore part. The pilot flag is described as the colours of code flag "W" upside-down. International code flag signals may be used to call Pilot. Pilot boards about 1½ miles from the entrance channel. There is no anchorage outside the port for ships awaiting a Pilot.

ANCHORAGE: Vessels up to 205 metres length can anchor in the port roads in depths of 18–25 metres. Good holding ground in mud.

RESTRICTIONS: Night pilotage is impracticable due to absence of lighted navigation marks. However, in case of emergency or for very small craft, entrance may be allowed up to ½ hour after sunset.

MAX. SIZE: Length 205 metres, beam 30 metres, draft 10 metres.

HEALTH: Vessels should ask for free pratique by radio to Santé Maritime Papeete, via Coast Station Mahina Radio. This message should be sent 24 hours before arrival. Pratique is automatic for vessels coming from another Polynesian port.

RADIO: Mahina Radio, call sign FJA, operating 24 hours per day on 500, 2,182 and 8,230 Khz.

TUGS: Tugs join the ship as soon as they are in the entrance channel. Generally, two-lines are not required, as tugs push the vessel only. There are 3 tugs available up to 1,200 h.p. belonging to the Port Authority, and in addition, there are two Naval tugs up to 700 h.p., which may assist if required.

BERTHING: Passenger Quay: 233 metres length, 2 berths, depth alongside 9 metres. Cargo Quay: 540 metres length, depth alongside 10·50 metres.

STEVEDORES: Cargo information should be confirmed to the Agents with ETA 48 hours before arrival.

VHF: The Port Captain's Office is equipped with VHF. Watches are kept on Channel 16 only in daytime, when a ship is expected.

MEDICAL: Advance notice required if medical attendance needed on board. Two hospitals available. Passengers disembarking must present a valid vaccination certificate.
TANKERS: One tanker berth, 105 metres long. Max. allowed draft 9·60 metres. Discharging hoses are: Mobil Oil 8 in., Standard Oil 6 in.
FRESH WATER: Available from pipe-lines on all quays. Loading rate is 50 tons per hour at passenger and cargo quays and 30 tons per hour at the tanker berth.
FUEL: Diesel and light fuel available subject to one week's notice.
DEVELOPMENTS: Construction of a new quay for passenger vessels up to 300 metres length. Dredging harbour entrance to 107 metres width and 11·30 metres depth.
WATCHMEN: Services of shore watchmen are necessary. Hatches opened and closed by crew if they are of mechanical type, otherwise the stevedores will perform this operation.
CUSTOMS ALLOWANCES: No restrictions for crew members but all tobacco and alcohol must be declared. Crew members going ashore must not take more than 2 packets of cigarettes. Passengers disembarking may take 200 cigarettes or 50 cigars or 400 grammes of tobacco and one bottle of alcohol.
CONSULS:

Belgium	tel. 447	Norway	tel. 721
Chile	no tel.	Netherlands	,, 1401
Finland	tel. 207		

REPAIRS: Woodwork, electrical and welding repairs can be effected. There are 2 floating docks for vessels up to 3,500 tons.
REPATRIATION: Can be effected.
AIRPORT: Tahiti – Faaa Airport is situated 6 kms. from the port. Regular international flights.
HOLIDAYS: 1st January, Easter Monday, 1st May, Ascension Day, Whit Monday, 14th July, 15th August, 1st November, 11th November, 25th December. No work is carried out on Sundays or on 1st May. All other holidays can be worked on double overtime rates.
TIME: GMT minus 10 hours. No alterations during the year.
POLICE/FIRE/AMBULANCE: Police, tel. 107; Fire, tel. 164; Ambulance, tel. 1370.
TELEPHONES: Can be installed on board vessels at all quays.
SHORE LEAVE: Allowed without restriction.
AUTHORITY: Capitaine de Port, Papeete. Tel. 189.

Solomon Islands

GISO: 08.05 S. 156.52 E.

Giso is the copra and cocoa receiving centre for Western Solomons. Situated on Giso Island West of New Georgia. There is no entrance to harbour, and a jetty with depth alongside of 9 ft. Sheltered anchorage available in 16 fathoms. The British Solomons Trading Company Ltd. provides stevedores and conducts a lighterage handling and warehousing service to Importers and Exporters. Framework warning stations at foot of 300 ft. hill near Eastern end of township. When one board displayed, vessel occupying timber loading wharf. When two boards displayed, vessel occupying copra loading/general discharge anchorage. When three boards displayed, approaches must be kept clear as vessel is preparing to leave.

HONIARA: 09.25 S. 159.58 E.

DOCUMENTS:
Clearance from last port.
3 Crew Lists.
3 Passenger Lists.
2 Entry Inwards Forms.
2 Stores Lists.
2 Crew's Stores Lists.
Manifest
Bills of Lading.
2 Unmanifested Cargo Lists.
Ship's Bad Order List.
1 copy Maritime Declaration of Health.
PILOTAGE: 24 hours notice ETA stating number of passengers, dangerous cargo, etc., to Harbour Master, Honiara, via Honiara Radio. Usual signals. Pilot boards from launch marked PA about ¾ mile N.E. Pelope Shoal. Vessels normally berthed port side to. Pilot uses port gangway in calm weather.
ANCHORAGES: East of Port Main Leading Lights. F1. white and fixed green, in about 20 fathoms; coral bottom.
APPROACHES: Approaches free from dangers provided vessels keep at least 2 cables off Point Cruz Beacon, identified by quick flashing red light. On foreshore in front of Shell Oil Storage Tanks is beacon with fixed green light, and above on Vavaya Ridge is white light flashes every 5 seconds from car on radio station building. When in line these two lights give correct approach to anchorage in 20 fathoms on, or East of, the line. Prevailing winds during South-east season blow from North-easterly direction sometimes reaching force 4 to 5 in early afternoon. During North-west season direction and force variable generally between North and West up to force 4 and occasionally force 5.
RESTRICTIONS: Berthing in daylight hours only – departure any time.
MAX. SIZE: New Wharf, up to 600 ft. long and max. 27 ft. draught. Old Wharf, up to 200 ft. long and max. 13 ft. draught. Tankers, mooring at buoys, 600 ft. long and 32 ft. draught.
HEALTH: Pratique can be obtained by radio. Vessels suspect should inform Health Authorities and Harbour Master by radio for doctor to board on arrival.
RADIO: Radio Honiara VQJ (Vee Kiu Jay). Watch continuous. KHZ 6204, KHZ 2182, KCS 500. GMT Schedule 00.20–00.30 transmits 11560 KHZ receives 8 or 16 MHZ.
TUGS: There is a small 100 h.p. tugboat assisting with mooring when necessary. Charge $A4.00 per hr.
STEVEDORES: At least 24 hours notice, usually 3 gangs, indicate any extra gangs required. To facilitate quick turn around advisable have cargo in middle holds evenly distributed not at extreme end or massed in one hold only.
MEDICAL: Notice should be given in advance if medical attendance required on board. Smallpox vaccination required by all arriving on ship. Inoculations available at clinic on Tuesdays only. Limited hospital facilities available.
TANKERS: Tanker buoys, 8 in. pipe-line, max. draught 32 ft. New Wharf, 4 in pipe-line, max. draught 27 ft. Old Wharf, 4 in. pipe-line, (ADO), max. draught 13 ft.
DENSITY/TIDE: Approx. 1025. Tidal range about 3 ft.
FRESH WATER: At wharf by hoses, 10 tons an hour. 25 c. per 1,000 gallons or part thereof.
FUEL: Diesel and gas oil available.
FIRE PRECAUTIONS: Normal fire precautions, with gang standing by with fire pump.
GANGWAY/DECK/WATCHMEN: Watchmen to be recommended. Customs provide a preventative officer for duty at a charge of 65 c. per hour week-days, and 85 c per hour Sundays and public holidays.
OPENING/CLOSING HATCHES: Stevedores assist crew.
SHIP'S CERTIFICATES: Certificate of Registry.
TOBACCO ALLOWANCE: 200 cigarettes or ½ lb. tobacco per crew member.
WINE AND/OR SPIRIT ALLOWANCE: 3 quart bottles of beer per crew member.
IDENTIFICATION CARDS: Required.
CONSULS: Nil.
REPAIRS: Limited facilities only.
DRY DOCKS: Nil.
REPATRIATION: Facilities available.
AIRPORT: Approx. 10 miles from wharf. TAA visits 3 times per fortnight from Sydney via New Guinea, and Fiji Airways have 3 flights a fortnight from Suva via New Hebrides.
TIME: GMT plus 11 hours all year round.
HOLIDAYS: Cargo work can be arranged on all holidays except Christmas Day and Good Friday.
POLICE/AMBULANCE/FIRE: Emergency phone numbers: Police 666; Ambulance 933; Fire 299.
TELEPHONES: Ships connections can be arranged at $2.00 per day.
SERVICES: Labour can be hired for assistance with painting and cleaning. Other services not normally available.
SHORE LEAVE: Permitted.
DELAYS: Nil, except when other ships being worked.
AGENT: E. V. Lawson Pty Ltd., Box 3 ,Honiara, British Solomon Islands. Tel. 344 Telegraphic Address: EVLAS.

YANDINA: 09.04 S. 159.14 E.

Yandina is situated in Russell Islands and is copra export port for Lever's Pacific Plantations Pty Ltd. There is wooden wharf on South side of entrance with 175 ft. face and depth approximately 25 ft. alongside. Wooden wharf to be replaced by concrete and steel wharf of same dimensions. Sheltered anchorage for vessels up to 500 ft. in length, available in Renard Sound. Lever's Pacific Plantations Pty Ltd. provide stevedores and conduct handling and warehousing service to importers and exporters.

Somali Republic

BERBERA: 10.26 N. 45.01 E.

DOCUMENTS:
Health Certificate.
Crew List.
Passenger List.
Provision List.
Ship's Register.
PILOTAGE: Vessels await Pilot on the outer roads 5–10 cables South-west of Tamar lighthouse. In case of stormy weather and rough sea, it is permitted to wait for Pilot on the inner roads. Pilotage for all ships for berthing, unberthing and shifting is compulsory. The Pilot will board arriving vessels only after having received written request from the Agent.
ANCHORAGE: Outer anchorage 5–10 cables South-west from Tamar lighthouse. Inner anchorage limited by the line between 10° 26′ 16″ N. 45° 00′ 14″ E. and 10° 26′ 26″ N. 45° 00′ 40″ E. and between perpendiculars from the ends of this line towards Cape of Tamar.
RESTRICTIONS: All ships should anchor in such a position that with any wind they should not get upon the Light in line or Southward from it, or opposite deep water pier.
MAX. SIZE: Draft 28 ft., length/breadth no restrictions
HEALTH: Until free pratique is received nobody except Pilot is to board or to leave the ship.
RADIO: Cable Agents giving ETA, draft, length and cargo via

port radio station – 60 Y (SIX OU WAI) call and reply in the frequency 500 kc, working 450 kc. Working hours from 0700 to 1700 local time. Traffic list 3 times a day at 8.00, 12.00, and 16.00 hours.
TUGS: Use ship's lines. There is one tug of 300 h.p.
BERTHING: Depth at pier 28 ft., length of pier 320 metres.
STEVEDORES: Ordered by Agents. All necessary gear supplied by stevedores except heavy lift handling gear. Work can be arranged on official holidays on overtime basis.
TANKERS: Discharge on two mooring buoys, Shell Company has Russian, American and English standards of connecting hoses – draft 28 ft.
DENSITY: From 36.00% to 37.00%.
FRESH WATER: Supplied only alongside pier. No water barge Price Sos. Shs.4.00 per ton (U.S. $0.57).
FUEL: None available.
WATCHMEN: Available but not compulsory.
OPENING/CLOSING HATCHES: On liners normally by crew, with the assistance of stevedores, otherwise according to charter party.
CUSTOMS ALLOWANCES: Each crew member is allowed 100 cigarettes or 100 grams tobacco and one bottle of any beverage.
CONSULS: Not available.
REPAIRS: Port management has well-equipped mechanical workshop which is able to carry out minor repairs for ships'
HOLIDAYS: Muslim Edd-Al-Duha (say between 15th and 20th of February); Muslim New Year (about 21st–23rd March); African Solidarity Day (15th April); Labour Day (1st May); Prophet Mohamed's Birthday (22nd May); Independence Day, Northern Somalia (26th June); Independence Day of the Somali Democratic Republic (1st July); National Flag Day (12th October); United Nations Day (24th October); Human Rights Day (10th December); Revolutionary Day (21st October).
TELEPHONE NUMBERS: Port Manager, No. 42; Harbour Master/Pilot, No. 58; Senior Port Officer, No. 21; Customs, No. 38 and 12; Port Radio Station, No. 41; Workshop, No. 53; Main Gate, No. 50.
AUTHORITY: Ente Portuale Della Somalia, POB 935, Berbera.

CHISIMAIO (or Kismayu): 00.22 S. 42.34 E.

DOCUMENTS:
6 Lists of Crew.
2 Stores Lists.
2 Lists of Articles owned or in possession of Master, officers and crew (alcohol, cigarettes, cigars, tobacco, radios, cameras, binoculars).
1 Cargo Manifest (must be made out in accordance with original B/L issued. In the column "Consignees" the name of the party to be notified must be mentioned complete with full postal address. Should specify weight in kilos and measurement in cubic metres). 6 copies to be sent in advance unfreighted; 2 copies to be sent in advance freighted; 2 copies to be sent by ship's box.
1 Copy not negotiable of B/L for each B/L issued.
2 Transit Cargo (total numbers of packages and total weight for each destination).
6 Lists of Passengers to be Disembarked.
2 Lists of Passengers in Transit.
1 Health Document will be prepared at the arrival of the Vessel in port, on special local form.
PILOTAGE: Pilotage is compulsory. 36 hrs. before arrival, a cable must reach the Agent with the ETA. The Agent will inform the Pilot who will pick up the vessel approximately ½ mile South-east of fairway buoy (bell buoy). No telegraphic address of pilot station. Pilot boat is a tug, same used whilst berthing.
ANCHORAGES: In the port basin, from 27 to 30 ft. deep, excellent holding ground.
ENTRY RESTRICTIONS: Entrance during daylight only. Port closed from 06.00 p.m. to 06.00 a.m.
MAX. SIZE: Port consists of two L-shaped quays, one 340 metres length the other 280 metres. Maximum draft 28 ft. at lowest low tide.
HEALTH: Pratique granted after Port Authorities, including doctor, board vessel. Any suspected contagious illness aboard to be reported immediately to the doctor at the arrival. Vessel calling from other Somali ports subject same procedure.
RADIO: Use Mombasa and/or Aden Radio. Mogadiscio Radio does not keep a 24 hours. service.
TUGS: Tug, one only, takes the Pilot aboard and after joins vessel whilst berthing and sailing, Ship's lines used.
BERTHING: No specific requirement to berth in the port. Vessel entering into port basin after 05.45 p.m. will berth next day at 06.30 a.m. Vessel must sail before 05.30 p.m. otherwise sailing will be postponed to next day at 06.30 a.m. No vessel permitted berth and/or sail without Pilot.
STEVEDORES: Vessel gives accurate ETA at least 24 hrs. in advance to enable Agent order necessary gangs. Average load and/or discharge per gang per hour: (*a*) general cargo 15/18 tons. (*b*) Cargo in bags 18/20 tons. No shore facilities; all cargo to be loaded and unloaded with ship's gear.
MEDICAL: No advance notice for medical attention required at vessel's arrival. Hospital facilities available, but specialised treatment and surgery is not. Smallpox vaccinations and yellow fever Certificates inspected on arrival.
FRESH WATER: Available at wharf, rate 15/16 tons per hr. Cost Shs. So. 4,00 per ton (one U.S.$ equal 7.1428 Shs. So.).
FUEL: Not available.
GANGWAY/DECK WATCHMEN: Gangway watchmen service carried out by the Customs Police. Food on vessel's account; no other charges. Deck watchmen not used.
OPENING/CLOSING HATCHES: Normally carried out by stevedores with the help of the crew. Vessel's crew may, if required by the vessel, do so. Crew may close the hatches prior to dialling.
CUSTOMS ALLOWANCES: 200 cigarettes, or ½ lb. tobacco or ½ lb. cigars. One bottle spirits opened. Bond sealed but can be re-opened upon application. Cigarettes and spirits trafficking between alongside and between vessel and shore strictly prohibited. It should be noted that tea, coffee and sugar are sealed in bond in addition to the usual items of spirits, cigarettes, tobacco and cigars.
IDENTIFICATION CARDS: Not required.
CONSULS: Italian Consul only. No telephone.
REPAIRS: Repairs only by vessel's own facilities.
REPATRIATION: Air communication via Mogadiscio.
AIRPORT: About 6 km. from the port. Two local flights weekly to Mogadiscio only.
TIME: GMT plus 3 hours.
HOLIDAYS: Port is completely closed on 1st day of Arafa, 1st day of Idd El Fitr, 1st July (Independence Day). On all other public holidays and on Friday (local Sabbath) work performed subject premium rates of pay.
TELEPHONES: No possibility for placing telephones on board.
GENERAL: Vessels should not dispose any waste into harbour or on to quays, lower lifeboats, or use radio station without prior permission from authority.
SHORE LEAVE: No restrictions.
PORT REGULATIONS: Banana vessels are given priority.

AGENTS: Giovanni Dogliani, PO Box 42, Chisimaio. Cable: "Dogliani", Lloyd's Sub-Agent, Shipping and Forwarding Agent.

MOGADISCIO: 02.02 N. 45.21 E.

DOCUMENTS:

2 Lists of Passengers in Transit.
1 Health Document will be prepared at the arrival of the vessel in port, on special local form.
PILOTAGE: The Pilot will board arriving vessels only after having received written request from the Agent.
ANCHORAGE: About ½ mile off-shore in depths up to 45 ft. in open roadstead. Because of occasional heavy swell, maximum recommended draft 31 ft.
HEALTH: Pratique granted after Port Authorities, including doctor, board vessel. Any suspected contagious illness aboard to be reported immediately to the doctor at the arrival. Vessel calling from other Somali ports, subject same procedure.
RADIO: Use Mombasa and/or Aden Radio. Mogadiscio Radio does not keep 24 hours watch.
BERTHING: Cargo vessels work cargo to lighters at the anchorage.
TANKERS: One berth available for tankers up to 30 ft. draft.
FRESH WATER: Not available.
FUEL: Not available.
STEVEDORES: Vessel to give accurate ETA at least 24 hrs. in advance to enable Agent order necessary gangs. No shore facilities; all cargo to be loaded and unloaded with ship's gear.
MEDICAL: No advance notice for medical attention required at vessel's arrival. Hospital facilities available, but specialised treatment and surgery is not. Smallpox vaccinations and yellow fever Certificates inspected on arrival.
GANGWAY/DECK WATCHMEN: Gangway watchmen service carried out by the Custom Police; food on vessel's account.
OPENING/CLOSING HATCHES: Normally carried out by stevedores with the help of the crew. Vessel's crew may, if required by the vessel, do so. Crew may close the hatches prior to sailing.
CUSTOMS ALLOWANCES: 200 cigarettes, or 5 lb. tobacco or ½ lb. cigars. One bottle spirits opened. Bond sealed but can be re-opened upon application. Cigarettes and spirits trafficking alongside and between vessel and shore strictly prohibited. It should be noted that tea, coffee and sugar are sealed in bond in addition to the usual items of spirits, cigarettes, tobacco and cigars.
AIRPORT: Situated 8 km. from the port. Regular international flights.
TIME: GMT plus 3 hrs. All year round.
HOLIDAYS: Muslim Edd-Al-Duha (say between 15th and 20th of February); Muslim New Year (about 21st–23rd March); African Solidarity Day (15th April); Labour Day (1st May); Prophet Mohamed's Birthday (22nd May); Independence Day, Northern Somalia (26th June); Independence Day of the Somali Democratic Republic (1st July); National Flag Day (12th October); United Nations Day (24th October); Human Rights Day (10th December); Revolutionayr Day (21st October).
AUTHORITY: Harbour Master.

Somaliland

DJIBOUTI: 11.36 N. 43.08 E.

DOCUMENTS: Crew List for ship's agent. Crew Manifests and Manifests of Passengers in transit or for disembarkation, for whom disembarkation cards are to be completed. Presentation of Health Declaration and verification of compulsory immunisations by the health representative. Cargo Manifest, required in five copies prior to any discharging operations, also deposit of one copy at port operation office.

PILOTAGE: Is compulsory. Pilot boards in vicinity of buoy No. 2 of the Heron Bank, where all vessels must wait. Call signals are regulated by International Code. Vessels at the quay wishing to put to sea must call Pilot half an hour beforehand by three long blasts (in addition to the "G" flag). VHF radiotelephony station to liaise with ships. Ships must ensure a permanent watch on Channel 12, at the latest after clearing parallel of Muskali beacon.

MAX. SIZE: Entrance to inner roads dredged to 11 metres depth.

ANCHORAGE: Anchorage zone is within following limits:

1. Eastern limit: a line parallel to and 0·25 miles West of the North passage.
2. Southern limit: Latitude 11° 37′ N.
3. Western limit: a bearing with the Western extremities of Penguin and Ambouli Banks in alignment.

It is forbidden to anchor within 5 miles on each side of the alignment of Ambouli and d'Ayabele lights.

Average depth is of 15 to 20 metres. Anchor hold is excellent, even with a strong South-west monsoon when there is often a heavy swell.

RESTRICTIONS: Entry during the day or night. Highest tide 2 metres 90. Mean tide is approximately 1 metre 60, and lowest are 0 metre 20. Tidal currents are very weak in bay and rarely exceed 1 knot.

HEALTH: Generally free pratique by radio can be granted to all ships applying through Coastwise Station Djibouti Radio. Ships must radio in plain or international code, a maximum of 12 hours and a minimum of 4 hours prior to arrival in port. In all cases, when Pilot boards vessel he gives Captain a copy of Maritime Health Declaration which must be filled in by Captain and countersigned by ship's doctor, if the crew includes one. An examining official comes on board when vessel arrives to receive the Maritime Health Declaration. Smallpox certificate required from all travellers coming from all countries. Cholera certificate required from all travellers coming from an infected area, excepting children of under six months of age.

RADIO: For short distance communications, ships contact shore by radio telephone VHF through Harbour Master's office. Port office is equipped with a VHF station transmission and reception: Channel 12 (156·6 MHz). For medium or long distance communications, ships contact shore by radiotelegraphy and radiotelephony through Djibouti coastwise station, call sign: TXZ; call frequency: 8·682 and 500 kc/s; working frequency 8·682 and 464 kc/s.

TUGS: In winter (slight Easterly monsoon), a single tug is generally sufficient for manoeuvring. In summer during the Khamsin period, berthing or sailing often requires two tugs. There is a 1,320 h.p. diesel tug "Henri Lambert", a 1,000 h.p. tug "Administrateur Bernard" and two auxiliary 600 h.p. tugs.

BERTHING: Exterior docks comprise:

Dock 11	depth of 11 m.
Dock 12	depth of 12 m.
Dock 10	depth of 11 m.
Dock 13	depth of 10.80 m.
Dock 9	depth of 9 m.

Average depth of remaining roadstead is between 15 and 20 m.

STEVEDORES: Available three companies, hours from 7 to 17.30 hours.

MEDICAL: Port Medical Service directed by medical practitioner specialised in industrial medicine is situated in a building neighbouring the port offices. It operates a dispensary. Passengers and sailors in transit are treated by private doctors from town who may visit the ships. Serious cases can be hospitalised in Djibouti's civil or military hospitals.

TANKERS: Reception lines: berths 12 to 13 specially equipped for reception of bunkering products are linked with installations of the petroleum companies by a 16-in. dock-line and 12-in. (FO) and another of 12-in. (DO). Pier No. 10 is connected to the installation with a dock-line of 12-in. Rate of discharging can reach between 2,000 and 2,500 tons per hour. Reception of white products is assured from quay No. 13 by an 8-in. line; for gas there is a 4-in. line.

FRESH WATER: Each quay provided with three to five 200 mm. water-hydrants. Delivery of 40 cubic metres of water per hour. The price charged to ships is 100 D. francs per ton. Regardless of the season, there is never any shortage of fresh water.

FUEL: A complete range of different viscosities and products is available. Meet all the usual requirement of bunkering vessels. Ample supplies of fuel and diesel oil are always available.

GANGWAY/DECK WATCHMEN: Available.

OPENING/CLOSING HATCHES: Normally carried out by stevedores.

IDENTIFICATION CARDS: Required.

South Atlantic Islands

ASCENSION ISLAND, GEORGETOWN: 7.55 S. 14.20 W.

DOCUMENTS: Crew and Passenger lists, Health documents, Manifests and Bills of lading if discharging cargo.
PILOTAGE: No pilots are available and not required as it is an open anchorage. Require 48 hours of ETA. VHF 16, and Ascension radio operated by Cable & Wireless will reply.
RESTRICTIONS: None – but if vessel has not been here before it would be advisable to wait until daylight.
ANCHORAGE: Only one ship can anchor at a time. There is 14 fathoms of water in the anchorage and vessels of 28,705 tons have used this anchorage. The other anchorage used by tankers is at English Bay and there is a special berthing procedure which the Oil Company give to Captains of tankers.
HEALTH: Pratique should be requested when giving the ETA and will be granted by either Cable or VHF.
RADIO: If coming from the North via Freetown Radio, and from the South via Cape Town.
TUGS: No tugs available.
BERTHING: Open anchorage only, no berthing alongside.
MEDICAL: Facilities available, if possible 48 hours notice required. There is a 12-bed hospital in Georgetown and a second for American personnel at the U.S.A.F. Base. Inoculation, vaccination and yellow-fever certificates not required. Other than Government personnel no one is allowed to land on Ascension without an entry permit.
TANKERS: Only one berth available at anytime.
FRESH WATER: None available.
FUEL: None available.
WATCHMEN: Not necessary.
OPENING/CLOSING HATCHES: Usually done by stevedores.
CONSULS: No Consulates. British Administrator attends to all requirements.
REPAIRS: Only minor repairs can be effected.
REPATRIATION: No facilities for crew changes. Repatriation can be arranged but only in the case where a person has been hospitalised. If a ship puts in with a medical case on board an M.O. will visit the ship. Fees from 3 gns. to 5 gns. and is paid to the Cable & Wireless representative. If the patient is hospitalised the Master must guarantee in writing that all hospital fees and the air fare to Antigua will be honoured by his shipping line Agent. As so few ships call at Ascension no hospitalised patients can be evacuated by sea. All patients received from ships are evacuated on M.A.C. flights to Antigua. These flights are run weekly. Single fare Ascension to Antigua is £105 approximately.
AIRPORT: Airport 2 miles. U.S.A.F. No civil airlines call here.
TIME: Always GMT.
HOLIDAYS: Cargo vessels are discharged during public holidays – no night work.
GENERAL: There are no facilities for visitors on the island. Anchorage must be vacated when a mail vessel is due.
SHORE LEAVE: Not permitted.
AUTHORITY: The Administrator, Ascension Island. South Atlantic Ocean.

ST. HELENA, JAMESTOWN: 15.56 S. 05.40 W.

DOCUMENTS:
3 copies of Crew List.
3 copies of Passenger List.
10 copies of Manifest.
1 Health form.
PILOTAGE: No official pilot. Agents sometimes hire a pilot (retired Union Castle Captain) for ships requiring.
ANCHORAGE: The harbour consists of an open roadstead with anchorages shown on charts.
MAX. SIZE: Any size vessel can anchor in the roadstead. Depth up to 20 fathoms.
HEALTH: Pratique will be granted by the boarding party or by telegram from Port Health Officer. If suspected disease or fever, the Port Health should be informed by telegram in advance of anchoring so that the necessary precautions can be taken.
RADIO: ETA message should be relayed through Cape Town Radio. Agents have VHF service.
TUGS: None. There are 3 towing launches (from 16 to 28 h.p.) for harbour use only.
BERTHING: Vessels anchor in 18–20 fathoms offshore, in open roadstead. There is deep water (sufficient for ocean-going vessels) right in to the area where cargo lighters and other small craft are moored).
STEVEDORES: 48 hours notice required by Agent, also particulars of tonnage of cargo.
MEDICAL: Agent should be notified if medical attention required. A resident staff of three doctors, plus nursing staff, in a well-equipped modern hospital. The basic requirements for intending visitors is a certificate of vaccination against smallpox.
FRESH WATER: Delivered by floating pipeline at a rate of approximately 14 tons an hour. This is a fairly recent innovation and although charges are expected to decrease soon after initial tryouts, the current charge for water is 17/6d per ton by day and 25/–d per ton for supplies at night-time or Sundays.
FUEL: No stocks of marine fuel. Ordinary diesel oil is available in drums of 45 gallons (supplied ex South Africa) and only limited stocks for local needs are held.
OPENING/CLOSING HATCHES: Stevedores can do this, but preferable for crew to open on arrival so that work can start as soon as stevedores arrive on ship.
CERTIFICATES: Vaccination certificates required for all crew. Deratting. certificate should be valid.
CUSTOMS ALLOWANCES: No restrictions. Free use on board.
CARGO GEAR: All discharge carried out by vessels derricks into lighters. Agents provide own cargo nets, etc.
CONSULS: French Consul. Appointed representatives for Denmark and Norway.
REPAIRS: Small repairs can be carried out (welding or turning pipes, etc.).

REPATRIATION: No facilities for crew changes. Only for those left behind for hospitalisation.
AIRPORT: No airport on St. Helena.
TIME: GMT throughout the year.
HOLIDAYS: New Year's Day (1 January); Good Friday; Easter Monday; Commonwealth Day (24 May); Whit Monday; Queen's Official Birthday; August Bank Holiday; Christmas Day (24th December); Boxing Day (25 December). Cargo work can be arranged except on Christmas holidays.
POLICE/FIRE/AMBULANCE: No telephone nos. Must ring exchange.
SHORE LEAVE: Allowed. No restrictions provided vessel has free pratique.
DELAYS: No delays in berthing, loading or discharge can be delayed by bad weather due to swell alongside wharf.
AUTHORITY: Harbour Master, Colonial Treasurer's Office, The Castle, St. Helena, S.A.O.

AGENT: Solomon and Company (St. Helena) Ltd., Jamestown, St. Helena. Cables: "Solomon St. Helena."

Spain

AGUILAS and HORNILLO: 37.24 N. 01.35 W.

DOCUMENTS: See "Almeria".
PILOTAGE: Hornillo port has no Pilot. The Pilot of port of Aguilas which is less than a mile from Hornillo, does pilotage services of both. To enter both ports Hornillo and Aguilas, anchor a mile or a mile and half distance from entrance of Aguilas. Wait for Pilot with engine stopped. To call Pilot give three long blasts several times. Pilot's launch is small motor boat painted white, with letter "P" painted on both sides of boat. During night it carries white light on top of mast, and 8 ft. lower a red light, besides the usual lights.
RESTRICTIONS: It is not possible to enter Hornillo port during dark. Wait till dawn outside Aguilas.
HEALTH: See "Almeria".
TUGS: None in port. Not necessary for either port.
BERTHING: Aguilas port has a commercial quay with a berth area about 200 metres and depths of between 8–12 metres. Hornillo port has a pier to handle minerals with berth area of 90 to 100 metres and depths between 6–10 metres.
STEVEDORES: Team of stevedores who belong to "Port Workers' Trade Unions" (Sindicato de Obreros Portuarios).
MEDICAL: Captain can send cables to consignee requiring this kind of service. There is a range of doctors and a hospital.
FRESH WATER: In Aguilas port are small supplies of water. It is supplied by the town hall by means of tank lorries.
FUEL: There are no supplies of fuel in either port.
GANGWAY/DECK WATCHMEN: Not necessary, usually this is done by crew.
OPENING/CLOSING HATCHES: Usually this is done by crew.
CONSULS: There is only Vice-Consul of Norway in Aguilas. Tel. 35.
REPAIRS: No facilities.
REPATRIATION: Facilities for effecting crew changes exist. Repatriation can be done by train to Madrid and by plane from there.
TIME: GMT plus 1 hour.
HOLIDAYS: See "Almeria".
POLICE/AMBULANCE/FIRE: Ambulance and fire services can be requested from Port Authority. If the police services are required call to "Caseta de Vigilancia" of the Civil Guard in either port.
GENERAL: Hornillo port is used only for loading and discharge of minerals, and for this purpose a pier is provided with a railway. The nearest port of Aguilas, less than a mile distant on the West, is the commercial port, with a quay for loading/discharging and a crane of 10 tons capacity.
SHORE LEAVE: Crew members are allowed ashore.
PORT AUTHORITY: Ayudante de Marina o Capitan del puerto (Port Authority or the Assistant) tel. Aguilas 74. Cable address Ayudmar, Aguilas. Hornillos port is in this respect subordinated to Aguilas.

ALGECIRAS: 36.07 N. 05.26 W.

DOCUMENTS:
Maritime Declaration of Health.
5 Crew Lists.
2 Manifests of Cargo for the Port.
2 Manifests of Cargo in Transit (if coming from Spanish port a Manifest is sent by the Customs officials of that port).
1 Bill of Lading of cargo for the port.
2 Ship's Stores Lists.
2 Lists of Crew Personal Effects.
If the vessel carries passengers the following are required:
8 Lists of Passengers Disembarking with baggage declaration for each passenger.
5 Lists of Passengers in Transit.
2 copies of Arrival Report.
1 Manifest of Vehicles belonging to Passengers Disembarking.
If the vessel is a tanker the following are required:
Certificate of Quantity of Cargo.
Certificate of Quality of Cargo (or Ballast Certificate).
PILOTAGE: Vessels entering the port call Pilot by international code signals, sound or light. Notice of ETA should be radioed to Agent 72, 48 and 24 hours before arrival. Pilots cannot be contacted by radio, and are ordered by Agents on the basis of Master's ETA.
Pilot boat is painted white with a letter "P" in black on both sides. By day they carry a blue flag with the letter "P" in white. By night they carry regulation pilot lights. The pilot boarding zone is a circle of ½ mile radius with centre 1 mile East of the Northern breakwater head (red light).
ANCHORAGE: Vessels waiting for a Pilot may anchor North of the parallel of the Barranco beacon in depths of 30 m.
RESTRICTIONS: Vessels may enter by day or night.
MAX. SIZE: Puerto de Algeciras – no length restrictions, maximum draft 29 ft. Refineria Gibraltar – maximum length 283 m. Draft up to 65 ft.
HEALTH: Free pratique is obtained automatically when authorities board on arrival and Maritime Declaration of Health is completed. In case of suspected disease or fever on board full details should be sent by radio to Sanidad Maritima, Algeciras, before arrival.
RADIO: Aranjuez Radio and Cadiz radio. Vessels proceeding to Refineria Gibraltar should announce their arrival by VHF to the Capitania of that port using Channel 16 for calling and Channel 13 for communication.
TUGS: Four tugs are available up to 1,500 h.p. and assist according to Pilot's directions. Ship's tow lines used.
STEVEDORES: Ordered by vessel's Agent on basis of Master's ETA.
MEDICAL: Doctors and hospital facilities available. International vaccination certificates only required if vessel is proceeding from an infected area.
TANKERS: Refineria Gibraltar – 5 berths for tankers up to 283 metres length, two of which can accept draft up to 65 ft. The other three berths can accept vessels up to 57 ft. draft. Loading/discharge lines are 12 in., 10 in., 8 in., 6 in. and 4 in. Refineria Gibraltar has two slop tanks each of 600 cubic metres capacity which can accept oily residues.
FRESH WATER: Available from all berths in Algeciras and at Refineria Gibraltar at a rate of 40 tons per hour. Can also be supplied by barge at the rate of 15 tons per hour.
FUEL: All grades can be supplied with three hours notice. Loading rate 250 tons per hour for fuel and 150 tons per hour for diesel and gas oil. Supply is effected by barge at all quays which are not connected by pipe-line.
DEVELOPMENTS: In Algeciras Commercial Port a new berth is under construction in the South part of the dock for vessels up to 9 metres draft. It is planned to dredge the whole commercial port to 10 metres depth.
WATCHMEN: Not available from shore.
HATCHES: Are opened and closed by ship's crew.
CUSTOMS ALLOWANCES: Maximum quantity of tobacco permitted in ship's stores is 3 kilos per crew member and two kilos per passenger. The quantity that may be held out of bond is 40 grammes tobacco per person per day. Wine/Spirits. One decilitre per person per day may be held out of bond.
CONSULS:

Great Britain	tel. 67.14.50	Germany	tel. 67.22.37
Morocco	,, 67.36.98	Denmark	,, 67.27.95

Norway, Italy, France, all tel. 67.27.20.
REPAIRS: Small repairs afloat can be effected. No dry docks.
AIRPORT: Nearest is at Malaga, 120 kms. from Algeciras.
TIME: GMT plus one hour all the year round.
HOLIDAYS: New Year's Day, 6th January, 19th March, Maundy Thursday, Good Friday, Easter Saturday, 1st May, Ascension Day, Corpus Christi, 29th June, 18th July, 25th July, 15th August, 1st October, 12th October, 1st November, 8th December, 25th December.
POLICE/FIRE/AMBULANCE: *Algeciras:* Police, tel. 67.15.55; Fire, tel. 67.20.20; Ambulance, tel. 67.22.90. *Refineria Gibraltar:* Police, tel. 67.15.55; Fire, tel. 76.17.00; Ambulance, tel. 76.12.47.
SHORE LEAVE: Crew members are permitted to go ashore subject to police control.
AUTHORITY: Comandancia de Marina. Telephone: 67.14.60. Cables: Comtemar Algeciras.

ALMERIA: 36.52 N. 02.30 W.

DOCUMENTS:
4 Crew Lists.
4 Passenger Lists or negative.
2 Cargo Manifests of goods destined to Almeria, as well as other cargoes in transit.
Store List in duplicate, including tobacco, spirits, radios, etc., belonging to vessel.
Details list in duplicate of all personal effects of crew and passengers (tobacco, spirits, cameras, radios, etc.).
Note: Tobacco. In case vessel carries more than 3 kilos of tobacco per man, excess must be declared in a separate manifest, which must be visaed by a Spanish Consul. In absence of Consul, said document will have to be visaed by an Authority of former port of clearance. Otherwise, the vessel would be fined.
PILOTAGE: Is compulsory and service is permanent. Pilots board vessels by motor-boat in roads, near entrance formed by two breakwaters. This entrance is 287 metres wide. Pilot boats are painted white and letter "P" is painted in black on each bow. Also boats have a blue flag hoisted on mast, with letter "P" in white on both sides of flag. At night, boats have white light, under this light is a red light. When weather is bad vessels approach as close as possible to entrance so that Pilot can easily board the vessel.

ANCHORAGE: When harbour is congested, vessels can anchor at West Mole while waiting for berth.
MAX. SIZE: Only limitation is draft (maximum 30 ft.).
HEALTH: Pratique is obtained immediately after berthing, when Health Officer boards vessel. In case of suspected disease of fever on board Master must send a radio message to Agents, in order that they advise the Health Officer. Following documents are required by Health Officer upon berthing: Maritime Declaration of Health, Deratisation Certificate, 1 Crew List.
RADIO: Nearest important radio stations are Cadiz-Radio and Palos-Radio.
TUGS: One available but not compulsory, is employed according to Master's requirements.
BERTHING: Prior to ship's arrival and in accordance with Master's ETA Agent attends port Authorities to procure a proper available berth. Commercial quays have a length of 500 metres with double sheds, 360 metres with single shed with maximum depth 24–25 ft., and about 700 metres uncovered for goods in bulk with depth between 24–30 ft.
STEVEDORES: It is necessary that Master sends ETA so that Agent can inform Receiver's stevedores accordingly and arrange for proper reception of cargo and berth. Timetable of shifts available at the port; Daytime, normal working hours, from 08.00–12.00 and 14.00–18.00 (one shift), 08.00–14.00 (one intensive shift), 14.00–20.00 (one intensive shift). Night time, from 18.00 to 24.00; Sundays and holidays, from 09.00 to 12.00 and 14.00 to 18.00.
MEDICAL: Medical facilities are available; only it would be appreciated for Master to send a radio message if a crew member is in need of urgent medical attention.
FRESH WATER: Always available. Deliveries from quay available at all berths, supplying about 30 tons per hour. Price per ton Ptas 20, in ordinary time. In overtime, Sundays or holidays: 50% plus.
FUEL: Ordinary fuel oil and gas oil is available at local refinery of "Campsa". It is advisable that Shipowners stem bunkers through their own Contractors, with an ETA of 48 hours, so that the order can be received in time.
PORT FIRE PRECAUTIONS: Tankers perform their operations at the berth of "Campsa" at East Pier, which has the necessary fire precautions. No special precautions at other piers.
GANGWAY/DECK WATCHMEN: Available but not compulsory.
OPENING/CLOSING HATCHES: This work normally carried out by crew.
SHIP'S CERTIFICATES: Vessel should have the usual documents on board, but only the Safety Wireless, Safety Equipment and Deratisation Certificates are required by Authorities.
CUSTOMS ALLOWANCES: The quantity allowed per each crew member is 3 kilos tobacco. (See "Documents".)
Wine and/or Spirits: Only one bottle for each crew member.
CARGO GEAR: All commercial piers are served by electric shore cranes able to lift 3/6 tons (18 cranes in total), and one crane with a lifting capacity of 15/25 tons situated on Pier Costa.
IDENTIFICATION CARDS: Not required.

1 Cargo Manifest of goods destined for the port.
Another Manifest covering transit cargo.
2 Store Lists, including tobacco, cigars, cigarettes, coffee, spirits, radios, cameras, etc., in possession of crew. In all cases make and number of radios to be indicated.
Safety Wireless Certificate and Safety Equipment Certificate.
If vessel carries over 3 kilos tobacco per man, the excess to be declared in a separate manifest, which must be visaed by the Spanish Consul at the last port, otherwise vessel exposed to heavy fine.
RESTRICTIONS: Entrance channel 90 m. wide, 1,000 m. long up to San Juan de Nieva Dock. Depth at low water from 6 to 9 metres.
MAX. SIZE: Length 150 m. draft 9 m.
HEALTH: If vessel proceeds directly to berth, pratique can be obtained immediately after berthing. Otherwise, at anchorage at vessel's arrival.
If vessel has sickness on board of a contagious nature Master should advise Health Authorities by radio, and they will examine patients immediately upon arrival, to enable vessel to be granted free pratique.
TUGS: 5 tugs available up to 1,200 h.p.
BERTHING: Muelle de Raices, length 823 m., depth alongside 8 m. San Juan de Nieva length 776 m., depth alongside 6 m.
San Agustin, Ensidesa East, length 300 m., depth alongside 9 m. Ensidesa South, length 715 m., depth alongside 7 m.; length 108 m., depth alongside 5 m.
San Balandran, Endasa East length 133 m., depth alongside 7 m.
CUSTOMS ALLOWANCE: Normally Customs permit to have 200 cigarettes per man out of bond. Additional quantities needed on the stay of ship in port. One bottle of spirit per man.
DRY DOCKS: 1 dock at Las Canteres, owned by Entrecanales Y Tavora, length 50 m., width 9.50 m.
FRESH WATER: Can be supplied from Ensidesa berths at 40 cu.m per hour. Supply from other berths at a low rate.
FUEL: Fuel and gas-oil can be supplied by barge at 200 tons per hour.
TIME: Always GMT plus 1 hour.
HOLIDAYS: Work can be arranged on following holidays. New Year's Day (January 1 full day); Epiphany (January 6 full day); Saint Joseph (March 19 full day); Easter (two days); Saint Joseph Artisan (May 1 full day); Saint Peter & St. Paul (June 29 full day); Labour Day (July 13 full day); Patron Saint of Spain (July 25 full day); Assumption Day (August 15 full day); Martyr's Day (August 30 full day); Holiday of Hispanicism (October 12 full day); All Saints (November 1 full day); Christmas Day (December 25 full day).
AUTHORITY: Camara Official de Comercio, Industria, y Navegacion. Aviles.

BARCELONA: 41.22 N. 02.10 E.

DOCUMENTS:
(1) Manifest of Barcelona cargo: one set covering all loading ports; make sure that this manifest is in perfectly good order before ship's berthing, as Customs will board the vessel immediately and take it away as it is; thereafter any omission or excess of pages may lead to a fine.
(2) Manifest of Transit Cargo: two sets (same recommendations as above).
(3) 3 Crew Lists.
(4) 1 Negative of Passangers.
(5) 2 sets of Bills of Landing of the Barcelona cargo.
(6) 2 Provisions Lists.
Of items (3), (4) and (6) above several copies will be required for distribution among various authorities, therefore it would be well for the Master to have at least three copies of each ready at hand on arrival. Tobacco allowed per crew member is 3,000 cigarettes. Any excess should be manifested in a separate Visaed statement.
If any item of cargo manifested for Barcelona should be discharged in error at any other port in the ship's itinerary before arrival at Spain, there would be a fine imposed here for shortage of goods if no advice of such shortage is given before arrival.
PILOTAGE: Pilot boats painted black, with letter "P" in white on each bow. Telegraphic address: "Pilot Station–Barcelona". Required notice of ETA 24 hours before arrival. Signals to be made by vessels requiring Pilot: the letter "G" in sound and/or light.
Pilot boats have no radar and are reluctant to venture more than just outside port entrance in poor visibility. Pilots give priority to vessels nearest port entrance. Pilotage is compulsory and the service is permanent. In case of port congestion vessels remain at anchor at the roads.
ANCHORAGES: In the Outer port for small vessels only, with depths over 50 ft. Also at the roads ½ mile away from breakwaters where vessels usually remain at anchor.
MAX. SIZE: Only limitation is draft; max. 32 ft.
HEALTH: Pratique obtained immediately after berthing, when Health Officer boards vessel. In case of suspected disease or fever on board Master must send a message to Agent, to advise Health Office. Following documents are required by Health Officer upon berthing: Maritime Declaration of Health, Deratisation Certificate, 1 Crew List.
RADIO: Aranjuez Radio, call sign EAD.
TUGS: Tugs join vessel at entrance of port. Usually use ship's lines; if tug's lines used usual charge 10% of official tariff. It is normal for two tugs to be used for vessels from 5,000 to 15,000 GRT.
BERTHING: Commercial quay, length 6,751 metres and depths minimum 26 ft., max. 32 ft. dependent location, Depth alongside Grain Elevator in Pier Contradique is 32 ft. Pier Barcelona, berths for transoceanic maritime passenger traffic, depths 26 ft. and 31 ft. Shore fenders keep vessel about 1 metre off quay.
STEVEDORES: (*a*) Daytime, normal working hours, from 08.00–12.00 and 14.00–18.00 (one shift); (*b*) 08.00–14.00 and 14.00–20.00 (two "intensive" shifts). Night time, from 20.00–02.00 and 02.00–08.00 (two intensive night shifts). Extra costs are involved for intensive shifts. Nightwork is paid on an overtime basis. Average rates for discharge of grains in bulk are about 7,500/8,000 tons per day of 24 consecutive hours; for general cargo a rate of 100 tons within normal working hours.
MEDICAL: All medical facilities are available; it would be appreci-

ated for the Master to advise in advance if a crew member is in need of urgent medical attention.
TANKERS: Diameter of load lines: 4 in., and 8 in. Diameter of discharge lines: 10 in., 12 in., and some of 8 in.
FRESH WATER: All piers have water available by shore pipes or by barge. Rate of delivery about 16/20 tons per hour.
FUEL: Fuel oil and gas oil available at "Campsa", installation. It is advisable that Shipowners stem bunkers through their own contractors, with advance notice of 48 hours. Delivery either by barge, or at the bunkering pier of "Campsa". Bunker barges allowed alongside vessel during cargo-handling.
DEVELOPMENTS: During 1968–71 lengthening under construction of breakwater Dique del Este, and pier Contradique. A wharf for 6 berths for tankers only, plus 4 berths for vessels loading/unloading crudes in bulk with a depth of 39 ft.
GANGWAY/DECK WATCHMEN: Available but not compulsory.
OPENING/CLOSING HATCHES: Normally carried out by crew, except in liner vessels which is contracted for by stevedores.
SHIP CERTIFICATES: Vessels should have all usual certificates aboard but only the Safety Wireless, Safety Equipment and Deratisation Certificates are required by authorities.
CUSTOMS ALLOWANCE: Quantity allowed for each crew member is 3,000 cigarettes. and one bottle wine/spirits.
CARGO GEAR: All commercial piers served by electric shore cranes able to lift 3, 6, and 10 tons respectively. In addition, 3 floating cranes with a lifting capacity of 80 tons each and, when two of them working together the lifting capacity is 130–150 tons.
CREW IDENTIFICATION CARDS: Not required.

BILBAO: 43.17 N. 02.55 W.

DOCUMENTS:
3 Crew Lists.
1 Passenger List.
1 Manifest of Cargo destined Bilbao, as well as other cargoes in transit.
Store List in duplicate, including tobacco, spirits, radios, etc., belonging to vessel.
Detailed list in duplicate of personal effects crew and passengers (tobacco, spirits, cameras, radios, etc.).
Safety Radio and Safety Equipment Certificates.
Note: Tobacco – Case more than 3 kilos tobacco per man, excess must be declared in separate manifest, which must be visaed by a Spanish Consul. In absence of Consul, must be visaed by authority of former port of clearance. Otherwise severe fines.
PILOTAGE: Compulsory, Pilots board by cutter in roads near entrance formed by two breakwaters. Small office on one breakwater advises Head Office of Pilots at Portugalete when vessel approaching port. Contact by VHF Channel 12 between 0700–2100. Pilot cutters painted white have letter "P" in black, on each bow. Nighttime, cutters have white light over red. Entrance between breakwaters 570 metres wide. When weather at roads is bad vessels should approach as near entrance as possible order cutter can easily approach.
ANCHORAGES: Good anchorage in Outer Harbour inside breakwaters. Depths at LW about 26–33 ft. Also anchorage outside breakwaters, lightening operations sometimes performed when weather good.
RESTRICTIONS: None, except when draft exceeds 13–14 ft. and proceeding to berths inside river, which case must await tide.
MAX. SIZE: No restrictions length or breadth. Maximum advisable draft 30–31 ft.
HEALTH: If proceeding direct to berth, pratique obtained immediately after berthing. Otherwise, at anchorage on arrival. Case suspected disease or fever on board, Master must radio Agents, to advise Health Office.
RADIO: Cabo Mayor Radio.
TUGS: No tugs required for entering port, only for berthing or shifting inside river. Ship's lines used, the tug employed according Pilot's advice.
BERTHING: Santurce 29–31 ft. alongside. Canal de Deusto 26 ft. alongside.
STEVEDORES: Very important send advance messages giving ETA. Agents then inform Shippers or Receivers' stevedores. Official working hours Monday/Saturday 08.00–12.00; 14.00–18.00 hours.
MEDICAL: Any medical service can be arranged. Case crew member needs medical attendance urgently, advisable radio details in advance.
TANKERS: "Campsa" have private berths at Santurce and Zorrosa. Cargo manifest must be visaed by Spanish Consul, or in absence of Consul by Authority at loading port.
DENSITY: 1025.
FRESH WATER: Always available. Delivery by tugs. Minimum 10 tons.
FUEL: Ordinary fuel oil and gas oil available at local "Campsa" refinery. Advisable that Shipowners stem bunkers 48 hours prior arrival. Delivery by barges, or at the bunkering pier.
DEVELOPMENTS: Oil refining plant under construction (Gulf Oil) and completion expected by 1975. Crude oil discharging terminal will be constructed for vessels of up to 200,000 dwt. at that time.
GANGWAY/DECK WATCHMEN: Not necessary.
OPENING/CLOSING HATCHES: Normally by crew, except in liner vessels, when contracted by stevedores.
SHIP'S CERTIFICATES: Have usual documents on board, but only Safety Radio, Safety Equipment and Deratisation Certificates required by authorities.
CUSTOMS ALLOWANCES: Normally, customs permit 200 cigarettes, and one bottle wine/spirits per man.
CARGO GEAR: Usually shore cranes employed in loading or discharging but if require lightening then ship's derricks used as only one floating crane is available.
IDENTIFICATION CARDS: Not required.
CONSULS: Pratically all countries have consulates at Bilbao.
REPAIRS: Good repair facilities, and several important shipyards.
DRY DOCKS: Five graving docks. Biggest: length 152 metres, breadth: 20 metres (naval shipyard).
REPATRIATION: Good facilities.
AIRPORT: About 10 km. from town. Regular services to Madrid and Barcelona. Also direct flights London and Paris.
TIME: GMT plus 1 hour (permanent).
HOLIDAYS: 1st January; 6th January; 19th March (St. Joseph); Good Thursday afternoon; Good Friday; 1st May (Labour Day); Ascension Day; Corpus Christi; 29th June (St. Peter and St. Paul); 18th July (National Holiday); 31st July (local holiday); 15th August; 12th October; 1st November; 25th December.
POLICE/AMBULANCE/FIRE: Police 091; Ambulance (hospital) 41.87.00; Fire 21.30.00.

CADIZ: 36.30 N. 06.20 W.

DOCUMENTS:
Entrance Declaration.
Health Declaration.
List of Crew on Arrival.
List of Crew on Departure.
List of Passengers on Arrival (if applicable).
List of Passengers on Departure (if applicable).
All vessels must be represented by a local Agent who will be responsible for completing the required Customs, Health and Port Authorities documentation.
PILOTAGE: International code signals used to call Pilot. Telegraphic address "Practicos Cadiz". 6 to 8 hours notice of ETA preferred. VHF communications to be available in the near future. Pilot boat is a steam launch of 40 to 50 tons, black hull, yellow funnel with letter "P" in black painted on both sides. Pilot boat does not remain at station but comes out when ordered. Pilot boards in an area between the Rota light and San Sebastian light. In case of bad weather Pilot will board nearer Los Cochinos shore and meanwhile signal instructions to the vessel until the Pilot is able to board.
ANCHORAGE: Vessels waiting for a Pilot may anchor in any safe position according to draft and weather conditions. Tankers or deep draft vessels may anchor West of the Diamante buoy in 16–18 metres depth where the Pilot boards at first opportunity.
RESTRICTIONS: Entry is restricted only by the depth of the entrance channel, maximum safe draft 30 ft.
HEALTH: Master should radio, not more than 50 hours and not less than 5 hours before arrival, the following information to the port authority: name and nationality of ship, date and time of arrival, last port of call, number of passengers and crew aboard, if doctor on board and details of any sickness noted on voyage. Message to be addressed to "Sanidad Maritima Cadiz". International code quarantine signals to be shown on arrival when free pratique will be given provided health situation is satisfactory.

TUGS: Normally join vessel off the berths.
BERTHING:
Mole No. 1. 220 metres length, depth alongside 10 metres.
Mole No. 2. 460 metres length, depth alongside 10 metres.
Mole No. 3. 440 metres length, depth alongside 10 metres.
Generalisimo Franco Mole: 365 metres length, depth alongside 10 metres.
Muelle Armamento: 200 metres length, depth alongside 9·50 metres.
Muelle Embacadura: 110 metres length, depth alongside 9·50 metres.
TANKERS: 3 tanker berths for vessels up to 27 ft. draft at the piers in the Zona Franca, operated by Campsa. Hoses: Fuel oil 10 in., gas oil 8 in., gasoline 8 in. No slop discharge facilities.
FUEL: Fuel, gas oil and several types of marine diesel can be supplied.
REPAIRS: There are three shipyards – Astilleros Espanoles SA, at Cadiz and Matagorda. Empresa Nacional Bazan–Carraca, and several workshops of Auxiliar de la Construccion Naval. All types of repairs can be effected.
DRY DOCKS: Largest is 245 metres long, 37 metres wide.
OPENING/CLOSING HATCHES: This work is normally effected by the stevedores.

CUSTOMS ALLOWANCES: Maximum of three kilos of tobacco for each person on board. All to be declared. Wine or spirits, one decilitre per man per day.
AIRPORT: Nearest at Seville, about 150 kms. away. Daily flights to Madrid, Barcelona and overseas.
TIME: GMT plus 1 hour all the year round.
TELEPHONES: Connection to vessels can be arranged by Agents.
SHORE LEAVE: Crew are permitted to go ashore subject to police control.
AUTHORITY: Comandante Militar de Marina, Comandancia Marina Puerto de Cadiz. Telephone 233902/233903. Cables: Comtemar Cadiz.

CARTAGENA: 37.35 N. 00.59 W.

DOCUMENTS:
6 copies of the Crew List.
6 copies of the Passenger List, or 2 negative copies as the case may be.
2 sets copies Manifests covering cargo destined to Cartagena and carried in transit.
Store Provision List, in duplicate, including items such as: tobacco, spirits, radios, coffee, tea, bunkers, and any other items belonging to the vessel.
2 copies of all Personal Effects Lists, from passengers and ship's crew.

The amount of cigarettes allowed for each member of crew/passenger is 3 kilos any amount over has to be manifested as tobacco in transit, and this manifest must be visaed by a Spanish Consul in the last loading/discharging port. If there is no Spanish Consul in the port of call before Cartagena, the Master is requested to send a cable to: Direccion General de Aduanas, Madrid, quoting as follows: "m.v. '. . .' coming from . . . order to proceed to Cartagena tobacco manifest unlegalised = Master."

This cable to be inserted in the radio log-book, and copy of same to be delivered to local Customs Authorities when boarding the vessel.
PILOTAGE: Pilot service in the port of Cartagena is compulsory and available 24 hours daily. Pilots normally board vessels approximately one mile South of inner breakwater, except when South-westerly winds are blowing. During these periods, Pilots will board just inside the harbour breakwaters. All Pilots carry a walkie-talkie for communication with the tug-boats. Pilots' motor-boats are painted in a white colour, showing a "P" in a black colour at each bow.
ANCHORAGES: Inner harbour for vessels under 29 ft. Also at Cartagena roads, 1 mile away from breakwaters.
MAX. SIZE: No limitations, except draft, maximum 31 ft. 6 in. See TANKERS below.
HEALTH: Free pratique is immediately obtained when vessels berth any time from sunrise to sunset. Port Health Officers, require Maritime Health Declaration, Deratisation Certificate, and copy of crew and passanger lists.
RADIO: Cabo Palos Radio, Aranjuez Radio, and/or Gibraltar Radio.
TUGS: Three tug-boats 500–1000 h.p. with fire-fighting capabilities. All three tugs on duty 24 hours duly equipped, with two shifts of crew.
STEVEDORES: In the case of a vessel calling at Cartagena at night time, Sundays or holidays, it is important that Master cable 24 hours in advance to advise his ETA in order that Agents are able to arrange stevedores' operations. Gangs can be called on as follows: on weekly working days 08.00, 13.30 and 17.30 hours On Sundays/holidays 08.00 hours (with prior advice to Union by 12.00 hours on Saturdays or day preceding holidays. The official working hours are: Monday/Saturday 08.00 to 12.00 and from 13.30 to 17.30 hours – Sundays/holidays: from 0800 to 1400 hours.
MEDICAL: Medical services rendered as soon as requested for but, in case of emergency Master required to send urgent cable in advance.
TANKERS: These vessels call at port of Escombreras 2 miles away from Cartagena port, this port owned by Refineria de Petroleos de Escombreras S.A. Vessels calling there, only to load/discharge, not for bunkering. Max. size 850 ft. length and draft 42 ft.
FRESH WATER: Available from quay by hose connections, only on working days. On Sundays/holidays notification to be required before 1400 hours preceding day.
FUEL: Not available.
PORT FIRE PRECAUTIONS: The port area has its own Fire Department under Supervision of Port Director. Although there is no water-borne equipment available, tug "Brio" will assist as required as well as Cartagena City Fire Department.
DEVELOPMENTS: There is a big programme to increase berthing-places by building new piers close to breakwaters, available for three vessels, provided with 4 shore cranes, capacities 3–6 tons each.
GANGWAY/DECK WATCHMEN: Not compulsory, only used when required by Master under Immigration Police Supervision.
OPENING/CLOSING HATCHES: Usually by ship's crew.
CUSTOMS ALLOWANCES: 200 cigarettes per each crew member, out of bond. The excess to be declared as cargo in transit. Wine and/or Spirit: One bottle for each crew member or passenger.
CREW IDENTIFICATION CARDS: Not required.
CONSULATES: Pratically all countries have consulates in Cartagena, except Britain, Germany, North America, and Portugal.
REPAIRS: There are very good repair facilities. A private shipyard "Empresa Nacional Bazan" and two other private repair shops.
DRY DOCK: A floating dock, and a dry dock, both belonging to Empresa National Bazan.
REPATRIATION: All facilities available.
AIRPORT: Nearest one Valencia, then Barcelona, thereafter Madrid.
TIME: GMT plus 1 hour.
HOLIDAYS: 1st January; 6th January; 19th March (St. Joseph); Good Thursday from 14.00 hours; Good Friday; 1st May (Labour Day); Ascension Day; Corpus Christi; 29th June (St. Peter and St. Paul); 18th July (national holiday); 18th August; 12th October; 1st November (All Saints' Day); 25th December.
POLICE/AMBULANCE/FIRE: Police tel. 501456; Ambulance 503470; Red Cross 501727; Fire Department 501111; Port Fire Department 503100.

AGENT: Daniel Gomez Gomez, S.A. Mayor, 6–10, PO Box 100, Tel. 505805/0607, 501616/503333, Cables "Frutera", Cartagena.

CASTELLON DE LA PLANA: 39.58 N. 00.01 W.

DOCUMENTS:
Manifest of Castellón cargo: 1 set covering all loading ports; make sure that this manifest is in perfectly good order before ship's berthing, as the Customs will board the vessel immediately and take it away as it is; thereafter any omission or excess of pages may lead to a fine.
Manifest of the Transit cargo: 2 sets (the same recommendations as above).
3 Crew Lists.
2 Negative of Passengers.
2 sets of Bills of Lading of Castellón cargo.
2 Provisions lists.
2 Manifests of personal effects.
PILOTAGE: Compulsory, and service is permanent. Pilots board vessels by a cutter in roads near entrance formed by the two breakwaters.

Pilot cutters are painted white and have the letter "P" in black on each bow. Cutters have a blue flag, with letter "P" in white. Signals to be made by vessels requiring Pilot: three long blasts. Telegraphic address: "Praticos, Comandancia Marina, Castellon".
ANCHORAGE: Vessels can remain at anchor at the roads. Recommended anchorage: ½ a mile East of lighthouse in depth of 12 metres.
RESTRICTIONS: Maximum draft 22 ft. for vessels of about 110–120 metres length. For vessels of more 120 metres, to 140 metres length, maximum draft is 20–21 ft. *Tanker sea berth:* Max. draft 65 ft.
HEALTH: Pratique obtained immediately after berthing, when Health Officer boards vessel. In case of suspected disease or fever on board Master must radio Agent to advise the Health Office. Following documents are required by the Health Officer upon berthing: Maritime Declaration of Health, Deratisation Certificate, 1 Crew List.
RADIO: Aranjuez Radio, call sign EAD, 36–48 hours prior arrival nearest radio station is El Grao Radio, call sign EAV.
TUGS: Tugs join vessels at entrance of port. Vessels of more than 100 metres length normally use one or two tugs.
STEVEDORES: Very important that Master sends in advance short radio notice regarding vessel's ETA so Agent can inform Shippers or Receivers' stevedores accordingly. Official working hours of port are: Monday/Saturday 08.30–12.30 – 14.00–18,00 hours.
MEDICAL: All kinds of medical services can be arranged. In case a crew member needs medical attendance urgently, it is advisable that Master sends a radio message in advance.
TANKERS: "Campsa" berth in Muelle Serrano Lloberes.

Esso Petroleos Espanoles, S.A. Refinery Terminal. Breasting Island: Lat. 39° 56′ 7″ N. Long. 00° 01′ 6″ E. for tankers with unlimited length and draft up to 41 ft.

Sea berth: For crude oil cargoes with submarine pipeline: Lat. 39° 56′ 4″ N. Long. 00° 02′ 7″ E. Unlimited length, draft up to 65 ft.

Bunkering available. Water available by barge. Provisions available Pilotage compulsory – ESSO Pilots. Tugs: two tugs compulsory.

FRESH WATER: All piers have water available by shore pipes. The rate of delivery is about 8–9 tons per hour. Price per ton 15,00 Ptas.
FUEL: Available with five days notice and subject to "Campsa" berthing availability.
DEVELOPMENTS: In two years lengthening of pier Costa will be completed. Berths will increase by 200 metres.
GANGWAY/DECK WATCHMEN: Available but not compulsory.
OPENING/CLOSING HATCHES: Normally carried out by crew.
SHIP'S CERTIFICATES: Vessels should have usual documents on board, but only the Safety Wireless, Safety Equipment and Deratisation Certificates are required by authorities.
CUSTOMS ALLOWANCES: Normally, Customs permit 200 cigarettes per man out of bond and one bottle of spirit per man.
CARGO GEAR: All commercial piers served by electric shore cranes able to lift 3, 6 and 8–9 tons.
CREW IDENTIFICATION CARDS: Not required.
CONSULS: Italian, postal address Plaza Huerto Sogueros, 2–3°–2ª, tel. 212288; France, Plaza Borull, 9, 220180; Sweden, Maestro Ripollés, 28, 220053; Norway, Trinidad 85, 224511.
REPAIRS: Work shop for small repairs.
REPATRIATION: Good facilities exist.
AIRPORT: Valencia, 70 km. away.
TIME: Always GMT plus 1 hour.

CASTRO-URDIALES: 43.24 N. 03.14 W.

DOCUMENTS:
Manifest of Cargo.
Manifest of Cargo to other ports, if any.
If in ballast state so in the Manifest.
Passenger List, if no passengers, nevertheless state "Passengers Nil".
Store List in duplicate, including list of customs-barred articles in possession of each crew member (cameras, binoculars, radios, cigarettes, cigars, tobacco, spirits, etc.).
Crew List.
Bill of Health.
PILOTAGE: Compulsory. Approaching Port hoist letter "G" flag to apply for Pilot, who boards vessel near entrance formed by two breakwaters. White motor-launch flies blue flag with letter "P" in white.
ANCHORAGES: In the roads, outside the Harbour, good anchorage in about 50 ft., at 1·5 cables N.E. from entrance.
MAX. SIZE: Draft 26 ft. depth at entrance 30 ft., width 165 fathoms.
HEALTH: In case of any suspected disease or fever on board, the Master must radio Agent to inform Health Officer. Otherwise usual procedure to apply and free pratique obtained. Deratisation Certificate to be produced.
RADIO: Cabo Mayor Radio, near Santander, 30 miles W. Call sign "EAS". Frequency 500 ks.
TUGS: None.
BERTHING: Irrespective of tide. The S.E. pier has a total length of 980 ft., of which 500 ft. forms the commercial wharf, mainly for coasters sundry cargoes. No cranes. Fresh water supply. Depth 17 ft. at low water.

Iron ore loading tips: Along open coast adjoining Castro-Urdiales are several cantilever piers connected with the Iron Ore Mines, partly sheltered in creeks or small coves. All vessels bound to land iron ore there should clear and apply at Port of Castro Urdiales. Steamers cannot remain at these berths during rough weather but may find good anchorage in roads, or immediate shelter at the port of Castro-Urdiales, or better at Bilbao Harbour 9 miles East.

The Iron Ore Loading Berths (no length limit) are as follows:

Name	*Situation*	*Approx. ebbtide draft*	*Loading rate per working hour*
Urdiales	1 mile W.	23 ft.	200 tons
Dicido	1 mile E.	21 ft.	800 tons
Saltacaballo	1½ miles E.	22 ft.	800 tons
Onton	2 miles E.	21 ft.	1,000 tons

STEVEDORES: Ordered by Agent or Shipper. No ETA to stevedores necessary.
MEDICAL: Hospital available.
FRESH WATER: Three installations at the S.E. pier. Rate 5 ton/hour. Price Pesetas 15,-per ton.
FUEL: Not available.
DEVELOPMENTS: Limited to strengthening the breakwater.
GANGWAY/DECK WATCHMEN: Not necessary.
OPENING/CLOSING HATCHES: Carried out by crew.
SHIP'S CERTIFICATES: Safety Wireless, Safety Equipment, and Deratisation generally inspected.
CUSTOMS ALLOWANCE: Normally 200 cigarettes per man. For longer stay, new allotment out of bond obtainable. Wine/and/or Spirit: one bottle per man.
CARGO GEAR: Vessel's derricks employed at Iron Ore Loading Berth on coast, with cantilever piers; no other special cargo gear required.
IDENTIFICATION CARDS: Not required.
CONSULS: None.
REPAIRS: Limited.
REPATRIATION: Repatriation is possible.
AIRPORT: Nearest Sondica (Bilbao) 40 km. by road.
TIME: Always GMT plus 1 hour.
HOLIDAYS: 1st January; 6th January; 19th March (St. Joseph); Good Thursday afternoon; Good Friday; 1st May (Labour Day); Ascension Day; Corpus Christi; 26th June (local holiday); 29th June (Sts. Peter and Paul); 18th July (national holiday); 15th August; 12th October; 1st November; 25th December.
POLICE/AMBULANCE/FIRE: Police tel. 6; Ambulance (Hospital) 26; Fire 54.
TELEPHONES: No arrangements for placing telephones on board.
SHORE LEAVE: Crew allowed ashore.
DELAYS: The only delay that can normally be expected are those due to bad weather.
AGENT: J. Ibanex, Castro-Urdiales, Muelle 11. Tel. office 3, home 76. Telegraphic address "Ibanez".

CORUNNA: 43.23 N. 08.22 W.

DOCUMENTS:
3 Crew Lists.
2 Passenger Lists or a negative.
1 Cargo Manifest of goods destined for the port.
Another Manifest covering Transit Cargo.
2 Store Lists, including tobacco, cigars, cigarettes, coffee, spirits, radios, cameras, etc., in possession of crew. In all cases make and number of radios to be indicated.
Safety Wireless Certificate and Safety Equipment Certificate.
If vessel carries over 3 kilos tobacco per man, the excess to be declared in separate manifest, which must be visaed by Spanish Consul at the last port, otherwise vessel is exposed to heavy fine.
PILOTAGE: Compulsory. International code signals used to call Pilot.
RESTRICTIONS: Approaches to port are deep water, depth about 15 metres. No restrictions on night manoeuvres.
MAX. SIZE: Length and beam not restricted. Tankers up to 13 m. draft. Cargo vessels 32 ft. draft for berthing.
HEALTH: If vessels proceed directly to berth, pratique can be obtained immediately after berthing. Otherwise, at anchorage at vessel's arrival.

If vessel has sickness on board of a contagious nature Master should advise Health Authorities by radio, and they will examine patients immediately upon arrival, to enable vessel to be granted free pratique.
TUGS: Available up to 800 h.p.
BERTHING:

East Quay,	length 1,148 ft.	depth alongside	19 ft.	
Palloza Quay,	,, 984 ft.	,,	,,	21–27 ft.
Santa Lucia Quay,	,, 754 ft.	,,	,,	18–21 ft.

Calvo Soutlo Quay, two berths, depth alongside 30 ft.
San Diego Quay, depth alongside 33 ft.
TANKERS: Oil Refinery No. I pier depth alongside 13 metres. No. II pier depth alongside 13 metres. Facilities for reception of dirty ballast ashore.
FRESH WATER: Can be supplied by pipeline at most berths or by barge.
FUEL: Can be supplied by pipeline at most berths. No barges.
CUSTOMS ALLOWANCES: Normally Customs permit to have 200 cigarettes per man out of bond. Additional quantities needed depend on the stay of ship in port. One bottle of spirits per man.
REPAIRS: Minor repairs can be effected in shore work shops.
DEVELOPMENTS: New pier under construction.
AIRPORT: Nearest international airport at Santiago de Compostella 60 km. away.
TIME: Always GMT plus 1 hour.
HOLIDAYS: Work can be arranged on following holidays. New Year's Day (January 1 full day); Epiphany (January 6 full day); Saint Joseph (March 19 full day); Easter (two days); Saint Jospeh Artisan (May 1 full day); Saint Peter & St. Paul (June 29 full day); Labour Day (July 13 full day); Patron Saint of Spain (July 25 full day); Assumption Day (August 15 full day); Martyrs' Day (August 30 full day); Holiday of Hispanisicm (October 12 full day); All Saints (November 1 full day); Christmas Day (December 25 full day).
AUTHORITY: Junta de Obras Y Servicios del Puerto.

FERROL: 43.28 N. 08.16 W.

DOCUMENTS:
3 Crew Lists.
2 Passenger Lists or a negative.
1 Cargo Manifest of goods destined for the port.
Another Manifest covering transit cargo.
2 Store Lists, including tobacco, cigars, cigarettes, coffee, spirits, radios cameras, etc., in possession of crew. In all cases make and number of radios to be indicated.
Safety Wireless Certificate and Safety Equipment Certificate.
If vessel carries over 3 kilos tobacco per man, the excess to be declared in a separate manifest, which must be visaed by Spanish Consul at the last port, otherwise vessel is exposed to heavy fine.
PILOTAGE: Compulsory. International code signals used to call Pilots. Pilots board off Cape Priorino.
MAX. SIZE: Cargo vessels up to 32 ft. draft. Tankers up to 35 ft. draft.

HEALTH: If vessel proceeds directly to berth, pratique can be obtained immediately after berthing. Otherwise, at anchorage at vessels arrival. If vessel has sickness on board of a contagious nature Masters should advise Health Authorities by radio, and they will examine patients immediately upon arrival, to enable vessel to be granted free pratique.
TUGS: Available up to 1,250 h.p. Also salvage tug normally stationed at Ferrol.
BERTHING: Depth alongside quays 25–32 ft.
TANKERS: Campsa Oil Terminal, 4 berths, can accommodate tankers up to 656 ft. length and 35 ft. draft. Facilities available for discharging slops ashore.
FRESH WATER: Can be supplied from the quays.
FUEL: All grades available at the oil berths.
REPAIRS: All ships repairs can be effected.
DRY DOCKS: 5 dry docks for building and repairing Naval and merchant ships. Largest dry dock length, 1,020 ft., width 155 ft.
CUSTOMS ALLOWANCE: Normally Customs permit to have 200 cigarettes per man out of bond. Additional quantities needed depend on the stay of ship in port. One bottle of spirits per man.
AIRPORT: Alvedro Airport, regular services to Madrid.
TIME: Always GMT plus 1 hour.
HOLIDAYS: Work can be arranged on following holidays. AUTHORITY: Camara Oficial de Comercio, Industria y Navegacion, Gijon-Musel.

HUELVA: 37.16 N. 06.55 W.

DOCUMENTS:
3 Crew Lists.
2 Passenger Lists or a negative.
1 Cargo Manifest of goods destined to Huelva.
Another Manifest covering transit cargo.
2 Store Lists, including tobacco, cigars, cigarettes, coffee, spirits, radios, cameras, etc., in possession of crew. In all cases make and number of radios to be indicated.
Safety Wireless Certificate and Safety Equipment Certificate.
If vessel carries over 3 kilos tobacco per man, the excess to be declared in a separate manifest, which must be visaed by the Spanish Consul at the last port, otherwise vessel is exposed to heavy fine.
PILOTAGE: Compulsory. Services from middle to high tide, depending on draft of vessel on arrival or departure. Pilot's motorboat painted white. Letter "P" in black at both bows. Agent must be in close contact with Pilot Office. Pilots are informed by Agent of ETA at bar. In rough weather Pilots will not be available for entries. or sailings. Depths of water depend on location, ranging from 15 ft. to 30 ft. in high tide. Pilot station equipped with VHF Channel 16.
MAX. SIZE: Only restriction, max. draft 25 ft.
For TANKERS see below.
HEALTH: Health Officer will board vessels any time from sunrise to sunset, and free pratique granted if health conditions satisfactory.
RADIO: Nearest Radio Station, Cadiz. Station most used for shipping business Radio Aranjuez, due to larger range, unless vessel within 400/500 miles distance to Cadiz.
TUGS: Only used inside harbour. Ship's lines employed, four tugs available. Number required to assist vessels at the discretion of the Pilot in charge.
BERTHING: Berths available, depths alongside 15–30 ft.
STEVEDORES: 48 hours advice to Agent necessary to engage labour.
MEDICAL: Advance notice to Agent in case of urgent need of medical assistance always necessary, so as to have time for arrangements to be made.
TANKERS: Rio Gulf de Petroleos operate a SBM tanker mooring 7 miles offshore, about 20 miles distant from Huelva. Suitable for vessels 900 ft. long with draft up to 48 ft. Mooring is positioned in depth of 20 metres. Discharge rate about 1,300 tons per hour.
Within Huelva port, Rio Gulf have two tanker berths, Campsa have one.
DENSITY: Water at this port is salt water. Fresh water, in quantity of 1 in. to 7½ in., only present in heavy rainy weather.
FRESH WATER: Public pier (Muelle de Levante) can supply direct from wharf. Tharsis, Rio Tinto, Campsa and Rio Gulf Jetties have no installation for this purpose. Fresh water is supplied from barge and barge to be towed alongside ships.
FUEL: Fuel oil, diesel available.
DEVELOPMENTS: Projects are in being to increase depth of water down to 35 ft. for tankers using the Rio Gulf berths, but this implies dredging of bar and channel, a distance of 8–9 miles; it is not known when the project will be completed.
GANGWAY/DECK WATCHMEN: The employment is at the discretion of Masters, who are free to either employ or do without any watchmen.
OPENING/CLOSING HATCHES: Normally effected by crew, liner vessels excepted.
SHIP'S CERTIFICATES: Safety Wireless, Safety Equipment and Deratisation Certificates should be at hand for production if requested.
CUSTOMS ALLOWANCES: 200–300 cigarettes per man out of bond. If necessary permit may be obtained from Customs Authorities to open bond and provide crew with fresh supplies, if stay in port justifies procedure. Wine and/or Spirit Allowances: One/two bottles per man.
CREW IDENTIFICATION CARDS: Should be handy for production to Port Police, if no passports.
CONSULS:

Belgium	Norway
Denmark	Panama
Germany	Portugal
Holland	Sweden
Italy	

REPAIRS: Any kind in engine room, and hull above water.
DRY DOCKS: Only one small dry dock available for vessels up to 3.500 GRT.
REPATRIATION: No difficulty in this respect.
AIRPORT: Distance to the nearest airport (San Pablo-Seville) 90 kilometres. Good domestic services and connections with all foreign airlines.
TIME: GMT plus 1 hour.
HOLIDAYS: 1st January; 6th January; 20th January; 19th March; Thursday preceding Good Friday as from 2 p.m. Good Friday; 1st May; Corpus Christi; 29th June; 18th July; 3rd August; 15th August; 1st October; 12th October 1st November; 8th December; 25th December.
Permit to work on any of the mentioned holidays (1st January Good Friday and 25th December excepted) can be obtained, but sufficient reasons must be given to justify permission.
POLICE/AMBULANCE/FIRE: Police tel. 214012; Ambulance 214867; Fire Station 211634.
TELEPHONES: No arrangements exist, for the time being, to place telephones on board vessels.
AGENTS: Borbolla y Compania S.A., Gran Via 5, Huelva. Cables – "Boronuba Huelva". Tel. 215411, 215327.

IBIZA: 38.54 N. 01.28 E.

DOCUMENTS: *Passenger Liners:*

6 Passenger Lists (Customs, Police, Guardia Civil, Obras del Puerto, Health and Consignee).
2 Lists of crew and passengers personal effects (Customs).
2 Store Lists (Customs).
Health Certificate (Health Department).
2 Cargo Manifest, if any. (Customs).
2 Negative Cargo manifest, if no cargo.
Cargo Ships:
5 Crew Lists.
2 Lists of crew personal effects.
2 Store Lists.
Health Certificate.
2 Cargo Manifests.

PILOTAGE: Pilotage compulsory. No ships allowed to go further than imaginary line between Botafoch lighthouse and Isla Negra de Este, without a Pilot. Advisable to give 24 hours notice of ETA. Shortly VHF will be installed in Pilot Station and boats. Pilot's boat is of the canoe type with white sides and letter "P" in black on both sides. Vessels requiring a Pilot must give three long whistles. By night flash morse "G".

Pilot will board between Botafoch lighthouse and Isla Negra del Este. In bad weather vessel should follow Pilot's canoe till he is able to board.

ANCHORAGES: Anchorage area situated inside of imaginary line: Botafoch–Negra del Este with depths of 40 to 50 ft. Pilot required to anchor.

MAX. SIZE: Maximum length for berthing, 135 metres. Maximum draft 21 ft.

HEALTH: Report in advance to Pilot if there is any problem. If situation is normal, then, after ship berths the health inspector boards and quickly grants pratique. In event of any suspected disease or fever on board, the Pilot (without boarding), will show the anchorage area, then health inspectors and authorities will board, and give necessary instructions.

Vessels entering after calling at another Spanish port have no problems obtaining pratique.

TUGS: Not available.

STEVEDORES: Available, ETA required 24 hours in advance.

MEDICAL: Civil hospital, military hospital, and three private clinics available.

TANKERS: Load/discharge lines 10 in. and 8 in. No facilities for discharging residues. One berth. Maximum draft of the ship is 21 ft.

FRESH WATER: Available at the quays. 9 metric tons per hour. Price per ton 12 pesetas.

FUEL: Available. Notice required, 24 hours.

FIRE PRECAUTIONS: Tankers should have a rope over bows, at water level while the ship is berthed.

DEVELOPMENTS: Increasing depths in the port to 7 metres. It has also been approved to enlarge berthing quays to 220 metres and 7 metres depth, and build a fishing dock.

GANGWAY/DECK WATCHMEN: Performed by crew.

OPENING/CLOSING HATCHES: There are no fixed rules on this matter: it varies according to the circumstances.

CUSTOMS ALLOWANCE: Quantity permitted for each crew member to be held out of bond: 1,000 cigarettes and 100 cigars. 2 litres of alcohol (whisky, cognac, etc.)

IDENTIFICATION CARDS: Required.

REPAIRS: There are good work shops and engineers but with limited possibilities. There is a shipbuilder's yard where they build and repair yachts and canoes.

REPATRIATION: Facilities for effecting crew changes and arranging any necessary repatriations.

AIRPORT: 8 kilometres away, served by scheduled flights daily.

TIME: GMT plus 1.

HOLIDAYS: Cargo work can be arranged on the official holidays with an extra charge of 40% to the workmen.

New Year; Epiphany (6th January); Saint Joseph (19th March); Maundy Thursday: half-day (the evening); Good Friday; Ascension of our Lord (40 days after Resurrection); Saint Joseph the Artisan (1st May); The Holy Heart (last Friday of June); Exaltation to work (18th July); Santiago, Lord of Spain (25th July); Our Lady of the Snows, Lord of Ibiza (5th August); Ascent of Blessed Virgin Mary to Heaven (15th August); Feast of the Hispanicism (12th October); All Saints' Day (1st November); Festival of the Immaculate Conception (8th December); Christmas Day (25th December).

Although not yet official there will be introduced as a holiday Easter Monday and 26th December.

POLICE/AMBULANCE/FIRE: Police 311131; Ambulance 311214; Fire telephone call to the Comandancia de Marina, tel. 311190.

SERVICES: Compass adjusting.

SHORE LEAVE: Crew members are allowed ashore.

PORT AUTHORITY: Comandante de Marina de Ibiza, Comandancia de Marina, tel. 311190.

MAHON: 39.52 N. 04.18 E.

DOCUMENTS: *Health Department:*
Health Document.
Crew List.
Passenger List.
Disinfect and De-Ratisation Certificates.
Port Authorities:
Crew, Passenger List.
Ship characteristics and other details.
Cargo.
Indication of previous Port and destination.
Muster Roll, to be produced.
Customs:
Cargo Manifest.
Bill of Lading.
Crew List and Passenger List.
Also the Captain will produce, if required, Log book and passports of crew.

PILOTAGE: Compulsory to take Pilot in entry, departure and any movements within port. On approaching port, during day, ships will hoist flag corresponding to International Code "I need a Pilot". By night, by means of lights, according to International Code.

During day Pilot's boat is recognised by a square blue flag with letter "P" (painted white) in centre of flag. Pilotage area comprises all the estuary, from inside port to outside Capes of La Mola and San Carlos.

ANCHORAGES: Inside are good anchorages, for instance Cala Llorga and Plana de Cala Figuera.

MAX. SIZE: Unlimited length and width, but draft is limited to commercial port, 25 ft.; and to anchorage, 43 ft.

HEALTH: Hoist correct flags of International Signals Code to indicate health situation of ship. Before pilot boards, he should ask for health situation. If ship suspected, he will lead it to Lazareto anchorage and once anchored Pilot will report by means of Port Authority to Health Department. Port is provided with service of disinfection and means to kill rats.

Ships coming from Middle East and East Africa should carry certificate of anticholeric vaccination, intivariolic, antimarilic and antityphus. Also from North Africa and South America. All others only antivariolic and antityphus.

TUGS: A military tug, from Naval Station, can give private services if required with 24 hours notice, payment in advance.

BERTHING: Allocated in South of port, in front of Naval Station, The commercial berth is 216 metres long, 25 ft. depth. Berth of Cala Figuera only for oil, limit of draft 25 ft.

STEVEDORES: Stevedores available. Loading/discharge rates 200 metric tons per day. They should be notified before 8 a.m., those ships that berth first having preference or priority.

MEDICAL: In case of accident or illness of any member of crew medical assistance and hospitalization will be in civil hospital.

FRESH WATER: One supply in Cala Figuera, two in Maritime Club and three in Commercial berth; Price per metric ton is 12 pesetas, increase of 50% on Sundays and festivals. The minimum supply is 2 metric tons.

FUEL: Available from Campsa at Cala Figuera.

DEVELOPMENT: Scheme to increase Commercial Quay by another 60 metres, towards the West.

OPENING/CLOSING HATCHES: Carried out by crew.

IDENTIFICATION CARDS: Not required.

CONSULS: No consuls, but consular agents: France, tel. 351907; Holland tel. 351167; Italy tel. 351264.

REPAIRS: Small repairs available.

DRY DOCKS: Military floating dock of 2,000 metric tons.

AIRPORT: Mahon, 5 kilometres distance, with daily flights to Peninsula.

TIME: GMT plus 1 hour.

HOLIDAYS: Work can be arranged on holidays, provided workmen are paid extra.

POLICE/AMBULANCE/FIRE: Police 351095; Hospital 351023; Airport firemen 351193.

TELEPHONES: No facilities available.

PORT AUTHORITY: Capitan de Navio, Comandante Militar de Marina de Menorca; tel. 352394 Estacion Naval de Mahcn, tel. 351600.

MALAGA: 43.00 N. 36.04 W.

DOCUMENTS:
3 Crew Lists.
I Passenger List or Negative.
1 Cargo Manifest of goods destined to Malaga, as well as of other cargoes in transit.
Store List in duplicate, including tobacco, spirits, radios, etc., belonging to vessel.

Details list in duplicate of all personal effects of the crew and passengers (tobacco, spirits, cameras, radios etc.). For vessels bigger than 499 GRT., Safety Equipment Certificate.

Note: Tobacco; In case vessel carries more than 3 kilos of tobacco per man, the excess must be declared in a separate manifest, which must be visaed by Spanish Consul. In absence of Consul, said document will have to be visaed by an Authority or Consul of a friendly nation at the former port clearance. Otherwise, vessel may be severely fined.

PILOTAGE: Pilotage is compulsory and service is permanent. Pilots board vessel by cutter in roads, near entrance formed by two breakwaters. Pilot cutters are painted white and have letter "P" in black on each bow. Cutters have a blue flag hoisted on mast, with the letter "P" in white, at both sides of flag. At nights, cutters have white light, and under this light, red one. Entrance between breakwaters is 320 metres wide and easily accessible. When weather in the roads is rather bad, which seldom happens, vessels approach as close as possible to entrance in order that Pilot can board easily.

ANCHORAGE: Anchorage in Outer Harbour is usually still and good; there are mooring quays at which vessels can unload or load.

Depths at LW is about 26–33 ft. When anchorage is congested, vessels can anchor outside of breakwaters, in roads. Anchoring is prohibited in vicinity of tanker moorings, the pilot will advise best position. Weather is bad, occasionally when East wind blows, during winter.
MAX. SIZE: No restrictions in respect of length or breadth. Maximum advisable draft to enter port is 31–32 ft. Vessels like "New Amsterdam" and "Cristoforo Colombo" enter regularly.
The tanker sealine berth can accept vessels up to 130,000 dwt.
HEALTH: If vessels proceed directly to berth, pratique can be obtained immediately after berthing. In case of any suspected disease or fever on board, Master must radio to Agents, in order that they can advise Health Office.
RADIO: Nearest important radio station is Cadiz, or Gibraltar and Aranjuez. Master's messages should be received at least 24 hours before arrival.
TUGS: Ship's lines are used, tug-boats are employed according to Pilot's advice ,and upon request. There is one 600 h.p., another 1,000 h.p., and two of 1,500 h.p.
BERTHING: Pilots will advise Masters whether vessel has a free berth or not. Also if she has to anchor in roads. Further particulars can also be obtained from Pilot.
STEVEDORES: It is important that Master sends advance message regarding the vessel's ETA. Agents can inform Shippers or Receivers' stevedores accordingly, to arrange operations properly. Official working hours of port are: Monday/Saturday 08.00/12.00, 14.00–18.00 hours.
MEDICAL: Any kind of medical service can be arranged. In case a crew member needs medical attendance urgently, it is advisable that the Master radio in advance.
TANKERS: Petrol pier in the port can take ships of 30,000 tons, and 31 ft. draft. Ships over 100,000 tons, can unload at private sealine berth, a five point buoy mooring in depth of 50 metres.
DENSITY: 1025.
FRESH WATER: Always available. Deliveries are performed by tug-boats. Minimum tonnage: 10 tons, price per ton, including transport costs between 14–18 ptas.
FUEL: Ordinary fuel oil and gas oil are available at local refinery of "Campsa". It is advisable that Shipowners contract bunkers through their own contractors, with anticipation of 48 hours, so that order can be received in time. Delivery can be performed at bunkering pier or by car tankers.
FIRE PRECAUTIONS: Tankers perform their operations at the private berths of "Campsa" which have necessary fire precautions.
DEVELOPMENTS: An extensive plan to increase facilities of port, and for building new piers. Other important work being effected at breakwater, to erect new piers for large passenger ships.
GANGWAY/DECK WATCHMEN: Available but not compulsory.
OPENING/CLOSING HATCHES: This work effected normally by crew, except in liner vessels, which is contracted by stevedores.
CERTIFICATES: Vessels should have the usual documents on board, but only Safety Wireless, Safety Equipment and Deratisation Certificates are required by authorities.
CUSTOMS ALLOWANCES: Normally, customs permit to have 200 cigarettes per man out of bond. One bottle of spirit for each crew member.
CARGO GEAR: Usually shore cranes are 2–3–6–15 tons lifting power employed in loading or discharging operations, if vessels require any lightening then vessel derricks are employed, as only one floating crane is available at the port of 25 tons and 15 m. height.
IDENTIFICATION CARDS: Not required.
CONSULS: Practically all countries have consulates at Malaga.
REPAIRS: Facilities of a limited nature.
DRY DOCKS: There is a 1,000 ton floating dock.
REPATRIATION: Good facilities.
AIRPORT: The airport is about 8 km from town. Daily services with Madrid, Barcelona, Seville, Valencia, Tangier and Melilla. Also direct flights to London, Paris, Amsterdam, Brussels, Frankfurt, Stockholm, Helsinki, Geneva, Zurich, Nice.
TIME: GMT plus 1 hour.
HOLIDAYS: 1st January; 6th January; St. Joseph (19th March); Good Thursday afternoon; Good Friday; Labour Day (1st May); Ascension Day; Corpus Christi; St. Peter and St. Paul (29th June); national holiday (18th July); 25th July; 15th August; 12th October; 1st November; 8th and 25th December.
POLICE/AMBULANCE/FIRE: Police 210985; Ambulance 222369; Fire 234567.

AGENT: E. Van Dulken & Cia, Alameda de Colon 9 Malage. Telegrams "Dulken, Malaga." Telex: Dulkn 77040. Tel. 21.77.57 (3 lines). Shipbrokers, customs, and chartering Agents.

MOTRIL: 36.43 N. 03.30 W.

DOCUMENTS:
Health Certificate.
5 Passenger Manifests (1 Health, 2 Customs, 1 Police, 1 Agent).
4 Crew Manifests (1 Health, 2 Customs, 1 Agent).
2 Store Lists (for Customs).
PILOTAGE: Arranged by Agent basis ETA given 24 hours in advance. Pilot boat distinguished by painted "P". Night pilotage possible approx. 40% extra. Vessels await Pilot just outside port.
ANCHORAGE: Area near the port.
RESTRICTIONS: No entrance at night.
MAX. SIZE: Maximum draft 23 ft. Length maximum 130 metres.
HEALTH: Free pratique given on board.
RADIO: Telegraph office, no radio.
TUGS: Available.
STEVEDORES: No ETA advice necessary. Agents arrange gangs. Work normal hours except holidays.
MEDICAL: No advance notice required. All facilities available.
TANKERS: Vessel about 8,000 tons. No special requirements.
DENSITY: Normal Mediterranean.
FRESH WATER: Available. About 30 pts/ton.
FUEL: No fuel available.
GANGWAY/DECK WATCHMEN: Agent arranges.
OPENING/CLOSING HATCHES: Crew open and close hatches.
CUSTOMS ALLOWANCE: Tobacco: About 100 cigarettes per man. Wine and or spirit. None.
IDENTIFICATION CARDS: Not necessary.
CONSULS: None in Motril. The nearest Granada or Malaga.
REPAIRS: No repairs possible.
REPATRIATION: Facilities available.
AIRPORT: The nearest airports Malaga 105 km. Granada 75 km.
TIME: Local time GMT plus 1 hour.
HOLIDAYS: see "Malaga."
POLICE/AMBULANCE/FIRE: Police 501118; Ambulance 500121; Fire 500200.
TELEPHONES: No facilities for placing telephones on board.
SHORE LEAVE: Crew members are allowed ashore.

AGENT: Julio Munoz-Chapuli. Port Avenue. Tel. 600627. Cables Munochapuli. Box PO 55, Motril.

PALAMOS: 41.50 N. 03.08 E.

DOCUMENTS:
3 Crew Lists.
1 Passenger List or negative.
Manifest of goods destination Palamos and in transit.
Store List in duplicate, including tobacco, spirits, radios, etc., belonging to vessel.
Detailed list in duplicate of all personnel effects of crew and passengers (Tobacco, spirits, camera, radios, etc.).
Tobacco – any excess over 3 kilos per person must be stated on a separate manifest duly visaed by Spanish Consul.
If on inspection differences are found in more or less, articles removed and heavy fine imposed.
PILOTAGE: Pilotage is compulsory and service between 07.00 to 24.00. Pilot is informed of vessel's ETA by Agents. When vessels approach the breakwater Pilot boards vessel. Pilot's craft is white with a black capital "P".
BERTHING: Depth of water in centre of harbour 42–52 ft. Commercial Wharf length: North 689 ft., depth 18–26 ft. South 246 ft., depth 15–24 ft. Pier Wharf or breakwater: not available for commercial traffic. Length 2,100 ft.
RESTRICTIONS: None but for draft. Vessels carrying dangerous cargo should get authorization for berthing prior to arrival of the ship.
MAX. SIZE: No restrictions in respect of length. The maximum advisable draft for berthing is 24 ft. stern, 20 ft. bow.
HEALTH: Pratique is obtained immediately after berthing. In case of suspected disease or fever on board the master must radio to Agent in order inform Health Office in time.
RADIO: Radio Costera of Barcelona.
TUGS: None but Barcelona's tugs could be hired should the vessel's size make it necessary.
STEVEDORES: Information about ETA time is advisable to get gangs ready.
MEDICAL: Any kind of medical services can be arranged if information received in time.
FRESH WATER: Plentiful supply of water by means of hoses from the pier to vessel.
FUEL: Can be supplied if required.
DEVELOPMENTS: Steps are being given to get the breakwater in condition to berth tankers and liners.
GANGWAY/DECK WATCHMEN: It is not compulsory but advisable at night.
OPENING/CLOSING HATCHES: Normally opened/closed by the crew, otherwise according to Charter Party.
SHIP'S CERTIFICATES: Usual documents on board. Safety Wireless, Safety Equipment, Deratisation and Registered Tonnage Certificates are the only ones required by the Authorities.
CUSTOMS ALLOWANCES: Crew: 3 Kilos tobacco per person. Passengers: 2 kilos per person. Any excess on this amount must be declared on a separate Manifest as in transit. Wine and/or Spirit: Only one bottle per man. Any excess, must be declared on a separate Manifest as cargo in transit and stowed apart from the tobacco and spirits carried under the Provisions List. This Manifest must be visaed by the Spanish Consul at the last port of call. Any infringement of this regulation will subject the vessel to the immediate imposition of heavy fines and confiscation of the excess tobacco.
IDENTIFICATION CARDS: Not required.
CONSULS:

France	Tel. 314472	Portugal	Tel. 320148
Denmark	,, 314400	Sweden	,, 320850
Italy	,, 320200		

REPAIRS: Only small ones.
REPATRIATION: There exist good facilities.
AIRPORT: Gerona Airport situated at 40 km. distance and half an hour time by car from Palamos. Regular flight services with Madrid, Barcelona, Palma Mallorca, London, and all over the world with transhipment at Madrid and/or Barcelona.
TIME: Always GMT plus 1 hour.

HOLIDAYS: New Year's Day (1st January); The Three Wise Men (6th January); St. Joseph (19th March); Good Thursday – afternoon only; Good Friday; Easter Monday; Whit Monday; Labour Day (1st May); Ascension Day; Corpus Christi; Main Holiday (24th June); St. Peter and St. Paul (29th June); National holiday (18th July); St. James (25th July); Our Lady's Assumption (15th August); Columbus Day (12th October); All Saints Day (1st November); Immaculate Conception (8th December); Christmas Day (25th December); Second Christmas Day (26th December).
POLICE/AMBULANCE/FIRE: Police 31 41 87; Ambulance 31 43 50; Fire 31 43 50.

AGENT: Hijo De Julio Matas, Plaza Catifa s/n. Palamos (Gerona). Telegrams "Matas", Palamos. Tel. 31 44 81, 31 41 34. (Shipbrokers, Stevedores, Customs, Lloyd's Agency.)

PALMA: 39.47 N. 02.46 E.

DOCUMENTS: See "Bilbao".
PILOTAGE: None available. Two intermittent lights situated on the Mola indicate the Entry Channel.
MAX. SIZE: Advisable length and draft 60 and 4·50 metres respectively.
TUGS: None available.
MEDICAL: It is advisable to give advance notice if medical attention is required. There are no hospitals. Medical service is available 5 kilometres from the port.
FRESH WATER: Not available at the quay.
FUEL: None available. If required the order should be placed to Campsa through the Agent.
GANGWAY/DECK WATCHMEN: Crew do this operation.
OPENING/CLOSING HATCHES: Crew.
IDENTIFICATION CARDS: It is advisable to have these available.
CONSULS: None.
REPAIRS: No facilities exist.
AIRPORT: The airport is situated 40 kilometres away; the island is well connected with the Peninsula (main land) and with foreign airports.
TIME: GMT plus 1 hour.
SHORE LEAVE: Allowed.
AUTHORITY: Jefe Encargo del Despacho de Buques, Oficianas del Destacamento de la Comandancia Militar de Marina en Soller.

PASAJES: 43.21 N. 01.54 W.

DOCUMENTS:
4 Crew Lists.
2 Passenger Lists or negative.
2 Cargo Manifests with an individual copy of each Bill of Lading for parcels to be discharged at port of Pasajes.
Copy of Manifest covering other cargo on board in transit for other ports.
Stores List in duplicate, including tobacco, cigarettes, spirits, radios, etc., belonging to the vessel.
Detailed Crew's Stores List, in duplicate, of all personal effects pertaining to crew and passengers (tobacco, cigarettes, spirits, cameras, radios, arms, etc.).

For vessels exceeding 499 tons GRT Safety Manifest Certificate; Safety Equipment Certificate, Deratisation Certificate should be on board ready for production.
PILOTAGE: Pilot service is compulsory and permanent. Pilots board vessel in an area about one-and-a-half miles out from leading lights of entrance of port. The telegraphic address is: Corporacion Practicos, Pasajes. Notice should be given 24 hours before arrival; generally Agents keep Pilots informed of vessel's time of arrival when they are advised by Masters. VHF service will be available after 1970.

Pilots' cutter is painted in naval-grey with letter "P" painted in white on both sides of bridge; flag with letter "P" in white, is hoisted on cutters' mast.

International pilot signals are used by Pilots, by means of Aldis lamps, when approaching vessel at night. International light and sound signals to be made by vessel when requiring the Pilot.

In event of bad weather Pilots cannot board vessel at usual one/one-and-a-half miles location. Then vessel has to wait for instructions (VHF or radio) for coming in port.

With respect to boarding and safety measures the international safety regulations are to be carried out.
ANCHORAGES: A limited number of vessels may anchor in roads inside the port, in good shelter. Depth in area of anchorage is 25–30 ft.
RESTRICTIONS: Vessels over 120 metres length must enter port with tide and in daylight.
MAX. SIZE: The maximum permissible dimensions at present are: Length 150 metres; draft 24 ft. from 1 November to 31 March (winter), 25 ft. from 1 April to 31st October (summer). These dimensions may be altered in near future, when the works actually under way in the entrance channel are concluded.
HEALTH: If vessels proceed directly to berth pratique can be obtained immediately upon berthing. Vessels anchored in bay, pratique can be obtained after anchoring. In case of any suspected disease or fever on board, the Master must advise the Agents, by radio, in order they inform the Sanitary Authorities in advance.
RADIO: Nearest Radio Station is Cabo Mayor Radio. Messages by radio-telephone can be transmitted via Radio Arcachon (France). Notice of ETA should be sent to Agent 24 hours before arrival.
TUGS: No tug-boats required for vessels of normal steering when entering port. Tug-boats are required for berthing or shifting to and/or from quays Muelle De Ancho, Muelle De Molinao, Muelle De Capuchinos for vessels from 80 metres length on. Ship's lines are used and tug-boats are employed according to Pilot's advice.
BERTHING: Berths are appointed by Port Authorities after notice of arrival and information regarding cargo given by Agent. Pilots inform Masters of location of berth appointed, if any. No tidal difficulties for berthing or shifting inside the port.
STEVEDORES: ETA advice should be received by Agent 24 hours before arrival in order arrange loading/unloading operations with stevedores. The official working time in the port is: Monday/Saturday 08.00 to 12.00 and 13.30 to 17.30 hours.
MEDICAL: Any kind of medical assistance is available. In case urgent surgical or medical assistance required on vessel's arrival, Agent should be timely informed for making the necessary arrangements.

No particular inoculations required or vaccination/fever certificates to be produced unless epidemic at port wherefrom vessel is proceeding or has called during voyage.
TANKERS: Slop discharge to shore possible under agreement. Oil/tallow/asphalt-carriers berth alongside quays with 30 ft. of water. Diameter of discharge shore-lines are 6 in. and 8 in.
FRESH WATER: Available on all quays. Delivered by hoses directly from the quay at rate of 10 tons per hour. Cost per ton Pts. 15.–.
FUEL: Ordinary fuel oil and gas oil are available. Supply is by means of pipes on bunkering pier Muelle De Petroleos. Owners should stem the bunkers with "Campsa" 48 hours before delivery.
FIRE PRECAUTIONS: No specific precautions required unless the vessel carries inflammable cargo. Special harbour fire-fighting corps.
DEVELOPMENTS: Extensive developments respecting the construction of new quays and amelioration of the entrance channel are actually under way. The works in the entrance channel will permit a draft and length increase.
GANGWAY/DECK WATCHMEN: Not compulsory. Shore watchmen available.
OPENING/CLOSING HATCHES: Normally carried out by crew.
SHIP'S CERTIFICATES: To be produced if required, specially Safety Wireless, Safety Equipment and Deratisation Certificates.
CUSTOMS ALLOWANCES: In case the vessel carries more than three kilos tobacco per each crew member and more than two kilos per passenger, the excess must be declared in a separate Manifest which must be legalised by the Spanish Consular Authorities. In absence of Spanish Consular Authorities that Manifest will have to be legalised by an Authority of last port of clearance wherefrom the vessel proceeds. Prudent, limited amount of spirits allowed per man.
IDENTIFICATION CARDS: Not required.
CONSULS: Consulates/Vice-Consulates at San Sebastian and/or Pasajes:

Argentina	El Salvador	Netherlands
Belgium	Finland	Norway
Brazil	France	Panama
Columbia	Germany	Paraguay
Costa Rica	Great Britain	Peru
Chile	Greece	Portugal
Denmark	Italy	Sweden

REPAIRS: Repair shops and shipyards available, where repairs or overhauls may be carried out.
DRY DOCKS: One floating dock 66·27 metres long, 23·25 metres wide, 9·125 metres draft. with lifting power of 1,900 tons. Two slipways (one for vessels of up to 1,000 tons – one for vessels of up to 300 tons).
REPATRIATION: Good facilities for repatriation.
AIRPORT: Airport of Fuenterrabia is situated at 15 km. from Pasajes. Regular daily services with Madrid and Barcelona.
TIME: GMT plus 1 hour.
HOLIDAYS: 1st January; 6th January; 19th March; Maunday Thursday (afternoon); Good Friday; 1st May; Ascension Day; Corpus Christi; 29th June; 7th July; 18th July; 25th July; 31st July; 15th August; 12th October; 1st November; 8th December; 25th December.
POLICE/AMBULANCE/FIRE: Police 51841; Ambulance 14148; Fire from 08.00 to 19.30 tel. 51400, from 19.30 to 08.00 tel. 52391; Red Cross (local) 51032; Hospital, San Sebastian, 23632.
TELEPHONES: No possibility of placing telephones on board.
SERVICES: Divers, compass adjusting.
SHORE LEAVE: Crew allowed to land immediately upon arrival.

AGENTS: Sobrinos De. M. Camara Y Compania, Telegrams "Camara", Tel. 51414, 51293, 52734. Telex 36241.
(Shipbrokers, Customs/Forwarding Agents, Chartering Agents, Lloyd's Sub-Agents')

ROSAS: 42.14 N. 03.10 E.

DOCUMENTS:
Crew List.
Passenger List.
(One of each) Ship's Papers.
PILOTAGE: No pilots in this port.
ANCHORAGE: Bay of Rosas is anchorage area.
MAX. SIZE: Draft in Commercial Port is 4 metres, which berths cargo ships of about 1,000 metric tons of net register.
HEALTH: Once ship is anchored in the bay it requires pratique by means of signals, and by raising the yellow health flag. When vessel

entering after calling at another port in the same country, this procedure is not required; health inspector boards at the quay side.
RADIO: No radio station in the port, but can contact Coastal Radio Station of Barcelona (1730 kc/s. – 173·4 m.), power 150 W.
TUGS: None.
BERTHING: Advisable during daylight only.
MEDICAL: Port Health Doctor available. Hospitals 18 kilometres distance.
FRESH WATER: Available at Commercial Port at rate of 8 to 10 metric tons per hour, price 40 pesetas per ton.
FUEL: None available.
POLICE/AMBULANCE/FIRE: Police Service 25–62–72; Ambulance Service 24–21–20; Fire Service 24–10–00.
AUTHORITY: Ayudante Militar de Marina de Rosas. Tel. 25–63–23.

SAGUNTO: 39.42 N. 00.14 W.

DOCUMENTS:
2 copies Entrance Manifest.
4 copies Crew List.
Passenger List disembarking at this port.
Passenger List in transit.
Refer to "Barcelona" for other important information concerning Documentation.
PILOTAGE: Port is privately owned, and Pilots employed by Altos Hornos de Viscaya S.A. As Pilots are employed in Consignees office, no separate ETA is necessary. They are sent out to meet vessels as required. Pilot boat is not fitted with radar or VHF. Boat displays signals in accordance with international regulations.
ANCHORAGE: Bearing 073° from Cape Escollera de Levante.
RESTRICTIONS: Delays may be caused by berth being occupied. Larger vessels may be delayed by bad weather (the Levante), as dredged channel is narrow.
MAX. SIZE: Draft 29 ft. 5 in. No other limitations.
HEALTH: Pratique can be arranged at any time by Consignees.
RADIO: Cadiz Radio-EAC, Cabo Palos Radio-EAP.
TUGS: Normally join vessel either in anchorage or ½ mile from entrance. Ship's lines are used. Tugs should be ordered in ETA message also mentioning vessels length and cargo. Tugs cost about 75,000 pesetas.
BERTHING: Subject to berth occupation and to berthing priority that Altos Hornos gives to different cargoes. Overnight berthing is allowed, in cases of emergency, or for ship safety.
STEVEDORES: Employed by consignees.
MEDICAL: Medical assistance should be ordered in advance. All kinds of medical assistance available. One hospital owned by Altos Hornos.
TANKERS: No facilities.
DENSITY: Salt water.
FRESH WATER: Available; price is 12 pesetas per metric ton.
FUEL: None available.
PORT FIRE PRECAUTIONS: Fire service organised by Altos Hornos.
GANGWAY/DECK WATCHMEN: Usually by crew. The Civil Guard keep watch on all ships for contraband.
OPENING/CLOSING HATCHES: Effected by ship's crew.
CUSTOMS ALLOWANCES: 200 cigarettes only. One bottle spirits per man but bottle should be opened. Spanish spirits allowed; one bottle per man. No control of Spanish wines.
CREW IDENTIFICATION CARDS: Passport only.
CONSULS: Nearest at Valencia.
REPAIRS: No facilities exist.
REPATRIATION: Facilities for effecting crew changes and arranging repatriation.
AIRPORT: Manises Valencia, 40 kilometres away.
TIME: GMT plus 1 hour.
HOLIDAYS: On religious festivals or Sundays no cargo work can be arranged. These are as follows: Our Lady of the Marine (16th July) no cargo work; National Festivity (18th July) no work; National Festivity (25th Jaly) no work; Hispanic Festivity (12th October) no work; Maundy Thursday, work can be done till 14.00 hours; Good Friday, no work.
TELEPHONES: None on board. Telephones placed in Boat house and Pilots' office.
SHORE LEAVE: Crew members allowed ashore.
PORT AUTHORITY: Ayudante Militar de Marina, Calle General Mola No. 75. Tel. No. 5.

SAN FELIU DE GUIXOLS (Gerona): 41.46 N. 03.01 E.

GENERAL: Refer to Palamos for all general information.
PILOTAGE: Pilotage is compulsory. Service between 07.00 to 24.00 hours.
ANCHORAGE: Vessels arriving after midnight or due to port congestion are anchored outside the breakwater.
MAX. SIZE: The maximum advisable draft for berthing is 25 ft. and up to 115 metres length.
TUGS: No tugs available.
BERTHING: Due to the fact that a few vessels can work at the same time, it is advisable to know as soon as possible the ETA for berthing arrangements.

Commercial Wharf.	Length 108 m.	Depth 24–25 ft.
Breakwater	Length 116 m.	Depth 27–28 ft.

A pier for coasting vessels with a maximum draft of 18 ft.
MEDICAL: Any kind of medical services can be obtained in San Feliu or Gerona hospital.
FRESH WATER: By means of hoses from the pier.
FUEL: Can be supplied in small quantities.
CARGO GEAR: Commercial pier is served by an electric crane able to lift up to 6 tons. Normally vessels derricks are used.
AGENT: See Palamos.

SANTANDER: 43.28 N. 03.49 W.

DOCUMENTS:
5 crew lists.
7 passenger lists, or 3 negative.
3 cargo manifests of the goods destined to the port of Santander, two sets of manifests for cargoes in transit.
Store list in triplicate, including tobacco, spirits, radios, etc., belonging to the vessel.
Detailed list in triplicate of all personal effects of crew and passengers (tobacco, spirits, cameras, souvenirs, radios, etc.).
For vessels exceeding 499 GRT: Safety wireless certificate and Safety equipment certificate.
Legalisation required for manifests covering tobacco and tobacco products. This legalisation to be effected at the port prior to the first Spanish port of call.
Master and each member of crew of vessel can carry for his own consumption up to 3 kilos of tobacco in whatever form, and, if passengers are carried, up to 2 kilos per passenger, all of which must be declared in provisions list (1 kilo of tobacco = 1,000 cigarettes = 100 cigars). If Masters carry greater quantity than stated above, it cannot be manifested as tobacco for consumption on board, but must be included in Consular Manifest as being in transit, and as such must be separated in the holds from other cargo and hatches or lockers will be sealed by Customs until ship leaves Spanish waters. This Consular Manifest has to be legalised by a Spanish Consul. In the absence of Consul, said document will have to be visaed by an Authority of the former port of clearance. Otherwise, vessel would be severely fined.
PILOTAGE: Compulsory and service is permanent. Pilots board vessel by a cutter at the road, near the entrance off Mouro Island. Pilot cutters are painted white and have the letter "P" in black, on each bow. Cutters have blue flag with letter "P" in white, at both sides of flag. At night cutters have a white light, under this a red one. VHF available.
ANCHORAGES: The harbour consists of a large bay which provides good anchorage.
RESTRICTIONS: Entrance is well marked and there is no bar. Depth at entrance is at max. (dependent on tides) 33 ft.
MAX. SIZE: No restriction in respect of length or breadth, the maximum advisable draft to enter port is 33 ft.

	Length	*Depth*
Calderon quay	650 ft.	13 ft.
Maura/Albareda quay	423 ft.	13 ft.
Bloques quay		30 ft.
Anaos ,,	3,940 ft.	32 ft.
Maliaño ,,		25 ft.
Maliaño ,, North Section	1,500 ft.	30 ft.
Campsa quays	900 ft.	24–28 ft.
Nueva Montaña quay	350 ft.	18 ft.

All depths of water quoted above correspond to LWOST and 13–14 ft. should be added for depths at HWOST. Bottom is generally soft. Calatrava Wharf: for discharge of chemicals. Depth alongside 34 ft. with overall length limitation of 980 ft. Up River, at Astillero, beyond the harbour area, there is one spout called Orconera Tip for loading iron ore. Vessels up to 260–270 ft. length are allowed with a maximum draught, fully loaded, of 19 ft. Loaded vessels can only sail from that place at high water. A modern installation for dismantling and scrapping vessels is operating up river, on the way to Astillero.
HEALTH: If the vessels proceed directly to berth, pratique can be obtained immediately after berthing. Otherwise, at anchorage at vessel's arrival.
If vessel has sickness on board of a contagious nature Masters should advise Health Authorities by radio, and they will examine patients immediately upon arrival, to enable vessel to be granted free pratique. Should there be yellow fever on board, the vessel would proceed to Vigo. If vessel has to be fumigated or deratised a charge is made.
RADIO: Nearest important radio station is Cabo Mayor Radio, and it is advisable that messages received at least 24 hours before arrival.
TUGS: No tug-boats required for entering the port, only for berthing or shifting when in port. Ship's lines are used, and tug-boats are employed according to Pilot's advice.
STEVEDORES: It is very important that Masters send advance notice regarding vessel's ETA. With this notice, Agents can inform Shippers or Receivers' stevedores accordingly. Official working hours of port, are: Monday/Saturday: 08.00–12.00; 14.00–18.00.
MEDICAL: Any kind of medical services can be arranged.
TANKERS: "Campsa" (Spanish State Monopoly) has private berths. Installation is served by two identical concrete wharves situated in Nueva Montaña Basin, berthing space of which is 500 ft. with a depth alongside of 29 ft. New wharf under construction for tankers up to 35,000 dwt.
DENSITY: Sea water.
FRESH WATER: Always available. Supply is performed by tug-boats and from shore connections at various quays. Prices vary from Ptas. 30.00 per c.b.m. from tug, to Ptas. 12.00 per c.b.m., if from shore pipe-line.
FUEL: Ordinary fuel, diesel and gas oil are available at "Campsa". Advisable that shipowners stem bunkers through their own Contractors, with an anticipation (at least)of 48 hours. Delivery can be performed either by tank-trucks or at bunkering pier.

DEVELOPMENTS: There is an extensive plan to increase the facilities of port, and also for building new piers. A new basin named Puerto de Raos is under construction (19,000 ft. of new quay line) including container terminal.

GANGWAY/DECK WATCHMEN: Not compulsory but available upon request. The cost of 12 hours' watch is about Ptas. 500,00.

OPENING/CLOSING HATCHES: Effected normally by crew, except in liner vessels, which is contracted by stevedores.

SHIP'S CERTIFICATES: Vessels should have the usual documents on board, but only the Safety Wireless, Safety Equipment and Deratisation Certificates are required by Authorities.

CUSTOMS ALLOWANCE: Normally, Customs permit to have 200 cigarettes per man out of bond. Additional quantities needed depend on the stay of ship in port. One bottle of spirit per man.

CARGO GEAR: Shore cranes are usually employed in loading/discharging operations.

1	fixed electric crane on Maura concrete quay	30 T.
4	movable electric cranes on Maura quay	3–6 T.

TELEPHONES: On very special instances, can be arranged.

SERVICES: Available for tank cleaning, washings, compass adjusting, hull cleaning whilst floating, radio installation repairs, etc.

SHORE LEAVE: Crew allowed ashore at any time.

AGENTS: Modesto Pineiro y Compania, S.R.C. PO Box 14, Paseo de Pereda, num. 27,
SANTANDER. Telegrams "PINEIRO-SANTANDER". Tel. 273600. Telex 35832. (Shipbrokers, stevedores and chartering Agents, Lloyd's Sub-agents.)

TARRAGONA: 41.06 N. 01.17 E.

DOCUMENTS: Cargo Manifest of all goods in ship, stating any foreign port from where those goods come. This procedure should always be done in the first Spanish port.

In first Spanish port ship should produce an Itinerary Manifest; and those ships which carry goods to discharge should produce this Manifest in those ports in which they will discharge the goods.

Supplies Certificate for those ships that not having any goods to discharge in any Spanish port, had previously being in other Spanish port.

Register of the Supplies and Equipments in ship.

Register of the Crew's Belongings, if the ship comes directly from a foreign port.

Passenger List (if there are passengers). Negative Passenger List (if there are not passengers)

Crew List.

Health Certificate, if the ship comes from another Spanish port.

PILOTAGE: Every ship upon arrival should note following signals: During day, hoist flag letter "G" of International Signals Code. Acoustics signal, three long whistles. During the night, flash signal letter "G" of code or the letters "PT". Cable Address: Practicos Puerto Tarragona. No VHF station.

Pilot boats: White colour with letter "P" painted on both sides. Lights: according to International Regulations. Pilotage area begins at a maximum distance of two miles from port entrance. Ships awaiting for Pilot anchor in the Rada and East of the lighthouse. If weather does not allow, Pilot will meet ship at port entrance. Ladder for Pilot to be placed at leeward side.

ANCHORAGE: The West limit is marked by imaginary line on between lighthouse and cathedral tower. East limit is marked by imaginary line between the Paseo de Sta. Clara with the cathedral tower. Depths in Rada are 16 metres and 30 metres; quite good for anchoring (mud and sand).

RESTRICTIONS: No restrictions to enter port during day or night. No tides.

MAX. SIZE: Maximum length 230 metres, maximum draft 32 ft. Outside port the plant of Pantalán de Assesa, one mile West of lighthouse, allows berth of tankers up to 30,000 tons dwt.

HEALTH: Hospitals and clinics available. There is a doctor service in health department of port, which is authorised to vaccinate, and give certificates against yellow fever authorised by the OMS.

RADIO: No radio station.

TUGS: Four tugs. Tugs join vessel outside port. Ship's lines are used.

BERTHING: All berths are made of stone with rubber protection every 20 metres in the port. In Pantalán de Assesa, quays over iron pillars and berth is on the platform.

STEVEDORES: Advisable to report ETA, in order to have all the necessary equipment and necessary number of workmen required for operations. If there are not enough cranes at a given time, own ship equipment is used.

General Cargo: Estimated speed of 80–100 tons per person in a working day of 8 hours, except in particuar cases due to the nature of the cargo.

Cargo in Bulk: Speed varies according to the nature of the goods. For instance:

Minerals 500–800 tons per person in a working day of 8 hours.

Grains: 400–600 tons per person in a working day of 8 hours.

Goods in bags: 150–200 tons per person in a working day of 8 hours.

GANGWAY/DECK WATCHMEN: Not compulsory, if Master requires them he is provided with specialised staff for this purpose, and it is customary to give 350–400 pesetas per watchmen either during the day or overnight, plus social insurance.

OPENING/CLOSING HATCHES: Although this work is normally carried out by crew it can be done as well by the stevedores if required at extra charge.

TANKERS: Outside the port is the Pantalán of Assesa for berthing oil carriers.

Storage of residues: There is a plant for slop (residue) discharge facilities connected with all platforms of the Pantalán and plant of residues disposal is available to all vessels.

There are three platforms to berth with the following draughts: Platform "A" – 38 ft. Platform "B" – 29 ft. Platform "C" – 23 ft. In inner port there are berths to discharge refined goods available to the tankers of the Compania Arrendataria of the Oil Monopoly.

FRESH WATER: Supply of fresh water by means of an underground pipe in all the commercial quays of the port.

FUEL: Available. The grade of viscosity available is below 20 E. to 50 C. Request of this supply should be done with 24 hours notice through the Commercial Agent of Campsa.

DEVELOPMENTS: Building of quay in Levante Dock, with a length of 550 metres and 12 metres draft, with a probable extension of another 300 metres of quay with 14 metres draft. The draft in the port will then be 12·70 metres and in the entrance channel 13·40 metres.

A new embankment in the mouth of Francoli river is pending approval.

CUSTOMS ALLOWANCES: It is permitted to have a packet of tobacco per person per day. Unlimited allowance with national drinks.

CREW IDENTIFICATION CARDS: Not required.
CONSULS: Various available.
REPAIRS: Small repairs available.
DRY DOCKS: None.
REPATRIATION: Facilities exist.
AIRPORT: The town of Reus 12 kilometres distance has a military airport that is also used for charter flights.
TIME: GMT plus 1 hour.
POLICE/AMBULANCE/FIRE: Police 20–11–29; Ambulance at local hospitals; Fire 20–19–50.
SHORE LEAVE: Allowed.
PORT AUTHORITY: Capitan del Puerto en Comandancia Militar de Marina telephone 20–16–22.

TORREVIEJA: 37.58 N. 00.40 W.

DOCUMENTS:
2 Crew Lists.
Customs Documents.
Health Declaration.
Manifests,
Bills of Lading are done by Agents.
PILOTAGE: Requested by Agent. Permanent service. White-painted boat with letter "P" on sides. Pilot goes out of port as far as one mile.
ANCHORAGE: Outside, 0·5 mile off lighthouse of Eastern quay. Inside, according to Pilot's judgement.
MAX. SIZE: Unlimited length and breadth; limiting draft 27 ft.
RADIO: Alicante Coastal Radio.
TUGS: None available.
BERTHING: West quay is 220 metres long with a depth of 10 metres used only for loading salt, 200–400 tons metric tons per hour.
STEVEDORES: Available, employed by the consignees.
MEDICAL: Hospital situated 45 kilometres distance. Medical services and Emergency Clinic in port.
DENSITY: 1034.
FRESH WATER: Available at the quay. Price 50 pesetas per metric ton.
FUEL: None avaialble.
GANGWAY/DECK WATCHMEN: If required can be contracted.
OPENING/CLOSING HATCHES: Carried out by crew.
CUSTOMS ALLOWANCES: 200 cigarettes. Two bottles wine.
IDENTIFICATION CARDS: Not necessary but convenient.
CONSULS: Sweden Vice-Consul 101; Norway, Denmark and Liberia Vice-Consul 135.
REPAIRS: Small repairs in engines, electrical, etc.
REPATRIATION: There are no problems in this respect.
AIRPORT: 30 km. distant at Alicante. Regular flights to Madrid.
TIME: GMT plus 1 hour.
HOLIDAYS: See Huelva.
POLICE/AMBULANCE/FIRE: Police tel. 99, Ambulance and Firemen tel. 83.
TELEPHONES: There are no connections on board. One on the quay.
SHORE LEAVE: No restrictions.
PORT AUTHORITY: Ayudante Militar de Marina and Captain of the Port Telephone 42.

VALENCIA: 39.27 N. 00.19 W.

DOCUMENTS:
3 Crew Lists.
2 Passenger Lists or a negative.
1 Cargo Manifest of goods destined for the port.
Another Manifest covering transit cargo.
2 Store Lists, including tobacco, cigars, cigarettes, coffee, spirits, radios, cameras, etc., in possession of crew. In all cases make and number of radios to be indicated.
Safety Wireless Certificate and Safety Equipment Certificate.
If vessel carries over 3 kilos tobacco per man, the excess to be declared in a separate manifest, which must be visaed by Spanish Consul at the last port, otherwise vessel is exposed to heavy fine.
RESTRICTIONS: Entrance to the port faces S.S.E. and is 492 m. wide, with a low water depth of 13.50 m.
MAX. SIZE: Length 250 m. draft 11 m.
HEALTH: If the vessels proceed directly to berth, pratique can be obtained immediately after berthing. Otherwise, at anchorage at vessel's arrival.
If vessel has sickness on board of a contagious nature Master should advise Health Authorities by radio, and they will examine patients immediately upon arrival, to enable vessel to be granted free pratique.
TUGS: Not compulsory for entering port. 7 tugs available up to 900 h.p. Two tugs normally used for berthing and unberthing.
BERTHING: *Espignon Del Turia:* Berths for 8 vessels, depth alongside 9–11 metres.
Muelle de Poniente: 3 berths, depths alongside 7–11 metres.
Muelle de Levante: 3 berths, depth alongside 8–9.5 m.
Inner Dock: Berths for 6 vessels, depth alongside 7 m.
TANKERS: Berth at Muelle de Poniente, up to 30 ft. draft.
FLOATING DOCK: 1 floating dock available, owned by Union Naval de Levante. Interior length 143 m., interior width 24.60 m. Lifting capacity 8,000 tons.
CUSTOMS ALLOWANCE: Normally Customs permit to have 200 cigarettes per man out of bond. Additional quantities needed depend on the stay of ship in port. One bottle of spirit per man.
FRESH WATER: Available at all main berths at the rate of 30 tons per hour.
FUEL: Campsa can supply by pipelines at the Turia berths, at the rate of 750 tons per hour and at Muelle de Poniente at the rate of 200 tons per hour.
TIME: Always GMT plus 1 hour.
HOLIDAYS: Work can be arranged on following holidays. New Year's Day (January 1 full day); Epiphany (January 6 full day); Saint Joseph (March 19 full day); Easter (two days); Saint Joseph Artisan (May 1 full day); Saint Peter & St. Paul (June 29 full day); Labour Day (July 13 full day); Patron Saint of Spain (July 25 full day); Assumption Day (August 15 full day); Martyrs' Day (August 30 full day); Holiday of Hispanicism (October 12 full day); All Saints (November 1 full day); Christmas Day (December 25 full day).
AUTHORITY: Direccion del Puerto de Valencia, Muelle de la Aduana, Valencia.

VIGO: 42.14 N. 08.40 W.

DOCUMENTS:
Maritime Declaration of Health.
Crew List.
Passenger List.
Manifest of Cargo for the Port.
Manifest of Cargo in Transit.
Ship's Stores List.
Crew's Personal Effects List.
Ship's Particulars Declaration.
Note: Tobacco. In case the vessel carries more than 3 kilos of tobacco per man, the excess must be declared in a separate manifest, which must be visaed by a Spanish Consul. In the absence of the Consul, said document will have to be visaed by an authority of the former port of clearance. Otherwise the vessel would be severely fined.
PILOTAGE: Pilotage at Vigo is compulsory and the service permanent day and night. Pilots board in auxiliary motor-boats with a letter "P" in white at both sides of the hull and a blue flag with the letter "P" in white, near the entrance of the harbour, in the zone included inside Punta Lameda-Cabo Vicos on the channel of the South entrance and inside Punta Caballo-Subrido, on the channel of the North, both situated to the West of the harbour. At night the pilot boats have a white light visible around the horizon and under this light another red one, also visible around the horizon. International code signals used to call Pilot, or four long blasts on the whistle. Pilot station situated at Cabo de Mar. Three pilot boats normally on station on a line connecting Borneira and Cabo de Mar.
ANCHORAGE: Several suitable anchorages in the Vigo River, naturally sheltered, in depths of more than 35 metres. The main anchorage opposite the port on the South side of the river has depths of 15–25 metres.
MAX. SIZE: No limitation for length and beam, unlimited deep water approaches.
HEALTH: If vessels proceed directly to the berth, pratique can be obtained immediately after berthing. Otherwise, at the anchorage on vessel's arrival. In case of suspected disease or fever on board, the Master must send a radio message to the Agent in order that they advise the Health Office.
RADIO: The nearest Radio Station is Vigo Radio, situated in the limits of Vigo port.
TUGS: No tug-boats are required for entering the port. Only used for berthing ships from 120 metres length upwards according to Pilot's advice. At Vigo there are 2 modern tugs of 1,000 h.p. each. Tugs join vessel off the berth. Tug's line used at no extra charge.
BERTHING: The commercial piers to load or unload have a depth of about 28 ft. and the Transatlantic Pier, depth of about 40 ft. at LW. The tide difference between high water and low water is about 3·50 metres.
At Rande, in the lower harbour, there are very modern special loading installations for mineral ore, at an average rate of 2,000 tons per hour. The depth alongside this installation is 36 ft. LW.
TANKERS: Tankers berth at a pier depth alongside 11 metres at low water. Tankers up to 300 metres length acceptable. Inner berth suitable for vessels of less than 100 metres length with a draft of 6 metres. Discharge lines 12 in., 10 in. and two of 8 in. diameter.
STEVEDORES: It is very important that Masters send advance notice regarding the vessel's ETA. With this notice, Agents can inform Shipper's or Receivers' stevedores accordingly, so that they arrange operations properly. The official working hours of the port are: Monday/Saturday, 08.00/12.00 – 14.00/18.00 hours.
MEDICAL: Doctors and hospital facilities available. Advance notice preferred in urgent cases.
DENSITY: Average 1026.
FRESH WATER: Available from the quays at the rate of 50–80 tons per hour, cost 10 pesetas per ton. Can also be supplied by tugs at 500 tons per hour, cost 30 pesetas per ton.
FUEL: Available from the Oil Pier or delivered by barge. 24 hours notice of requirements recommended.
DEVELOPMENTS: Bulk carrier berth under construction suitable for vessels up to 300 metres length and 16 metres draft.
WATCHMEN: Available from shore if required.
HATCHES: Opening may be done by crew to avoid delays. Closing hatches usually performed by crew.
CUSTOMS ALLOWANCES: 200–250 cigarettes or three kilos of tobacco and 2 bottles spirits may be held out of bond for each person. Wine not restricted.
IDENTIFICATION CARDS: Shore passes are provided by the Agent.

CONSULS: Practically all countries have consulates at Vigo.
REPAIRS: All types of deck and engine repairs are possible.
FLOATING DOCKS: Two floating docks available: No. 1, length 140 m., breadth 24 m.; No. 2, length 128 m., breadth 22·40 m.
REPATRIATION: Crew changes and repatriation can be arranged without difficulty.
AIRPORT: Local airport, situated 8 kms. from the port, has one daily flight to Madrid. International airport of Santiago de Compostela is 100 km. away.
TIME: GMT plus 1 hour all the year round.
HOLIDAYS: 1st January; 6th January; 19th March (St. Joseph); Good Thursday afternoon; Good Friday; 28th March (local holiday, Reconquest Day); 1st May (Labour Day); Ascension Day; Corpus Christi; 29th June (St. Peter and St. Paul); 18th July (National Holiday); 25th July (St. James' Day); 15th August; 12th October; 1st November; 25th December.
POLICE/FIRE/AMBULANCE: Police, tel. 21.00.00; Fire, tel. 21.20.00; Ambulance, tel. 21.25.09.
TELEPHONES: No arrangement for connecting on board.
SHORE LEAVE: Allowed without restriction.
AUTHORITY: Director del Puerto, Junta del Puerto y Ria de Vigo, Plaza del Puerto. Tel. 21.13.24.

AGENT: M. Alvarez Tome, Calle Pablo Morillo, 4 – bajo, Vigo. Telegrams: Tomo Vigo. Telephone: 211017, 211810, 217207.

Spanish Sahara

VILLA CISNEROS: 23.42 N. 15.55 W.

DOCUMENTS: *Foreign Vessels*
Crew List.
Health Pratique.
Passenger List.
Cargo Manifest.
Spanish Vessels, in addition to the above:
Safety Equipment Certificate.
Radio Safety Certificate.
Seaworthiness Certificate.
PILOTAGE: Pilot is necessary to cross the bar and for river navigation. Pilot joins at the anchorage. Pilotage compulsory for all vessels over 50 GRT. Contact Pilot by radio telephone via Puerto de Villa Cisneros radio station, operating on 2182 and 2135 kc/s from 0800 to 1300 and from 1500 to 1800 hours GMT.
ANCHORAGE: In depths of more than 10 metres about 0·6 mile East of the breakwater head. This situation is well protected from swell from the S.W. but open to winds from the N.E. which are frequently strong creating difficult conditions for very small vessels. There are no mooring buoys.
MAX. SIZE: Length 100 metres, beam 12 metres, draft 5 metres.
HEALTH: Masters are required to complete a health certificate for the Comandancia declaring that the vessel has not called at any infected ports.
TUGS: None available, only one small launch which may assist.
BERTHING: Breakwater of 750 metres length extends towards the S.E., berths alongside the last 200 metres, one concrete pier for small vessels, three small jetties enclosing two docks, can be used by vessels of medium size.
STEVEDORES: Employed by Port Authority and engaged by ship's Agent.
MEDICAL: Hospital available for any kind of medical attention; doctors and ambulance service available.
TANKERS: Moor at jetty No. 2. Pipelines 4 in. diameter.
FRESH WATER: On the quays are 3 hydrants, capacity 3 tons per hour and 4 of 2 tons per hour. The price per ton is 10 pesetas.
FUEL: Atlas Company can supply fuel subject to advance notice.
HATCHES: Opened and closed by crew.
CUSTOMS ALLOWANCES: Crew are allowed to take only sufficient tobacco ashore for their own consumption. It is not permitted to take alcohol ashore.
IDENTIFICATION CARDS: Seamen going ashore must take an identity card or a shore pass, issued by the Master.
CONSULS: No local representation.
REPAIRS: Only facilities for very minor repairs.
REPATRIATION: Can be arranged provided that documentation is in order.
AIRPORT: Situated 1 kilometre from the port. Iberia Airlines have 5 flights per week. In case of emergency, military aircraft may be used.
TIME: GMT is used all year round.
HOLIDAYS: 1st January; 6th January; Maundy Thursday; Good Friday; Corpus Christi; Ascension Day; 29th June; 16th, 18th and 25th July; 15th August; 12th October; 1st November; 25th December.
Mohammedan Holidays: Aid el Queber (2 days); Aid el Mulud (1 day); Aid el Seguer (2 days).
POLICE/FIRE/AMBULANCE: Police Station situated 100 metres from the quays. Fire: tel. 18. Ambulance: tel. 17.
SHORE LEAVE: Allowed without restriction.
AUTHORITY: El Comandante, Militar de Marino.

Sudan

PORT SUDAN: 19.37 N. 37.14 E.

DOCUMENTS:
Port Sudan Harbour Master's Declaration.
Sudan Customs Declaration.
Quarantine Form.
(All above forms to be filled by Master on arrival).
3 Crew Lists.
3 Passengers Lists.
1 Crew Declaration.
1 Dutiable Stores.
4 copies Manifest.
1 copy B/Lading.
1 Provisions List.
PILOTAGE: 24 hours notice ETA. VHF. Channel 16. Pilot boards South of South Wingate Beacon. Pilotage compulsory.
ANCHORAGES: Towartit Anchorage (see chart.), approx. 8 km. S.E. of harbour.
RESTRICTIONS: No restrictions providing berth available.
MAX. SIZE: Length 850 ft. maximum. Draught at Oil Terminal 37 ft., other berths 34 ft. 6 in.
HEALTH: Radio pratique obtainable if message sent not more than 24 and not less than 8 hours before arrival to "Quarantine, Port Sudan", with following information: Name of ship and ETA; Name of Agent; Whether surgeon carried or not; Whether illness on board, if so, what illness; Port of departure and last port of call. On receipt the Quarantine Medical Officer will inform ship by wireless whether pratique is granted or not.
RADIO: Port Sudan Radio (call sign STP). Operates daily on High Frequency as follows: 8652 Mcs from 0400 hours to 1600 hours GMT; 4356 Mcs from 1600 hours to 0400 hours GMT; 0500 kcs – continuous listening watch for first ten minutes of every hour. Radiograms may be handed in at Port Sudan Post Office at all times and at Port Sudan Quays Post Office during office hours.
TUGS: About one mile from harbour entrance. Either ship's or tug's lines at Pilot's discretion.
STEVEDORES: Require 24/48 hours advance notice of ETA and stowage of cargo. Rate of Discharge and Loading: General cargo, 5–10 tons per hook per hour. Bagged cargo, 15–20 tons per hook per hour.
Exports. Main exports, cotton, cottonseed, gum Arabic, oilcakes, MOP shells, trocas shells, senna, beans, domnuts, oilseed, hides, skins, salt, beeswax, durra, wheat bran, chick peas, karkadeh and castor seed.
Tea. Following exports should not be stowed with tea: castorseed, hides, linseed, edible oil, oilcake. Cottonseed may be stowed with tea with separation of 3 ft. but it is preferable to stow in separate compartment from tea.
Cotton. Gum should never be stowed with cotton.
Transhipment cargo. Is normally not accepted at Port Sudan without prior permission, except in very small quantities.
Weight. Deadweight of cargo is expressed per ton of 1,000 kilos.
RADAR/VHF: No port radar. VHF channel 16. Range 20/25 miles.
MEDICAL: Advance notice advisable. Hospital facilities available. Crew and passengers must have International Health books valid.
TANKERS: No. 16 berth – draught 34 ft. 6 in. No. 17/18 draught 37 ft.
DENSITY: 1025.
FRESH WATER: Available ex quay and ex barge 150 m/ms per ton.
FUEL: Marine Fuel oil (normally 1000 secs.); marine diesel oil (42/45 secs.); gas oil (35 secs.). 24/48 hours advance notice advisable Name of suppliers is required.
GANGWAY/DECK WATCHMEN: Recommended.
OPENING/CLOSING HATCHES: Normally by stevedores.
CUSTOMS ALLOWANCES: Tobacco, 200 cigarettes per person. Wine and/or Spirit, two bottles of different kinds per person. Only personal requirements may be taken ashore.
CREW IDENTIFICATION CARDS: Not required.
CONSULS: UAR and Nigeria.
REPAIRS: Minor deck and engine repairs.
DRY DOCKS: None.
REPATRIATION: Not recommended. Formalities take 2/3 days.
AIRPORT: 3 miles; 4 days per week Port Sudan to Khartoum. 2 days per week Port Sudan to Cairo.
TIME: GMT plus 2. In summer, GMT plus 3 hours.
HOLIDAYS: Any work done ranks as overtime: Fridays (Moslem Sunday) (1 day); Shel El Nesim (1 day); Ramadan Bairm (4 days); Kurban Bairam (5 days); Mohammedan New Year's Day (1 day); Mulid El Nebi (1 day); Christmas Day (1 day); Independence Day (Jan. 1st, 1 day); Revolution Day (Oct. 21st, 1 day; May 25th, 1 day). No overtime will be authorised on following days although Port Authority may make exceptions in favour of black and white oil tankers discharging bulk oils, and for passengers' baggage: Mulid Nebi; Christmas Day; Second day of Ramadan Bairam; Second day of Kurban Bairam; Revolution Day.
POLICE/AMBULANCE/FIRE: Police 2424; Ambulance 2400; Fire 3001.
TELEPHONES: No arrangements exist for placing telephones on board.
GENERAL: No foreign currency allowed ashore. Crew are permitted to go ashore with only 5 pounds Sudanese.

AGENT: May Working People Corporation, PO Box 17, Port Sudan. Telegraphic address: "Mayo" Portsudan. Telex: No. 6. Tel. (during office hours) 2437; 2029, 2389; after office hours 2136, 2040.

Surinam

MOENGO: 05.38 N. 54.25 W.

A bauxite mining town about 70 miles up the Cottica river, a tributary of the Commewijne river, which latter joins the Surinam river at Fort Nieuw Amsterdam.
DOCUMENTS/PILOTAGE/GENERAL INFORMATION: refer to "Paramaribo."
TUGS: Two tugs are available, the larger is 1,750 h.p.
MAX. SIZE: Ships of 525 ft. can be accommodated. Ore vessels call daily. Draft depends on bar draft Surinam river.
BERTHING: Moengo has two piers at which ore is loaded by a transporter at the rate of 800/1,000 tons per hour. One pier is 430 ft. long and has a depth of 24ft. alongside. Both will accommodate ships of 525 ft. length. Tracks are laid on the 430 ft. pier and a 25 ton crane is available.
PROVISIONS: Not available.
FUEL: Small quantities can be supplied.
FRESH WATER: Small quantities can be supplied.
AIRPORT: About 5 km. from docks.
AUTHORITY: District Commissioner acts as Harbourmaster.
AGENT: Alcoa Shipping Co.

NEW NICKERIE: 05.57 N. 56.59 W.

DOCUMENTS:
2 copies Crew List.
2 copies Passenger List.
Customs Documents; Crew Declaration Lists; for instance, souvenirs, electric apparatus, etc.
2 copies Ship's Store Lists.
3 copies Manifests of Import.
3 copies Manifests of Export.
1 copy Transit Manifest.
2 copies Manifests of Coastal Cargo.
Ship's Papers to be shown on request.
PILOTAGE: Pilotage is compulsory for the Nickerie river for ships bigger than 50 gross tons. There is always a pilot available in Nickerie. ETA to be sent 48 hours before arrival and if necessary a correction message to the Agent.

Ships can only enter the river at or about the time of HW. The pilot-station is near the sea-buoy (buoy no. 1) and the Pilot will be there 15 hours before HW Nickerie to bring in the expected ship.

The pilot-boat is an iron, white-painted vessel with two masts (yellow-coloured). The pilot-boat does not use the international red-white pilot lights in night-time. It is not possible to make radio-telephone contact with the boat. There is a signal-lamp on board. Send ETA message to Agent who will order the Pilot. Awaiting HW the vessel can anchor about 3 miles N.N.E. of the sea buoy.
ANCHORAGES: With a draft of 15 ft. the ship can safely anchor 3 miles N.N.E. of the sea buoy. It is not advisable to anchor in the Nickerie river for a long time, the river is too narrow.
MAX. SIZE: With springtide the maximum mean draft must not exceed 15 ft. 6 in. and with neaptide not more than 12 ft. The vessel has to use the high-inlet while passing the bar. Maximum permissible length of vessel is 150 metres (500 ft.). At low water vessels are safe aground in mud alongside the wharf. The berth for oil-carriers is in the river.
HEALTH: There is no pratique-procedure. Only in the event of any suspected disease or fever on board a doctor must be called.
RADIO: Send ETA cables to Paramaribo Radio.
TUGS: No strong tugs available.
STEVEDORES: The Agent orders the gangs (maximum three gangs available).
MEDICAL: No advance notice required for medical treatment. There is one hospital in Nickerie with a surgeon.
TANKERS: There are 3 piers in Nickerie: Esso, Shell and Texaco-pier. Maximum permitted draft 15 ft. 6 in. Ships discharge via a floating-hose.
DENSITY: In the dry season the density on the river near New-Nickerie is 1015. In the rainy-season the density is 1005 near HW, and 100 near LW. These all depend upon springtide or neaptide.
FRESH WATER: Fresh water is available alongside the wharf of New-Nickerie. It costs Sf 0.50 per metric ton, It is loaded from shore by hose.
FUEL: Small quantities of fuel available from Esso or Shell, also grease and petrol.
DEVELOPMENTS: In the future a bigger and deeper port will be built in the Corentyne river, about 20 miles up the river.
GANGWAY/DECK WATCHMEN: It is recommended to have a watchman during the night. The costs are about U.S. $5.– per night.
OPENING/CLOSING HATCHES: Patent hatches must be opened by the crew, other hatches by the stevedores.
CUSTOMS ALLOWANCES: For the crew: 40 cigarettes every 72 hours staying in port. For the captain 200. Wine/Spirits. For the crew: ½ litre every 72 hours. For the captain: 1 litre every 72 hours.
IDENTIFICATION CARDS: Not needed.
CONSULS: No consuls in Nickerie.
REPAIRS: Small engine repairs and shaft repairs and some welding repairs can be done.
REPATRIATION: Is possible via Paramaribo.
AIRPORT: The airport is 10 miles from the port of Nickerie. Two times per day there is a flight to Paramaribo arranged by a local company, called S.L.M.
TIME: Local time = GMT minus 3.30 hours. No alteration in time.
HOLIDAYS: All Christian holidays, the birthday of Queen Juliana (30th April) and the 1st July (Abolition of Slavery). On this day it is not possible to load or discharge. On other days work can be done by paying overtime.
POLICE/AMBULANCE/FIRE: Police 356; Ambulance 241; Fire 333.
TELEPHONES: No arrangements can be made for a telephone connection on board.
SHORE LEAVE: Without reserve.
DELAYS: Delays in berthing: there are only two wharves with a total length of 700 ft. Banana ships have priority. Delays in loading and discharging: there are only three gangs of stevedores. These can be enlarged to five "small gangs".
AUTHORITIES: Port Captain, New Nickerie.

PARAMARIBO: 05.49 N. 55.09 W.

On the left bank of the Surinam river about 8 miles above Niew Amsterdam and 21 miles from light-vessel at river entrance.
DOCUMENTS:
5 Incoming Cargo Manifests (if any cargo), otherwise three copies.
1 Cargo Transit Manifest.
4 Outward-going Manifests.
These above-mentioned must be sent ahead to the Agent so that they can be translated into Dutch.
4 Crew Lists.
2 Store Lists.
2 Crew Declaration Lists.
6 Passengers Lists.
PILOTAGE: Compulsory. All ships are requested to amend their estimated time of arrival in local time, at least twelve hours in advance by special message through the wireless station to their Agents or to the Harbour Department. Arrival message should include draft of vessel and other requirements. As there is no shipping but in the Surinam river, the Commewijned river, the Cottica river and the Nickerie river, all Pilots except one for Nickerie are stationed at Paramaribo. Paramaribo Pilots board the vessels at the light-vessel of the Surinam river. The Harbour master is the chief Pilot. All vessels have to stop off the light-vessel.
ANCHORAGE: Anchorage off town in 18–35 ft. of water at LWS. Government officials board vessels immediately on arrival for inward clearance. Vessels which are required to anchor off the port to wait for berths may be boarded at the anchorage.
RESTRICTIONS: Bar has minimum depth of 15 ft. 5 in. Rise neaptide 6 ft. 7 in. springtide 8 ft. 10 in. Due to the fact that the bar consists of very soft mud, vessels regularly leave the ports with a draft of 25 ft. (by springtide).
RADIO: There is a 24 hours radio telephone service at the Harbour Department in the 8233.9 kc. band. The coast station also maintains a 24-hour radio telegraph (500 kc.) and telephone service in the 2182 kc. band.
HEALTH: Port doctor will visit an arriving ship only if there is a case of contagious disease aboard, or if one of the preceeding ports of call has been declared to harbour contagious disease. No bill of health is required. A ship with an infection on board must advise the Harbourmaster by special message through the wireless station before arrival.
BERTHING: *Government wharf,* 680 ft. long. Least depth 15 ft. 290 ft. of this wharf is owned and operated by the Surinam Navigation Co. The remaining 390 ft. is the only berth open for public use. Fresh water available.

The Royal Netherlands Steamship Co. Wharf, 818 ft. long, least depth 16 ft. Fresh water can be supplied.

O.G.E.M. wharf, 120 ft. long least depth 14 ft. Oil/gas discharge for public undertakings.

B.E.M. wharf, 110 ft. long, least depth 14 ft. Private cement and gravel discharge wharf, Moorings 450 ft. apart.

Belwaarde: 3 miles above Fort Nieuw Amsterdam on the right bank of the Surinam river. Length of pier: 279 ft., least depth 18–20 ft. Loading sugar.
MEDICAL: Excellent medical and dental attention is available to crew members of all vessels.
FRESH WATER: The water is of excellent quality. Available at most berths as mentioned above.
FUEL: Ship's bunkers are available in most ports of Surinam in limited quantities. Advice regarding quantities and specifications of oil should be given to Agent's representative immediately after docking.
CUSTOMS ALLOWANCES: 60 cigarettes or 15 cigars or ½ pound of tobacco. ⅕ litre of spirits, ⅓ litre of wine, 2 litre of beer, for each crew member. All quantities in excess of the above, will be put under seal.
REPAIRS: No facilities for major ship repairs. Local workshops can do repairs of minor nature. There are two floating dry docks and one floating derrick owned and operated by the Surinam Drydock

Co. Lifting capacities dry docks: 400–650 tons. Lifting capacity floating dry dock under construction with displacement of 2,500 tons.

WATCHMEN: The customs board the vessel while riding at anchor or alongside one of the docks. All vessels are required to make a proper gangway available to the custom boarding officer.

The local authorities assign one or more custom guards to each vessel during its stay in port. The charges for guarding are for the account of the vessel. These officials must be provided with meals on board at regular meal hours, and rooms if necessary.

REPATRIATION: Under special circumstances vessels may sail without all crew members on board (sickness, etc.). The master furnishes a letter to his Agent authorising him to accept responsibility for the missing seaman or seamen.
